- May 12—Guncotton storehouse of Anderson Chemical company, Wallington, N. J., wrecked by explosion; three dead.
- May 13—United States sends first protest to Germany on sinking of Lusitania as not compatible with international law.
- May 23—Italy declares war on Austria-Hungary.
- May 25—American ship Nebraskan, chartered to British White Star line, carrying coal for United States navy, damaged by a German submarine near Ireland.
- May 28—Germany defends sinking of Lusitania, asserting that it carried munitions and traveled too fast to be warned.
- June 8—William J. Bryan resigns as secretary of state.
- June 9—United States again asks Germany, in second Lusitania note, for assurances that American lives and property will be safeguarded in future.
- June 12—Bernhard Dernburg, German propaganda leader in America, who justified sinking of Lusitania in newspaper interview, departs for Germany via Norway because of his unpopularity.
- June 23—Robert Lansing, counselor of state department, made secretary of state.
- June 28—British mule ship Armenian sunk by German submarine; twenty Americans dead.
- June 29—Austria protests to the United States against shipment of munitions to allies; admits America's legal right, but insists action is not neutral, because part of belligerents are cut off from supply.
- July 2—Frank Holt (Erich Muentzer) tries to blow up capitol at Washington as protest against making munitions; next day tries to kill J. P. Morgan; commits suicide in jail, July 6.
- July 7—Incendiary fire discovered in hold of transatlantic steamer Minnehaha; little damage.
- July 8—Germany promises that American ships in the prosecution of legal voyages will not be hindered; American lives on neutral vessels shall not be placed in jeopardy.
- July 9—Cunard line steamship Orduna, carrying Americans, attacked off Irish coast by submarine with torpedo and shells without warning; uninjured.
- July 12—Germany declares attack on steamer Nebraskan was due to misunderstanding; expresses regret and promises compensation.
- July 13—Public disclosures prove attempts by German sympathizers in United States to destroy by bombs the following transatlantic vessels: Bankdale, Touraine, Devon City, Lord Erne, Cressington, Samland, Lord Devonshire, Kirkswood and Strathay.
- July 13—Mixing building of United Safety Powder company at Jefferson, Ky., wrecked; three killed.
- July 21—United States, in third Lusitania note, asks Germany to make reparation for lives lost and disavow act; declares that such another attack will be considered deliberately unfriendly.
- July 25—American ship Leelanaw, from Archangel to Belfast, loaded with flax, torpedoed off the Orkneys.
- July 31—British steamer Iberian, 5,223 tons, sunk; three Americans killed by shell fire; three wounded.
- Aug. 12—United States replies to Austria-Hungary that it is not violating neutrality in making munitions.
- Aug. 16—Five killed in explosion of Sinnamahoning (Pa.) plant of Aetna Explosives company.
- Aug. 19—White Star liner Arabic, 15,801 tons, torpedoed; two Americans killed.
- Aug. 19—Germany regrets that any Americans lost their lives on Arabic.
- Aug. 20—Italy declares war on Turkey.
- Aug. 24—German Ambassador Bernstorff gives out interview in Washington saying loss of American lives on Arabic was "contrary to our intention."
- Aug. 28—Two Du Pont powder mills at Wilmington, Del., destroyed; two killed.
- Aug. 30—Shrapnel plant of E. J. Dodd company, Baltimore, Md., burned.

- Aug. 30—Through discovery of letters carried by James J. F. Archibald and seized by English at Falmouth, United States learns that Dr. Constantin T. Dumba, ambassador of Austria-Hungary to United States, writes his superiors that he has plans "under way to 'disorganize and hold up for months, if not entirely prevent, manufacture of munitions in Bethlehem, Pa., and middle west, which, in opinion of German attache, is of great importance and amply outweighs expenditure of money involved.'" Other disclosures also made.
- Sept. 1—Germany promises that "liners will not be sunk by our submarines without warning and without safety to lives of noncombatants, provided that liners do not try to escape or offer resistance."
- Sept. 4—Steamship Hesperian, 6,124 tons, torpedoed; one American killed.
- Sept. 9—President Wilson asks recall of Dr. Dumba, Austro-Hungarian ambassador, on ground of Archibald disclosures.
- Sept. 16—British government condemns Chicago meats seized in four Norwegian ships as contraband; value \$15,000,000.
- Sept. 19—Germany, after negotiation in case of the William P. Frye, agrees that amount of damage shall be settled by conference of experts and says: "submarines have been ordered not to destroy American merchantmen carrying conditional contraband."
- Sept. 21—British house of commons makes public thirty-four letters and documents found on Archibald; two from German attache, Boy-Ed, and one from Von Papen, German captain.
- Sept. 24—Austria-Hungary reiterates protests against America's making of munitions.
- Oct. 5—Germany advises United States that commander of submarine which sank Arabic feared liner meant to ram him.
- Oct. 12—Edith Cavell, English nurse, executed at Brussels in spite of protest of American legation.
- Oct. 13—Bulgaria declares war on Serbia.
- Oct. 14—Great Britain declares war on Bulgaria.
- Oct. 15—Russia and France declare war on Bulgaria.
- Oct. 15—Six officers of German interned steamer Kronprinz Wilhelm break parole and escape in yacht.
- Oct. 19—Italy declares war on Bulgaria.
- Oct. 24—United States secret service men arrest Robert Fay, lieutenant in German army, and others in New York on charge of conspiring to destroy munitions ships by bombs; Fay, Walter Scholz and Paul Daeche found guilty May 8, 1916.
- Nov. 7—Ancona, 8,210 tons, sunk by Austrian submarine; twenty-four Americans killed.
- Nov. 8—German gunboat Geier interned in Honolulu with German steamer Locksum.
- Nov. 10—Machine shop of Bethlehem Steel company, South Bethlehem, Pa., burned with loss of \$5,000,000.
- Dec. 3—United States asks Germany to recall Capt. Boy-Ed, military attache, and Capt. von Papen for "improper activities in military and naval matters." Boy-Ed said to have handled \$750,000 for chartering ships to supply German raiders.
- Dec. 3—United States steamer Communipaw sunk.
- Dec. 4—Karl Buenz, Adolf Hochmeister, George Koetter and Joseph Poppinghaus of the Hamburg-American line convicted of conspiracy to deceive and defraud the United States by supplying German cruisers at sea.
- Dec. 5—American oil tank ship Petrolite attacked.
- Dec. 6—United States sends Austria note of protest against sinking of Ancona.
- Dec. 7—President Wilson advocates preparedness in message to congress.
- Dec. 23—Three German sympathizers indicted in New York for attempt to blow up the Welland canal.
- Dec. 20—British liner Peisla sunk by submarine; Robert N. McNeely, newly appointed consul of United States at Aden, Arabia, killed; also Homer R. Salisbury, American missionary.
- 1916.
- Jan. 6—Brindisi, Italian steamship, strikes mine; one American killed.
- Jan. 7—Germany in official note promises submarine shall insure safety of crews and passengers; if accident prevents this, will make reparation; offers to pay indemnity for Americans lost on Lusitania.
- Jan. 18—United States asks Great Britain, France, Belgium, Russia and Italy to agree to certain restrictions to insure safety of non-combatants and their rights to travel in war zones.
- Jan. 27—President Wilson begins speaking tour through country to advocate large volunteer army with reserve of 500,000.
- Feb. 1—Appam, British steamer, captured at sea by German raider Moewe, reaches Norfolk, Va., in hands of German prize crew to be interned. British protest seizure and take question into courts; decision in favor of British rendered July 29, 1916.
- Feb. 10—Lindley M. Garrison resigns as secretary of war as protest against volunteer army policy.
- Feb. 10—Austria and Germany announce to United States that after Feb. 29 they will treat armed merchantmen as belligerent ships.
- Feb. 17—Lusitania case regarded as settled; Germany agrees to warn liners, but objects to armament.
- Feb. 24—President Wilson, in letter to Senator Stone, declares rights of Americans cannot be abridged or denied and that order to Americans to keep off armed merchantmen would be such denial.
- March 3—Gore resolution declaring sinking of armed merchant vessel by submarine with loss of American life cause for war lost in senate.
- March 7—House refuses to consider McLemore resolution to warn all American citizens against traveling in armed ships.
- March 9—One American injured in torpedoing of Norwegian bark Silivius by German submarine.
- March 10—Germany declares war on Portugal.
- March 16—Dutch liner Tubantia, with Americans aboard, torpedoed without warning; British merchantman Berwindale, with four Americans aboard, torpedoed.
- March 23—Allied nations reply to proposal of Jan. 18, asserting that in view of ruthless torpedoing of merchantmen they cannot accept plan proposed by United States.
- March 24—French channel steamer Sussex torpedoed without warning; Americans injured. British merchantman Englishman torpedoed; one American killed.
- March 25—United States makes public status of armed merchant vessels.
- March 27—United States asks Germany if her submarine sank the Sussex.
- March 27—British merchantman Manchester Engineer with Americans aboard sunk without warning by torpedo.
- March 28—United States asks Germany if her submarine sank the Englishman.
- March 29—United States asks Germany if her submarine sank Manchester Engineer.
- March 31—Horst von der Goltz, alleged German spy, discloses plot to invade Canada, destroy Welland canal; admits enlisting Germans in Baltimore and elsewhere.
- April 1—United States asks Germany if her submarine sank British steamer Eagle Point, with Americans aboard, on March 28.
- April 1—United States asks Germany if her submarine sank British steamer Berwindale, with Americans aboard, on March 16.
- April 11—Germany replies Berwindale tried to escape submarine; Englishman tried to escape; Manchester Engineer not established; Eagle Point tried to escape; Sussex sinking not yet traced to submarine.
- April 18—United States furnishes proof that German submarine sank Sussex; threatens breach of diplomatic relations if similar sinking is repeated.

- April 19—President Wilson goes before congress to explain details of submarine controversy and warning to break relations.
- April 19—Government officers in New York seize papers of Wolf von Igel, former secretary to Capt. von Papien; German ambassador asks for papers on ground of diplomatic immunity; government offers to give him any that he can identify as belonging to embassy.
- April 27—Congress increases the number of cadets admitted to West Point.
- May 4—Germany announces submarine commanders have received orders not to sink ships without warning and saving human lives, unless they offer resistance or attempt to escape.
- May 9—Germany in detailed statement declares all ships encountered by submarines will be dealt with according to international law; if neutral is damaged Germany will make reparation without recourse to a prize court or submit to international arbitration.
- May 13—New York holds first preparedness demonstration in country with 125,633 men in line.
- May 16—Batavier V., Dutch liner, sunk by mine; one American killed.
- June 3—Chamberlain army bill, providing for vol-130,214 men in line.
- June 3—Chamberlain army bill, providing for volunteer army and federalized national guard, becomes law.
- June 12—Congress appropriates \$200,000 for training national guard.
- July 1—Act drafting national guard into regular army becomes a law.
- July 10—Gerran merchant submarine Deutschland arrives at Baltimore, Md., after 4,180 mile trip, to take on cargo.
- July 24—British government advises United States blockade need not be continuous to be binding.
- July 31—Dutch liner Koenigin Wilhelmina, with Americans aboard, torpedoed.
- Aug. 22—Allies protest to United States against letting submarines use United States ports.
- Aug. 27—Roumania declares war on Austria-Hungary. Italy declares war on Germany.
- Aug. 28—Germany declares war on Roumania.
- Aug. 29—Act increasing navy becomes law; adds 157 ships; ten battle ships; six battle cruisers; ten scout cruisers; fifty destroyers; nine fleet submarines; fifty-nine regular submarines.
- Aug. 30—Turkey declares war on Roumania.
- Aug. 31—United States replies to allies that submarines are recognized as other warships; may use American ports for specified time.
- Sept. 2—British merchantman Kelvina, with twenty-eight Americans aboard, sunk by mine or torpedo.
- Sept. 7—Shipping board to encourage naval auxiliary formed.
- Sept. 8—Emergency revenue act becomes law; provides for special munitions tax, etc.
- Oct. 7—German war submarine U-53 puts in at Newport, R. I.; on Oct. 8 it sinks Strathdene, British; West Point, British; Stephano, British; Bloomsdyk, Dutch, and Christian Knudsen, Norwegian. United States destroyers rescue survivors; Stephano had many Americans aboard returning from vacation in Newfoundland.
- Oct. 19—Aulania, British merchantman, sunk without warning in English channel; twenty-one Americans aboard.
- Oct. 23—American ship Lanac sunk off Portsmouth by submarine.
- Oct. 23—British steamer Marina sunk without warning by German submarine; six Americans killed.
- Nov. 7—American steamer Columbian shelled and sunk by German submarine off Spanish coast.
- Nov. 16—Belgium asks United States to intervene in Berlin against deportation of Belgians to work in Germany.
- Nov. 26—American merchantman Chemung sunk off Andalusia.
- Nov. 26—Germany refuses to give United States Consul Pike right to cross Germany from Warnemunde to Switzerland.
- Nov. 29—United States sends protest against deportations of Belgians to Germany.
- Dec. 4—Italian steamship Palermo, with twenty-five Americans aboard, sunk.
- Dec. 12—Germany sends formal note saying that it is ready for peace negotiations.
- Dec. 14—British ship Russian, with seventeen Americans aboard, sunk.
- Dec. 18—President Wilson addresses note to all belligerent powers, proposing that steps be taken to assure peace and that all powers state what they are fighting for.
- Dec. 30—Allies reply to United States, saying that as their objectives have not been reached in world war they cannot enter into peace negotiations with Germany.
- 1917.
- Jan. 11—Franz Bopp, German consul-general at San Francisco, and Baron George W. von Brincken convicted of conspiring to injure American shipping, munitions plants, etc., and sentenced to two years' imprisonment.
- Jan. 19—British steamer Yarrowdale sunk; seventy-two American seamen taken as prisoners to Germany.
- Jan. 11—Germany replies that entente reply to president's peace proposal leaves her nothing to do but to fight against "attempt to crush" her.
- Jan. 22—President Wilson addresses senate on a world league for peace; proposes a peace without victory.
- Jan. 31—Germany gives United States Ambassador Gerard in Berlin six-hours' notice of opening of ruthless submarine warfare; declares ships will be sunk within specified zone around British isles whether neutral or not if submarine has not time to warn or allow men to escape.
- Feb. 3—in view of Germany's summary breaking of pledges regarding safety of neutrals in submarine zone President Wilson breaks diplomatic relations and gives Ambassador Bernstorff his passports.
- Feb. 3—American merchantman Housatonic sunk by submarine.
- Feb. 4—Germany announces Americans taken on Yarrowdale will be released.
- Feb. 13—American merchantman Lyman M. Law sunk by German submarine.
- Feb. 21—Publication is made of intercepted note from German Foreign Secretary Zimmermann to German minister in Mexico City, dated Jan. 19, 1917, proposing alliance between Mexico, Japan and Germany and suggesting Mexico be paid by annexation of American southwestern states for co-operation with Germany.
- Feb. 26—British steamer Laconia sunk; five Americans killed.
- Feb. 25—Spanish embassy in Berlin informed men from Yarrowdale had been released. Men reached Switzerland March 11; complained of cruel treatment as prisoners of war.
- March 2—American merchantman Algonquin sunk by German submarine with shell fire and bombs; crew escapes.
- March 8—Dr. Chakraborty, prominent in Indian independence movement, admits in New York getting \$60,000 from Wolf von Igel, German agent, to start trouble in India.
- March 9—President Wilson orders navy department to arm American merchant vessels.
- March 9—President Wilson calls congress to meet in extraordinary session April 16.
- March 12—United States serves formal notice on neutrals of severance of relations with Germany and asks neutral support.
- March 14—China informs United States that she severs diplomatic relations with Germany.
- March 17—First armed American liner, St. Louis, leaves New York, carrying naval gun crew under decision of president allowing American ships to arm.
- March 18—Three American ships sunk by submarine—City of Memphis, Illinois and Vigilantia; fifteen members of Vigilantia crew lost.
- March 21—President Wilson calls congress to meet April 2, instead of April 16; state department announces new Russian provisional government has been recognized.
- March 22—American oil ship Haldton, with car-

go worth \$2,150,000, sunk by submarine; seven Americans killed.

March 22—Immense mass meeting in New York demands action against Germany; 12,000 pledge loyalty.

March 22—Capt. Franz Rintelen of German navy and two others convicted in New York of conspiracy to interfere with shipment of munitions.

March 24—Navy department lets contracts for twenty-four destroyers traveling thirty-five knots an hour, each to cost \$1,400,000.

March 24—President Wilson orders Brand Whitlock, United States minister, and all consuls in Belgium to leave.

March 25—President Wilson signs bill to increase navy personnel by 26,000 men to 87,000.

March 25—War department calls units of national guard in nine states and district of Columbia; 13,000 men.

March 26—War department calls 25,000 men.

March 30—The federal government calls on all government employes, totaling 500,000, to aid secret service department in detecting spies and plots.

April 1—American steamer Aztec, 3,722 tons, value \$500,000, sunk off Brest; twenty-eight

men, including Boatswain's Mate Eopulucci of United States naval guard, dead.

April 2—Six Germans convicted in New York of conspiracy to destroy munitions ships by bombs, among them the chief engineer of the German steamship Friedrich der Grosse and four assistant engineers.

April 2—The 65th congress meets in special session and President Wilson asks it to declare that a state of war exists between the United States and Germany, due to Germany's making war on this country.

April 4—American merchantman Missourian, left Genoa April 4, 4,881 tons, sunk without warning in Mediterranean.

April 4—Senate votes war resolution.

April 5—Disclosures made showing that an office for the issuance of fraudulent American passports to German reservists was maintained by Hans von Wedell and others under the supervision of Capt. von Papen and with the assistance of Wolf von Igel.

April 5—Belgian relief ship Trevier, 2,991 tons, carrying food to Belgians, torpedoed.

April 6—House votes war resolution.

April 6—War measure signed by President Wilson. Formal war proclamation is issued.

THE UNITED STATES WAR TRADE BOARD.

MEMBERS.

Vance C. McCormick, representative of the secretary of state, chairman.

Albert Strauss, representative of the secretary of the treasury.

Alonzo E. Taylor, representative of the secretary of agriculture.

Clarence M. Woolley, representative of the secretary of commerce.

Beaver White, representative of the food administrator.

Frank C. Munson, representative of the United States shipping board.

Thomas L. Chadbourne, Jr., counselor.

Lawrence Bennett, secretary of the war trade board.

Edwin F. Gay, additional representative of the United States shipping board.

BRANCH OFFICES AND SPECIAL AGENTS.

Galveston, Tex.—George W. Briggs, bureau of exports, Federal building.

Los Angeles, Cal.—William Dunkerley, bureau of exports, International Bank building.

Mobile, Ala.—M. Waring Harrison, bureau of exports, custom house.

New Orleans, La.—Joseph P. Henican, bureau of exports, Canal Bank building.

New York, N. Y.—William E. Peck, bureau of exports, 45 Broadway.

Philadelphia, Pa.—Edward C. Dixon, bureau of exports, 305 Lafayette building.

Portland, Ore.—Henry L. Corbett, bureau of exports, 748 Morgan building.

San Francisco, Cal.—C. O. G. Miller, bureau of exports, 212 custom house.

Savannah, Ga.—J. W. Motte, bureau of exports, Savannah Bank & Trust Co. building.

Seattle, Wash.—J. MacPhee Ferguson, bureau of exports, 825 Henry building.

BUREAUS AND DIRECTORS.

Exports—C. A. Richards.

Imports—Frederick B. Peterson.

Enemy Trade—John H. Hammond.

War Trade Intelligence—Paul Fuller, Jr.

Transportation—L. L. Richards.

Research—W. M. Adriance.

Tabulation and Statistics—L. J. Reed.

Foreign Agents and Reports—Charles Denby.

Administration—Harry A. Engman, Jr.

DUTIES AND POWERS OF BOARD.

The war trade board is part of the administrative machinery established by the president Oct. 12, 1917, under the terms of the "trading with the enemy act" approved Oct. 6, the same year. Its duties and powers in general are to regulate the issuing of licenses for exports and imports and for trading with enemies or the allies of enemies. It takes the place of the exports administrative board created by executive order Aug. 21, 1917.

THE NEW LIEUTENANT-GENERALS.

[From the Army and Navy Journal.]

Gen. Hunter Liggett was born in Pennsylvania, March 21, 1857, and is a graduate of the U. S. M. A., class of 1879, when he was assigned as a second lieutenant to the 5th infantry. Later promotions took him to the 21st, 13th and 15th regiments of infantry, and he also served a detail as A. A. G. in the Philippine campaigns (1899-01) he served as a major of the 31st U. S. volunteer infantry. His early service in the army was against the Indians on the frontier. He was an instructor at the war college and had a great deal to do with the building up of that institution. He was also a member of the general staff, and is known as a keen student of tactics and as a thoroughly resourceful officer. He became a major-general in the regular army March 6, 1917, following the death of Gen. Funston. Among other duties in France he was in command of the American forces in their Champagne offensive.

Gen. Robert L. Bullard was born in Ala-

bama, Jan. 15, 1861, and is a graduate of the U. S. M. A., class of 1885, when he was assigned to the 10th infantry. He subsequently served in the 6th, 10th, 28th, 8th and 26th regiments of infantry and in the old commissary department. He is a graduate of the army war college, and during the war with Spain served as colonel of the 3d Alabama volunteers. After being mustered out in August, 1899, he was appointed colonel of the 39th U. S. volunteer infantry, which took part in Philippine campaigns. He saw plenty of action in the Philippines and had a number of narrow escapes from being killed when in action against the Moro tribes under Gen. Pershing. He served in Texas during the Mexican trouble in 1916, and is an officer of proved ability, who has given ample proof of this in the battle at Cantigny and other actions in France. He became a brigadier-general in the regular army on June 9, 1917. He was appointed a major-general in the national army Aug. 5, 1917.

REVOLUTION IN GERMANY.

When the "victory march" of the German armies to Paris was definitely stopped by the Americans and the allies in July, 1918, the ports began to filter over Germany that trouble was brewing. Meetings in various parts of the empire were held at which discontent with the military and civil heads of the government was openly expressed. The sentiment against autocratic rule was increased by the knowledge that peace could not be made while Emperor William and the junkers were in the saddle. In August, September and October, while the German armies were being driven steadily back toward their own country, the internal situation in Germany grew worse and there were those who predicted that the war might end sooner than the military experts had thought possible. Most of these fixed upon the fall of 1919 as about the earliest time when a decision might be reached. The news from the interior of Germany, however, was confused, uncertain and unreliable. Strict censorship prevented anything definite from being made known to the world until the terms of the armistice were accepted and signed. Then it was announced that the emperor had abdicated and that the country was in the hands of socialists, who had formed a temporary government until a constituent assembly could frame a permanent constitution—a republic perhaps. It was proclaimed as a real revolution, though there were many even in December, 1918, who had serious doubts on that score.

Cabinet Changes.

The dissatisfaction with the government's policy was indicated clearly by the cabinet changes which occurred in Germany in 1918.

N. Y. Herald Service.
FRIEDRICH EBERT.

Dr. Richard von Kuehlmann became foreign minister Aug. 6, 1917, succeeding Dr. Alfred F. M. Zimmermann, whose retirement closely followed the exposure of his plot to involve the United States in war with Mexico and Japan in the event that this country showed any inclination to join the entente allies. Dr. von Kuehlmann's conduct of the foreign office appeared to be successful until June 25, 1918, when he appeared before the reichstag to discuss the political aspects of the situation facing Germany. During his address he said:

"In view of the magnitude of this war and the number of powers, including those from overseas, that are engaged, its end can hardly be expected through purely military decisions alone and without recourse to diplomatic negotiations."

This statement, which flatly contradicted speeches by the German emperor, who only a short time before had referred to peace being won by "the strong German sword," was received with consternation in the reichstag and with sharp criticism by the country. It was later reported that Dr. von Kuehlmann's words had been approved by Gen. Ludendorff, the German commander on the western front. This led to notice rumors of friction between Ludendorff and the German emperor, prince and his coteries, who compose the radical pan-Germanic elements in official circles.

Soon after the address in the reichstag it became common knowledge that Dr. von Kuehlmann's retirement from office would be forthcoming. Some reports were to the effect that his address was intended to inform the German people that their armies could not win the war and was delivered with the cognizance of the emperor, who, when he saw what a storm had been stirred up, resolved to make Von Kuehlmann the scapegoat.

Prince Maximilian Made Chancellor.

Whatever may have been the truth as to these reports, Dr. von Kuehlmann resigned

July 4, 1918, and a few days later was succeeded by Admiral von Hintze, a naval officer with a reputation for intrigue of the kind which brought notoriety to Ambassador Bernstorff and his underlings in Washington. He had become a diplomat through his friendship with Emperor William. As foreign minister he did not accomplish anything notable and on Sept. 30 he and Chancellor von Hertling resigned. About the same time it was announced from Berlin that the three majority parties in the reichstag had arrived at an agreement looking to the formation of parliamentary government with a responsible minister, Dr. W. S. Solf, minister of colonies, succeeded Admiral von Hintze, while Prince Maximilian of Baden was made chancellor. These changes were brought about chiefly because of the consternation created by the surrender of Bulgaria to the allies. On hearing of the appointment of Prince Maximilian James W. Gerard, former American ambassador to Germany, said to an interviewer in Los Angeles, Cal.:

"Prince Maximilian is a man who knows English perfectly and is one of the high Germans who seem to be able to think and believe like an ordinary human being. The putting forward of a man of Prince Maximilian's personality and views in the position of chancellor, to my mind, means a very definite attempt to seek peace and abandonment of the pan-German policy, because Prince Maximilian is opposed to this insane idea of pan-Germanism, of world conquest."

Early in 1918 Prince Maximilian gave a semi-official interview in which he outlined his views on Germany's peace terms. His statement was a rude shock to the pan-Germans, in that he advocated the abandonment of all ideas of conquest. He advocated an Anglo-Saxon peace in the sense that the German empire must serve as a bulwark in protecting the western nations from the spread of Russian bolshevism.

Other cabinet changes occurred at the same time when Solf and Prince Maximilian were appointed. Mathias Erzberger, the centrist leader, was made secretary of state without portfolio. Herr Bauer, socialist member of the reichstag, was named as secretary of state for the imperial labor office. Dr. Solf, it was announced, would continue during the war to act also as colonial secretary, with Dr. Gleim as undersecretary. Dr. Eduard David, socialist leader of the reichstag, was appointed undersecretary for foreign affairs, and Gen. Groener was appointed to succeed Gen. von Stein, resigned, as Prussian minister of war.

Troops Join People.

Dissatisfaction continued to increase despite proclamations by the emperor and appeals by the new ministers. On Oct. 1, 1918, arriving in the Hague from Germany gave the following account of the situation there:

"On Tuesday of last week there was a great meeting at Ludwigshafen, attended by a crowd estimated as high as 15,000 persons. This was a protest meeting against the war, insisting that peace must be concluded forthwith."

"It was followed on Thursday by another meeting at Mannheim, when a resolution was adopted in favor of a general strike if peace was not brought about with the utmost possible dispatch."

"Every sort of condemnation was uttered by the German statesmen who brought the country to its present pass. The audience, worked up by the rough and ready eloquence of popular orators, reached an extraordinary pitch of excitement. Denunciations of Hindenburg, Ludendorff and Prince Max—in fact, of every one connected with the present ruling powers—came thick and fast."

"At last, when the meeting demanded the overthrow of the present regime and the substitution of a republican form of government, the military intervened. A captain marched a company of soldiers with fixed bayonets into the audience and ordered them to disperse the

"Then occurred what I never expected to witness in Germany, for I was present at this meeting. As the soldiers entered the audience cheered and began to sing the 'Workers' Marseillaise.' Many of those present grasped the soldiers' hands. The soldiers instead of obeying orders unfixed their bayonets, sheathed them, joined the audience in singing the revolutionary song, and left them undisturbed.

"The captain, crimson with rage, drew a revolver and threatened to fire on the people, but a man beside him lifted up a chair and the captain thought better of it and left the meeting, which lasted until 1 o'clock, when the soldiers went away, fraternizing with the crowd.

"In all these proceedings women take an active part, being indeed more insistent and excitable than the men. Women have got beyond the passive resistance stage.

"But the great event of the week followed on Friday evening, when an open air meeting was held. This meeting took place in a meadow adjacent to the town, and as the people returned in a huge procession the police endeavored to arrest its progress. Machine guns were posted and when the demonstrators declined to obey the order to disperse they were brought into action.

"A regular battle followed. Several women were killed and many members of the crowd were severely wounded. The police, however, did not have it all their own way. Bombs were thrown by the crowd, killing and wounding some of the police, who were ultimately swept away by the masses of the populace, with whom rested the honors of the day."

Mutiny of Sailors.

Unrest prevailed in all parts of Germany, but it was especially prevalent among the sailors of the grand fleet in Kiel and other harbors. Mutinous outbreaks of a minor character had occurred at various times in the course of the war, but they were easily repressed by the authorities until the fall of 1918. Then serious trouble broke out. The men, who were said to have been influenced by agents from the Russian bolsheviks, refused to be controlled any longer, and, driving their commanders ashore, seized some of the largest ships. There was but little bloodshed, the officers evidently recognizing the futility of opposition. Several thousand sailors proceeded to Berlin and took part in the revolution there. Others went to Bremen and Hamburg and organized uprisings in those ports.

The Storm Breaks in Berlin.

On Nov. 7 the managing committee of the German socialist party served notice upon Prince Maximilian, the imperial chancellor, that Emperor William must abdicate and that Crown Prince Frederick William must renounce the throne. The committee considered the entire political situation, and its decisions were embodied in the ultimatum. The decisions in the socialist ultimatum were:

The right of public assembly.
The military and police must be ordered to exercise great reserve.

The immediate transformation of the Prussian government in conformity with the views of the majority in the reichstag.

Greater socialist influence in the reichstag.
The abdication of Emperor William and the renunciation of the throne by the crown prince.

The imperial chancellor was asked to reply before noon on the following day accepting the conditions. Otherwise the socialists declared they would withdraw from the government.

Emperor's Abdication Announced.

The accounts of what occurred on the 8th are somewhat confused, but the chancellor appears to have acquiesced in the demands of the socialist managing committee and to have communicated to Emperor William, then at

the military headquarters, the gravity of the situation and to have received permission to announce that the kaiser had decided to abdicate. On the 9th he issued the following decree:

"The kaiser and king has decided to renounce the throne. The imperial chancellor will remain in office until the questions connected with the abdication of the kaiser, the renouncing by the crown prince of the throne of the German empire and of Prussia, and the setting up of a regency have been settled. For the regency he intends to appoint Deputy Ebert as imperial chancellor, and he proposes that a bill should be brought in for the establishment of a law providing for the immediate promulgation of general suffrage, and for a constitutional German national assembly which will settle finally the future form of government of the German nation and of those peoples which might be desirous of coming within the empire."

On the same day the state department in Washington made public the following messages received by the United States naval radio from the German station at Nauen. The department of state did not, however, in any way vouch for the accuracy of the statements except as to the fact that they were sent out from Nauen.

From Nauen, Nov. 9, 1918:

"On the morning of Saturday, Nov. 9, socialist party declared that it left the cabinet. Since then the socialists and independent socialists' committee were holding permanent joint sitting in reichstag, where soon afterward appeared delegations of various regiments garrisoned in Berlin and neighboring towns in order to express their allegiance to new popular government. Building of socialist newspaper Vorwaerts was occupied by a squad of 300 riflemen in order to protect it against possible eventualities on side of former regime. Movement among troops had originated by speech made by reichstag member Weis in courtyard of barracks of Alexander regiment, upon which regiment, together with a large number of its officers, decided upon sending mentioned delegation to the reichstag. At noon Socialists Ebert and Scheidemann went in military automobile, accompanied by troops, to the chancellor and declared that [they?] were decided to take the government in their hands. In the reichstag further arrived a delegation sent by 3,000 sailors, who are marching in direction of Berlin and are expected during the afternoon. It is reported that they equally are ready to express allegiance to the new popular government."

Ebert Issues Manifesto.

From Nauen, undated. Received Nov. 10, 1918:

"Chancellor Ebert issues following manifesto to German citizens:

"Citizens: Former Chancellor Prince Max of Baden, with the assent of all state secretaries, has charged me to carry on business of chancellor. I am going to form new government with parties and shall report within brief delay about result to public. New government will be government of the people. Its endeavor must be to bring to people peace as quickly as possible and to confirm liberty, which it has gained.

"Citizens, I ask for the assistance of you all in heavy task which awaits us. You know how seriously war threatens provisions of people, which is the first condition of political life. Political revolution ought not to disturb the production of food, nor its transportation into towns, but to foster it. Scarcity of food means looting and plundering, with misery for all. The poorest would suffer in the most heavy fashion. Workmen in industries would be hit most severely. Whoever takes away food or other objects of necessity or means of transportation necessary for their distribution commits heaviest sin against all.

"Citizens, I urge you all leave streets and maintain quiet and order. EBERT."

Appeal to People.

Nauen, Nov. 9, 1918. Received by navy radio service 2:02 p. m., Nov. 10:
"Chancellor Ebert issues following proclamation.

"New government has taken charge of business in order to preserve German people from civil war and famine and in order to enforce its just claims of self-determination. This task I can accomplish only if all authorities and all civil officers in towns and landed districts lend to it helpful hand.

"I know that it will be hard for many to co-operate with new men who now have to lead the business of the empire. But I appeal to their love for our people. If organization of public life stops in this serious hour then Germany would be prey of anarchy and most terrible misery. Therefore, lend together with me your help to our country by continuing work in fearless and unrelenting manner, everybody in his position, until the hour has come that relieves us of our duty."

Formation of New Government.

The following news, transmitted on Sunday Nov. 10, through the wireless stations of the German government, dealt with the formation of the new government in Berlin:

"During the course of the forenoon of Saturday, Nov. 9, the formation of the new German people's government was initiated. The greater part of the Berlin garrison and of other troops stationed there temporarily went over, without further ado, to the new government. The leaders of the deputations of the social democratic party declared that they would not shoot against the people, but that they would be in accord with the people's government intercede in favor of the maintenance of order. Thereupon, in the offices and other public buildings, the guards stationed there were withdrawn. The business of the imperial chancellor is being carried on by the social democratic deputy, Herr Ebert. It is presumed that, apart from the representatives of the recent majority group, three independent social democrats will also enter the future government.

"In an extra edition of Vorwaerts, the central organ of the social democratic party of Germany, the following call to a general strike is published: 'The workmen's and soldiers' council of Berlin has decided upon a general strike. All factories are at a standstill. The necessary administration of the people is maintained. A large part of the garrison, in close [geschlossenen] bodies of troops with machine guns and guns, has placed itself at the disposal of the workmen's and soldiers' council. The movement will be guided in common by the social democratic party of Germany and the independent social democratic party of Germany. The workmen's and soldiers' council will take charge of the maintenance of quiet and order. Long live the social republic. The workmen's and soldiers' council.'

From Frankfurt the following telegram was sent to a Dutch news agency:

"The formation of the Ebert-Scheidemann-Landsberg government was accomplished with all order and tranquility. After the kaiser's abdication Herr Scheidemann delivered a speech in front of the reichstag announcing the establishment of a republic. The Hohenzollerns, he said, were removed, and a republic set up. A deputy of the soldiers' council would be attached to the general command in the field. All military decrees must be signed by Herr Ebert. A social democrat deputy would be associated with Gen. Scheuch, the minister of war. Herr Liebknecht addressed the crowd on the international at the same room in the royal palace where, at the beginning of the war, the kaiser spoke to the people. The Berlin garrison joined the revolutionaries without resistance, many throwing their rifles and machine guns into the Spree. The Wilhelmshaven sailors sent greetings to Berlin by airship. Among the prisoners who

have been released is Rosa Luxemburg. At the Moabit prison, Berlin, all political prisoners were released."

Coalition Ministry Formed.

The following dispatch from Berlin was made public in Stockholm Nov. 12:

"An agreement which has been arrived at between the two socialist parties in Germany has now led to the formation of a coalition ministry, composed of three members of each party—namely, Herren Barth, Dittmann, Ebert, Haase, Landsberg and Scheidemann, all of equal rank, as is indicated by the giving of their names in alphabetical order. It was agreed that the cabinet should consist exclusively of social democrats, but that members of other parties might take part in it as technical advisers. They would not have cabinet rank or authority, and each would be assisted by a member from each of the socialist parties as undersecretaries.

"The members of the cabinet will form the executive, and the legislative power will belong to the soldiers' and workmen's council until a constituent assembly can be summoned. The election of this assembly will be held when the political situation permits.

A first meeting of the soldiers' and workmen's council took place in Berlin yesterday afternoon at Circus Busch, at which Herr Ebert announced the fusion of the two socialist parties and the formation of the cabinet. The council has sanctioned the issue of a proclamation to the people stating that the first act of the provisional government has been to accept the conditions of the armistice in order to end to bloodshed. Their next would be to negotiate peace and undertake the country's political and economical reorganization.

"The Vorwaerts, which has now become the chief government organ, referring to this first duty of the provisional government, says:

"The conditions of the armistice are very hard, but after the collapse of the former regime the popular government had no other alternative but to accept them. The conditions will be honorably carried out. But an armistice is not peace. It will now be the government's chief endeavor to obtain that peace which will count on the sympathetic help of all friends of peace and liberty throughout the world in the terrible task of ending the war and creating order out of chaos."

Takes Over News Bureau.

The Berlin soldiers' and workmen's council was permanently assembled in the reichstag building while the office of the Vorwaerts was made the general meeting place for the political leaders. Wolff's bureau, which was taken over by them, became an official organ, as did the Vorwaerts, while the Lokal Anzeiger, which formerly represented conservative, banking and industrial interests, was taken over by the Spartacus group, and appeared as Die Rote Fahne (the Red Flag). The former semi-official newspaper, the North German Gazette, became the organ of the independent socialists under the name of the Internationale, with Herr Hans Block, formerly of the Leipziger Volkszeitung, as chief editor.

Not Entirely Bloodless.

The revolution was not entirely bloodless. Some of the officers in Berlin resisted and there was machine gun and rifle firing, resulting in perhaps a score of casualties. The German government referred to this in a dispatch sent out on Nov. 11, which read:

"The excitement which was caused in Berlin yesterday by the isolated cases of resistance on the part of officers who remained faithful to the kaiser was soon suppressed. The night from Sunday to Monday passed quietly. The executive committee of the elected representatives of all the troops of Greater Berlin put itself at the disposal of the socialist government for the maintenance of public safety and order. The population is willingly obeying the orders which have been issued. Isolated cases of pillaging were unrelentingly punished and are not becoming gen-

eral. Almost all the shops and public places are open as usual.

"In accordance with a decision of the workmen's and soldiers' council, work will be resumed in all factories on Tuesday. The provision and printing trades resumed work early to-day."

"Imperial" Is Dropped.

Dr. Solf, the foreign minister under the old regime, who acted as such for some days after the revolution, on Nov. 12 sent the following circular dispatch to all officials of Germany abroad:

"I request officials abroad to carry on business as hitherto, but to sign their communications and letters with the style of 'German legation,' 'German consulate,' etc., etc., instead of with the style of 'imperial official,' 'official of the German empire,' as hitherto."

Ebert-Hasse Cabinet.

It was announced on Nov. 14 that the following cabinet had been installed:

Premier and minister of the interior and military affairs—Friedrich Ebert.

Foreign affairs—Hugo Haase.

Finance and colonies—Philipp Scheidemann.

Demobilization, transport, justice and health—Wilhelm Dittmann.

Publicity, art and literature—Herr Landsberg.

Social policy—Richard Barth.

One of the first acts of the cabinet was to confiscate all the property of the Prussian crown.

Sketch of Friedrich Ebert.

Friedrich Ebert, the temporary head of the German state, was vice-president of the German social democrats and president of the main committee of the reichstag. Born at Heidelberg in 1871, the son of a tailor, he became a harnessmaker. Later he was editor of a socialist newspaper, and he has been prominent in the party councils for many years. He became a socialist member of the Bremen city council in 1900. In 1912 he was sent to the reichstag from Bremen. In 1913 he was elected leader of the party to succeed August Bebel, who died.

During the greater part of the war Ebert joined Scheidemann and other socialists who supported the war, against the small and persecuted faction headed by Liebknecht, who opposed it, with the result that Ebert has been looked upon by radical socialists all over the world as a renegade from socialist principles and an instrument of German autocracy.

In 1917, however, Ebert attacked the German government for its annexation plans and sought to force the German and Austrian governments to abandon their programs for annexation under the guise of protectorates of Poland, Lithuania and the Baltic provinces.

Revolution in Other States.

Prussia was not the only one of the German states to depose its royal family. In Ba-

varia a council of soldiers and workmen was formed, which decreed on Nov. 8 that the Wittelsbach dynasty should be deposed and Ludwig III. be ousted from the throne. This was promptly done and the council issued a proclamation to the effect that a republic had been formed in Bavaria, and that the "democratic and socialist republic of Bavaria has the strength to realize a peace for Germany preserving that country from the worst."

The proclamation, after promising a constituent assembly to be elected by all adult men and women, said that Bavaria would make Germany ready for a league of nations. It then continued:

"The present revolution is needed to complete self-government of the people before enemy armies stream across our borders or before troops should, after the armistice, bring about chaos.

"The council will insure strict order. Soldiers in barracks will govern themselves by means of soldiers' councils. Officers acquiescing in the altered situation will not be hindered in their duties. We reckon on the co-operation of the entire population. All officials will remain at their posts. Fundamental social and political reforms will immediately commence."

Kurt Eisner was made premier of Bavaria. Similar revolutions took place in Saxony and all of the minor states of the former empire.

Crown Prince Interned in Holland.

On Nov. 14 the state department was officially informed that the former German crown prince had arrived in Holland, and had been interned there. This put at rest rumors that Frederick William had been assassinated. On Dec. 4 the Wolff bureau announced that he had formally renounced his right to the German throne by signing the following document:

"I renounce formally and definitely all rights to the crown of Prussia and the imperial crown which would have fallen to me by the renunciation of the emperor-king or for other reasons.

"Given by my authority and signed by my hand. Done at Wieringen, Dec. 1, 1918.

"WILHELM."

Bolshevist Propaganda.

The new socialist government in Berlin met with many difficulties, for which the Russian bolshevist propaganda was chiefly blamed. Attempts were made in many places to set up governments on the Russian model, but up to the middle of December, 1918, these had not succeeded. The so called Spartacus group in Berlin under the leadership of Karl Liebknecht, an independent socialist, gave a great deal of trouble. It was supported by all the disorderly elements and it counted upon the support of the returning soldiers. As a rule, however, the soldiers declared themselves in favor of the Ebert government and a constituent assembly.

PRESIDENT OF PORTUGAL ASSASSINATED.

Dr. Sidonio Paes, president of Portugal, was shot and killed by an assassin just before midnight on Saturday, Dec. 14, 1918, while he was in a railway station in Lisbon, waiting for a train to Oporto. He was struck by three bullets. His slayer, a man named Jeetne, was killed by an infuriated mob in the station.

The police authorities suspected that the crime was planned by the League of Republican Youths.

Dr. Paes was formally proclaimed president of Portugal on June 9. He headed a revolt in Portugal in December, 1917, and was named president of the provisional government on Dec. 9, a few days more than a year before he was assassinated.

Dr. Paes was a professor of mathematics in the University of Coimbra when he entered the Portuguese cabinet in 1911 as minister of public works. At the outbreak of the war he was Portuguese minister to Germany and remained in Berlin until the early part of 1916, when he returned to Lisbon.

While provisional president Paes declared that Portugal would continue in agreement with the allies against Germany. One of his first acts after being proclaimed president was to take active steps for greater participation in the war by Portugal.

On Dec. 6, while walking in the streets of Lisbon, he was fired at, but the shot went wild. His assailant was arrested.

Admiral Canto y Castro was elected president of Portugal in succession to Dr. Sidonio Paes.

OCCUPATION OF GERMAN TERRITORY.

Under the terms of the armistice a considerable part of Germany on the west bank of the Rhine and also certain important bridgeheads on the east bank were to be occupied by allied troops as soon as the German armies could withdraw into the interior and demobilize. Certain portions of the territory were to be placed in charge of armies selected for that purpose from the Belgian, British, American and French forces. The troops were distributed in that order from north to south, the Belgians going in the direction of Aix-la-Chapelle, the British towards Cologne, the Americans toward Luxembourg and Coblenz and the French toward Alsace-Lorraine and the adjoining regions.

AMERICAN ARMY OF OCCUPATION.

The American army of occupation (3d army) was placed in command of Maj.-Gen. Joseph T. Dickman. It was composed of five regular army, three national guard and two national army divisions as follows:

First division, Brig.-Gen. Frank Parker commanding.

1st Brigade—16th and 18th infantry, 2d machine gun battalion.

2d Brigade—26th and 28th infantry, 3d machine gun battalion.

1st Brigade—5th, 6th and 7th artillery, 1st trench mortar battery.

1st regiment of engineers, 2d field signal battalion, 1st supply train, 1st sanitary train, 1st ammunition train, 1st engineer train, headquarters troop, 1st machine gun battalion.

Second division, Brig.-Gen. J. A. Lejeune commanding.

3d Brigade—9th and 23d infantry, 5th machine gun battalion.

4th Brigade—5th and 6th regiment marine corps, 6th machine gun battalion.

2d Brigade—12th, 15th and 17th artillery, 2d trench mortar battalion.

2d regiment of engineers, 2d supply train, 2d ammunition train, headquarters troop, 4th machine gun battalion.

Third division, Brig.-Gen. Preston Brown commanding.

5th Brigade—4th and 7th infantry, 8th machine gun battalion.

6th Brigade of Infantry—30th and 38th infantry, 9th machine gun battalion.

3d Brigade—10th, 18th and 76th artillery, 3d trench mortar battery.

6th regiment engineers, 5th field signal battalion, 3d supply train, 3d sanitary train, 3d ammunition train, 6th engineer train, headquarters troop, 7th machine gun battalion.

Fourth division, Maj.-Gen. M. L. Hersey commanding.

7th Brigade—39th and 47th infantry, 11th machine gun battalion.

8th Brigade—58th and 59th infantry, 12th machine gun battalion.

4th Brigade—13th, 16th and 77th artillery, 4th trench mortar battery.

4th regiment engineers, 8th field signal battalion, 4th supply train, 4th ammunition train, 4th engineer train, headquarters troop, 10th machine gun battalion.

Fifth division, Maj.-Gen. Hanson E. Ely commanding.

9th Brigade—60th and 61st infantry, 14th machine gun battalion.

10th Brigade—6th and 11th infantry, 15th machine gun battalion.

5th Brigade—19th, 20th and 21st artillery, 5th trench mortar battery.

7th regiment engineers, 9th field signal battalion, 5th supply train, 5th sanitary train, 5th ammunition train, 7th engineer train, headquarters troop.

Twenty-sixth division, New England national guard, Brig.-Gen. Frank E. Bamford commanding.

51st Brigade, Brig.-Gen. George H. Shelton—101st and 102d infantry, 102d machine gun battalion.

52d Brigade, Brig.-Gen. Charles H. Cole—103d and 104th infantry, 103d machine gun battalion.

51st Brigade, Brig.-Gen. Beverley F. Browne—101st, 102d and 103d artillery, 101st trench mortar battery, 101st engineers, 101st field signal battery, 101st supply train, 101st ammunition train, 101st engineer train, headquarters troop—101st machine gun battery.

Thirty-second division, Michigan-Wisconsin national guard, Maj.-Gen. William G. Haan commanding.

63d Brigade—125th and 126th infantry, 120th machine gun battalion.

64th Brigade, Brig.-Gen. Edwin B. Winans—127th and 128th infantry, 121st machine gun battalion.

57th Brigade, Brig.-Gen. George L. Irwin—119th and 120th artillery, 107th trench mortar battery, 107th engineers, 107th field signal battalion, 107th supply train, 107th sanitary train, 107th ammunition train, 107th engineer train, headquarters troop, 119th machine gun battalion.

Forty-second division (rainbow), Maj.-Gen. C. D. Rhodes commanding.

83d Brigade, Brig.-Gen. M. J. Lenihan—165th and 166th infantry, 150th machine gun battalion.

84th Brigade, Brig.-Gen. Douglas McArthur—167th and 168th infantry, 151st machine gun battalion.

67th Brigade, Brig.-Gen. George G. Gatley—149th, 150th and 151st artillery, 117th trench mortar battalion, 117th engineers, 117th supply train, 117th sanitary train, 117th ammunition train, headquarters troop, 149th machine gun battalion.

Eighty-ninth division, (national army—Kansas, Missouri, South Dakota, Nebraska, Colorado, New Mexico and Arizona), Maj.-Gen. Frank L. Wynn commanding.

177th Brigade—353d and 354th infantry, 341st machine gun battalion.

178th Brigade, Brig.-Gen. Thomas G. Hanson—355th and 356th infantry, 342d machine gun battalion.

164th Brigade, Brig.-Gen. Edward T. Donnelly—340th, 341st and 342d artillery, 314th trench mortar battery, 314th engineers, 314th field signal battalion, 314th supply train, 314th sanitary train, 314th ammunition train, 314th engineer train, headquarters troop, 340th machine gun battalion.

Nineteenth division (national army—Texas and Oklahoma), Maj.-Gen. Henry T. Allen commanding.

179th Brigade, Brig.-Gen. Joseph P. O'Neill—357th and 358th infantry, 344th machine gun battalion.

180th Brigade, Col. W. A. Cavanaugh—359th and 360th infantry, 345th machine gun battalion.

165th Brigade, Brig.-Gen. Francis C. Marshall—343d, 344th and 345th artillery, 315th trench mortar battery, 315th engineers, 315th field signal battalion; 315th supply train, 315th sanitary train, 315th ammunition train, 315th engineer train, headquarters troop, 343d machine gun battalion.

LUXEMBURG LIBERATED.

In its march toward the German frontier the 3d American army controlled every city, village and road in the duchy of Luxembourg by the night of Nov. 21. On that day Gen. John J. Pershing, with the grand duchess of Luxembourg at his side, watched a regiment of the army enter her capital. Twenty-four hours earlier the grand duchess had seen the long columns of gray clad German soldiers start from the capital on their way to Germany after having occupied her duchy for more than four years. Shortly after the entry

of the American troops Gen. Pershing issued a proclamation explaining that the American troops had come as friends and to aid in the liberation of the duchy from the armies of the German invaders. The 18th infantry was the only American unit to pass through the city, the other organizations purposely having skirted the city on either side on their way to the Rhine. The Americans were received by the Luxemburgers with the greatest enthusiasm. The grand duchess thanked Gen. Pershing for the coming of the allied forces. By Nov. 23 the 3d army from its points of junction with the French in Luxemburg could look directly into Germany. The German troops were found to be evacuating their territory more slowly than had been expected.

AMERICAN TROOPS ENTER GERMANY.

American troops of the signal corps and ambulance details of the 3d army crossed into Rhenish Prussia Nov. 24. The front lines of the army rested along the Luxemburg-German border, on the Sauer river, and thence along the Moselle river to the region east of Remich. The general line of the German withdrawal was along the Perl-Saarburg road. The American army entered the city of Treves on the morning of Dec. 1, crossing the Prussian frontier at the Moselle river behind the German rearguards. The advance of the United States troops into German territory was comparatively slow because of the limited number of bridges across the Sauer and Moselle rivers. The various divisions marched with full equipment of steel helmet, gas mask, rifles loaded and belt filled with cartridges. The heavy artillery also rumbled along the German roads, while the ammunition wagons kept pace. The American line on Dec. 1 ran through Winterscheid, Habscheid, Lichtenborn, Oberweis, Irrel Kordel, Treves, Saarburg and Serrig. The crowds that met the Americans as they entered Treves were sullen. The civilians were well dressed and many German soldiers wore splendid uniforms. They made no show of violence, but many glared at Col. Henry J. Hunt, U. S. A., and his staff as they appeared at the head of the 6th infantry, of the 6th division. The feeling of hostility to the Americans across the border had been noted on Nov. 30. So marked was it that the soldiers' and workmen's councils urged the populations of the various towns to remain calm, while Field Marshal von Hindenburg himself called on the residents of German territory to abstain from all hostile action.

On Dec. 6 Gen. Pershing reported: "The 3d American army, advancing along the entire army front, to-day reached the general line Udelhoven - Dooweller - Laubach - Driesch-Todanroth-Worresbach."

CROSSING OF THE RHINE.

As the American troops advanced and the German forces retired the authorities in the larger places between them had some trouble with unruly elements and feared more on account of the bolshevik agitation. They organized home guards, but in some cases these were too few to cope with any serious situation that might arise. This was the case in Coblenz, the objective of the American army, and at the request of the mayor the city was occupied sooner than had been planned, by a battalion of American soldiers who were brought there by a special train on Dec. 8. By the 10th advanced elements of the 3d army had reached the Rhine at various points and on the following day had fully occupied the left bank of the river from above Coblenz north to where the Canadian and other British troops were holding the line. The Americans crossed the Rhine on the 10th and entered the fortress of Ehrenbreitstein opposite Coblenz at the request of the German authorities. Later they crossed in force and began the occupation of the bridgehead along the eighteen mile arc designated in the armistice terms. The

1st and 3d divisions were designated to occupy the advance positions and the 32d, 90th and 42d divisions the support positions. On the east bank of the Rhine the Americans took up a line about sixty miles in length. It described an arc of a circle, having Coblenz as a center, with a radius eighteen and sixteen miles in length and overlapping the British and French lines in places. It was announced that Gen. Pershing would spend part of his time in Treves and that military headquarters would be established there, with Brig.-Gen. P. Estlin Brown, U. S. A., as military governor of the occupied territory, while the civil affairs would be administered by Brig.-Gen. Harry A. Smith, U. S. A.

ADVANCE OF THE BRITISH.

On Nov. 21 British cavalry were riding again in triumph across the famous old blood-stained battle field of Waterloo. The 2d and 3d British armies resumed their march toward the German frontier, according to program, one detachment pushing toward the Meuse south of Namur, while on the left the British force reached the general line of Gembloux-Wavre. General Plumer, in command of a large British force, crossed the German frontier on Dec. 1 between Behon and Eupen and advanced toward the Rhine. By evening his advance had reached the general line of Hurg, Reuland, Bullingen and Montjoie. The conditions prescribed as to the delivrance of important enemy material were found to have been complied with. The British General Rawlinson issued an order to the 4th army ordering it to participate in the occupation of the Rhine districts, adding: "I ask you men from all parts of the empire to show the world that British soldiers, unlike those of Germany, do not wage war against women and children." On Dec. 1 British cavalry patrols reached the German frontier beyond Spa and the British advance reached the German frontier along the whole of the front from just north of the duchy of Luxemburg to the neighborhood of Eupen, ten miles from Aix-la-Chapelle.

Field Marshal Haig on Dec. 3 issued strict orders to British troops that there was to be no fraternization with inhabitants of Germany, although intercourse with the enemy was to be marked by courtesy and restraint. British troops entered Germany and reached the town of Malmedy.

The first elements of British infantry entered Cologne on the afternoon of Dec. 8 to re-enforce the cavalry which arrived Dec. 6. Preceded by a crowd of civilians, the infantry marched past the towering cathedral, headed by British mounted military and Cologne policemen, while crowds ran from all directions across the square.

Three platoons marched on the double quick to the Rhine itself, halting beneath the imposing towers of the Hohenzollern bridge. The German sentries, who guarded one-third of the eastern part of the bridge, departed Dec. 7 with other rear guards. The occupation of the bridgehead on the east bank of the Rhine was completed as soon as the territory was cleared of German soldiers.

PROGRESS OF THE FRENCH.

Marshal Foch, commander in chief of the allies' forces, arrived at Luxemburg on Nov. 25 with his staff and established his headquarters there. The 10th French army, on its way to the Rhine and Marence, crossed the German frontier on Dec. 3, occupying the valley of the Sarre. The advance of the French forces into Germany had been without incident up to that date.

The entry of the French troops into Strassburg, Metz and other places in Alsace-Lorraine was attended by imposing demonstrations, the

inhabitants manifesting sincere pleasure at the restoration of their cities and provinces to France. Contingents of American troops took part in the formal entry of these places as well as the occupation of some of the larger towns held by the British. In Metz, for instance, troops which formerly belonged to the old 1st regiment of Chicago had the place of honor at the head of the parade.

BELGIANS IN DUSSELDORF.

Two Belgian cavalry detachments, 300 men strong, entered Dusseldorf, on the left bank of the Rhine, twenty-one miles northwest of Cologne, Dec. 8. All intercourse with the other bank of the river was forbidden. Infantry followed later and the occupation of the remaining territory assigned to the Belgians proceeded.

ABDICATION OF EMPEROR CHARLES I.

Charles I., emperor of Austria and king of Hungary, issued the following proclamation on Nov. 11, 1918:

"Since my accession I have incessantly tried to rescue my peoples from this tremendous war. I have not delayed the re-establishment of constitutional rights or the opening of a way for the people to substantiate national development.

"Filled with an unalterable love for my peoples, I will not with my person be a hindrance to their free development. I acknowledge the decision taken by German Austria to form a separate state.

"The people has by its deputies taken charge of the government. I relinquish every participation in the administration of the state. Likewise I have released the members of the Austrian government from their offices.

"May the German-Austrian people realize harmony from the new adjustment. The happiness of my peoples was my aim from the beginning. My warmest wishes are that an internal peace will be able to heal the wounds of this war.

CHARLES,

(Countersigned.)

"LUMMASCH."

Emperor Charles and his family retired to Eckartsau, a small place on the Danube river fifteen miles east of Vienna.

Before abdicating the emperor, who was personally popular with most of the people, tried to preserve the empire from crumbling by proposing the federalization of the various countries composing it, but they objected to the plan. Neither the Hungarians, the Czechoslovaks nor the Poles would consent to be bound in any way to Germany or German

Austria. The federalization plan was proposed by the emperor Oct. 18, when he issued the following manifesto:

"To my faithful Austrian peoples:

"Since I have ascended the throne I have tried to make it my duty to assure to all my peoples the peace so ardently desired and to point the way to the Austrian peoples of a prosperous development, unhampered by obstacles which brutal forces create against intellectual and economic prosperity.

"The terrible struggles in the world war have thus far made the work of peace impossible. The heavy sacrifices of the war should assure to us an honorable peace, on the threshold of which, by the help of God, we are to-day.

"We must, therefore, undertake without delay the reorganization of our country on a natural and, therefore, solid basis. Such a question demands that the desires of the Austrian people be harmonized and realized.

"I am decided to accomplish this work with the free collaboration of my peoples in the spirit and principles which our allied monarchs have adopted in their offer of peace.

"Austria must become, in conformity with the will of its people, a confederate state, in which each nationality shall form on the territory which it occupies its own local autonomy.

"This does not mean that we are already envisaging the union of the territories of Austria with an independent Polish state.

"The city of Trieste with all its surroundings shall, in conformity with the desire of its population, be treated separately."

CONDEMNED SOLDIER PARDONED BY PRESIDENT.

Before a general court-martial which convened in France Dec. 29, 1917, pursuant to special orders No. 162, headquarters 1st division, American expeditionary forces, France, Dec. 15, 1917, and of which Col. W. F. Creary, infantry, was president, and First Lieutenant Paul C. Green, 16th infantry, judge advocate, was arraigned and tried—

Private Jeff Cook, Company G, 16th Infantry, Charge—"Violation of the 86th article of war."

Specification—"In that Private Jeff Cook, company G, 16th infantry, being on guard and posted as a sentinel in time of war, in the face of the enemy, at France, on or about the 5th day of November, 1917, was found sleeping on his post."

To which charge and specification the accused pleaded "Not guilty."

Findings—"Of the specification and charge, 'Guilty.'"

Sentence—"To be shot to death with musketry."

The sentence having been approved by the convening authority and the record of trial forwarded for the action of the president, under the 48th article of war, the following are his orders thereon:

"In the foregoing case of Private Jeff Cook, company G, 16th infantry, sentence is confirmed.

"In view of the youth of Private Cook and the fact that his offense seems to have been wholly free from disloyalty or conscious disregard of his duty, I hereby grant him a full and unconditional pardon, and direct that he report to his company for further military duty.

"The needs of discipline in the army with propriety impose grave penalties upon those who imperil the safety of their fellows and endanger their country's cause by lack of vigilance or by infractions of rules in which safety has been found to rest. I am persuaded, however, that this young man will take the restored opportunity of his forfeited life as a challenge to devoted service for the future, and that the soldiers of the army of the United States in France will realize too keenly the high character of the cause for which they are fighting and the confidence which their country reposes in them to permit the possibility of further danger from any similar shortcoming. WOODROW WILSON.

"The White House, May 4, 1918."

EMMA GOLDMAN SENTENCE CONFIRMED.

Emma Goldman and Alexander Berkman were convicted in New York, N. Y., in 1917 on the charge of conspiring to prevent the operation of the selective draft by urging men of the proper age not to register. They were sentenced to serve two years in prison and pay a fine of \$10,000 each. Alleging that the draft act was unconstitutional, they appealed to the United States Supreme court, which, on Jan. 14, 1918, sustained the finding of the lower court.

Louis Kramer and Morris Becker, who were convicted on the same charge as Goldman and Berkman and who also appealed to the Supreme court, had their sentences confirmed by the tribunal.

BRITAIN'S PART IN THE WAR.

One of the best presentations of the part Great Britain played in the world war was that contained in a speech made by Lieut.-Col. G. G. Woodwark of the British army at the convention of the American Bankers' association in Chicago Sept. 25, 1918. The war was still in progress, but was nearing the end, though neither the speaker nor his auditors was conscious of it. The address, which was received with marked attention and satisfaction by the leading bankers of the United States, treated of the following topics:

1. The raising and training of the British armies for service.
2. With the British armies in France.
3. The British naval and military contribution to the war.
4. Industrial reorganization of Britain for the war.
5. The war organization of Britain for domestic economy.
6. British financial organization for the war.

Col. Woodwark spoke as follows: "Mr. President, ladies and gentlemen: The great honor you have done me by inviting me here is one which I accept with affectionate gratitude—for my country. It is of Britain's part in the war that I have been asked to speak—and I feel very much at home in the familiar atmosphere of this brother-democracy, to-day so closely allied with our own great 'commonwealth of nations,' as Gen. Smuts of the British war cabinet has so finely termed the British empire. And in the democratic sense of these history making days I much prefer that name for the British territories, widespread across the world: a commonwealth of nations! For thus constituted, it is in truth—and as a citizen and soldier of it, I feel myself very much at home speaking here, as it were, in the house of a member of the family.

So, if I dwell upon the part taken in the war by my particular branch of the English speaking family you will bear with me; it is of Britain's part in the war that I have been asked to address you—of the raising and training of her armies; of their battling in the fields of France, in which I have been proud to take a part; of Britain's naval and military contributions to the war, and that of her great dominions and dependencies; of the thorough and far reaching reorganization of the British industrial machinery during the war; of her system of domestic economy reconstituted to meet the strain of war; and finally, though with diffidence and as a layman in the presence of professionals, of Britain's war finance, from its more popular and public aspects.

I will begin, then, with the upbuilding of the British fighting machine—the first and most urgent of the tasks we had to face, and one to which all of you will listen with sympathetic understanding, yourselves having so recently carried through a similar job with such consummate efficiency, and of which you are now witnessing results that will go down in history to the glory of your nation and, if I may say so, to the glory of our whole family of nations. For we ask you to let us share in the happiness of your triumphs, as we feel that you have shared in ours, and as we know full well that you suffered with us and succeeded us in the darker days now safely passed.

1. The Raising and Training of the British Armies for Service.

Up to 1914 England, like America, was a pacific nation, with no standing army, and (also like America) with a navy not more than adequate for the insurance of her overseas interests. Hence the same problem faced Britain and America when each stepped into the arena: the problem of organizing a great army—infantry, artillery, cavalry, air forces, engineers, medical corps, army service corps—army to be made fit to meet and beat the highly trained professional conscript armies of the enemy.

The first two years of Britain's army building was upon a voluntary basis—and it should never be forgotten as a proof of national—or should I not say international—loyalty and morale unequalled in history that on this basis we recruited upward of 5,000,000 volunteers, expanding our army from its prewar strength of 300,000 "regulars" to that huge figure. That is not to say that it might not have been more scientifically efficient to apply conscription at the outset, as America has done, and as England ultimately found it necessary to do, in order to apportion more nicely her available man power to the multifarious tasks of war—military, quasi-military and civilian. In fact, it was ultimately decided that fine and generous as was the response of the volunteer spirit, it did not permit of a properly controlled adjustment of "the man to the job" such as can be more readily effected by the method of the selective draft.

The first steps taken in the raising of volunteer troops on the outbreak of war I can describe to you from my own experience—more or less typical of the general methods and results operative throughout the united kingdom.

On Aug. 4, 1914, the territorial forces of Great Britain received mobilization orders to report to their depots. Being at Norfolk, and for over twenty years associated with the volunteer or territorial organization of the country, I at once proceeded to the East Dereham depot, and thence we were sent to Colchester, the concentration center for training purposes.

After a month or two there I was ordered to return to my county to recruit men from Norfolk for the first line units. I realized that to get quick and sizable results a dramatic method was needed, and I consequently adopted some good American "hustle." Touring the county with a regimental band and about twenty automobiles, I drew up a carefully planned tour of towns and villages, was "press-agented" well in advance and timed to speak at each place as per schedule. I took an examining doctor with me en route, and the volunteers were passed immediately after the meetings and hustled direct to the depot. There was no time for cooling of heels; and I found no signs of "cold feet". In this way I recruited 5,000 men in about five weeks.

These men were then passed either into the territorials or into Kitchener's army, according to their choice. In the former they could select their regiment; in the latter they went where the military authorities sent them.

I then took 1,000 of these men and formed and organized a battalion of 2d line supports, to feed the first line abroad. Later I organized another battalion of the 2d line, and was given command June 21, 1915. This battalion was turned into a draft finding unit for supplying trained men for the fighting fronts.

Many were the difficulties and obstacles during these early months of training—lack of equipment, boots, rifles, uniforms. But with keenness and good will on all sides the job went through and in due course order came out of chaos and the wheels of the army making machine ran more smoothly. With these first batches of volunteers came the cream of England's sons—rushing to her defense, and, after training, sent out rapidly to the front to replace the casualties of the expeditionary forces themselves in turn to find a bed in French or Belgian soil. There was no time to apply a selective process with a view of getting each man to the work he could do best; every one who could carry a rifle and use it soon found his place in the fighting line. This resulted in fearful wastage of material—but it was unavoidable at that critical juncture. Such was my experience of volunteer recruiting during the early months of the war and until I myself went to the front.

The second phase of recruiting, by conscription, became essential through the de-

mand of the war industries for many of the highly trained men—mechanics, designers, ship-builders, miners—who had rushed to the front with the first armies, but whose civilian services, as soon became apparent, were vital to the work of supplying the fighting forces with guns, munitions, transportation and so forth. As soon as it became evident that conscription was essential to victory and they understood the true reasons for its necessity, all classes of the nation met the conditions with hearty good will.

Thus, in the very midst of the clash and din of war, with the enemy at her very doors, Britain, with the stalwart aid of her splendid sister commonwealths of the empire, builded a fighting machine which is now manned by no less than 8,500,000 souls—of which total Great Britain herself has contributed 6,250,000; the dominions 1,000,000; India and the dependencies 1,500,000. To-day one out of every three males of all ages in the British isles is fighting. As M. Clemenceau, the premier of France, has so finely borne witness: "England did not want war. . . . But now behold her in the midst of conflict. Slowly, but with a stubborn determination that nothing avails to diminish or to daunt, she has transformed herself into a military power."

Stupendous as has been our task in Britain and in the dominions, even more gigantic in some ways at least, was the problem America had to meet. For, as we are told by your military men, your machine was yet in process of reconstruction, was not yet completed ere it was called upon to cope with the raw material—the splendid stock of human material which was ready and waiting to be put through it. True that you profited by avoiding our mistakes, but is not the ability to learn in the school of experience the finest test of high intelligence and efficiency? All honor to those who served America night and day in the pressing, urgent task of supplying to us, your hard-pressed and war-weary allies, and so absolutely in the nick of time, the finished product of your mighty war machine—the magnificent product which is now employed in writing upon the pages of this country's history so glorious a record of human attainment—and of sacrifice!

2. With the British Armies in France.

And now to speak of our armies in action. Surveying the war to-day from its beginning, I will deal with it in three periods—first, from its opening to the end of the first battle of the Marne; second, the defensive-offensive campaigns, with the battles of the Somme and Verdun, up to the close of 1917; and finally from the German offensive of last spring to the present date.

As is well known, on the part of the British empire there was never a moment's hesitancy, once Germany had doffed her mask, as to our proud duty to stand loyally by our glorious friend and neighbor, your and our beloved ally, France, and its intrepid little neighbor with the heart of a lion, Belgium. Utterly unprepared as we were, Britain could not hesitate—and it is with a pride, for which I would still claim the proper humility of all servants of humanity, that I call upon the generous witness of both of those countries as to the effectiveness of our prompt co-operation. Apart from the vital service of our navy in bottling up the German fleet, had we not hurried to the breach our gallant little army—our "contemptible little army"—there could have been no victory of the Marne to stay the German hordes and to save Paris from their violating grip. Let no nation fear to acknowledge its past faults—not all the pages of our history are unsmirched. "Let the dead past bury its dead"; our allies will not forget through all time the sacrifices of our first expeditionary force thrown across the invader's path, and they have testified to its essential effectiveness in the primary defeat of the enemy in those awful first weeks of war.

Of the next stage of the struggle—those grueling years when the utmost that we could do was to stand fast and oppose our inferior

numbers of hurriedly trained and equipped troops solidly against the enemy's highly organized efficiency; to fire our one ill spared shell in reply to the twenty from his well filled arsenals; to pit our few guns against his serried artillery—of those years, 1915 to 1917, I can speak to you somewhat from my personal experience at the front.

It was early in 1916 that I was relieved from my work of training troops at home and went to France in command of a bantam battalion—men all under 5 feet 2 inches, which was the then minimum height for infantry. My men of the bantams were chiefly miners, whose occupation gave them fine chest development—working on their backs, picking at coal or rock—but left their poor as to the legs; they lacked the "foundations" and marching was not their strong point. Our first sector was that of Beaumont-Hamel on the Somme front—the sector where the British first went "over the top" in the campaign which ultimately resulted in the withdrawal of the Germans to the Hindenburg line. You may see that in this offensive on the first day alone the British casualties were 60,000.

Then in due course we were sent to the Arras front—a line protected by very well constructed defenses and trenches; in fact, the British held this sector against all attacks from the time they established themselves in it after the first battle of the Marne, and in face of the Germans' most strenuous efforts to dislodge us from it during their spring offensive this year.

Here, then, we had a comparatively easy time—qualified by the usual daily exchange of compliments in varying quantities in the shape of shells, bombs, gas and so forth. The monotony was even relieved by some choice examples of trench humor. The boche trenches were about fifty yards from ours and were being held by Saxon troops. Shortly after we "went in" a sign in English was displayed one fine morning from the habitat of the neighbors opposite. It read thus:

"We are Saxons from the Somme; so are you—let's go easy."

Eight days later our friend the enemy substituted the following notice for our edification:

"The Bavarians relieve us to-night; give 'em hell!"

Evidently some one in the boche lines knew quite a bit of good English.

Later I was sent home with septic poisoning, and on my return I took command of another battalion on the Somme front. But by this time we were advancing, hard on the heels of the retreating Hun, who, while retiring to more comfortable quarters back on the Hindenburg line, took his revenge by devastating every square foot of territory. In fact, it was only from the information of the peasantry left behind amid the ruins that we could identify the plans of the one time "villages." They would point pitifully to where the church had stood; where the village pump had been; the chateaux; their own homes—not one stone left upon another.

It was during this advance that I met with an unpleasant experience. The boches were shelling us, and managed to hit the dugout which several of us occupied, burying us alive. It is an unpleasant sensation—to be sealed up in a tomb with other living corpses, with only a bit of candle or so between the lot, and no means of telling whether the place is to become a veritable grave or, unfortunately, after a period of some strain, a relief party came to our aid and dug us out; it resulted in a startling reaction to find oneself restored to life after twenty-four hours of probationary death.

In this advance I and my battalion reached Bapaume, where, as usual, we found that the Huns had destroyed systematically every building in the place—except, however, that they had left standing the town hall. But this little sign of regeneration proved merely a booby trap. A week after our occupation the hall blew up, killing two French gendarmes and some of our officers and men. A clock

mine had been deftly secreted and did its work effectively.

On this line my battalion remained—the Cambrai-St. Quentin sector of the Hindenburg line, some miles beyond Bapaume—until at the close of 1917 I was invalided home with shell shock.

I will now pass to a short survey of the third phase of the war on the western front—the campaign of the present year.

Small wonder that, at Russia's collapse and elimination from the war early in 1917, which released new German armies to outstrip our hard earned increase in numbers and equipment, and snatched from us the long promised hope of a great allied offensive—small wonder that on America's dramatic entrance into the arena our eyes turned to her with eager hope, or that we watched with almost breathless expectancy for the speedy materialization of her support. The enemy pretended to belittle America's contribution and loudly asserted that the "U" boats would prevent the utilization of her power in the allied cause. Again Germany miscalculated—as she has done throughout—the power of will in a great cause to overcome obstacles. Launching her vastly re-enforced armies, three or four to one, against the British front last March, she bent it but could not break it. Followed a like onslaught against the French front—with like results. Not yet had the allied armies filled up their ranks to equal Germany's in number, but they were newly inspired by the American support, and when Foch smote, in the second battle of the Marne, with America by his side, Germany's pride was badly mauled. Then Haig, already recovered from the battering of the spring, smashed forward on his front and crossed the Hindenburg line at its strongest point, and now America, in her first independent campaign, has administered the heavy and humiliating defeat of St. Mihiel.

In fine, Germany has been outgeneraled and outsoldiered. Her conscript system, which she initiated and thus imposed upon the rest of Europe, has, in spite of all its vaunted efficiency, proved a failure. She has broken every rule of warfare to which she had pledged herself; she has descended to every kind of barbarous outrage on sea and land. Except when she fights with greatly superior numbers she is always beaten. And why? Complete efficiency must enlist not only every ounce of material power; it must enlist every ounce of every kind of power. Germany has always left out of account the mightiest factor in an army's force, its spiritual power. That power is indomitable. It is this spiritual factor, imbuing every soldier and informing the whole line, which has set German "efficiency" at naught. Germany's kind of "efficiency" could succeed only if men were machines. It is the spirit of the allied armies that will conquer and has already discredited the German military machine, built upon a basis of materialistic science which ignores—and by the showing of her own philosophers denies—the finest and most powerful of human qualities, while it openly flouts all sense of honor and decency. That, I hold, in the final analysis, is the rock upon which Germany's house will break—as her false and godless theory of life was the sand upon which she built it.

The allies possess a higher faith than that—and we may humbly thank God for it. All honor to the splendid men of all ranks in all our armies on the western front; all honor to Foch, coolly selecting the proper moments for strike at the spent power of Germany's hosts; all honor to Haig, coolly meeting the overwhelming odds of Germany's onslaughts and as coolly reporting the results of his counter-strokes of the last weeks; all honor to Pershing, coolly stepping into the arena with his fresh young armies, who are as coolly doing the work of veterans in our great crusade for civilization.

3. The British Naval and Military Contribution to the War.

From the foregoing brief survey of the western front I will pass to a bird-eye view of the other fronts, scattered over the face of the globe. To cut off from our enemies all external support, direct or indirect, it was necessary not merely to meet their attacks in the European fields, but to eliminate them as far as possible from all other parts of the world. Hence the campaigns employing naval and military forces in which the British dominions, South Africa and India have joined us so splendidly against the German colonies and Turkey's territories in Asia. South African and British troops have gained complete control of the German colonies in that continent. Australia and New Zealand have seized their possessions in the antipodes; our gallant ally, Japan, reduced Kiaochow in a few weeks; our British and Indian armies in Mesopotamia and Palestine are performing the task of defeating and reducing the Turkish forces. * * * In the Balkans, Serbia and Greece are striking at the Bulgar forces; while Italy, who on her front is performing so magnificently her stupendous task—more wearing and trying to armies even than such warfare as we are experiencing on the western front—stands for ally with a steadfast loyalty which is beyond all need of praise and gratitude. Lastly we have the recent expeditions with which America is associated in support of the loyalist Russian populations against the machinations of German intriguers and agents.

In all these far-flung projects, it is our pride to have been able to take our part—sometimes assisting, sometimes assisted by, our allies or our dominions, to whose loyal efforts I must now bear witness.

For indeed the contribution of every part of the British empire has been marvelous. Canada by herself has made an effort equal to that made by Great Britain in the Boer war, raising 500,000 men. Australia, in proportion to her widely distributed population, has equaled Canada's accomplishment. Of the Indian troops serving under the British flag Gen. Smuts declared: "I never wish to command more loyal, braver and better soldiers. The Indian forces who are now helping to break up the Turkish empire in Mesopotamia are making a contribution to the war which should never be forgotten." New Zealand, with a small population of a little more than 1,000,000, has raised a few more than 100,000 men. Newfoundland's effort is proportionately generous. South Africa, "compensated after the Boer war by one of the wisest political settlements ever made in the history of the British empire"—I quote the words of Gen. Smuts, who led the Boers against us in 1899-1902, and is now one of the most valued and influential members of the British war cabinet—"South Africa has done yeoman service to the common cause, by clearing the Germans from that continent and by her contribution to the armies at the other fronts, a service which redounds to her own honor, as it bears glowing testimony to the solidarity of the British Commonwealth of Nations, of which she so recently became a part."

Turning to the high seas, I need not speak at length of the service rendered to the world by the British navy, whose predominance alone has made possible not only the continuance of the main campaign on the western front, but all the vast subsidiary projects for the discomfiture and defeat of the allies' enemies.

In August, 1914, the British navy had a tonnage of 2,500,000 and a personnel of 145,000 officers and men. To-day it has a tonnage of 8,000,000, including the auxiliary fleet, and in 1917 the personnel stood at 430,000. The joint action of the American and British navies has made possible the safe conduct of the American armies to France, and has almost wiped out the threat of the pirate "U" boat. The navy's main task is not, spectacular, but the figures are dramatic; it has convoyed no fewer than 13,000,000 men, of whom

only 2,700 were lost by enemy action; it has conveyed 2,000,000 horses and mules, 500,000 vehicles, 25,000,000 tons of explosives, 51,000,000 tons of oil and fuel, 130,000,000 tons of food and other materials for use of the allies; all this in addition to its unceasing patrol of the North sea, hoping and waiting for the impotent German fleet, which cost its nation \$1,500,000,000, to come out and give us battle.

I must claim your attention also for a few facts and figures concerning our air service. In 1914 Great Britain possessed a total of 110 airplanes and a personnel of 900 officers and men. In 1917 the personnel had reached 42,000 and the machines had increased to many thousands.

In 1914 the amount of bombs dropped was practically nil; in June, 1917, the weight of bombs dropped by British aviators on German fortified towns was sixty-five tons; in May, 1918, it was 868 tons. In a single day on the western front British aviators killed no fewer than 127 German batteries, twenty-eight gun pits were destroyed and sixty explosions were caused.

From July, 1917, to June, 1918, 4,102 enemy machines in all theaters of war were destroyed or brought down by British aviators with a loss of only 1,213 of our machines.

The following is a record of one month's accomplishments by British airmen: 139 enemy machines destroyed, 122 enemy machines driven down out of control, 7,886 bombs dropped on western front, 209,000 rounds fired from the air, 15,857 photographs taken, always, of course, under heavy shell fire.

A big British airplane of a new type, carrying nine passengers in addition to its crew, recently made a trip from the interior of France to the interior of England, in just over one-half an hour. During the night of Aug. 21, 1918, British aviators bombed five German towns, dropping 194 tons of bombs.

The brutal raids of Zeppelins upon open and defenseless towns in England have been abandoned, but only in accordance with the agreed rules of warfare; we have not taken our revenge upon the women and children of Germany, but upon their military centers and fortifications.

4. The Industrial Reorganization of Britain for War.

And now, after surveying the British naval and military forces in action, let us glance at the work of the British industrial army at home. For it is true that but for the work of the army of civilians our cause would have been lost.

Over 4,000,000 men and women are to-day working in British munition factories; they are producing in two weeks more shells than were produced in the whole of the first year of the war.

When war broke out Britain possessed but three national arsenals; to-day she has 150. Over 5,000 privately owned factories and works are now under government control; in one area alone shell bodies or the components are now being made by a musical instrument manufacturer, an infants' food maker, a candle maker, a flour miller, an advertising agent, several brewers, a jobmaster, a glazier and a siphon manufacturer.

In the last six months of 1917 Canada contributed no less than 15 per cent of the British output of munitions.

Upon British clothing and boot factories has fallen the great task of supplying a large proportion of the equipment of the Belgian, French, Italian and Russian armies; indeed, without British uniforms and boots some of our allies would have had no option but to relinquish the fight.

The entire fabric of Britain's industry has been revolutionized; all over the country immense new factories have been erected, devoted exclusively to the manufacture of munitions. New villages and even whole towns have sprung up almost in a night, yet the ministry of munitions has found time to organize a

staff of experts whose sole duties are to deal with the housing of the workers and to look after their welfare. Two thousand miles of track, 1,000 locomotives and many tens of thousands of railroad cars have been shipped abroad.

Canada has contributed quantities of railroad materials, including no fewer than 450 miles of rails, torn up from Canadian railways and shipped direct to France.

For the steadfast loyalty and heroic self-sacrifice of British labor to the allied cause no praise would be adequate.

As for the women, they are splendid.

Up to the outbreak of war Great Britain had approximately 200,000 female workers, mostly employed in the textile industry. Today over 5,000,000 British women are doing 1,701 different kinds of work previously done by men, and what is more, they have broken every record of prewar production set up by the sterner sex. Over 1,000,000 are directly employed in munition producing plants, over 500,000 are employed in engineering and chemical works, 300,000 are working as farm laborers, 20,000 are in the uniform of the women's auxiliary army corps, working in France or Britain as motor drivers, bakers, clerks, etc. Over 10,000 are in the women's royal naval service, doing similar duties for British jack tars.

I am told that 5,000 British girls have been dispatched to the American army in France; some are engaged in clerical duties and some are making pies for your boys at the front.

As our prime minister, Mr. Lloyd George, has said: "If it had not been for the splendid manner in which the women came forward to work in the hospitals and munition factories, in administrative offices of all kinds, and in war work behind the lines, often in daily danger of their lives, Great Britain, and I believe, all the allies, would have been unable to withstand the enemy attacks of the last few months. For this service to our common cause humanity owes them unbounded gratitude."

5. The War Organization of Great Britain for Domestic Economy.

England has suffered deprivation, rather than actual privation; luxuries have been largely eliminated; necessities drastically reduced—but not to the point of causing keen distress or hunger. Her system of food control is partly voluntary, partly compulsory. As the economy exhibition will demonstrate to those who attend it, the weekly ration for a man or woman doing manual labor includes the following:

Butcher meat, without bone or fat.	8 ounces
Bacon12 ounces
Butter 2 ounces
Sugar (individual use for all purposes) 7 ounces

Milk is not rationed—but the supply to dealers is restricted to not over the average amount daily, for sale, which they had three months previous to the ration system going into effect.

Bread is not rationed—but bakers are allowed to use only 60 per cent of white flour and their supplies are similarly restricted.

Maximum prices have been established for nearly all foodstuffs in common use and the poor are thus protected from any attempt at exploitation.

Undoubtedly a moral and sociological advantage has resulted from the enforcement of "the simple life" upon all classes of the community alike. From those conditions has arisen a mutual sympathy and understanding between rich and poor, high and low, which testifies to the democratic plan upon which our Anglo-Saxon commonwealths are based.

In spite of the exceptional difficulties created by the shortage of labor, Great Britain has increased her arable area by 2,142,000 acres

since the outbreak of the war. This increased area is divided as follows:

	Acres.	Pct.	Inc.
Wheat	752,000	39	
Barley	158,000	11	
Potatoes	217	50	
Oats	735	35	

Three thousand government owned tractors are at work on 611,000 acres of land. One million acres are worked by steam plows under the government's direction. Cheese making schools have been set up in thirty-three counties. Special efforts are being made to increase the supply of sea food; in this direction I would point out that the transfer of a single trawler from the fishing industry to the mine sweeping service means 350 tons of fish lost annually to the country, or an aggregate of over 1,000,000 tons lost per annum.

British agricultural scientists have rendered yeoman service. A Russian wheat which resists rust, but yields a miserably poor crop, has been married to a British wheat with a high yield which now repels the rust; the result is forty-two bushels per acre, or, with pushing, seventy-two bushels. There is every prospect of their producing in the near future a potato immune from blight or wart.

In order to preserve all available fruit 6,000,000 bottles are being distributed this year to housewives.

Britain's grain crop this year will be the biggest since 1868. The army of harvesters now employed includes wounded soldiers, college boys and girls, Boy Scouts, Belgian and Serbian refugees. Three hundred thousand women work on the land.

So much for the work of the government department, but what of the work of the people themselves?

Over 1,400,000 new allotments have been put under cultivation, mostly by people who have already done a long day's work in a munition factory, at the office desk or on other duties. It is chiefly owing to the patriotic efforts of these amateur gardeners that Britain increased her potato crop by 3,000,000 tons in 1917, thus releasing a vast amount of tonnage for the use of the allies.

This increased production has enabled us to divert cereal imports to France and Italy to meet the shortage in those countries.

6. British Financial Organization for the War.

In touching upon the financial effects of the war I can speak only as a layman, and give you such facts and figures as may serve to illustrate the dimensions of the British contribution to the allied cause as viewed from the financial angle.

During the first four years of the war the British government has spent £7,930,000,000. To meet this sum £2,021,000,000 have been collected in taxation and state sources; £5,909,000,000 have been borrowed.

Deducting from the expenditure and revenue £800,000,000 for normal income and outgo during the four years, on the pre-war basis, we get war revenues of £1,221,000,000, and war expenditure of all kinds, including loans to allies and purchases by government of goods that will be resold, £7,130,000,000.

The chancellor of the exchequer in his budget speech estimated the value of these recoverable assets (taking loans to allies at half their face value) as £1,796,000,000 at the end of next March (1919). Taking them as, say, £1,800,000,000 now, this makes the four years' figures as follows:

Total war expenditures..... £7,130,000,000
Less recoverable expenditure... 1,800,000,000

Net war cost £5,330,000,000
Provided by revenue 1,221,000,000

Provided by borrowing £4,109,000,000

According to this calculation the proportion of the net war cost that we have raised by revenue is 23.04 per cent. Here in the United States I understand you have been able to meet a higher percentage of your war cost by revenue—54 per cent of it, in fact, if loans to

allies be deducted. I believe that these figures do not, however, permit of very exact comparison.

The stress upon the British purse has, perforce, been heavier; and the circumstances under which our expenditure has been incurred have been less favorable to careful economy than in the case of America. There is the further substantial consideration of the different periods of time during which each country has been subjected to the burden of war expenditure.

Under the circumstances in which we were placed, it is perhaps fair to opine that during the stress of war economy would not have been for us the chief of virtues. Yet the British government and the British people may be justly proud of their methods of raising revenue, and of the proportion of the war expenses met and paid as the war goes on.

First of these methods, which has been steadily inculcated and increased among all classes of the community, might be called the popular war loan habit as contracted in the periodical purchase of war savings certificates. Thereby the heart of the nation, with a regular weekly throb, pumps its financial blood through the whole nation's system. The agents of some 40,000 local organizations throughout Great Britain pass through the factories and the villages every day and to gather those sixpences and half-crowns which quickly bring back to the contributors their war savings certificates and at the same time furnish the government with the "sinews of war." From these little £1 certificates alone the treasury has received £79,000,000. The total raised by national war bonds and savings certificates to July 27, 1918, was £1,028,000,000 (roughly, \$5,000,000,000). The result is that whereas before the war there were not 350,000 individual holders of British government securities, there are now no less than 17,000,000 holders. The "little people" now own stock along with the rich in this great venture of a co-operative democracy.

The second method of paying our way as we go (so far as human endurance permits) is by a heavy increase of income tax and supertax and the imposition of an 80 per cent excess war profits duty. Thus, an earned income of £200 (\$960) which before the war paid a tax of £1 10s (\$7.50) now pays £9 (\$43.20); an unearned income of the same amount, paying \$11.20 before the war, now pays \$57.60. The tax rate is raised as the incomes increase, and when an income reaches £2,500 (\$12,000) the supertax comes into play and adds a second burden to the first. It is estimated that in the year 1918-1919—

The income tax and supertax will yield £290,450,000
And the excess profits duty with munitions levy 300,000,000

Total £590,450,000
Or \$2,834,160,000

In addition to these two sources of revenue the government find another in increased customs and excise.

As for posterity, if it inherits no capital, it may at least console itself with having inherited a debt which will be only a fraction of what it might have been; and one hopes it may also bear in mind that to-day the British citizen with an income of \$2,400 per annum is paying in taxes (chiefly due to the war) no less than \$1,000.

And as for me, gentlemen, I am well content to leave the solution of this weighty problem of dollars and cents, of pounds, shillings and pence, upon the broad financial shoulders of yourselves and of your banker colleagues in England. I doubt not that of this as of other problems that our countries will inherit from the war, America and Britain, standing together, as they are now standing shoulder to shoulder in this great fight for our common heritage and for our common ideals, will jointly discover the proper solution.

And that reminds me. Was it not a financial problem also that gave our British fore-

fathers the heritage of Magna Charta, upon whose principles both our countries base their constitutions of freedom and of equality before the law?

And was it not a temporary aberration from those Anglo-Saxon principles on the part of a stubborn British government opposing its will to the clear sympathies of the majority of the British people which 142 years ago gave rise to a subsequent declaration of independence by Britishers who then became the founders of these United States?

And is it not possible, as Maj. George Haven Putnam so aptly turned the thought, as the representative of your nation speaking at the

epoch making commemoration of Independence day in London last July 4, that the war we are now waging, side by side, may bequeath us jointly a third and still richer heritage—a declaration of interdependence as between the United States of America and the British commonwealth of nations?

Rich indeed would our heritage be should such an informal declaration of interdependence between the English speaking nations lead in turn to the realization of that greater Magna Charta of the nations of the world, so grandly conceived and so eloquently defined by the president of your country. Then indeed, would the blood of our youth not have been shed in vain!

CANADA'S EFFORT IN THE WAR.

Two months before the terms of armistice were signed the director of public information in Ottawa, Ont., published a statement giving in concise form data covering every phase of the dominion's war activities up to that time. First to be noted was Canada's purely military effort. Up to June 30, 1918, the number of soldiers actually overseas was 383,523. In addition there were in Canada on that date 61,143 Canadian expeditionary men and 5,900 men embarked but not yet overseas, making a grand total of 450,556.

The movement overseas by years was as follows:

Before Dec. 31, 1914.....	30,999
Calendar year 1915.....	84,334
Calendar year 1916.....	165,553
Calendar year 1917.....	63,536
Jan. 1 to June 30, 1918.....	39,101

Total casualties up to June 30 were 159,084, of which 42,919 were dead or presumed dead. Of the wounded and sick between 30,000 and 40,000 returned to France for further service. About 50,000 have been returned to Canada as unfit.

The list of honors won in the field is a glorious one. Here are details:

Victoria cross.....	30
Distinguished service order.....	432
Bar to distinguished service order.....	18
Military cross.....	1,467
Bar to military cross.....	61
Distinguished conduct medal.....	939
Military medal.....	6,549
First bar to military medal.....	227
Second bar to military medal.....	6
Meritorious service medal.....	119
Mentioned in dispatches.....	2,573
Royal Red Cross.....	130

While Canada's chief military effort was concentrated on the Canadian expeditionary force on the western front, Canada made a variety of other contributions to the war. A notable example was in the air service. Unofficially it is said that 35 per cent, or more than 13,000, of the British air pilots in France were Canadians, a remarkable record in itself. Other Canadian units, such as railway troops and hospitals, served in Palestine, Macedonia and Greece. Another corps was trained for service with the tanks—an imperial service like the air force.

Canada's next most important contribution

to the war was in the department of munitions. During the last six months of 1917 no less than 55 per cent of the total British output of 18 pounder shrapnel shells came from Canada and most of these were complete rounds of ammunition, which went direct to France. Canada also contributed 42 per cent of the total 4.5 inch shells, 27 per cent of the 6 inch shells, 20 per cent of the 60 pounder high explosive shells, 15 per cent of the 8 inch and 16 per cent of the 9.2 inch shells. In addition Canada supplied no fewer than 450 miles of rails, torn up and shipped direct to France.

The cash disbursements of the British government for munitions in Canada were more than \$1,000,000,000.

These orders were placed through the imperial munitions board headed by Sir Joseph Flavelle, Bart., of Toronto. In addition to its function as general and exclusive purchasing agent for British departments, this board acted as agent for the United States ordnance department in arranging contracts for munitions and supplies placed by the United States government in Canada.

The munitions board also let contracts for ships amounting to \$70,000,000, representing forty-three steel and fifty-eight wooden ships, aggregating 360,000 tons.

The following details of munition production are impressive:

Total number of shells produced, 60,000,000. Approximate number of components represented by above, for which imperial munitions board has let separate contracts, 670,000,000. Quantity of high grade explosives and propellants produced, 100,000,000 pounds.

Value of orders placed by the British government through the imperial munitions board, \$1,200,000,000.

Amount of orders already executed, \$1,000,000,000. (This figure represents the actual amount of cash disbursements.)

Approximate number of contractors in Canada among whom contracts for munitions have been distributed, 1,000.

Number of workers engaged in war contracts, 200,000 to 300,000.

Approximate number of persons employed in handling stores in transportation and other collateral organizations, 50,000.

Approximate total number of workers, 350,000.

CHANGES ON NATIONAL WAR LABOR BOARD.

Before leaving for the peace conference President Wilson accepted the resignation of Frank F. Walsh, joint chairman of the national war labor board, and appointed Basil M. Manly as Mr. Walsh's successor. Announcement of the action was made by Mr. Walsh at the meeting of the board Dec. 3, 1918. Mr. Manly had been assistant to the joint chairmen, Mr. Taft and Mr. Walsh.

While the appointment was made by the president, as was the appointment of the other members of the board, Mr. Manly, like Mr.

Walsh, was chosen for the place by unanimous vote of the representatives of labor on the war labor board. Five members of the board represent and were chosen by employers; five represent labor, and the chairman, representing the public, are selected, one by labor and one by the employers.

William Harmon Black, Mr. Walsh's alternate on the board, resigned with Mr. Walsh. Mr. Manly, upon being appointed to Mr. Walsh's office, named Mr. Black as his alternate.

PRESIDENT WILSON AND THE PEACE CONFERENCE.

ROBERT LANSING.

Immediately after the terms of the armistice imposed upon Germany by the allies had been accepted, preparations were begun for the peace conference, whose stupendous task it would be to settle the innumerable questions growing out of the war and the revolutions in the central empires and Russia. Among the greatest of the problems to be decided was that of taking steps which would make impossible or at least nearly so the recurrence of such a calamity as the world war. President Wilson, as a leading advocate of a league of nations pledged to world democracy and lasting peace, became at once the central figure upon whom the attention of the world was fixed. His ideas as to the basis upon which the final negotiations should be conducted had been accepted in principle by all the allies and the question of what part he would take in those negotiations at once became the topic of the day.

That he would exercise great influence upon the deliberations of the peace meetings was taken for granted, but few if any suspected that he would himself be a delegate to the conference. No president of the United States had ever left the country while in office for any purpose and it was not supposed that President Wilson would do so, though he was known as a man who would disregard precedent if in his opinion the occasion demanded it. Therefore, when it began to be rumored that he intended to go to France and personally take part in the peace proceedings incredulity was expressed and also considerable opposition to any such course. All doubts were set at rest when on Nov. 18 the following official announcement was made at the white house in Washington:

"The president expects to sail for France immediately after the opening of the regular session of congress, for the purpose of taking part in the discussion and settlement of the main features of the treaty of peace. It is not likely that it will be possible for him to remain throughout the sessions of the formal peace conference, but his presence at the outset is necessary in order to obviate the manifest disadvantages of discussion by cable in determining the greater outlines of the final treaty about which he must necessarily be consulted. He will, of course, be accompanied by delegates who will sit as the representatives of the United States throughout the conference. The names of the delegates will be presently announced."

Names of Delegates Announced.

Whatever opposition there may have been to the president's leaving the country even for a few weeks ceased to find expression as soon as it was known that he had decided definitely to go. Speculation then centered upon the question as to who would be the official representatives of the United States at the peace meetings. This was settled when on the evening of Nov. 29 the following statement was issued at the white house:

"It was announced at the executive office to-night that the representatives of the United States at the peace conference would be the president himself, the secretary of state [Robert Lansing], Henry White, recently ambassa-

dor to France; Edward M. House and Gen. Tasker H. Bliss.

"It was explained that it had not been possible to announce these appointments before because the number of representatives each of the chief belligerents was to send had until a day or two ago been under discussion."

Sails on George Washington.

Preparations for the journey were begun as soon as it had been decided that the president should go to Europe. It was at first proposed to use the *Agamemnon*, formerly the Kaiser Wilhelm II., but later it was decided that the *George Washington*, a 27,000 ton troopship, should carry the presidential party. The vessel was at once made ready at its dock at Hoboken, N. J. The president appeared before a joint session of congress on the afternoon of Dec. 2 and delivered his annual message, in which he gave his reasons for attending the peace conference in person. (See page 724.) The following day was passed in the performance of various duties in Washington until late at night, when President and Mrs. Wilson and the others in the party boarded a special train which left the capital early on the morning of Dec. 4 and arrived at the pier in Hoboken at 7:30. All who were to make the trip went on board the *George Washington* and at 10 15 o'clock the ship started on its trip to France.

In the Presidential Party.

Following is a list of the officials, guests, specialists and employes who were on board:

President Wilson.
Mrs. Wilson.
Rear-Admiral Cary T. Grayson, U. S. N.
Charles S. Swemm, confidential clerk to the president.

Irving H. Hoover, head usher of the white house.

Miss Edith Benham, secretary to Mrs. Wilson.

George Creel, chairman of the committee on public information.

Guests of the President—Jules J. Jusserand, the French ambassador, and Mme. Jusserand; Count V. Macchi di Cellere, the Italian ambassador, and the Countess di Cellere and two children; John W. Davis, United States ambassador to Great Britain, and Mrs. Davis; Mrs. Francisco Quattrone of the Italian ambassador's party; Rear-Admiral H. K. Knapp, U. S. N.; Capt. William V. Pratt, U. S. N.; Mrs. William S. Benson, wife of Admiral Benson, the chief of operations; Mrs. Gordon Auchincloss, daughter of Col. Edward M. House; Mrs. Joseph C. Grew and Mrs. David Hunter Miller; L. C. Probert, representing the Associated Press; R. J. Bender, representing the United Press; John E. Nevin of the International News service.

Members of the American Peace Commission—Secretary of State Robert Lansing, accompanied by Mrs. Lansing; Henry White; Leland Harrison, assistant secretary of the commission; Philip H. Patchin, assistant secretary of the commission; Sydney V. Smith, chief of bureau, department of state, attached to the commission; William McNair, chief of bureau, department of state, disbursing officer of the

Ullsted, Copyright, 1918.
HENRY WHITE.

Underwood & Underwood.
E. M. HOUSE.

commission; George H. Harris, assistant disbursing officer of the commission; William C. Bullitt, attached to the commission; R. O. Sweet, secretary to Secretary Lansing.

Specialists—Dr. Isaiah Bowman, territorial specialist; Allyn A. Young, specialist on economic resources; Charles H. Haskins, specialist on Alsace-Lorraine and Belgium; Clive Day, specialist on the Balkans; W. E. Lunt, specialist on northern Italy; R. H. Lord, specialist on Russia and Poland; Charles Seymour, specialist on Austria-Hungary; W. L. Westermann, specialist on Turkey; G. L. Beer, specialist on colonial history; Mark Jefferson, cartographer; Dr. S. E. Mezes, president College of the city of New York, and Mrs. Mezes; J. T. Shotwell; Maj. James Brown Scott, technical adviser, and Mrs. Scott; George A. Finch, assistant to Maj. Scott; Prof. Amos S. Hershey, assistant to Maj. Scott; George D. Gregory, confidential clerk to Maj. Scott.

Assistants to Specialists—Capt. S. K. Hornbeck, H. A. Lybger, P. J. Kerner, P. T. Moon, L. H. Gray, R. B. Dixon, J. Storck, A. K. Lobeck, O. G. Stratton, W. J. Blank, J. B. Stubbs, D. P. Frary, P. W. Slosson.

War Department Personnel—Brig.-Gen. William H. Harts; Brig.-Gen. Marlborough Churchill, chief of army intelligence service; Col. Richard H. Jordan, general staff; Col. L. P. Ayers, general staff; Maj. Hunter S. Marston, adjutant-general's department; Maj. C. W. Furlong, U. S. A.; Capt. T. M. Childs, U. S. A.; Clerks in American Commission—J. K. Huddle, R. B. Macatee, C. B. Welch, H. E. Festermacher, S. Y. Skinner, L. T. Alverson, H. C. Coney, L. W. Romimus, L. E. Mundy, H. Goldstein.

In Charge of Photographs—Maj. John M. Campbell, general staff; Maj. Frank J. Griffin, signal corps; First Lieutenant Victor Fleming, signal corps; Second Lieutenant L. F. Fleio, U. S. A.; Ruth W. Higgins, special stenographer.

On Board by Authority Secretary of War—Raymond B. Fosdick.

Secret Service Operatives—Joseph E. Murphy, Edmund W. Starling, John D. Slye, W. A. Landvoigt, Joseph J. Fitzgerald, Walter G. Ferguson, John L. Sullivan.

Enlisted Men of the Army—Sergt. W. E. Copeland, Sergt. L. D. Smith, Sergt. V. Braeger, Sergt. L. J. Morra, Sergt. Robert Williams, Sergt. Clyde Kuhn, Private H. S. MacFall, Private D. Pronalone.

All the craft in the harbor blew their whistles and the escorting war vessels fired the presidential salute as the George Washington, flying the presidential flag, proceeded on its journey. Two army airplanes and two navy seaplanes performed air maneuvers as the steamer headed for the bay. Four destroyers acted as an escort until the George Washington arrived off Tompkinsville Staten island. There the battleship Pennsylvania, under command of Capt. Louis M. Nulton, and flying the flag of Admiral Henry T. Mayo, commander in chief of the Atlantic fleet, headed the escort, and the destroyers Wickes, Commander F. J. S. Barleou; Woolsey, Commander E. V. McNair; Lea, Commander D. W. Bagley; Tarbell, Commander H. Powell, and Yarnell, Commander W. F. Halsey, followed, to accompany the Pennsylvania all the way

to France. Ten other destroyers, the Mahan, Radford, Breese, Craven, Dorsey, Robinson, Walke, Lambertson and Perkins, steamed with the George Washington forty-eight hours and then returned to their stations.

The voyage across the Atlantic was uneventful, though some heavy weather was experienced part of the time. The route was by way of the Azores to Brest, France, the port at which 1,000,000 American soldiers landed when on their way to the battle fields of France, and where thousands were already embarking for the trip home. The president kept in touch with both America and Europe all the way across by means of the powerful wireless installation on the George Washington.

Arrival in France.

On the arrival of the president's ship near Brest it was met by a special naval escort of American and allied warships and escorted to the harbor. On landing the president was welcomed officially by representatives of the French government, after which all the members of the party boarded a train which brought them into the Bois de Boulogne station in Paris at 10:15 o'clock Saturday morning, Dec. 14. Following are extracts from The Associated Press account of the welcome given the president of the United States in the French capital:

The crowds that assembled in Paris to greet the president were at an early hour large beyond the precedent set on the occasion of previous visits of heads of foreign states. The weather was favorable, for, although the morning was a rather gray one, it early gave promise of decided improvement.

The scene at the station where the president's train came in was beautifully set. The platform was carpeted in red and palms adorned the broad stairway. The band of the republican guards was playing "The Star Spangled Banner" as the presidential train, decorated with the stars and stripes, drew into the station. Immediately the artillery gave voice and a salute of 100 guns announced the president's arrival.

President Wilson's appearance on the broad carpeted and palm-bordered approach to the station through glittering lines of sabers of the republican guards caused the vast throng to cheer.

President Wilson was greeted warmly by President and Mme. Poincare, Premier Clemenceau, Andre Tardieu, French high commissioner to the United States, and other high officials.

The French executive firmly grasped the president by the hand as he stepped from the train. William Martin, who is attached to the foreign office as introducer of ambassadors, presented Premier Clemenceau, who welcomed President Wilson in English, saying he was extremely glad to meet him.

M. Martin then introduced the other members of the French cabinet. A girl in an Alsatian costume stepped forward, curtseied and gave Mrs. Wilson a great bouquet of orchids.

After all the members of the receiving party had been presented, President Poincare conducted President Wilson to the top of the station steps, where Mme. Poincare was awaiting them.

In the procession from the railway station to the Prince Murat home, in the Parc Monceau, following the formalities of the greeting, the first carriage was occupied by President Wilson and President Poincare and the second carriage by Mrs. Wilson, Mme. Poincare, Mme. Jusserand and Miss Margaret Wilson. Those in other carriages were: Third, American Ambassador Sharp, Premier Clemenceau and Geps. Mordacq and Desparge; fourth, Secretary Lansing and Foreign Minister Pichon; fifth, Gen. Bliss and Henry White; sixth, Gen. Pershing and Ambassador Jusserand; seventh, Admiral Benson and Capt. Tardieu; and eighth, Admiral Grayson, Gen. Harts and Lieut.-Col. Lobze.

During the ride from the railway station the president was smiling, taking off his hat

and bowing to the right and left. Waves of voices answered his salutation, broken by the sharp bark of guns at intervals of fifteen seconds.

President Wilson reached Prince Murat's residence at 10:45 a. m. His arrival was the signal for the hoisting of the American flag amid loud cheers from the crowd. President Poincare and Premier Clemenceau took leave of the presidential party here and the escorting troops returned to their barracks, acclaimed by the crowds on the boulevards. Groups of American soldiers seen on the streets were warmly hailed by the people and in general the enthusiasm of the occasion ran high.

The route to the presidential residence was lined with French troops in solid array. The welcome given by the crowds as the president drove by was vociferous and hearty. The city was making a vast fete of the president's coming.

Welcome by President Poincare.

Later in the day President and Mrs. Wilson attended a luncheon in their honor given by President Poincare. In welcoming the American executive the head of the French republic said:

"Mr. President: Paris and France awaited you with impatience. They were eager to acclaim in you, the illustrious democrat whose words and deeds were inspired by exalted thought, the philosopher delighting in the solution of universal laws from particular events, the eminent statesman who had found a way to express the highest political and moral truths in formulas which bear the stamp of immortality.

"They had also a passionate desire to offer thanks, in your person, to the great republic of which you are the chief for the invaluable assistance which had been given spontaneously during this war to the defenders of right and liberty.

"Even before America had resolved to intervene in the struggle she had shown for the wounded and orphans of France a solicitude and a generosity the memory of which will always be enshrined in our hearts.

"The liberality of your Red Cross, the countless gifts of your fellow citizens, the inspiring initiative of American women, anticipated your military and naval action and showed the world to which side your sympathies inclined. And, on the day when you flung yourselves into the battle, with what determination our great people and yourself prepared for united success!

"Some months ago you cabled to me that the United States would send ever increasing forces until the day should be reached on which the allies' armies were able to submerge the enemy under an overwhelming flow of new divisions and in effect for more than a year a steady stream of youth and energy has been poured out upon the shores of France.

"No sooner had they landed than your gallant battalions, first by their chief, General Pershing, flung themselves into the combat with such a manly contempt of danger, such a smiling disregard of death, that our longer experience of this terrible war often moved us to counsel prudence. They brought with them in arriving here the enthusiasm of crusaders leaving for the holy land.

"It is their right to-day to look with pride upon the work accomplished and to feel assured that they have powerfully aided by their courage and their faith.

"Eager as they were to meet the enemy, they did not know when they arrived the enormity of his crimes. That they might know how the German armies make war it has been necessary that they see towns systematically burned down, mines flooded, factories reduced to ashes, orchards devastated, cathedrals shelled and fired—all that deliberated savagery aimed to destroy, national wealth, nature and beauty, which the imagination could not conceive at a distance from the men and things that have endured it and to-day bear witness to it."

President Wilson's Reply.

"Mr. President: I am deeply indebted to you for your gracious greeting. It is very delightful to find myself in France and to feel the quick contact of sympathy and unaffected friendship between the representatives of the United States and the representatives of France.

"You have been very generous in what you were pleased to say about myself, but I feel that what I have said and what I have tried to do have been said and done only in an attempt to speak the thought of the people of the United States truly and to carry that thought out in action.

"From the first the thought of the people of the United States turned toward something more than the mere winning of this war. It turned to the establishment of eternal principles of right and justice. It realized that merely to win the war was not enough; that it must be won in such a way and the questions raised by it settled in such a way as to insure the future peace of the world and lay the foundations for the freedom and happiness of its many peoples and nations.

"Never before has war worn so terrible a visage or exhibited more grossly the debasing influence of illicit ambitions. I am sure that I shall look upon the ruin wrought by the armies of the central empires with the same repulsion and deep indignation that they stir in the hearts of the men of France and Belgium and I appreciate as you do, sir, the necessity of such action in the final settlement of the issues of the war as not only will rebuke such acts of terror and spoliation but make men everywhere aware that they cannot be ventured upon without the certainty of just punishment.

"I know with what ardor and enthusiasm the soldiers and sailors of the United States have given the best that was in them in this war of redemption. They have expressed the true spirit of America. They believe their ideals to be acceptable to free peoples everywhere and are rejoiced to have played the part they have played in giving reality to those ideals in co-operation with the armies of the allies.

"We are proud of the part they have played and we are happy that they should have been associated with such comrades in a common cause.

"It is with peculiar feeling, Mr. President, that I find myself in France, joining with you in rejoicing over the victory that has been won. The ties that bind France and the United States are peculiarly close. I do not know in what other comradeship we could have fought with more zest or enthusiasm.

"It will daily be a matter of pleasure with me to be brought into consultation with the statesmen of France and her allies in concerting the measures by which we may secure permanence for these happy relations of friendship and co-operation and secure for the world at large such safety and freedom in its life as can be secured only by the constant association and co-operation of friends.

"I greet you, not only with deep personal respect, but as the representative of the great people of France, and beg to bring you the greetings of another great people to whom the fortunes of France are of profound and lasting interest.

"I raise my glass to the health of the president of the French republic and to Mme. Poincare and the prosperity of France."

Response to Socialist Address.

Replying to a delegation of socialists who called on him and presented an address, President Wilson said:

"Gentlemen: I received with great interest the address which you have just read to me. The war through which we have just passed has illustrated in a way which never can be forgotten the extraordinary wrongs which can be perpetrated by arbitrary and irresponsible power.

"It is not possible to secure the happiness and prosperity of the world, to establish an

enduring peace, unless the repetition of such wrongs is made impossible. This has indeed been a people's war. It has been waged against absolutism and militarism, and these enemies of liberty must from this time forth be shut out from the possibility of working their cruel will upon mankind.

"In my judgment it is sufficient to establish this principle. It is necessary that it should be supported by a co-operation of the nations which shall be based upon fixed and definitive covenants and which shall be made certain of effective action through the instrumentality of a league of nations. I believe this to be the conviction of all thoughtful and liberal men.

"I am confident that this is the thought of those who lead your own great nation, and I am looking forward with peculiar pleasure to co-operating with them in securing guarantees of a lasting peace of justice and right dealing which shall justify the sacrifices of this war and cause men to look back upon those sacrifices as upon the dramatic and final processes of their emancipation."

"Citizen of Paris."

On the day before his arrival in Paris the municipal council of that city revived an old custom by passing unanimously a resolution conferring upon President Wilson the title of "citizen of Paris." The resolution said in part:

"We wish to express our homage and gratitude to the great president who, for justice and right, placed America by the side of the free peoples against Germanic oppression, and rendered possible the magnificent triumph which we have witnessed."

Councilor Gent, who moved the resolution, explained that it was formerly the custom to confer honorary citizenship of the city upon those who had rendered distinguished service not only to Paris but to the entire country. He pointed out that at the time of the French revolution the title had been conferred on British, Italian and American personages.

"But what the president will particularly appreciate," said M. Gent, "is that one of those to whom Paris paid the same tribute that it is to-day paying him was the great George Washington."

"The thought that moved me to make this proposal arose from a desire to pay a tribute of gratitude and admiration to the great statesman who has framed in imperishable language the conditions of the future peace and of the life of nations."

Preliminary Steps.

Even before President Wilson left America a number of things relating to the coming peace conference had been decided by the allies. The first was that the meetings should be held in Versailles and Paris. Various other places had been suggested, such as The Hague, but it was felt that as the war had been carried on chiefly from the French capital and Versailles, where the supreme war council held its sessions, the final acts in the drama should also take place there. The number of delegates to be chosen and various other matters were determined. These were mostly of a routine character and did not relate to vital issues.

Conference in London.

The most important preliminary conference was that held in London on Dec. 2 and 3. It was attended by representatives of the British government, Premier Clemenceau and Marshal Foch, representing France, and Premier Orlando and Foreign Minister Baron Sonnino, representing Italy. Col. E. M. House, who was to have represented the United States, was detained in Paris by illness. The conferences were held in the foreign ministry's offices in Downing street and were behind closed doors. Most of the business was transacted on Dec. 3, when there were four meetings. At 10:30 o'clock there was a meeting of the imperial war cabinet, at which Premier Hughes of Australia, Gen. Smuts and

other representatives of the dominions were present. At 11:15 this cabinet meeting became merged in a general conference, at which all the foreign delegations were present. At 4 o'clock the premier had a conference with the French and Italian delegations and at 5:30 there was again a full conference, at which the foreign representatives were present, with the members of the cabinet, including the dominion representatives, and also Arthur J. Balfour, Winston Churchill, Walter Long and Lord Milner.

The object of the conference was to discuss matters of common interest, and also to exchange ideas with regard to the territorial aspirations of France and Italy. In the former category were:

1. Extension of the armistice.
2. The date of the opening of the peace congress and the number of delegates to be sent to it by the principal powers.
3. Amount and nature of the indemnities to be demanded from Germany and what was once Austria-Hungary.
4. Replacement by Germany of merchant shipping destroyed during the war.
5. The future of the German colonies.
6. The position of the Poles, newly emancipated Bohemia, the southern Slavs and other liberated nationalities.
7. Demand on Holland for the extradition of the ex-*kaiser*.

Allies in Agreement.

No official report of the conference was issued before a recital of the names of those attending it and a statement that Col. E. M. House of the American peace delegation was prevented by illness from attending. It was made clear, however, that the delegates were all in agreement with the policy of Premier Lloyd George as to compelling Germany to pay to the limit of her capacity. The allied representatives were also agreed on the proposition of bringing to trial those responsible for our national calamity during the war. In a speech made after the conference Andrew Bonar Law, chancellor of the exchequer, confirmed the statement that the British government had decided to impress upon the allies as strongly as possible that the surrender of Former Emperor William should be demanded and that he should stand his trial.

The chancellor also announced that the government had appointed a committee to examine scientifically into the question of how much the enemy would be able to pay. The government would propose such procedure to the allies, and he believed it would be adopted. An interallied committee would then inquire into the whole question and decide what amount was obtainable. Steps would be taken to secure its payment.

On his return to Paris from London Premier Clemenceau said that there was complete agreement between the allies on all questions, particularly that concerning the former German emperor. He expressed deep satisfaction over the important results obtained at the conference.

Huge Indemnities Claimed.

In November and December, 1918, in considering the claims to be laid before the peace conference for damages inflicted by Germany in the world war, some huge sums were named. On Nov. 16 the Paris *Matin* estimated the damage to France at \$68,000,000,000. The paper apportioned the debt as follows: Return of the indemnity of 1871 with interest, \$12,000,000,000; expenses in the world war, \$28,000,000,000; pensions, \$2,000,000,000, and reparation for damages, \$20,000,000,000.

The *Matin* said that France must secure acknowledgment of the debt before examining the way in which it was to be paid. France wanted no indemnity profit, but all Frenchmen wanted lawful reparation.

Germany and Austria, it added, should return to the allies a minimum of 7,000,000 tons of shipping in payment for that destroyed in the war, but as they had at their

disposal only 3,000,000 tons, the delivery of the entire German-Austrian merchant marine would constitute only half reparation.

British Estimate.

According to the London Daily Mail, Great Britain would demand £8,000,000,000 (\$40,000,000,000) for Great Britain and her dominions as reparation for the war. This, the Daily Mail added, is what the war cost Great Britain and her dominions and British taxpayers would be relieved of £400,000,000 (\$2,000,000,000) a year by the German payment.

The British claim, said the Daily Mail, had been prepared by a committee under Sir Sam Hughes, the Australian premier, and Baron Cunliffe, formerly governor of the Bank of England, who was one of the principal members of the committee.

At a meeting held in Bristol, England, Dec. 11 Premier David Lloyd George said that the war bill of the allies was \$120,000,000,000. The cost of the war to Great Britain, he said, was \$40,000,000,000. Before the war the estimated wealth of Germany, the premier said, was between \$75,000,000,000 and \$100,000,000,000. So, if the whole wealth of Germany were taken, there would not be enough to pay the account. Therefore he had used the words: "Germany should pay to the utmost limit of her capacity."

Belgian Estimate.

The central industrial committee of Belgium, after an investigation, estimated Belgium's damage through German military occupation and seizures of machinery and raw material at 6,000,560,000 francs (about \$1,200,112,000).

Britain Insists on Naval Supremacy.

In a speech delivered in Dundee, Scotland, Dec. 4, 1918, Winston Spencer Churchill, the British minister without portfolio, said:

"We enter the peace conference with the absolute determination that no limitation shall be imposed on our right to maintain our naval defense. We do not intend, no matter what arguments and appeals are addressed to us, to lend ourselves in any way to any fettering restrictions which will prevent the British navy maintaining its well tried and well deserved supremacy."

Premier Lloyd George at an overflow meeting in Bristol Dec. 4 said that Britain would be guilty of a great folly if she gave up her navy. "Wherever the request comes from," he said, "we are not going to give up the protection of the navy, so far as Great Britain is concerned. Our navy is a defensive weapon and not an offensive one, and that is why we do not mean to give it up. We have kept these islands free from invasion for centuries, and we mean to take no risk in the future."

Delegates to Peace Conference.

No complete list of the official representatives of the various belligerent and neutral nations and of newly created nations was available at the time this record was closed. Those representing the United States have already been named—President Wilson, Secretary of State Robert Lansing, Henry White, Col. E. M. House and Gen. Tasker H. Bliss. Great Britain, France and Italy, it was announced, would be represented by their prime and foreign ministers, assisted by other diplomats and by military leaders.

The Marquis Kimochi Saionji, former premier; Baron Nobuaki Makino, member of the privy council and former foreign minister; Viscount Sutami Chinda, ambassador to England; and Baron Keishiro Matsui, ambassador to France, were selected as Japan's plenipotentiaries to the peace congress.

Lu Cheng-hsiang was selected to head China's delegation to the peace conference. He was accompanied by a party of fifteen, including a Belgian, M. Decoot, who was to act in an advisory capacity.

Labor Conference.

The following were chosen in November, 1918, to represent the American Federation of Labor at an international labor conference to

be held in Paris at the time of the peace congress:

Samuel Gompers, president of the federation, William Green, secretary-treasurer of the United Mine Workers.

John R. Alpine, president of the plumbers, James Duncan, president of the International Association of Granite Cutters.

Frank Duffy, secretary of the United Brotherhood of Carpenters and Joiners.

Frank Morrison, secretary of the federation, said the purpose of the international conference is "to consider and help in peace discussion and to establish a new international trade union federation."

The executive council of the federation, he said, would issue invitations to the trade organizations of all nations to participate and he said representatives from all the principal nations were expected to attend.

Although Mr. Morrison declined to discuss the matter, it was understood that the conference proposed to make its information and views available to the peace delegates, who might, if they saw fit, consult unofficially with the conference or with the individual delegations composing it, on matters in which labor is vitally concerned.

Out of the Paris conference labor leaders expect will come the establishment of an international federation of labor with subsidiaries in every mercantile and manufacturing country in the world which will unite workers of the globe in the same manner as the American and Canadian workmen are united in the American federation.

Plan for League of Nations.

The official journal of the Danish government published the following statement Dec. 4, 1918:

"The committees appointed by the cabinets of Sweden, Denmark and Norway to formulate a plan for a league of nations have held a series of meetings in Copenhagen and agreed on a detailed proposal for such a possible organization.

"This proposal embraces especially the general obligation to subject disputes between states to arbitration, the establishment of an international council, a permanent international court of justice, international institutions of investigation and arbitration and the permanent organization of peace conferences or conferences on international law at The Hague."

Lays Wreath on Lafayette's Tomb.

On Sunday, Dec. 15, President Wilson drove to the Picpus cemetery and laid a wreath on the tomb of Lafayette. To it he attached his personal card bearing this inscription:

"In memory of the great Lafayette, from a fellow servant of liberty."

Entirely unannounced, the president arrived at the cemetery where the amazed aged gatekeeper was almost too flustered to unlock the gates when he learned who his caller was. The news of the president's visit spread rapidly to the convent near by and as he left he passed through lines of aged nuns, who came out to pay their respects to the American chief executive.

Reception at City Hall.

On Monday, afternoon, Dec. 16, President Poincare went to the Murat residence and conducted President and Mrs. Wilson to the city hall, where a luncheon was served and addresses were made. In addressing President Wilson, Adrien Mithouard, president of the municipal council of Paris, said:

"Mr. President: I have the honor, in the presence of the president of the republic, to present to you the municipal council of Paris, whose interpreter I am in welcoming the chief of the great nation whose aid, arriving so opportunely, brought us victory, and the upright man whose conscience fashioned his policy and whose diplomacy was made of loyalty."

Turning to Mrs. Wilson, M. Mithouard said: "Madame, Paris is infinitely happy and it touched that you, who have accompanied the president, have been good enough to add to this occasion the charm and the grace of your

presence. We have long been aware of your devotion and of the wise and beneficent activity you have shown by the side of your illustrious husband. Yet nothing touches so much the heart of the people of Paris as to be permitted to know those who have already conquered by their goodness. Thus Paris, by my voice, acclaims you and lays at your feet, madame, the homage of its gratitude and its respect.

Finally, speaking again to President Wilson, M. Mithouard said:

"Mr. President, it is with deep emotion that the capital welcomes to-day the first president of the United States who has crossed the ocean, and our city hall, the cradle of French liberty, will mark in its annals the day on which it was permitted to receive the eminent statesman of the union, the citizen of the world—dare we say the great European?—whose voice, heard before the coming of victory, called to life the oppressed among the nations.

"During weary months our soldiers have fought with stoic resolution in defense of the soil of their forbears and the land of their children. So vast was the field of battle, so great was the issue at stake, so bitter and so hard was the struggle, that only after the passage of time did it seem possible that the grandeur of their accomplishment could clearly show forth. Yet your distance from the theater of war has allowed you to see while yet they lived the greatness of the monument they were building.

"From the other side of the world you have spoken in advance of the judgment of history. What a source of strength was it for these fighters suddenly to hear your voice, in its distant authority resembling the voice of posterity; what joy to welcome those new brothers in arms hastening with ardor to claim at the critical hour their place upon the field of battle; what comfort for them to feel that they were henceforth arrayed with the glorious army of Gen. Pershing, the victor of the Argonne!"

Address by Prefect of the Seine.

M. Autrand, prefect of the Seine, said in part:

"Mr. President, a day memorable beyond all is that on which for the first time a chief of the great American republic crosses the threshold of our hotel de ville.

"How many things seemed to hold you apart from the dreadful conflict! Your intellectual training as lawyer, historian and thinker; that peaceful life of study in which, to use your own phrase, you had known no other laboratory than the world of books, the traditions of the country which had elected you to guide and direct it; the admirable farewell message of Washington warning his successors in power against any such participation as might break out in Europe.

"Well might Germany believe that you would remain the prisoner of these noble formulae. But her lawless militarism, multiplying its crimes against the rights of man, was to force the nation pre-eminently pacifist to draw the sword from the scabbard.

"When the measure of black deeds ran full you sounded the call to arms. And by the miracle of your burning speech, by the ascendancy of your indignant conscience and your sovereign philosophy you drew 100,000,000 of men to devote themselves, soul and body, to the triumph of liberty over tyranny and of justice over error and iniquity."

Mr. Wilson's Reply.

Replying to the greetings extended to him the president said:

"Your greeting has raised many emotions within me. It is with no ordinary sympathy that the people of the United States, for whom I have the privilege of speaking, have viewed the sufferings of the people of France. Many of our own people have been themselves witnesses of those sufferings. We were the more deeply moved by the wrongs of the war be-

cause we knew the manner in which they were perpetrated.

"I beg that you will not suppose that because a wide ocean separated us in space we were not in effect eyewitnesses of the shameful ruin that was wrought and the cruel and unnecessary sufferings that were brought upon you. These sufferings have filled our hearts with indignation. We know what they were not only, but we know what they signified, and our hearts were touched to the quick by them, our imaginations filled with the whole picture of what France and Belgium in particular had experienced.

"When the United States entered the war, therefore, they entered it not only because they were moved by a conviction that the purposes of the central empires were wrong and must be resisted by men everywhere who loved liberty and the right, but also because the illicit ambitions which they were entertaining and attempting to realize had led to the practices which shocked our hearts as much as they offended our principles.

"Our resolution was formed because we knew how profoundly great principles of right were affected, but our hearts moved also with our resolution.

"You have been exceedingly generous in what you have been gracious enough to say about me, generous far beyond my personal deserts, but you have interpreted with real insight the motives and resolution of the people of the United States. Whatever influence I exercise, whatever authority I speak with, I derive from them. I know what they have thought, I know what they have desired, and when I have spoken what I know was in their minds it has been delightful to see how the consciences and purposes of free men everywhere responded.

"We have merely established our right to the full fellowship of those peoples here and throughout the world who reverence the right of genuine liberty and justice.

"You have made us feel very much at home here, not merely by the delightful warmth of your welcome but also by the manner in which you have made me realize to the utmost the intimate community of thought and ideal which characterizes your people and the great nation which I have the honor for the time to represent.

"Your welcome to Paris I shall always remember as one of the unique and inspiring experiences of my life, and while I feel that you are honoring the people of the United States in my person, I shall nevertheless carry away with me a very keen personal gratification in looking back upon these memorable days.

"Permit me to thank you from a full heart."

ROUMANIAN CELEBRATION.

Roumanian celebration of the greatest day (Dec. 1) in the history of that country was recorded in a report from Jassy received by the state department Dec. 14, 1918. The king and queen re-entered Bukarest at the head and in the van of the Roumanian and allied armies, accompanied by Gen. Berthelot, the diplomatic corps, with the chief military and civil officers, who met the king and queen at the entrance to the city. The troops were reviewed by the royal and diplomatic party. There were thousands in the parade, and the enthusiasm was great. After the parade the king and queen, together with the royal family, diplomats and chief military and civil officers, attended divine service at the cathedral.

A banquet was given by the king during the evening, with chief officers of the Roumanian and allied armies and the principal civil officers as the guests. The king made a speech, thanking the allies for their services to Roumania, expressing the gratification of his government that Roumania would be enlarged and that all the peoples of Roumanian race would at last come together.

JUSTICE DEMANDED BY LLOYD GEORGE.

David Lloyd George, the British prime minister, outlined Britain's peace policies in an address at Newcastle, Nov. 29, 1918. It was not a program of vengeance or retribution, but of justice and prevention of a recurrence of the world disaster. The guilty must be punished and those to whom this punishment must be meted out were:

Those responsible for the war.

Those who took part in or ordered the submarine piracy.

Those who were responsible for the mistreatment of the prisoners of war.

Those who outraged international law and devastated the lands of another.

Those who, while living as friends in England, plotted to aid the kaiser.

Germany must make reparation to the full for the damage which was done to the invaded countries. This payment must be up to the limit of her capacities.

Dealing with the question of the responsibility for the invasion of Belgium Mr. Lloyd George said the British government had consulted some of the greatest jurists of the kingdom and that they unanimously had arrived at the conclusion that in their judgment the former German emperor was guilty of an indictable offense for which he ought to be held responsible.

In the discussion of the payment by Germany Mr. Lloyd George gave a hint of the possibility of the abandonment of free trade, for years the chief plank in the British trade relations. He announced that whatever happened Germany "must not be allowed to pay the indemnity by dumping cheap goods on us."

Asked "What about free trade?" the premier added:

"I am prepared to examine every problem, to cast aside any prejudices or preconceived ideas and examine them purely upon the facts as the war has revealed them to us."

Mr. Lloyd George said the victory of the entente allies had been due to the ceaseless valor of their men and that it would be a lesson to anybody who in the future thought that they, as the Prussian war lords hoped, "could overlook this little island in their reckoning."

"We are now approaching the peace conference," the premier continued. "The price of victory is not vengeance nor retribution. It is prevention. First of all, what about those people whom we have received without question for years to our shores; to whom we gave equal rights with our own sons and daughters, and who abused that hospitality to betray the land, to plot against security, to spy upon it, and to gain such information as enabled the Prussian war lords to inflict not punishment but damage and injury on the land that had received them as guests? Never again!"

Mr. Lloyd George said the interests of security and fair play demanded that it should be made perfectly clear that the people who acted in this way merited punishment for the damage they had inflicted.

The second question was the question of indemnities, the premier added. In every court of justice throughout the world the party which lost has had to bear the cost of the litigation. When Germany defeated France she established the principle, and there was no doubt that the principle was the right one. Germany must pay the cost of the war up to the limit of her capacity.

"But I must use one word of warning," Mr. Lloyd George added. "We have to consider the question of Germany's capacity. Whatever happens, Germany is not to be allowed to pay her indemnity by dumping cheap goods upon us. That is the only limit in principle we are laying down. She must not be allowed to pay for her wanton damage and devastation by dumping cheap goods and wrecking our industries.

"There is a third and last point. Is no one to be made responsible for the war? Somebody has been responsible for a war that has taken the lives of millions of the best young men of Europe. Is not any one to be made responsible for that? If not, all I can say is that if that is the case there is one justice for the poor, wretched criminal and another for kings and emperors."

Mr. Lloyd George declared that there were two offenses against the law of nations that had been committed.

"One," he said, "is the crime against humanity in the deliberate plotting of the great war. The other is the outrage on international law. It is a crime, a brutal crime, to devastate the lands of another. Whoever did that ought to be responsible for it.

"The submarine warfare did not mean only the sinking of ships but it was a crime against humanity in that it sank thousands of harmless merchantmen. In the whole history of warfare between nations that had never been sanctioned. It is rank piracy and the pirates must receive the punishment.

"I mean to see that the men who did not treat our prisoners with humanity are to be made responsible. I want this country to go to court with a clean conscience, and she will do so. There is not a stain on her record. We will not be afraid to appear before any tribunal.

"Now these are the things which we have to investigate. We mean that the investigation shall be an impartial one, a perfectly fair one. We also mean that it shall be a stern one, and that it shall go on to the final reckoning.

"We have got so to act now that men in the future who feel tempted to follow the example of the rulers who plunged the world into this war will know what is awaiting them at the end of it.

"We shall have to see that this terrible war, which has inflicted so much destruction on the world; which has arrested the course of civilization and in many ways put it back; which has left marks on the minds, upon the physique, and the hearts of myriads in many lands that this generation will not see obliterated—we must see by the action we take now—just, fearless, and relentless, that it is a crime that shall never again be repeated in the history of the world."

ITALIA IRREDENTA.

[From official War Encyclopedia.]

"Italia irredenta" means unredeemed Italy. After 1861, when the present kingdom of Italy was established, the papal states, Venetia, the district around Trieste, and the district around Trent were still—although inhabited mainly or in part by Italians—not parts of the kingdom. Venetia and the papal states were annexed in 1866 and 1870. This process of winning Italy from foreign control came to be called redeeming Italy, and after 1870 the term "Italia irredenta" was applied to Trieste and the Trentino, these being territories still "unredeemed." Popular secret societies, whose object was to advocate the winning back of unredeemed Italy, were formed shortly after the congress of Berlin (1878), from which the Italian representative returned with "clean" but empty hands. Advocates of this policy were called irredentists, and the policy itself was known as irredentism. Irredentism declined after Italy joined Austria and Germany in the triple alliance (1882) but has steadily gained in force since 1908, when Austria, backed by Germany, annexed Bosnia and Herzegovina without consulting Italy, and contrary to her interests and in violation of the treaty of Berlin (1878).

MORE BERNSTORFF PROPAGANDA.

In order that a complete file of the correspondence on the subject might be published the department of state in Washington on Dec. 7, 1918, issued the following copies of telegrams relating to Count Bernstorff, the former German ambassador to the United States, and his activities in pro-German propaganda in this country. The following telegrams are from Bernstorff, except where otherwise indicated.

Dispatch from Washington to Berlin Nov. 1, 1916:

"As you will have learned from my previous reports, we have, since the Lusitania case, endeavored to wind up all the so-called German propaganda, and especially to get rid of all dubious individuals. I can now say with a good conscience that we are no longer compromised. Some of the old affairs still hang on, but are more or less settled, although they will cause some further expenditure.

At the beginning of the war many things were undertaken by the Dermburg propaganda which would never have been undertaken if we could have seen that the war would be so long, because nothing can for long be kept secret in America. Since the Lusitania case we have strictly confined ourselves to such propaganda as cannot hurt us if it becomes known. The sole exception is, perhaps, the peace propaganda, which has cost the largest amount, but which also has been the most successful.

"Latterly I have been using the Embargo association and some entirely reliable private intermediaries. I have also made use of the German University league, founded since the war. This has done its best to take the place of the German association, which has been of no use during the war on account of its management. The league has published under my collaboration an excellent collection of reports on the war, which will be of great service to our cause. The support which I have already given the league is entered in the first quarter's account for 1916, item No. 208. On the occasion of later installments to them I will refer to this report.

"I ask that this may be sanctioned.

"BERNSTORFF."

English translation of a telegram from Bernstorff through Buenos Aires and Stockholm to the German foreign office, dated June 2, 1916:

"No. 45 A. June 2, 1916. In conformity with your excellency's wish, I suggest that the present is a favorable time to get Hearst to send a first-rate journalist to Berlin. The man selected, W. B. Hale, has been, as your excellency knows, since the beginning of the war a confidential agent of the embassy and as such he has been bound by contract until June 23, 1918. In making this arrangement the main idea was that Hale would be the most suitable man to start the reorganization of the news service after peace on the right lines. I request that full confidence may be accorded to Hale, who will bring with him a letter of recommendation from me to Dr. Hamman. Hearst is not aware that Hale is our agent, but knows him only as a Germanophile journalist who has contributed leading articles to his papers."

English translation of a telegram from Bernstorff through Buenos Aires and Stockholm to the German foreign office, date June 5, 1916:

"No. 46, June 5, 1916, in continuance of previous telegram. As Hale tells me and Hearst confirms, the latter is rather hurt that on Wiegand's account the World gets all the important Berlin interviews. I recommend that under suitable circumstances Hale should, for obvious reasons, be given preference, as Hearst's organs have during the course of the war always placed themselves outspokenly on our side."

English translation of a telegram from Von Jagow sent through Stockholm and Buenos Aires to Bernstorff on Jan. 31, 1916:

"Klaessig's wireless telegrams are much too long and give the impression of being too

much one sided, a thing which absolutely must be avoided."

English translation of a cipher dispatch from Bernstorff to the foreign office, dated Feb. 2, 1917:

"A 61. The director of the press bureau, Dr. Fuhr, has been paid \$20,000 from the embassy fund as advance for his press expenses. The press bureau will send in a statement as to the expenditure and the sum will be entered in the fourth quarter of the embassy accounts."

"A 62. In continuation of report A 349 of 24th August, 1915.

"As your excellency is aware, I have used the intermediary of the New York representative of the Wolff Agency, Herr Klaessig, in order to send telegraphic reports to you. These telegrams intended for you are indicated by the fact that they do not begin by naming the day of the week.

"In order that the reports shall not excite attention it has been necessary in many cases to disguise them in the form of press extracts or put into the mouth of members of congress when in reality, they are not intended to be merely the expression of some individual opinion but as being views which, in my opinion, are important for the direction of our foreign policy and for a proper comprehension of the local situation."

English translation of a telegram from Berlin to Washington via Stockholm and Buenos Aires, dated Sept. 16, 1916:

"The reports of the Wolff bureau agent are rightly criticized by a part of the German press as provided, as he has reported for some time nothing but indignation against English encroachment which nobody here takes seriously.

"As the matter will probably be taken up in the reichstag more unbiased reports seem to be urgently desirable.

"Please advise Klaessig in this sense."

English translation of a cipher letter from Bernstorff to the foreign office, Berlin, dated Oct. 27, 1916:

"In the official accounts for the first and second quarter of 1916 will be found entries of payments to Mr. Theodore Elowe. As to this I have to report that this gentleman is of German origin, and married to a German lady. He offered us his services, as he founded a weekly paper in Washington, the National Courier. This offer came at a time when we were deploring the death of Mr. John R. McLean. This offer had given his newspaper an entirely anti-English character, so that his death left a great gap which the National Courier can unfortunately never hope to fill. The Washington Post has since been fairly neutral, but may be entirely lost to us if it cannot, as is very desirable, be put into the hands of Mr. Hearst.

"As to the value of weekly papers in general, there are here very different views. Mr. Bayard Hale wishes me to propose to you the founding of a first class weekly, whereas I in my report No. 412 recommended the starting of a monthly. Personally I think it entirely depends upon whether we make a happy choice in respect of the editor. In this respect we have had a very unfortunate experience with the Times Mail. Only the future can show whether we shall have better luck with Mr. Huntington Wright and Mr. T. Elowe. In either case the expenses already incurred, or to be incurred, are insignificant. Moreover, we could only grant them in order to help the publications in question over the difficult initial period. A permanent support has neither been promised nor asked for. The fact of an American newspaper being subsidized can never be kept secret, because there is no reticence in this country. It always ends in my being held responsible for all the articles of any such newspaper. This is particularly undesirable when, as now, we are in an electoral campaign of the bitterest character, which is turning largely upon foreign policy.

I have therefore with much satisfaction

to myself at last succeeded in getting out of all relations with Fair Play of Mr. Marcus Braun. I should also be glad to be free from the Fatherland, which has shown itself to be of little value.

"It is particularly difficult in a hostile country to find suitable persons for help of this sort, and to this as well as the Lusitania case, we may attribute the shipwreck of the German propaganda initiated by Herr Dernburg. Now that opinion is somewhat improved in our favor, and that we are no longer ostracized, we can take the work up again. As I have said before, our success depends entirely upon finding the suitable people. We can then leave to them whether they will start a daily, weekly or a monthly, and the sort of support to be given. In my opinion, we should always observe the principle that either a representative of ours should buy the paper, or that the proprietor should

be secured to us by continuous support. The latter course has been followed by the English in respect of the New York —, and our enemies have spent here large sums in this manner. All the same, I do not think that they pay regular subsidies. At least, I never heard of such. This form of payment is moreover inadvisable, because one can never get free of the recipients. They all wish to become permanent pensioners of the empire, and if they fail in that, they try to blackmail us.

"I, therefore, request your excellency to sanction the payment in question."

English translation of a telegram from Bernstorff to the foreign office, Berlin, through Buenos Aires and Stockholm, dated Nov. 2, 1916:

"I request by return telegraphic authority for payment of \$50,000, to establish a first class monthly magazine."

LIBERATION OF BELGIUM.

Scenes of enthusiasm marked the reoccupation of the whole of Belgium by King Albert and his troops from the time Bruges, Ostend and Ghent were freed as the result of heroic fighting by the Belgian armies and their allies until Brussels, Antwerp, Liege and the rest of the country was evacuated by the Germans. In each of the larger towns at the time of the entry of the king and his soldiers the inhabitants sought in every way imaginable to show their delight at the restoration of the old regime and their liberation from the hated enemy who had oppressed them for four years and more.

The state entry into Antwerp was made on Nov. 20 and into Brussels on the 21st. On the occasion of his formal return to his capital King Albert received the following message from President Wilson:

"The White House, Nov. 21, 1918.—His Majesty King Albert of Belgium, Brussels: At the moment that you re-enter Brussels at the head of your victorious army, may I not express the great joy that it gives to me and to the American people to hail your return to your capital, marking your final triumph in this war, which has cost your nation so much suffering but from which it will arise in new strength to a higher destiny.

"WOODROW WILSON."

Having been received enthusiastically by the inhabitants of his redeemed capital, King Albert made an important speech from the throne in parliament—his first utterance in the capital since almost the beginning of the war. Near the throne stood Gen. Pershing, representing the American army; Gen. Plummer of the British army, and other generals. The chamber was filled with members, and in the galleries was the diplomatic corps, including Brand Whitlock, the American minister, who had returned to his post in Brussels.

One of the most vital points in the king's address dealt with the question of suffrage for Belgium. In this connection he said: "The government proposes to the chamber to lower, by patriotic agreement, the ancient barriers and to make the consultation of the nation a reality on the basis of equal suffrage for all men of the mature age required for the exercise of civil rights."

This statement aroused a storm of applause from all of the members. Referring to the Flemish question, King Albert said:

"The necessity of a fruitful union demands the sincere collaboration of all citizens of the same country without distinction of origin or language. In this domain of language the strictest equality and the most absolute justice will decide over the elaboration of projects which the government will submit to the national representatives.

"A reciprocal respect for the interests of the Flemings and the Walloons ought to be an integral principle of the administration and

should give to each the certainty of being understood when he speaks his own language and assure to him his full intellectual development, especially higher education."

In regard to the future status of Belgium, he declared:

"Belgium, victorious and freed from the neutrality that was imposed upon her by states which have been shattered to their foundation by war, will enjoy complete independence. Belgium, re-established in all its rights, will rule its destinies according to its aspirations and in full sovereignty."

In speaking of the manner in which the war had been brought to a successful conclusion, King Albert referred with gratitude to the great efforts of all the entente countries and of the United States, "a new and stalwart ally which added the weight of her effort, so great and enthusiastic, to that of the other nations and caused our formidable adversary to totter.

Near the close of his address the king paid a further glowing tribute to the entente nations and made a striking reference to America, which, he declared, had saved Belgium from famine.

The scene in the parliament chamber was impressive. Grouped about the throne as the king entered were Cardinal Mercier in his crimson robes, Burgomaster Max, Gen. Leman, the defender of Liege, and Prince Albert of Great Britain. Queen Elizabeth with the princess and princes had preceded the king to the throne. As King Albert entered he passed in front of Cardinal Mercier, Burgomaster Max and Gen. Leman, and shook each of them warmly by the hand.

After the ceremonies in the chamber the king held an official reception to the diplomats and city officials at the city hall. Here Minister Whitlock had a touching meeting with Burgomaster Max, whom he had not seen since his arrest and deportation to Germany. The burgomaster was quite overcome with emotion.

CHRISTMAS PACKAGES BY THE MILLION.

Chief of Staff Gen. March said Dec. 14, 1918: "We have cleared up during the week the question of Christmas packages for France, The steamship Maui, with 20,000 sacks, and the Pochontas, which sailed on the 8th with 12,000 sacks, completed a shipment of six ships, carrying 96,000 sacks, which contained 248,000 Christmas packages for our men in France, England and Italy. That will give a Christmas package to every one over there and a surplus of some 200,000 packages, so that every single officer and man or person attached to the American expeditionary forces will get one package. This enormous shipment was handled by Gen. Hines in New York without the slightest delay, everything going very smoothly."

ITALY'S WELCOME TO AMERICAN SOLDIERS.

The American consul-general at Genoa informed the department of state that *Il Corriere Mercantile*, published at Genoa, on June 27, 1918, contained the following in regard to the landing at Genoa of the first contingent of American troops:

"The country of Columbus salutes to-day worthily the soldiers of free America.

"To the sons of the powerful and glorious republic of the United States, who come to shed their blood for the holy cause of Italy and of civilization, goes forth our enthusiastic salute.

"They bring us their arms and their young hearts; they bring us the ardently desired and efficacious aid of their land, from which irradiates upon the world such a resplendent light of civilization.

"Therefore their aid is so much the more precious; therefore it is so much the more rich in significance.

"A cause which by force of its ideals has succeeded in drawing to itself the aid of so great a people cannot fail to triumph.

"And we shall triumph! And we shall conquer! The gloom shall be dispersed by light.

"Long live America! Long live Wilson! Long live the soldiers who disembark to-day upon the land of Columbus, of Mazzini, and of Garibaldi!

"Civilization opposes its formidable mass against barbarity.

"We shall triumph! We shall conquer!

Arrival of the Troops.

"This morning a transport arrived in our port having on board a fine and strong contingent of American troops.

"We salute with enthusiasm and with admiration the soldiers of the glorious North American republic.

"Their presence on our front will let the barbarous enemy know that all the civilized world is solid with us and with our most holy cause.

"The solidarity of the United States with the entente brings to us not only an enormous economic and military aid but a moral approbation of which we are proud.

"We invite the citizens to give a great and worthy reception to the troops over whose heads waves the star spangled banner.

"They are the sons of Washington who come to fight beside the sons of Garibaldi.

"It is a free people who come to fight beside a free people.

"It is a people of men eminently practical and modern, who know how to rise to the loftiest and purest heights of idealism, who land to-day upon the sacred soil of Italy, and who will traverse the streets which saw pass the exalted and radiant figure of the greatest of our idealists—Giuseppe Mazzini.

"All the glorious shades of our great ones will be to-day outstretched in our heaven toward the star spangled banner, which comes to unite itself with our tricolor.

"This is a historic day.

"We consider useless any words of incitement.

"Genoa will also to-day be great and will know how to show, in representation of the whole nation, how greatly the Italians appreciate the military, economic and moral aid offered to us by the great North American republic.

"As soon as the transport had thrown her anchor in our port, the captaincy notified the civil and military authorities of the city, and soon the prefect, the mayor and the commanders of the army corps and the division went on board to visit the commander of the contingent of American troops.

The Manifestoes.

"Scarcely had the news of the arrival of the American contingent spread through the

city when the following manifestoes were published:

"Fellow Citizens:

"The intrepid American soldiers land at this port to unite themselves to our victorious army on the fields where already our brothers of France and England attest the solidarity of the allies in the common fight for liberty and for justice.

"Upon the soil of Italy, together with ours, the banner of the great republic will wave proudly and the love of the two peoples, already bound together by one and the same ideal, united in one and the same sacrifice, shall have, in glory, its solemn consecration.

"To the sons of the generous land, bound to Genoa by the genius of Columbus, let us testify with emotion our feeling. Let us do that they may carry with them the remembrance of it as a viaticum of faith and auspice, and may they be able to say that they have felt in the first salute of Italy the throbbing of a people firm in its proposals, worthy of the new destinies which the valor of arms prepares for humanity.

"From the municipal palace, June 27, 1918.

"THE MAYOR: E. MASSONE."

"Genoese:

"Our city, the proud mother of Christopher Columbus, who sailed toward the unknown with lionine courage and with the faith which is the animator of the great, will receive to-day the free sons of the distant land divined by him.

"Across the centuries and across the seas the United States and Italy, bound together by one and the same cause, proclaim once more that liberty, when right does not suffice to make it triumph, shall be saved and made sublime by the point of the sword.

"The United States and Italy are at the apex of their history.

"The star spangled banner and the fluttering tricolor shall rise up in victory or shall perish.

"Citizens! To-day the spirit of the country is here.

"Let us remember it. It is a great good fortune for Genoa to welcome, in the name of Italy, the American soldiers who will go also to our front to prepare the heroic days, uncancelable in the life of peoples.

"The Federated Works of Assistance and National Propaganda."

"Hardly had the notice spread in the neighborhood of the port when a great crowd gradually gathered at Ponte dei Mille to salute the allied soldiers from over the sea. There was a continual waving of handkerchiefs, a warm crescendo of applause, of shouts, of acclamations of America.

"The soldiers of the free republic from the deck of the ship replied with great enthusiasm to the first salute of the generous people shouting 'Viva l'Italia! Viva l'Intente!' and waving also their handkerchiefs and star spangled and tricolored banners.

Gen. Garioni Salutes the American Troops in the Name of the Italian Army.

"This morning on the arrival of the first contingent of the troops which North America is sending to Italy, Gen. Garioni, commander of the army corps, and Admiral Cagni, with the other officers of the garrison, went on board, and were received with great enthusiasm by the officers and troops of the American army.

"Gen. Garioni, in the name of the head of the Italian army and of his fellow soldiers, has given to the first contingent of the North American troops the welcome to this land, the country of Columbus.

"He added that the intervention of the arms of the powerful allied nation is a guaranty of the coming definite victory of the entente in

this pitiless war in defense of humanity, of civilization, and of right against Teutonic arrogance, already shaken on the fields of France and Italy.

"After Gen. Gariotti, Admiral Cagni gave the welcome in the name of the Italian navy.

"The commander of the American troops re-

plied briefly, saying that he was pleased to have arrived safely in Italy with the first contingent of the American army, which will go to fight here, so that soon all, under one sole banner and animated by one sole flame, may conquer in the terrible war for the triumph of humanity and right."

WARTIME CONTROL OF PRIVATE AVIATORS.

The following proclamation requiring private aviators to have licenses from the government was issued by President Wilson Feb. 28, 1918:

Whereas, the United States of America is now at war, and the army and navy thereof are endangered in their operations and preparations by aircraft, I, Woodrow Wilson, president of the United States, by virtue of the authority vested in me by the constitution as commander in chief of the army and navy of the United States and of the militia of the several states when called into the actual service of the United States, do hereby for the protection of such forces issue the following proclamation:

1. A license must be obtained from the joint army and navy board on aeronautic cognizance by or in behalf of any person who contemplates flying in a balloon, airplane, hydroplane, or other machine or device over or near any military or naval forces, camp, fort, battery, torpedo station, arsenal, munition factory, navy yard, naval station, coaling station, telephone or wireless or signal station, or any building or office connected with the national defense, or any place or region within the jurisdiction or occupation of the United States which may be designated by the president as a zone of warlike operations or of warlike preparation.

2. The license will specify the person to whom it is issued, the machine to be used, the persons to operate the machine, and all other persons to be carried therein, the mode

of marking or otherwise identifying the machine, and other details intended to assure the military and naval forces of the peacefulness of the errand.

3. The license will also specify the territory and the time wherein it shall be available.

4. In case any aircraft shall disregard this proclamation or the terms of the license, it shall be the right and duty of the military or naval forces to treat the aircraft as hostile and to fire upon it or otherwise destroy it, notwithstanding the resultant danger to human life.

5. For the present, the president designates as a zone of military operations and of military preparation the whole of the United States and its territorial waters and of the insular possessions and of the Panama Canal Zone.

6. The provisions of this proclamation do not apply to aircraft operated by the army or navy of the United States.

7. No private flying without a license will be permitted after the expiration of thirty days from the date of this proclamation.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 28th day of February, in the year of our Lord 1918, and of the independence of the United States the 142d. WOODROW WILSON.

By the president:

ROBERT LANSING, Secretary of State.

RED CROSS MEDALS AND BADGES.

The American Red Cross has issued from headquarters instructions concerning Red Cross medals and badges. The official medal in silver, bronze or gold has been formally adopted by the Red Cross and may be awarded to such persons as give important volunteer service. The president of the corporation will bestow this in the name of the Red Cross.

There are three standard badges—the enrolled Red Cross nurse badge, the enrolled Red Cross dietitian badge and the membership badge. Bars denoting the class of service may be placed above any of these three standard badges. For instance, the insignia for home defense nurses shall be a white enamel bar bearing the words "home defense nurse," and shall be used in connection with a standard membership badge. The life-saving corps has a similar bar with the words "life-saving corps." Red Cross physicians, surgeons and other Red Cross medical practitioners may wear a white enamel bar above the standard membership badge, with the words "medical service."

Field service in the war zone or in the military camps in the United States or specially meritorious service in the civil areas in times

of disaster will be recognized by a bronze bar bearing appropriate words and placed below the standard badge. First-aid contest awards will have a similar bar below the membership badge. The life-saving corps has a silver alloy bar.

General service with the Red Cross will be recognized by a service bar which will be worn independently or below a standard membership badge. It is authorized for award to all classes of Red Cross workers at national headquarters, at division headquarters, or at chapters, branches or auxiliaries, both volunteer and paid, and including officers, clerks and those engaged in chapter or division work-rooms. This bar is of white enamel, bears a red Greek cross in the center and is given after four months of service comprising not less than 200 hours. On completion of the next period of service this bar may be exchanged for similar bar with a tiny star at each end. Bars may be exchanged as the period of service grows, so that each star awarded indicates not less than 800 hours' work, and a five-star bar indicates not less than 4,000 hours' work. Service periods will be counted from Jan. 1, 1918.

GREATEST WAR LOANS.

Country and loan.	Subscriptions.
United States fourth liberty loan, 4½ per cent.	\$6,954,875,200
British victory loan early in 1917, 5 per cent.	5,096,245,320
United States second liberty loan, 4 per cent.	4,617,532,300
United States third liberty loan, 4½ per cent.	4,158,599,100
Eighth German war loan, 4½ and 5 per cent.	3,600,000,000
French war loan of 1915, 5 per cent.	2,261,864,409
Austrian seventh war loan, 5 per cent.	1,150,000,000
Italian fourth war loan, 5 per cent.	1,000,000,000
Hungary, seventh war loan, 6 per cent.	600,000,000
Canadian victory loan, November, 1917, 5¼ per cent.	418,000,000

TRAINING OF BOMBING CREWS.

The war department in July, 1918, issued the following interesting statement prepared by the military aeronautic department describing the special training of bombing crews:

During the first year of the war there were no aerial bombing organizations in the allied flying corps. Practically all the work in the air was in the nature of observation. No pilots could be spared for anything else, whereas to-day probably 25 per cent of the aerial arms are bombing squadrons of twelve machines per squadron.

Fly in Large Groups.

The first bombing was done by volunteer pilots, who flew over the German lines and dropped three or four bombs made from artillery shells on concentration camps and cantonments. Showers of small steel arrows were sometimes spilled upon convoys, troop trains and bodies of massed troops. The Germans, however, began regular day bombing of cities in 1915, and the allies bombarded Karlsruhe in reprisal in October of the same year. From that date on the evolution in organized bombing developed rapidly. Some time later the French began night bombing, but this was not undertaken by the Germans until August, 1916.

To-day large groups, including several squadrons of bombing machines go over the lines from time to time and completely destroy their objective, be it a city or a camp, a column of troops or a trench system. Unfortunately the allies' air forces have to travel for many miles over hostile territory defended by anti-aircraft guns to attack German cities, while the enemy can attack French cities by flying only a short distance beyond our lines.

The allies are developing large bombing planes, however, which carry sufficient fuel for long excursions and armament to protect them when they are attacked by airplanes. Bombing squadrons are usually escorted over the lines by fast fighting squadrons of eighteen planes per squadron and then left to their own devices, for the fighters seldom carry sufficient fuel to permit them to accompany the bombers on the round trip.

Formation of Flying Columns.

After an excursion of this sort the returning bombers receive a warm reception from the anti-aircraft guns when they again pass over the enemy lines en route to their airdromes. Like fighting squadrons, the bombing planes fly in a formation so designed as to permit the planes to protect their mates from aerial attack. The usual formation is the "V" with the leading planes lowest and the following planes arranged in pairs, one on each side of the "V" and each pair a certain number of feet higher in the air. This formation is something like a pointed flight of geese, thus permitting the inner planes to bounce upon enemy planes which essay an attack on any of their fellows below.

The training of bombing crews, which comprise a pilot and a bomber, is as important and exacting as is the teaching of any of our other highly specialized branches of the air service. It may sound easy to the layman to fly over a certain spot and drop a concentrated form of high explosive upon it. But the most comprehensive training is necessary in flying, aiming, firing, navigating and fighting.

The dropping of the bomb itself is similar to shooting a rifle. First, you set your sights and wind gauge, then you hold the rifle properly and finally you pull the trigger at the proper moment. Then, if your ammunition is standard, you hit the target. It is the same with bombing. If you set your sights correctly, fly your plane correctly over the objective, and drop the bomb at the proper time you will hit the target. Then, if the ammunition manufacturers gave you good bombs, the objective will be destroyed.

The elemental training is given the bomber and the bombing pilot alike at the preliminary or ground school. It includes theory and

practice in everything except work in the air. This instruction is intended to make the future officers intelligent and efficient in military duties and flying practice. It consists of a hard grind for about three months, but the men learn discipline and drill and become familiar with the customs of the service by the time they graduate. Their special technical training includes the theory of flight, aeronautic engines and instruments and airplanes. Some of them could build workable machines by the time they are through.

It is after this preliminary work that the men are selected for the special branches of the air service. A certain number who stand well in their class are permitted to volunteer as bombers.

Pairing Pilots and Bombers.

The bombers first receive a week of concentrated theory on bomb explosives, exploding and sighting devices, and all the theory pertaining to "laying an egg on the Hun," as this new form of fighting is termed. It is at this stage of the game that the bombers and bombing pilots meet, but it is an earlier class of pilots with whom the bombers are paired. The pilots are reserve military aviators and can do all the stunts, fly cross country or by compass and maps. They are also trained in formation or squadron flying.

In this period, known as the preparatory bombing stage, the bombing crews learn to fly a proper course over camera obscuras and Batchelor mirrors. These instruments, located in houses on the ground, are open to the sky, so that the course of the planes flying over them can be traced on charts. The charts show up even the smallest errors in the movements of the crew.

When the embryo bombers come down expert instructors correct their errors, showing them how to improve their work.

When all their faults have been corrected and the crews have been shifted around until the most efficient combinations have been secured, the men pass on to the bomb dropping stage. They are started flying at low altitudes, with conditions made as easy as possible, then they are sent up to between 3,000 and 4,000 feet, where they continue to practice until they can hit the target. The target is a circle twenty-five feet in radius, painted on the ground, and would not be very hard to hit with a rifle from that distance, provided a steady platform was available, but these men, nearly a mile in the air, are under way all the time and the plane is far from steady. They pass over their target at a speed of more than a mile a minute while they "shoot."

Foreigners claim that Americans are prone to exaggerate, but in this case the proof is available at the fields. Nine out of ten bombing crews can score seven hits out of ten shots at this stage.

The next period of training takes the men higher in the air. They ascend to between 6,000 and 12,000 feet. Here, while in training, they do not have to worry at all. They worry but little more in action, for in the higher levels of these ranges, say 10,000 to 12,000 feet, the boche doesn't average better than one hit to every 50,000 anti-aircraft shots. So our bombers will be comparatively safe enough at these heights.

At the 10,000 foot level the same sized target is used—differing from small arms practice only. It looks like a dimly lit fly-spec on the ground, nearly two miles below. The pilot is navigating the ship on an even keel at a certain speed, and so that it will pass directly over the target.

The bomber, having taken into account the speed of the ship, the elevation and the wind, has set his sights and looked to his release and bombs. Now he peers intently through the sight, his finger on the release trigger. As the target below passes the cross wires in the sight, he squeezes the trigger. "Tick" goes the release. For twenty-five seconds he watches the bomb travel on its course until the white ball of smoke shows where it has

landed in relation to the target. These are plaster of paris bombs, balanced and weighted the same as real bombs, but not "loaded."

Hit Moving Targets.

Our bombing crews have to be able to hit moving targets as well as still ones, even moving trains and surprise targets. Incidentally, they must hit the dummy train and not the neighboring fields. Practice is also given them in diving upon a moving target, say the kaiser's auto, and putting a bomb in it. This is considered great sport.

Having passed these stages, the fine points

of bombing are now given to the crews. They are taught how to get pictorial information of enemy country. In this and subsequent stages perfectly peaceful and innocent towns adjacent to the bombing fields are subjected to bombardments.

Finally the most advanced work is taken up, night bomb raiding.

Besides their training in bombing, these aviators and observers have a thorough training in aerial gunnery with fixed and flexible machine guns, which shoot accurately at 100 yards and at 600 shots per minute.

RESTRICTION OF IMPORTS.

Under power conferred on him by the trading with the enemy act President Wilson, on Feb. 14, 1918, issued a proclamation requiring an import license for all articles from all countries. The chief purpose was to enable this government to eliminate less essential imports to the end that tonnage might be conserved and additional shipping be made available for the transportation of troops and supplies to Europe. The war trade board, having charge of the administration of the order, published its first list of restricted imports March 23, 1918, and announced that application to import the articles named on the list would not be granted except under these circumstances:

1. When the articles mentioned were actually shipped from abroad prior to April 15, 1918.

2. When coming by rail from Mexico or Canada when the goods in question originated in those countries or in others from which such goods are being licensed for import.

3. When coming as a return cargo from European points and then only (a) when coming from a convenient port, (b) when loaded without delay, and (c) when the importation from Europe is not specifically prohibited in said list.

The following is the list of restricted imports, No. 1:

1. Agricultural implements.
2. Animals, live, except for breeding purposes.
3. Art works.
4. Asbestos.
5. Beads and ornaments.
6. Blacking and all preparations for cleaning and polishing shoes.
7. Manufactures of bone and horn.
8. All breadstuffs, except wheat and wheat flour, including imports from Europe.
9. Broom corn.
10. Candle pitch, palm and other vegetable stearin.
11. Cars, carriages and other vehicles.
12. All acids.
13. Muriate of ammonia.
14. All coal tar distillates except synthetic indigo.
15. Fusel oil or amylic alcohol.
16. Citrate of lime.
17. All salts of soda except nitrate of soda and cyanide of soda.
18. Sumac, ground or unground.
19. Chicory root, raw or roasted.
20. Clocks and watches and parts thereof.
21. Cocoa and chocolate, prepared or manufactured.
22. Manufactures of cotton.
23. Cyrolite, except not to exceed 2,000 long tons for the year 1918.
24. Dials.
25. Dice, draughts, chessmen, billiard balls, doker chips.
26. Eggs of poultry.
27. Electric lamps.
28. Explosives, except fulminates and gunpowder.
29. Feathers, natural and artificial.
30. Manure salts.
31. Manufactures of vegetable fibers and textile grasses, except jute.
32. Fish hooks, rods and reels, artificial bait.
33. Fluorspar.

34. All fruits, except pineapples and bananas.

35. All nuts, except cocoanuts and products thereof.

36. Gelatin and manufactures thereof, including all from Europe.

37. Gold and silver manufactures, including jewelry.

38. Sulphur oil or olive foots.

39. Grease.

40. Hay.

41. Honey.

42. Hops.

43. Infusorial and diatomaceous earth and tripol.

44. Mantles for gas burners.

45. Matches, friction and lucifer.

46. Fresh meats.

47. Meerschaum, crude or manufactured.

48. Musical instruments and parts thereof.

49. Nickel.

50. Oilcake.

51. Oilcloth and linoleum for floors.

52. All expressed vegetable oils from Europe only.

53. Lemon oil.

54. Nonmineral paints and varnishes.

55. Pencils and pencil leads.

56. Penholders and pens.

57. Perfumery, cosmetics and toilet preparations.

58. Phonographs, gramophones, graphophones and parts thereof.

59. Photographic goods.

60. Pipes and smokers' articles.

61. Plants, trees, shrubs and vines.

62. Plates, electrotype, stereotype and lithographic engraved.

63. Plumbago or graphite (until July 1, 1918; thereafter not exceeding 5,000 long tons for remainder of 1918).

64. Pyrites (except not exceeding 125,000 long tons to Oct. 1, 1918).

65. Rennets.

66. Artificial silk and manufactures thereof.

67. Soap.

68. Malt liquors, including all from Europe.

69. Wines.

70. Other beverages, including all from Europe.

71. Candy and confectionery, including all from Europe.

72. Tar and pitch of wood.

73. Toys.

74. Umbrellas, parasols, sunshades and sticks for.

75. Beans and lentils, from Europe only.

76. Dried peas, from Europe only.

77. All vegetables, except beans and lentils, and peas, either in their natural state, or prepared or preserved, including all from Europe.

78. Vinegar.

79. Whalebone, unmanufactured.

80. Manufactures of wool.

81. Manufactures of hair of camel, goat and alpaca.

82. Zinc.

The list was changed from time to time as circumstances required and before the close of hostilities had been greatly modified. It is given here merely as an example of the measures taken in the course of the war to lessen activities in some directions to increase those in more essential lines.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION WAR WORK.

At the time this country faced the possibility of war, the national board of the Young Women's Christian association was confronted with a great responsibility for helping to safeguard the moral condition of women and girls as affected by the war.

A request came from the United States war department commission on training camp activities and from the Young Men's Christian association for woman workers to undertake work among girls in communities adjacent to army and navy training camps.

A war work council was organized June 6 and 7, 1917, with a membership of 160 women chosen from the association membership and from prominent leaders in many states who had not hitherto been associated with the Y. W. C. A. From June 6, 1917, to Nov. 1, 1918, the total expenditure of the war work council was \$5,495,491.15. Its expenditure for work in France, Italy, Russia and England was \$531,720.63 and \$4,963,770.52 was expended in the United States.

The function of the war work council is to act as a committee of the national board responsible for using the resources of the Young Women's Christian association in helping meet the special needs of girls and young women of all countries affected by the war. It is now helping to meet the needs of reconstruction.

The junior war work council was organized as a channel to furnish leadership and speakers and as a means of helping to gather vocational exhibits as a part of the organization.

The Hostess Houses.

Ninety-eight hostess houses have been built for soldiers and their friends at the request of the government in camps throughout the United States. Fourteen of these are for colored troops. A total of 411 workers are engaged in these camp homes. Two players' houses, one at Camp Dix and the other at Camp Upton, were opened late in 1918. Nearly \$2,000,000 has been spent on hostess house construction.

The hostess house, the hospitality center of the army, because it has solved many of the soldiers' social and personal relationships, has been one of the most appreciated institutions of our cantonments. It has supplied a place where soldiers and sailors may pass a leisure hour with their friends and families. It has strengthened the whole moral fiber of army life.

Club and Recreational Work.

Various lines of girls' work have been promoted by the Y. W. C. A. The girl reserves have a membership of 455,300 with 774 units in forty-seven states. There are 212 white workers and twenty-eight colored workers. The purpose of the organization is to give girls through normal, natural means the habits, insights and ideals which will make them responsible women, capable and ready to help make America more true to its best hopes and traditions.

Emergency Housing for Employed Girls.

The housing committee has rented or built houses in eleven centers for women in industry. At an expenditure of \$504,000, vacation houses, dormitories for girls employed by the government and in camp communities and factories, clubhouses, recreation halls, cafeterias and hostels have been built. Room registry work in large cities is a part of the program.

Work in Colored Communities.

Owing to war conditions, the work with colored women is being greatly extended and \$200,000 of the \$5,000,000 budget, of the national war work council of the Young Women's Christian association is devoted exclusively to this work. This money is being used to provide the staffs for hostess houses which ac-

commodate the families of colored troops, for emergency housing for colored girls in war industrial centers where there is no local Y. W. C. A., to furnish field workers for investigation, and leaders of the best type among colored women, and to encourage women to show what they can do in war work in filling the hundreds of industrial positions now at their disposal.

Clubs for colored girls have been established in thirty centers. There are 100 workers on the staff.

Work for Foreign-Born Women.

To date there are thirty-three centers with international institutes and nine centers pending, with a total of 262 workers. This staff of American and foreign language workers gives all its time to social work for foreigners, which is the key to Americanization work. The division for foreign born women maintains an international information and service bureau, the only noncommercial foreign language press service in the United States. Its staff translates articles about food conservation, child welfare, current events, fashions, etc., in the language of the foreign speaking women. The division on foreign born women has included in its after war program a department on reconstruction work.

Industrial Work.

Ninety-four workers are employed in twenty-one centers for social protective movements. Industrial war service centers similar to the hostess houses in the camps with such activities as information desks, employment bureaus, restrooms, recreation centers have been established. Cafeterias, social morality lectures and recreation are part of this service. In spite of the fact that large government plants are rapidly closing, many of the plants have been taken over by private capital. Where plants are closing down permanently, the Y. W. C. A. Industrial club will remain open until entire readjustment have been made. Where the plants pass to private hands the war work council will probably purchase the buildings that have been loaned during the war and continue the activities. The service work in the club centers will be just as much needed, for there will be exposure to the same conditions and hardships, such as isolation, monotony and loneliness, which the war industries brought.

Bureau of Social Education.

From June 1, 1917, to Nov. 1, 1918, there were 2,544 social education lectures given by forty-six lecturers in 252 communities in forty-one states at an expenditure of over \$96,000. The total attendance is estimated to have been 1,000,000. Types of groups present were high school girls, industrial girls, grade school girls, nurses, housemaids, college girls, colored girls, department store girls, Jewish and Italian girls, leaders and teachers, clubs, welfare workers, Red Cross workers, war workers, church groups, woman physicians, girls' patriotic leagues, parents, German, Jewish and colored mothers.

Work in Other Countries.

In France the Y. W. C. A. has established four types of centers for American women. Fifteen hotels, recreation and social centers are in operation. These include centers for signal corps women, telephonists, telegraphers and other English speaking woman employees with the army at war work. Twenty-one huts for nurses in base hospitals and eighteen centers for French women working in munition factories, stores and the American army have been established. There are four recreation centers for both French and American women. Almost all of the 102 workers are college trained women who have traveled extensively and are conversant with the French language

In Russia there are seven workers in the north at Archangel.

Regular Activities of the Y. W. C. A.

In the various cities of the United States the Y. W. C. A. has 229 city associations and county associations, with 322,473 members. For the students in our colleges 737 associations have been established, with a membership of 44,886.

WORK OR FIGHT ORDER.

The following statement of the rule which became popularly known as the "work or fight" order was issued by the office of the provost marshal general in Washington May 24, 1918:

Provost Marshal General Crowder yesterday announced an amendment to the selective service regulations which deals with the great question of compelling men not engaged in a useful occupation immediately to apply themselves to some form of labor contributing to the general good. The idler, too, will find himself confronted with the alternative of finding suitable employment or entering the army.

This regulation provides that after July 1 any registrant who is found by a local board to be a habitual idler or not engaged in some useful occupation shall be summoned before the board, given a chance to explain, and, in the absence of a satisfactory explanation, to

be inducted into the military service of the United States.

Any local board will be authorized to take action whether it has original jurisdiction of the registrant or not; in other words, any man loafing around a poolroom in Chicago may be held to answer to a Chicago board even though he may have registered in New York and lived there most of his life.

The regulations which apply to idle registrants will be deemed to apply also to gamblers of all descriptions and employes and attendants of bucket shops and racetracks, fortune tellers, clairvoyants, palmists and the like who, for the purposes of the regulations, shall be considered as idlers.

The new regulation will also affect the following classes:

(a) Persons engaged in the serving of food and drink, or either, in public places including hotels and social clubs.

(b) Passenger elevator operators and attendants, doormen, footmen and other attendants of clubs, hotels, stores, apartment houses, office buildings and bathhouses.

(c) Persons, including ushers and other attendants, engaged and occupied in and in connection with games, sports and amusements, excepting actual performers in legitimate concerts, operas or theatrical performances.

(d) Persons employed in domestic service.

(e) Sales clerks and other clerks employed in stores and other mercantile establishments. Men who are engaged as above or who are idlers will not be permitted to seek relief because of the fact that they have drawn a late order number or because they have been placed in class II, III, or IV, on the grounds of dependency. The fact that he is not usefully employed will outweigh both of the above conditions.

It is expected that the list of nonuseful occupations will be extended from time to time as necessity will require so as to include persons in other employments.

Temporary absences from regular employment not to exceed one week, unless such temporary absences are habitual and frequent, shall not be considered as idleness. Regular vacations will not be considered as absences in this connection.

APPLIED TO BALL PLAYERS.

The rule having been applied to the playing of baseball, which was declared to be a nonessential occupation, the major baseball leagues asked the secretary of war to permit an extension of the league season to Oct. 15. Following is his reply made June 27:

Memorandum for the provost marshal general:

In the matter of the baseball leagues' petition for an extension of time:

A petition has been filed for an extension of time within which professional baseball players shall seek essential or productive employment, and the order asked is one which will extend until Oct. 15, 1918. As grounds for this request, it is alleged that there are but 237 persons affected by the so called work or fight order; but that, in spite of this small number, their taking would lead to the immediate breaking up of the entire game.

It is further said that the notice is too short to allow the leagues to adapt themselves to the ruling, and that the failure of the clubs to adapt themselves to the ruling is due to the fact that the secretary of war caused it to be known through the newspapers that the question of the application of the order to baseball players would not be decided until an actual case arose.

A hearing has been had on this subject by the provost marshal general, who reports to me that it is not clear to him that the game

will have to be discontinued even if the order is made immediately applicable.

The purpose of the work or fight order, so far as the war department is concerned, is to strengthen the military forces of the country, and not to control the labor situation. Incidentally, it will undoubtedly have the effect of adding to the number of persons usefully employed, and decreasing the number of persons uselessly employed. In this way the order will strengthen the military forces by making it less necessary to exempt for industrial reasons men who would otherwise be taken into the military service. This is an indirect result, but one of very great importance, and if exceptions are made, or postponements are to be made in the enforcement of this order, it will require a very careful study to determine whether those exceptions ought to be the persons in whose behalf this petition is filed or some other group out of the large number affected by the order, many of whom have already complied with it, and brought about a readjustment of the trades and occupations which they had previously followed.

I think it would be an unfortunate thing to have so wholesome a recreation as baseball destroyed if it can be continued by the use of persons not available for essential war service. But it would be a much more unfortunate thing to preserve even so wholesome an amusement by making an exception in favor of baseball players which is denied to great classes of persons in the United States whose occupations have been held similarly nonessential, although they are immediately associated with the distribution of food and other processes of our daily life more fundamental than any mere amusement.

It does happen that baseball is more important than any other occupation in our country, at least in the sense that its successful conduct depends upon the preservation of all the major league teams scattered throughout the country, while in most occupations the work or fight order has merely a series of local and more or less personal effects.

I am impressed, too, by the representation made that the baseball players may have been put in a less favorable attitude by reason of their reliance on my statement that the question of their inclusion in the terms of the order would not be decided until a case had arisen.

For these reasons it seems to me entirely proper and fair to extend the time during which the readjustment can take place, merely in order that justice may be done to the persons involved, and I do, therefore, direct that the application of the order be made to date from Sept. 1. The order for the extension to the 15th of October is denied.

NEWTON D. BAKER, Secretary of War.

INTELLIGENCE TESTS IN THE ARMY.

The war department issued the following statement from the office of the surgeon-general in December, 1918:

More than 26 per cent of the enlisted men in the American army were considerably above the average intelligence, and of these more than 11 per cent had the superior intelligence required for commissioned officers, according to tests made by the division of psychology of the medical department. The reports show that 83 per cent of the officers had the required superior intelligence.

And as a further proof of the general intelligence of the men called into military service by the operation of the selective-service law, less than 2 1/4 per cent of the men drafted were found to be unfit for general military service.

Out of a total of approximately 1,500,000 men receiving the army mental tests, less than one-half of 1 per cent were found to be so deficient in intelligence that they were recommended for discharge.

While all the men in the army did not re-

ceive the mental tests, the figures obtained and now given to the public by authority of the surgeon-general may be regarded as substantially correct in view of the fact that they are the result of tests made in camps in all parts of the country on men from every section of the United States.

The tests were prepared by a committee of the American Psychological association and of the national research council. Before being ordered into general use they were thoroughly tried out in four national army cantonments. From time to time they have been revised to increase their practical usefulness.

These tests provided an immediate and reasonably dependable classification of the men according to general intelligence. Their specific purposes were to aid in the discovery of men whose superior intelligence suggested their consideration for advancement; in the prompt selection and assignment to development battalions of men who were so inferior mentally that they were suited only for selected assignments; in forming organizations of superior

mental strength where such uniformity was desired; in forming organizations of superior mental strength where such superiority was demanded by the nature of the work to be performed; in selecting suitable men for various army duties or for special training in colleges and technical schools; in the early formation of training groups within regiment or battery in order that each man could receive instruction and drill according to his ability to profit thereby; in the early recognition of the mentally slow as contrasted with the stubborn or disobedient; and in the discovery of men whose low-grade intelligence rendered them either a burden or a menace to the service.

Three systems of tests were used:

1. Alpha—This is a group test for men who read and write English. It requires only 50 minutes and can be given to groups as large as 500. The test material is so arranged that each of its 212 questions may be answered without writing, merely by underlining, crossing out or checking. The papers are later scored by means of stencils, so that nothing is left to the personal judgment of those who do the scoring. The mental rating which results is, therefore, wholly objective.

2. Beta—This is a group test for foreigners and illiterates. It may be given in groups of from 75 to 300 and requires approximately fifty minutes. Success in Beta does not depend upon knowledge of English, as the instructions are given entirely by pantomime and demonstration. Like Alpha, it measures general intelligence, but does so through the use of concrete or picture material instead of by the use of printed language. It is also scored by stencils and yields an objective rating.

3. Individual Tests—Three forms of individual tests are used: The Yerkes-Bridges point scale, the Stanford-Binet scale and the performance scale. An individual test requires from fifteen to fifty minutes. The instructions for the performance scale are given by means of gestures and demonstrations, and a high score may be earned in it by an intelligent recruit who does not know a word of English.

Enlisted men were given either Alpha or Beta, according to their degree of literacy. Those who failed in Alpha were given Beta, and those who failed to pass in Beta were given an individual test.

As a result of the tests each man was rated as A, B, C plus, C, C minus, D, and D minus or E.

The rating a man earns furnishes a fairly reliable index of his ability to learn, to think quickly and accurately, to analyze a situation, to maintain a state of mental alertness and to comprehend and follow instructions. The score is little affected by schooling. Some of the highest records were made by men who had not completed the eighth grade. The meaning of the letter ratings is as follows:

A. Very Superior Intelligence—This grade is ordinarily earned by only 4 or 5 per cent of a draft quota. The "A" group is composed of men of marked intellectuality. "A" men are of high officer type when they are also endowed with leadership and other necessary qualities. An average of 48 per cent of American officers received this rating.

B. Superior Intelligence—"B" intelligence is superior, but less exceptional commissioned officers received this rating. "B" is obtained by eight or ten soldiers out of 100. About 34 per cent of the American commissioned officers received this rating, while 32 per cent of the sergeants and about 25 per cent of the corporals were so rated.

C plus. High Average Intelligence—This group includes about 15 to 18 per cent of all soldiers and contains a large amount of non-commissioned officers—in fact, about 58 per cent.

C. Average Intelligence—Includes about 25 per cent of soldiers. Only about 11 per cent of the noncommissioned officers were so rated.

C minus. Low Average Intelligence—Includes about 20 per cent of the enlisted men who, while below average in intelligence, are usually good privates and satisfactory in work of routine nature.

D. Inferior Intelligence—Includes about 15 per cent of soldiers. "D" men are likely to be fair soldiers, but are usually slow in learning and rarely go above the rank of private. They are short on initiative and so require more than the usual amount of supervision. Many of them are illiterate or foreign. In a test of 77,299 men less than 1 per cent of the sergeants were so rated.

D minus or E. Very Inferior Intelligence—This group is divided into two classes: (1) "D minus" men who are very inferior in intelligence, but are considered fit for regular service (slightly over 1 per cent received this rating); and (2) "E" men, those whose mental inferiority justifies their recommendation for development battalion, special service organization, rejection or discharge. The majority of "D minus" and "E" men have intelligence equal to that of a normal 10 year old child.

The mental tests were not intended to replace other methods of judging a man's value to the service. The psychological officers did not claim that the tests told infallibly what kind of soldier a man would make, but they were reasonably certain, and the results justified this opinion, that the tests helped to do this by measuring one important element in a soldier's equipment—namely, intelligence. They did not measure loyalty, bravery, power to command or the emotional traits that make a man "carry on."

The intelligence rating was one of the most important aids in the rapid sorting of the masses of men in the depot brigades. In no previous war had so much depended on the prompt and complete utilization of the mental ability of the individual soldier. In making assignments from the depot brigades to permanent organizations it was important to give each unit its proportion of superior, average and inferior men. If this matter were left to chance there would inevitably have been "weak" links in the front lines. The exceptions to this rule were made in favor of certain arms of the service which require more than the ordinary number of mentally superior men.

In the selection of candidates for the officers' training camps the value of the tests was demonstrated. Less than 9 per cent of the men who received ratings of C plus and above failed to qualify for commissions.

The force of 75 officers and 250 noncommissioned officers and specially trained enlisted men were able to examine on an average 10,000 men a day. All of the officers were trained psychologists who after receiving their commissions took a two months' course in military psychology at the medical officers' training school at Fort Oglethorpe, Ga.

THE POTSDAM CONFERENCE.

[From official War Encyclopedia.]

It is asserted that the German government chose its own time to begin the war, and that on July 5, 1914, a conference of German and Austrian dignitaries at Potsdam determined to use the Serajevo murder as a pretext to crush Serbia. This is officially denied in Berlin, but (1) a deputy referred to it openly in the reichstag in 1918, (2) a Dutch journalist declares he reported it at the time, (3) the Italian ambassador at Constantinople asserts he heard it from the German ambassador, (4) the same Italian ambassador told it to an American diplomat, who recorded it in his diary, and finally (5) Henry Morgenthau, then American ambassador to Turkey, explicitly states that the German ambassador there told him about it.

FEDERAL TRADE COMMISSION REPORT ON PROFITEERING.

The federal trade commission made the following report to the president of the United States senate June 29, 1918:

The federal trade commission submits the following report in response to the direction under senate resolution 255 that it furnish the senate with any and all facts, figures, data or information now in possession of the federal trade commission relative to profiteering which would in any way enable congress to deal with the matter either through the present proposed resolution or through enactment of more effective criminal statutes.

Information upon the present range of profits in various industries in the federal trade commission arises from three activities:

1. Cost finding by the commission for the war industries board, the food administration, the fuel administration and other executive departments which have called upon the commission for this work.

2. Industrial surveys undertaken by the commission at the direction of the president or upon its own initiative.
3. Enforcement of the law against unfair methods of competition.

Under the first activity the commission has had recent view of many industries handling basic materials, including steel, copper, zinc, nickel, sulphur, lumber, coal and petroleum and its products.

Under the second activity the commission has recently dealt with meats, leather, flour and canned goods.

Under the third activity the commission has daily contact with the tendencies of trade as they are revealed through the numerous complaints filed with it for the application of remedies which are statutorily invested in the commission.

The outstanding revelation which accompanies the work of cost finding is the heavy profit made by the low cost concern under a governmental fixed price for the whole country.

The outstanding fact in the industrial surveys which the commission has recently made is the heavy profit made by the meat packers and by those allied with them and by the flour millers.

The outstanding feature on the score of profit revealed in the regular work of the commission under the statute creating it and the Clayton act is the trade tendency to increase and to maintain prices against the forces of competition.

The commission has reason to know that profiteering exists. Much of it is due to advantages taken of the necessities of the times, as evidenced in the war pressure for heavy production. Some of it is attributable to inordinate greed and barefaced fraud.

In summarizing the information at hand certain features appear which it is well to note. In the case of basic metals, as in steel, when the government announced a fixed price it was made so high that it would insure and stimulate production. This has resulted in giving a wide range of profits.

EFFECT OF COST PLUS SYSTEM.

Under the device of cost plus a margin of profit these profits are necessarily great in the case of the low cost mills. Thus, while the market was prevented from running away, as it would have done undoubtedly if it had not been regulated by a fixed price, the stronger factors in the industry are further strengthened in their position and enriched by profits which are without precedent.

Again, in the case of flour milling, it is apparent that, while a government fixed price for wheat and an allowance of maximum margin of profit over cost on flour have had the virtue of stabilization, nevertheless profits resulting are heavy. Before the government interfered flour sold in 1917 with an average profit as high as 52 cents a barrel. After the fixation of the price of wheat and the determination of a maximum profit of 25 cents a barrel of flour, the very high average profit a barrel dropped to within the maximum. Where this decline in price did not bring the

price down to the maximum, that is, where the millers continued to exceed the government maximum, as they did in many instances, many of the millers were actuated by the hope that they would be allowed to include income and excess profit taxes in their costs and pass these taxes on to the consumer.

However, if there had been a fairly general compliance with the maximum of 25 cents the profits of the least efficient mill would have been considerable and those of the most efficient mills proportionately heavier. To the extent that the maximum price was exceeded, the profits were larger and in general were, in fact, very great.

The situation in coal gives still another angle of view to the same problem. Maximum prices were fixed by territorial divisions. Many of the coal producers have not taken the maximum, but, due to the fact that in a given field there is a very wide range in the cost of the coal produced in that field, it follows that certain low cost producers have made large margins under the system of governmental fixed prices for the field. Many high cost producers have made small margins. The bulk of the production of course enjoys the large margin. Information on the return on the investment, now being collated, will reveal the exact amount of profit. Percentages of profit worked upon investment will obviously be very large in the case of low cost companies.

SITUATION FRAUGHT WITH PERIL.

The experience with steel, flour, and coal shows that a high stimulating fixed price, while stabilizing an ascending market, produced an economic situation which is fraught with hardship to the consuming public and with ultimate peril to the high cost companies through increasing the power of their low cost competitors.

In this connection, a survey of the petroleum field shows that the market when under the control of dominating factors, such as Standard Oil, can be one of huge profits without the device of the high fixed price. No price for the public has been fixed upon petroleum and its products by the government. Unlike the situation in steel, flour and coal, there has been as yet no government interference with the law of supply and demand, except in the instances of government purchases.

Under that law large profits may eventuate through the bidding up of prices by anxious buyers. And, moreover, even in the absence of this element, prices may be forced up by spreading false and misleading information concerning the condition of supply and demand. Reports, for instance, have been circulated that the supply of gasoline was endangered for the purpose of maintaining the high price of the product and the heavy profits from it. At different stages of the oil industry different products of petroleum have yielded the heavy profits. Kerosene was once the chief profit producer. Gasoline followed and superseded it as the chief producer of profits. Enormous profits are now being made in fuel oil, with the advantage to the refiner that the high price of that product means no popular charge. Gasoline is maintained at its present high price and produces heavy profits for the low cost refiners.

MEAT PACKING SITUATION.

Similarly, the power of dominant factors in a given industry in maintaining high prices and harvesting unprecedented profits is shown in a survey of the meat packing situation. Five meat packers, Armour, Swift, Morris, Wilson and Cudahy, and their subsidiary and affiliated companies, have monopolistic control of the meat industry and are reaching for like domination in other products. Their manipulations of the market embrace every device that is useful to them, without regard to law. Their reward, expressed in terms of profit, reveals that four of these concerns have pocketed in 1915-1916-1917 \$140,000,000.

However delicate a definition is framed for profiteering, those packers have preyed upon

the people unconscionably. They are soon to come under further governmental regulation approved by executive order.

In cases where the government fixes a definite margin of profit above costs, as in the case of flour, there is a considerable incentive to a fictitious enhancement of costs through account juggling. This has added to the volume of unusual profits. Increase of cost showing on the producers' books can be accomplished in various ways. The item of depreciation can be padded. Officers' salaries can be increased. Interest on investment can be included in cost. New construction can be recorded as repairs. Fictitious valuations on raw material can be added. And inventories can be manipulated.

The federal trade commission has been vigilant and untiring in its exclusion of these practices. An instance of this practice was afforded by the Ismert-Hincke Milling company of Kansas City, Mo. This company padded its costs by heavily increasing all its officers' salaries and manipulating the inventory value of flour bags on hand. As evidence of the length to which padding can be carried it may be added that this company even included in its costs the gift of an automobile, which it charged to advertising expense. This case was heard by the commission for the food administration. The commission recommended revocation of license, and the recommendation was followed.

Payments of extraordinary salaries and in some instances bonuses to executives of corporations have been found by the commission during its investigations. An illuminating example of high remuneration, charged to the expense account, is that given by the American Metal Co. Ltd. of New York, the chief dealings of which are in zinc.

HIGH METAL SALARIES.

Appended are salaries and tantamount returns from interest, commission, etc., of some of the chief officials.

B. Hochschild, chairman of board of directors	\$179,663.36
C. M. Loeb, president	364,326.73
Otto Sussman, vice-president	221,596.04

In addition to the information above given, the federal trade commission occupies an advantageous position where it is possible to view certain tendencies in trade which bear upon the problem of profiteering. Under the law the commission has power to prevent unfair methods of competition and it is daily in receipt of complaints which it investigates and if it has reason to believe that an unfair method has been used arraigns the party complained against for a hearing of the issue.

It has developed that outside of legitimate increases in price due to higher costs and other economic elements, certain members of trade have preyed with shameless avarice upon the consumers. Two classes of cases handled by the commission will be cited.

VEGETABLE CANNING CONCERNS.

Concerns bottling or canning vegetables which made contracts for future deliveries during the year 1917, in some instances meeting a condition of inadequate crops and seduced by rising prices, withheld portions of their contract deliveries and sold spot on the market at the higher price. There were varying degrees in this practice. Some of the instances were flagrant and in those cases the commission recommended the revocation of license of the offender to the food administration and these recommendations were acted upon. A great number of complaints of failure to deliver futures were made wherein action was not taken, as the evidence showed that the canner was unable to secure supplies by reason of crop failures. The food administration has endeavored to meet this situation the present year by a delivery limitation on the

amount named in the contracts for future delivery.

Another trade practice has developed in which the consignee refuses goods after shipment because the market has fallen, and vice versa the consignor refuses to ship on a rising market. These instances, which in the knowledge of the commission have not been numerous, have been handled by the commission in connection with the food administration and its power of revocation of license.

COMMERCIAL BRIBERY.

Still another trade practice which has increased the price of supplies to the consumer has been that of commercial bribery, upon which subject this body recently addressed the congress suggesting remedial legislation.

Again the trade tendency of manufacturers maintaining the resale price of wares has contributed to holding high the general price level and in instances has increased profits without question. The action of the courts and the federal trade commission in prohibition of this policy is becoming generally known to the trades and will, in our opinion, work a correction by opening up some of the closed channels of competition.

In submitting the subjoined memoranda on the industries under consideration the commission expresses the opinion that general trade, as the commission has opportunity to view it, is in a high state of prosperity. With some exceptions that condition has continued for several years past. Many of the industries are making unusual profits, some are showing outrageous ones. In an hour of national service and self-sacrifice profiteering may be defined not only as the taking of an exorbitant profit, but should include a refusal to share in bearing the burdens of war in the form of a reduction in profits when the profits have been large in prewar times.

STEEL.

In 1917 the steel companies made abnormal profits in the period prior to the government price fixing policy and a number have continued to make unusually heavy profits since that policy was inaugurated. In finding costs in this industry for the war industries both the commission divided the steelmakers into four groups: (1) The fully integrated mills; (2) the mills which start with the manufacture of pig iron; (3) the mills that start with steel furnaces; and (4) the mills that make rolled products from purchased semifinished steel. The United States Steel corporation is included in class 1. Its profits expressed in terms of the total amount invested in the business show net earnings as follows:

	Per cent.		Per cent.
1912	4.7	1915	5.2
1913	5.7	1916	15.6
1914	2.8	1917	24.9

The figures as to the net income of the steel corporation, as shown by the company for the years 1912, 1913, 1914, 1915, 1916 and 1917, before deducting federal income and excess profits taxes in 1917, follow:

1912	\$77,075,217	1915	\$97,967,962
1913	105,320,691	1916	294,026,564
1914	46,520,407	1917	478,204,343

The federal income and excess profits taxes of the steel corporation for 1917 were \$233,465,435, which leaves for net income \$244,738,908, of which about one-tenth was applicable to interest on bonds of the corporation and the rest available for dividends and surplus.

From information in possession of the commission, mills in class 2 appear to have made heavy profits in 1917. Recently mills in class 3 made objection that the government prices were too low for them. A special examination of their profits by the federal trade commission showed that in almost every case these objecting mills were enjoying unusual returns. The following table of percentage of returns on

investment in ten mills in class 3 will show the profits in 1917:

	Per cent.
Allan Wood, Iron and Steel Co.....	52.63
Allegheny Steel Co.....	78.92
American Tube and Stamping Co.....	40.03
Central Iron and Steel Co.....	71.35
Eastern Steel Co.....	30.24
Forged Steel Wheel Co.....	105.40
Follansbee Bros. Co.....	112.48
Nagle Steel Co.....	319.67
West Penn Steel Co.....	159.01
West Lechburg Steel Co.....	109.05

Mills in class 4, which buy the semifinished steel and convert it into the more highly developed steel products, have enjoyed substantial profits.

COPPER.

Very large earnings have been made in the copper industry on the whole, although it should be noted that they have been due in part to an unusually heavy demand for this metal, which is used almost exclusively for war purposes directly and indirectly. The commission's figures show that twenty-one companies, including a large proportion of high cost companies, made profits in 1917 which ranged from 1 per cent to 107 per cent on their investments. The average profit was 24.4 per cent. Probably over 70 per cent of the production is marketed at profits over 20 per cent on investment. These same companies show an average profit of only 11.7 per cent in 1913, which may be considered to be a normal year. Thus the average profit in the industry has more than doubled. The range of profits in 1913 was from 1 to 56 per cent.

The profits used in these computations do not include federal income or excess profits taxes, and, therefore, represent sums actually retained by the companies for addition to surplus or dividends.

There does not appear on the whole to have been any concerted action in this industry in putting prices up in the first instance. The war scramble among the producers of copper and other metals to almost unheard of levels. But there are certain strong interests among the producers and marketers which predominate in certain stages of production, and these appear to have taken steps to maintain prices at unnecessarily high levels. In the first place the smelters, and notably the American Smelting and Refining company, have continued to hold in force certain deductions for risk of carrying copper bought from mines, which risks have ceased to exist. These deductions were put in force during the early period of the war, before price was fixed by agreement with the war industries board. Their present maintenance amounts to profiteering at the expense of the miners, especially the small producers. On the other hand, some of the larger and richer mines have contracts entered into before the war running for periods as long as twenty years, which are extremely advantageous to them and which are now causing some refineries to operate at a loss.

ZINC.

Most of the evidence in the commission's possession indicates no unusual profits in the zinc industry, with the exception of the operations of the New Jersey Zinc company.

Basing percentage on the capital stock issue of \$35,000,000, the following net earnings and dividends are shown for the New Jersey Zinc company, according to published statistics: 1916, profits 72.5 per cent, dividends 76 per cent; 1917, profits 56 per cent, dividends 46 per cent. The federal trade commission's figures as to these same net earnings and dividends are available only for 1916 and indicate the profits of 95.9 per cent, with dividends of 76 per cent.

These large earnings do not indicate excessive profits on metallic zinc. The company's profits on common spelter are very low and on grade A spelter while high are due to the fact that it possesses a natural monopoly of a certain high grade ore, the product of which cannot sell for less than the zinc pro-

duced by competitors. In fact, the whole explanation of the New Jersey Zinc company's large profits lies in its possession of an ore body of unusual richness and purity.

NICKEL.

The dominating factor in the nickel industry is the International Nickel company, which produces practically the entire output of that metal in this country. The profits of the International Nickel company in 1916 were \$13,557,000 and the dividends were \$10,576,000, which sums amounted to 40 per cent and 31 per cent respectively, based upon the investment as computed by the commission. Taking the total capitalization and surplus of the company as a basis, the net earnings would be 20 per cent and the dividends 15.6 per cent. In 1917 the profits on the commission's basis were 30 per cent and the dividends 24 per cent, and on the basis claimed by the company the profits were 15 per cent and the dividends 4.2 per cent.

This company has a natural monopoly based on the ownership of the Canadian mines from which the nickel ore is derived. It has, however, maintained prices on a prewar basis. Consequently while prices are high and the profits very large, the increase in profits has been due to the increased war output rather than to advances in price. Therefore it does not seem that any profiteering can be charged, unless in a negative sense—i. e., the company might have been satisfied with smaller profits in war times. This is especially worthy of consideration, inasmuch as practically the entire output of the company is taken for war uses.

SULPHUR.

Two companies produce all the sulphur in this country—the Freeport Sulphur company and the Union Sulphur company.

The cost to the Freeport company in 1917 was \$6.15 per ton; in 1918 it is estimated the increases will bring the cost up to not over \$9.50 per ton. In the first half of 1917 the Union company's costs were \$5.73 per ton. The average realization of the Union company in the first half of 1917 was \$18.11 per ton, making a margin of \$12.38 per ton. The manufacturers of sulphuric acid are paying in the neighborhood of \$25 per ton, and some as high as \$35 per ton, making a margin of over \$15 per ton for sulphur companies. The Freeport company's balance sheets show an operating profit for the eleven months ending Oct. 31, 1917, of \$4,301,310, or 236 per cent on investment. On Nov. 30, 1916, the company's balance sheet shows dividends declared of \$925,000; on July 31, 1917, \$1,850,000; and Oct. 31, 1917, \$2,600,000. Its surplus increased to \$1,254,000 in November, 1916, to \$2,543,000 in October, 1917.

These companies may be said to have a natural monopoly of sulphur. Since they have placed their operations upon an established basis, they have always made large earnings. They have taken advantage of the existing situation to raise their prices.

LUMBER.

Information in the commission's possession does not indicate any excessive profits in the lumber industry on the west coast, although it is understood that producers of airplane spruce in that region have in the past taken advantage of allied governments. Information in the commission's possession does indicate unusually and unnecessarily large profits on the part of the southern pine producers. Forty-eight southern pine companies producing 2,615,000,000 feet of lumber in 1917 made an average profit on the net investment of 17 per cent. This is unusually large for the industry, as is indicated by the fact that the average profit in 1916 was only 5.2 per cent. In 1914 and 1915 the footage of the companies covered was produced at a profit of over 20 per cent. The range of profits was from a small loss to over 121 per cent on the net investment.

The margin of profit per thousand board feet in 1917 was nearly double that in previous years, the figure being \$4.83 as compared with \$2.11 in 1916. A fair margin per

thousand feet in the past has been recognized as being \$3.

These figures for 1917 are the more notable for the reason that the profits shown do not include any payments of federal income and excess profits taxes, but are the sums actually available for additions to surplus or dividends. Information secured from the companies concerning their dividends and income taxes supports the preceding statements.

COAL.

Generally speaking, the bituminous coal operators in 1917 had very much larger margins than in previous years. While in 1916 the margins (what operators actually received for coal sold over f. o. b. mine cost) may be regarded in some cases as lower than normal, yet the margins of 1917 were often two or three times the normal return. In the figures for 1916 and 1917 mentioned below, return on investment must be covered in margins shown. The increase of margins is illustrated by an example of the returns for 1916 and 1917 of twenty-three typical bituminous coal companies in the central Pennsylvania field. The average margin of these companies in 1916 was 20 cents per ton and in 1917 was 90 cents. The highest margin for any company of the twenty-three companies in 1917 was \$1.85. The corresponding margin for this company in 1916 was 41 cents. Similarly the lowest margin for any of these companies in 1917 was 27 cents, the corresponding margin for the same company in 1916 being 13 cents.

Maximum coal prices f. o. b. mines were authoritatively fixed Aug. 21-23, 1917, by executive order and subsequently modified by the fuel administration. Contracts made before that time were not invalidated. In some fields as high as 90 per cent of possible production was sold under contract prices. While some contracts were below maximum price, probably much the greater part of the coal sold under contract went at prices substantially in excess of legal maximum prices fixed for current sales.

April realizations contain relatively little coal sold on contracts made prior to Aug. 21, since most such contracts expired April 1, 1918. Sample reports for April operations, covering 12,619,274 tons actually mined in West Virginia, Pennsylvania, Ohio, Indiana, Illinois and Kentucky show an average margin between claimed f. o. b. mine cost and actual realization from sales of about 54 cents, as against a prewar margin of an average of 20 to 15 cents.

In anthracite the average receipts per ton, including all sizes, during the year 1914 (thirteen companies, producing 79 per cent of the total tonnage in 1916) were \$2.86 per ton. The average receipts per ton of anthracite, including all sizes, allowing for later obligatory summer discounts on prepared sizes, during the period January-March, 1918 (six companies, producing 50 per cent of the tonnage in 1916), were \$4.26 per ton. The average labor cost increase per ton since 1914 was \$0.76, and if this is deducted from the 1918 average receipts per ton an increase of \$0.64 per ton (or 22 per cent in average receipts is indicated, without allowance for increased cost of supplies and general expense.

In connection with the distribution of coal it may be pointed out that prior to the official regulation of jobbers' and of retailers' margins in August, 1917, there was evidence that many of the margins were unduly high when compared to the prewar margins. Details can be found in the report of the federal trade commission on anthracite and bituminous coal, June 20, 1917. Since the regulation was established most of the jobbers' transactions have been carried on within the fixed margin and whenever violations have been detected the jobbers have been forced to refund the overcharges. It should be understood that jobbers' and retailers' margins do not represent net profits alone, but also include all expenses incurred by them from the time coal is purchased until it is sold.

PETROLEUM AND ITS PRODUCTS.

The data secured by the federal trade commission for 106 refining companies for the first quarter of 1918, supplemented in certain cases by returns for the second six months of 1917, indicate that the average profit in the oil industry is about 21 per cent on the investment. This is a considerable increase over the rate of profits indicated for prewar years, as the commission's gasoline report indicates an average profit for the years 1913, 1914 and 1915 of 15 per cent on the investment. In 1917 over 50 per cent of the estimated production was produced by companies having a profit of over 20 per cent on the investment. Rates of profit ranged from losses up to 123 per cent.

The profits of the eastern refiners have been relatively larger than those on the Pacific coast. The situation in the east is due to the fact that while gasoline prices have been but slightly advanced, the prices of other products have been increased greatly, especially the price of fuel oil. The public knows little about prices except the price of gasoline and, to a less extent, kerosene. Formerly refineries operated for the sake of the gasoline almost exclusively, and fuel oil was commonly sold at a loss, but now fuel oil is a very profitable product.

MEAT PACKING.

An exposition of the excess profits of four of the big meat packers (Armour, Swift, Morris, Cudahy, omitting Wilson as not comparable) is given in the fact that their aggregate average prewar profit (1912, 1913, 1914) was \$19,000,000, that in 1915 they earned \$17,000,000 excess profits over the prewar period; in 1916 \$36,000,000 more profit than in the prewar period, and in 1917 \$68,000,000 more profit than in the prewar period. In the three war years from 1915 to 1917 their total profits have reached the astounding figure of \$140,000,000, of which \$121,000,000 represents excess over their prewar profits.

These great increases in profits are not due solely to increased volume of business. The sales of these companies in this period increased 150 per cent, much of this increase being due to higher prices rather than to increased volume by weight, but the return of profit increased 400 per cent, or two and one-half times as much as the sales.

The profit taken by Morris & Co. for the fiscal year ended Nov. 1, 1917, is equal to a rate of 18.6 per cent on the net worth of the company (capital and surplus) and 243.7 on the \$3,000,000 of capital stock outstanding. In the case of the other four companies the earned rate on common capital stock is much lower—from 27 per cent to 47 per cent—but the reason for this is that these companies have from time to time declared stock dividends and in other ways capitalized their growing surpluses. Thus Armour in 1916 raised its capital stock from \$20,000,000 to \$100,000,000 without receiving a dollar more of cash. If Swift, Wilson, Cudahy and Armour had followed the practice of Morris in not capitalizing their surpluses (accumulated from excessive profits) they, too, would now show an enormous rate of profit on their original capital.

The independent packers, as measured by results compiled for sixty-five of the largest of them, earned during 1914, 1915 and 1916 a rate of profit as high or slightly higher than that earned by the big packers in those years. The profits of these independent companies for 1917 are not as yet available.

LEATHER.

As an indication of earnings of the big packers in the selling branch of their leather business the following is quoted from a letter of Jan. 17, 1917, by the Eastern Leather company, an Armour selling subsidiary, to F. W. Croll of Armour & Co.

"We are inclosing our check on the National City bank, New York city, payable to J. Ogden Armour, for \$915,787, same being a dividend of 53 per cent on the 17,279 shares of

common stock standing in his name. In addition to this, and in accordance with our conversation when in Chicago, we have set aside as a surplus \$250,000, which represents 10 per cent on the common stock. We are also inclosing a check on the National City Bank for \$202,145.62, payable to Mr. Armour, this being the balance due on 6,020 shares of common stock held for employees."

FLOUR.

The flour millers have had unusual profits for considerably more than a year. Information collected and verified by the commission shows for the four years ending June 30, 1916, a profit of 13½ cents on each barrel of flour and 12 per cent on the capital invested. These figures came from accounts covering nearly 40,000,000 barrels output annually. This is somewhat less than 40 per cent of the annual output of the whole country, but a very much larger part of the flour sold in the regular commercial market.

In other words, these figures apply to mills that in large part supply the demand for flour in interstate commerce and for export. The years covered, 1913, 1914, 1915, 1916, should probably be accepted as fairly representative in spite of the fact that the war demand in 1915 and 1916 would lead one to expect them to show an abnormally high profit.

In the year ending June 30, 1917, these same mills made an average of 52 cents on each barrel of flour sold, and nearly 38 per cent on their investment—profits that are indefensible, considering that an average of the profit of one mill for six months of the year shows as high as \$2 per barrel.

The commission has tabulated returns covering the sale of something over 4,000,000 barrels of flour made and sold under the food administration's regulations from September, 1917, to March, 1918, inclusive. In face of the regulation of 25 cents per barrel maximum, the average profit per barrel on flour was about 45 cents, or over three times the normal profit per barrel referred to above. The return on investment was apparently between 25 and 30 per cent. However, with prices maintained at the same level, cost would probably have increased and profit would have been somewhat reduced in April, May and June, 1918, because of the smaller output in those months. The average net profits of jobbers reporting to the commission was about 15 cents per barrel for 1913 and 1914, but increased to nearly 50 cents in the first half of 1917. These profits include all the pay received by the proprietors of the business for their services. It is clear that if the profit above such pay was reasonably high in 1913 and 1914, it was exorbitant in the first half of 1917. The food administration has succeeded in reducing the profits of these concerns, but for the year 1917, it was still over twice as high as in the earlier years.

CANNED MILK.

About three-quarters of the total canned milk (evaporated and condensed) is produced by ten companies. Nearly one-half of the total pack is produced by three companies—Borden's Condensed Milk company, Helvetia Milk Condensing company, Carnation Milk Products company. These three companies occupy a strong position in the trade. The price statistics between 1907 and 1917 show that practically every rise and every decline was inaugurated by either Borden or Helvetia, and the small manufacturers followed. In 1916 and 1917 the war demand caused prices to ascend so rapidly that the problem of declines was not initiated until the beginning of 1918.

In 1917, according to the statement of the company, Helvetia made over 20 per cent on cost and over 65 per cent on investment. The Borden company made approximately 18 per cent on cost. The Borden company's costs are relatively high.

The Helvetia company in a letter to the commission, under date of March 19, 1918, says:

"We desire to say, however, in connection with the total earnings of the company and the margin of profit shown during the year that it was our judgment at all times during the year that we were making a larger profit on our goods than we were entitled to make."

"We desire to say in explanation of the year's profit—but not in defense of it—that the profit which the company made during the year was regulated by conditions entirely beyond the control of the directors and officers of the company."

"During a large part of the year the demand on the market was so strong that it was with great difficulty that the price was kept from going much higher than any point reached during 1917."

"Most of the price advances during the year were made by us in self-protection and in an effort to keep orders from piling up on us beyond our capacity to fill. We were compelled on one or two occasions to withdraw prices and refused to take orders except at prices to be determined at the date of shipment (which in a rising market would naturally be higher), this plan being adopted on account of the necessity for protecting ourselves against the unusual and abnormal buying."

In extenuation, this letter goes on to say that in estimating costs for the purpose of announcing its prices the company had over-estimated its increase in cost. During 1917 the cost of producing evaporated milk (talls) was in some months but a little more than \$4, and even in the high cost months not much more than \$4.50. These figures represent the costs of most of the manufacturers. The price of evaporated milk (talls) prevailing in the market during most of the year ranged from about \$5 to \$5.50. The unprecedented increase in the canned milk business due to the war demand enabled the milk manufacturers—with such margins between costs and prices—to make unusual profits.

SALMON CANNERS.

Approximately 90 per cent of the salmon packed in 1917 was produced at a cost under \$7.25 per case. To this should be added selling expense. This item, as reported by twenty-four companies packing practically 50 per cent of the year's production, was 28 cents per case. However, the 28 cents does not include brokerage and cash discounts in all cases, and it is estimated that 50 cents per case would be a fairer allowance. This would bring the representative high cost up to \$7.75.

The weighted average of the 1917 opening prices for different grades of salmon was \$8.29 per full case, but more salmon was sold above than below this price during the year. This indicates a margin for a high cost canner of 54 cents per case and larger margins on the bulk of the production.

The average investment per case in 1917 was \$4.32.

It follows that the marginal percentage earned upon a reasonable investment by the high cost canners was approximately 12½ per cent. Several canners having costs in the vicinity of \$7.25, which might be taken as concrete illustrations, made profits as follows:

Company.	Cost.	Profit.	Per cent.
Alaska Salmon Co.....	\$7.12	19	
Everett Packing Co.....	7.43	5	
San Juan Packing Co.....	7.02	24	
Cascade Packing Co.....	7.13	62	
Ocean Food Packing Co.....	7.58	14	
Salina Packing Co.....	7.71	31	

The foregoing statements are based upon the representative high cost company—one whose cost would cover 90 per cent of the total pack. The following figures concern the average:

In 1917 the average net profit on investment of ninety companies, packing 7,426,878 full cases (87 per cent of the total year's pack), was \$2.28 per case, or 52.8 per cent on the net investment in the salmon canning business proper. This average of 52.8 per cent does not reveal the fact that some of the

low cost companies included in the average made over 200 per cent. It is significant that some of these low cost companies are those allied with the big meat packers.

PACKERS IN PROTEST.

Referring to the foregoing report as relating to the meat packing industry the packers made the following statements:

By Armour & Co.: "The charge of monopoly is simply the old cry against a business because it is big. If a profit of one-quarter of a cent on a pound of product, which a government audit shows we make, is profiteering, then there is no honest business in the world, for no successful business in the world makes a smaller profit per unit of product.

"This is an unfortunate time for one branch of the government to come out with such a report, when another branch, between Jan. 1 and June 1, has called on Armour & Co. to supply our forces abroad and those of our allies food products of a value of more than \$100,000,000. The magnitude of these orders compelled us to find new working capital."

Morris & Co.: "In the statement of the federal trade commission as to the profits of Morris & Co., the figures given are misleading and are absolutely incorrect. The profit of 263.7 per cent for the three year war period is evidently figured on a nominal capital of \$3,000,000 and not on the capital invested, while the prewar profit of 8.6 per cent was figured on the total investment. During 1917 our investment was in excess of \$38,000,000, and our profit was 14 1/4 per cent on this investment and not 263.7 per cent, as stated. The average profit on investment for the last three years was 10.95 per cent."

Swift & Co.: "Swift & Co. deeply resent the spirit and the manner in which this report has been issued. It tended to throw suspicion about an essential industry which it is publicly recognized has fulfilled tremendous war demands from the beginning perhaps better than any other industry in the country."

In a more detailed statement Louis F. Swift said:

"A distinction should be made between industries which make a clear cash profit that can be distributed in the form of dividends and an industry that pays only reasonable cash dividends and has to put the rest of its profit back into the business. In the case of Swift & Co. a large proportion of the profits has had to remain in the business in order to finance operations and to maintain efficiency by the addition of facilities and improvements. This has been particularly necessary during the last year or two, because of the increased volume of business and the large stocks of meat carried due to war conditions and demands. Even with these larger profits it has been difficult to finance our business at the extremely high prices prevailing for live stock, labor and supplies, and we have recently had to issue more capital stock for the sole purpose of raising more money.

"The trade commission has made one very serious error in the figures it presents, which gives the public a totally wrong impression of

the recent profits in the packing business and does the packers a great injustice. The report says that the five large packers made a profit of \$140,000,000 during the three years 1915-16-17, as against \$19,000,000 during the three years before the war, thus showing an increase of \$121,000,000. The commission has compared a three year profit with a one year profit, and the \$19,000,000 should have been \$57,000,000, thus showing an increase of \$83,000,000, instead of \$121,000,000.

"This profit is not out of line with the increase in sales due to the high level of prices and increased output of meat products. There might be some justice in saying that the packers had preyed upon the people unconscionably if it could be shown that their profits had raised prices of meats to consumers or lowered the prices of live stock to producers.

"Swift & Co. marketed over 5,000,000,000 pounds of all kinds of products in 1917 at a net profit of a fraction of a cent a pound. If the profit had been eliminated altogether there would have been practically no effect on prices, and since only reasonable dividends were paid out of this profit and the rest remained in the business we do not feel that we can be accused of profiteering. Swift & Co. have been co-operating with the government in every possible way to help win the war, and since November, 1917, we have been operating under government license and under the supervision of the food administration. With the price war amendments limited to 9 per cent per annum on the capital employed, or to about 2 cents of each dollar of sales, no profit is guaranteed.

"Swift & Co. are living up to this regulation conscientiously. It should be borne in mind that the profit limitation applies only to the meat business, and that part of Swift & Co.'s profit is derived from outside industries which the government is not regulating. The reference in the trade commission's report to extremely high salaries does not apply to this concern. We are willing to defend the salaries paid to our officials at any time and to prove that they are reasonable as compared with those paid in other businesses of equal magnitude and responsibility.

"Neither do the statements that commercial bribery has been resorted to, that fictitious values are put on raw materials and that inventories have been manipulated apply to Swift & Co. We have developed as complete and as scientific an accounting system as we could, and we have nothing to gain by falsifying our accounts.

"The insinuations that the packers have made enormous profits in hides and have manipulated the price of leather is also misleading and untrue. In the first place, the large packers have no monopoly power over the hide market or the leather market, and hence cannot manipulate prices. During 1917 the supply of hides was larger than ever before in the history of the country and the demand did not increase apace. As a result the prices of hides fell greatly during 1917 and many hides were sold by the large packers at a loss. Swift & Co. have not hoarded hides, but have sold them as rapidly as the market could absorb them."

DETAILS OF LIBERTY ENGINE.

In May, 1918, the war department authorized the following description of the Liberty engine, generally accepted as one of the few really remarkable inventions brought out in the course of the war:

Cylinders—The designers of the cylinders for the Liberty engine followed the practice used in the German Mercedes, English Rolls-Royce, French Lorraine-Dietrich and Italian Isotta Fraschini before the war and during the war. The cylinders are made of steel inner shell surrounded by pressed steel water jackets. The Packard company by long experiment had developed a method of applying these steel water jackets.

The valve cages are drop forgings welded

into the cylinder head. The principal departure from European practice is in the location of the holding down flange, which is several inches above the mouth of the cylinder, and the unique method of manufacture evolved by the Ford company.

Cam Shaft and Valve Mechanism Above Cylinder Heads—The design of the above is based on the Mercedes, but was improved for automatic lubrication without wasting oil by the Packard Motor Car company.

Cam Shaft Drive—The cam shaft drive was copied almost entirely from the Hall-Scott motor; in fact, several of the gears used in the first sample engines were supplied by the Hall-Scott Motor Car company. This type of

drive is used by Mercedes, Hispano-Suiza and others.

Angle Between Cylinder—In the Liberty the included angle between the cylinders is 45 degrees; in all other existing twelve cylinder engines it is 60 degrees. This feature is new with the Liberty engine, and was adopted for the purpose of bringing each row of cylinders nearer the vertical and closer together, so as to save width and head resistance. By the narrow angle greater strength is given to the crank case and vibration is reduced.

Electric Generator and Ignition—A Delco ignition system is used. It was especially designed for the Liberty engine to save weight and to meet the special conditions due to firing twelve cylinders with an included angle of 45 degrees.

Pistons—The pistons of the Liberty engine are of Hall-Scott design.

Connecting Rods—Forked or straddle-type connecting rods, first used on the French De Dion car, and on the Cadillac motor car in this country, are used.

Crank Shaft—Crank shaft design followed the standard twelve cylinder practice, except as to oiling. Crank case follows standard practice. The 45 degree angle and the flange location on the cylinders made possible a very strong box section.

Lubrication—The first system of lubrication followed the German practice of using one pump to keep the crank case empty, delivering into an outside reservoir, and another pump to force oil under pressure to the main crankshaft bearings. This lubrication system also followed the German practice in allowing the overflow in the main bearings to travel out the face of the crank cheeks to a scupper which collected this excess for crank pin lubrication. This is very economical in the use of oil and is still the standard German practice.

The present system is similar to the first practice, except that the oil while under pressure is not only fed to main bearings but through holes inside of crank cheeks to crank pins, instead of feeding these crank pins through scuppers. The difference between the two oiling systems consists of carrying oil for the crank pins through a hole inside the crank cheek instead of up the outside face of the crank cheek.

Propeller Hub—The Hall-Scott propeller hub

design was adapted to the power of the Liberty engine.

Water Pump—The Packard type of water pump was adapted to the Liberty.

Carburetor—A carburetor was developed by the Zenith company for the Liberty engine.

Bore and Stroke—The bore and stroke of the Liberty engine is 5x7 inches, the same as the Hall-Scott A-5 and A-7 engines and as in the Hall-Scott twelve cylinder engine.

Remarks—The idea of developing Liberty engines of four, six, eight and twelve cylinders with the above characteristics was first thought of about May 25, 1917. The idea was developed in conference with representatives of the British and French missions, May 28 to June 1, and was submitted in the form of sketches at a joint meeting of the aircraft (production) board and the joint army and navy technical board, June 4. The first sample was an eight cylinder model, delivered to the bureau of standards July 3, 1917. The eight cylinder model, however, was never put into production. Advice from France indicated that demands for increased power would make the eight cylinder model obsolete before it could be produced.

Work was then concentrated on the twelve cylinder engine and one of the experimental engines passed the fifty hour test Aug. 25, 1917.

After the preliminary drawings were made, engineers from the leading engine builders were brought to the bureau of standards, where they inspected the new designs and made suggestions, most of which were incorporated in the final design. At the same time expert production men were making suggestions that would facilitate production.

The Liberty twelve cylinder engine passed the fifty hour test, showing, as the official report of Aug. 25, 1917, records, "that the fundamental construction is such that very satisfactory service with a long life and high order of efficiency will be given by this power plant and that the design has passed from the experimental stage into the field of proved engines."

An engine committee was organized informally, consisting of the engineers and production managers of the Packard, Ford, Cadillac, Lincoln, Marmon and Treco companies. This committee met at frequent intervals and it is to this group of men that the final development of the Liberty engine is largely due.

AMERICAN TELEPHONE GIRLS IN FRANCE.

The following is from a statement issued by the division on woman's war work, committee on public information, in May, 1918:

Owing to the problems which the use of two languages presented to the American troops in France and the necessity of accurate intercommunication between the American and the French armies, the signal corps has sent abroad 100 trained woman telephone operators, who speak both French and English fluently, to work in military telephone exchanges in bases of supplies and points of embarkation. During 1917 man operators and French women were used for this work. Neither group proved satisfactory.

Therefore, in the early part of November a cablegram was sent to the signal corps of the United States army by Gen. Pershing, commander of the American expeditionary forces, recommending that, on account of the great difficulty in obtaining properly qualified men, a force of woman telephone operators speaking French and English equally well should be organized and sent to France. He required three chief operators at \$125 a month, nine supervising operators at \$72 a month, twenty-four long distance operators at \$60 a month, fifty-four operators at \$40 a month, and thirty operators at \$50 a month; total, 100. All should have the allowances of army nurses and should be uniformed.

Capt. E. J. Wesson, civilian personnel section of the signal corps, who is experienced in recruiting emergency groups of trained workers, was given charge of the proposed unit. Capt. W. S. Vivian was made responsible for

the housing and general welfare of the operators in France.

Thinking that it might be possible to obtain telephone operators with equal command of both languages in parts of the country with large numbers of French inhabitants, an effort was first made to obtain the group from Montreal, Canada, and Louisiana. The announcement was placed in French-Canadian papers, with the result that from 300 to 400 women applied. Out of these only six could be considered. The announcement was then made to the press of the country and to telephone companies. A list of 2,400 applications was received, which yielded the names of twenty-five experienced operators, who could speak both languages, and twenty-five possible eligibles. To this list 7,600 applications have been received. Besides the 100 that have been sent over, 150 fully equipped are now in training schools to meet a possible demand, and a list of 400 as a reserve force is on file.

The group of 100 is composed for the most part of French girls who have come to America or American girls who have lived in France. The unit was sent in groups of three of about thirty each. Groups No. 1 and 2 are made up of experienced telephone operators. Group No. 3 consists of girls who have been given intensive emergency training in telephony. For the most part these girls come from New York state, California and Massachusetts sent the next largest number. Seventy-two per cent are Americans; 28 per cent are foreign born—French, Belgian, Canadian, English, Swiss and Dutch East Indian.

Under existing laws wives of army officers and enlisted men who are liable for duty abroad are not eligible for membership in this unit. An unauthorized statement, which appeared in many papers, says that a unit of telephone girls was to be organized, and that many women whose husbands were officers had thus found a way to go abroad, occasioned an enormous number of applications and met with an emphatic denial from the signal corps.

Upon filling out the application blanks which asked for facts about age, nationality, knowledge of French and English, previous telephone experience and health, and which demanded a promise to serve for the duration of the war, the candidate whose answers indicated satisfactory qualifications was given examination by the manager of the local telephone company who had been authorized by the signal corps. A full report on the ability and character of the applicant was submitted to a board of experts in New York. A psychologist gave tests to the prospective operators, similar to the methods used by the army in examining officers. Also, since the work which the unit would perform was of a confidential military nature and would give the members important knowledge of the movements of troops, their loyalty and motives for applying for service were thoroughly investigated by secret service agents.

On Jan. 12 the first group entered the training schools to be trained in advanced telephony. Practice was then given in the largest private branch exchange in New York, followed by three days' work in cantonment telephone exchanges, to acquire familiarity with military terminology and the period of training military drill was given the women every day. Lectures were delivered to them by officers of the signal corps upon the duties of that branch of the army and its traditions. The importance of the lines of communication in modern warfare was explained and the various duties of the divisions of the signal corps were outlined. Talks upon personal hygiene were given by women surgeons.

On March 2 the first contingent sailed and later in the month American officers in France were agreeably surprised by hearing over the military telephones operators who used American terms, gave splendid service and who could translate the message of a French officer to an American officer, or vice versa. A second group sailed on March 16 and a third during the latter part of April. They were stationed in groups of ten in American bases of supplies and points of embarkation.

The members of the woman's telephone unit were required to pass strict health examinations and were inoculated and vaccinated in the same manner as American soldiers. Out of sixty girls who were inoculated not one fainted. An officer who has seen many soldiers meet the same experience said this was most unusual.

The uniform was designed and prescribed

by the war college. It consisted of a blue coat and skirt made of navy blue serge, strictly tailor made; tailored shirtwaist of navy blue palm beach cloth or similar material; and straight brimmed hat of blue felt, with the official orange and white hat cord of the signal corps. The brassard on the left sleeve of the coat is of white whipcord or doeskin, bearing small devices indicating the status of chief operator, supervisor and operator.

"It would be impossible to brigade an American troop without these girls," Capt. Wesson, who recruited the unit, stated. "They are going to astound the people over there by the efficiency of their work. In Paris it takes from forty to sixty seconds to complete one telephone call. Our girls are equipped to handle 300 calls an hour." The English women's army auxiliary corps, the "Waacs," are doing similar work, but they are not equipped with fluent knowledge of French, and the American system of telephony has always been better than the European one.

The personnel of the woman's telephone unit follows:

Melina J. Adam, Margaret Anderson, Eulalie I. Audet, Grace Banker, Juliet Savare, Emma Marie Brousseau, Almeca Capistran, Bertha A. Carrel, Mrs. Inez Crittenden, Josephine Davis, Cordelia Dupuis, Sara Fecteau, Marie Louise Ford, Anna C. Fox, Esther Fresnel, Marie A. Gagnon, Lydia C. Gelinis, Charlotte Gyss, Darnaby Henton, Matina Heymen, Derise Ingram, Ethel Keyser, Florence E. Keyser, Marie S. La Blanc, Leontine Lamoureux, Nellie Martin, Mrs. Pauline MacDermott, Kathleen Mitchell, Minerva G. Nadeau, Helen A. Naismith, Frances Paine Biselow, Druella Palmer, Lawrence Helene Pechin, Bertha Plamondon, Suzanne Prevot, Minnie R. Richards, Katharine Hay Robinson, Olive M. Shaw, Marion A. Taylor, Evelyn Thomas, Isabelle Villiers, Ethelyn White, Mrs. Clara Whitney, Margaret S. Blevers, Jeanne Bouchet, Martha L. Carrel, Louise Essirard, Anns LeBorde, Louise Le Breton, Raymond Le Breton, Marie Antoinette Neyrat, McEntyre, Renee Messelin, Marie Pondolle, Gergette Scharrer, Albertine Arents, Edith Dodson, Martha Libert, Estelle L. Caron, Jean Cunningham, Amallem Jackson, Agnes M. Theriault, Winifred Hardy, Elizabeth Hunter, Alice V. Ward, Helen F. Perretton, Dee Van Balkom, Suzanne M. Beraud, Louise H. Gravard, Margaret Hutchins, Lucille de Jersey, Bertha M. Hunt, Margaret H. Milner, Martha Steinbruner, Marie Floyd, Dorothy L. Sage, Bertha H. Verkler, Lillian V. Verkler, Yvonne M. Gauthier, Eugene Racicot, Maude McLowell, Michele F. Blanc, Marie B. Brelanger, Marie L. Bosquet, Suzanne Cohelach, Frances des Jardins, Blanche Grand Maitre, Adele L. Hopcock, Janet R. Jones, Hope Kerwin and Miriam de Jersey.

HONORS BESTOWED ON GEN. MARCH.

Following is the address of the secretary of war, Dec. 13, 1918, at the ceremony at his office in connection with the presentation of a distinguished service medal to Gen. Peyton C. March:

"In the act of July 9, 1918, the congress authorized the president to present a distinguished service medal of appropriate design to any person who while serving in any capacity with the army of the United States since the sixth day of April, 1917, has distinguished himself by exceptionally meritorious service to the government in a duty of great responsibility.

"Under the authority of this act the president has caused to be struck the distinguished service medal, and by his direction it was conferred upon Marshal Foch, Field Marshal Haig, Marshal Petain, Gen. Diaz, Gen. Pershing and Gen. Bliss.

Recommended by Gen. Pershing.

"Thereafter, upon the recommendation of Gen. Pershing, distinguished service medals have been conferred upon others associated with the American expeditionary forces in

recognition of services rendered by them of a distinguished character but not coming within the definition limiting the bestowal of the distinguished service cross, which involves conspicuous gallantry and intrepidity at the risk of life in action or in conflict with the enemy.

"Perhaps never before in history has war so completely required the mobilization of all the forces of the nation. Perhaps never before has the success of a military undertaking required so much talent, devotion and labor from those not immediately associated with the combatant forces. The congress, therefore, acted with great wisdom in providing that the distinguished service cross should be the badge of conspicuous gallantry and that there should be suitable recognition for those whose duties were of great responsibility, indispensable to the success of the army and yet involved no element of actual armed combat, and the bestowal of our distinguished service medal upon such commanders as Marshal Foch and the commanders of the several allied forces has given it a dignity and an association with actual military operations which makes it a

token of honorable and meritorious service, both to our nation and to the cause of humanity for which our own military enterprise was undertaken.

Gen. Pershing's Recommendation.

"On the 7th of December I received from Gen. Pershing this recommendation: 'It is recommended that the distinguished service medal be awarded Gen. Peyton C. March, chief of staff, United States army, for exceptionally meritorious and conspicuous service. As commanding general of the army artillery of the 1st army he initiated and prepared the plans for the organization of the artillery of the American army in France. As chief of staff of the United States army he has rendered service of inestimable value to his country.' The president has approved the recommendation of Gen. Pershing and I have asked you to assemble to-day to witness the presentation of the medal to Gen. March.

"It is a happy circumstance that Gen. Pershing's recommendation involved service abroad and service at home, and that we thus have from the commanding general of the army abroad a recognition of the value of the services of that army which were rendered by a soldier whose duties required him to remain in the United States.

Differed in Opportunity.

"The army of the United States consists of the American expeditionary forces and that great body of officers and men in the United States who were either preparing for foreign service or carrying forward the great enterprise of mobilization, instruction and equipment upon which the efficiency of the expeditionary forces depended. The services of these soldiers differed in opportunity, but they did not differ in zeal or importance to the general cause, and I have especial happiness as I confer this medal in drawing your attention and that of the country to that part of Gen. Pershing's recommendation which recognizes the services performed in America. We and the people of the entire country join in grateful recognition of the gallantry of our officers and men abroad; they generously and with equal gallantry recognize the value of the labor of their associates in arms at home.

"The major part of the services of Gen. March referred to in the recommendation of Gen. Pershing have, of course, been performed as chief of staff. They have, therefore, been performed under my immediate observation, and I am happy to add my own personal commendation to that of Gen. Pershing. Gen. March has rendered services of inestimable value to his country without fear or favor. He has labored to build the army, to co-ordinate the various branches of the service and to supervise the administration of military af-

airs with a view to the efficiency of our fighting forces, and that justice of administration in the army itself upon which alone a sound spirit can be built.

"In acting as the president's deputy to confer this medal I have perhaps no right to add my personal judgment, but to the members of the staff who have co-operated under Gen. March's supervision in this great business no such addition is necessary. I therefore, congratulate the army and the country upon the intelligence, zeal and patriotic devotion with which Gen. March has performed his great duties, and in the name of the president, I confer upon him the distinguished service medal authorized by the congress."

Gen. March's Acceptance.

Gen. March, upon receiving the distinguished service medal from the secretary of war, said:

"Mr. Secretary, I accept the distinguished service medal with a particular feeling of pleasure because it comes to me as the result of a straight military recommendation for service performed on both sides of the Atlantic, and not merely in recognition of the distinguished office which I hold by law as military head of the United States army.

"We have authorized the bestowal of a number of these medals on officers serving in France, and I shall take pleasure during the next few days in recommending to you, Mr. Secretary, the names of officers at home whose services to the country have been of inestimable value.

"I should say in addition, Mr. Secretary, that I feel particular pleasure in what you said to me personally, because, while Gen. Pershing knows what I did on the other side, you know better than any one what I have done at home. That adds to the medal."

Honored by Japan.

At the imperial Japanese embassy in Washington, Dec. 9 1918, his imperial highness Prince Higashi Fushimi, by command of his imperial majesty the emperor of Japan, personally decorated Gen. Peyton C. March, chief of the general staff, United States army, with the grand cordon of the Order of the Rising Sun, accorded for distinguished and brilliant services.

The presentation took place in the presence of members of the prince's suite, Ambassador Ishii, and the staff of the Japanese embassy.

Brig.-Gen. Frank T. Hines and Col. Constant Corcoran, both of the army general staff, also received from the hands of the prince, the second class of the Order of the Sacred Treasure and the third class of the Order of the Rising Sun, respectively, for the services which they rendered the United States and the allies in the present war.

FOOD FOR THREE MILLION MEN.

The following table shows the estimated consumption and cost of the various articles of food furnished the army during one year, the size of the army being estimated at 3,000,000 soldiers and the prices based on those prevailing in August, 1918:

Article.	Consumption.	Cost.
Beef, fresh, lbs.....	478,515,000	\$109,627,786
Bacon, lbs.....	48,180,000	18,587,844
Cornmeal, lbs.....	21,090,000	1,211,727
Rice, lbs.....	30,660,000	2,158,464
Potatoes, lbs.....	782,925,000	14,014,357
Onions, lbs.....	58,035,000	1,439,268
Jam, cans.....	7,665,000	2,071,849
Coffee, lbs.....	61,320,000	9,265,452
Tea E. B., blk., lbs.	3,285,000	1,232,203
Gundr., gr., lbs.....	1,095,000	416,100
Oolong, black, lbs.....	1,095,000	350,400
Y. H., lbs.....	1,095,000	369,015
Japan, lbs.....	1,095,000	385,987
Vinegar, gals.....	2,190,000	658,095
Pickles, chowchow, pint jars.....	1,095,000	245,170
Cucumber, gals.....	3,285,000	1,314,000

Article.	Consumption.	Cost.
Gherkins, pint jars.	1,095,000	242,980

Pork & beans	4,000,000 cases	17,600,000
Salmon	2,000,000 cases	16,000,000
Flour	915,000,000 pounds	50,325,000
Prunes	30,000,000 pounds	3,300,000
Peaches, evap.	21,000,000 pounds	2,730,000
Apples	18,000,000 pounds	2,520,000
Beans, dried.....	50,000,000 pounds	5,000,000

AMERICAN, BRITISH AND CANADIAN MILITARY SERVICE TREATY.

The full text of the convention relating to military service of British subjects in the United States and of citizens of the United States in Great Britain and Canada and notes relating to article I follow:

British Embassy, Washington, June 3, 1918.—The Hon. Robert Lansing, Secretary of State of the United States—Sir: With reference to the military service convention between the United States and Great Britain signed to-day, I am instructed by his majesty's government to explain why the proviso to article I does not limit the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service, as requested by the United States government. The reason for the omission of this clause in the proviso is a desire to avoid the delay that would be involved in modifying the military service acts, 1916 to 1918, which control the operation of any convention of this character. I beg you, therefore, to be good enough not to press this proposal.

The effect of these acts is to make United States citizens in Great Britain under this convention liable to military service between the ages of 18 and 49, both inclusive. The limitation of the ages of military citizens in Great Britain for the purpose of military service to those prescribed in the laws of the United States relating to compulsory military service may, however, be attained without amendment of these acts by exercise by the United States of its right of exemption under article III.

His majesty's government understand, therefore, that the United States government will exercise their right under article III, to exempt from compulsory military service in Great Britain all citizens of the United States in Great Britain outside the ages specified in the laws of the United States prescribing compulsory military service.

I have the honor to be, with the highest consideration, sir,

Your most obedient, humble servant,

READING.

June 3, 1918.—His Excellency the Earl of Reading, Ambassador of Great Britain on Special Mission: I have the honor to acknowledge the receipt of your excellency's note of this date in regard to the military service convention between the United States and Great Britain, signed to-day, in which you state that you are instructed to explain why the proviso to article I does not limit the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service as requested by the United States government. In explanation your excellency states as follows:

"The reason for the omission of this clause in the proviso is a desire to avoid the delay which would be involved in modifying the military service acts, 1916 to 1918, which control the operation of any convention of this character. I beg you, therefore, to be good enough not to press this proposal.

"The effect of these acts is to make United States citizens in Great Britain under this convention liable to military service between the ages of 18 and 49 years, both inclusive. The limitation of the ages of United States citizens in Great Britain for the purposes of military service to those prescribed in the laws of the United States relating to compulsory military service may, however, be attained without amendment of these acts by the exercise by the United States of its right of exemption under article III."

Your excellency adds that—

"His majesty's government understand, therefore, that the United States government will exercise its right under article III, to exempt from compulsory military service in Great Britain all citizens of the United States in Great Britain outside the ages specified in the laws of the United States prescribing compulsory military service."

In reply I have the honor to inform your excellency that the government of the United States is pleased to accept this explanation of said article I, and, in lieu of a clause in this article limiting the military service of citizens of the United States in Great Britain to those of the ages specified in the laws of the United States prescribing compulsory military service, to exercise its right under article III, to exempt from compulsory military service in Great Britain all citizens of the United States in Great Britain outside of the ages specified in the laws of the United States prescribing compulsory military service.

I have the honor to be, with the highest consideration,

Your excellency's most obedient servant,
ROBERT LANSING.

PART I.—CONVENTION RELATING TO THE SERVICE OF CITIZENS OF THE UNITED STATES IN GREAT BRITAIN AND OF BRITISH SUBJECTS IN THE UNITED STATES.

The president of the United States of America and his majesty, the king of the united kingdom of Great Britain and Ireland and of the British dominions beyond the seas, emperor of India, being convinced that for the better prosecution of the present war it is desirable that citizens of the United States in Great Britain and British subjects in the United States shall either return to their own country to perform military service in its army or shall serve in the army of the country in which they remain, have resolved to enter into a convention to that end, and have accordingly appointed as their plenipotentiaries the president of the United States of America, Robert Lansing, secretary of state of the United States, and his Britannic majesty, the earl of Reading, lord chief justice of England, high commissioner and ambassador extraordinary and plenipotentiary on special mission to the United States, who, after having communicated to each other their respective full powers, found to be in proper form, have agreed upon and concluded the following articles:

Article I.

All male citizens of the United States in Great Britain and all male British subjects in the United States shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Great Britain, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations from time to time in force of the country in which they are: Provided, that in respect to British subjects in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive: Provided, however, that no citizen of the United States in Great Britain and no British subject in the United States who, before proceeding to Great Britain or the United States, respectively, was ordinarily resident in a place in the possessions of the United States or in his majesty's dominions, respectively, where the law does not impose compulsory military service, shall, by virtue of this convention, be liable to military service under the laws and regulations of Great Britain or the United States, respectively: Provided further, that in the event of compulsory military service being applied to any part of his majesty's dominions in which military service at present is not compulsory, British subjects who, before proceeding to the United States were ordinarily resident in such part of his majesty's dominions, shall thereupon be included within the terms of this convention.

Article II.

Citizens of the United States and British subjects within the age limits aforesaid who desire to enter the military service of their own country must, after making such application therefor as may be prescribed by the laws

or regulations of the country in which they are, enlist or enroll or must leave Great Britain or the United States, as the case may be, for the purpose of military service in their own country before the expiration of sixty days after the date of the exchange of ratifications of this convention, if liable to military service in the country in which they are at the said date; or if not so liable, then before the expiration of thirty days after the time when liability shall accrue; or as to those holding certificates of exemption under article III. of this convention, before the expiration of thirty days after the date on which any such certificate becomes inoperative unless sooner renewed; or as to those who apply for certificates of exemption under article III. and whose applications are refused, then before the expiration of thirty days after the date of such refusal, unless the application be sooner granted.

Article III.

The government of the United States and his Britannic majesty's government may through their respective diplomatic representatives issue certificates of exemption from military service to citizens of the United States in Great Britain and British subjects in the United States, respectively, upon application or otherwise, within sixty days from the date of the exchange of ratifications of this convention, or within thirty days from the date when such citizens or subjects become liable to military service in accordance with article I., provided that the applications be made or the certificates be granted prior to their entry into the military service of either country.

Such certificates may be special or general, temporary or conditional, and may be modified, renewed or revoked in the discretion of the government granting them. Persons holding such certificates shall, so long as the certificates are in force, not be liable to military service in the country in which they are.

Article IV.

This convention shall not apply to British subjects in the United States (a) who were born or naturalized in Canada, and who, before proceeding to the United States, were ordinarily resident in Great Britain or Canada or in any other part of his majesty's dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British dominions; or (b) who were not born or naturalized in Canada, but who before proceeding to the United States were ordinarily resident in Canada.

Article V.

The government of the United States and his Britannic majesty's government will respectively, so far as possible facilitate the return of British subjects and citizens of the United States who may desire to return to their own country for military service, but shall not be responsible for providing transport or the cost of transport for such persons.

Article VI.

No citizen or subject of either country who, under the provisions of this convention, enters the military service of the other shall, by reason of such service, be considered after this convention shall have expired or after his discharge to have lost his nationality, or to be under any allegiance, to his Britannic majesty or to the United States, as the case may be.

Article VII.

The present convention shall be ratified by the president of the United States of America by and with the advice and consent of the senate of the United States and by his Britannic majesty, and the ratifications shall be exchanged at Washington or at London as soon as possible. It shall come into operation on the date on which the ratifications are exchanged and shall remain in force until the expiration of sixty days after either of the

contracting parties shall have given notice of termination to the other: whereupon any subject or citizen of either country incorporated into the military service of the other under this convention shall be as soon as possible discharged therefrom.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

Done in duplicate at Washington the third day of June, in the year of our Lord one thousand nine hundred and eighteen.

PART II.—CONVENTION RELATING TO THE SERVICE OF CITIZENS OF THE UNITED STATES IN CANADA AND OF CANADIANS IN THE UNITED STATES.

The president of the United States of America and his majesty, the king of the united kingdom of Great Britain and Ireland, and of the British dominions beyond the seas, emperor of India, being convinced that for the better prosecution of the present war it is desirable that citizens of the United States in Canada and Canadian British subjects in the United States shall either return to their own country to perform military service in its army or shall serve in the army of the country in which they remain, have resolved to enter into a convention to that end and have accordingly appointed as their plenipotentiaries the president of the United States of America, Robert Lansing, secretary of state of the United States, and his Britannic majesty, the earl of Reading, lord chief justice of England, high commissioner and ambassador extraordinary and plenipotentiary on special mission to the United States, who, after having communicated to each other their respective full powers found to be in proper form, have agreed upon and concluded the following articles:

Article I.

All male citizens of the United States in Canada (hereinafter called Americans) and all male British subjects in the United States (a) who were born or naturalized in Canada, and who, before proceeding to the United States, were ordinarily resident in Great Britain or Canada or in any other part of his majesty's dominions to which compulsory military service has been or may be hereafter by law applied, or outside the British dominions; or (b) who were not born or naturalized in Canada, but who, before proceeding to the United States, were ordinarily resident in Canada (hereinafter called Canadians), shall, unless before the time limited by this convention they enlist or enroll in the forces of their own country or return to the United States or Canada, respectively, for the purpose of military service, be subject to military service and entitled to exemption or discharge therefrom under the laws and regulations, from time to time in force, of the country in which they are: Provided, that in respect to Americans in Canada the ages for military service shall be the ages specified in the laws of the United States prescribing compulsory military service, and in respect to Canadians in the United States the ages for military service shall be for the time being 20 to 44 years, both inclusive.

Article II.

Americans and Canadians within the age limits aforesaid who desire to enter the military service of their own country must enlist or enroll or must leave Canada or the United States, as the case may be, for the purpose of military service in their own country before the expiration of sixty days after the date of the exchange of ratifications of this convention, if liable to military service in the country in which they are at the said date; or, if not so liable, then before the expiration of thirty days after the time when liability shall accrue; or, as to those holding certificates of exemption under article III. of this convention, before the expiration of thir-

ty days after the date on which any such certificate becomes operative unless sooner renewed; or as to those who apply for certificates of exemption under article III., and whose applications are refused, then before the expiration of thirty days after the date of such refusal, unless the application be sooner granted.

Article III.

The government of the United States, through the consul-general at Ottawa, and his Britannic majesty's government, through the British ambassador at Washington, may issue certificates of exemption from military service to Americans and Canadians, respectively, upon application or otherwise, within sixty days from the date of the exchange of ratifications of this convention or within thirty days from the date when such citizens or subjects become liable to military service in accordance with article I., provided that the applications be made or the certificates be granted prior to their entry into the military service of either country. Such certificates may be special or general, temporary or conditional, and may be modified, renewed or revoked in the discretion of the government granting them. Persons holding such certificates shall, so long as the certificates are in force, not be liable to military service in the country in which they are.

Article IV.

The government of the United States and the government of Canada will respectively, so far as possible, facilitate the return of Canadians and Americans who may desire to return to their own country for military serv-

ice, but shall not be responsible for providing transport or the cost of transport for such persons.

Article V.

No citizen or subject of either country who, under the provisions of this convention, enters the military service of the other shall, by reason of such service, be considered after this convention shall have expired or after his discharge, to have lost his nationality or to be under any allegiance to the United States or to his Britannic majesty, as the case may be.

Article VI.

The present convention shall be ratified by the president of the United States of America, by and with the advice and consent of the senate of the United States, and by his Britannic majesty, and the ratifications shall be exchanged at Washington or at London as soon as possible. It shall come into operation on the date on which the ratifications are exchanged and shall remain in force until the contracting parties shall have given notice of termination to the other; whereupon any citizen or subject of either country incorporated into the military service of the other under this convention shall be as soon as possible discharged therefrom.

In witness whereof the respective plenipotentiaries have signed the present convention and have affixed thereto their seals.

Done in duplicate at Washington the third day of June, in the year of our Lord one thousand nine hundred and eighteen.

HEALTH AND MORALE OF THE ARMY.

In his annual report for 1918 the secretary of war, Newton D. Baker, gave some highly interesting details as to the health of the army, the work of the medical department and the nursing corps, and also of the work of the commission on training camp activities. Following is what the secretary said on these subjects:

It must be a source of the deepest gratification to the country, as it is to me, that the health of the army has been so excellent, not only as compared with the army in other wars but also as compared with the civilian population.

For the year ending Aug. 30, 1918, the death rate from disease among troops in the United States was 6.4 per thousand; in the American expeditionary force it was 4.7; for the combined forces it was 5.9. The male civilian death rate for the age groups most nearly corresponding to the army age is substantially the same as the rate in the American expeditionary force. What this low figure means in lives saved is shown by comparing it with the rate of 65 per thousand in the union army during the civil war and the rate of 26 per thousand in the American army during the Spanish war. Pneumonia, either primary or secondary to measles, caused 36 per cent of all deaths among troops and 63 per cent of the deaths from disease.

About the middle of September the influenza epidemic which had been prevalent in Europe gained a foothold in this country. Beginning in the New England states, it gradually spread south and west until practically the entire country suffered under its scourge. Naturally the camps and cantonments, with their closer concentration of men, provided especially favorable ground for the spread of the epidemic. In the eight weeks from Sept. 14 to Nov. 8 there were reported among all troops in the United States over 316,000 cases of influenza and over 53,000 cases of pneumonia. Of the 20,500 deaths during this period, probably 19,800 were the result of the epidemic. During eight weeks the epidemic caused more than twice as many deaths among troops in the United States as occurred during the entire year preceding the epidemic, and almost as many as the battle fatalities during

the eighteen months of the war up to October, 1918. By the middle of November it was apparent that the epidemic had spent its force. The number of deaths was still above normal, but was showing a steady decline. The American expeditionary force suffered somewhat from the epidemic, but far less severely than the troops in the United States.

Medical Organization.

Figures as to the health of our soldiers bear eloquent tribute to the efficiency of the medical department of the army. With the invaluable assistance of the American Red Cross, it found itself in a position to render great service from the very beginning. In this connection it is significant to note that the first casualties in the American expeditionary force occurred in the medical corps, when on Sept. 4, 1917, one officer and three men were killed and three officers and six men wounded in a German airplane attack on one of our base hospitals. On Nov. 11, 1918, the army had eighty fully equipped hospitals in this country with a capacity of 120,000 patients. There are 104 base hospitals and thirty-one evacuation hospitals in the American expeditionary force and one evacuation hospital in Siberia. In addition a special hospital for head surgery, an optical unit, and eight auxiliary units are operating abroad.

Army hospitals in the United States cared for 1,407,191 patients during the war; those with the American expeditionary force cared for 755,354, a total of 2,162,545.

In addition to furnishing its medical personnel for the operation of the above units, the war department, through the chief surgeon, has detailed 931 American officers to serve with the British forces and a further 169 for service in base hospitals that we have turned over to the British. Furthermore, several ambulance sections have been operating with the Italian army.

Medical and Dental Personnel.

In order to provide properly trained personnel for the medical needs of the army outlined above, training camps were opened on June 1, 1917, at Fort Oglethorpe, Fort Benjamin Har-

arrison and Fort Riley. The need for similar facilities for colored officers and men was quickly recognized, and on July 21 a camp was opened at Fort Des Moines for the training of colored personnel. Simultaneously special intensive training was given to all army medical officers, 1,724 receiving instruction in war surgery and 600 in roentgenology.

The vital importance of good teeth has been fully realized by the department. On Nov. 11, 1918, there were 4,420 dentists in the army and 5,372 in the reserve corps not yet called to active duty.

Up to the end of July about 15 per cent of the entire civilian medical profession of the United States went into active duty as medical officers of the army. Probably no working force has ever been organized which contained more distinguished men of a single profession than are to-day enrolled in the medical department of the United States army.

No praise is too great for these men and their many brothers who freely gave themselves to the country in the time of her need, sacrificing homes and positions that they might render their greatest service to the cause of democracy.

Nurses.

The answer made by the graduate nurses in this country has been no less splendid than that of the doctors. When the armistice was signed an adequate staff of nurses was on duty at every army hospital in the United States. Eight thousand five hundred and ten were on duty in Europe, 1,400 were mobilized and awaiting transportation overseas and 2,000 more were available for immediate foreign service. The part played by these heroic women can best be told by our sons and brothers when they return from the battle fields; they, and only they, can pay proper tribute to the love and devotion with which our American nurses watched over them and cared for them.

Appropriations.

During the period of the war over \$500,000,000 was made available for the uses of the medical department. The expenditure of this vast sum was not merely a matter of placing contracts and awaiting deliveries. New sources of supply had to be created to meet the unprecedented demand for surgical instruments, medical and surgical supplies, bedding and beds and anesthetics, and everything possible had to be done to standardize all staple articles so as to reduce manufacturing difficulties to a minimum. Under the direction of Maj.-Gen. William C. Gorgas the medical department worked out a most satisfactory program.

The war department has believed that preventive as well as curative duties should be performed by its medical personnel. Accordingly, eight "survey parties" have been maintained to inspect all stocks of food and the manner of serving meals to troops in camps or hospitals. Provision has also been made for the education of cooks and bakers in the science of their trades.

Gas Defense Service.

During the first fifteen months of the war all matters pertaining to the protection of troops against poison gases were under the charge of the surgeon-general, who devised, contracted for and produced during this period over 1,500,000 gas masks. The magnitude of this work became so great, however, that a special "chemical warfare service" was created to handle both the defensive end, formerly under the medical corps, and the offensive branch, theretofore under the engineers.

Reconstruction Work.

One of the most important activities under the direction of the medical department has been the reconstruction work planned for soldiers, sailors and marines. At ports of debarkation arrangements have been made for the rapid classification and assignment of returned sick and injured to the nineteen gen-

eral hospitals selected for reconstruction work.

At each of the hospitals courses of instruction are conducted which are adapted to the physical and educational qualifications of the men. These courses range from the most elementary instruction in the "three R's" to highly specialized trades; all of them, however, have the single purpose of enabling the man to overcome the handicaps resulting from his wounds and to resume his place as a productive member of society as speedily as possible. This work is being prosecuted in the greatest variety of subjects at Walter Reed hospital, Washington, D. C., where important experiments are being made and where special attention is being given to fitting men with effective artificial legs, arms and hands.

Growth of the Department.

At the beginning of the war there were only 750 officers, 393 nurses and 6,619 enlisted men belonging to the medical department. In November, 1918, the corresponding figures were 39,363 officers, 21,344 nurses and 245,652 enlisted men. During the period of greatest expansion the department's program was guided by Maj.-Gen. William C. Gorgas, the surgeon-general. After many years of conspicuous service in the army, Maj.-Gen. Gorgas has retired in accordance with the provisions of the law, and was succeeded by Maj.-Gen. Merritte W. Ireland, chief surgeon of the American expeditionary force.

Training Camp Activities.

The commission on training camp activities was created in April, 1917, by the secretary of war to advise him on all matters relating to the morale of the troops. Cut off from home, family, friends, clubs, churches, the hundreds of thousands of men who poured into the country's camps required something besides the routine of military training if they were to be kept healthy mentally and spiritually. It became the task of the commission to foster in the camps a new social world. This was done through its own agents and through the agents of the affiliated organizations over which it had supervision. It provided club life, it organized athletics, it furnished recreation through theaters and mass singing, it provided educational facilities, it furnished opportunity for religious services to be held, it went into the communities outside the camps and reorganized their facilities for offering hospitality to the soldiers. While it provided these advantages to the soldier, it also sought to protect him from vicious influences by a systematic campaign of education against venereal disease and by strict enforcement of laws against liquor selling and prostitution. The effort was to furnish for the men an environment not only clean and wholesome, but actually inspiring—to make them fit and eager to fight for democracy.

What much of this work has been carried on by the commission itself through government appropriations, a great deal of it has been made possible by private organizations which have worked under the supervision of the commission. These organizations, the Young Men's Christian association, the Young Women's Christian association, the National Catholic War council (Knights of Columbus), the War Camp Community Service, the American Library association, the Jewish Welfare board and the Salvation Army, have been enormously effective in maintaining the morale of our troops at home and overseas and the value of their services is gratefully acknowledged.

Athletics.

One of the first things undertaken by the commission was the stimulation of athletic sports. Forty-four athletic directors and thirty boxing instructors were appointed in the various camps and an organization was built up by which the men in the camps were participating regularly in some form of athletics, both as part of their military training and as spare time recreation. Mass athletics, boxing, hand-to-hand fighting, and calisthenics proved

so valuable in promoting military efficiency that many of the civilian athletic directors were commissioned. At first it was difficult to obtain an adequate quantity of athletic equipment for the soldiers. Funds were lacking and raw material for manufacturing equipment was scarce. In many cases a company box of equipment had to serve a regiment. But later funds appropriated by the government were available, supplemented by generous subscriptions collected by special committees working under the direction of the commission, and much more equipment was purchased and distributed.

Social Hygiene.

Much attention, too, has been given to the problem of social hygiene. A wide educational campaign along lines of sex hygiene has been undertaken in all the camps and civilian population of the country regarding the nature and prevention of social disease. Lectures, moving pictures and exhibits of various kinds are utilized, and extensive literature has been developed. More than 2,000,000 soldiers have been reached by lecturers; fifty-eight camps have received stereomographs and 116 camps and posts have received placard exhibits. In the larger military establishments trained non-commissioned officers have been in charge of this work.

The section on men's work has conducted an extensive campaign of education among civilians. It has sought to stimulate the enforcement of existing laws against prostitution and to pass new ones where needed to curb vice and liquor selling. Its chief effort has been given to promoting education about venereal disease through industrial establishments, enlisting the support of employers who have devoted time and money to furthering the work among their employes. The section on women's work has endeavored by lectures, by circulation of literature and exhibits, to enlist the special interest of women, individually and in groups, in the fight against disease.

The law enforcement division has been the agency through which the commission has acted in making effective the government policy of suppressing prostitution and illicit liquor selling. Through its section on vice and liquor control it has closed red light districts to the number of 116 (including those which were within the prohibited zone established by section 13 of the selective service act). It has sought further to protect the soldier by breaking up the industry of the street walkers and the frequenters of cafes and cabarets. It has relentlessly pursued the bootlegger and has made it increasingly difficult for the man in uniform to obtain liquor. The commission has also devoted a great deal of attention to work with delinquent girls, who form the chief problem of camp communities. More than 150 field workers are engaged in patrol duty and personal case work and every endeavor has been made through education and otherwise to rehabilitate this unfortunate class. Detention homes and houses have been erected for the custody of women and girls whose commitment to an institution had become necessary for the protection of

the military forces. This work has been carried on by the states with the assistance of a grant of \$250,000 from the president's war emergency fund.

Music.

A great deal of attention has been given to music as an effective factor in military training. This has been done through mass singing in camps and communities, singing on the march as a physical stimulus and source of cheer, competitive regimental and company singing, recreational singing in soldiers' free time, the organization of quartets, glee clubs and choruses and the training of company and regimental song leaders to aid the camp song leader. Song leaders to the number of fifty-three have been assigned to the camps as civilian aids to the commanding officers. They are paid by funds of the quartermaster corps. In order to have all the men in uniform singing the same song, songbooks containing patriotic songs, folk songs, popular and service songs and some hymns were published by the commission and distributed to the men. The department also interested itself in the development of the military bands and prepared a program, practically identical with one submitted from abroad by Gen. Pershing, for the enlargement of the bands, a revised instrumentation, the commissioning of bandmasters and the organizing of band schools. Experiments with vocal and instrumental music in hospitals proved so effective with certain types of cases and so acceptable to the hospital authorities that the matter was referred to the surgeon-general's office with a view to its transfer to this department.

The services of the camp song leaders have frequently been borrowed by near by communities. Community singing—the singing of songs the soldiers have been singing—has spread all over the country, and the possibilities, both as to military and civilian morale, are highly significant. A singing nation will emerge from the war.

Theatrical Entertainments.

When Gen. Pershing said, "Give me a thousand soldiers occasionally entertained to 10,000 soldiers without entertainment," he voiced the need for entertainment in the camps. The commission on training camp activities built liberty theaters in thirty-four camps. The smallest of these theaters seats about 1,000 and the largest somewhat over 3,000. Built of wood but so constructed as to be easily emptied in case of fire, they are modern in every respect and equipped with all necessary paraphernalia for the handling of scenery and lighting effects. The cost of the buildings has varied from \$5,000 to \$50,000, depending upon the size; and the government has appropriated \$1,250,000 for this work. Each theater is in the charge of a resident manager appointed by the commission.

In addition to the regular performances staged in these theaters on a booking circuit, the commission has appointed dramatic directors in many of the camps, so that the boys overseas may be equipped to stage their own performances and thus be provided with means of self-entertainment.

FARMS FOR RETURNING SOLDIERS.

The following letter was written by Franklin K. Lane, secretary of the interior, to President Wilson May 31, 1918:

I believe the time has come when we should give thought to the preparation of plans for providing opportunity for our soldiers returning from the war. Because this department has handled similar problems, I consider it my duty to bring this matter to the attention of yourself and congress.

Every country has found itself face to face with this situation at the close of a great war. From Rome under Caesar to France under Napoleon, down even to our own civil war, the problem arose as to what could be done with the soldiers to be mustered out of military service.

At the close of the civil war America faced

a somewhat similar situation, but, fortunately, at that time the public domain offered opportunity to the home returning soldiers. The great part the veterans of that war played in developing the west is one of our epics. The homestead law had been signed by Lincoln in the second year of the war so that out of our wealth in lands we had farms to offer the million of veterans. It was also the era of transcontinental railway construction. It was likewise the period of rapid yet broad and full development of towns and communities and states.

To the great number of returning soldiers land will offer the great and fundamental opportunity. The experience of wars points out the lesson that our service men, because of army life, with its openness and activity, will

largely seek outdoor vocations and occupations. This fact is accepted by the allied European nations. That is why their programs and policies of relocating and readjustment emphasize the opportunities on the land for the returning soldier. The question then is: "What land can be made available for farm homes for our soldiers?"

We do not have the bountiful public domain of the sixties and seventies. In a literal sense, for the use of it on a generous scale for soldier farm homes as in the sixties, "the public domain is gone." The official figures at the end of the fiscal year June 30, 1917, show this: We have unappropriated land in the continental United States to the amount of 230,657,755 acres. It is safe to say that not one-half of this land will ever prove to be cultivatable in any sense. We have no land in any way comparable to that in the public domain when Appomattox came and men turned westward with army rifle and "roll blouse" to begin life anew.

While we do not have that matchless public domain of '65, we do have millions of acres of undeveloped lands that can be made available for our homecoming soldiers. We have arid lands in the west; cutover lands in the northwest, lake states and south, and also swamp lands in the middle west and south, which can be made available through the proper development. Much of this land can be made suitable for farm homes if properly handled. But it will require that each type of land be dealt with in its own particular fashion. The arid land will require water, the cutover land will require clearing and the swamp land must be drained. Without any of these aids they remain largely "no man's land." The solution of these problems is no new thing. In the admirable achievement of the reclamation service in reclamation and drainage we have abundant proof of what can be done.

Looking toward the construction of additional projects, I am glad to say that plans and investigations have been under way for some time. A survey and study has been in the course of consummation by the reclamation service on the great Colorado basin. That new project, I believe, will appeal to the new spirit of America. It would mean the conquest of an empire in the southwest. It is believed that more than 3,000,000 acres of arid land could be reclaimed by the completion of the upper and lower Colorado basin projects.

It has been officially estimated that more than 15,000,000 acres of irrigable land now remain in the government's hands. This is the great remaining storehouse of government land for reclamation. Under what policy and program millions of these acres could be reclaimed for future farms and homes remains for legislation to determine. The amount of swamp and cutover lands in the United States that can be made available for farming is extensive. Just how much there is has never been determined with any degree of accuracy. Practically all of it has passed into private ownership. For that reason, in considering its use, it would be necessary to work out a policy between the private owners and the government unless the land was purchased. It has been estimated that the total area of swamp and overflowed lands in the United States is between 70,000,000 and 80,000,000 acres. Of this amount it is stated that about 40,000,000 acres can be reclaimed and made profitable for agriculture. The undeveloped swamp lands lie chiefly in Florida, in the states along the Atlantic and gulf coasts, in the Mississippi delta and in Missouri, Indiana, Michigan, Minnesota, Wisconsin and California.

What amount of land in its natural state unfit for farm homes can be made suitable for cultivation by drainage only through surveys and studies can develop. We know that scientific figures show that more than 15,000,000 acres have been reclaimed for profitable farming, most of which lies in the Mississippi river valley.

The amount of cutover lands in the United States, of course, it is impossible even in approximation to estimate. These lands, however, lie largely in the south Atlantic and gulf states, the lake states and the northwestern states. A rough estimate of their number is about 200,000,000 acres—that is, of land suitable for agricultural development. Substantially all this cutover or logged-off land is in private ownership. The failure of this land to be developed is largely due to inadequate method of approach. Unless a new policy of development is worked out in cooperation between the federal government, the states and the individual owners, a greater part of it will remain unsettled and uncultivated. The undeveloped cutover lands lie chiefly in the Pacific northwest (particularly in Washington and Oregon) in the lake states (Minnesota, Michigan and Wisconsin), and in the south Atlantic and gulf coastal states (Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana and Texas).

Any plan for the development of land for the returning soldier will come face to face with the fact that a new policy will have to meet the new conditions. The era of free or cheap lands in the United States has passed. We must meet the new conditions of developing lands in advance—security must, to a degree, displace speculation. Some of the defects in our old system have been described by Dr. Elwood Mead in these words:

"Science [should] have gone hand in hand with the settlement of the arid and semi-arid country, and all that science could give would have been utilized first, in the creation of the conditions of settlement, and then in aiding the settler in difficult tasks. Because nothing was done these heroic but uninformed souls were bedeviled by the winds, cold, drought, and insect pests. They wasted their efforts, lost their hopes and ambitions and a tragic percentage left, impoverished and embittered. The tragic part of this history is that nearly all this suffering and loss could have been avoided under a carefully thought out plan of development."

There are certain tendencies which we ought to face frankly in our consideration of a policy for land to the homecoming soldier. First, the drift to farm tenancy. The experience of the world shows without question that the happiest people, the best farms and the soundest political conditions are found where the farmer owns the home and the farm lands. The growth of tenancy in America shows an increase of 23 per cent for the twenty years between 1890 and 1910. Second, the drift to urban life. In 1880 of the total population of the United States 29.5 per cent of our people resided in cities and 70.5 per cent in the country. At the census of 1910 46.3 per cent resided in cities and 53.7 per cent remained in the country. It is evident that since the war in Europe there has been a decided increase in the trend toward the city, because of industrial conditions. The adoption by the United States of new policies in its land development plans for returning veterans will also contribute to the amelioration of these two dangers to American life.

A plan of land development, whereby land is developed in large areas, subdivided into individual farms, then sold to actual bona fide farmers on a long time payment basis, has been in force not only in the United States under the reclamation act, but also in many other countries, for several years. It has proved a distinct success. In Denmark, Ireland, New Zealand and the Australian commonwealth it has completely changed the land situation. One of the new features of this plan is that holders are aided in improving and cultivating the farm. In a word, there is organized community development. Its beneficial results have been well described by the Canadian commission which was appointed to investigate its results in New Zealand in these words:

"The farmers have built better houses or remodeled their old ones, brought a larger acreage of land under cultivation that would oth-

erwise be lying idle; have bought and kept better live stock; have bought and used more labor-saving machinery on the farms and in the houses. They keep more sheep and pigs and have so largely increased the revenue from their farms that they are able to meet the payments on the mortgages and to adopt a higher standard of living and a better one. Throughout the country a higher and better civilization is gradually being evolved; the young men and women who are growing up are happy and contented to remain at home on the farm and find ample time and opportunity for recreation and entertainment of a kind more wholesome and elevating than can be obtained in the cities." It may be said that this country outside of Alaska has no frontier to-day. Of course, Alaska will still offer opportunity for a pioneer life. And, of course, Alaska likewise has yet unknown remarkable agricultural possibilities, but unless we make possible the development of this land by the men who desire their life in that field, we will lose a great national opportunity.

This is an immediate duty. It will be too late to plan for these things when the war is over. Our thought now should be given to the problem, and I therefore desire to bring to your mind the wisdom of immediately supplying the interior department with a sufficient fund with which to make the necessary surveys and studies. We should know by the time the war ends not merely how much arid land can be irrigated, nor how much swamp land reclaimed, nor where the grazing land is and how many cattle it will support, nor how much cutover land can be cleared, but we should know with definiteness where it is practicable to begin new irrigation projects, what the character of the land is, what the nature of the improvements needed will be, and what the cost will be. We should know also, not in a general way but with particularity, what definite areas of swamp land may be reclaimed, how they can be drained, what the cost of the drainage will be, what crops they will raise. We should have in mind specific areas of grazing lands, with a knowledge of the cattle which are best adapted to them, and the practicability of supporting a family upon them. So, too, with our cutover lands. We should know what it would cost to pull or "blow out" stumps and to put the lands into condition for a farm home.

All of this should be done upon a definite planning basis. We should think as carefully of each of these projects as George Washington thought of the planning of the city of Washington. We should know what it will cost to buy these lands if they are in private hands. In short, at the conclusion of the war the United States should be able to say to its returned soldiers: "If you wish to go upon a farm, here are a variety of

farms of which you may take your pick, which the government has prepared against the time of your returning." I do not mean by this to carry the implication that we should do any other work now than the work of planning. A very small sum of money put into the hands of men of thought, experience and vision will give us a program which will make us feel entirely confident that we are not to be submerged industrially or otherwise by labor which we will not be able to absorb, or that we would be in a condition where we would show a lack of respect for those who return as heroes, but who will be without means of immediate self-support.

A million or two dollars, if appropriated now, will put this row well under way.

This plan does not contemplate anything like charity to the soldier. He is not to be given a bounty. He is not to be made to feel that he is dependent. On the contrary, he is to continue in a sense in the service of the government. Instead of destroying our enemies, he is to develop our resources.

The work that is to be done, other than the planting, should be done by the soldier himself. The dam or the irrigation project should be built by him; the canals, the ditches, the breaking of the land and the building of the houses should, under proper direction, be his occupation. He should be allowed to make his own home, cared for while he is doing it, and given an interest in the land for which he can pay through a long period of years, perhaps thirty or forty years. This same policy can be carried out as to the other classes of land. So that the soldier on his return would have an opportunity to make a home for himself, to build a home with money which we would advance and which he would repay, and for the repayment we would have abundant security. The farms should not be turned over as the prairies were, unbroken, unfenced, without accommodations for men or animals. There should be prepared homes, all of which can be constructed by the men themselves and paid for by them under a system of simple devising by which modern methods of finance will be applied to their needs.

As I have indicated, this is not a mere Utopian vision. It is, with slight variations, a policy which other countries are pursuing successfully. The plan is simple. I will undertake to present to the congress definite projects for the development of this country through the use of the returned soldier by which the United States, lending its credit, may increase its resources and its population and the happiness of its people with a cost to itself of no more than the few hundred thousand dollars that it will take to study this problem through competent men. This work should not be postponed.

EMPLOYMENT FOR SOLDIERS.

With the co-operation of the national welfare organizations, government agencies interested in demobilization and local community organizations of all kinds, the United States employment service in December, 1918, began establishing a bureau for returning soldiers, sailors and war workers in every city and town in the United States. It also stationed qualified representatives in all army camps and posts in this country to acquaint soldiers with the facilities for assisting them to suitable employment after they leave camp.

The reconstruction program of the employment service aims to link up all national and local efforts, both governmental and private, and centralizes in every community, through these local bureaus, all information as to proper openings in industry, commerce, and agriculture available to the nation's fighters and war workers. It calls for assisting them to the best work the country can give them, the individual's qualifications being considered, and for sending as many men as possible to the farms.

Since most soldiers are expected to go to their home communities—and should be encouraged to do so—the task of aiding them in finding work is primarily a community responsibility, and the local bureaus enable its discharge.

The program was approved and adopted by the secretaries of the war, navy, interior, commerce, agriculture and labor department, sitting as the members of the council of national defense. In the same capacity, these cabinet officials most concerned with demobilization took steps to keep intact the field machinery of the defense council so that it may be utilized by the department of labor and its employment service in carrying out the replacement program. Their action brought to employment service's aid a total of 184,000 local units, among them being the state councils, 4,000 community councils and 16,000 women's organizations.

Representatives of the welfare and other private organizations and the government agencies compose a co-operative central board at

Washington, through which a complete pooling of all efforts to assist soldiers and war workers to employment has been effected. Nathan A. Smyth, assistant director-general of the United States employment service, is chairman. In addition to the welfare organizations, the board includes such bodies as the American council of education, interested in having college students in the camps return to complete their courses; the general staff of the army; the federal board for vocational training, charged with training and placing crippled soldiers; and other agencies.

The following is a description of the purpose and mode of operation of community bureaus for returning soldiers.

I. GENERAL DESCRIPTION.

1. Purpose.

To establish in every community, from the small town to the largest city, a bureau where the returning soldier or sailor may ascertain what employment is open for him.

Many soldiers are returning home; many are going to cities where they are relatively unknown. Wherever they go, it is the duty of the community to see that every possible opportunity is given to them to get jobs—to get the best jobs for which they are qualified. These men gave up their work at the country's call without hesitation. To some of them their old positions remain open; with others such is not the case. Still others have acquired new purpose and strength, and in many cases new skill, which fits them for better work than they had formerly. It is both a national and a community duty to see that as they come back everything is done to enable them to return to their livelihood in the positions where they can do most effective work.

2. Agencies Concerned in Meeting Problem.

In every community there are many bodies such as churches, lodges and local branches of national women's organizations, and such bodies as the Red Cross, Y. M. C. A., National Catholic War Council, Jewish Welfare Board, Salvation Army, American Federation of Labor, the War Camp Community Service, draft boards, and others, which are preparing to find employment for the returning soldiers and sailors. Unless co-ordinated the work of these organizations will overlap, with corresponding loss in efficiency. No one of them alone will be able to get more than partial information as to the available opportunities in the cities and very few will be in touch with possibilities in other communities.

The United States employment service is the official governmental organization charged with the duty of helping secure positions for returning soldiers and sailors, as well as war workers and others. It has community labor boards, composed of one representative of employers, one representative of labor and one representative of the employment service throughout the country, over 1,580 in number. It also has some 850 offices scattered throughout the country and has volunteer agents in other places.

With the approval of the secretaries of war, navy, agriculture, interior, commerce and labor, sitting together as the council of national defense, the United States employment service, with the assistance of the state councils of defense and their community councils, has undertaken to organize in every city and town throughout the country a bureau for returning soldiers and sailors.

The joint telegrams of instructions sent by the employment service and council of national defense on Dec. 2 to their respective state organizations constitute the fundamental basis of the plan thus officially adopted.

3. General Method of Operation.

The returning soldier or sailor may call personally at the bureau, but frequently will call upon some one of the co-operating agencies. It is not necessary that applications for work

by these men should be made at any one particular place.

It is, however, necessary that so far as possible all information as to positions open should be centered in one office and there kept strictly up to date. Such information will thus be a common pool on which all co-operating agencies will be able to draw. Co-operating agencies will register at this central office all opportunities for employment which come to their attention.

Employers should be urged as a patriotic duty to register their opportunities for employment at the central bureau, with specifications as to types and kinds of men wanted and other necessary details. They should keep the bureau informed as such positions are filled or as new jobs are open. The full resources of the bureau will be open without charge to any returning soldier or sailor, regardless of where he first makes application.

The bureau should use all means at its disposal to furnish returning soldiers with correct information as to the various questions that will confront them or direct them to places where such information can be obtained.

4. Returning War Workers.

While designed primarily for soldiers and sailors, in many communities the bureau will care also for those civilians who have left their peace-time jobs to take positions with concerns engaged in doing war work. In many places the facilities of the employment service are sufficient in themselves to care for the civilian workers; in other places it may become a community necessity that the central bureau should be for soldiers and sailors and war workers, so as to give assistance to civilians who have been engaged in war work and who cannot find employment.

II. ORGANIZATION.

1. Central.

The responsibility for administrative control rests with the United States employment service, subject to the directions of the secretary of labor. The employment service has secured the assistance of a co-operating central committee for purposes of establishing general policies and of securing the full joint utilization of all of the available resources of the organizations represented.

In the United States employment service the work is controlled by the director-general of the service, the administrative details being handled by a national superintendent of bureaus for returning soldiers and sailors.

2. In the State.

The administrative unit of the United States employment service is the state, and the work in each state is under the control of the federal director of the United States employment service for the state. Each such director is responsible to the director-general.

In dealing with the local bureaus the director-general of the employment service will act through the federal director of the state, leaving him large administrative discretion to meet the peculiar problems of the state.

Co-operating with the federal director of the employment service for the state, the state council of defense will direct the activities of its community councils in assisting the work of the employment service.

3. In the Local Community.

The management of the bureau in each city or town will be supervised by a board of management, composed of representatives of the community labor board wherever such a board exists and of the community council of defense, of the local branch of each organization represented on the central committee and other local organizations, a representative of labor and other representative citizens. The officers of such a board will be selected by it.

Wherever its size makes it advisable, such board of management should appoint a small executive committee and vest in it such pow-

ers as may be necessary for prompt and effective action.

In charge of each bureau will be a bureau manager, who will be selected by the board of management. Such manager will be sworn into the federal service as a special agent of the United States employment service of the department of labor and will be entitled to the franking privileges of such department and will be subject in the executive details hereafter mentioned to the instructions of the director-general of the employment service and of the federal director of such service for his state.

4. Duties of Boards of Management.

(a) To secure a suitable office and equipment:

The offices of the United States employment service wherever considered suitable are offered for this purpose. Where this is not the case an office should be arranged for at local expense. The duty of the community in returning soldiers justifies the government in seeking it to secure such contribution of rent from local sources.

(b) To provide a bureau manager:

Except in the smaller communities, the bureau manager will have to give practically his whole time to this work for a number of months to come. Any present employe of the employment service considered available by the board of management will on its request be assigned to this work. Where this course is not possible, local arrangements will have to be made to get the proper man and to see that he is properly compensated, if necessary. In some cases the services of paid officers of some of the national organizations interested may be available.

(c) To secure necessary volunteer assistants to the bureau manager:

A very considerable amount of records will have to be kept and much telephoning done in the bureau offices. In some cases it will be impossible for the bureau manager to perform his general executive duties and to attend to these details without assistance. It should be possible to secure competent volunteer assistants in every community.

(d) Finding jobs:

The board of management should bring to the attention of every possible employer in the community that it is his patriotic duty to register all positions which he has open with the bureau, and to notify it promptly when such positions are filled, and to give all further information which may be useful.

(e) Directing applicants to bureau:

The board of management should secure the co-operation of all bodies within the community and bring to the attention of the public through the newspapers, churches, and in every other possible way, the fact that information as to the positions open may be secured from the bureau for returning soldiers and sailors.

(f) Clearance with other communities:

The board of management should assist the United States employment service in securing co-operation with other states and communities, so that men who cannot find jobs for which they are fitted at one place may get prompt information as to possible openings elsewhere.

5. Powers of the Board of Management.

The board of management has the authority requisite to perform the aforesaid duties. The fundamental principle of organization is that as much local responsibility be recognized in the local board of management as is consistent with uniformity of operation in conformity with general principles approved by the central board at Washington and with the operation of each unit as a part of the general clearance system of the United States Employment service.

6. Powers and Duties of the Bureau Manager.

The bureau manager should be in executive control of the office of the local bureau and

should usually be the administrative officer of the board of management. It will be his responsibility to see that the following work is done promptly and effectively in the office:

a. That all opportunities for workers are registered and classified.

b. That such information as to positions is at all times available for any returning soldier or sailor, through whatsoever agency the application of such soldier or sailor may come.

c. That a record be kept of all applications for positions.

d. That the forms of the United States employment service be used (except that similar forms bearing the imprint of the local bureau and of the United States employment service are permissible).

e. That reports of the work of the office are made as required by the federal director of the United States employment service for the state.

f. That every possible assistance be given to every applicant for work.

g. That the work of the bureau be conducted in close co-operation with that of employment service offices in the community.

h. That all applicants be treated with painstaking, intelligent interest, in order that the best service may be given.

In the performance of these executive duties the bureau manager is the agent of the employment service, is entitled to use the department of labor franks and is subject to instructions from the federal director for the state and the director-general at Washington.

III. HOW TO PROCEED TO ORGANIZE BUREAUS.

Where there is a community labor board it will, under instructions from the federal director for the state, proceed at once to invite the co-operation of the community council of defense in calling a meeting of all organizations which are interested in co-operating in the movement. Such meeting should be presided over by the chairman of the community labor board, who will explain the purpose of the organization. At such meeting a representative board of management should be chosen. Conditions vary so in different towns and cities that it is impossible to give any uniform instructions as to who should be represented thereon, except as given above. (See subdivision II, section 3.)

The board of management chosen at such meeting will be called together by the representative thereon of the community labor board, who will act as temporary chairman, leaving it to the board to select its permanent officers and to provide its own form of organization.

Where there is no community labor board arrangements will be made by the federal director of the employment service for the state with the state council of defense to have the community council of defense perform for these purposes the functions of the community labor board.

Work already done in the formation of local board of management, in so far as it is consistent with these instructions, need not be undone. If, however, there is any inconsistency, the work should be so revised as to conform herewith.

IV. OPERATIONS.

The following are extracts from the report adopted by the central committee in Washington relating to co-operation between the government and the associated organizations:

It should be established as the guiding principle of administration:

1. That when and in so far as the bureaus shall be functioning, the separate co-operating agencies should refrain from doing any direct placing, and in that respect should limit themselves to registering the applicants, and either directing them to the headquarters of the bureau or acting as intermediaries between the applicants and the bureau for the purpose of placement.

2. That they should register all opportunities that are brought to their attention with

the bureau, so that it shall be enabled to conduct the clearance.

3. That the United States employment service shall be used to centralize the records and to clear jobs and applications within the community and with other communities.

4. That where the bureau function properly the separate agencies shall not as a general practice seek jobs for individuals unless with the approval of the local board, but shall pool with the bureaus all jobs available, and direct all men who come to them to the bureau to be placed by it.

The bureau manager should maintain a classified file of opportunities available, and of applicants, and should see that all possible channels for obtaining information as to opportunities are made use of and that both files are kept alive and up to date.

He should promptly advise the federal director for the state of opportunities that cannot be filled locally, and also of applicants for work who cannot find it in the locality.

He will receive from the federal director detailed instructions as to the methods and forms for reporting. The main object of such reports will be to show any surplus of men or opportunities; what effect the demobilization of soldiers and war workers is having upon the community and, in general, the number of placements made by the bureau.

It is the intention to have as few reports as possible called for and not in any way to burden the office with this kind of work. In order, however, to have an effective system of clearance of opportunities and men between bureaus it is most essential that these reports be promptly and accurately made.

In the operation of the bureau in places where there is an office of the United States employment service in many cases it may prove desirable to refer returning war workers and others seeking positions as skilled and unskilled workers to such office and limit the placement work at the bureau to special classes of workers such as professional and clerical. The United States employment service has a special clearance section for professional and special men which is in touch with opportunities throughout the country, particularly for engineers and teachers. This section should be communicated with through the federal directors for the states.

Each bureau office should bear a sign reading: "Bureau for returning soldiers and sailors ('and war workers' may be added at the discretion of the committee) conducted by the United States employment service and clearing operating agencies." The board may list the names of the co-operating agencies, should they consider it desirable.

The United States employment service has appointed an agent to be stationed in every demobilization camp who will there be assisted by the camp representative of the affiliated organization. Each such agent will, so far as possible, telegraph the federal director for the state the probable time of arrival

of discharged soldiers as soon as definite information is available.

The federal director will inform the bureaus affected. As far as possible, this information will contain the number of men who have signified their intention to call on the local bureau for assistance and a general statement of the predominating kinds of work desired.

He will mail a card for each man who has signified a desire for assistance, stating the kind of work wanted. These cards should be classified and filed by the manager of the bureau and where possible matched up with available opportunities before the man calls at the bureau, so that on arrival he can be at once referred to a definite opening.

ILLINOIS EMPLOYMENT OFFICES.

State and municipal offices operating under the United States employment service:

- Alton—22 Market street.
- Aurora—Postoffice building.
- Bloomington—320 Greisheim building.
- Cairo—Federal building.
- Centralia—126 North Locust street.
- Chicago—116 North Dearborn street.
- 1435 East 63d street.
- 4531 South Ashland avenue.
- 105 South Jefferson street.
- 948 Milwaukee avenue.
- 4039 South Wabash avenue.
- 2875 West 22d street.
- 56 East Randolph street.
- 9004 Commercial avenue.
- German Aid society, 160 North Wells street.
- 11441 South Michigan avenue.
- 673 South State street.
- State council of defense, 120 West Adams street.
- Odd Fellows' league and relief board, Masonic Temple.
- Masonic employment bureau, Masonic Temple.
- 336 West Madison street (women).
- 29 South LaSalle street (engineering and education).
- 3141 Lincoln avenue.
- Women's employment committee, state council of defense, room 228 Monadnock building.
- 12 South Canal street.
- 616 Blue Island avenue.
- 553 West Madison street (railroad).
- Danville—Chamber of commerce.
- Decatur—119 South Water street.
- East St. Louis—Maine and Division streets.
- Elgin—208 Chicago street.
- Freeport—162 Stephenson street.
- Galesburg—161 South Cherry street.
- Joliet—Scott and Clinton streets.
- Kankakee—160 East Merchant street.
- LaSalle—536 1st street.
- Madison—323 Madison avenue.
- Peoria—512 South Adams street.
- Quincy—Chamber of commerce.
- Rockford—118 North Wyman street.
- Rock Island—1915 4th avenue.
- Springfield—210 North 4th street.
- Waukegan—Schwartz building.

SOME DRAMATIC INCIDENTS OF THE WAR.

In view of the complete defeat of Germany and her allies in the world war it is interesting to recall some of the incidents connected with it which, though in themselves comparatively unimportant, influenced the outcome to a considerable extent by alienating the sympathy of the world from the central empires. Three of these will be told—the "scrap of paper" story, and the executions of Edith Cavell and Capt. Fryatt.

THE "SCRAP OF PAPER" BLUNDER.

Soon after the war began the British government published a number of highly important documents on the diplomatic negotiations immediately preceding the opening of the war. One of the most dramatic of these was the dispatch, or rather report, made by Sir Edward Goschen, British ambassador in Berlin, to Sir Edward Grey, then the British secretary of state for foreign affairs. It told

among other things of his interview with Dr. von Bethmann-Hollweg, in which the then German imperial chancellor spoke of the Belgian treaty as a "scrap of paper." The document is reproduced herewith in full:

London, Aug. 8, 1914.—Sir: In accordance with the instructions contained in your telegram of the 4th instant I called upon the secretary of state that afternoon and inquired in the name of his majesty's government, whether the imperial government would refrain from violating Belgian neutrality. Herr von Jagow at once replied that he was sorry to say that his answer must be "No" as, in consequence of the German troops having crossed the frontier that morning, Belgian neutrality had been already violated. Herr von Jagow again went into the reasons why the imperial government had been obliged to take this step, namely, that they had to advance into France

by the quickest and easiest way, so as to be able to get well ahead with their operations and endeavor to strike some decisive blow as early as possible. It was a matter of life and death for them, as if they had gone by the more southern route they could not have hoped, in view of the paucity of roads and the strength of the fortresses, to have got through without formidable opposition entailing great loss of time. This loss of time would have meant time gained by the Russians for bringing up their troops to the German frontier. Rapidity of action was the great German asset, while that of Russia was an inexhaustible supply of troops. I pointed out to Herr von Jagow that this fait accompli of the violation of the Belgian frontier rendered, as he would readily understand, the situation exceedingly grave, and I asked him whether there was not still time to draw back and avoid possible consequences, which both he and I would deplore. He replied that, for the reasons he had given me, it was now impossible for them to draw back.

During the afternoon I received your further telegram of the same date, and, in compliance with the instructions therein contained, I again proceeded to the imperial foreign office and informed the secretary of state that unless the imperial government could give the assurance by 12 o'clock that night that they would proceed no further with their violation of the Belgian frontier and stop their advance, I had been instructed to demand my passports and inform the imperial government that his majesty's government would have to take all steps in their power to uphold the neutrality of Belgium and the observance of a treaty to which Germany was as much a party as themselves.

Herr von Jagow replied that to his great regret he could give no other answer than that which he had given me earlier in the day, namely, that the safety of the empire rendered it absolutely necessary that the imperial troops should advance through Belgium, and that his excellency a written summary of your telegram, and, pointing out that you had mentioned 12 o'clock as the time when his majesty's government would expect an answer, asked him whether, in view of the terrible consequences which would necessarily ensue, it were not possible even at the last moment that their answer should be reconsidered. He replied that if the time given were even twenty-four hours or more, his answer would be the same. I said that in that case I would have to demand my passports. This interview took place at about 7 o'clock. In a short conversation which ensued Herr von Jagow expressed his poignant regret at the crumbling of his entire policy and that of the chancellor, which had been to make friends with Great Britain and then, through Great Britain, to get closer to France. I said that this sudden end to my work in Berlin was to me also a matter of deep regret and disappointment, but that he must understand that under the circumstances and in view of our engagements, his majesty's government could not possibly have acted otherwise than they had done.

I then said that I should like to go and see the chancellor, as it might be, perhaps, the last time I should have an opportunity of seeing him. He begged me to do so. I found the chancellor very agitated. His excellency at once began a harangue which lasted for about twenty minutes. He said that the step taken by his majesty's government was terrible to a degree—just for a word—"neutrality," a word which in war time had so often been disregarded—just for a scrap of paper Great Britain was going to make war on a kindred nation who desired nothing better than to be friends with her. All his efforts in that direction had been rendered useless by this last terrible step, and the policy to which, as I knew, he had devoted himself since his accession to office had tumbled down like a house of cards. What we had done was unthinkable—it was like striking a man from behind while he was fighting for his life against two assailants. He held

Great Britain responsible for all the terrible events that might happen. I protested strongly against that statement, and said that, in the same way as he and Herr von Jagow wished me to understand that for strategical reasons it was a matter of life and death to Germany to advance through Belgium and violate the latter's neutrality, so I would wish him to understand that it was, so to speak, a matter of "life and death" for the honor of Great Britain that she should keep her solemn engagement to do her utmost to defend Belgium's neutrality if attacked. That solemn compact simply had to be kept, or what confidence could any one have in engagements given by Great Britain in the future? The chancellor said, "But at what price will that compact have been kept? Has the British government thought of that?" I hinted to his excellency as plainly as I could that fear of consequences could hardly be regarded as an excuse for breaking solemn engagements, but his excellency was so excited, so evidently overcome by the news of our action, and so little disposed to hear reason, that I refrained from adding fuel to the flame by further argument. As I was leaving he said that the blow of Great Britain joining Germany's enemies was all the greater that almost up to the last moment he and his government had been working with us and supporting our efforts to maintain peace between Austria and Russia. I said that this was part of the tragedy which the two nations will fall apart just at the moment when the relations between them had been more friendly and cordial than they had been for years. Unfortunately, notwithstanding our efforts to maintain peace between Russia and Austria, the war had spread and had brought us face to face with a situation which, if we held to our engagements, we could not possibly avoid, and which unfortunately entailed our separation from our late fellow workers. He would readily understand that no one regretted this more than I.

After this somewhat painful interview I returned to the embassy and drew up a telegraphic report of what had passed. This telegram was handed in at the central telegraph office a little before 9 p. m. It was accepted by that office, but apparently never dispatched.

At about 9:30 p. m. Herr von Zimmermann, the undersecretary of state, came to see me. After expressing his deep regret that the very friendly official and personal relations between us were about to cease, he asked me casually whether a demand for passports was equivalent to a declaration of war. I said that such an authority on international law as he was known to be must know as well or better than I what was usual in such cases. I added that there were many cases where diplomatic relations had been broken off and, nevertheless, war had not ensued; but that in this case he would have seen from my instructions, of which I had given Herr von Jagow a written summary, that his majesty's government expected an answer to a definite question by 12 o'clock that night and that in default of a satisfactory answer they would be forced to take such steps as their engagements required. Herr Zimmermann said that that was, in fact, a declaration of war, as the imperial government could not possibly give the assurance required either that night or any other night.

In the meantime, after Herr Zimmermann left me, a flying sheet, issued by the Berliner Tageblatt, was circulated, stating that Great Britain had declared war against Germany. The immediate result of this news was the assemblage of an exceedingly excited and unruly mob before his majesty's embassy. The small force of police which had been sent to guard the embassy was soon overpowered, and the attack of the mob became more and more threatening. We took no notice of this demonstration as long as it was confined to noise, but when the crash of glass and the landing of cobblestones into the drawing room, where we were all sitting, warned us that the situation was getting unpleasant, I telephoned to the foreign office an account of what was happening. Herr von Jagow at once informed the chief of police, and an adequate force of mounted police, sent

with great promptness, very soon cleared the street. From that moment on we were well guarded, and no more direct unpleasantness occurred.

After order had been restored Herr von Jagow came to see me and expressed his most heartfelt regrets at what had occurred. He said that the behavior of his countrymen had made him feel more ashamed than he had words to express. It was an indelible stain on the reputation of Berlin. He said that the flying sheet circulated in the streets had not been authorized by the government; in fact, the chancellor had asked him by telephone whether he thought that such a statement should be issued, and he had replied, "Certainly not, until the morning." It was in consequence of his decision to that effect that only a small force of police had been sent to the neighborhood of the embassy, as he had thought that the presence of a large force would inevitably attract attention and perhaps lead to disturbances. It was the "pestifential Tageblatt," which had somehow got hold of the news, that had upset his calculations. He had heard rumors that the mob had been excited to violence by castles made and missiles thrown from the embassy, but that he felt sure that that was not true (I was able soon to assure him that the report had no foundation whatever), and even if it was, it was no excuse for the disgraceful scenes that had taken place. He feared that I would take home with me a sorry impression of Berlin manners in moments of excitement. In fact, no apology could have been more full and complete.

On the following morning Aug. 5, the emperor sent one of his majesty's aides de camp to me with the following message:

"The emperor has charged me to express to your excellency his regret for the occurrences of last night, but to tell you at the same time that you will gather from those occurrences an idea of the feelings of his people respecting the action of Great Britain in joining with other nations against her old allies of Waterloo. His majesty also desires that you will tell the king that he has been proud of the titles of British field marshal and British admiral, but that in consequence of what has occurred he must now at once divest himself of those titles."

I would add that the above message lost none of its acerbity by the manner of its delivery.

On the other hand, I would like to state that I received all through this trying time nothing but courtesy at the hands of Herr von Jagow and the officials at the imperial foreign office. At about 11 o'clock on the same morning Count Wedel handed me my passports, in which I had earlier in the day demanded in writing—and told me that he had been instructed to confer with me as to the route which I should follow for my return to England. He said that he had understood that I preferred the route via the Hook of Holland to that via Copenhagen; they had therefore arranged that I should go by the former route, only I should have to wait till the following morning. I agreed to this, and he said that I might be quite assured that there would be no repetition of the disgraceful scenes of the preceding night, as full precautions would be taken. He added that they were doing all in their power to have a restaurant car attached to the train, but it was rather a difficult matter. He also brought me a charming letter from Herr von Jagow couched in the most friendly terms. Tuesday was passed in packing up such articles as time allowed.

The night passed quietly without any incident. In the morning a strong force of police was posted along the usual route to the Lehrter station, while the embassy was smuggled away in taxicabs to the station by side streets. We there suffered no molestation whatever, and avoided the treatment meted out by the crowd to my Russian and French colleagues. Count Wedel met us at the station to say good-by on behalf of Herr von Jagow and to see that all the arrangements ordered for our

comfort had been properly carried out. A retired colonel of the guards accompanied the train to the Dutch frontier, and was exceedingly kind in his efforts to prevent the great crowds which thronged the platforms at every station where we stopped from insulting us; but beyond the yelling of patriotic songs and a few jeers and insulting gestures we had really nothing to complain of during our tedious journey to the Dutch frontier.

Before closing this long account of our last days in Berlin I should like to place on record and bring to your notice the quite admirable behavior of my staff under the most trying circumstances possible. One and all, they worked night and day with scarcely any rest, and I cannot praise too highly the cheerful zeal with which counselor, naval and military attaches, secretaries, and the two young attaches buckled to their work and kept their nerve with often a yelling mob outside and inside hundreds of British subjects clamoring for advice and assistance. I was proud to have such a staff to work with, and feel most grateful to them all for the invaluable assistance and support, often exposing them to considerable personal risk, which they so readily and cheerfully gave to me.

I should also like to mention the great assistance rendered to us all by my American colleague, Mr. Gerard, and his staff. Undeterred by the hooting and hisses with which he was often greeted by the mob on entering and leaving the embassy, his excellency came repeatedly to see me to ask how he could help us and to make arrangements for the safety of stranded British subjects. He extricated many of these from extremely difficult situations at some personal risk to himself, and his calmness and savoir-faire and his firmness in dealing with the imperial authorities gave full assurance that the protection of British subjects and interests could not have been left in more efficient and able hands.

I have, etc.

W. E. GOSCHEN.

EXECUTION OF MISS EDITH CAVELL.

MISS Edith Cavell, an English woman, head of a training school for nurses in Brussels, Belgium, was arrested there by the Germans Aug. 5, 1915, sentenced to death and executed Oct. 12. The charge against her was that she had harbored fugitive British and French soldiers and Belgians of military age and had assisted them to escape from Belgium in order to join the colors. Miss Cavell was the daughter of an English clergyman, the late Rev. Frederick Cavell, vicar of Swardston, near Norwich. She received her training at the London hospital.

Brand Whitlock, American minister at Brussels, made strong efforts to save Miss Cavell from death, but without avail. Late on the night of Oct. 11, he sent by a messenger the following note to the German governor, Baron von der Lancken:

"My dear Baron: I am too sick to present my request myself, but I appeal to your generosity of heart to support it and save from death this unhappy woman. Her pity on her!

BRAND WHITLOCK."

Minister Whitlock telegraphed Oct. 12, to Ambassador Page in London:

"Miss Cavell was sentenced yesterday and executed at 3 o'clock this morning despite our best efforts, continued until the last moment."

Hugh S. Gibson, secretary of the American legation in Brussels, in a memorandum which was forwarded with Mr. Whitlock's report to London and was published with other documents in the case Oct. 22, in Britain, and generally throughout the world, said that Herr Conrad, an official of the German civil branch, gave positive assurance on the 11th that the American legation would be fully informed of the developments in the case. "Despite these assurances," said Mr. Gibson, "we made repeated inquiries that day, the last one at 6:30 p. m. Mr. Conrad then stated that sentence had not been pronounced and specifically renewed his previous assurances

that he would not fail to inform us as soon as there was any news. At 8:30 it was learned from an outside source that sentence had been passed in the afternoon, before the last conversation with Mr. Conrad, and that the execution would take place during the night."

Mr. Gibson, accompanied by Mr. Delavan, counselor of the American legation, and the Spanish minister to Belgium, went to Baron von der Lancken's headquarters and pleaded earnestly with him for delay in carrying out the sentence. The baron said that the military governor was the supreme authority and that an appeal from his decision could only be carried to the emperor. The military governor in a conference with the baron said he had acted only after mature deliberation and that he considered the death penalty imperative.

Miss Cavell was tried by a court-martial with others accused of the same offense and was shot in the prison of St. Gilles at 2 o'clock in the morning by a squad of soldiers. Those who saw her before and at the time of her execution said that she met her death bravely. She acknowledged at the trial that she had helped soldiers to escape, but there seems to be nothing on record to show that she had been guilty of spying.

In view of all the circumstances and of the fact, announced in Minister Whitlock's report to Ambassador Page, that she had nursed German officers and soldiers, the execution of Miss Cavell aroused much adverse criticism, not only in Great Britain but in neutral countries. Services attended by many distinguished persons were held in St. Paul's cathedral, London, Oct. 29, in memory of the dead nurse and steps were taken to erect a monument in her honor.

Dr. Alfred F. M. Zimmermann, German under-secretary for foreign affairs, issued a long statement, Oct. 24, justifying the execution of Miss Cavell on the ground that she was at the head of "a well thought out world-wide conspiracy to render the most valuable services to the enemy to the disadvantage of our army."

EXECUTION OF CAPT. FRYATT.

Capt. Charles Fryatt, commander of the Great Eastern Railway company's liner *Brussels*, was executed by the Germans in Bruges, Belgium, July 27, 1916, under circumstances which caused his case to be compared with that of Miss Edith Cavell, the British nurse who was executed in Brussels, Belgium, Oct. 12, 1915. The official German account of the affair was as follows:

"On Thursday (July 27), at Bruges, before the court-martial of the marine corps, the trial took place of Capt. Charles Fryatt of the British steamer *Brussels*, which was brought in as a prize. The accused was condemned to death because, although he was not a member of a combatant force, he made an attempt on the afternoon of March 28, 1915, to ram the German submarine "U" 33 near the Maas light-ship. The accused as well as the first officer and the chief engineer of the steamer received at the time from the British admiralty a gold watch as a reward for his brave conduct on that occasion and his action was mentioned with praise in the house of commons.

"On the occasion in question, disregarding the "U" boat's signal to stop and show his national flag, he turned at a critical moment at high speed on the submarine, which escaped the steamer by a few meters only by imme-

diately diving. He confessed that in so doing he had acted in accordance with the instructions of the admiralty. The sentence was confirmed yesterday (Thursday) afternoon and carried out by shooting. One of the many nefarious franc-tireur proceedings of the British merchant marine against our war vessels has thus found a belated but merited expiation."

Though efforts were made by James W. Gerard, American ambassador to Germany, on behalf of the British government to secure a postponement of the trial and to have the captain represented by competent counsel, they were without effect. The ambassador was informed through the German foreign office that no postponement could be granted because the witnesses from the German submarine could not be further detained. He was also informed that a Maj. Neumann, an attorney and justizrath (counselor of justice) in civil life, had been named to defend Capt. Fryatt. Details of the trial and execution were withheld. It was said that the captain was sentenced in the morning and was shot toward afternoon in an open space on the harbor premises.

The *Brussels*, which Capt. Fryatt commanded, had been plying between Harwich and the Hook of Holland carrying passengers across the English channel. It was captured June 23 by German warships and taken to Zeebrugge, the officers and crew being confined at Ruhleben, a civilian internment camp. It did not become known until the middle of July that the captain was to be tried on the charge of attempting to ram a German submarine while he was commander of the steamer *Wrexham*. The British government then sought to secure counsel for him, with the result already noted. Foreign Secretary Grey asked the American ambassador in London, Walter Hines Page, to inform Ambassador Gerard in Berlin that the British government was satisfied that in committing the act impugned Capt. Fryatt acted legitimately in self-defense for the purpose of evading capture or destruction. The secretary's communication to Mr. Page continued:

"His majesty's government considered that the act of a merchant ship in steering for an enemy submarine and forcing it to dive is essentially defensive and precisely the same footing as the use by a defensively armed vessel of its defensive armament in order to resist capture, which both the United States government and his majesty's government hold to be the exercise of an undoubted right."

It was contended by the British authorities that Capt. Fryatt and his subordinate officers, under the terms of the German prize regulations, should have been treated as prisoners of war. German officials, on the other hand, held that under the prize regulations adopted before the war began merchantmen were not entitled to commit acts of war and were liable to be treated as pirates if they attempted to do so.

Great indignation was caused in England and all parts of the empire at the execution of Capt. Fryatt. In the house of commons, July 31, Prime Minister Asquith denounced the execution as an atrocious crime against the law of nations and the usages of war. On Aug. 16, in replying to a question in the house of commons, he said the government was determined that "this country will not tolerate a resumption of diplomatic relations with Germany after the war until reparation is made for the murder of Capt. Fryatt."

POSTAGE ON MAIL BY AIRPLANE.

Postmaster-General Burslen issued on Nov. 30, 1918, the following order effective Dec. 15, 1918:

"Mail carried by airplane shall be charged with postage at the rate of 6 cents an ounce or fraction thereof. Such mail shall consist of matter of the first class, including sealed parcels not exceeding 30 inches in length and girth combined. The postage on airplane

mail shall be fully prepaid with special airplane postage stamps or with ordinary postage stamps; when the latter are used mail should be indorsed: 'By airplane.' Airplane mail bearing, in addition to the regular postage, a special-delivery stamp or its equivalent in ordinary postage stamps shall be given special delivery service; when the latter are used the mail should be indorsed 'Special delivery.'"

CHICAGO AND THE WORLD WAR.

Following is a chronological resume of the chief events in Chicago in 1917 and 1918 having direct connection with the world struggle:

1917.

- Jan. 11-20—Allied bazaar in Coliseum nets \$535,-898.28 for war relief.
- April 27—Conference of Illinois mayors adopts resolutions urging all communities to increase garden and farm products.
- April 28—City council, Gov. Lowden and citizens in mass meeting extend cordial invitation to Joffre-Viviani mission to visit Chicago and the state; Mayor William Hale Thompson's refusal to extend invitation in the name of the city severely criticized.
- April 28—Theodore Roosevelt makes two war speeches, one at a luncheon at the Hotel La Salle and another at a mass meeting in the stockyards pavilion under the auspices of the National Security League.
- April 30—Northwestern university hospital unit No. 12 gets orders to get ready to leave for the east.
- May 3—James W. Gerard, former ambassador to Germany, makes war speech before the Chicago Bar association.
- May 4—French war mission, headed by Marshal Joffre and Rene Viviani, receives enthusiastic welcome; mass meeting in Auditorium.
- May 5—Military parade in honor of French mission.
- May 5—Lord Cunliffe, governor of the Bank of England, visits city on financial mission; given banquet by federal bank reserve officials.
- May 9—Recruiting of railway men for engineer regiment rushed; committee formed to urge military training by citizens; women's committee of Illinois state council of defense formed in Chicago.
- May 12—State council of defense urges congress to enact law for rigid control of basic commodities.
- May 14—Speculation in wheat futures temporarily barred by board of trade.
- May 16—Base hospital unit No. 12 leaves for France.
- May 17—Plans for using the municipal pier as barracks for 3d reserve engineers' regiment announced.
- May 18—National guard regiments get orders to recruit to full war strength at once; committee named to supervise conscription registration in Chicago.
- May 20—Chicago Jews raise \$500,000 for war relief; instructions to prepare for active service received by 1st regiment, I. N. G.
- May 21—Italian war mission invited to Chicago; British labor commission arrives.
- May 23—Washington orders 1st Illinois cavalry to be converted into an artillery regiment.
- May 26—Peace meeting held in Auditorium; anti-peace riot in Grant park.
- May 29—Military parade for benefit of liberty loan.
- May 30—John Philip Sousa enlists to take charge of band at Great Lakes naval training station.
- May 31—First regiment in training camp at Cicero.
- June 3—Polish demonstration of loyalty to the United States held at Kosciuszko monument in Humboldt park.
- June 5—Registration for national army takes place; exemption districts fixed; Former President Taft speaks at Auditorium.
- June 11—City council passes loyalty resolution.
- June 17—Italian war mission arrives in Chicago.
- June 18—Red Cross campaign for war fund begun; Senator Guglielmo Marconi speaks at banquet given in honor of Italian war mission; Russian war mission makes brief halt in Chicago.
- June 26—Chicago's contribution to Red Cross fund exceeds \$5,000,000.
- July 2—Belgian war mission visits Chicago.
- July 3—Banquet given Belgian mission.
- July 14—Exemption boards complete preliminary work.
- July 20—Draft day.
- July 21—Chicago's regiment of engineers leaves for the east.
- July 22—Forty-eighth Canadian highlanders parade in loop district.
- July 23—Chicago's net quota for the first national army announced as 24,982.
- July 25—Remainder of Chicago national guard regiments mobilized for war service; 2d field artillery goes into camp at the foot of Chicago avenue; draft appeal boards announced.
- July 26—Maas meeting at Coliseum; allied parade in downtown district.
- Aug. 1—Local exemption boards begin work.
- Aug. 3—Warm welcome given to Russian commission.
- Aug. 4—Great parade in honor of Chicago's men chosen for the national army; mass meeting in honor of Russian commissioners.
- Aug. 5—Chicago Poles protest against German atrocities.
- Aug. 15—Advance guard from 2d and 7th infantry leave for training camp at Houston, Tex.
- Aug. 23—Chicago's draft quota filled.
- Aug. 25—Dealing in futures closed by board of trade for the duration of the war.
- Aug. 27—Appeal board certifies first 3,000 for national army.
- Aug. 28—First regiment goes to Camp Grant at Rockford.
- Aug. 29—Detachment of the 149th field artillery (formerly 1st Illinois cavalry) leaves for the east; Harry A. Wheeler becomes state food administrator; farewell ceremony in Grant park for 2d infantry.
- Aug. 31—Good-by said to the 8th regiment.
- Sept. 2—Mayor Thompson permits pacifist meeting in Chicago in defiance of Gov. Lowden.
- Sept. 4—All Chicago regiments ordered south; first 250 national army men leave for Rockford.
- Sept. 5—The 149th field artillery arrives at Camp Mills, Garden City, L.
- Sept. 6—Second field artillery leaves for Camp Logan, Tex.
- Sept. 10—Second Illinois infantry leaves for Houston, Tex.
- Sept. 12—Hospital units leave camp in Grant park for the south.
- Sept. 14—Great patriotic mass meeting in Coliseum addressed by Ellhu Root and Samuel Gompers.
- Sept. 19—Mayor Thompson proclaims city's loyalty.
- Sept. 20—Chicago sends 2,000 more men to Camp Grant.
- Sept. 24—Chicago opens drive for soldiers' libraries; memorial services held for Paul Cody Bentley, a Chicago ambulance man killed in France.
- Sept. 29—Seventh regiment leaves for Houston, Tex.
- Oct. 1—First regiment leaves Camp Grant for Houston, Tex.; second liberty loan campaign begun in Chicago.
- Oct. 2—Secretary William G. McAadoo speaks on liberty loan in Orchestra hall.
- Oct. 10—Swiss food commission arrives.
- Oct. 12—Eighth infantry (colored) leaves for Houston, Tex.
- Oct. 13—Former President Taft speaks for liberty loan at Coliseum; John E. Williams appointed Illinois fuel administrator.
- Oct. 14—Dr. Newell Dwight Hillis speaks to 5,000 in Auditorium on German atrocities.
- Oct. 16—City council rebukes mayor for peace meeting.
- Oct. 17—Detachment of 13th battalion of Canadian Black Watch visits Chicago; attends patriotic rally in 2d regiment armory.
- Oct. 18—Black Watch given ovation at patriotic rally in the White City.
- Oct. 21—Wheatless and meatless days announced; great patriotic demonstration in Grant park and in Auditorium.
- Oct. 22—Secretary Daniels of the navy department visits Chicago and makes several speeches; James W. Gerard speaks to great meeting in Mcdinah temple.
- Oct. 24—Lord Northcliffe, head of British war

commission, visits Chicago and speaks at a banquet, first "wheatless" day observed; liberty loan parade; Chicago adds \$50,000,000 to second liberty loan.
 Oct. 27—Chicago passes its maximum quota of \$180,000,000 for liberty loan.
 Oct. 29—Chicago's subscription to liberty loan averages \$80 per capita.
 Nov. 25—Loyalty mass meeting held in Medinah temple.

1918.

Jan. 11—Coal supply limited by Illinois fuel administrator
 Jan. 18—Factories shut down in response to order from Fuel Administrator Garfield.
 Jan. 21—First fuelless Monday.
 Feb. 4—Registration of German aliens begins.
 March 3—Chicago Russians oppose Japanese move in Siberia.
 March 4—Work on new \$3,000,000 U. S. warehouse begun.
 March 9—Chicago made division center of ordnance department.
 March 19—Capt. Roald Amundsen lectures on his visit to American front in France.
 March 19—University of Chicago rescinds honorary degree conferred on Count von Bernstorff.
 April 2—Parade of boy farm workers.
 April 6—Drive for third liberty loan begins; military parade.
 April 10—Secretary of the Navy Josephus Daniels speaks in stockyards for liberty loan.
 April 11—Lord Reading speaks at Auditorium.
 April 16—Name of Bismarck school ordered changed.
 April 20—Labor unions in liberty loan parade.
 April 21—Italian parade in aid of liberty loan.
 April 26—Liberty day parade.
 May 5—Prof. Masaryk of Czecho-Slovak revolutionary committee honored by Chicago Bohemians in parade.
 May 11—War savings pledge week opened.
 May 18—Red Cross war campaign opened.
 May 26—Detachment of Belgian veterans parade in loop.
 May 29—Famous French veterans, the "Blue Devils," welcomed in Chicago.

June 5—Registration under selective draft of Chicagoans reaching age of 21 in last year.
 July 4—Secretary of War Baker speaks at Auditorium.
 July 11—City searched for "slackers."
 July 14—French Bastille day observed.
 July 20—Belgian independence day celebrated.
 Aug. 8—Gen. Pau and French mission to Australia entertained at dinner.
 Aug. 24—Pershing patriot honor roll closes with 1,000,000 names.
 Sept. 1—First gasless (automobile) Sunday.
 Sept. 2—Government war exposition opens in Grant park.
 Sept. 4—Bomb explosion at postoffice.
 Sept. 12—Registration of men from 18 to 45 for army.
 Sept. 25—Soldiers of French foreign legion honored.
 Sept. 28—Fourth liberty loan drive begins.
 Oct. 9—Italian bersaglieri veterans feted.
 Oct. 12—Great liberty loan parade held.
 Oct. 19—Bohemians celebrate recognition of Czecho-Slovak state.
 Nov. 7—Premature celebration of peace.
 Nov. 8—Visit of British educational mission.
 Nov. 11—Peace celebration.
 Nov. 22—Victory meeting at Auditorium.

CHICAGO'S WAR EFFORT.

In all branches of war work Chicago went "over the top" in 1918. No adequate statement of what was accomplished by the city can yet be made as the books at this writing (December, 1918) are not yet closed. Elsewhere in this volume will be found some details as to the work of the local chapter of the Red Cross; other activities are indicated in the foregoing chronology. Chicago contributed liberally in work and money, but she did more. She gave of her best blood, as did other American communities, to win the war against Prussianism. A partial list of Chicago men who laid down their lives on the battle fields of France is given on another page; it is not a short list. When the complete roll of honor is printed it will be one of which Chicago may well be proud for all time to come.

TROOPS ENGAGED IN UNITED STATES WARS.

Military and naval forces employed by the government since 1775 up to the time of the

		European war.			
War.	Date.	Total.	War.	Date.	Total.
Revolution	1775-83	309,791	Cayuse Indian (Ore.)	1848	1,116
Northwestern Indian	1790-95	8,983	Texas Indian	1849-56	2,263
France	1798-1800	4,593	Apache (Utah)	1849-55	4,541
Tripoli	1801-05	3,330	California Indian	1849-55	265
Indian (Harrison)	1811-13	910	Utah Indian	1851-53	540
War of 1812	1812-15	576,622	Oregon, Washington Indian	1851-56	5,145
Creek Indian	1813-14	13,781	Comanche	1854	503
Seminole	1817-18	6,911	Seminole	1855-58	2,687
Winnebago (Wis.)	1827	1,416	Civil war	1861-66	2,778,304
Sac and Fox (Ill.)	1831	6,465	Spanish-American	1898-99	312,523
Black Hawk	1832	6,465	Philippine	1898-1902	104,038
Cherokee removal	1833-39	9,494	Pekin (China) expedition	1900-01	6,913
Seminole (Fla.)	1835-42	41,122	Total		4,371,839
Sabine Indian	1836-37	4,429			
Creek (Fla.)	1836-37	13,418			
"Patriot" (frontier)	1838-39	1,500			
Seminole (Fla.)	1842-58			
Mexico	1846-48	112,230			

The total in this table includes re-enlistments. The total number of individuals is estimated at 3,304,993, of whom 2,213,363 served in the civil war.

HEAD OF FAMILY DEFINED.

In collecting income taxes the exact meaning of the term "head of a family" became the subject of some controversy, and in April, 1918, the commissioner of internal revenue rendered a decision in which he said:

"A head of a family is a person who actually supports and maintains one or more of the individuals described in paragraph 153 of the regulations in one household. In the absence of continuous actual residence together, whether or not a person with dependents is a head of a family within the meaning of the statute, must depend on the character of the separation. If a child or other dependent is away only temporarily at school or on a visit, the common home being still maintained,

the additional exemption applies. If, however, the dependent continuously makes his home elsewhere his benefactor is not the head of a family, irrespective of the question of support."

Paragraph 153 of the income tax regulations referred to by the commissioner reads: "A head of a family is a person who actually supports and maintains one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, and whose right to exercise family control and provide for these dependent individuals is based upon some moral or legal obligation."

INDEPENDENCE DAY FOR ALL PEOPLES.

On July 4, 1918, the following Independence day message written by President Wilson was read by "four minute" men to patriotic gatherings in 5,300 communities in every part of the United States:

You are met, my fellow citizens, to commemorate the signing of that declaration of independence which marked the awakening of a new spirit in the lives of nations. Since the birth of our republic we have seen this spirit grow. We have heard the demand and watched the struggle for self-government spread and triumph among many peoples. We have come to regard the right to political liberty as the common right of humankind. Year after year, within the security of our borders, we have continued to rejoice in the peaceful increase of freedom and democracy throughout the world. And yet now, suddenly, we are confronted with a menace which endangers everything that we have won and everything that the world has won.

In all its old insolence, with all its ancient cruelty and injustice, military autocracy has again armed itself against the pacific hopes of men. Having suppressed self-government among its own people by an organization maintained in part by falsehood and treachery, it has set out to impose its will upon its neighbors and upon us. One by one it has compelled every civilized nation in the world either to forego its aspirations or to declare war in their defense. We find ourselves fighting again for our national existence. We are face to face with the necessity of asserting anew the fundamental right of free men to make their own laws and choose their own allegiance, or else permit humanity to become the victim of a ruthless ambition that is determined to destroy what it cannot master.

Against its threat the liberty loving people of the world have risen and allied themselves. No fear has deterred them and no bribe of material well-being has held them back. They have made sacrifices such as the world has never known before, and their resistance in the face of death and suffering has proved that the aim which animates the German effort can never hope to rule the spirit of mankind. Against the horror of military conquest, against the emptiness of living in mere bodily contentment, against the desolation of becoming part of a state that knows neither truth nor honor, the world has so revolted that even people long dominated and suppressed by force have now begun to stir and arm themselves.

Centuries of subjugation have not destroyed the racial aspirations of the many distinct peoples of eastern Europe, nor have they accepted the sordid ideals of their political and military masters. They have survived the slow persecutions of peace as well as the agonies of war and now demand recognition for their just claims to autonomy and self-government. Representatives of these races are with you to-day voicing their loyalty to our ideals and offering their services in the common cause. I ask you, fellow citizens, to unite with them in making this our Independence day the first that shall be consecrated to a declaration of independence for all the peoples of the world.

Worldwide Celebration of July 4.

Newspaper dispatches chronicled briefly the fact that America's Independence day was celebrated at various places throughout the world, not by a few American citizens as in previous years, but by the native populations and officials. The state department was advised of many of these celebrations in telegrams, some of which are here reproduced as summarized by the department.

The flag of the United States flew with that of Great Britain over Buckingham palace, the government offices and the houses of parliament, as well as over great numbers of private buildings. This manifestation was quite general and not typical of London alone. At the Central hall, Westminster, there was held dur-

ing the morning a large Anglo-Saxon fellowship meeting. The bishop of London opened the ceremonies and the speakers included Winston Churchill, and for the United States Admiral Sims, Gen. Biddle and G. H. Putnam.

In the afternoon King George and Queen Alexandra and other members of the royal family, including the duke of Connaught, attended a baseball game between army and navy teams. The game was played at the Chelsea football grounds.

The charge d'affaires adds that the evidence of popular friendly understanding between the two countries has raised the spirits of everybody, and that the timely and encouraging announcements from America have been very helpful.

Holiday in Italy.

A telegram from Rome stated that the day was proclaimed a public holiday in honor of the United States throughout Italy, and from reports received was enthusiastically celebrated everywhere. The embassy was the recipient of some 500 telegrams and letters of congratulation and fraternity from municipalities, public bodies and individuals.

At Rome the ovation could not have been more universal, enthusiastic and impressive. Thousands of people waving American flags assembled during the afternoon along the route between the American embassy and the Victor Emmanuel monument. In the historic Piazza Venetia, before the steps leading up to the Victor Emmanuel monument, notable addresses were made in the presence of a most distinguished gathering of ministers, senators, deputies and other high civil and military officials. The entire diplomatic corps was present, including the British ambassador and staff. Speeches, cordial and patriotic, were made by the mayor of Rome, Prince Colonna, and by Leonida Bissolati, ex-minister and former leader of the socialists. He spoke at length with great eloquence, and his speech, which was most eulogistic, attracted great attention. Others who spoke were Senator Cotillo of New York; ex-Minister Ruffini; Maj. Byrne of the American Red Cross, and Capt. Derode. After this ceremony there was a procession of patriotic societies with their banners up the wide Via Nazionale, profusely decorated with American, Italian and ally flags, to the American embassy. Here an informal reception was held, many of the highest civil and military authorities being present. Addresses were delivered from the balcony of the chancellery of the embassy by Deputy Barzilai and the American ambassador, who spoke in Italian to the immense crowd which packed the square below.

It is generally believed that there has never been at Rome a more enthusiastic or larger popular demonstration. It is estimated that 100,000 people took part in it. Similar ovations occurred in the principal cities of Italy. The small body of wounded soldiers who had come from the front in France attracted great attention.

Ambassador Thomas Nelson Page adds: "No manifestation which I have ever seen in Italy has ever made a deeper impression on me."

Celebration by Belgians.

Following is a report of the celebration of the Fourth of July from Mr. Whitlock at Havre:

Most touching demonstrations were made on the Fourth of July by the Belgian government and Belgian citizens. A beautiful and affecting ceremony was held in the morning, when Belgian troops, commanded by Gen. Der Ute, saluted our flag with many spontaneous acclamations of the president and the navy. All the Belgian ministers, members of the diplomatic corps and the officers commanding the Belgian, French, British, Portuguese and American bases in Havre were present. I received an eloquent telegram from the minister of war, who is at the front. The president's portrait was displayed in all the schools and

Lincoln's Gettysburg address was read to the school children. Addresses were presented at the reception by delegations representing refugees and several Belgian societies.

Tribute in Chile.

A telegram from the American embassy at Santiago, Chile, said that all the newspapers on July 4 commented enthusiastically on American Independence day. *La Nacion* said that the United States to-day was at the height of its greatness, and shows that it continues to increase in the huge proportions characteristic of American enterprise.

Mercurio said that this Fourth of July could be appreciated even more keenly in the midst of a war wherein the United States was straining every effort to secure a world peace, a real peace which right and not force will dictate. In the midst of extraordinary times not only can the United States be great in industry, commerce and science, but she knows how to take up arms and fight honorably for great ideals of liberty and right. South American nations are proud to-day, the paper said, of their great sister and fervently pray that her glories in war and her economic successes may be great.

The *Diario* said that if the state of war and conditions of peace are in favor of the entente it will be due to the strength of the United States, which is being felt in spite of distance. What is most interesting in the role of the United States is that they enter a conflict without seeking to satisfy their own ambitions and with ideals like that of a league of nations, to insure future peace.

In Brazil.

A telegram from the department of state from the American ambassador at Rio de Janeiro says that Independence day was being commemorated as a national holiday in Brazil. There was much popular enthusiasm. The streets were decorated and there was a parade of Brazilian naval, military, and volunteer forces during the afternoon and a popular torchlight procession in the evening. All of the newspapers published sympathetic articles appreciative of President Wilson and America's disinterested fight for democracy.

The American colony held a religious service on the evening of July 3 and a patriotic celebration on the Fourth, to which all their friends were invited. Addresses were delivered by Bishop Lucien Kinsolving and others.

Celebration at Algiers.

A telegram from the American consul at Algiers said that a parade and a most enthusiastic demonstration by the civil and military establishments in honor of the United States took place on the evening of July 3 before the American consulate. It was a unique occurrence in the history of the city. The Fourth was a complete holiday. A review of troops took place in the forenoon, with official visits from colonial, municipal and other authorities to the consulate. There were other festivities throughout the day and evening. Arches, a statue of Liberty and other elaborate decorations were erected. The consul states that the celebration constituted an unprecedented homage to a foreign nation.

The American consul at St. Pierre, Martinique, said that there are no Americans there, but that Fourth of July would be celebrated by the French colonists and the colonial government as a national fete.

Observed at Saltillo, Mexico.

The Allied club at Saltillo, Mexico, sent the following telegram to the American consul at Piedras Negras:

"All business houses with the exception of German closed to-day in honor of your country. Accept our congratulations."

Telegram from Brisbane.

A consular telegram to the department of state says that the mayor and council of Brisbane requested the transmission of the follow-

ing cablegram to the president of the United States:

"On this the national day of the United States of America, the mayor and aldermen of the city of Brisbane, the metropolis of Queensland, for and on behalf of the citizens, tender their felicitations to the people of the United States of America on their 142 years of free and independent government and express their appreciation of the wholehearted manner in which the United States of America have entered upon and, in conjunction with Great Britain and her allies, are prosecuting the war against the enemies of liberty, freedom and justice."

Roumanian Colony at Paris.

The American ambassador at Paris reported that representatives of the Roumanian colony of Paris called upon him on July 3, stating that in a desire to participate in the great manifestation of friendship and admiration which is taking place in France on the Fourth of July, they send to the president the following message:

"To His Excellency President Woodrow Wilson: The Roumanian colony of Paris have the honor to present to you their respectful homage on the occasion of the national fete of liberty. They express the most ardent hopes for the victory of the armies of the great American democracy who are fighting so generously and with such noble valor for the cause of liberty for all oppressed peoples."

Holiday at Tunis.

A consular telegram from Tunis says that the Fourth of July was enthusiastically celebrated publicly and privately throughout the regency. A holiday was proclaimed. The city of Tunis was dressed with flags and there was a review and speeches. At night there was a torchlight procession of troops with music.

Celebration at Havre, France.

The American consul at Havre sent the following telegram to the department of state: "The authorities and inhabitants of Havre and the entire region honored the United States by a most enthusiastic and impressive celebration of Independence day."

"The municipal council of Havre passed cordial resolutions, which were delivered to me on the Fourth by Mayor Morgand, at a brilliant ceremony at the hotel de ville, attended by distinguished representatives of all the allied governments."

A consular telegram to the department of state from Dakar says that Independence day was gloriously celebrated by all the French in West Africa.

The American consul at Swansea sent the following text of a resolution adopted by the Swansea chamber of commerce:

"That this meeting of members of the Swansea chamber of commerce, on Independence day, July 4, tenders to Mr. Moorhead, the United States consul at Swansea, and through him to President Wilson and the people of America, the expression of their heartiest greetings and felicitations and their admiration of the wholeheartedness that America has demonstrated in the fight for liberty and justice, expressing also their full confidence in the complete success of the allied cause." The mayor of Swansea issued proclamations calling on all citizens to decorate buildings with American flags.

Exchange of Messages.

The department of state made public the following exchanges of telegrams:

From the President of France to the President of the United States.

"Paris, July 3, 1918.—His Excellency Woodrow Wilson, President of the Republic of the United States of America, Washington:

"The government of the republic, at one with all the national representatives and the whole country, ordained that to-morrow, the Independence day of the United States, shall also be a French holiday. Paris will give your

glorious name to one of its handsomest avenues and acclaim to the skies the parade of the valiant American soldiers. In every department, in every town, large and small, these manifestations of fraternity will be echoed. Two peoples in communion of thought will, one and all, remember the fights of old that won liberty for America and hope for the forthcoming victories which will secure for the world a just and fruitful peace based on the law of nations and fortified by the approval of human conscience. Permit me, Mr. President, cordially to extend to you on the eve of that great day of union and concord the wishes and felicitations of France for the United States and yourself.

"RAYMOND POINCARÉ."

From the President of the United States to the President of France.

"The White House, July 6, 1918.—His Excellency Raymond Poincaré, President of the Republic, Paris: With a full heart I welcome your message of congratulation upon the American day of independence. It is fitting that this glorious anniversary should witness the fraternity of free peoples in the cause of national self-determination. The happy fruits of the ancient association of our lands in the common cause of liberty is to-day fitly seen in the union of our countries in the splendid task of upholding their rights in the face of barbaric aggression. My countrymen are alike gratified and filled with pride at the tribute of brotherly affection which the French people are offering them so generously as every point of intercourse. I most hopefully reciprocate your prayerful wish that this may all prestage the ultimate triumph of the rights of France and America not only, but also the rights of humanity.

"WOODROW WILSON."

From the King of the Belgians to the President of the United States.

"Dr. Woodrow Wilson, President of the United States of America, Washington: On the occasion of the memorable anniversary occurring on the Fourth of July, I wish to thank once more the great American nation for its untiring efforts toward ameliorating the unfortunate condition of my fellow countrymen and to express to it my admiration for the bravery displayed by its great army on the battle fields of France. Be pleased, Mr. President, to accept the cordial wishes I make for the greatness and prosperity of the United States of America. ALBERT."

From the President of the United States to the King of the Belgians.

"The White House, July 6, 1918.—His Majesty Albert, King of the Belgians: Your message is very welcome to the American government and people. It comes at a time when the seeds of nationwide compassion have yielded the ripe harvest of brotherly union in the common cause of defending the freedom and the right of human communities to live for themselves and shape their own destinies. May the clouds that overshadow our countries soon pass away, and the sun of world righteousness arise, spreading its healing beams over the enfranchised lands and peoples of the earth. To this the liberty loving world is dedicating its noblest efforts without stint or reservation, and may God defend the right.

"WOODROW WILSON."

From the President of Cuba to the President of the United States.

"Habana, July 3, 1918.—The Hon. Woodrow Wilson, President of the United States, Washington, D. C.: I send to your excellency my most cordial congratulations on the occasion of the Fourth of July, always a glorious day for all the free peoples, but now more revered than ever for its significance in the supreme conflict which is to decide the future of liberty and democracy in the world. I take pleasure in informing your excellency that it has afforded me patriotic satisfaction to ap-

prove the law enacted by the congress which makes the Fourth of July a holiday in Cuba.

"M. G. MENOICAL,
President of the Republic of Cuba."

From the President of the United States to the President of Cuba.

"The White House, July 6, 1918.—His Excellency M. G. Menocal, President of Cuba, Habana: I thank your excellency most sincerely for your highly appreciated Fourth of July message and ask you to be so good as to make known to the government and people of Cuba the high appreciation of the government and people of the United States of Cuba's fraternal and complimentary action in making our Independence day a holiday in Cuba. I need not assure you that the people and government of the United States have the welfare and happiness of the people of Cuba deeply at heart.

WOODROW WILSON."

From the President of Brazil to the President of the United States.

"Rio, July 4, 1918.—To His Excellency Mr. Woodrow Wilson, President of the Republic, Washington: Brazil joins in the American people's rejoicing over the glorious date of their political emancipation which your excellency greatly enhanced by bringing the United States into this war to decide the destinies of the world. So strong and so suggestive is the expression of its military power exclusively devoted to the moral and political equipoise of the nations and so disinterested are the purposes of its intervention in Europe, valuing right higher than peace, that this is the day of all the free peoples, who, looking forward to the future in great confidence, pray to God for the happiness of the United States.

"Maximiliano be pleased to accept the enthusiastic congratulations of the government and people of Brazil.

"WENCESLAU BRAZ."

From the President of the United States to the President of Brazil.

"The White House, July 8, 1918.—His Excellency Wenceslau Braz, President of Brazil: Allow me to express my very warm and cordial thanks for your generous message of the Fourth of July. It is a subject of peculiar gratification to the people of the United States that the people of Brazil should have come to their sides in this great and final struggle for the rights of free peoples. They are happy that such additional bonds of friendship and common purpose should unite them with neighbors whom they so highly respect and so sincerely admire, and I am sure that I am speaking for them in assuring your excellency of their deep satisfaction at being accounted the close friends and associates of the Brazilian republic.

WOODROW WILSON."

From the President of Mexico to the President of the United States.

"Mexico, July 4, 1918.—The Most Excellent Woodrow Wilson, President of the United States of America, Washington: I take great pleasure in sending to your excellency and to the American people on the occasion of the glorious anniversary celebrated on this day the most cordial felicitations of the Mexican people and government. I am glad the same time to express to your excellency my most sincere and fervent wishes for the prosperity of the United States and for the very early advent of the everlasting reign of peace and justice in both continents.

"V. CARRANZA."

From President Wilson to the President of Mexico.

"The White House, July 8, 1918.—His Excellency Venustiano Carranza, President of Mexico: In response to your generous telegram of greeting and good will, may I not express to you the sincere friendship of the people and government of the United States, their earnest desire that the bonds of association and mutual helpfulness between the two countries may

be drawn closer and closer, and their confident hope that as the friendship of the two countries ripens their common championship of political freedom may become more and more effective.

WOODROW WILSON."

From the President of Bolivia to President Wilson.

"La Paz, July 4, 1918.—The Most Excellent Mr. Woodrow Wilson, President of the United States, Washington: I have the honor to extend to your excellency my most cordial compliments on the occasion of your country's glorious anniversary. The government over which I preside, expressing the sentiments of the Bolivian people, has desired to demonstrate its special sympathies with the great nation over whose destinies your excellency so wisely presides.

Accept once more the wishes I make for the triumph of the cause so valorously upheld by the United States and its allies together with my earnest wishes for your excellency's personal happiness.

"JOSE GUTIERREZ GUERRA,
"President of Bolivia."

From President Wilson to the President of Bolivia.

"The White House, July 8, 1918.—His Excellency Jose G. Guerra, President of Bolivia, La Paz, Bolivia: I thank your excellency and the Bolivian government for your cordial felicitations on the anniversary of the independ-

ence of the United States of America and assure you that the sympathy expressed by those governments friendly to the United States and their well wishes for the triumph of the great cause of humanity serve much to lighten the burden and hearten the will to achieve success. I extend my own best wishes for your excellency's future happiness and well-being and a glorious future for Bolivia.

"WOODROW WILSON."

To the President from the President of Nicaragua.

"Managua, July 4, 1918.—President Woodrow Wilson: Nicaragua celebrates as a national holiday this happy anniversary of the day on which the virile patriots of the United States founded the great nation which is now fighting to establish democracy throughout the world. EMILIANO CHAMORRO, President."

From the President to the President of Nicaragua.

"The White House, July 8, 1918.—His Excellency Emiliano Chamorro, President of Nicaragua, Managua: I beg to express to your excellency in my own name and on behalf of my countrymen sincere appreciation of the action of your government in recognizing Independence day as a national holiday of Nicaragua, and to express the earnest hope that the goal of an early victory for world democracy will soon be reached.

"WOODROW WILSON."

THE AMERICAN DECLARATION OF INDEPENDENCE.

The unanimous declaration of the thirteen United States of America, in congress, July 4, 1776.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident: That all men are created equal; that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government and to provide new guards for their future security. Such has been the patient suffering of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute tyranny over these states. To prove this, let facts be submitted to a candid world.

He has refused his assent to laws, the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operation till his assent should be obtained, and, when so suspended, he has utterly neglected to attend to them.

He has refused to pass other laws for the

accommodation of large districts of people, unless those people would relinquish the right of representation in the legislature—a right inestimable to them and formidable to tyrants only.

He has called together legislative bodies, at places unusual, uncomfortable and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time after such dissolutions to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining, in the meantime, exposed to all the dangers of invasion from without and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws for naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new appropriations of lands.

He has obstructed the administration of justice by refusing his assent to laws for establishing his judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies without the consent of our legislatures.

He has affected to render the military independent of and superior to the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitutions and unacknowledged by our laws, giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops among us;

For protecting them by a mock trial from punishment for any murders which they should commit on the inhabitants of these states;

For cutting off our trade with all parts of the world;

For imposing taxes on us without our consent;

For depriving us in many cases of the benefits of trial by jury;

For transporting us beyond seas to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws and altering fundamentally the forms of our governments;

For suspending our own legislatures and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here by declaring us out of his protection and waging war against us.

He has plundered our seas, ravaged our coasts, burnt our towns and destroyed the lives of our people.

He is at this time transporting large armies of foreign mercenaries to complete the work of death, desolation and tyranny already begun, with circumstances of cruelty and perfidy scarcely paralleled in the most barbarous ages and totally unworthy the head of a civilized nation.

He has constrained our fellow citizens taken captive upon the high seas to bear arms against their country, to become the executioners of their friends and brethren or to fall themselves by their hands.

He has excited domestic insurrection amongst us, and has endeavored to bring on the inhospitable and our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

In every stage of these oppressions we have petitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attention to our British brethren. We have warned them from time to time, of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war; in peace, friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly publish and declare that these united colonies are, and of right ought to be, free and independent states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved; and that as free and independent states they have full power to levy war, conclude peace, contract alliances, establish commerce and to do all other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.

The foregoing declaration was, by order of congress, engrossed and signed by the following members:

New Hampshire:	JOHN HANCOCK.
Josiah Bartlett,	Massachusetts Bay:

LINCOLN'S GETTYSBURG SPEECH.

(Address at the dedication of Gettysburg cemetery, Nov. 19, 1863.)

Four score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the proposition that all men are created equal.

Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated, can long endure. We are met on a great battle field of that war. We have come to dedicate a portion of that field as a final resting place of those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this ground. The brave men, living and dead, who struggled here have consecrated it, far above our poor power to add or detract. The world will little note, nor long remember what we say here, but it can never forget what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people shall not perish from the earth.

DOMESTIC COMMERCE OF THE UNITED STATES.

It was estimated by The Annalist of New York that the total domestic trade of the United States in the calendar year 1915 amounted to \$507,000,000,000. The foreign trade of the country in the same year amounted to about \$5,350,000,000, or only about 1.1 per cent of the home trade. Irving Fisher, the economist, estimated the total business transacted in the United States in 1913 at \$477,000,000,000 and in 1914 at \$449,000,000,000. "Based on the increases in gross railroad earnings and bank clearings, fairly accurate measures of any change in the volume of business," says The Annalist, "the total turnover in 1915 must therefore have exceeded that for any previous year, more especially as the level of prices was undoubtedly well above that for any other like period."

WASHINGTON'S FAREWELL ADDRESS.

Following are the closing paragraphs of Washington's farewell address to the people of the United States Sept. 17, 1796, on his approaching retirement from the presidency. They relate more particularly to international relations:

"Observe good faith and justice toward all nations. Cultivate peace and harmony with all. Religion and morality enjoin this conduct. And can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and at no distant period a great nation to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that in the course of time and things the fruits of such a plan would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

"In the execution of such a plan nothing is more essential than that permanent, inveterate antipathies against particular nations and passionate attachments for others should be excluded, and that in place of them just and amicable feelings toward all should be cultivated. The nation which indulges toward another an habitual hatred or an habitual fondness is in some degree a slave. It is a slave to its animosity or to its affection, either of which is sufficient to lead it astray from its duty and its interest. Antipathy in one nation against another disposes each more readily to offer insult and injury, to lay hold of slight causes of umbrage, and to be haughty and intractable when accidental or trifling occasions of dispute occur.

"Hence frequent collisions, obstinate, inveterate and bloody contests. The nation prompted by ill will and resentment sometimes impels to war the government contrary to the best calculations of policy. The government sometimes participates in the national propensity, and adopts through passion what reason would reject. At other times it makes the animosity of the nation subservient to projects of hostility, instigated by pride, ambition and other sinister and pernicious motives. The peace often, sometimes perhaps the liberty, of nations has been the victim.

"So, likewise, a passionate attachment of one nation for another produces a variety of evils. Sympathy for the favorite nation, facilitating the illusion of an imaginary common interest in cases where no real common interest exists, and infusing into one the enmities of the other, betrays the former into a participation in the quarrels and wars of the latter without adequate inducement or justification. It leads also to concessions to the favorite nation of privileges denied to others, which is apt doubly to injure the nation making the concessions by unnecessarily parting with what ought to have been retained, and by exciting jealousy, ill will, and a disposition to retaliate in the parties from whom equal privileges are withheld; and it gives to ambitious, corrupted or deluded citizens (who devote themselves to the favorite nation) facility to betray or sacrifice the interests of their own country without odium, sometimes even with popularity, gilding with the appearances of a virtuous sense of obligation, a commendable deference for public opinion, or a laudable zeal for public good, the base or foolish compliances of ambition, corruption or infatuation.

"As avenues to foreign influence in innumerable ways, such attachments are particularly alarming to the truly enlightened and independent patriot. How many opportunities do

they afford to tamper with domestic factions, to practice the arts of seduction, to mislead public opinion, to influence or awe the public councils! Such an attachment of a small or weak toward a great and powerful nation dooms the former to be the satellite of the latter. Against the insidious wiles of foreign influence (I conjure you to believe me, fellow citizens) the jealousy of a free people ought to be constantly awake, since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy, to be useful, must be impartial, else it becomes the instrument of the very influence to be avoided, instead of a defense against it. Excessive partiality for one foreign nation and excessive dislike of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to become suspected and odious, while its tools and dupes usurp the applause and confidence of the people to surrender their interests.

"The great rule of conduct for us in regard to foreign nations is in extending our commercial relations to have with them as little political connection as possible. So far as we have already formed engagements let them be fulfilled with perfect good faith. Here let us stop.

"Europe has a set of primary interests which to us have none or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves by artificial ties in the ordinary vicissitudes of her politics or the ordinary combinations and collisions of her friendships or enmities.

"Our detached and distant situation invites and enables us to pursue a different course. If we remain one people, under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon to be scrupulously respected; when belligerent nations, under the impossibility of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war as our interest, guided by justice, shall counsel.

"Why forego the advantages of so peculiar a situation? Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalry, interest, humor or caprice?

"It is our true policy to steer clear of permanent alliances with any portion of the foreign world, so far, I mean, as we are now at liberty to do it; for let me not be understood as capable of patronizing infidelity to existing engagements. I hold the maxim no less applicable to public than to private affairs that honesty is always the best policy. I repeat, therefore, let those engagements be observed in their genuine sense. But in my opinion it is unnecessary and would be unwise to extend them.

"Taking care always to keep ourselves by suitable establishments on a respectable defensive posture, we may safely trust to temporary alliances for extraordinary emergencies.

"Harmony, liberal intercourse with all nations are recommended by policy, humanity and interest. But even our commercial policy should hold an equal and impartial hand, neither seeking nor granting exclusive favors or preferences; consulting the natural course of things; diffusing and diversifying by gentle means the streams of commerce, but forcing nothing; establishing with powers so disposed, in order to give trade a stable course, to de-

fine the rights of our merchants, and to enable the government to support them, conventional rules of intercourse, the best that present circumstances and mutual opinion will permit, but temporary and liable to be from time to time abandoned or varied as experience and circumstances shall dictate; constantly keeping in view that it is folly in one nation to look for disinterested favors from another; that it must pay with a portion of its independence for whatever it may accept under that character; that by such acceptance it may place itself in the condition of having given equivalents for nominal favors, and yet of being reproached with ingratitude for not giving more. There can be no greater error than to expect or calculate upon real favors from nation to nation. It is an illusion which experience must cure, which a just pride ought to discard.

"In offering to you, my countrymen, these counsels of an old and affectionate friend, I dare not hope they will make the strong and lasting impression I could wish—that they will control the usual current of the passions or prevent our nation from running the course which has hitherto marked the destiny of nations. But if I may even flatter myself that they may be productive of some partial benefit, some occasional good—that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigue, to guard against the impostures of pretended patriotism—this hope will be a full recompense for the solicitude for your welfare by which they have been dictated.

"How far in the discharge of my official duties I have been guided by the principles which have been delineated the public records and other evidences of my conduct must witness to you and to the world. To myself, the assurance of my own conscience is that I have

at least believed myself to be guided by them. "In relation to the still subsisting war in Europe my proclamation of the 22d of April, 1793, is the index to my plan. Sanctioned by your approving voice and by that of your representatives in both houses of congress, the spirit of that measure has continually governed me, uninfluenced by any attempts to deter or divert me from it.

"After deliberate examination, with the aid of the best lights I could obtain, I was well satisfied that our country, under all the circumstances of the case, had a right to take and was bound in duty and interest to take a neutral position. Having taken it, I determined as far as should depend upon me to maintain it with moderation, perseverance and firmness.

"The considerations which respect the right to hold this conduct it is not necessary on this occasion to detail. I will only observe that, according to my understanding of the matter, that right, so far from being denied by any of the belligerent powers, has been virtually admitted by all.

"The duty of holding a neutral conduct may be inferred, without anything more, from the obligation which justice and humanity impose on every nation, in cases in which it is free to act, to maintain inviolate the relations of peace and amity toward other nations.

"The inducements of interest for observing that conduct will best be referred to your own reflections and experience. With me a predominant motive has been to endeavor to gain time to our country to settle and mature its yet recent institutions, and to progress without interruption to that degree of strength and consistency which is necessary to give it, humanly speaking, the command of its own fortunes."

PRESIDENT WILSON ON MOB VIOLENCE.

President Wilson on July 26, 1918, issued the following statement:

"My Fellow Countrymen: I take the liberty of addressing you upon a subject which so vitally affects the honor of the nation and the very character and integrity of our institutions that I trust you will think me justified in speaking very plainly about it.

"I allude to the mob spirit which has recently here and there very frequently shown its head among us, not in any single region, but in many and widely separated parts of the country. There have been many lynchings, and every one of them has been a blow at the heart of ordered law and humane justice. No man who loves America, no man who really cares for her fame and honor and character, or who is truly loyal to her institutions, can justify mob action while the courts of justice are open and the governments of the states and the nation are ready and able to do their duty. We are at this very moment fighting lawless passion. Germany has outlawed herself among the nations because she has disregarded the sacred obligations of law and made lynchings of her armies. Lynchings emulate her disgraceful example. I, for my part, am anxious to see every community in America rise above that level, with pride and a fixed resolution which no man or set of men can afford to despise.

"We proudly claim to be the champions of democracy. If we really are, in deed and truth, let us see to it that we do not discredit our own. I say plainly that every American who takes part in the action of a mob or gives any sort of countenance is no true son of this great democracy, but its betrayer, and does more to discredit her by that single disloyalty to her standards of law and right than the words of her statesmen or the sacrifices of her heroic boys in the trenches can do to make suffering peoples believe her to be their savior. How shall we commend democracy to

the acceptance of other peoples if we disgrace our own by proving that it is, after all, no protection to the weak? Every mob contributes to German lies about the United States what her most gifted liars cannot improve upon by the way of calumny. They can at least say that such things cannot happen in Germany except in times of revolution, when law is swept away!

"I therefore very earnestly and solemnly beg that the governors of all the states, the law officers of every community, and above all, the men and women of every community in the United States, all who revere America and wish to keep her name without stain or reproach, will co-operate—not passively merely, but actively and watchfully—to make an end of this disgraceful evil. It cannot live where the community does not countenance it.

"I have called upon the nation to put its great energy into this war and it has responded—responded with a spirit and a genius for action that has thrilled the world. I now call upon it, upon its men and women everywhere, to see to it that its laws are kept inviolate, its fame untarnished. Let us show our utter contempt for the things that have made this war hideous among the wars of history by showing how those who love liberty and right and justice and are willing to lay down their lives for them upon foreign fields stand ready also to illustrate to all mankind their loyalty to the things at home which they wish to see established everywhere as a blessing and protection to the peoples who have never known the privileges of liberty and self-government. I can never accept any man as a champion of liberty either for ourselves or for the world who does not reverence and obey the laws of our own beloved land, whose laws we ourselves have made. He has adopted the standards of the enemies of his country, whom he affects to despise.

"WOODROW WILSON."

PRESIDENT WILSON ON MEXICAN POLICY.

On receiving a party of Mexican editors at the white house June 7, 1918, President Wilson spoke as follows:

"Gentlemen: I have never received a group of men who were more welcome than you are, because it has been one of my distresses during the period of my presidency that the Mexican people did not more thoroughly understand the attitude of the United States toward Mexico. I think I can assure you, and I hope you have had every evidence of the truth of my assurance, that that attitude is one of sincere friendship. And not merely the sort of friendship which prompts one not to do his neighbor harm, but the sort of friendship which earnestly desires to do his neighbor service.

"My own policy—the policy of my own administration—toward Mexico was at every point based upon this principle: That the internal settlement of the affairs of Mexico was one of our business, that we had no right to interfere with or to dictate to Mexico in any particular with regard to her own affairs. Take one aspect of our relations which at one time may have been difficult for you to understand: When we sent troops into Mexico our sincere desire was nothing else than to assist you to get rid of a man who was making the settlement of your affairs for the time being impossible. We had no desire to use our troops for any other purpose, and I was in hopes that by assisting in that way and thereupon immediately withdrawing I might give substantial truth of the assurance that I had given your government through President Carranza.

"At the present time it distresses me to learn that certain influences, which I assume to be German in their origin, are trying to make a wrong impression throughout Mexico as to the purpose of the United States and to give an absolutely untrue account of things that happen. You know how the distressing things that have been happening just off our coasts. You know of the vessels that have been sunk. I yesterday received a quotation from a paper in Guadalajara which stated that thirteen of our battle ships had been sunk off the capes of the Chesapeake. You see how dreadful it is to have people so radically misinformed. It was added that our navy department was withholding the truth with regard to these things. I have no doubt that the publisher of the paper published that in perfect innocence without intending to convey wrong impressions, but it is evident that allegations of that sort proceed from those who wish to make trouble between Mexico and the United States.

"Now, gentlemen, for the time being, at any rate—and I hope it will not be a short time—the influence of the United States is somewhat pervasive in the affairs of the world, and I believe that it is pervasive because the nations of the world which are less powerful than some of the greatest nations are coming to believe that our sincere desire is to do disinterested service. We are the champions of those nations which have not had a military standing which would enable them to compete with the strongest nations in the world, and I look forward with pride to the time, which I hope will soon come, when we can give substantial evidence, not only that we do not want anything out of this war, but that we would not accept anything out of it, that it is absolutely a case of disinterested action. And if you will watch the attitude of our people you will see that nothing stirs them so deeply as assurances that this war, so far as we are concerned, is for idealistic objects. One of the difficulties that I experienced during the first three years of the war—the years when the United States was not in the war—was in getting the foreign offices of European nations to believe that the United States was seeking nothing for herself, that her neutrality was not selfish, and that if she came in she would not come in to get anything substantial out of the war, any material object, any territory or trade or

anything else of that sort. In some of the foreign offices there were men who personally knew me and they believed, I hope, that I was sincere in assuring them that our purposes were disinterested, but they thought that these assurances came from an academic gentleman removed from the ordinary sources of information and speaking the idealistic purposes of the cloister. They did not believe that I was speaking the real heart of the American people and I know all along that I was. Now I believe that everybody who comes into contact with the American people knows that I am speaking their purposes.

"The other night in New York, at the opening of the campaign for funds for our Red Cross, I made an address. I had not intended to refer to Russia, but I was speaking without notes and in the course of what I said my own thought was led to Russia and I said that we meant to stand by Russia just as firmly as we would stand by France or England or any other of the allies. The audience to which I was speaking was not an audience from which I would have expected an enthusiastic response, to that, it was rather too well dressed. It was not an audience, in other words, made of the class of people whom you would suppose to have the most intimate feeling for the sufferings of the ordinary man in Russia, but that audience jumped into the aisles, the whole audience rose to its feet, and nothing that I had said on that occasion aroused anything like the enthusiasm that that single sentence aroused. Now, there is a sample, gentlemen. We cannot make anything out of Russia. We cannot make anything out of standing by Russia at this time—the most remote of the European nations, so far as we are concerned, the one with which we have had the least connections in trade and advantage—and yet the people of the United States rose to that suggestion as to no other that I made in that address. That is the heart of America, and we are ready to show you by any act of friendship that you may propose our real feelings toward Mexico.

"Some of us, if I may say so privately, look back with regret upon some of the more ancient relations that we have had with Mexico long before our generation, and America, if I may so express it, would now feel ashamed to take advantage of a neighbor. So I hope that you can carry back to your homes something better than the assurances of words. You have had contact with our people. You know your own personal reception. You know how gladly we have opened to you the doors of every establishment that you wanted to see and have shown you just what we were doing, and I hope you have gained the right impression as to why we were doing it. We are doing it, gentlemen, so that the world may never hereafter have to fear the only thing that any nation has to dread, the unjust and selfish aggression of another nation. Some time ago, as you probably all know, I proposed a sort of pan-American agreement. I had perceived that one of the difficulties of our relationship with Latin America was this: The famous Monroe doctrine was adopted without your consent, without the consent of any of the Central or South American states.

"If I may express it in the terms that we so often use in this country, we said: 'We are going to be your big brother, whether you want us or not.' We did not ask whether it was agreeable to you that we should be your big brother. We said we were going to be. Now, that was all very well so far as protecting you from aggression from the other side of the water was concerned, but there was nothing in it that protected you from aggression from us, and I have repeatedly seen the uneasy feeling on the part of representatives of the states of Central and South America that our self-appointed protection might be for our own benefit and our own interests, and not for the interest of our neighbors. So I said: 'Very well, let us make

an arrangement by which we will give bond. Let us have a common guaranty, that all of us will sign, of political independence and territorial integrity. Let us agree that any one of us—the United States included—violates the political independence or the territorial integrity of any of the others all the others will jump on her.' I pointed out to some of the gentlemen who were less inclined to enter into this arrangement than others that that was in effect giving bonds on the part of the United States that we would enter into an arrangement by which you would be protected from us.

"Now, that is the kind of agreement that will have to be the foundation of the future life of the nations of the world, gentlemen. The whole family of nations will have to guarantee to each nation that no nation shall violate its political independence or its territorial integrity. That is the basis, the only conceivable basis, for the future peace of the world, and I must admit that I was ambitious to have the states of the two continents of America show the way to the rest of the world as to how to make a basis of peace. Peace can come only by trust. As long as there is suspicion there is going to be misunderstanding, and as long as there is misunderstanding there is going to be trouble. If you can once get a situation of trust then you have got a situation of permanent peace. Therefore every one of us, it seems to me, owes it as a patriotic duty to his own country to plant the seeds of trust and of confidence instead of the seeds of suspicion and variety of interest. That is the reason that I began by saying to you that I have not had the pleasure of meeting a group of men who were more welcome than you are, because you are our near neighbors. Suspicion on your part or misunderstanding on your part distresses us more than we would be distressed by similar feelings on the part of those less near by.

"When you reflect how wonderful a storehouse of treasure Mexico is, you can see how her future must depend upon peace and honor, so that nobody shall exploit her. It must depend upon every nation that has any relations with her and the citizens of any nation that has relations with her, keeping within the bounds of honor and fair dealing and justice, because so soon as you can admit your own capital and the capital of the world to the free use of the resources of Mexico it will be one of the most wonderfully rich and prosperous countries in the world. And when you have the foundations of established order and the world has come to its senses again, we shall, I hope, have the very best connections that will bring to us all a permanent cordiality and friendship."

MEXICAN-AMERICAN CLASH.

In a clash on Nov. 28, 1918, between the armed navy guard of the American steamship Monterey and Mexican custom guards at Tampico, one Mexican, said to have been a captain, was killed, a Mexican soldier mortally wounded, and a chief gunner's mate, named Berry, in charge of the American guard, less seriously hurt. This was learned Dec. 15, when the steamer arrived at New York. According to passengers on board, the fight occurred shortly after 5 o'clock, and eight members of the navy guard went to the rescue of Berry, who had been attacked.

The fight, passengers said, was brief, the Mexicans running away as soon as the Americans opened fire, leaving their dead and wounded. Later, officials of the port took the matter into hand, the passengers asserted, and a demand was made upon the captain of the Monterey that the armed guard be delivered up to them pending an investigation.

This the captain declined to do, his action being supported. It was said, by officers of two American gunboats in the harbor, that the matter was disposed of by a decision to leave the entire subject to diplomatic settlement.

It was said that the gunner's mate had gone ashore on an errand just before the Monterey sailed. Several blocks from where the ship was tied up was a saloon, and as Berry was returning to his ship, passing in front of this saloon, he was called upon to "treat." When he refused to do so several Mexicans started after him.

As the American approached his ship a shot was fired and a Mexican guard there seeing him coming placed him under detention. It was also asserted that others started to beat him with the butts of their rifles. The sailor fought back and called to his men for assistance. American sailors rushed to the fray. Some of the Mexicans opened fire. No one was hit on the ship.

The naval guard then secured arms, and, as the firing continued, they returned the shots, with the result that two Mexicans fell. With the show of arms the Mexicans fled.

THE CHILE-PERU CONTROVERSY.

In February, 1879, Chile seized the Bolivian port of Antofagasta. Two months later Peru, as the ally of Bolivia, declared war on Chile. On Nov. 19 the combined Peruvian and Bolivian forces were defeated at Dolores. By the following autumn Chile was in possession of all the disputed territory and, through the mediation of the United States minister to that country, peace was negotiated and apparently established. The conditions imposed by Chile, however, were not accepted by the allies and there ensued the battle of Miraflores, which gave to the Chileans possession of practically all important Peruvian cities, including Lima and Callao. After further fighting, extending to Oct. 20, 1883, a treaty dictated by Chile was signed under the terms of which Bagua, ceded to Chile the province of Antofagasta, while Peru gave up Tarapaca in perpetuity and Tacna and Arica, or Tacna-Arica, as the territory is now called, for ten years, a plebiscite at the end of that period to determine whether the inhabitants wished to return to Peru or to remain under Chilean rule. The plebiscite was never taken owing to objections by Chile and the ill feeling resulted in the fall of 1918 in open clashes between Peru and Chile, ending in the severance of consular relations. In December the American ambassador at Santiago, Chile, and the American minister at Lima, Peru, handed the presidents of Chile and Peru, respectively, the following statement in the direction of Acting Secretary Polk of the state department:

"The president of the United States desires to inform your excellency that the various incidents leading up to the severance of consular relations between the republics of Chile and Peru have been viewed by the government of the United States with the gravest apprehension. Any agitation tending to lessen the prospect for permanent peace throughout the world, particularly on the eve of the convoking of the peace conference in Paris, in which it is confidently expected that steps will be taken to provide for an era of lasting peace among all peoples, would be disastrous and those persons who had caused this condition would be charged with grave responsibility before the world for their actions.

"The president of the United States feels it his duty to draw to the attention of the governments of Chile and Peru the gravity of the present situation and to point out to these governments the duty which they owe to the rest of the world and to mankind in general to take immediate steps to restrain popular agitation and to re-establish their peaceful relations.

"That a satisfactory and peaceful solution of the matter in dispute between the two countries may be arrived at there can be no doubt, and the government of the United States stands ready to tender alone, or in conjunction with the other countries of this hemisphere, all possible assistance for bringing about an equitable solution of the matter.

"RECONSTRUCTION" PLATFORM OF THE CHICAGO PLAN COMMISSION.

Adopted by the executive committee Dec. 6, 1918, and sent to the city council at its meeting Dec. 16, 1918:

To His Honor the Mayor and to the City Council of the City of Chicago: "Prepare in war for peace" has been the slogan of the Chicago plan commission from the moment the United States entered the war in April, 1917, and thus put to shame the fact, stated by the late Joseph H. Choate, that "the American plan always is to go in first and get ready afterward."

Gov. Lowden on Dec. 10, 1917, said: "I feel strongly that public authorities should do, and do thoroughly, the preliminary work necessary to enable us immediately upon the close of the war to proceed intelligently and vigorously upon public work. I absolutely agree with your general conclusion in the plan commission's argument on the 'war-time continuation of preliminary public improvements' before the city council committee on home defense."

President Wilson on Dec. 2, 1918, warned congress that:

"There will be a large floating residuum of labor, which should not be left wholly to shift for itself. It seems important, therefore, that the development of public work of every sort should be promptly resumed."

A year before that the president requested the national council of defense to study the question of public improvements and the re-employment of labor thereon and to submit recommendations in connection therewith.

It is exceedingly unfortunate that the United States has not profited by the experience and example of France, England and Canada, which countries not only prepared comprehensively for peace, but actually inaugurated and carried to completion during the war humanitarian and economic projects. These countries realized they were building the very keystone of their national power through making their people mentally, physically and morally strong.

Chicago is now face to face with the reconstruction period, but has made no preliminary preparation. Where yesterday was the warning, to-day is the national center of population, commerce, education, music and constructive art. Our beloved city—in the front rank of patriotic devotion—ministering to national needs, supplying without stint men, money and material; center of Red Cross activities not forgetting to serve humanity, has allowed its war endeavors to overshadow the need for making ceaseless effort to conserve the health, general well-being and effectiveness of its own people.

Valuable time has been lost, but it is not yet too late to replace procrastination with our vigorous and enthusiastic support of the reconstruction program of the Chicago plan commission.

Chicago's first reconstruction duty is toward its returning soldiers. Work must be provided for them and the proper employment of labor should be our first consideration. The best opportunity for this work is work on Chicago's great public improvements.

Work is the demand and the right of the laboring class—not charity.

The reconstruction period will require at least five years, during which grave problems will confront us. An equitable solution can only be achieved by a patriotic and united citizenry.

The war has intensified rather than dimmed the need for public improvements in Chicago—manifestly necessary before, agitated for many years, and upon some of which work has been started.

The public health, ample means for healthful recreation, convenience of traffic in the streets, relief of the congested districts and facilitation of railway terminal and food handling, which were of fundamental importance before the war, now become matters of absolute necessity.

No people of good will labor harder or sacrifice more for their city, their larger

home, than will the people of Chicago. It is this civic patriotism, almost as strong as our love of country, that has in the past urged Chicago to great achievement. What Chicago wills to have created will be achieved, and what she wants done will be done. All we now need is the spark of ignition. Vim and vigor lead to victory.

There is eloquence in stone and steel; there is inspiration in good architecture; there is character building in good surroundings. Our city as our larger home does much to mold our character. Unknown and unrealized by us, the salient forces of our environment are working upon us and upon each of our fellows. Chicago has a good citizenry—a patriotic citizenry—it is proud of its citizens and its citizens are proud of their city. They know that attractive development and good citizenship go hand in hand and they want to see their city made the best it can be.

The Chicago plan commission calls upon all public officials and public utility executives to cease all unnecessary bickering and get together now in a spirit of co-operation and civic patriotism to save Chicago in this its greatest hour of need and its moment of greatest opportunity.

The Chicago plan commission calls upon all citizens to get behind its platform of unprecedented economic benefits to the whole city. Chicago is fortunate indeed in having a scientifically worked out plan that exactly fits the present emergency and which will insure measurably to the health, happiness and financial prosperity of all the people.

This is an epochal time in the life of Chicago: great in opportunity and vital in need.

The plans of the reconstruction platform of the Chicago plan commission are:

VIGOROUS PROSECUTION OF WORK ALREADY STARTED ON—

1. Twelfth street.
2. West side railway terminals; widening of Canal street north of 12th, via double deck Kinzie street and bridge, to Orleans street.
3. Michigan avenue.
4. The new outer circuit from the lake on the north side, via Thorndale, Elmdale, Peterson and Rogers avenue and the Baltimore & Ohio abandoned right of way along the line of the old Indian boundary (already acquired) and along the Des Plaines river road through forest preserves south to 22d street and eventually farther south. (This important route, crossing prominent section and half-section line streets, and passing many public institutions, has been begun and only requires the opening, at small expense by the city, of Rogers avenue for less than two miles.)

URGING IMMEDIATE SETTLEMENT OF—

5. Controversy between the city and the Illinois Central Railroad company.
6. Railway terminal commission problem, with passage of ordinance covering the lake front development.
7. River Straightening—The railway terminal commission should scrupulously bear in mind the importance of straightening the river from Polk street to 18th street, enabling the opening of south side streets through the terminal area.
8. South side railway passenger terminal question, their removal to the new Illinois Central terminal, enabling (with the river straightened) the opening of Market, Wells, LaSalle, Franklin and Dearborn streets.

START IMMEDIATELY TO CARRY OUT—

9. Lake Front Plans, from Grant park to Jackson park—Acquire \$50,000,000 of land and revenue for nothing. Create dumping grounds for the city and at the same time acquire 1,280 acres of land, which will provide the people with bathing beaches, picnic grounds and other recreational features, such as rowing, motor boat races, etc.
10. Ogden avenue extension.

11. Widening of Western avenue to 100 feet its entire length where it is now less than that width, particularly from 75th street south, where it is now only fifty feet wide.

12. Improvement of Ashland Avenue and Robey Street—The next traction ordinance should contain a provision for the improvement of these two streets, making them thoroughfares.

13. South Water Street Improvement—South Water street should be reclaimed for public use and connected with the upper level of Michigan avenue. This, conservatively speaking, would save over \$5,000,000 annually—enough in a single year to pay for the entire improvement—in food supply costs to all the people and in traffic delays affecting the entire city.

14. Outer Drive—Connect Grant and Lincoln parks via the lake front, thus relieving downtown congestion, and making a direct connection between Jackson park, the new Lake Front park, Grant park, the municipal pier and Lincoln park.

15. West Side Postoffice—The needed additional \$4,250,000 to acquire the two block site between Madison and Adams streets, facing on Canal, between the Northwestern station and the proposed new union passenger station, where 82 per cent of the mail of Chicago is handled, must be immediately appropriated by the federal government. Chicago, the greatest postal center of the United States, has been deprived of adequate postal facilities for the past forty years.

AGGRESSIVE CO-OPERATION ON—

16. City's Bridge Program—This should be vigorously pushed to completion.

17. Traction Question—This should be settled by giving Chicago a metropolitan rapid transit system.

18. Forest Preserves—Aid in every way the forest preserve commissioners in securing the remainder of forest areas it has selected for purchase, thus giving the people on all sides of the city playgrounds of vast worth to their health and happiness.

19. Good Roads Program of the State—Aid the creation of an invaluable network of leading highways to and from Chicago.

20. New City Charter—Impress upon the forthcoming constitutional convention the need of bestowing greater powers upon the city of Chicago. Without greater powers Chicago cannot grow from a provincial to a metropolitan city.

21. Drainage Canal Boulevards—Study the question of boulevards along the drainage canal to connect with the park system.

22. Zoning and Housing—These problems are of large importance, but require special study.

23. Excess Condemnation Law—A law should be supported which will enable Chicago to eliminate many abuses resulting from the present method of making public improvements and receive instead large benefits. Vital and important improvements, however, should not be delayed for such a law, as it may take years to secure it.

Many plans approved by the executive committee of the Chicago plan commission, Dec. 6, 1918: Charles H. Wacker, chairman; Frank I. Bennett, vice-chairman; Walter D. Moody, director; Edward B. Butler, A. C. Bartlett, James Simpson, Clyde M. Carr, John V. Farwell, Albert J. Fisher, Theodore K. Long, Joy Morton, William N. Pelouze, Julius Rosenwald, Daniel J. Schuyler, John F. Smulski, Charles H. Thorne, Harvey T. Weeks, Harry A. Wheeler, Walter H. Wilson, Michael Zimmer.

APPROPRIATION RECOMMENDED.

To the Finance Committee of the City Council of the City of Chicago:

Resolution of the executive committee of the Chicago plan commission, unanimously adopted Dec. 6, 1918.

Whereas, the reconstruction platform of the Chicago plan commission points to the urgent need of immediate action on the part of the city authorities to provide work for our returning soldiers and to safeguard the general

field of labor during a reconstruction period of at least five years, and

Whereas, it is even more imperative now than before the war to provide ample means of healthful recreation, convenient street traffic, relief for congested districts and the facilitation of railway terminal and food handling facilities, and

Whereas, President Wilson, in his last message to congress said: "There will be a large floating residuum of labor which should not be left wholly to shift for itself, and it is, therefore, important that the development of public work of every sort should be promptly resumed" and Gov. Lowden urged vigorous and intelligent prosecution of public work immediately upon the close of the war, and

Whereas, sound economic and humanitarian projects in the plan of Chicago are of the utmost importance to the whole city through providing attractive developments of great value to the prosperity, happiness and well-being of all the people, and

Whereas, the widening of Western avenue, the Robey street extension and the Ashland avenue widening and extension are needs of the first magnitude to the great west side and of benefit to the entire city, and

Whereas, the restoration of South Water street as a public thoroughfare and its widening and connection with the upper level Michigan avenue improvement will reduce loop congestion 16 per cent and save the people of Chicago \$5,000,000 annually in the cost of foodstuffs, and

Whereas, a public hearing on the Ogden avenue extension was held Dec. 3, 1918, and a large attendance of property owners unanimously requested the board of local improvements to proceed at once with this improvement. Now therefore be it

Resolved, That the executive committee of the Chicago plan commission, in session Dec. 6, 1918, unanimously recommends that the finance committee of the city council include in the 1919 budget such appropriations as may be necessary to enable the board of local improvements to put through the Ogden avenue improvement and to provide for the preliminary work on the Western avenue, Robey street, Ashland avenue and South Water street improvements.

(Signed)

Charles H. Wacker, chairman; Frank I. Bennett, vice-chairman; Walter D. Moody, director; Edward B. Butler, A. C. Bartlett, James Simpson, Clyde M. Carr, John V. Farwell, Albert J. Fisher, Theodore K. Long, Joy Morton, William N. Pelouze, Julius Rosenwald, Daniel J. Schuyler, John F. Smulski, Charles H. Thorne, Harvey T. Weeks, Harry A. Wheeler, Walter H. Wilson, Michael Zimmer.

AMPLIFIED STATEMENT OF THE OFFICERS OF THE CHICAGO PLAN COMMISSION.

The biggest and most fruitful opportunity in the history of Chicago is here now knocking at our door. That fact is all-inclusive if our citizens can see that it is a question of now or never if Chicago is to reap in wholesale fashion the great benefits which have been stamped on our city by the hand of destiny.

At no other time anywhere in any other city have a people been placed face to face with the chance to accomplish for their city and themselves the great things which are in store for Chicago and may be had almost for the asking.

The wonderful part in connection with accomplishing the "reconstruction" program of the Chicago plan commission is that it will place a relatively small financial burden upon the people as a whole and no specific burden whatsoever upon any individual. By far the major part of the improvement program submitted to the city council Monday, Dec. 16, must be worked out by the public utilities at their own expense.

The great front plans, for example, are tied in with the Illinois Central terminal plans. The one is necessary to the other, and the possibility for Chicago to regain its vast lake front for the use of all the people will cost

the public nothing, while the railroad company must make big construction works, which will not only make the people's part of it possible, but will also add to the attractiveness of the city, tremendously increase its transportation facilities and furnish labor for thousands.

This is also true of the west side terminal plans. The creation of the great new passenger station on Canal street—and the other public projects, such as the widening of Canal street and its connection with the north side, and new bridges and bridge approaches, must be paid for by the companies, although the public benefits are tremendous and accompanied by an attractive development of vast worth to the entire city.

The same is true of the location of the postoffice on the two block Canal street site. This costs the people nothing; the government must buy the land and build the building, but an imposing structure, adequate for Chicago's vast postal needs, will kill two birds with one stone—the government's needs will be cared for, Chicago's business will be facilitated and that of a large tributary territory and an attractive development will take place that will inure immeasurably to the west side and the whole city.

Similar conditions apply to South Water street. Not only will this improvement not cost the people anything in actuality but it will save them more than \$25,000,000 in the five years of the reconstruction period in waste of foodstuffs. This figure has been substantiated as conservative by federal government investigators.

The west side streets to be improved are of such importance to Chicago that the people should rise up and demand action to insure their quickest and most adequate development. The improvement of Robey street and Ashland and Western avenues should be provided for in the new traction ordinance.

The Ordan avenue improvement will in time pay for itself over and over again in revenue from increased property values in a large area

which it will importantly affect. Its actual cost will be small and will be in the nature of an investment upon which there will be a great return, and therefore it cannot be called an expense. Both the property owners and the city will benefit tremendously.

The great 12th street improvement, which now terminates in a pocket at Canal street, must be completed to Michigan avenue, the railroad companies paying the larger cost as agreed. Its completion is of utmost importance and will produce incalculable benefits to that locality and the whole city.

The Michigan avenue connection is so vital that a 10 year old school child can appreciate its importance. It will be a saving to everybody in time, money and convenience.

The other big questions in the Chicago plan commission's "reconstruction platform" are largely legislative matters, but fundamental in importance and necessity. The people should co-operate as one force to hasten their accomplishment. This entire program demands the instant, intelligent and hearty co-operation of every citizen. It is a matter of "One for all and all for one." Every one of these twenty-two projects can be realized in five years with intelligent and aggressive action as the medium to that end.

The humanitarian, economic and hygienic benefits to the city will be so great as absolutely to defy calculation at this time.

If the people of Chicago really want city-wide prosperity, city-wide public health, city-wide pleasure and happiness, to be found in the parks and on the lake front, convenient and attractive streets, easy and adequate transportation, and if they want to see their city become the great and prosperous metropolis it is destined to be, they can do so, and very quickly; but they cannot obtain these advantages without quick, intelligent and hearty co-operation.

CHARLES H. WACKER, Chairman.
FRANK J. BENNETT, Vice Chairman.
WALTER D. MOODY, Director.

BANK CREDITS AND DEBT SITUATION.

The Federal Reserve Bulletin for the month of November, 1918, contained detailed studies of the debt situation in the United States and foreign countries, with special reference to the banking situation as affected by loans on war paper and the use of the purchasing power thereby created. This subject was fully discussed in the board's review of the month, which analyzed the effect on prices of the failure of our population to save, as evidenced by the increase in loans collateralized by government securities. As in former issues, the board urged a resort to more intensive saving in order to absorb the new bonds more rapidly, and in larger measure in order that the credit granted by the banks might not remain too long outstanding and thereby tend to increase prices.

"In the last issue of the Federal Reserve Bulletin evidence was submitted to show that the belief in a great inflation of the currency has relatively little to support it. In fact, not the issue of notes, but the creation of deposit credits on the books of the banks, for the purpose of enabling borrowers to buy and carry government bonds and rendered necessary because of the failure of the public to save sufficiently, that creates the buying power which advances prices."

After quoting figures to show in an approximate way the progressive increase in the deposits and investments of the banks, both member and federal reserve, as well as the declining ratio of reserve to outstanding liabilities of the latter, which is a consequence of borrowing instead of more intensive saving, the statement continued:

Credit Expansion.

"Precisely what effects may be expected from this process of credit expansion should be definitely understood in order that the nation as a whole may choose between the policy of steadily adding to its outstanding

bank obligations and that of curtailing them by regularly reducing its indebtedness through saving and the cancellation of its borrowing at the banks. The board, in former issues of the bulletin, has defined inflation as the increase of current purchasing power—whether in the form of actual currency or in the form of credit—faster than the volume of available goods, and this is manifestly the process which is now going on as a result of methods of subscribing and paying for government bonds, which are not based upon real savings.

"Probably the feature of the present financial situation of the country which most requires correction is this increase in disposition on the part of the public to rely too largely upon the banks as sources from which to obtain the necessary funds for use in financing the requirements of the government. * * * In order to provide for the taking up of additional loans when offered, it will be inevitably necessary that the public address itself with greater earnestness to the problem of saving and applying its income to public requirements. Advices from many quarters show that while progress is being made in this matter, the mounting necessities of the government are equally conclusive evidence to the effect that what already has been done must be continued and added to, and that further and more successful efforts must be made if the banks are not to be obliged to take and hold an undue proportion of the obligations issued by the government."

With reference to the question of prices and credit expansion, the following statement is made:

"The relation between prices and credit expansion has been frequently referred to by the board but may be restated somewhat as follows: Bank credit when granted by commercial institutions upon the strength of, or for the purposes of, liquidating commercial trans-

actions of early maturities, serves as a means of facilitating the flow of commodities from producer to consumer and the return of purchasing power from the consumer to the producer through the various channels of circulation. This process enables goods to act as a means of purchase and payment for other goods, and when the maturity of the average loan granted (or 'credit' allowed) is no longer than that of the productive processes in which the community is engaged, the effect of it is only that of facilitating and promoting production and distribution. When the loans granted or credit extended by the banks are in excess of the normal value of the goods offered for exchange, there is brought into existence an additional or surplus volume of purchasing power which has the same effect upon the prices of commodities as does a corresponding addition to the money supply, inasmuch as it may be offered for commodities and may thus create a demand for them. Credit expansion becomes inflation when the increase of prices it produces brings no commensurate or offsetting increase of production."

Reserve Situation and Inflation.

The relation between the reserve situation and inflation is discussed in the following passage:

"The reason why the public, and especially the banking community, looks with so much interest to the reserves of the banks is understood when the nature of credit inflation is carefully considered. Ordinary extensions of credit made for the purpose of facilitating the exchange and circulation of goods require little or no addition to the reserve funds of the banks, because the credits thus granted in the main offset and cancel one another, leaving an unimportant margin to be redeemed in cash. When the credit structure of the community is enlarged by the extension of bank loans not accompanied by a corresponding increase in production and the proceeds are employed in the way just described for the purchase of commodities or for buying them away from the consumers who would otherwise purchase them, the claims to the credit credit thus brought into existence keep on passing from hand to hand. The government transfers them to contractors who furnish it with goods and to persons who supply it with services. Both these classes pass on the credit claims to others in exchange for goods which they desire and they remain outstanding, representing in effect an addition to the purchasing media of the community. There is no means of permanently canceling or digesting such outstanding credits except one—their use by those into whose hands they come for the purchase of the securities against which the credits were extended, notably government bonds in our present situation. Ordinary commercial credits furnish their own means of cancellation through the maturing of the paper upon which they were based and the completion of the productive process to finance

which they were extended. Credits based upon noncommercial operations or investment securities possess no such quick self-reducing quality. As they increase, therefore, they tend to make a more or less lasting addition to the outstanding volume of bank liabilities and thereby increase the superstructure of bank credits which rests upon the underlying reserve money of the country.

"During the last year there has been a decrease in the percentage of gold to cover the aggregate banking liabilities of the country, mainly the result of the process above outlined. This decline has not been occasioned by any falling off in the aggregate gold holdings of the American banking system, which indeed have shown some increase. It is due altogether to the rapid increase in the outstanding volume of bank liabilities. It is this feature of the situation which gives to the decline of the gold percentage its significance. That is to say, the decline of this percentage is an important index of our changing position, not because of any inadequacy of gold, but because of undue or disproportionate expansion of the credit structure which the gold reserve of the nation is required to support and protect in consequence of inadequate saving by the people.

"Decline of the reserve percentages of the central banking institutions has been a general phenomenon in all of the belligerent countries since the opening of the war and everywhere has been admitted to be undesirable. As shown in the studies of public debt and currency, published elsewhere in this issue of the Bulletin, it reflects the disposition of these countries to rely upon borrowing and when necessary upon direct borrowing from the banking institutions, the public being either too little able or too little willing to furnish out of its current consumption either in the form of taxes or of direct loans to the government the sums necessary to avoid credit inflation and to hold reserves at a normal percentage level.

Gold Strength of United States.

"The great gold strength of the United States, largely due to the heavy accessions to our national stock of gold in the two years preceding our entry into the war, has, it is true, placed this country in an exceptional and peculiar position; and to this extent the character of the credit inflation experienced in the United States differs from that existing in other countries and has been less easy to realize. But it would be a mistake for us to proceed on the assumption that inflation in the United States is therefore different in its essential character from what it is elsewhere. Here, as elsewhere, the decline in percentage of reserve holdings to outstanding liabilities reflects the relative increase of the latter as compared with the means of their direct conversion on demand, and the problem presented is the problem of controlling the growth of banking credits."

CHRONOLOGICAL SURVEY OF PEACE MOVEMENTS.

[Compiled by Charles E. Beals.]

New York Peace society, organized 1815, first in the world.

Many state societies organized in quick succession.

A national organization, the American Peace society, formed in 1828, in which the state societies merged themselves.

Peace movement spread rapidly until the time of the Crimean war, American civil war, etc.

Great peace jubilees held throughout the country in 1871.

International Law association organized, 1873.

Interparliamentary union formed, 1889.

International peace bureau established in Bern, 1891.

First Lake Mohonk arbitration conference, 1895.

American Society of International Law organized, 1906.

Intercollegiate Peace association, 1905.

Association for International Conciliation, 1907.

Peace day, 18th of May (Hague day).

Peace Sunday, the Sunday before Christmas.

American Society for the Judicial Settlement of International Disputes, 1910.

Carnegie endowment for international peace, 1910.

Palace of Peace at The Hague dedicated Aug. 28, 1913.

INTERNATIONAL PEACE CONGRESSES.

First series: 1, London, 1843; 2, Brussels, 1848; 3, Paris, 1849; 4, Frankfurt, 1850; 5, London, 1851; 6, Edinburgh, 1853.

Second Series: 1, Geneva, 1867; 2, Paris 1878; 3, Brussels, 1882; 4, Bern, 1884.

Present series: 1. Paris, 1889; 2. London, 1890; 3. Rome, 1891; 4. Bern, 1892; 5. Chicago, 1893; 6. Antwerp, 1894; 7. Budapest, 1896; 8. Hamburg, 1897; 9. Paris, 1900; 10. Glasgow, 1901; 11. Monaco, 1902; 12. Rouen, 1903; 13. Boston, 1904; 14. Lucerne, 1905; 15. Milan, 1906; 16. Munich, 1907; 17. London, 1908; 18. Stockholm, 1910; 19. Geneva, 1912; 20. The Hague, 1913; 21. San Francisco, 1915.

NATIONAL PEACE CONGRESSES IN THE UNITED STATES.

First: New York in 1907.

Second: Chicago in 1909.

Third: Baltimore in 1911.

Fourth: St. Louis in 1913.

INTERGOVERNMENTAL PEACEMAKING.

Joint disarmament by Great Britain and United States along Canadian border, 1817 to present time.

Central American High Court of Nations established.

Pan-American congress, 1889, led to establishment of International Bureau of American Republics, 1890.

Pacific settlement of over 600 international disputes.

The statue of The Christ of the Andes, commemorating joint disarmament of Chile and Argentina, erected 1904.

Nearly fifty public international unions (e. g., the Universal Postal union) already in operation.

Hague Peace Conferences.

First Hague conference, May 18, 1899, of twenty-six nations.

Second Hague conference, June 15, 1907, of forty-four nations.

The Hague Court of Arbitration.

The permanent court of arbitration at The Hague, instituted July 29, 1899, consists of from one to four representatives of the governments participating in The Hague peace conference of 1899 or signing the convention providing for the court. The members of the court from the greater powers are as follows: France—Leon Bourgeois, A. Decrais, Baron d'Estournelles de Constant, Louis Renault.

Germany—Herr Grieger, Herr von Martitz, Herr von Staff.

Great Britain—Sir Charles Fitzpatrick, Earl de Desart, James Bryce.

Italy—Guido Fusinato, Victor E. Orlando, Tommaso Tittoni, Dr. Carlo Schanzer.

Japan—Ichiro Metono.

United States—Elihu Root, John W. Griggs, George Gray, Oscar S. Straus, John Bassett Moore.

Secretary—Gen. Baron Michiels van Derduy-nen.

Record of Hague Decisions.

1. The Pius fund case. Mexico vs. United States, Oct. 14, 1902.

2. The Venezuela case. Great Britain, Germany and Italy vs. Venezuela, Feb. 22, 1904.

3. The Japanese house tax case. Great Britain, France and Germany vs. Japan, May 22, 1905.

4. The Muscat dhows case. Great Britain vs. France, Aug. 8, 1905.

5. The Casa Blanca case. France vs. Germany, May 22, 1909.

6. The boundary case. Norway vs. Sweden, Oct. 23, 1909.

7. The North Atlantic fisheries case. United States vs. Great Britain, Sept. 7, 1910.

8. The Orinoco Steamship company claims case. United States vs. Venezuela, Oct. 23, 1910.

9. The Savarkar case. France vs. Great Britain, Feb. 24, 1911.

10. Arrears of indemnity case. Russia vs. Turkey, Feb. 24, 1911.

11. Canevaro claim. France vs. Italy, Feb. 24, 1911.

MINERAL PRODUCTION OF ALASKA.

In 1917 Alaska produced minerals valued at \$40,700,195. The value of the mineral output of Alaska in 1917, although about \$7,931,943 less than that in 1916, was greater than that in any other year. The most valuable mineral product in 1917 was copper, of which 88,793,400 pounds, valued at \$24,240,596, was produced. This is less than the output of 1916, which was 119,602,028 pounds, valued at \$29,480,291, but is greater than that of any other year. The reduction is due largely to labor troubles and is not necessarily permanent. The gold produced in 1917, \$14,657,353, of which \$9,810,000 was derived from placer mines, was also less than that produced in 1916, which was \$17,241,713, and is the smallest since 1904. The reduction was due chiefly to curtailment of operations because of the scarcity of labor and the high cost of materials, but in part to the disaster at the Treadwell mine and the depletion of some of the richer placers.

During the year Alaska also produced silver valued at \$1,021,055, coal valued at \$265,317, lead valued at \$146,584, tin valued at \$123,300, antimony valued at \$28,000, and tungsten chromium, petroleum, marble, gypsum, graphite and platinum valued at \$217,990.

Since 1880 Alaska has produced \$390,286,124 in gold, silver, copper and other minerals. Of this amount \$292,758,000 represents the value of the gold and \$88,644,468 that of the copper.

ALASKA'S SALMON INDUSTRY.

[From the report of Gov. Thomas Riggs, Jr.]

As in previous years, the salmon industry remained the predominant factor in the fisheries of the territory in 1917. The value of its output was several times that of all the other fishery products combined. All five species of salmon taken in Alaskan waters are used to the fullest possible extent. The total output in 1917 exceeded both in quantity and value that of any previous year.

The commercial methods of preserving salmon in Alaska for future use are by canning, mild curing, pickling, freezing, dry salting, drying and smoking. There is also a considerable trade in fresh salmon.

In 1917 the total number of salmon taken in Alaska was 92,600,495. The take by species was as follows: Coho, or silver, 2,104,253; chum, or keta, 8,527,578; humpback, or pink, 44,875,241; king, or spring, 596,346; red, or sockeye, 36,497,047. The total take in 1916 was 72,055,971, or 20,544,524 less than in 1917. Comparing the take by species, more chums, humpbacks and reds were taken in 1917 than in 1916, while the take of cohoes and kings was greater in 1916.

The value of the output of canned salmon in 1917 represented about 97 per cent of the value of the total products of the salmon industry. The investment in the salmon canning industry amounted to \$46,865,271, of which \$19,929,055 was in southeast Alaska, \$9,412,791 in central Alaska and \$17,523,425 in western Alaska. The total investment in 1916 was \$34,100,853, or \$12,764,418 less than in 1917. In each of the three sections mentioned there was a larger investment in the salmon canning industry in 1917 than in 1916. The number of persons engaged in 1917 was 23,350, an increase of 4,110 over 1916. The output of canned salmon in 1917 consisted of 5,047,289 cases, valued at \$46,304,890, as compared with 4,900,627 cases in 1916, valued at \$23,269,423. The pack and value, according to species, in 1917 were as follows: Coho, or silver, 193,231 cases, valued at \$1,682,745; chum, or keta, 906,747 cases, valued at \$5,572,047; humpback, or pink, 2,296,976 cases, valued at \$14,794,062; king, or spring, 61,951 cases, valued at \$644,447; red, or sockeye, 2,488,381 cases, valued at \$23,610,789. In 1917 there were operated in the salmon industry 118 canneries, as compared with 100 in 1916.

PRESIDENT WILSON'S MESSAGE TO CONGRESS.

On Dec. 2, 1918, just before leaving for Europe to take part in the peace conference following the world war, President Wilson appeared before a joint session of congress and read the following message:

"Gentlemen of the Congress:
The year that has elapsed since I last stood before you to fulfill my constitutional duty to give to the congress from time to time information on the state of the union has been so crowded with great events, great processes and great results that I cannot hope to give you an adequate picture of its transactions or of the far reaching changes which have been wrought in the life of our nation and of the world. You have yourselves witnessed these things, as I have. It is too soon to assess them; and we who stand in the midst of them and are part of them are less qualified than men of another generation will be to say what they mean or even what they have been.

"But some great outstanding facts are unmistakable and constitute in a sense part of the public business with which it is our duty to deal. To state them is to set the stage for the legislative and executive action which must grow out of them and which we have yet to shape and determine.

"A year ago we had sent 143,918 men overseas. Since then we have sent 1,950,513, an average of 162,542 each month, the number in fact rising in May last to 245,951, in June to 278,760, in July to 307,182 and continuing to reach similar figures in August and September—in August 289,570 and in September 257,438. No such movement of troops ever took place before across 3,000 miles of sea, followed by adequate equipment and supplies, and carried safely through extraordinary dangers of attack—dangers which were alike strange and infinitely difficult to guard against. In all this movement only 7500 men were lost by enemy attacks—630 of whom were upon a single British transport which was sunk near the Orkney islands.

"I need not tell you what lay back of this great movement of men and material. It is not invidious to say that back of it lay a supporting organization of the industries of the country and all its productive activities more complete, more thorough in method and effective in results, more spirited and unflinching in purpose and effort than any other great belligerent had ever been able to effect.

"We profited greatly by the experience of the nations which had already been engaged for nearly three years in the exigent and exacting business, their every resource and every executive proficiency taxed to the utmost. We were the pupils. But we learned quickly and acted with a promptness and a readiness of co-operation that justify our great pride that we were able to serve the world with unparalleled energy and quick accomplishment.

High Praise for Troops.

"But it is not the physical scale and executive efficiency of preparation, supply, equipment, and dispatch that I would dwell upon, but the mettle and quality of the officers and men we sent over and of the sailors who kept the seas, and the spirit of the nation that stood behind them. No soldiers or sailors ever proved themselves more quickly ready for the test of battle or acquitted themselves with more splendid courage and achievement when put to the test. Those of us who played some part in directing the great processes by which the war was pushed irresistibly forward to the final triumph may now forget all that and delight our thoughts with the story of what our men did.

"Their officers understood the grim and exacting task they had undertaken and performed with audacity, efficiency and unhesitating courage that touch the story of convoy and battle with imperishable distinction at every turn, whether the enterprise were great or small—from their chiefs, Pershing and Sims, down to the youngest lieutenant; and their men were worthy of such men as hardly need to be commanded and so to their terri-

ble adventure blithely and with the quick intelligence of those who know just what it is they would accomplish.

"I am proud to be the fellow countryman of men of such stuff and valor. (Those of us who stayed at home did our duty; the war could not have been won or the gallant men who fought it given their opportunity to win it otherwise; but for many a long day we shall think ourselves 'accused' we were not there, and hold our manhoods cheap while any speaks that fought' with these at St. Mihiel or Thierry. The memory of those days of triumphant battle will go with these fortunate men to their graves; and each will have his favorite memory. 'Old men forget; yet all shall be forgot, but he'll remember with advantages what feats he did that day.'

"What we all thank God for with deepest gratitude is that our men went in force into the line of battle just at the critical moment, when the whole fate of the world seemed to hang in the balance, and threw their fresh strength into the ranks of freedom in time to turn the whole tide and sweep of the fateful struggle—turn it once for all, so that thenceforth it was back, back, back, for their enemies always back, never again forward! After that it was only a scant four months before the commanders of several empires knew themselves beaten; and now their very empires are in liquidation!

"And throughout it all how fine the spirit of the nation was! What unity of purpose, what untiring zeal! What elevation of purpose ran through all its splendid display of strength, its untiring accomplishment! I have said that those of us who stayed at home to do the work of organization and supply will always wish that we had been with the men whom we sustained by our labor; but we can never be ashamed. It has been an inspiring thing to be here in the midst of fine men who had turned aside from every private interest of their own and devoted the whole of their trained capacity to the tasks that supplied the sinews of the whole great undertaking! The patriotism, the unselfishness, the thoroughgoing devotion and distinguished capacity that marked their toil some labors, day after day, month after month, have made them fit mates and comrades of the men in the trenches and on the sea.

"And not the men here in Washington only. They have but directed the vast achievement. Throughout innumerable factories, upon innumerable farms, in the depths of coal mines and iron mines and copper mines, wherever the stuffs of industry were to be obtained, as prepared, in the shipyards, on the railroads at the docks, on the sea, in every labor that was needed to sustain the battle lines, men have vied with each other to do their part and do it well. They can look any man at arms in the face, and say we also strove to win and gave the best that was in us to make our fleets and armies sure of their triumph!

Woman Suffrage.

"And what shall we say of the women—of their instant intelligence, quickening every task that they touched, their capacity for organization and co-operation, which gave their action discipline and enhanced the effectiveness of everything they attempted; their aptitude at tasks to which they had never before set their hands; their utter self-sacrifice alike in what they did and what they gave? Their contribution to the great result is beyond appraisal. They have added a new luster to the annals of American womanhood.

"The least tribute we can pay them is to make them the equals of men in political rights as they have proved themselves their equals in every field of practical work they have entered, whether for themselves or for their country. These great days of completed achievement would be sadly marred were we to omit that act of justice. Besides the immense practical services they have rendered,

the women of the country have been the moving spirits in the systematic economies by which our people have voluntarily assisted to supply the suffering peoples of the world and the armies upon every front with food and everything else that we had that might serve the common cause. The details of such a story can never be fully written but we carry them at our hearts and thank God that we can say that we are the kinsmen of such.

Turn to Tasks of Peace.

"And now we are sure of the great triumph for which every sacrifice was made. It has come, come in its completeness, and with the pride and inspiration of these days of achievement quick within us we turn to the tasks of peace again—peace secure against the violence of irresponsible monarchs and ambitious military coteries—and make ready for a new order, for new foundations of justice and fair dealing.

"We are about to give order and organization to this peace not only for ourselves but for the other peoples of the world as well, so far as they will suffer us to serve them. It is international justice that we seek, not domestic safety merely.

Settlement with Colombia.

"Our thoughts have dwelt of late upon Europe, upon Asia, upon the near and the far east, very little upon the acts of peace and accommodation that wait to be performed at our own doors. While we are adjusting our relations with the rest of the world, is it not of capital importance that we should clear away all grounds of misunderstanding with our immediate neighbors and give proof of the friendship we really feel? I hope that the members of the senate will permit me to speak once more of the unratified treaty of friendship and adjustment with the republic of Colombia. I very earnestly urge upon them an early and favorable action upon this vital matter. I believe that they will feel with me that the stage of affairs is now set for such action as will be not only just but generous and in the spirit of the new age upon which we have so happily entered.

Economic Readjustment.

"So far as our domestic affairs are concerned, the problem of our return to peace is a problem of economic and industrial readjustment. That problem is less serious for us than it may turn out to be for the nations which have suffered the disarrangements and the losses of war longer than we. Our people, moreover, do not wait to be coached and led. They know their own business, are quick and resourceful at every readjustment, definite in purpose and self-reliant in action.

"Any leading strings we might seek to put them in would speedily become hopelessly tangled, because they would pay no attention to them and go their own way. All that we can do as their legislators and executive servants is to mediate the process of change here, there and elsewhere as we may. I have heard much counsel as to the plans that should be formed and personally conducted to a happy consummation, but from no quarter have I seen any general scheme of 'reconstruction' emerge which I thought it likely we could force our spirited business men and self-reliant laborers to accept with due pliancy and obedience.

"While the war lasted we set up many agencies by which to direct the industries of the country in the services it was necessary for them to render by which to make sure of an abundant supply of the materials needed, by which to check undertakings that could for the time be dispensed with and stimulate those that were most serviceable in war, by which to gain for the purchasing departments of the government a certain control over the prices of essential articles and materials, by which to restrain trade with alien enemies, make the most of the available shipping, and systematize financial transactions, both public and private, so that there would be no unnecessary conflict or confusion, by which, in

short, to put every material energy of the country in harness to draw the common load and make of us one team in the accomplishment of a great task.

"But the moment we took the armistice to have been signed we took the harness off. Raw materials upon which the government had kept its hand for fear there should not be enough for the industries that supplied the armies have been released and put into the general market again. Great industrial plants whose whole output and machinery had been taken over for the uses of the government have been set free to return to the uses to which they were put before the war. It has not been possible to remove so readily or so quickly the control of foodstuffs and of shipping, because the world has still to be fed from our granaries and the ships are still needed to send supplies to our men overseas and to bring the men back as fast as the disturbed conditions on the other side of the water permit; but even these restraints are being relaxed as much as possible and more and more as the weeks go by.

Return to Peace Basis.

"Never before have there been agencies in existence in this country which knew so much of the field of supply of labor, of industry as the war industries board, the war trade board, the labor department, the food administration and the fuel administration have known since their labors became thoroughly systematized; and they have not been isolated agencies; they have been directed by men who represent the permanent departments of the government and so have been the centers of unified and co-operative action. It has been the policy of the executive, therefore, since the armistice was assured (which is in effect a complete submission of the enemy) to put the knowledge of these bodies at the disposal of the business men of the country and to offer their intelligent mediation at every point and in every matter where it was desired. It is surprising how fast the process of return to a peace footing has moved in the three weeks since the fighting stopped. It promises to outrun any inquiry that may be instituted and any aid that may be offered. It will not be easy to direct it any better than it will direct itself. The American business man is of quick initiative.

Employment for Soldiers.

"The ordinary and normal processes of private initiative will not, however, provide immediate employment for all of the men of our returning armies. Those who are of trained capacity, those who are skilled workmen, those who have acquired familiarity with established businesses, those who are ready and willing to go to the farms, as those whose aptitudes are known or who be sought out by employers will find no difficulty, it is safe to say, in finding place and employment. But there will be others who will be at a loss where to gain a livelihood unless pains are taken to guide them and put them in the way of work. There will be a large floating residuum of labor which should not be left wholly to shift for itself. It seems to me important, therefore, that the development of public works of every sort should be promptly resumed, in order that opportunities should be created for unskilled labor in particular, and that plans should be made for such developments of our unused lands and our natural resources as we have hitherto lacked stimulation to undertake.

Reclamation Plan Indorsed.

"I particularly direct your attention to the very practical plans which the secretary of the interior has developed in his annual report and are your countrymen for the reclamation of arid swamp and cut over lands which might, if the states were willing and able to co-operate, redeem some 300,000,000 acres of land for cultivation. There are said to be 15,000,000 or 20,000,000 acres of land in the west, at present arid, for whose reclamation water is available, if properly conserved. There are about 230,000,000 acres from which the forests have been cut, but which have

never yet been cleared for the plow and which lie waste and desolate. These lie scattered all over the union. And there are nearly 80,000,000 acres of land that lie under swamps or subject to periodical overflow, or are too wet for anything but grazing, which it is perfectly feasible to drain and protect and redeem. The congress can at once direct thousands of returning soldiers to the reclamation of the arid and which it has already undertaken if it will but enlarge the plans and the appropriations which it has intrusted to the department of the interior. It is possible in dealing with our unused land to effect a great rural and agricultural development which will afford the best sort of opportunity to men who want to help themselves; and the secretary of the interior has thought the possible methods out in a way which is worthy of your most friendly attention.

Aid for Belgium and France.

"I have spoken of the control which must yet for a while, perhaps for a long while, be exercised over shipping because of the priority of service to which our forces overseas are entitled and which should also be accorded the shipments which are to save recently liberated peoples from starvation and many devastated regions from permanent ruin. May I not say a special word about the needs of Belgium and northern France? No sums of money paid by way of indemnity will serve themselves to save them from hopeless disadvantage for years to come. Something more must be done than merely find the money. If they had money and raw materials in abundance to-morrow they could not resume their place in the industry of the world—the very important place they held before the flame of war swept across them. Many of their factories are razed to the ground. Much of their machinery is destroyed or has been taken away. Their people are scattered and many of their best workmen are dead. Their markets will be taken by others if they are not in some special way assisted to rebuild their factories and replace their lost instruments of manufacture. They should not be left to the vicissitudes of the sharp competition for materials and for industrial facilities which is now to set in. I hope, therefore, that the congress will not be unwilling, if it should become necessary, to grant to some such agency as the war trade board the right to establish priorities of export and supply for the benefit of these people whom we have been so happy to assist in saving from the German terror and whom we must not now thoughtlessly leave to shift for themselves in a pitiless competitive market.

"For the steadying and facilitation of our own domestic business readjustments nothing is more important than the immediate determination of the taxes that are to be levied for 1918, 1919 and 1920. As much of the burden of taxation must be lifted from business as sound methods of financing the government will permit, and those who conduct the great essential industries of the country must be told as exactly as possible what obligations to the government they will be expected to meet in the years immediately ahead of them. It will be of serious consequence to the country to delay removing all uncertainty in the matter a single day longer than the right processes of delicate justice. It is idle to talk of successful and confident business reconstruction before those uncertainties are resolved.

"If the war had continued it would have been necessary to raise at least \$8,000,000,000 by taxation, payable in the year 1919; but the war has ended and I agree with the secretary of the treasury that it will be safe to reduce the amount to \$6,000,000,000. An immediate rapid decline in the expenses of the government is not to be looked for. Contracts made for war supplies will indeed be rapidly canceled and liquidated, but their immediate liquidation will make heavy drains on the treasury for the months just ahead of us.

Large Force Abroad.

"The maintenance of our forces on the other side of the sea is still necessary. A considerable proportion of those forces must remain in Europe during the period of occupation, and those which are brought home will be transported and demobilized at heavy expense for months to come. The interest on our war debt must, of course, be paid, and provision made for the retirement of the obligations of the government which represent it. But these demands will, of course, fall much below what a continuation of military operations would have entailed and \$6,000,000,000 should suffice to supply a sound foundation for the financial operations of the year.

"I entirely concur with the secretary of the treasury in recommending that the \$2,000,000,000 needed in addition to the \$4,000,000,000 provided by existing law be obtained from the profits which have accrued and shall accrue from war contracts and distinctively war business, but that these taxes be confined to the war profits accruing in 1918 or in 1919 from business originating in war contracts. I urge your acceptance of this recommendation that provision be made now, not subsequently, that the taxes to be paid in 1920 should be reduced from \$6,000,000,000 to \$4,000,000,000.

"Any arrangements less definite than these would add elements of doubt and confusion to the critical period of industrial readjustment through which the country must now immediately pass and which no true friend of the nation's essential business interests can afford to be responsible for creating or prolonging. Clearly determined conditions, clearly and simply charted, are indispensable to the economic revival and rapid industrial development which may confidently be expected if we act now and sweep all interrogation points away.

"I take it for granted that the congress will carry out the naval program which was undertaken before we entered the war. The secretary of the navy has submitted to your committees for authorization that part of the program which covers the building plans of the next three years. These plans have been prepared along the lines and in accordance with the policy which the congress established, not under the exceptional conditions of the war, but with the intention of adhering to a definite method of development for the navy. I earnestly recommend the uninterrupted pursuit of that policy. It would clearly be unwise for us to attempt to adjust our programs to a future world policy as yet undetermined.

Problem of Railroad Policy.

"The question which causes the greatest concern is the question of the policy to be adopted toward the railroads. I frankly turn to you for counsel upon it. I have no confident judgment of my own. I do not see how any thoughtful man can have who knows anything of the complexity of the problem. It is a problem which must be studied, studied immediately and studied without bias or prejudice. Nothing can be gained by becoming partisans of any particular plan of settlement.

"It was necessary that the administration of the railways should be taken over by the government so long as the war lasted. It would have been impossible otherwise to establish and carry through under a single direction the necessary priorities of shipments. It would have been impossible otherwise to combine maximum production at the factories and mines and farms with the maximum possible car supply to take the products to the ports and markets; impossible to route troop shipments and freight shipments without regard to the advantage or disadvantage of the roads employed; impossible to subordinate, when necessary, questions of convenience to the public necessity; impossible to give the necessary financial support to the roads from the public treasury. But all these necessities have now been served and the question is,

What is best for the railroads and for the public in the future?

"Exceptional circumstances and exceptional methods of administration were not needed to convince us that the railroads were not equal to the immense tasks of transportation imposed upon them by the rapid and continuous development of the industries of the country. We knew that already. And we knew that they were unequal to it, partly because their co-operation was rendered impossible by law and their competition made obligatory, so that it has been impossible to assign to them severally the traffic which best could be carried by their respective lines in the interest of expedition and national economy.

"We may hope, I believe, for the formal conclusion of the war by treaty by the time spring has come. The twenty-one months to which the present control of the railways is limited after formal proclamation of peace shall have been made will run at the farthest, I take it for granted, only to the January of 1921. The full equipment of the railways which the federal administration had planned could not be completed within any such period. The present law does not permit the use of the revenues of the several roads for the execution of such plans except by formal contract with their directors, some of whom will consent, while some will not, and therefore does not afford sufficient authority to undertake improvements upon the scale upon which it would be necessary to undertake them. Every approach to this difficult subject matter of decision brings us face to face, therefore, with this unanswered question: What is right that we should do with the railroads, in the interest of the public and in fairness to their owners?

"Let me say at once that I have no answer ready. The only thing that is perfectly clear to me is that it is not fair either to the public or to the owners of the railroads to leave the question unanswered and that it will presently become my duty to relinquish control of the roads even before the expiration of the statutory period, unless there should appear some clear prospect in the meantime of a legislative solution. Their release would at least produce one element of a solution, namely, certainly and a quick stimulation of private initiative.

"I believe that it will be serviceable for me to set forth as explicitly as possible the alternative courses that lie open to our choice. We can simply release the roads and go back to the old conditions of private management, unrestricted competition and multiform regulation by both state and federal authorities; or we can go to the opposite extreme and establish complete government control, accompanied, if necessary, by actual government ownership; or we can adopt an intermediate course of modified private management under a more unified and affirmative public regulation and under such alterations of the law as will permit wasteful competition to be avoided and a considerable degree of unification of administration to be effected, as, for example, by regional corporations under which the railways of a definable area would be in effect combined in single systems.

"The one conclusion that I am ready to state with confidence is that it would be a disservice alike to the country and to the owners of the railroads to return to the old conditions unmodified. Those are conditions of restraint without development. There is nothing affirmative or helpful about them. What the country chiefly needs is that all its means of transportation should be developed, its railways, its waterways, its highways and its countryside roads. Some new element of policy, therefore, is absolutely necessary—necessary for the service of the public, necessary for the release of credit to those who are administering the railways, necessary for the protection of their security holders. The old policy may be changed much or little, but surely it cannot wisely be left as it was. I hope that the congress will have a complete and impartial

study of the whole problem instituted at once and prosecuted as rapidly as possible. I stand ready and anxious to release the roads from the present control and I must do so at a very early date if by waiting until the statutory limit of time is reached I shall be merely prolonging the period of doubt and uncertainty which is hurtful to every interest concerned.

"My Paramount Duty to Go"

"I welcome this occasion to announce to the congress my purpose to join in Paris the representatives of the governments with which we have been associated in the war against the central empires for the purpose of discussing with them the main features of the treaty of peace. I realize the great inconveniences that will attend my leaving the country, particularly at this time, but the conclusion that it was my paramount duty to go has been forced upon me by considerations which I hope will seem as conclusive to you as they have seemed to me.

"I shall be in close touch with you and with affairs on this side the water, and you will know all that I do. At my request the French and English governments have absolutely removed the censorship of cable news which until within a fortnight they had maintained, and there is now no censorship whatever exercised at this end except upon attempted trade communications with enemy countries.

"It has been necessary to keep an open wire constantly available between Paris and the department of state and another between France and the department of war. In order that this might be done with the least possible interference with the other uses of the cables, I have temporarily taken over the control of both cables in order that they may be used as a single system. I did so at the advice of the most experienced cable officials, and I hope that the results will justify my hope that the news of the next few months may pass with the utmost freedom and with the least possible delay from each side of the sea to the other.

"May I not hope, gentlemen of the congress, that in the delicate tasks I shall have to perform on the other side of the sea, in my efforts truly and faithfully to interpret the principles and purposes of the country we love, I may have the encouragement and the added strength of your united support? I realize the magnitude and difficulty of the duty I am undertaking; am poignantly aware of its grave responsibilities.

"I am the servant of the nation. I can have no private thought or purpose of my own in performing such an errand. I go to give the best that is in me to the common settlements which I must now assist in arriving at in conference with the other working heads of the associated governments. I shall count upon your friendly countenance and encouragement.

"It shall not be inaccessible. The cables and the wireless will render me available for any counsel or service you may desire of me, and I shall be happy in the thought that I am constantly in touch with the weighty matters of domestic policy with which we shall have to deal. I shall make my absence as brief as possible and shall hope to return with the happy assurance that it has been possible to translate into action the great ideals for which America has striven."

FEDERAL BOARD FOR VOCATIONAL TRAINING.

Appointed by the president.

Arthur E. Holder, Iowa; three year term.
Charles A. Greathouse, Indiana; two year term.
James Phinney Munroe, Massachusetts; one year term.

Ex Office Members—Secretary of agriculture, secretary of commerce, secretary of labor and commissioner of education.

WOMAN SUFFRAGE.

THE SUSAN B. ANTHONY AMENDMENT.

In the national house of representatives Jan. 10, 1918, a resolution was adopted proposing an amendment to the constitution of the United States extending the right of suffrage to women. The resolution required a two-thirds vote for passage and this was just attained, the vote standing 274 yeas to 136 nays. Those voting for the amendment included 104 democrats, 165 republicans and 5 independents; those voting against it included 102 democrats, 33 republicans and 1 independent. Interest in the matter was great and several congressmen, among them James R. Mann of Chicago, came from hospitals to the house to cast their votes. The resolution as adopted read:

"House resolution No. 1.

"Proposing an amendment to the constitution of the United States extending the right of suffrage to women.

"Resolved, by the senate and house of representatives of the United States of America in congress assembled (two-thirds of each house concurring therein), That the following article be proposed to the legislatures of the several states as an amendment to the constitution of the United States, which, when ratified by three-fourths of the said legislatures, shall be valid as part of said constitution, namely:

"Article —, Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any state on account of sex.

"Sec. 2. Congress shall have power by appropriate legislation to enforce the provisions of this article."

The foregoing is what is popularly known as the Susan B. Anthony amendment.

APPEAL BY PRESIDENT WILSON.

President Wilson appeared in the senate chamber Sept. 30 and made the following address in favor of granting women the right to vote:

"Gentlemen of the Senate: The unusual circumstances of a world war, in which we stand and are judged in the view not only of our own people and our own consciences, but also in the view of all nations and peoples, will, I hope, justify in your thought, as it does in mine, the message I have come to bring you.

"I regard the concurrence of the senate in the constitutional amendment proposing the extension of the suffrage to women as vitally essential to the successful prosecution of the great war of humanity in which we are engaged. I have come to urge upon you the considerations which have led me to that conclusion. It is not only my privilege, it is also my duty to apprise you of every circumstance and element involved in this momentous struggle, which seems to me to affect its very process and its outcome. It is my duty to win the war and to ask you to remove every obstacle that stands in the way of winning it.

"I have assumed that the senate would concur in the amendment because no disputable principle is involved, but only a question of the method by which the suffrage is to be extended to women. There is and can be no party issue involved in it. Both of our great national parties are pledged, explicitly pledged, to equality of suffrage for the women of the country.

"Neither party, therefore, it seems to me, can justify hesitation as to the method of obtaining it, can rightfully hesitate to substitute federal initiative for state initiative. If the early adoption of this measure is necessary to the successful prosecution of the war, and if the method of state action proposed in the party platforms of 1916 is impracticable within any reasonable length of time, if practical at all.

"And its adoption is, in my judgment, clearly necessary to the successful prosecution of the war and the successful realization of the objects for which the war is being fought.

"That judgment I take the liberty of urging upon you with solemn earnestness for reasons which I shall state very frankly and which I shall hope will seem as conclusive to you as they seem to me.

"This is a people's war and the people's thinking constitutes its atmosphere and morale, not the predilections of the drawing room or the political considerations of the caucuses. If we be indeed democrats and wish to lead the world to democracy we can ask other peoples to accept in proof of our sincerity and our ability to lead them whither they wish to be led nothing less persuasive and convincing than our actions. Our professions will not suffice.

"Verification must be forthcoming when verification is asked for. And in this case verification is asked for—asked for in this particular matter. You ask by whom. Not through diplomatic channels. Not by foreign ministers. Not by the intimations of parliaments. It is asked for by the anxious, expectant, suffering peoples with whom we are dealing and who are willing to put their destinies in some measure in our hands, if they are sure that we wish the same things that they do.

"I do not speak by conjecture. It is not alone the voices of statesmen and of newspapers that reach me, and the voices of foolish and intemperate agitators do not reach me at all. Through many, many channels I have been made aware what the plain, struggling, workaday folk are thinking upon whom the chief terror and suffering of this tragedy fall. They are looking to the great, powerful, famous democracy of the west to lead them to the new day for which they have so long waited; and they think, in their logical simplicity, that democracy means that women shall play their part in affairs alongside men and upon an equal footing with them. If we reject measures like this in ignorant defiance of what a new age has brought forth, of what they have seen but we have not, they will cease to believe in us; they will cease to follow or to trust us.

"They have seen their own governments accept this interpretation of democracy—seen old governments like that of Great Britain, which did not profess to be democratic, promise readily and as of course this justice to women, though they had before refused it; the strange revelations of this war having made many things new and plain to governments as well as to peoples.

"Are we alone to refuse to learn the lesson? Are we alone to ask and take the utmost that our women can give—service and sacrifice of every kind—and still say we do not see what title that gives them to stand by our sides in the guidance of the affairs of their nation and ours? We have made partners of the women in this war; shall we admit them only to a partnership of suffering and sacrifice and toil and not to a partnership of privilege and right?

"This war could not have been fought, either by the other nations engaged or by America, if it had not been for the services of the women—services rendered in every sphere—not merely in the fields of effort in which we have been accustomed to see them work, but wherever men have worked and upon the very skirts and edges of the battle itself. We shall not only be distrusted but shall deserve to be distrusted if we do not enfranchise them with the fullest possible

enfranchisement, as it is now certain that the other great free nations will enfranchise them.

"We cannot isolate our thought and action in such a matter from the thought of the rest of the world. We must either conform or deliberately reject what they propose and resign the leadership of liberal minds to others.

"The women of America are too noble and too intelligent and too devoted to be slackers whether you give or withhold this thing that is mere justice; but I know the magic it will work in their thoughts and spirits if you give it to them. I propose it as I would propose to admit soldiers to the suffrage, the men fighting in the field for our liberties and the liberties of the world, were they excluded. The tasks of the women lie at the very heart of the war, and I know how much stronger that heart will beat if you do this just thing and show our women that you trust them as much as you in fact and of necessity depend upon them.

"Have I said that the passage of this amendment is a vitally necessary war measure, and do you need further proof, do you stand in need of the trust of other peoples and of the trust of our own women? Is that trust an asset or is it not? I tell you plainly, as the commander in chief of our armies and of the gallant men in our fleets, as the present spokesman of this people in our dealings with the men and women throughout the world who are now our partners; as the responsible head of a great government which stands and is questioned day by day as to its purposes, its principles, its hopes, whether they be serviceable to men everywhere or only to itself, and who must himself answer these questionings or be shamed; as the guide and director of forces caught in the grip of war and by the same token in need of every material and spiritual resource this great nation possesses—I tell you plainly that this measure which I urge upon you is vital to the winning of the war and to the energies alike of preparation and of battle.

"And not to the winning of the war only. It is vital to the right solution of the great problems which we must settle, and settle immediately, when the war is over. We shall need then in our vision of affairs, as we have never needed them before, the sympathy and insight and clear moral instinct of the women of the world.

"The problems of that time will strike to the roots of many things that we have not hitherto questioned, and I, for one, believe that our safety in those questioning days, as well as our comprehension of matters that touch society to the quick, will depend upon the direct and authoritative participation of women in our councils. We shall need their moral sense to preserve what is right and fine and worthy in our system of life as well as to discover just what it is that ought to be purified and reformed. Without their counselings we shall be only half wise.

"That is my case. This is my appeal. Many may deny its validity, if they choose, but no one can brush aside or answer the arguments upon which it is based. The executive tasks of this war rest upon me. I ask that you lighten them and place in my hands instruments, spiritual instruments, which I do not now possess, which I sorely need, and which I have daily to apologize for not being able to employ."

DEFEATED IN SENATE.

Ignoring the president's appeal the senate by a vote of 53 yeas to 31 nays defeated the suffrage amendment on Oct. 1, the required two-thirds affirmative vote lacking two votes. Senator A. A. Jones of New Mexico, who

favored the amendment, voted in the negative so as to be in a position to move for a reconsideration on the next legislative day. Twenty-one democrats and ten republicans voted in the negative. Omitting Mr. Jones, the democrats were: Bankhead, Benet, Fletcher, Gulon, Hardwick, Hitchcock, Martin (Va.), Overman, Pomerene, Reed, Saulsbury, Shields, Simmons, Smith (Ga.), Smith (Md.), Smith (S. C.), Trammell, Underwood, Williams, Wolcott. The republicans were Baird, Brandegee, Dillingham, Drew, Hale, Lodge, McLean, Penrose, Wadsworth, Weeks.

The vote was reconsidered later and the amendment remained on the calendar.

WOMAN SUFFRAGE STATES.

Women now have the right to vote in the following states:

Alaska (territory).	Idaho.	New York.
Arizona.	Illinois*.	Oregon.
California.	Kansas.	Utah.
Colorado.	Montana.	Washington.
	Nevada.	Wyoming.

*For offices not mentioned in state constitution.

States allowing partial suffrage to women are: Arkansas, Connecticut, Delaware, Florida, Iowa, Indiana, Illinois, Kentucky, Michigan, Massachusetts, Minnesota, Mississippi, Nebraska, New Hampshire, New Jersey, New Mexico, North Dakota, Oklahoma, Ohio (defeated full suffrage in 1912 and 1914), South Dakota, Texas, Vermont and Wisconsin.

The Texas legislature passed a bill, signed by the governor March 26, 1918, giving women the right to vote in primary elections and in conventions. Measure was declared unconstitutional by Judge V. M. Taylor Sept. 26.

The British house of commons by a majority of 249 adopted a resolution Oct. 23, 1918, in favor of women's sitting in parliament.

In the upper house of the Swedish parliament April 28, 1918, a bill for woman suffrage was defeated 62 to 36.

WOMAN SUFFRAGE IN HAWAII.

The legislature of the territory of Hawaii was authorized by an act passed by congress and approved June 13, 1918, to provide that in all elections authorized to be held by the organic act of the territory female citizens possessing the same qualifications as male citizens shall be entitled to vote. The legislature was further vested with the power to submit to the voters of the territory the question as to whether women shall be empowered to vote.

LOYD'S.

Lloyd's is an association of underwriters in London, England. Its name is derived from a coffee house kept by Edward Lloyd in Tower street in the 17th century, where underwriters met to transact business. They remained there until 1774, when they removed to the Royal Exchange, where they have since remained. Lloyd's was incorporated in 1871 by an act of parliament, the act being amended in 1911. It does not undertake insurance business as a corporation. This is conducted by its members on their own account but in accordance with the rules of the society. Lloyd's is also an organization for the collection and distribution of maritime intelligence which is published in Lloyd's List. This paper, originally established in 1696 as Lloyd's News, is the oldest newspaper in Europe with the exception of the London Gazette. Various works are published by the corporation for the benefit of the mercantile community.

WAR REVENUE ACT OF OCT. 3, 1917.

The provisions of the war revenue act of Oct. 3, 1917, are subject to change by new legislation pending before congress when this edition of the Almanac and Year-Book went to press, but the act is reprinted here for purposes of comparison. It follows:

Be it enacted by the senate and house of representatives of the United States of America in congress assembled:

Title I.—War Income Tax.

Section 1. That in addition to the normal tax imposed by subdivision (a) of section 1 of the act entitled "An act to increase the revenue and for other purposes," approved Sept. 8, 1916, there shall be levied, assessed, collected and paid a like normal tax of 2 per centum upon the income of every individual, a citizen upon or resident of the United States, received in the calendar year 1917 and every calendar year thereafter.

Sec. 2. That in addition to the additional tax imposed by subdivision (b) of section 1 of such act of Sept. 8, 1916, there shall be levied, assessed, collected and paid a like additional tax upon the income of every individual received in the calendar year 1917 and every calendar year thereafter, as follows:

One per centum per annum upon the amount by which the total net income exceeds \$5,000 and does not exceed \$7,500.

Two per centum per annum upon the amount by which the total net income exceeds \$7,500 and does not exceed \$10,000.

Three per centum per annum upon the amount by which the total net income exceeds \$10,000 and does not exceed \$12,500.

Four per centum per annum upon the amount by which the total net income exceeds \$12,500 and does not exceed \$15,000.

Five per centum per annum upon the amount by which the total net income exceeds \$15,000 and does not exceed \$20,000.

Seven per centum per annum upon the amount by which the total net income exceeds \$20,000 and does not exceed \$40,000.

Ten per centum per annum upon the amount by which the total net income exceeds \$40,000 and does not exceed \$60,000.

Fourteen per centum per annum upon the amount by which the total net income exceeds \$60,000 and does not exceed \$80,000.

Eighteen per centum per annum upon the amount by which the total net income exceeds \$80,000 and does not exceed \$100,000.

Twenty-two per centum per annum upon the amount by which the total net income exceeds \$100,000 and does not exceed \$150,000.

Twenty-five per centum per annum upon the amount by which the total net income exceeds \$150,000 and does not exceed \$200,000.

Thirty per centum per annum upon the amount by which the total net income exceeds \$200,000 and does not exceed \$250,000.

Thirty-four per centum per annum upon the amount by which the total net income exceeds \$250,000 and does not exceed \$300,000.

Thirty-seven per centum per annum upon the amount by which the total net income exceeds \$300,000 and does not exceed \$500,000.

Forty per centum per annum upon the amount by which the total net income exceeds \$500,000 and does not exceed \$750,000.

Forty-five per centum per annum upon the amount by which the total net income exceeds \$750,000 and does not exceed \$1,000,000.

Fifty per centum per annum upon the amount by which the total net income exceeds \$1,000,000.

Sec. 3. That the taxes imposed by sections 1 and 2 of this act shall be computed, levied, assessed, collected and paid upon the same basis and in the same manner as the similar taxes imposed by section 1 of such act of Sept. 8, 1916, except that in the case of the tax imposed by section 1 of this act (a) the exemptions of \$3,000 and \$4,000 provided in section 7 of such act of Sept. 8, 1916, as amended by this act, shall be, respectively, \$1,000 and \$2,000, and (b) the returns required under subdivisions (b) and (c) of section 8 of such act as amended by this act shall be required in the cases of net incomes of

\$1,000 or over in the case of unmarried persons, and \$2,000 or over in the case of married persons, instead of \$3,000 or over, as therein provided, and (c) the provisions of subdivision (c) of section 9 of such act, as amended by this act, requiring the normal tax of individuals on income derived from interest to be deducted and withheld at the source of the income shall not apply to the new 2 per centum normal tax prescribed in section 1 of this act until on and after Jan. 1, 1918, and thereafter only one 2 per centum normal tax shall be deducted and withheld at the source under the provisions of such subdivision (c), and any further normal tax for which the recipient of such income is liable under this act or such act of Sept. 8, 1916, as amended by this act, shall be paid by this recipient.

Sec. 4. That in addition to the tax imposed by subdivision (a) of section 10 of such act of Sept. 8, 1916, as amended by this act, there shall be levied, assessed, collected and paid a like tax of 4 per centum upon the income received in the calendar year 1917 and every calendar year thereafter, by every corporation, joint stock company or association or insurance company subject to the tax imposed by that subdivision of that section, except that if it has fixed its own fiscal year the tax imposed by this section for the fiscal year ending during the calendar year 1917 shall be levied, assessed, collected and paid only on that proportion of its income for such fiscal year which the period between Jan. 1, 1917, and the end of such fiscal year bears to the whole of such fiscal year.

The tax imposed by this section shall be computed, levied, assessed, collected and paid upon the same incomes and in the same manner as the tax imposed by subdivision (a) of section 10 of such act of Sept. 8, 1916, as amended by this act, except that for the purpose of the tax imposed by this section the income embraced in a return of a corporation, joint stock company or association or insurance company shall be credited with the amount received as dividends upon the stock or from the net earnings of any other corporation, joint stock company or association or insurance company which is taxable upon its net income as provided in this title.

Sec. 5. That the provisions of this title shall not extend to Porto Rico or the Philippine islands, and the Porto Rican or Philippine legislature shall have power by due enactment to amend, alter, modify or repeal the income tax laws in force in Porto Rico or the Philippine islands, respectively.

Title II.—War Excess Profits Tax.

Sec. 200. That when used in this title—
The term "corporation" includes joint stock companies or associations and insurance companies;

The term "domestic" means created under the law of the United States or of any state, territory, or district thereof, and the term "foreign" means created under the law of any other possession of the United States or of any foreign country or government;

The term "United States" means only the states, the territories of Alaska and Hawaii and the District of Columbia;

The term "taxable year" means the twelve months ending Dec. 31, excepting in the case of a corporation or partnership which has fixed its own fiscal year, in which case it means such fiscal year. The first taxable year shall be the year ending Dec. 31, 1917, except that in the case of a corporation or partnership which has fixed its own fiscal year it shall be the fiscal year ending during the calendar year 1917. If a corporation or partnership prior to March 1, 1918, makes a return covering its own fiscal year, and includes therein the income received during that part of the fiscal year falling within the calendar year 1916, the tax for such taxable year shall be that proportion of the tax computed upon the net income during such fiscal year which the time from Jan. 1, 1917, to the end of such fiscal year bears to the full fiscal year; and

The term "prewar period" means the calendar years 1911, 1912 and 1913, or, if a corporation or partnership was not in existence or an individual was not engaged in a trade or business during the whole of such period, then as many of such years during the whole of which the corporation or partnership was in existence or the individual was engaged in the trade or business.

The terms "trade" and "business" include professions and occupations.

The term "net income" means in the case of a foreign corporation or partnership or a non-resident alien individual the net income received from sources within the United States.

Sec. 201. That in addition to the taxes under existing law and under this act there shall be levied, assessed, collected and paid for each taxable year upon the income of every corporation, partnership or individual, a tax (hereinafter in this title referred to as the tax) equal to the following percentages of the net income:

Twenty per centum of the amount of the net income in excess of the deduction (determined as hereinafter provided) and not in excess of 15 per centum of the invested capital for the taxable year;

Twenty-five per centum of the amount of the net income in excess of 15 per centum and not in excess of 20 per centum of such capital;

Thirty-five per centum of the amount of the net income in excess of 20 per centum and not in excess of 25 per centum of such capital;

Forty-five per centum of the amount of the net income in excess of 25 per centum and not in excess of 33 per centum of such capital; and

Sixty per centum of the amount of the net income in excess of 33 per centum of such capital.

For the purpose of this title every corporation or partnership not exempt under the provisions of this section shall be deemed to be engaged in business, and all the trades and businesses in which it is engaged shall be treated as a single trade or business, and all its income from whatever source derived shall be deemed to be received from such trade or business.

This title shall apply to all trades or businesses of whatever description, whether continuously carried on or not, except—

(a) In the case of officers and employes under the United States, or any state, territory or the District of Columbia, or any local subdivision thereof, the compensation or fees received by them as such officers or employes;

(b) Corporations exempt from tax under the provisions of section 11 of title 1, of such act of Sept. 8, 1916, as amended by this act, and partnerships and individuals carrying on or doing the same business, or coming within the same description; and

(c) Incomes derived from the business of life, health and accident insurance combined in one policy issued on the weekly premium payment plan.

Sec. 202. That the tax shall not be imposed in the case of the trade or business of a foreign corporation or partnership or a nonresident alien individual, the net income of which trade or business during the taxable year is less than \$3,000.

Sec. 203. That for the purposes of this title the deduction shall be as follows, except as otherwise in this title provided:

(a) In the case of a domestic corporation, the sum of (1) an amount equal to the same percentage of the invested capital for the taxable year which the average amount of the annual net income of the trade or business during the prewar period was of the invested capital for the prewar period (but not less than 7 or more than 9 per centum of the invested capital for the taxable year), and (2) \$3,000;

(b) In the case of a domestic partnership of a citizen or resident of the United States, the sum of (1) an amount equal to the same percentage of the invested capital for the taxable year which the average amount of the annual

net income of the trade or business during the prewar period was of the invested capital for the prewar period (but not less than 7 or more than 9 per centum of the invested capital for the taxable year), and (2) \$6,000;

(c) In the case of a foreign corporation or partnership or of a nonresident alien individual, an amount ascertained in the same manner as provided in subdivisions (a) and (b), without any exemption of \$3,000 or \$6,000.

(d) If the secretary of the treasury is unable satisfactorily to determine the average amount of the annual net income of the trade or business during the prewar period, the deduction shall be determined in the same manner as provided in section 205.

Sec. 204. That if a corporation or partnership was not in existence, or an individual was not engaged in the trade or business during the whole of any one calendar year during the prewar period, the deduction shall be an amount equal to 8 per centum of the invested capital for the taxable year, plus in the case of a domestic corporation \$3,000, and in the case of a domestic partnership or a citizen or resident of the United States, \$6,000.

A trade or business carried on by a corporation, partnership or individual, although formally organized or reorganized on or after Jan. 2, 1913, which is substantially a continuation of a trade or business carried on prior to that date, shall for the purpose of this title, be deemed to have been in existence prior to that date, and the net income and invested capital of its predecessor prior to that date shall be deemed to have been its net income and invested capital.

Sec. 205. (a) That if the secretary of the treasury, upon complaint, finds either (1) that during the prewar period a domestic corporation or partnership, or a citizen or resident of the United States, had no net income from the trade or business, or (2) that during the prewar period the percentage which the net income was of the invested capital, was low as compared with the percentage which the net income during such period of representative corporations, partnerships and individuals, engaged in a like or similar trade or business, was of their invested capital then the deduction shall be the sum of (1) an amount equal to the same percentage of its invested capital for the taxable year which the average deduction (determined in the same manner as provided in section 203, without including the \$3,000 or \$6,000 therein referred to) for such year, of representative corporations, partnerships or individuals, engaged in a like or similar trade or business, is of their average invested capital for such year, plus (2) in the case of a domestic corporation \$3,000, and in the case of a domestic partnership or a citizen or resident of the United States, \$6,000.

The percentage which the net income was of the invested capital in each trade or business shall be determined by the commissioner of internal revenue, in accordance with regulations prescribed by him with the approval of the secretary of the treasury. In the case of a corporation or partnership which has fixed its own fiscal year, the percentage determined for the calendar year ending during such fiscal year shall be used.

(b) The tax shall be assessed upon the basis of the deduction determined as provided in section 203, but the taxpayer claiming the benefit of this section may at the time of making the returns file a claim for abatement of the amount by which the tax so assessed exceeds a tax computed upon the basis of the deduction determined as provided in this section. In such event collection of the part of the tax covered by such claim for abatement shall not be made until the claim is decided, but if in the judgment of the commissioner of internal revenue the interests of the United States would be jeopardized thereby he may require the claimant to give a bond in such amount and with such sureties as the commissioner may think wise to safeguard such interests, conditioned for the payment of any tax found to be due, with the interest thereon.

and if such bond, satisfactory to the commissioner, is not given within such time as he prescribes, the full amount of tax assessed shall be collected and the amount overpaid, if any, shall upon final decision of the application be refunded as a tax erroneously or illegally collected.

Sec. 206. That for the purposes of this title the net income of a corporation shall be ascertained and returned (a) for the calendar years 1911 and 1912 upon the same basis and in the same manner as provided in section 38 of the act entitled "An act to provide revenue, equalize duties and encourage the industries of the United States, and for other purposes," approved Aug. 6, 1909, except that income taxes paid by it within the year imposed by the authority of the United States shall be included; (b) for the calendar year 1913 upon the same basis and in the same manner as provided in section 2 of the act entitled "An act to reduce tariff duties and to provide revenue for the government and for other purposes," approved Oct. 3, 1913, except that income taxes paid by it within the year imposed by the authority of the United States shall be included, and except that the amounts received by it as dividends upon the stock or from the net earnings of other corporations, joint stock companies or associations or insurance companies, subject to the tax imposed by section 2 of such act of Oct. 3, 1913, shall be deducted; and (c) for the taxable year upon the same basis and in the same manner as provided in title I. of the act entitled "An act to increase the revenue, and for other purposes," approved Sept. 8, 1916, as amended by this act, except that the amounts received by it as dividends upon the stock or from the net earnings of other corporations, joint stock companies or associations or insurance companies subject to the tax imposed by title I. of such act of Sept. 8, 1916, shall be deducted.

The net income of a partnership or individual shall be ascertained and returned for the calendar years 1911, 1912 and 1913, and for the taxable year, upon the same basis and in the same manner as provided in title I. of such act of Sept. 8, 1916, as amended by this act, except that the credit allowed by subdivision (b) of section 5 of such act shall be deducted. There shall be allowed (a) in the case of a domestic partnership the same deductions as allowed to individuals in subdivision (a) of section 5 of such act of Sept. 8, 1916, as amended by this act; and (b) in the case of a foreign partnership the same deductions as allowed to individuals in subdivision (a) of section 6 of such act as amended by this act.

Sec. 207. That as used in this title the term "invested capital" for any year means the average invested capital for the year as defined and limited in this title, averaged monthly. As used in this title, "invested capital" does not include stocks, bonds (other than obligations of the United States) or other assets, the income from which is not subject to the tax imposed by this title, nor money or other property borrowed, and means, subject to the above limitations:

(a) In the case of a corporation or partnership: (1) actual cash paid in, (2) the actual cash value of tangible property paid in other than cash, for stock or shares in such corporation or partnership, at the time of such payment (but in case such tangible property was paid in prior to Jan. 1, 1914, the actual cash value of such property as of Jan. 1, 1914, in no case to exceed the par value of the original stock or shares specifically issued therefor), and (3) paid in or earned surplus and undivided profits used or employed in the business, exclusive of undivided profits earned during the taxable year; provided that (a) the actual cash value of patents and copyrights paid in for stock or shares in such corporation or partnership, at the time of such payment, shall be included as invested capital, but not to exceed the par value of such stock or shares at the time of such payment, and (b) the good will, trade marks, trade brands, the franchise of a corporation or partnership,

or other intangible property, shall be included as invested capital if the corporation or partnership made payment bona fide therefor specifically as such in cash or tangible property, the value of such good will, trade mark, trade brand, franchise or intangible property, not to exceed the actual cash or actual cash value of the tangible property paid therefor at the time of such payment, but good will, trade marks, trade brands, franchise of a corporation or partnership, or other intangible property, bona fide purchased, prior to March 3, 1917, for and with interests or shares in a partnership or for and with shares in the capital stock of a corporation (issued prior to March 3, 1917) in an amount not to exceed on March 3, 1917, 20 per centum of the total interests or shares in the partnership or of the total shares of the capital stock of the corporation, shall be included in invested capital at a value not to exceed the actual cash value at the time of such purchase, and in case of issue of stock therefor not to exceed the par value of such stock:

(b) In the case of an individual, (1) actual cash paid into the trade or business, and (2) the actual cash value of tangible property paid into the trade or business, other than cash, at the time of such payment (but in case such tangible property was paid in prior to Jan. 1, 1914, the actual cash value of such property as of Jan. 1, 1914), and (3) the actual cash value of patents, copyrights, good will, trade marks, trade brands, franchises or other intangible property, paid into the trade or business, at the time of such payment, if payment was made therefor specifically as such in cash or tangible property, not to exceed the actual cash or actual cash value of the tangible property bona fide paid therefor at the time of such payment.

In the case of a foreign corporation or partnership or of a nonresident alien individual the term "invested capital" means that proportion of the entire invested capital, as defined and limited in this title, which the net income from sources within the United States bears to the entire net income.

Sec. 208. That in case of the reorganization, consolidation or change of ownership of a trade or business after March 3, 1917, an interest or control in such trade or business of 50 per centum or more remains in control of the same persons, corporations, associations, partnerships or any of them, then in ascertaining the invested capital of the trade or business no asset transferred or received from the prior trade or business shall be allowed a greater value than would have been allowed under this title in computing the invested capital of such prior trade or business if such asset had not been so transferred or received, unless such asset was paid for specifically as such, in cash or tangible property, and then not to exceed the actual cash or actual cash value of the tangible property paid therefor at the time of such payment.

Sec. 209. That in the case of a trade or business having no invested capital or not more than a nominal capital there shall be levied, assessed, collected and paid, in addition to the taxes and existing taxes and use of this act, a tax equivalent to 8 per centum of the net income of such trade or business in excess of the following deductibles: In the case of a domestic corporation \$3,000, and in the case of a domestic partnership or a citizen or resident of the United States \$6,000; in the case of all other trades or businesses, no deduction.

Sec. 210. That the secretary of the treasury is unable in any case satisfactorily to determine the invested capital, the amount of the deduction shall be the sum of (1) an amount equal to the same proportion of the net income of the trade or business received during the taxable year as the proportion which the average deduction (determined in the same manner as provided in section 203, without including the \$3,000 or \$6,000 therein referred to) for the same calendar year of representative corporations, partnerships and individuals, engaged in a like or similar trade or business, bears to the total net income of the trade or

business received by such corporations, partnerships and individuals, plus (2) in the case of a domestic corporation \$3,000, and in the case of a domestic partnership or a citizen or resident of the United States \$6,000.

For the purpose of this section the proportion between the deduction and the net income in each trade or business shall be determined by the commissioner of internal revenue in accordance with regulations prescribed by him, with the approval of the secretary of the treasury. In the case of a corporation or partnership which has fixed its own fiscal year, the proportion determined for the calendar year ending during such fiscal year shall be used.

Sec. 211. That every foreign partnership having a net income of \$3,000 or more for the taxable year, and every domestic partnership having a net income of \$6,000 or more for the taxable year, shall render a correct return of the income of the trade or business for the taxable year, setting forth specifically the gross income for such year and the deductions allowed in this title. Such returns shall be rendered at the same time and in the same manner as is prescribed for income tax returns under title I, of such act of Sept. 8, 1916, as amended by this act.

Sec. 212. That all administrative, special and general provisions of law, including the laws in relation to the assessment, remission, collection and refund of internal revenue taxes not heretofore specifically repealed, and not inconsistent with the provisions of this title, are hereby extended and made applicable to all the provisions of this title and to the tax herein imposed, and all provisions of title I, of such act of Sept. 8, 1916, as amended by this act, relating to returns and payment of the tax herein imposed, including penalties, and hereby made applicable to the tax imposed by this title.

Sec. 213. That the commissioner of internal revenue, with the approval of the secretary of the treasury, shall make all necessary regulations for carrying out the provisions of this title, and may require any corporation, partnership or individual subject to the provisions of this title, to furnish him with such facts, data and information as in his judgment are necessary to collect the tax imposed by this title.

Sec. 214. That title II, (sections 200 to 207 inclusive) of the act entitled "An act to provide increased revenue to defray the expenses of the increased appropriations for the army and navy, and the extensions of fortifications, and for other purposes," approved March 3, 1917, is hereby repealed.

Any amount heretofore or hereafter paid on account of the tax imposed by such title II, shall be credited toward the payment of the tax imposed by this title, and if the amount so paid exceeds the amount of such tax the excess shall be refunded as a tax erroneously or illegally collected.

Subdivision (1) of section 301 of such act of Sept. 8, 1916, is hereby amended so that the rate of tax for the taxable year 1917 shall be 10 per centum instead of 12½ per centum, as therein provided.

Subdivision (2) of such section is hereby amended to read as follows:

"(2) This section shall cease to be effect on and after Jan. 1, 1918."

Title III.—War Tax on Beverages.

Sec. 300. That on and after the passage of this act there shall be levied and collected on all distilled spirits in bond at that time or that have been or that may be then or hereafter produced in or imported into the United States, except such distilled spirits as are subject to the tax provided in section 303, in addition to the tax now imposed by law, a tax of \$1.10 (or, if withdrawn for beverage purposes or for use in the manufacture or production of any article used or intended for use as a beverage, a tax of \$2.10) on each proof gallon, or wine gallon when below proof, and a proportionate tax at a like rate on all fractional parts of such proof or wine gallon, to be paid by the distiller or importer, when withdrawn, and collected under the provisions of existing law.

That in addition to the tax under existing law there shall be levied and collected upon all perfumes hereafter imported into the United States containing distilled spirits, a tax of \$1.10 per wine gallon, and a proportionate tax at a like rate on all fractional parts of such wine gallon. Such tax shall be collected by the collector of customs and deposited as internal revenue collections, under such rules and regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe.

Sec. 301. That no distilled spirits produced after the passage of this act shall be imported into the United States from any foreign country, or from the West Indian islands recently acquired from Denmark (unless produced from products the growth of such islands, and not then into any state or territory or district of the United States in which the manufacture or sale of intoxicating liquor is prohibited), or from Porto Rico, or the Philippine islands. Under such rules, regulations and bonds as the secretary of the treasury may prescribe, the provisions of this section shall not apply to distilled spirits imported for other than (1) beverage purposes or (2) use in the manufacture or production of any article used or intended for use as a beverage.

Sec. 302. That at registered distilleries producing alcohol or other high proof spirits packages may be filed with such spirits reduced to not less than 200 proof from the receiving cisterns and tax paid without being entered into bonded warehouse. Such spirits may be also transferred from the receiving cisterns at such distilleries, by means of pipe lines, direct to storage tanks in the bonded warehouse and may be warehoused in such storage tanks. Such spirits may be also transferred in tanks or tank cars to general bonded warehouses for storage therein, either in storage tanks in such warehouses or in the tanks in which they were produced. Such spirits may also be transferred after tax payment from receiving cisterns or warehouse storage tanks to tanks or tank cars and may be transported in such tanks or tank cars to the premises of rectifiers of spirits. The commissioner of internal revenue, with the approval of the secretary of the treasury, is hereby empowered to prescribe all necessary regulations relating to the drawing off, transferring, gauging, storing and transporting such spirits; the records to be kept and returns to be made; the size and kind of packages and tanks to be used; the marking, branding, numbering and stamping of such packages and tanks; the kinds of stamps, if any, to be used, and the time and manner of paying the tax; the kind of bond and the penal sum of same. The tax prescribed by law must be paid before such spirits are removed from the distillery premises or from general bonded warehouse in the case of spirits transferred thereto, except as otherwise provided by law.

Under such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe, distilled spirits may hereafter be drawn from receiving cisterns and deposited in distillery warehouses without having affixed to the packages containing the same distillery warehouse stamps, and such packages, when so deposited in warehouse, may be withdrawn therefrom on the original gauge where the same have remained in such warehouse for a period not exceeding thirty days from the date of deposit.

Under such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe, the manufacture, warehousing, withdrawal and shipment, under the provisions of existing law, of ethyl alcohol for other than (1) beverage purposes or (2) use in the manufacture or production of any article used or intended for use as a beverage, and denatured alcohol, may be exempted from the provisions of section 3283, revised statutes of the United States.

Under such regulations as the commissioner

of internal revenue, with the approval of the secretary of the treasury, may prescribe, manufacturers of ethyl alcohol for other than beverage purposes may be granted permission under the provisions of section 3285, revised statutes of the United States, to fill fermenting tub in a sweet-mash distillery not oftener than once in forty-eight hours.

Sec. 303. That upon all distilled spirits produced or imported into the United States upon which the tax now imposed by law has been paid and which, on the day this act is passed, are held by a retailer in a quantity in excess of fifty gallons in the aggregate, or by any other person, corporation, partnership or association in any quantity, and which are intended for sale, there shall be levied, assessed, collected and paid a tax of \$1.10 (or, if intended for sale for beverage purposes or for use in the manufacture or production of any article used or intended for use as a beverage, a tax of \$2.10) on each proof gallon, and a proportionate tax at a like rate on all fractional parts of such proof gallon; Provided, That the tax on such distilled spirits in the custody of a court of bankruptcy in insolvency proceedings on June 1, 1917, shall be paid by the person to whom the court delivers such distilled spirits at the time of such delivery, to the extent that the amount thus delivered exceeds the fifty gallons hereinbefore provided.

Sec. 304. That in addition to the tax now imposed or imposed by this act on distilled spirits there shall be levied, assessed, collected and paid a tax of 15 cents on each proof gallon and a proportionate tax at a like rate on all fractional parts of such proof gallon on all distilled spirits or wines hereafter rectified, purified or refined in such manner, and on all mixtures hereafter produced in such manner, that the person so rectifying, purifying, refining or mixing the same is a rectifier within the meaning of section 3244, revised statutes, as amended, and on all such articles in the possession of such rectifier on the day this act is passed. Provided, That this tax shall not apply to vin produced by the redistillation of a pure spirit over juniper berries and other aromatics.

When the process of rectification is completed and the tax prescribed by this section has been paid it shall be unlawful for the rectifier or other dealer to reduce in proof or increase in volume such spirits or wine by the addition of water or other substance; nothing herein contained shall, however, prevent a rectifier from using alcohol in the process of rectification spirits already rectified and upon which the tax has theretofore been paid.

The tax imposed by this section shall not attach to cordials or liqueurs on which a tax is imposed and paid under the act entitled "An act to increase the revenue and for other purposes," approved Sept. 8, 1916, nor to the mixing and blending of wines, where such blending is for the sole purpose of perfecting such wines according to commercial standards, nor to blends made exclusively of two or more pure straight whiskies aged in wood for a period not less than four years and without the addition of coloring or flavoring matter or any other substance than pure water, and if not reduced below ninety proof. Provided, That such blended whiskies shall be exempt from tax under this section only when compounded under the immediate supervision of a revenue officer, in such tanks and under such conditions and supervision as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe.

All distilled spirits taxable under this section shall be subject to uniform regulations concerning the use thereof in the manufacture, blending, compounding, mixing, marking, branding and sale of whisky and rectified spirits, and no discrimination whatsoever shall be made by reason of a difference in the character of the material from which same may have been produced.

The business of a rectifier of spirits shall be carried on and the tax on rectified spirits shall be paid, under such rules, regulations

and bonds as may be prescribed by the commissioner of internal revenue, with the approval of the secretary of the treasury.

Any person violating any of the provisions of this section shall be deemed to be guilty of a misdemeanor and upon conviction shall be fined not more than \$1,000 or imprisoned not more than two years. He shall, in addition, be liable to double the tax evaded, together with the tax, to be collected by assessment or on any bond given.

Sec. 305. That hereafter collectors of internal revenue shall not furnish wholesale liquor dealers stamps in lieu of and in exchange for stamps for rectified spirits unless the package covered by stamp for rectified spirits is to be broken into smaller packages.

The commissioner of internal revenue, with the approval of the secretary of the treasury, is authorized to discontinue the use of the following stamps whenever in his judgment the interests of the government will be subserved thereby.

Distillery warehouse, special bonded warehouse, special bonded warehouse, general bonded warehouse, general bonded retransfer, transfer brandy, export tobacco, export cigars, export oleomargarine and export fermented liquor stamps.

Sec. 306. That the commissioner of internal revenue, with the approval of the secretary of the treasury, is hereby authorized to require at distilleries, breweries, rectifying houses and wherever else in his judgment such action may be deemed advisable, the installation of meters, tanks, pipes or any other apparatus for the purpose of protecting the revenue, and such meters, tanks and pipes and all necessary labor incident thereto shall be at the expense of the person, corporation, partnership or association on whose premises the installation is required. Any such person, corporation, partnership or association refusing or neglecting to install such apparatus when so required by the commissioner shall not be permitted to conduct business on such premises.

Sec. 307. That on and after the passage of this act there shall be levied and collected on all beer, lager beer, ale, porter and other similar fermented liquor, containing $\frac{1}{2}$ per centum or more of alcohol, brewed or manufactured and sold or stored in warehouse, or removed for consumption or sale, within the United States, by whatever name such liquors may be called, in addition to the tax now imposed by law, a tax of \$1.50 for every barrel containing not more than thirty-one gallons, and at a like rate for any other quantity or for the fractional parts of a barrel authorized and defined by law.

Sec. 308. That from and after the passage of this act taxable fermented liquors may be conveyed without payment of tax from the brewery premises where produced to a contiguous industrial distillery of either class established under the act of Oct. 3, 1913, to be used as distilling material, and the residue from such distillation, containing less than one-half of 1 per centum of alcohol by volume, which is to be used in making beverages, may be manipulated by cooling, flavoring, carbonating, settling and filtering on the distillery premises or elsewhere.

The removal of the taxable fermented liquor from the brewery to the distillery and the operation of the distillery and removal of the residue therefrom shall be under the supervision of such officer or officers as the commissioner of internal revenue shall deem proper, and the commissioner of internal revenue, with the approval of the secretary of the treasury, is hereby authorized to make such regulations from time to time as may be necessary to give force and effect to this section and to safeguard the revenue.

Sec. 309. That upon all still wines, including ing vermouth, and upon all champagne and other sparkling wines, liqueurs, cordials, artificial or imitation wines or compounds sold as wine, produced in or imported into the United States, and hereafter removed from the customs house, place of manufacture or from bonded premises for sale or consumption, there shall be levied

and collected, in addition to the tax now imposed by law upon such articles, a tax equal to such tax, to be levied, collected and paid under the provisions of existing law.

Sec. 310. That upon all articles specified in section 309 upon which the tax now imposed by law has been paid and which are on the day this act is passed held in excess of twenty-five gallons in the aggregate of such articles and intended for sale, there shall be levied, collected and paid a tax equal to the tax imposed by such section.

Sec. 311. That upon all grape brandy or wine spirits withdrawn by a producer of wines from any fruit distillery or special bonded warehouse under subdivision (c) of section 402 of the act entitled "An act to increase the revenue and for other purposes," approved Sept. 8, 1916, there shall be levied, assessed, collected and paid in addition to the tax therein imposed, a tax equal to double such tax, to be assessed, collected and paid under the provisions of existing law.

Sec. 312. That upon all sweet wines held for sale by the producer thereof upon the day this act is passed there shall be levied, assessed, collected and paid an additional tax equivalent to 10 cents per proof gallon upon the grape brandy or wine spirits used in the fortification of such wine, and an additional tax of 20 cents per proof gallon shall be levied, assessed, collected and paid upon all grape brandy or wine spirits withdrawn by a producer of sweet wines for the purpose of fortifying such wines and not so used prior to the passage of this act.

Sec. 313. That there shall be levied, assessed, collected and paid—

(a) Upon all prepared sirups or extracts (intended for use in the manufacture or production of beverages, commonly known as soft drinks, by soda fountains, bottling establishments, and other similar places) sold by the manufacturer, producer or importer thereof, if so sold for not more than \$1.30 per gallon, a tax of 5 cents per gallon; if so sold for more than \$1.30 and not more than \$2 per gallon, a tax of 8 cents per gallon; if so sold for more than \$2 and not more than \$3 per gallon, a tax of 10 cents per gallon; if so sold for more than \$3 and not more than \$4 per gallon, a tax of 15 cents per gallon; and if so sold for more than \$4 per gallon, a tax of 20 cents per gallon; and

(b) Upon all unfermented grape juice, soft drinks or artificial mineral waters (not carbonated) and fermented liquors containing less than one-half per centum of alcohol, sold by the manufacturer, producer or importer thereof, in bottles or other closed containers and upon all ginger ale, root beer, sarsaparilla, pop and other carbonated waters or beverages, manufactured and sold by the manufacturer, producer or importer of the carbonic acid gas used in carbonating the same, a tax of 1 cent per gallon; and

(c) Upon all natural mineral waters or table waters, sold by the producer, bottler or importer thereof in bottles or other closed containers, at over 10 cents per gallon, a tax of 1 cent per gallon.

Sec. 314. That each such manufacturer, producer, bottler or importer shall make monthly returns under oath to the collector of internal revenue for the district in which is located the principal place of business, containing such information necessary for the assessment of the tax, and at such times and in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury may by regulation prescribe.

Sec. 315. That upon all carbonic acid gas in drums or other containers (intended for use in the manufacture or production of carbonated water or other drinks) sold by the manufacturer, producer or importer thereof, there shall be levied, assessed, collected and paid a tax of 5 cents per pound. Such tax shall be paid by the purchaser to the vender thereof and shall be collected, returned and paid to the United States by such vender in the same manner as provided in section 503.

Title IV.—War Tax on Cigars, Tobacco and Manufactures Thereof.

Sec. 400. That upon cigars and cigarettes, which shall be manufactured and sold, or removed for consumption or sale, there shall be levied and collected, in addition to the taxes now imposed by existing law, the following taxes, to be paid by the manufacturer or importer thereof: (a) on cigars of all descriptions made of tobacco, or any substitute therefor and weighing not more than three pounds per thousand, 25 cents per thousand; (b) on cigars made of tobacco or any substitute therefor, and weighing more than three pounds per thousand, if manufactured or imported to retail at 4 cents or more each, and not more than 7 cents each, \$1 per thousand; (c) if manufactured or imported to retail at more than 7 cents each and not more than 15 cents each, \$3 per thousand; (d) if manufactured or imported to retail at more than 15 cents each and not more than 20 cents each, \$5 per thousand (e) if manufactured or imported to retail at more than 20 cents each, \$7 per thousand: Provided, That the word "retail" as used in this section shall mean the ordinary retail price of a single cigar, and that the commissioner of internal revenue may, by regulation, require the manufacturer or importer to affix to each box or container a conspicuous label indicating by letter the clause of this section under which the cigars therein contained have been taxed, which must correspond with the tax-paid stamp on said box or container; (f) on cigarettes made of tobacco, or any substitute therefor, made in or imported into the United States, and weighing not more than three pounds per thousand, 80 cents per thousand; weighing more than three pounds per thousand, \$1.26 per thousand.

Every manufacturer of cigarettes (including small cigars weighing not more than three pounds per thousand) shall put up all the cigarettes and such small cigars that he manufactures or has manufactured for him, and sells or removes for consumption or use, in packages or parcels containing five, eight, ten, twelve, fifteen, sixteen, twenty, twenty-four, forty, fifty, eighty or one hundred cigarettes each, and shall securely affix to each of said packages or parcels a suitable stamp denoting the tax thereon and shall properly cancel the same prior to such sale or removal for consumption or use under such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, shall prescribe; and all cigarettes imported from a foreign country shall be packed, stamped and the stamps canceled in a like manner, in addition to the import stamp indicating inspection of the custom house before they are withdrawn therefrom.

Sec. 401. That upon all tobacco and snuff hereafter manufactured and sold, or removed for consumption or use, there shall be levied and collected, in addition to the tax now imposed by law upon such articles, a tax of 5 cents per pound, to be levied, collected and paid under the provisions of existing law.

In addition to the packages provided for under existing law, manufactured tobacco and snuff may be put up and prepared by the manufacturer for sale or consumption, in packages of the following description: Packages containing one-eighth, three-eighths, five-eighths, seven-eighths, one and one-eighth, one and three-eighths, one and five-eighths, one and seven-eighths and five ounces.

Sec. 402. That sections 400, 401 and 404 shall take effect thirty days after the passage of this act: Provided, That after the passage of this act and before the expiration of the aforesaid thirty days, cigarettes and manufactured tobacco and snuff may be put up in the packages now provided for by law or in the packages provided for in sections 400 and 401.

Sec. 403. That there shall also be levied and collected, upon all manufactured tobacco and snuff in excess of one hundred pounds or upon cigars or cigarettes in excess of one thousand,

which were manufactured or imported, and removed from factory or custom house prior to the passage of this act, bearing tax-paid stamps affixed to such articles for the payment of the taxes thereon, and which are, on the day after this act is passed, held and intended for sale by any person, corporation, partnership or association, and upon all manufactured tobacco, snuff, cigars or cigarettes, removed from factory or custom house after the passage of this act, but prior to the time when the tax imposed by section 400 or section 401 upon such articles takes effect, an additional tax equal to one-half the tax imposed by such sections upon such articles.

Sec. 404. That there shall be levied, assessed and collected upon cigarette paper made up into packages, books, sets or tubes, made up in or imported into the United States and intended for use by the smoker in making cigarettes, the following taxes: On each package, book or set containing more than twenty-five but not more than fifty papers, one-half of 1 cent; containing more than fifty but not more than one hundred papers, one cent; containing more than one hundred papers or fractional part thereof; and upon tubes, 2 cents for each one hundred tubes or fractional part thereof.

Title V.—War Tax on Facilities Furnished by Public Utilities and Insurance.

Sec. 500. That from and after the first day of November, 1917, there shall be levied, assessed, collected and paid (a) a tax equivalent to 3 per centum of the amount paid for the transportation by rail or water or by any form of mechanical motor power when in competition with carriers by rail or water of property by freight consigned from one point in the United States to another; (b) a tax of 1 cent for each 50 cent or fraction thereof, paid to any person, corporation, partnership or association engaged in the business of transporting parcels or packages by express over regular routes between fixed terminals, for the transportation of any package, parcel or shipment by express from one point in the United States to another; Provided, That nothing herein contained shall be construed to require the carrier collecting such tax to list separately in any bill of lading, freight receipt or other similar document the amount of the tax herein levied if the total amount of the freight and tax be therein stated; (c) a tax equivalent to 8 per centum of the amount paid for the transportation of persons by rail or water, or by any form of mechanical motor power on a regular established line when in competition with carriers by rail or water, from one point in the United States to another or to any point in Canada or Mexico, where the ticket therefor is sold or issued in the United States, not including the amount paid for commutation or season tickets for trips less than thirty miles, or for transportation the fare for which does not exceed 35 cents, and a tax equivalent to 10 per centum of the amount paid for seats in parlors and staterooms in parlor cars, sleeping cars or on vessels. If a mileage book used for such transportation or accommodation has been purchased before this section takes effect, or if cash fare be paid, the tax imposed by this section shall be collected from the person presenting the mileage book or paying the cash fare, by the conductor or other agent, when presented for such transportation or accommodation, and the amount so collected shall be paid to the United States in such manner and at such times as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe; if a ticket (other than a mileage book) is bought and partially used before this section goes into effect it shall not be taxed, but if bought but not so used before this section takes effect, it shall not be valid for passage until the tax has been paid and such payment evidenced on the ticket in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury, may by regulation pre-

scribe; (d) a tax equivalent to 5 per centum of the amount paid for the transportation of oil by pipe line; (e) a tax of 5 cents upon each telegraph, telephone or radio dispatch, message or conversation, which originates within the United States, and for the transmission of which a charge of 15 cents or more is imposed: Provided, That only one payment of such tax shall be required, notwithstanding the lines or stations of one or more persons, corporations, partnerships or associations shall be used for the transmission of such dispatch, message or conversation.

Sec. 501. That the taxes imposed by section 500 shall be paid by the person, corporation, partnership or association paying for the services or facilities rendered.

In case such carrier does not, because of its ownership of the commodity transported, or for any other reason, receive the amount which as a carrier it would otherwise charge, such carrier shall pay a tax equivalent to the tax which would be imposed upon the transportation of such commodity if the carrier received payment for such transportation: Provided, That in case of a carrier which on May 1, 1917, had no rates or tariffs on file with the proper federal or state authority, the tax shall be computed on the basis of the rates or tariffs of other carriers for like services as ascertained and determined by the commissioner of internal revenue: Provided further, That nothing in this or the preceding section shall be construed as imposing a tax (a) upon the transportation of any commodity which is necessary for the use of the carrier in the conduct of its business as such and is intended to be so used, or has been so used; or (b) upon the transportation of company material transported by one carrier which constitutes a part of a railroad system, for another carrier which is also a part of the same system.

Sec. 502. That no tax shall be imposed under section 500 upon any payment received for services rendered to the United States, or any state, territory or the District of Columbia. The right to exemption under this section shall be evidenced in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury, may by regulation prescribe.

Sec. 503. That each person, corporation, partnership or association receiving any payments referred to in section 500 shall collect the amount of the tax, if any, imposed by such section from the person, corporation, partnership or association making such payments, and shall make monthly returns under oath, in duplicate, and pay the taxes so collected and the taxes imposed upon it under paragraph of section 501 to the collector of internal revenue of the district in which the principal office or place of business is located. Such returns shall contain such information, and be made in such manner, as the commissioner of internal revenue, with the approval of the secretary of the treasury, may by regulation prescribe.

Sec. 504. That from and after the first day of November, 1917, there shall be levied, assessed, collected and paid the following taxes on the issuance of insurance policies:

(a) Life insurance: A tax equivalent to 8 cents on each \$100 or fractional part thereof of the amount for which any life is insured under any policy of insurance or other instrument, by whatever name the same is called: Provided, That on all policies for life insurance only by which a life is insured not in excess of \$500, issued on the industrial or weekly payment plan of insurance, the tax shall be 40 per centum of the amount of the first weekly premium; Provided further, That policies of reinsurance shall be exempt from the tax imposed by this subdivision.

(b) Marine, inland and fire insurance: A tax equivalent to 1 cent on each dollar or fractional part thereof of the premium charged under each policy of insurance or other instrument by whatever name the same is called, whereby insurance is made or renewed

upon property of any description (including rents or profits), whether against peril by sea or inland waters, or by fire or lightning, or other peril: Provided, That policies of reinsurance shall be exempt from the tax imposed by this subdivision.

(c) Casualty insurance: A tax equivalent to 1 cent on each dollar or fractional part thereof of the premium charged under each policy of insurance or obligation of the nature of indemnity for loss, damage or liability (except bonds taxable under subdivision 2 of schedule A of title VIII.) issued or executed or renewed by any person, corporation, partnership or association transacting the business of employers' liability, workmen's compensation, accident, health, tornado, plate glass, steam boiler, elevator, burglary, automatic sprinkler, automobile or other branch of insurance (except life insurance and insurance described and taxed in the preceding subdivision): Provided, That policies of reinsurance shall be exempt from the tax imposed by this subdivision.

(d) Policies issued by any person, corporation, partnership or association whose income is exempt from taxation under title I. of the act entitled "An act to increase the revenue and for other purposes," approved Sept. 8, 1916, shall be exempt from the taxes imposed by this section.

Sec. 505. That every person, corporation, partnership or association issuing policies of insurance upon the issuance of which a tax is imposed by section 504 shall, within the first fifteen days of each month, make a return under oath, in duplicate, and pay such tax to the collector of internal revenue of the district in which the principal office or place of business of such person, corporation, partnership or association is located. Such returns shall contain such information and be made in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury, may by regulation prescribe.

Title VI.—War Excise Taxes.

Sec. 600. That there shall be levied, assessed, collected and paid—

(a) Upon all automobiles, automobile trucks, automobile wagons and motorcycles, sold by the manufacturer, producer or importer, a tax equivalent to 3 per centum of the price for which so sold; and

(b) Upon all piano players, graphophones, phonographs, talking machines and records used in connection with any musical instrument, piano player, graphophone, phonograph or talking machine, sold by the manufacturer, producer or importer, a tax equivalent to 3 per centum of the price for which so sold; and

(c) Upon all moving picture films (which have not been exposed) sold by the manufacturer or importer, a tax equivalent to $\frac{1}{4}$ of 1 cent per linear foot; and

(d) Upon all positive moving picture films (containing a picture ready for projection) sold or leased by the manufacturer, producer or importer, a tax equivalent to $\frac{1}{2}$ of 1 cent per linear foot; and

(e) Upon any article commonly or commercially known as jewelry, whether real or imitation, sold by the manufacturer, producer or importer thereof, a tax equivalent to 3 per centum of the price for which so sold; and

(f) Upon all tennis rackets, golf clubs, baseball bats, lacrosse sticks, balls of all kinds, including baseballs, footballs, tennis, golf, lacrosse, billiard and pool balls, fishing rods and reels, billiard and pool tables, chess and check-boards and pieces, dice, games and parts of games, except playing cards and children's toys and games sold by the manufacturer, producer or importer, a tax equivalent to 2 per centum of the price for which so sold; and

(g) Upon all perfumes, essences, extracts, toilet water, cosmetics, petroleum jellies, hair oils, pomades, hair dressings, hair restoratives, hair dyes, tooth and mouth washes, dentifrices, tooth pastes, aromatics, cachous, toilet soaps and powders or any similar substance,

article or preparation by whatsoever name known or distinguished, upon all of the above which are used or applied or intended to be used or applied for toilet purposes, and which are sold by the manufacturer, importer or producer, a tax equivalent to 2 per centum of the price for which so sold; and

(h) Upon all pills, tablets, powders, tinctures, troches or lozenges, syrups, medicinal cordials or bitters, anodynes, tonics, plasters, liniments, salves, ointments, pastes, drops, waters (except those taxed under section 313 of this act), essences, spirits, oils and all medicinal preparations, compounds or compositions whatsoever, the manufacturer or producer of which claims to have any private formula, secret or occult art for making or preparing the same, or has or claims to have any exclusive right or title to the making or preparing the same, or which are prepared, uttered, vendd or exposed for sale under any letters patent or trade-mark of which, if prepared by any formula, published or unpublished, are held out or recommended to the public by the makers, vendors or proprietors thereof as proprietary medicines or medicinal proprietary articles or preparations, or as remedies or specifics for any disease, diseases or affection whatsoever affecting the human or animal body, and which are sold by the manufacturer, producer or importer, a tax equivalent to 2 per centum of the price for which so sold; and

(i) Upon all chewing gum or substitute therefor sold by the manufacturer, producer or importer, a tax equivalent to 2 per centum of the price for which so sold; and

(j) Upon all cameras sold by the manufacturer, producer or importer, a tax equivalent to 3 per centum of the price for which so sold.

Sec. 601. That each manufacturer, producer or importer of any of the articles enumerated in section 600 shall make monthly returns under oath in duplicate and pay the taxes imposed on such articles by this title to the collector of internal revenue for the district in which is located the principal place of business. Such returns shall contain such information and be made at such times and in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury, may by regulations prescribe.

Sec. 602. That upon all articles enumerated in subdivisions (a), (b), (c), (f), (g),

(h), (i) or (j) of section 600, which on the day this act is passed are held and intended for sale by any person, corporation, partnership or association, other than (1) a retailer who is not also a wholesaler, or (2) the manufacturer, producer or importer thereof, there shall be levied, assessed, collected and paid a tax equivalent to one-half the tax imposed by each such subdivision upon the sale of the articles therein enumerated. This tax shall be paid by the person, corporation, partnership or association so holding such articles.

The taxes imposed by this section shall be assessed, collected and paid in the same manner as provided in section 1002 in the case of additional taxes upon articles upon which the tax imposed by existing law has been paid.

Nothing in this section shall be construed to impose a tax upon articles sold and delivered prior to May 9, 1917, where the title is reserved in the vendor as security for the payment of the purchase money.

Sec. 603. That on the day this act takes effect, and hereafter on July 1 in each year, and also at the time of the original purchase of a new boat by a user, if on any other date than July 1, there shall be levied, assessed, collected and paid upon the use of yachts, pleasure boats, power boats and sailing boats, of over five net tons, and motor boats with fixed engines, not used exclusively for trade or national defense, or not built according to plans and specifications approved by the navy department, an excise tax to be based on each yacht or boat, at rates as follows: Yachts, pleasure boats, power boats, motor boats with fixed engines, and sailing boats, of over five net tons, length not over fifty feet, 50 cents for each foot; length over fifty feet, and not

over 100 feet, \$1 for each foot; length over 100 feet, \$2 for each foot; motor boats of not over five net tons with fixed engines, \$5.

In determining the length of such yachts, pleasure boats, power boats, motor boats with fixed engines, and sailing boats, the measurement of overall length shall govern.

In the case of a tax imposed at the time of the original purchase of a new boat on any other date than July 1, the amount to be paid shall be the same number of twelfths of the amount of the tax as the number of calendar months, including the month of sale, remaining prior to the following July 1.

Title VII.—War Tax on Admissions and Dues.

Sec. 700. That from and after the first day of November, 1917, there shall be levied, assessed, collected and paid (a) a tax of 1 cent for each 10 cents or fraction thereof of the amount paid for admission to any place, including admission by season ticket or subscription, to be paid by the person paying for such admission. Provided, That the tax on admission of children under 12 years of age where an admission charge for such children is made shall in every case be 1 cent; and (b) in the case of persons (except bona fide employees, municipal officers on official business and children under 12 years of age) admitted free to any place at a time when and under circumstances under which an admission charge is made to other persons of the same class, a tax of 1 cent for each 10 cents or fraction thereof of the price so charged to such other persons for the same or similar accommodations, to be paid by the person so admitted; and (c) a tax of 1 cent for each 10 cents or fraction thereof paid for admission to any public performance for profit at any cabaret or other similar entertainment to which the charge for admission is wholly or in part included in the price paid for refreshment, service or merchandise; the amount paid for such admission to be computed under rules prescribed by the commissioner of internal revenue, with the approval of the secretary of the treasury, such tax to be paid by the person paying for such refreshment, service or merchandise. In the case of persons having the permanent use of boxes or seats in an opera house or any place of amusement or a lease for the use of such box or seat in such opera house or place of amusement, there shall be levied, assessed, collected and paid a tax equivalent to 10 per centum of the amount for which a similar box or seat is sold for performance or exhibition at which the box or seat is used or reserved by or for the lessee or holder. These taxes shall not be imposed in the case of a place the maximum charge for admission to which is 5 cents, or in the case of shows, rides and other amusements (the maximum charge for admission to which is 10 cents) which are outdoor general amusement parks or in the case of admissions to such parks.

No tax shall be levied under this title in respect to any admissions all the proceeds of which inure exclusively to the benefit of religious, educational or charitable institutions, societies or organizations, or admissions to agricultural fairs none of the profits of which are distributed to stockholders or members of the association conducting the same.

The term "admission" as used in this title includes seats and tables, reserved or otherwise, and other similar accommodations, and the charges made therefor.

Sec. 701. That from and after the first day of November, 1917, there shall be levied, assessed, collected and paid a tax equivalent to 10 per centum of any amount paid as dues or membership fees (including initiation fees) to any social, athletic or sporting club or organization, where such dues or fees are in excess of \$12 per year; such taxes to be paid by the person paying such dues or fees: Provided, That there shall be exempted from the provisions of this section all amounts paid as dues or fees to a fraternal beneficiary society, order or association, operating under

the lodge system or for the exclusive benefit of the members of a fraternity itself operating under the lodge system, and providing for the payment of life, sick, accident or other benefits to the members of such society, order or association or their dependents.

Sec. 702. That every person, corporation, partnership or association (a) receiving any payments for such admission, dues or fees shall collect the amount of the tax imposed by section 700 or 701 from the person making such payments, or (b) admitting any person free to any place for admission to which a charge is made shall collect the amount of the tax imposed by section 700 from the person so admitted, and (c) in either case shall make returns and payments of the amount so collected: at the same time and in the same manner as provided in section 503 of this act.

Title VIII.—War Stamp Taxes.

Sec. 800. That on and after the first day of December, 1917, there shall be levied, collected and paid, for and in respect of the several bonds, debentures or certificates of stock and of indebtedness, and other documents, instruments, matters and things mentioned and described in schedule A of this title, or for or in respect of the vellum, parchment or paper upon which such instruments, matters or things, or any of them, are written or printed by any person, corporation, partnership or association who makes, signs, issues, sells, removes, consigns or ships the same, or for whose use or benefit the same are made, signed, issued, sold, removed, consigned or shipped, the several taxes specified in such schedule.

Sec. 801. That there shall not be taxed under this title any bond, note or other instrument, issued by the United States, or by any foreign government, or by any state, territory or the District of Columbia, or local subdivision thereof, or municipal or other corporation exercising the taxing power, when issued in the exercise of strictly governmental, taxing or municipal function; or stocks and bonds issued by cooperative building and loan associations which are organized and operated exclusively for the benefit of their members, and make loans only to their shareholders, or by mutual ditch or irrigating companies.

Sec. 802. That whoever—

(a) Makes, signs, issues or accepts, or causes to be made, signed, issued or accepted, any instrument, document or paper of any kind or description whatsoever without the full amount of tax thereon being duly paid;

(b) Consigns or ships, or causes to be consigned or shipped, by parcel post any parcel, package or article without the full amount of tax being duly paid;

(c) Manufactures or imports and sells, or offers for sale, or causes to be manufactured or imported and sold, or offered for sale, any playing cards, package or other article without the full amount of tax being duly paid;

(d) Makes use of any adhesive stamp to denote any tax imposed by this title without canceling or obliterating such stamp as prescribed in section 804;

Is guilty of a misdemeanor and upon conviction thereof shall pay a fine of not more than \$100 for each offense.

Sec. 803. That whoever—

(a) Fraudulently cuts, tears or removes from any vellum, parchment, paper, instrument, writing, package or article, upon which any tax is imposed by this title, any adhesive stamp or the impression of any stamp, die, plate or other article provided, made or used in pursuance of this title;

(b) Fraudulently uses, joins, fixes or places to, with or upon any vellum, parchment, paper, instrument, writing, package or article, upon which any tax is imposed by this title, (1) any adhesive stamp or the impression of any stamp, die, plate or other article, which has been cut, torn or removed from any other vellum, parchment, paper, instrument, writing, package or article, upon which any tax is im-

posed by this title; or (2) any adhesive stamp or the impression of any stamp, die, plate or other article of insufficient value; or (3) any forged or counterfeit stamp or the impression of any forged or counterfeit stamp, die, plate or other article:

(c) Willfully removes or alters the cancellation or defacing marks of or otherwise prepares any adhesive stamp with intent to use or cause the same to be used after it has already been used or knowingly or willfully buys, sells, offers for sale or gives away any such washed or restored stamp to any person for use or knowingly uses the same;

(d) Knowingly and without lawful excuse (the burden of proof of such excuse being on the accused), has in possession any washed, restored or altered stamp which has been removed from any vellum, parchment, paper, instrument, writing, package or article, is guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than \$1,000 or by imprisonment for not more than five years, or both, at the discretion of the court, and any such reused, canceled or counterfeit stamp and the vellum, parchment, document, paper, package or article upon which it is placed or impressed shall be forfeited to the United States.

Sec. 804. That whenever an adhesive stamp is used for denoting any tax imposed by this title, except as hereinafter provided, the person, corporation, partnership or association using or affixing the same shall write or stamp or cause to be written or stamped thereupon the initials of his or its name and the date upon which the same is attached or used, so that the same may not again be used: Provided, That the commissioner of internal revenue may prescribe such other method for the cancellation of such stamps as he may deem expedient.

Sec. 805. (a) That the commissioner of internal revenue shall cause to be prepared and distributed for the payment of the taxes prescribed in this title suitable stamps denoting the tax on the document, article or thing to which the same may be affixed, and shall prescribe such method for the affixing of said stamps in substitution for or in addition to the method provided in this title, as he may deem expedient.

(b) The commissioner of internal revenue, with the approval of the secretary of the treasury, is authorized to procure any of the stamps provided for in this title by contract whenever such stamps cannot be speedily prepared by the bureau of engraving and printing; but this authority shall expire on the 1st day of January, 1918, except as to imprinted stamps furnished under contract, authorized by the commissioner of internal revenue.

(c) All internal revenue laws relating to the assessment and collection of taxes are hereby extended to and made a part of this title, so far as applicable, for the purpose of collecting stamp taxes omitted through mistake or fraud from any instrument, document, paper, writing, parcel, package or article named herein.

Sec. 806. That the commissioner of internal revenue shall furnish to the postmaster-general with the prepayment of a suitable quantity of adhesive stamps to be distributed and kept on sale by the various postmasters in the United States. The postmaster-general may require each such postmaster to give additional or increased bond as postmaster for the value of the stamps so furnished, and each such postmaster shall deposit the receipts from the sale of such stamps to the credit of and render accounts to the postmaster-general at such times and in such form as he may by regulations prescribe. The postmaster-general shall at least once monthly transfer all collections from this source to the treasury as internal revenue collections.

Sec. 807. That the collectors of the several districts shall furnish without prepayment to any assistant treasurer or designated depository of the United States located in their respective collection districts a suitable quantity of adhesive stamps for sale. In such cases the collector may require a bond, with

sufficient sureties, to an amount equal to the value of the adhesive stamps so furnished, conditioned for the faithful return, whenever so required, of all quantities or amounts undischarged, and for the payment monthly of all quantities or amounts sold or not remaining on hand. The secretary of the treasury may from time to time make such regulations as he may find necessary to insure the safekeeping or prevent the illegal use of all such adhesive stamps.

Schedule A—Stamp Taxes.

1. Bonds of indebtedness; Bonds, debentures or certificates of indebtedness issued on and after the first day of December, 1917, by any person, corporation, partnership or association, on each \$100 of face value or fraction thereof, 5 cents: Provided, That every renewal of the foregoing shall be taxed as a new issue: Provided further, That when a bond conditioned for the repayment or payment of money is given in a penal sum greater than the debt secured, the tax shall be based upon the amount secured.

2. Bonds, indemnity and surety: Bonds for indemnifying any person, corporation, partnership or corporation who shall have become bound or engaged as surety, and all bonds for the due execution or performance of any contract, obligation or requirement, or the duties of any office or position, and to account for money received by virtue thereof, and all other bonds of any description, except such as may be provided in legal proceedings, not otherwise provided for in this schedule, 50 cents: Provided, That where a premium is charged for the execution of such bond the tax shall be paid at the rate of 1 per centum on each dollar or fractional part thereof of the premium charged: Provided further, That policies of reinsurance shall be exempt from the tax imposed by this subdivision.

3. Capital stock, issue: On such original issue, whether on organization or reorganization, of certificates of stock by any association, company or corporation, on each \$100 of face value or fraction thereof, 5 cents: Provided, That where capital stock is issued without face value the tax shall be 5 cents per share, unless the actual value is in excess of \$100 per share, in which case the tax shall be 5 cents on each \$100 of actual value or fraction thereof.

The stamps representing the tax imposed by this subdivision shall be attached to the stock books and not to the certificates issued.

4. Capital stock, sales or transfers: On all sales, or agreements to sell, or memoranda of sales or deliveries of, or transfers of legal title to shares or certificates of stocks in any association, company or corporation, whether made upon or shown by the books of the association, company or corporation, or by any assignment in blank, or by any delivery, or by any paper or agreement or memorandum or other evidence of transfer or sale, whether entitling the holder in any manner to the benefit of such stock or not, on each \$100 of face value or fraction thereof, 2 cents, and on each such share of stock without face value the tax shall be 2 cents on the transfer or sale or agreement to sell on each share, unless the actual value thereof is in excess of \$100 per share, in which case the tax shall be 2 cents on each \$100 of actual value or fraction thereof: Provided, That it is not intended by this title to impose a tax upon an agreement evidencing a deposit of stock certificates as collateral security for money loaned thereon, which stock certificates are not actually sold, nor upon such stock certificates so deposited: Provided further, That the tax shall not be imposed upon deliveries or transfers to a broker for sale, nor upon deliveries or transfers by a broker to a customer for whom and upon whose order he has purchased same, but such deliveries or transfers shall be accompanied by a certificate setting forth the facts: Provided further, That in case of sale where the evidence of transfer is shown only by the books of the company the stamp shall be placed upon such books; and where the change of

ownership is by transfer of the certificate the stamp shall be placed upon the certificate; and in case of an agreement to sell or where the transfer is by delivery of the certificate assigned in blank there shall be made and delivered by the seller to the buyer a bill or memorandum of such sale, to which the stamp shall be affixed; and every bill or memorandum or agreement to sell or memorandum of sale shall show the date thereof, the name of the seller, the amount of the sale and the matter or thing to which it refers. Any person or persons liable to pay the tax as herein provided, or any one who acts in the matter as agent or broker for such person or persons who shall make any such sale, or who shall in pursuance of any such sale deliver any stock or evidence of the sale of any stock or bill or memorandum thereof, as herein required, without having the proper stamps affixed thereto, with intent to evade the foregoing provisions, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be imprisoned not exceeding \$1,000, or be imprisoned not more than six months, or both, at the discretion of the court.

5. **Procure, sales of, on exchange:** Upon each sale, agreement of sale, or agreement to sell, including so-called transferred or scratch sales, any products or merchandise at any exchange or board of trade, or other similar place, for future delivery, for each \$100 in value of the merchandise covered by such sale or agreement of sale or agreement to sell, 2 cents, and for each additional \$100 or fractional part thereof in excess of \$100, 2 cents: Provided, That on every sale or agreement of sale or agreement to sell as aforesaid there shall be made and delivered by the seller to the buyer a bill, memorandum, agreement or other evidence of such sale, agreement of sale or agreement to sell, to which there shall be affixed a lawful stamp or stamps in value equal to the amount of the tax on the sale. Provided further, That sellers of commodities described herein, having paid the tax provided by this subdivision, may transfer such contracts to a clearing house corporation or association, and such transfer shall not be deemed to be a sale, or agreement of sale, or an agreement to sell, within the provisions of this act, provided that such transfer shall not vest any beneficial interest in such clearing house association, but shall be made for the sole purpose of enabling such clearing house association to adjust and balance the accounts of the members of said clearing house association on their several contracts. And every such bill, memorandum or other evidence of sale or agreement to sell shall show the date thereof, the name of the seller, the amount of the sale, and the matter or thing to which it refers; and any person or persons liable to pay the tax as herein provided, or any one who acts in the matter as agent or broker for such person or persons, who shall make any such sale or agreement of sale, or agreement to sell, or who shall, in pursuance of any such sale, agreement of sale, or agreement to sell, deliver any such products or merchandise without a bill, memorandum, or other evidence thereof as herein required, or who shall deliver such bill, memorandum, or other evidence of sale, or agreement to sell, without having the proper stamps affixed thereto, with intent to evade the foregoing provisions, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall pay a fine of not exceeding \$1,000, or be imprisoned not more than six months, or both, at the discretion of the court.

That no bill, memorandum, agreement or other evidence of such sale, or agreement of sale, or agreement to sell, in case of cash sales of products or merchandise for immediate or prompt delivery which in good faith are actually intended to be delivered shall be subject to this tax.

6. Drafts or checks payable otherwise than at sight or on demand, promissory notes, except bank notes issued for circulation, and for each renewal of the same, for a sum not exceeding \$100, 2 cents; and for each addi-

tional \$100 or fractional part thereof, 2 cents.

7. **Conveyance:** Deed, instrument, or writing whereby any lands, tenements, or other realty sold shall be granted, assigned, transferred, or otherwise conveyed to, or vested in, the purchaser or purchasers, or any other person or persons, by his, her, or their direction when the consideration or value of the interest or property conveyed or exclusive of the value of any lien or incumbrance remaining thereon at the time of sale, exceeds \$100 and does not exceed \$500, 50 cents, and for each additional \$500 or fractional part thereof 50 cents: Provided, That nothing contained in this paragraph shall be so construed as to impose a tax upon any instrument or writing given to secure a debt.

8. **Entry of any goods, wares, or merchandise at any custom house, either for consumption or warehousing, not exceeding \$100 in value, 25 cents; exceeding \$100 and not exceeding \$500 in value, 50 cents; exceeding \$500 in value, \$1.**

9. **Entry for the withdrawal of any goods or merchandise from customs bonded warehouse, 50 cents,**

10. **Passage ticket, one way or round trip, for each passenger, sold or issued in the United States for passage by any vessel to a port or place not in the United States, Canada, or Mexico, if costing not exceeding \$30, \$1; costing more than \$30 and not exceeding \$60, \$3; costing more than \$60, \$5: Provided, That such passage tickets costing \$10 or less shall be exempt from taxation.**

11. **Proxy for voting at any election for officers, or meeting for the transaction of business, of any incorporated company or association, except religious, educational, charitable, fraternal, or literary societies, or public cemeteries, 10 cents.**

12. **Power of attorney granting authority to do or perform some act for or in behalf of the grantor in which authority is not otherwise vested in the grantee, 25 cents: Provided, That no stamps shall be required upon any papers necessary to be used for the collection of claims from the United States or from any state for pensions, back pay, bounty, or for property lost in the military or naval service or upon powers of attorney required in bankruptcy cases.**

13. **Playing cards: Upon every pack of playing cards containing not more than fifty-four cards, manufactured or imported, and sold, or removed for consumption or sale, after the passage of this act, a tax of 5 cents per pack in addition to the tax imposed under existing law.**

14. **Parcel post packages: Upon every parcel or package transported from one point in the United States to another by parcel post on which the postage amounts to 25 cents or more, a tax of 1 cent for each 25 cents or fractional part thereof charged for such transportation, to be paid by the consignor.**

No such parcel or package shall be transported until a stamp or stamps representing the tax due shall have been affixed thereto.

Title IX.—War Estate Tax.

Sec. 900. That in addition to the tax imposed by section 201 of the act entitled "An act to increase the revenue and for other purposes," approved Sept. 8, 1916, as amended—

(a) A tax equal to the following percentages of its value is hereby imposed upon the transfer of each net estate of every decedent dying after the passage of this act, the transfer of which is taxable under such section (the value of such net estate to be determined as provided in title II. of such act of Sept. 8, 1916):

One-half of one per centum of the amount of such net estate not in excess of \$50,000.

One per centum of the amount by which such net estate exceeds \$50,000 and does not exceed \$150,000:

One and one-half per centum of the amount by which such net estate exceeds \$150,000 and does not exceed \$250,000:

Two per centum of the amount by which such net estate exceeds \$250,000 and does not exceed \$450,000;

Two and one-half per centum of the amount by which such net estate exceeds \$450,000 and does not exceed \$1,000,000;

Three per centum of the amount by which such net estate exceeds \$1,000,000 and does not exceed \$2,000,000;

Three and one-half per centum of the amount by which such net estate exceeds \$2,000,000 and does not exceed \$3,000,000;

Four per centum of the amount by which such net estate exceeds \$3,000,000 and does not exceed \$4,000,000.

Four and one-half per centum of the amount by which such net estate exceeds \$4,000,000 and does not exceed \$5,000,000;

Five per centum of the amount by which such net estate exceeds \$5,000,000 and does not exceed \$8,000,000;

Seven per centum of the amount by which such net estate exceeds \$8,000,000 and does not exceed \$10,000,000; and

Ten per centum of the amount by which such net estate exceeds \$10,000,000.

Sec. 901. That the tax imposed by this title shall not apply to the transfer of the net estate of any decedent dying while serving in the military or naval forces of the United States, during the continuance of the war in which the United States is now engaged, or if death results from injuries received or disease contracted in such service, within one year after the termination of such war. For the purposes of this section the termination of the war shall be evidenced by the proclamation of the president.

Title X.—Administrative Provisions.

Sec. 1000. That there shall be levied, collected and paid in the United States upon articles coming into the United States from the West Indian islands acquired from Denmark, a tax equal to the internal revenue tax imposed in the United States upon like articles of domestic manufacture; such articles shipped from said islands to the United States shall be exempt from the payment of any tax imposed by the internal revenue laws of said islands; Provided, That there shall be levied, collected and paid in said islands, upon articles imported from the United States, a tax equal to the internal revenue tax imposed in said islands upon like articles there manufactured; and such articles going into said islands from the United States shall be exempt from payment of any tax imposed by the internal revenue laws of the United States.

Sec. 1001. That all administrative, special or stamp provisions of law, including the law relating to the assessment of taxes, so far as applicable, are hereby extended to and made a part of this act and every person, corporation, partnership or association liable to any tax imposed by this act, or for the collection thereof, shall keep such records and render, under oath, such statements and returns, and shall comply with such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, may from time to time prescribe.

Sec. 1002. That where additional taxes are imposed by this act upon articles or commodities, upon which the tax imposed by existing law has been paid, the person, corporation, partnership or association required by this act to pay the tax shall, within thirty days after its passage, make return under oath in such form and under such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, shall prescribe. Payment of the tax shown to be due may be extended to a date not exceeding seven months from the passage of this act, upon the filing of a bond for payment in such form and amount and with such sureties as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe.

Sec. 1003. That in all cases where the method of collecting the tax imposed by this

act is not specifically provided, the tax shall be collected in such manner as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe. All administrative and penalty provisions of title VIII. of this act, in so far as applicable, shall apply to the collection of any tax which the commissioner of internal revenue determines or prescribes shall be paid by stamp.

Sec. 1004. That whoever fails to make any return required by this act or the regulations made under authority thereof within the time prescribed or who makes any false or fraudulent return, and whoever evades or attempts to evade any tax imposed by this act or fails to collect or truly to account for and pay over any such tax shall be subject to a penalty of not more than \$1,000, or to imprisonment for not more than one year, or both, at the discretion of the court, and in addition thereto a penalty of double the tax evaded, or not collected, or accounted for and paid over, to be assessed and collected in the same manner as taxes are assessed and collected, in any case in which the punishment is not otherwise specifically provided.

Sec. 1005. That the commissioner of internal revenue, with the approval of the secretary of the treasury, is hereby authorized to make all needful rules and regulations for the enforcement of the provisions of this act.

Sec. 1006. That where the rate of tax imposed by this act, payable by stamps, is an increase over previously existing rates, stamps on hand in the collectors' offices and in the bureau of internal revenue may continue to be used until the supply on hand is exhausted, but shall be sold and accounted for at the rates provided by this act, and assessment shall be made against manufacturers and other taxpayers having such stamps on hand on the day this act takes effect for the difference between the amount paid for such stamps and the tax due at the rates provided by this act.

Sec. 1007. That (a) if any person, corporation, partnership or association has prior to May 9, 1917, made a bona fide contract with a dealer for the sale, after the tax takes effect, of any article (or in the case of moving picture films, such a contract with a dealer, exchange or exhibitor, for the sale or lease thereof) upon which a tax is imposed under title III., IV., or VI., or under subdivision 13 of schedule A of title VIII., or under this section, and (b) if such contract does not permit the adding of the whole of such tax to the amount to be paid under such contract, then the vendee or lessee shall, in lieu of the vendor or lessor, pay so much of such tax as is not so permitted to be added to the contract price.

The taxes payable by the vendee or lessee under this section shall be paid to the vendor or lessor at the time the sale or lease is consummated, and collected, returned and paid to the United States by such vendor or lessor in the same manner as provided in section 53.

The term "dealer" as used in this section includes a vendee who purchases any article with intent to use it in the manufacture or production of another article intended for sale.

Sec. 1008. That in the payment of any tax under this act not payable by stamp a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to 1 cent.

Sec. 1009. That the secretary of the treasury, under rules and regulations prescribed by him, shall permit taxpayers liable to income and excess profits taxes to make payments in advance in installments or in whole of an amount not in excess of the estimated taxes which will be due from them, and upon determination of the taxes actually due, any amount paid in excess shall be refunded as taxes erroneously collected; Provided, That when payment is made in installments at least one-fourth of such estimated tax shall be paid before the expiration of thirty days after the close of the taxable year, at least

an additional one-fourth within two months after the close of the taxable year, at least an additional one-fourth within four months after the close of the taxable year, and the remainder of the tax due on or before the time now fixed by law for such payment; Provided further, That the secretary of the treasury, under rules and regulations prescribed by him, may allow credit against such taxes so paid in advance of an amount not exceeding 3 per centum per annum calculated upon the amount so paid from the date of such payment to the date now fixed by law for such payment; but no such credit shall be allowed on payments in excess of taxes determined to be due, nor on payments made after the expiration of four and one-half months after the close of the taxable year. All penalties provided by existing law for failure to pay tax when due are hereby made applicable to any failure to pay the tax at the time or times required in this section.

Sec. 1010. That under rules and regulations prescribed by the secretary of the treasury, collectors of internal revenue may receive, at par and accrued interest, certificates of indebtedness issued under section 9 of the act entitled "An act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes," approved April 24, 1917, and any subsequent act or acts, and uncertified checks in payment of income and excess profits taxes, during such time and under such regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, shall prescribe; but if a check so received is not paid by the bank on which it is drawn the person by whom such check has been tendered shall remain liable for the payment of the tax and for all legal penalties and additions the same as if such check had not been tendered.

Title XI.—Postal Rates.

Sec. 1100. That the rate of postage on all mail matter of the first class, except postal cards, shall thirty days after the passage of this act be in addition to the existing rate, 1 cent for each ounce or fraction thereof; Provided, That the rate of postage on drop letters of the first class shall be 2 cents an ounce or fraction thereof. Postal cards and private mailing or post cards, when complying with the requirements of existing law, shall be transmitted through the mails at 1 cent each in addition to the existing rate.

That letters written and mailed by soldiers, sailors, and marines assigned to duty in a foreign country engaged in the present war may be mailed free of postage, subject to such rules and regulations as may be prescribed by the postmaster-general.

Sec. 1101. That on and after July 1, 1918, the rates of postage on publications entered as second class matter (including sample copies to the extent of 10 per centum of the weight of copies mailed to subscribers during the calendar year) by publishers or by publisher or other postoffice, or when sent by a news agent to actual subscribers thereto, or to other news agents for the purpose of sale:

(a) In the case of the portion of such publication devoted to matter other than advertisements, shall be as follows: (1) On and after July 1, 1918, and until July 1, 1919, 1½ cents per pound or fraction thereof; (2) on and after July 1, 1919, 1½ cents per pound or fraction thereof.

(b) In the case of the portion of such publication devoted to advertisements the rates per pound or fraction thereof for delivery within the several zones applicable to fourth-class matter shall be as follows (but where the space devoted to advertisements does not exceed five per centum of the total space, the rate of postage shall be the same as if the whole of such publication was devoted to matter other than advertisements): (1) On and after July 1, 1918, and until July 1, 1919, for the first and second zones, 1½ cents; for

the third zone, 1½ cents; for the fourth zone, 2 cents; for the fifth zone, 2½ cents; for the sixth zone, 2½ cents; for the seventh zone, 3 cents; for the eighth zone, 3½ cents; (2) on and after July 1, 1919, and until July 1, 1920, for the first and second zones, 1½ cents; for the third zone, 2 cents; for the fourth zone, 3 cents; for the fifth zone, 3½ cents; for the sixth zone, 4 cents; for the seventh zone, 5 cents; for the eighth zone, 5½ cents; (3) on and after July 1, 1920, and until July 1, 1921, for the first and second zones, 1½ cents; for the third zone, 2½ cents; for the fourth zone, 4 cents; for the fifth zone, 4½ cents; for the sixth zone, 5½ cents; for the seventh zone, 7 cents; for the eighth zone, 7½ cents; (4) on and after July 1, 1921, for the first and second zones, 2 cents; for the third by 3 cents; for the fourth zone, 5 cents; for the fifth zone, 6 cents; for the sixth zone, 7 cents; for the seventh zone, 9 cents; for the eighth zone, 10 cents;

(c) With the first mailing of each issue of each such publication the publisher shall file with the postmaster a copy of such issue, together with a statement containing such information as the postmaster-general may prescribe for determining the postage chargeable thereon.

Sec. 1102. That the rate of postage on daily newspapers, when the same are deposited in a letter carrier office for delivery by its carriers, shall be the same as now provided by law; and nothing in this title shall affect existing law as to free circulation and existing rates on second class mail matter within the county of publication; Provided, That the postmaster-general may hereafter require publishers to separate or make up to zones in such a manner as he may direct all mail matter of the second class when offered for mailing.

Sec. 1103. That in the case of newspapers and periodicals entitled to be entered as second class matter and maintained by and in the interest of religious, educational, scientific, philanthropic, agricultural, labor or fraternal organizations or associations, not organized for profit and none of the net income of which inures to the benefit of any private stockholder or individual, the second class postage rates shall be, irrespective of the zone in which delivered (except when the same are deposited in a letter carrier office for delivery by its carriers, in which case the rates shall be the same as now provided by law), 1½ cents a pound or fraction thereof on and after July 1, 1918, and until July 1, 1919, and on and after July 1, 1919, 1½ cents a pound or fraction thereof. The publishers of such newspapers or periodicals before being entitled to the foregoing rates shall furnish to the postmaster-general, at such times and under such conditions as he may prescribe, satisfactory evidence that none of the net income of such organization inures to the benefit of any private stockholder or individual.

Sec. 1104. That where the total weight of any one edition or issue of any publication mailed to any one zone does not exceed one pound, the rate of postage shall be 1 cent.

Sec. 1105. The zone rates provided by this title shall relate to the entire bulk mailed to any one zone and not to individually addressed packages.

Sec. 1106. That where a newspaper or periodical is mailed by other than the publisher or his agent or a news agent or dealer, the rate shall be the same as now provided by law.

Sec. 1107. That the postmaster-general, on or before the 10th day of each month, shall pay into the general fund of the treasury an amount equal to the difference between the estimated amount received during the preceding month for the transportation of first class matter through the mails and the estimated amount which would have been received under the provisions of the law in force at the time of the passage of this act.

Sec. 1108. That the salaries of postmasters at offices of the first, second, and third classes shall not be increased after July 1, 1917, during the existence of the present war. The

compensation of postmasters at offices of the fourth class shall continue to be computed on the basis of the present rates of postage.

Sec. 1109. That where postmasters at offices of the third class have been since May 1, 1917, or hereafter are granted leave without pay for military purposes, the postmaster-general may allow, in addition to the maximum amounts which may now be allowed such offices for clerk hire, in accordance with law, an amount not to exceed 50 per centum of the salary of the postmaster.

Sec. 1110. That section 5 of the act approved March 3, 1917, entitled "An act making appropriations for the postoffice department for the year ending June 30, 1918," shall not be construed to apply to ethyl alcohol for governmental, scientific, medicinal, mechanical, manufacturing, and industrial purposes, and the postmaster-general shall prescribe suitable rules and regulations to carry into effect this section in connection with the act of which it is amendatory, nor shall said section be held to prohibit the use of the mails by regularly ordained ministers of religion, or by officers of regularly established churches, for ordering wines for sacramental uses, or by manufacturers and dealers for quoting and billing such wines for such purposes only.

Title XII.—Income Tax Amendments.

Sec. 1200. That subdivision (a) of section 2 of such act of Sept. 8, 1916, is hereby amended to read as follows:

"(a) That, subject only to such exemptions and deductions as are hereinafter allowed, the net income of a taxable person shall include gains, profits and income derived from salaries, wages or compensation for personal service of whatever kind and in whatever form paid, or from professions, vocations, businesses, trade, commerce or sales, or dealings in property, whether real or personal, growing out of the ownership or use of or interest in real or personal property, also from interest, rent, dividends, securities or the transaction of any business carried on for gain or profit, or gains or profits and income derived from any source whatever."

Section 4 of such act of Sept. 8, 1916, is hereby amended to read as follows:

Sec. 4. The following income shall be exempt from the provisions of this title:

"The proceeds of life insurance policies paid to individual beneficiaries upon the death of the insured; the amount received by the insured as a return of premium or premiums paid by him under life insurance, endowment or annuity contracts, either during the term or at the maturity of the term mentioned in the contract or upon surrender of the contract; the value of property acquired by gift, bequest, devise or descent (but the income from such property shall be included as income); interest upon the obligations of a state or any political subdivision thereof or upon the obligations of the United States (but, in the case of obligations of the United States issued after Sept. 1, 1917, only if and to the extent provided in the act authorizing the issue thereof) or its possessions or securities issued under the provisions of the federal farm loan act of July 17, 1916; the compensation of the present president of the United States during the term for which he has been elected and the judges of the Supreme and inferior courts of the United States now in office, and the compensation of all officers and employees of a state, or any political subdivision thereof, except when such compensation is paid by the United States government."

Sec. 1201. (1) That paragraphs second and third of subdivision (a) of section 5 of such act of Sept. 8, 1916, are hereby amended to read as follows:

"Second. All interest paid within the year on his indebtedness except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title;

"Third. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes) or of its territories, or possessions, or any foreign country, or by the authority of any state, county, school district or municipality or other taxing subdivision of any state, not including those assessed against local benefits;"

(2) That section 5 of such act of Sept. 8, 1916, is hereby amended by adding at the end of subdivision (a) a further paragraph, numbered 9, to read as follows:

Ninth. Contributions or gifts actually made within the year to corporations or associations organized and operated exclusively for religious, charitable, scientific or educational purposes, or to societies for the prevention of cruelty to children or animals, no part of the net income of which inures to the benefit of any private stockholder or individual, to an amount not in excess of 15 per centum of the taxpayer's taxable net income as computed without the benefit of this paragraph. Such contributions or gifts shall be allowable as deductions only when verified under rules and regulations prescribed by the commissioner of internal revenue, with the approval of the secretary of the treasury."

Sec. 1202. That (1) paragraphs second and third of subdivision (a) of section 6 of such act of Sept. 8, 1916, are hereby amended to read as follows:

"Second. The proportion of all interest paid within the year by such person on his indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) which the gross amount of his income for the year derived from sources within the United States bears to the gross amount of his income for the year derived from all sources within and without the United States, but this deduction shall be allowed only if such person includes in his return required by section 8 all the information necessary for its calculation;

"Third. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes), or of its territories, or possessions, or by the authority of any state, county, school district, or municipality, or other taxing subdivision of any state, paid within the United States, not including those assessed against local benefits;"

(2) Section 6 of such act of Sept. 8, 1916, is also further amended by adding a new subdivision to read as follows:

"(c) A nonresident alien individual shall receive the benefit of the deductions and credits provided for in this section only by filing or causing to be filed with the collector of internal revenue a true and accurate return of his total income, received from all sources, corporate or otherwise, in the United States, in the manner prescribed by this title; and in case of his failure to file such return the collector shall collect the tax on such income, and all property belonging to such nonresident alien individual shall be liable to distraint for the tax."

Sec. 1203. (1) That section 7 of such act of Sept. 8, 1916, is hereby amended to read as follows:

"Sec. 7. That for the purpose of the normal tax only, there shall be allowed as an exemption in the nature of a deduction from the amount of the net income of each citizen or resident of the United States, ascertained as provided herein, the sum of \$5,000, plus \$1,000 additional if the person making the return be a head of a family or a married man with a wife living with him, or plus the sum of \$1,000 additional if the person making the return be a married woman with a husband living with her; but in no event shall this additional exemption of \$1,000 be deducted by both a husband and a wife; Provided, That only one deduction of \$4,000 shall be made from the aggregate income of both husband and wife when living together; Provided further, That if the person making the return is the head of a family

there shall be an additional exemption of \$200 for each child dependent upon such person, if under 18 years of age, or if incapable of self-support because mentally or physically defective, but this provision shall operate only in the case of one parent in the same family; Provided further, That guardians or trustees shall be allowed to make this personal exemption as to income derived from the property of such guardian or trustee has charge in favor of each ward or cestui que trust; Provided further, That in no event shall a ward or cestui que trust be allowed a greater personal exemption than as provided in this section from the amount of net income received from all sources. There shall also be allowed an exemption from the amount of the net income of estates of deceased citizens or residents of the United States during the period of administration or settlement, and of trust or other estates of citizens or residents of the United States the income of which is not distributed annually or regularly under the provisions of subdivision (b) of section 2, the sum of \$3,000, including such deductions as are allowed under section 5."

(2) Subdivision (b) of section 7 of such act of Sept. 8, 1916, is hereby repealed. Sec. 1204. (1) That subdivisions (c) and (e) of section 8 of such act of Sept. 8, 1916, are hereby amended to read as follows:

"(c) Guardians, trustees, executors, administrators, receivers, conservators and all persons, corporations or associations, acting in any fiduciary capacity, shall make and render a return of the income of the person, trust or estate for whom or which they act, and be subject to all the provisions of this title which apply to individuals. Such fiduciary shall make oath that he has sufficient knowledge of the affairs of such person, trust or estate to enable him to make such return and that the same is, to the best of his knowledge and belief, true and correct, and be subject to all the provisions of this title which apply to individuals; Provided, That a return made by one of two or more joint fiduciaries filed in the district in which such fiduciary resides, under such regulations as the secretary of the treasury may prescribe, shall be sufficient compliance with the requirements of this paragraph; Provided further, That no return of income not exceeding \$3,000 shall be required except as in this title otherwise provided.

"(e) Persons carrying on business in partnership shall be liable for income tax only in their individual capacity, and the share of the profits of the partnership to which any taxable partner would be entitled if the same were divided, whether divided or otherwise, shall be returned for taxation and the tax paid under the provisions of this title; Provided, That from the net distributive interests on which the individual members shall be liable for tax, normal and additional, there shall be excluded their proportionate shares received from interests on the obligations of a state or any political or taxing subdivision thereof, and upon the obligations of the United States (if and to the extent that it is provided in the act authorizing the issue of such obligations of the United States that they are exempt from taxation), and its possessions, and that for the purpose of computing the normal tax there shall be allowed a credit, as provided by section 5, subdivision (b), for their proportionate share of the profits derived from dividends. Such partnership, when requested by the commissioner of internal revenue or any district collector, shall render a correct return of the earnings, profits and income of the partnership except income exempt under section 4 of this act, setting forth the items of the gross income and the deductions and credits allowed by this title, and the names and addresses of the individuals who would be entitled to the net earnings, profits and income, if distributed. A partnership shall have the same privilege of fixing and making returns upon the basis of its own fiscal year as is accorded to corporations under this title. If a fiscal year ends during 1916 or a subsequent calen-

dar year, for which there is a rate of tax different from the rate for the preceding calendar year, then (1) the rate for such preceding calendar year shall apply to an amount of each partner's share of such partnership profits equal to the proportion which the part of such fiscal year falling within such calendar year bears to the full fiscal year, and (2) the rate for the calendar year during which such fiscal year ends shall apply to the remainder.

(2) Subdivision (d) of section 8 of such act of Sept. 8, 1916, is hereby repealed. Sec. 1205. (1) That subdivisions (b), (c), (f) and (g) of section 9 of such act of

Sept. 8, 1916, are hereby amended to read as follows:

"(b) All persons, corporations, partnerships, associations, and insurance companies, in whatever capacity acting, including lessees or mortgagors of real or personal property, trustees acting in any trust capacity, executors, administrators, receivers, conservators, employers and all officers and employees of the United States, having the control, receipt, custody, disposal or payment of interest, rent, salaries, wages, premiums, annuities, compensation, remuneration, emoluments or other fixed or determinable annual or periodical gains, profits, and income of any nonresident alien individual, other than income derived from dividends on capital stock, or from the net earnings of a corporation, joint stock company or association, or insurance company, which is taxable upon its net income as provided in this title, are hereby authorized and required to deduct and withhold from such annual or periodical gains, profits and income such sum as will be sufficient to pay the normal tax imposed thereon by this title, and shall make return thereof on or before March 1 of each year and on or before the time fixed by law for the payment of the tax, shall pay the amount withheld to the officer of the United States government authorized to receive the same; and they are each hereby made personally liable for such tax, and they are each hereby indemnified against every person, corporation, partnership, association or insurance company, or demand whatsoever for all payments which they shall make in pursuance and by virtue of this title.

"(c) The amount of the normal tax hereinbefore imposed shall also be deducted and withheld from fixed or determinable annual or periodical gains, profits and income derived from interest upon bonds and mortgages, or deeds of trust or other similar obligations of corporations, joint stock companies, associations, and insurance companies (if such bonds, mortgages, or other obligations contain a contract or provision by which the obligor agrees to pay any portion of the tax imposed by this title upon the obligee or to reimburse the obligee for any portion of the tax or to pay the interest without deduction for any tax which the obligor may be required or permitted to pay) if the same are obtained therefrom under any law of the United States, whether payable annually or at shorter or longer periods and whether such interest is payable to a nonresident alien individual or to an individual citizen or resident of the United States, subject to the provisions of the foregoing subdivision (b) of this section requiring the tax to be withheld at the source and deducted from annual income and returned and paid to the government, unless the person entitled to receive such interest shall file with the withholding agent on or before Feb. 1 a signed notice in writing claiming the benefit of an exemption under section 7 of this title.

"(f) All persons, corporations, partnerships, or associations, undertaking as a matter of business or for profit the collection of foreign payments of interest or dividends by means of coupons, checks, or bills of exchange shall obtain a license from the commissioner of internal revenue, and shall be subject to such regulations enabling the government to obtain the information required under this title as the commissioner of internal revenue,

with the approval of the secretary of the treasury, shall prescribe; and whoever knowingly undertakes to collect such payments as aforesaid without having obtained a license therefor, or without complying with such regulations, shall be deemed guilty of a misdemeanor and for each offense be fined in a sum not exceeding \$5,000, or imprisoned for a term not exceeding one year, or both, in the discretion of the court.

"(g) The tax herein imposed upon gains, profits, and incomes not falling under the foregoing and not returned and paid by virtue of the foregoing or as otherwise provided by law shall be assessed by personal return under rules and regulations to be prescribed by the commissioner of internal revenue and approved by the secretary of the treasury. The intent and purpose of this title is that all gains, profits, and income of a taxable class, as defined by this title, shall be charged and assessed with the corresponding tax normal and additional, prescribed by this title, and said tax shall be paid by the owner of such income, or the proper representative having the receipt, custody, control, or disposal of the same. For the purpose of this title ownership or liability shall be determined as of the year for which a return is required to be rendered.

"The provisions of this section, except subdivision (c), relating to the deduction and payment of the tax at the source of income shall not apply to the normal tax hereinafter imposed upon nonresident alien individuals."

(2) Subdivisions (d) and (e) of section 9 of such act of Sept. 8, 1916, are hereby repealed.

Sec. 1206. (1) That the first paragraph of section 10 of such act of Sept. 8, 1916, is hereby amended to read as follows:

"Sec. 10. (a) That there shall be levied, assessed, collected and paid annually upon the total net income received in the preceding calendar year from all sources by every corporation, joint stock company or association, or insurance company organized in the United States, no matter how created or organized, but not including partnerships, a tax of 2 per centum upon such income; and a like tax shall be levied, assessed, collected and paid annually upon the total net income received in the preceding calendar year from all sources within the United States by every corporation, joint stock company or association, or insurance company organized, authorized or existing under the laws of any foreign country, including interest on bonds, notes, or other interest bearing obligations of residents, corporate or otherwise, and including the income derived from dividends on capital stock or from net earnings of resident corporations, joint stock companies or associations, or insurance companies, whose net income is taxable under this title."

(2) Section 10 of such act of Sept. 8, 1916, is hereby further amended by adding a new subdivision as follows:

(b) In addition to the income tax imposed by subdivision (a) of this section there shall be levied, assessed, collected, and paid annually an additional tax of 10 per centum upon the amount remaining undistributed six months after the end of each calendar or fiscal year, of the total net income of every corporation, joint stock company or association, or insurance company, received during the year, as determined for the purposes of the tax imposed by such subdivision (a), but not including the amount of any income taxes paid by it within the year imposed by the authority of the United States.

"The tax imposed by this subdivision shall not apply to the portion of such undistributed net income which is actually invested and employed in the business or is retained for employment in the reasonable requirements of the business or is invested in obligations of the United States issued after Sept. 1, 1917: Provided, That if the secretary of the treasury ascertains and finds that any portion of such amount so retained at any time for employment in the business is not em-

ployed or is not reasonably required in the business a tax of 15 per centum shall be levied, assessed, collected and paid thereon.

"The foregoing tax rates shall apply to the undistributed net income received by every taxable corporation, joint stock company or association, or insurance company in the calendar year 1917 and in each year thereafter, except that if it has fixed its own fiscal year under the provisions of existing law, the foregoing rates shall apply to the proportion of the taxable undistributed net income returned for the fiscal year ending prior to Dec. 31, 1917, which the period between Jan. 1, 1917, and the end of such fiscal year bears to the whole of such fiscal year."

Sec. 1207. (1) That paragraphs third and fourth of subdivision (a) of section 12 of such act of Sept. 8, 1916, are hereby amended to read as follows:

"Third. The amount of interest paid within the year on its indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) to an amount of such indebtedness not in excess of the sum of (a) the entire amount of the paid-up capital stock outstanding at the close of the year, or, if no capital stock, the entire amount of capital employed, in the business, at the close of the year, and (b) one-half of its interest bearing indebtedness then outstanding: Provided, That for the purpose of this title preferred capital stock shall not be considered interest bearing indebtedness and interest or dividends paid upon this stock shall not be deductible from gross income: Provided further, That in cases wherein shares of capital stock are issued without par or nominal value, the amount of paid-up capital stock, within the meaning of this section, as represented by such shares, will be the amount of cash, or its equivalent, paid or transferred to the corporation as a consideration for such shares: Provided further, That in the case of indebtedness wholly secured by property collateral, interest thereon is the subject of sale or hypothecation in the ordinary business of such corporation, joint stock company or association as a dealer only in the property constituting such collateral, or in loaning the funds thereby procured, the total interest paid by such corporation, company or association within the year on any such indebtedness may be deducted as a part of its expenses of doing business, but interest on such indebtedness shall only be deductible on an amount of such indebtedness not in excess of the actual value of such property collateral: Provided further, That in the case of bonds or other indebtedness, which have been issued with a guaranty that the interest payable thereon shall be free from taxation, no deduction for the payment of the tax herein imposed, or any other tax paid pursuant to such guaranty, shall be allowed; and in the case of a bank, banking association, loan or trust company, interest paid within the year on deposits or on moneys received for investment and secured by interest bearing certificates of indebtedness issued by such bank, banking association, loan or trust company shall be deducted;

"Fourth. Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes), or of its territories, or possessions, or any foreign country, or by the authority of any state, county, school district or municipality, or other taxing subdivision of any state, not including those assessed against local benefits."

(2) Paragraphs third and fourth of subdivision (b) of section 12 of such act of Sept. 8, 1916, are hereby amended to read as follows:

"Third. The amount of interest paid within the year on its indebtedness (except on indebtedness incurred for the purchase of obligations or securities the interest upon which is exempt from taxation as income under this title) to an amount of such indebtedness not in excess of the proportion of the sum of (a) the entire amount of the paid-up capital stock

outstanding at the close of the year; or, if no capital stock, the entire amount of the capital employed in the business at the close of the year, and (b) one-half of its interest bearing indebtedness then outstanding, which the gross amount of its income for the year from business transacted and capital invested within the United States bears to the gross amount of its income derived from all sources within and without the United States: Provided, That in the case of bonds or other indebtedness which have been issued with a guaranty that the interest payable thereon shall be free from taxation, no deduction for the payment of the tax herein imposed or any other tax paid pursuant to such guaranty shall be allowed; and in case of a bank, banking association, loan or trust company, or branch thereof, interest paid within the year on deposits by or on moneys received for investment from either citizens or residents of the United States and secured by interest bearing certificates of indebtedness issued by such bank, banking association, loan or trust company, or branch thereof;

"Fourth, Taxes paid within the year imposed by the authority of the United States (except income and excess profits taxes) or of its territory, or possessions, or by the authority of any state, county, school district or municipality, or other taxing subdivisions of any state, paid within the United States, not including those assessed against local benefits."

Sec. 1208. That subdivision (e) of section 13 of such act of Sept. 8, 1916, is hereby amended to read as follows:

"(e) All the provisions of this title relating to the tax authorized and required to be deducted and withheld and paid to the officer of the United States government authorized to receive the same from the income of nonresident alien individuals from sources within the United States shall be made applicable to the tax imposed by subdivision (a) of section 10 upon incomes derived from interest upon bonds and mortgages or deeds of trust or similar obligations of domestic or other resident corporations, joint stock companies or associations and insurance companies, by nonresident alien firms, copartnerships, companies, corporations, joint stock companies or associations and insurance companies not engaged in business or trade within the United States and not having any office or place of business therein."

Sec. 1209. That section 18 of such act of Sept. 8, 1916, is hereby amended to read as follows:

"Sec. 18. That any person, corporation, partnership, association or insurance company, liable to pay the tax, to make a return or to supply information required under this title, who refuses or neglects to pay such tax, to make such return or to supply such information at the time or times herein specified in each year, shall be liable, except as otherwise specially provided in this title, to a penalty of not less than \$20 nor more than \$1,000. Any individual or any officer of any corporation, partnership, association or insurance company, required by law to make, render, sign or verify any return or to supply any information who makes any false or fraudulent return or statement with intent to defeat or evade the assessment required by this title to be made, shall be guilty of a misdemeanor, and shall be fined not exceeding \$3,000 or be imprisoned not exceeding one year, or both, in the discretion of the court, with the costs of prosecution: Provided, That where any tax heretofore due and payable has been duly paid by the taxpayer, it shall not be re-collected from any withholding agent required to retain it at its source, nor shall any penalty be imposed or collected in such cases from the taxpayer, or such withholding agent, whose duty it was to retain it, for failure to return or pay the same, unless such failure was fraudulent and for the purpose of evading payment."

Sec. 1210. That section 26 of such act of Sept. 8, 1916 as amended by the act entitled "An act to provide increased revenue to de-

fray the expenses of the increased appropriations for the army and navy and the extensions of fortifications and for other purposes," approved March 3, 1917, is hereby amended to read as follows:

"Sec. 26. Every corporation, joint stock company or association or insurance company subject to the tax herein imposed, when required by the commissioner of internal revenue, shall render a correct return, duly verified under oath, of its payments of dividends, whether made in cash or its equivalent or in stock, including the names and addresses of stockholders and the number of shares owned by each, and the tax years and the applicable amounts in which such dividends were earned, in such form and manner as may be prescribed by the commissioner of internal revenue, with the approval of the secretary of the treasury."

Sec. 1211. That title I. of such act of Sept. 8, 1916, is hereby amended by adding to part III, six new sections, as follows:

"Sec. 27. That every person, corporation, partnership or association doing business as a broker on any exchange or board of trade or other similar place of business shall, when required by the commissioner of internal revenue, render a correct return, duly verified under oath, under such rules and regulations as the commissioner of internal revenue, with the approval of the secretary of the treasury, may prescribe, showing the names of customers for whom such person, corporation, partnership or association has transacted any business, with such details as to the profit, losses or other information which the commissioner may require, as to each of such customers, as will enable the commissioner of internal revenue to determine whether all income tax due on profits or gains of such customers has been paid."

"Sec. 28. That all persons, corporations, partnerships, associations and insurance companies, in whatever capacity acting, including lessees or mortgagors of real or personal property, trustees acting in any trust capacity, executors, administrators, receivers, conservators and employers, making payment to another person, corporation, partnership, association or insurance company, of interest, rent, salaries, wages, premiums, annuities, compensation, remuneration, emoluments or other fixed or determinable gains, profits and income (other than payments described in sections 26 and 27), of \$800 or more in any taxable year, or, in the case of such payments made by the United States, the officers or employees of the United States having information as to such payments and required to make returns in regard thereto by the regulations hereinafter provided for, are hereby authorized and required to render a true and accurate return to the commissioner of internal revenue, under such rules and regulations and in such form and manner as may be prescribed by him, with the approval of the secretary of the treasury, setting forth the amount of such gains, profits and income, and the name and address of the recipient of such payment: Provided, that such returns shall be required, regardless of amounts, in the case of payments of interest upon bonds and mortgages or deeds of trust or other similar obligations of corporations, joint stock companies, associations and insurance companies, and in the case of collections of items not payable in the United States, of interest upon the bonds of foreign countries and interest from the bonds and dividends from the stock of foreign corporations, by persons, corporations, partnerships or associations undertaking as a matter of business or for profit the collection of foreign payments of such interest or dividends by means of coupons, checks or bills of exchange."

"When necessary to make effective the provisions of this section the name and address of the recipient of income shall be furnished upon demand of the person, corporation, partnership, association or insurance company paying the income."

"The provisions of this section shall apply

to the calendar year 1917 and each year thereafter, but shall not apply to the payment of interest on obligations of the United States.

"Sec. 29. That in assessing income tax the net income embraced in the return shall also be credited with the amount of any excess profits tax imposed by act of congress and assessed for the same calendar or fiscal year upon the taxpayer, and, in the case of a member of a partnership, with his proportionate share of such excess profits tax imposed upon the partnership.

"Sec. 30. That nothing in section II. of the act approved Oct. 3, 1913, entitled 'An act to reduce tariff duties and to provide revenue for the government, and for other purposes,' or in this title, shall be construed as taxing the income of foreign governments received from investments in the United States in stocks, bonds or other domestic securities owned by such foreign governments, or from interest on deposits in banks in the United States of moneys belonging to foreign governments.

"Sec. 31. (a) That the term 'dividends' as used in this title shall be held to mean any distribution made or ordered to be made by a corporation, joint stock company, association or insurance company out of its earnings or profits accrued since March 1, 1913, and payable to its shareholders, whether in cash or in stock of the corporation, joint stock company, association or insurance company, which stock dividend shall be considered income, to the amount of the earnings or profits so distributed.

"(b) Any distribution made to the shareholders or members of a corporation, joint stock company or association or insurance company, in the year 1917 or subsequent tax years, shall be deemed to have been made from the most recently accumulated undivided profits or surplus, and shall constitute a part of the annual income of the distributee for the year in which received, and shall be taxed to the distributee at the rates prescribed by law for the years in which such profits or surplus were accumulated by the corporation, joint stock company, association or insurance company, but nothing herein shall be construed as taxing any earnings or profits accrued prior to March 1, 1913, but such earnings or profits may be distributed in stock dividends or otherwise, exempt from the tax, after the distribution of earnings and profits

accrued since March 1, 1913, has been made. This subdivision shall not apply to any distribution made prior to Aug. 6, 1917, out of earnings or profits accrued prior to March 1, 1913.

"Sec. 32. That premiums paid on life insurance policies covering the lives of officers, employees or those financially interested in any trade or business conducted by an individual, partnership, corporation, joint stock company or association, or insurance company, shall not be deducted in computing the net income of such individual, corporation, joint stock company or association, or insurance company, or in computing the profits of such partnership for the purposes of subdivision (c) of section 9."

Sec. 1212. That any amount heretofore withheld by any withholding agent as required by title I. of such act of Sept. 8, 1916, on account of the tax imposed upon the income of any individual, a citizen or resident of the United States, for the calendar year 1917, except in the cases covered by subdivision (c) of section 9 of such act, as amended by this act, shall be released and paid over to such individual, and the entire tax upon the income of such individual for such year shall be assessed and collected in the manner prescribed by such act as amended by this act.

Title XIII.—General Provisions.

Sec. 1300. That if any clause, sentence, paragraph or part of this act shall for any reason be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair or invalidate the remainder of said act, but shall be confined in its operation to the clause, sentence, paragraph or part thereof directly involved in the controversy in which such judgment shall have been rendered.

Sec. 1301. That title I. of the act entitled "An act to provide increased revenue to defray the expenses of the increased appropriations for the army and navy and the extension of fortifications, and for other purposes," approved March 3, 1917, be, and the same is, hereby repealed.

Sec. 1302. That unless otherwise herein specially provided, this act shall take effect on the day following its passage.

(Approved Oct. 3, 1917.)

THANKSGIVING DAY IN 1918.

Because of the victorious ending of the great war, Thanksgiving day in 1918 had a special significance and was observed everywhere throughout the United States with more than ordinary unanimity and fervency. President Wilson on Nov. 16 issued the following proclamation:

"By the President of the United States of America—A proclamation:

"It has long been our custom to turn in the autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a nation. This year we have special and moving cause to be grateful and to rejoice. God has in His good pleasure given us peace. It has not come as a mere cessation of arms, a relief from the strain and tragedy of war. It has come as a great triumph of right. Complete victory has brought us not peace alone but the confident promise of a new day as well, in which justice shall replace force and jealous intrigue among the nations. Our gallant armies have participated in a triumph which is not marred or stained by any purpose of selfish aggression. In a righteous cause they have won immortal glory and have nobly served their nation in serving mankind. God has indeed been gracious. We have cause for such rejoicing as revives and strengthens in us all the best traditions of our national history. A new day shines about us, in which our hearts

take new courage and look forward with new hope to new and greater duties.

"While we render thanks for these things, let us not forget to seek the divine guidance in the performance of those duties, and divine mercy and forgiveness for all errors of act or purpose, and pray that in all that we do we shall strengthen the ties of friendship and mutual respect upon which we must assist to build the new structure of peace and good will among the nations.

"Wherefore, I, Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the 28th day of November next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the Ruler of nations.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia this 16th day of November, in the year of our Lord one thousand nine hundred and eighteen and of the independence of the United States of America the one hundred and forty-third.

"WOODROW WILSON.

"By the president:
"ROBERT LANSING, Secretary of State."

EPIDEMIC OF SPANISH INFLUENZA.

The greater part of the world was swept by a severe epidemic of what became generally known as "Spanish influenza" in 1918. It was severe in all European countries and claimed many thousands of victims in the United States. It led to the closing of schools, churches and theaters in many cities and to the issuing of orders forbidding public gatherings of any kind. Rupert Blue, surgeon-general of the United States public health service, in a number of leaflets issued by him in October, told something of the origin of the disease, its symptoms and its cure. Following are extracts from these leaflets:

"The disease now occurring in this country and called 'Spanish influenza' resembles a very contagious kind of 'cold' accompanied by fever, pains in the head, eyes, ears, back or other parts of the body, and a feeling of severe sickness. In most of the cases the symptoms disappear after three or four days, the patient then rapidly recovering; some of the patients, however, develop pneumonia, or inflammation of the ear, or meningitis, and many of these complicated cases die. Whether this so-called 'Spanish influenza' is identical with the epidemics of influenza of earlier years is not yet known.

"Epidemics of influenza have visited this country since 1647. It is interesting to know that this first epidemic was brought here from Valencia, Spain. Since that time there have been numerous epidemics of the disease. In 1889 and 1890 an epidemic of influenza, starting somewhere in the orient, spread first to Russia, and thence over practically the entire civilized world. Three years later there was another flareup of the disease. Both times the epidemic spread widely over the United States.

"It seems probable that in 1918, as in 1889-90, the earlier appearance was in eastern Europe. By April cases were occurring on the western front. In Spain, according to reports, 30 per cent of the population were attacked in May. The 1889 epidemic, starting in northern Europe, also fell heavily on Spain, the present ruler, then 3 years of age, being one of the first attacked in Madrid. The king of Spain is said also to have been attacked in the present epidemic. The epidemic of 1918 was at its height in Germany in June and July. It has appeared in practically every section of Europe. In England the epidemic prevailed in May, June and July.

Came from the Orient.

"Although the present epidemic is called 'Spanish influenza,' there is no reason to believe that it originated in Spain. Some writers who have studied the question believe that the epidemic came from the orient and they call attention to the fact that the Germans mention the disease as occurring along the eastern front in the summer and fall of 1917.

"There is as yet no certain way in which a single case of 'Spanish influenza' can be recognized; on the other hand, recognition is easy where there is a group of cases. In contrast to the outbreaks of ordinary coughs and colds, which usually occur in the cold months, epidemics of influenza may occur at any season of the year; thus the present epidemic raged most intensely in Europe in May, June and July. Moreover, in the case of ordinary colds, the general symptoms (fever, pain, depression) are by no means as severe or as sudden in their onset as they are in influenza. Finally, ordinary colds do not spread through the community so rapidly or so extensively as does influenza.

"Bacteriologists who have studied influenza epidemics in the past have found in many of the cases a very small rod-shaped germ called, after its discoverer, Pfeiffer's bacillus. In other cases of apparently the same kind of disease there were found pneumococci, the germs

of lobar pneumonia. Still others have been caused by streptococci, and by other germs with long names.

"No matter what particular kind of germ causes the epidemic, it is now believed that influenza is always spread from person to person, the germs being carried with the air along with the very small droplets of mucus, expelled by coughing or sneezing, or forceful talking and the like by one who already has the germs of the disease. They may also be carried about in the air in the form of dust coming from dried mucus, from coughing and sneezing, or from careless people who spit on the floor and on the sidewalk. As in most other catching diseases, a person who has only a mild attack of the disease himself may give a very severe attack to others.

"It is very important that every person who becomes sick with influenza should go home at once and go to bed. This will help keep away dangerous complications and will at the same time keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient. In fact, no one but the nurse should be allowed in the room.

"If there is cough and sputum or running of the eyes and nose, care should be taken that all such discharges are collected on bits of gauze or rag or paper napkins and burned. If the patient complains of fever and headache, he should be given water to drink, a cold compress to the forehead, and a light sponge. Only such medicine should be given as is prescribed by the doctor. It is foolish to ask the druggist to prescribe and may be dangerous to take the so-called 'safe, sure and harmless' remedies advertised by patent medicine manufacturers.

"If the patient is so situated that he can be attended only by some one who must also look after others in the family, it is advisable that such attendant wear a wrapper, apron, or gown over the ordinary house clothes while in the sick room, and slip this off when leaving to look after the others.

"Nurses and attendants will do well to guard against breathing in dangerous disease germs by wearing a simple fold of gauze or mask while near the patient."

Congress Appropriates \$1,000,000.

The situation became so serious in many communities that congress, at the request of the public health service, by a joint resolution approved Oct. 1, 1918, appropriated \$1,000,000 to enable the health service officials to combat the disease by aiding the state and local health boards.

In a report issued by the public health service Nov. 8, 1918, it was stated that from the beginning of the epidemic to and including Nov. 2, a grand total of approximately 115,000 deaths from influenza and pneumonia had been reported. In this report figures were given showing the deaths in large cities per 100,000 of population from influenza and pneumonia during the weeks when the diseases were most prevalent. Here are the figures for the third week:

Philadelphia ...	264.9	Cleveland	98.5
Baltimore	258.7	Chicago	82.7
New Orleans	180.8	New York	73.9
Washington	147.9	Omaha	82.7
Nashville	107.6	Rochester	80.0
Boston	158.4	Louisville	75.2
San Francisco	156.6	Birmingham	58.0
Fall River	154.8	Kansas City	55.0
Richmond	111.5	Denver	54.8
Lowell	123.3	Columbus	53.1
Cambridge	100.6	Atlanta	51.5
New Haven	50.6	Indianapolis	45.1
Memphis	109.4	Milwaukee	39.3
Dayton	106.3	St. Louis	30.3
Oakland	66.8		

Deadlier than Warfare.

The bureau of the census in Washington issued a statement Nov. 18, 1918, comparing the deaths from influenza in the United States with the toll of life taken among the American forces in Europe. It assumed that the number of deaths among the soldiers was between 40,000 and 45,000. While it became known later that the number was considerably larger, the comparison in the main was correct. The statement follows:

"The influenza epidemic has thus far taken a much heavier toll of American life than has the great war. The total loss of life throughout the country is not known, but the bureau of the census has been publishing, for forty-six large cities having a combined population estimated at 23,000,000, weekly reports showing the mortality from influenza and pneumonia. These reports, which cover the period from Sept. 8 to Nov. 9, inclusive, show a total of 82,306 deaths from these causes. It is estimated that during a similar period of time the normal number of deaths due to influenza and pneumonia in the same cities would be about 4,000, leaving approximately 78,000 as the number properly chargeable to the epidemic.

"The total casualties in the American expeditionary forces have recently been unofficially estimated at 100,000. On the basis of the number thus far reported, it may be assumed that the deaths from all causes, including disease and accidents, are probably less than 45 per cent and may not be more than 40 per cent of the total casualties. On this assumption, the loss of life in the American expeditionary forces to date is about 40,000 or 45,000.

"Thus, in forty-six American cities having a combined population of only a little more than one-fifth the total for the country, the mortality resulting from the influenza epidemic during the nine weeks' period ended Nov. 9 was nearly double that in the Ameri-

can expeditionary forces from the time the first contingent landed in France until the cessation of hostilities.

"For the forty-six cities taken as a group, the epidemic reached its height during the two weeks ended Oct. 26, for which period 40,782 deaths were reported—19,938 for the week ended Oct. 19 and 20,844 for the following week. Since Oct. 26, however, the decline has been pronounced. During the week ended Nov. 2, 14,857 deaths occurred, and during the following week only 7,798. The only city in which the number of deaths reported for the week ended Nov. 9 exceeded the number occurring during the previous week was Spokane, Wash.

"In general, the epidemic traversed the country from east to west. In a number of eastern cities—notably Boston, where the greatest mortality occurred during the week ended Oct. 5—the largest number of deaths were reported for earlier periods than that which covered the height of the epidemic for the forty-six cities taken as a group. On the other hand, in New Haven, New York, Pittsburgh and Rochester the maximum mortality occurred somewhat later than in eastern cities generally. In Baltimore, Buffalo and Philadelphia the two weeks period ended Oct. 26 showed the greatest number of deaths. For the entire nine weeks' period the greatest mortality due to the epidemic, in proportion to population—7.4 per 1,000—occurred in Philadelphia; and the next greatest—6.7 per 1,000—was reported for Baltimore."

Many Deaths in Camps.

Most of the army and navy training camps suffered severely from the epidemic, thousands of deaths occurring. Some of them had to be quarantined for a number of days until the disease was checked. At the Great Lakes naval training station near Chicago at one time the deaths per day were between seventy-five and 100.

FEDERAL WORKMEN'S COMPENSATION COMMISSION.

Appointed by President Wilson Jan. 5, 1917.
 Dr. Riley McMillan Little of Swarthmore, Pa., a republican, for a term of six years.

Mrs. Frances C. Axtell of Bellingham, Wash., a progressive, for a term of four years.
 John J. Keegan of Indianapolis, a democrat, for a term of two years.

SOCIALIST 1917 PLATFORM.

In view of the fact that some of the leaders in the socialist party were indicted under the espionage act on the charge of advocating principles in violation of that law and the general charge made against the party of unpatriotic conduct in relation to the war and also in view of the further fact that it may figure in the presidential campaign of 1920, the platform adopted by national referendum on July 24, 1917, becomes of interest. It is as follows:

Preamble.

The majority of the workers in America, whether rendering service by hand or brain, are victims of poverty or near poverty; are insecure in their employment and ever live in fear of want.

This is the fact because they are underpaid. The wages or salaries they receive are only a small part of the wealth or value they produce and such wages or salaries are insufficient to maintain a decent standard of life.

Poverty of the masses in a land of abundance like America is the greatest of all modern crimes.

The wage worker is not free, because he can work only by the consent of the owners of jobs.

The owners who do not work and the workers who do not own the industries, each naturally seek to protect and advance their own interests. Both seek to maintain the share they now get and to secure more for themselves by taking something from the other. The clash of these interests creates the class struggle.

Because of this class struggle the workers organize into labor unions, co-operative societies and in the socialist party. The owners organize into employers' associations, commercial bodies and citizens' alliances. They also control and dominate the great political parties. Labor's principal weapons are strikes and boycotts. The capitalists respond with lockouts, blacklists, court injunctions, imprisonments, hangings and even mass murder. This terrible class warfare is world wide and a grave menace to civilization. Its abolition is the most important and vital issue confronting the human race.

The present system of production and distribution is known as the capitalist system to distinguish it from the several systems which preceded it, such as chattel slavery and the feudal system. Under capitalism there are two distinct classes, the capitalist class and the working class. The capitalist class is maintained by the taking of rents, interest and profits.

The working class, owning no industries, lives by getting wages. The worker sells the only thing that he owns, his power to labor. This power to labor lessens with his advancing years.

Controlling the government, the capitalist class makes laws in its own interest. Behind these class laws is every instrument of the government to defend and make sacred the private ownership of land and industries and special privileges by which labor is robbed.

Thus the economic question is a political question. How you live is a political question of momentous importance. The theory of a democratic government is the greatest good to the greatest number. The working class far outnumbers the capitalist class. Here is the natural advantage of the working class. By uniting solidly in a political party of its own, it can capture the government and all its powers and use them in its own interest.

The socialist party aims to abolish this class war with all its evils and to substitute for capitalism a new order of co-operation, wherein the workers shall own and control all the economic factors of life. It calls upon all workers to unite, to strike as they vote and to vote as they strike, all against the master class.

Only through this combination of our powers can we establish the co-operative commonwealth wherein the workers shall own their jobs and receive the full social value of their product. The necessities of life will then be produced not for the profits of the few but for the comfort and happiness of all who labor. Instead of privately owned industries, with masters and slaves, there will be the common ownership of the means of life, and all the opportunities and resources of the world will be equal and free to all.

This magnificent goal represents the supreme ideal of the human race. As such it is to the highest interest of every human being to join in the struggle of the working class and help fight to a finish the battle which will free all men and women and lift them to a position infinitely higher and better than can ever be possible so long as the system of capitalism endures.

Immediate Program.

The following are measures which we believe of immediate practical importance and for which we wage an especially energetic campaign:

Political Demands.

1. Complete adult suffrage by the elimination of all sex, residential and educational qualifications, by the abolition of all registration fees, poll taxes or other impediments to voting. Enfranchisement of those who have declared their intention to become citizens and have resided in this country one year.
2. Democratic control of the government through a constitutional amendment providing for the initiative, referendum and recall.
3. Effective voting and proportional representation on all legislative bodies.
4. The abolition of the power of the courts to make and unmake laws because of alleged unconstitutionality or other grounds.
5. Rigid maintenance of the right of free press, speech and assemblage in peace and in war.

Economic Demands.

1. National ownership and democratic control of the railroads, telegraphs and telephones, steamship lines and all other social means of transportation, communication, storage and distribution.
2. Nationalization of banking and of socially beneficial kinds of insurance.
3. Direct loans to municipalities and states at cost.

Further Demands.

The following measures do not exhaust by any means the ways by which the workers can be helped to freedom. They are compiled as suggestive of further activity to that end.

1. Abolition of the senate and the veto power of the president.
2. Direct election of the president and vice-president.
3. Immediate curbing of the power of the courts to issue injunctions.
4. Direct election of all judges of the United States courts for short terms.
5. Free administration of law and the creation of public defenders.

Industrial Demands.

1. Complete abolition of child labor.
2. A legal minimum wage based on the ascertained cost of a decent standard of life.
3. Full protection for migratory and unemployed workers from oppression.
4. Abolition of private employment, detective and strike breaking agencies, and the extension of the federal employment bureau.
5. A shorter work day in keeping with increased industrial productivity.
6. An uninterrupted rest period of one and a half days in each week.

7. Freedom of industrial and political activities of the workers.

General Demands.

1. Taxation to be raised from graduated taxes on incomes and inheritance and from site values.
2. Adequate higher educational facilities for the entire youth of the nation, and such contribution to family resources as will enable the youth to remain in contact with such fa-

ilities until they are fully equipped for their economic and social careers.

3. Government support, by loans and other methods, to farmers' and workers' co-operative organizations.

4. The retention and extension of the public domain and the conservation and full development of natural resources by the nation.

5. Pensions for mothers, for invalidity, and old age.

FEDERAL RESERVE BANK DISTRICTS AND OFFICIALS.

FEDERAL RESERVE BOARD.

Appointed by the president.

- Members.** Terms expire.
- W. G. P. Harding (Ala.) governor.....1922
 (Vacancy) vice-governor.....
 Frederick Strauss (N. Y.).....1920
 Adolph C. Miller (Cal.).....1924
 Charles S. Hamlin (Mass.).....1926
 Ex Office Members—The secretary of the treasury, chairman, and the comptroller of the currency.
- Secretary—H. Parker Willis.
 Assistant Secretary and Fiscal Agent—Sherman P. Allen.
 Counsel—M. C. Elliott.
 Chief of Division of Audit and Examination—Joseph A. Broderick.
 Headquarters—Treasury department, Washington.

Salaries—Of five members, \$12,000 a year; comptroller of currency as ex office member, \$7,000 a year additional to his salary of \$5,000 as comptroller. The secretary to the board gets \$6,000 a year, the assistant secretary \$4,500 and the counsel \$7,500. The chief of audit and examination is paid \$6,000 a year.

Duties—The federal reserve board exercises a general supervision over the affairs and management of the federal reserve banks. It has the power to discount paper, issue federal reserve notes and perform other banking functions prescribed by the law. It appoints its own officers and employs and derives its support from assessments levied on the reserve banks. The members of the board are appointed by the president of the United States.

FEDERAL RESERVE CITIES.

- | | |
|------------------------|-------------------------|
| Dist. and city. | Dist. and city. |
| 1. Boston, Mass. | 7. Chicago, Ill. |
| 2. New York, N. Y. | 8. St. Louis, Mo. |

Second Liberty loan of 1917.....	Sept. 24, 1917.....	4 & 4½ per cent.....	1917..	†3,807,863,516.00	3,746,813,516.00
Third Liberty loan.....	April 4, 1918.....	4½ per cent.....	1918.....	†3,243,045,138.47	3,228,109,638.47
Postal savings bonds (1st to 13th series).....	June 25, 1910.....	2½ per cent.....	1911-17.	10,758,560.00	10,758,560.00
Postal savings bonds (14th series).....	June 25, 1910.....	2½ per cent.....	1918.....	302,140.00	302,140.00
War sav. and thrift stamps.....	Sept. 24, 1917.....	4 per cent.....	1917-18.	\$352,769,265.13	349,797,297.33
Aggregate of interest-bearing debt.....				12,701,132,104.22	11,985,882,436.42

*Excludes matured series. †These amounts represent receipts of the treasurer of the United States on account of principal of bonds of the first, second and third Liberty loans, respectively, to June 30. ‡The average issue price of war savings stamps for the year 1918 with interest at 4 per cent per annum compounded quarterly for the average period to maturity will amount to \$5 on Jan. 1, 1923. Thrift stamps do not bear interest. §This amount represents receipts of the treasurer of the United States on account of proceeds of sales of war savings certificate stamps and United States thrift stamps.

Gross Debt.

Debt bearing no interest.....	\$237,503,732.69
Debt on which int. has ceased.....	20,242,550.26
Interest-bearing debt.....	11,985,882,436.42
Gross debt.....	12,243,628,719.37

Net Debt.

Gross debt (above).....	\$12,243,628,719.37
Deduct—Balance free of current obligations.....	1,319,347,364.14
Net debt*.....	10,924,281,355.23

*The amount of \$5,624,434,750 has been expended to above date in this and the preceding fiscal year from the proceeds of sales of bonds authorized by law for purchase of the obligations of foreign governments. When payments are received from foreign governments on account of the principal of their obligations, they must be applied to the reduction of the interest-bearing debt of the United States.

*Issues and redemptions of certificates and notes not affecting the cash in general fund are excluded from the public debt figures in this statement.

†Includes \$1,466,335,095, sale of liberty loan bonds; \$918,205,000, sale of certificates of indebtedness; and \$37,273,045, bank note fund.

‡Includes \$7,566,035,812, liberty loan bonds; \$8,790,732,000, sale of certificates of indebtedness; and \$307,092,391, sale of war savings and thrift stamps.

THE CARNEGIE FOUNDATION FOR THE PROMOTION OF TEACHING.

The Carnegie Foundation for the Advancement of Teaching was founded by Andrew Carnegie in 1905 and incorporated by the congress of the United States in 1906 for the purpose of providing retiring allowances for teachers and officers of universities, colleges and technical schools in the United States, Canada and Newfoundland, and, in general, of advancing the profession of the teacher and the cause of higher education. In the administration of its endowment, which now amounts to \$15,000,000, the foundation has restricted its allowances to professors and officers in a list of seventy-three institutions, selected for their educational standing, and has published a series of widely influential reports and bulletins concerning educational conditions. The president of the foundation is Henry S. Pritchett; its trustees are presidents of universities and colleges and financiers. Further information may be had by addressing the secretary, Clyde Furst, 576 5th avenue, New York.

UNITED STATES POSTAL STATISTICS.
RECEIPTS AND EXPENDITURES.

Year.	Revenue.	Expenditures.	Deficit.	Amount of losses by fire, burglary, bad debts, etc.	1917.	1918.

Net income in the year.....	244,738,908.36	294,026,564.85
Deduct: Interest on U. S. Steel corporation bonds outstanding	21,256,303.17	21,602,852.90
Premium paid on bonds redeemed:		
On subsidiary companies' bonds.....	117,914.50	146,277.11
On U. S. Steel corporation bonds.....	745,933.69	870,673.57
Balance.....	222,618,757.00	271,406,761.27
Add: Net balance of sundry charges and credits, including adjustments of various accounts.....	1,600,807.54	124,969.11
Balance.....	224,219,564.54	271,531,730.38
Dividends on U. S. Steel corporation stocks:		
Preferred, 7 per cent.....	25,219,677.00	25,219,677.00
Common: 1917, regular 5 per cent, extra 13 per cent;	91,494,450.00	44,476,468.75
1916, regular 5 per cent, extra 3% per cent.....
Net income.....	107,505,437.54	201,835,584.63
Less, appropriated from net income on account of expenditures made and to be made on authorized appropriations for additional property, new plants and construction....	55,000,000.00
Balance carried to undivided surplus.....	52,505,437.54	201,835,584.63
*Balance of earnings after making allowances for estimated amount of federal income and war excess profits taxes.		

THE PANAMA CANAL.

CANAL STATISTICS (OFFICIAL).

Length from deep water to deep water—50.5 miles.
 Length on land—40.5 miles.
 Length at summit level—31.7 miles.
 Bottom width of channel—Maximum, 1,000 feet;
 minimum (in Gaillard cut), 300 feet.
 Depth—Minimum, 41 feet; maximum, 45 feet.
 Summit level—85 feet above mean tide.
 Locks in pairs—12.
 Locks, usable length—1,000 feet.
 Locks, usable width—110 feet.
 Gatun lake, area—164 square miles.
 Gatun lake, channel depth—85 to 45 feet.
 Concrete required—5,000,000 cubic yards.
 Time of transit through canal—10 to 12 hours.
 Time of passage through locks—3 hours.
 Length of relocated Panama railroad—46.2 miles.
 Canal Zone area—About 443 square miles.
 Canal Zone area owned by United States—About
 322 square miles.
 French buildings acquired—2,150.
 French buildings used—1,537.
 Value of utilized French equipment—\$1,000,000.
 Cubic yards excavated by French—108,046,960.
 Cubic yards excavated by Americans—250,000,000.
 Canal force, average at work—About 39,000.
 Approximate cost of construction—\$375,000,000.

PANAMA CANAL OFFICIALS.

Governor—Col. Chester Harding, U. S. A.
 Executive Secretary—C. A. McIlvaine.
 Chief Division of Civil Affairs—Crede H. Cal-
 houn.
 Chief Division of Police and Fire—Guy Johannes.
 District Attorney—Charles R. Williams.
 Department Headquarters—Balboa Heights, Canal
 Zone.
 Electrical Engineer—Lieut.-Col. T. H. Dillon,
 U. S. A.
 Marine Superintendent—Commander Leonard R.
 Sargent, U. S. N.
 Resident Engineer, Division of Dredging—W. G.
 Comber.
 Superintendent Mechanical Division—R. D. Gate-
 wood, U. S. N.
 Resident Engineer Building Division—Hartley
 Rowe.
 Chief Quartermaster—R. K. Morris.
 Auditor—H. A. A. Smith.
 Chief Health Officer—Maj. A. T. McCormack,
 U. S. A.
 Chief Quarantine Officer—Dr. M. C. Guthrie, U.
 S. P. H. S.

Washington Office.

General Purchasing Officer and Chief of Office—
 A. L. Flint.
 Assistant to Chief of Office—Ray L. Smith.

Courts.

District Judge—John W. Hanan.
 Clerk—E. L. Goolsby.

CHRONOLOGY.

First exploration of route 1527.
 Advocated by Humboldt 1803.
 Panama railroad built 1850-1855.
 Panama canal company formed by De Lesseps 1879.
 Work on canal begun Feb. 24, 1881.
 Canal company failed Dec. 11, 1888.
 De Lesseps and others sentenced to prison for
 fraud Feb. 9, 1893.
 New French canal company formed October, 1894.
 De Lesseps died Dec. 7, 1894.
 Hay-Pauncefote treaty superseding the Clayton-
 Bulwer treaty signed Nov. 18, 1901; ratified by
 senate Dec. 16; ratified by Great Britain Jan.
 20, 1902.
 Canal property offered to the United States for
 \$40,000,000 Jan. 9, 1902; accepted Feb. 16, 1903.
 Bill authorizing construction of canal passed by
 house of representatives Jan. 9, 1902; passed by
 senate June 19, 1902; approved June 28, 1902.
 Canal treaty with Colombia signed Jan. 22, 1903;
 ratified by Senate March 17, 1903; rejected by
 Colombia Aug. 12, 1903.
 Revolution in Panama Nov. 3, 1903.
 Canal treaty with Panama negotiated Nov. 18,
 1903; ratified by republic of Panama Dec. 2, 1903;
 ratified by United States senate Feb. 23, 1904.
 Canal commissioners appointed Feb. 29, 1904.

Papers transferring canal to the United States
 signed in Paris April 22, 1904.
 Bill for government of Canal Zone passed by the
 senate April 15, 1904; passed by the house
 April 21; approved April 26.
 Canal property at Panama formally turned over
 to the United States commissioners May 4, 1904.
 Work begun by Americans May 4, 1904.
 President outlines rules for the government of
 the Canal Zone and war department takes
 charge of the work May 9, 1904.
 Gen. George W. Davis appointed first governor
 of Canal Zone May 9, 1904.
 John F. Wallace appointed chief engineer May
 10, 1904; resigned June 29, 1905.
 Republic of Panama paid \$10,000,000 May 21, 1904.
 First payment on \$40,000,000 to French canal com-
 pany made May 24, 1904.
 Lorin C. Collins appointed Supreme court judge
 for Canal Zone June 17, 1905.
 New commission with Theodore P. Shonts as
 chairman named April 3, 1905; Shonts resigned
 March 4, 1907.
 John F. Stevens appointed chief engineer June
 29, 1905; resigned Feb. 26, 1907.
 Lieut.-Col. George W. Goethals appointed chief
 engineer Feb. 26, 1907.
 Gatun dam finished, June 14, 1913.
 Dry excavation completed, Sept. 10, 1913.
 First vessel lifted through Gatun locks, Sept.
 26, 1913.
 Gamboa dike blown up, Oct. 10, 1913.
 First vessels pass through Miraflores locks, Oct.
 14, 1913.
 Permanent organization of canal administration
 in effect April 1, 1914; Col. George W. Goe-
 thals first governor; existence of isthmian can-
 al commission ended.
 First freight barges go through canal from ocean
 to ocean May 14, 1914.
 First steamship (the Cristobal) passes through
 canal Aug. 13, 1914.
 Canal opened for general traffic Aug. 15, 1914.
 Canal blocked by slides, September, 1915, to
 April, 1916.

TRAFFIC STATISTICS.

Fiscal years ended June 30.

	1914-15.	1916.	1917.
Number vessels.....	1,033	787	1,376
Net tonnage.....	3,843,035	2,479,751	6,009,358
Tons of cargo.....	4,969,792	3,140,046	7,229,255
Tolls	\$4,358,002	\$2,399,830	\$5,631,781

Information as to traffic through the canal since
 June 30, 1918, withheld by the government for
 military reasons.

REVENUES AND EXPENSES.

Year.	Revenue.	Expense.
1914-15	\$4,358,002.37	\$4,289,159.00
1916	2,558,542.38	6,999,750.15
1917	5,808,398.70	6,788,047.60

LABOR FORCE.

April 24, 1918, the actual working force on the
 canal was 20,939, of whom 17,620 were silver
 and 3,319 gold employes, the latter being almost
 exclusively white Americans.

CANAL ZONE.

The Canal Zone contains about 448 square
 miles and in June, 1918, had a total population of
 21,707. It begins at a point three marine miles
 from mean low water mark in each ocean and
 extends for five miles on each side of the center
 line of the route of the canal. It includes the
 group of islands in the Bay of Panama, named
 Perico, Naos, Culebra and Flamenco. The cities
 of Panama and Colon are excluded from the
 zone, but the United States has the right to en-
 force sanitary ordinances and maintain public
 order there in case the republic of Panama
 should not be able to do so.

PANAMA RAILROAD.

The Panama railroad and the steamships run
 in connection with it between New York and
 Colon are owned and operated by the United
 States government. It practically parallels the
 canal nearly the whole distance. It is 46½ miles
 long and runs between the cities of Colon and
 Panama.

UNITED STATES PENSION STATISTICS.

PENSIONS AND PENSONERS BY YEARS SINCE 1866.

	Paid as pensions.	Expenses.	No. of pen- sioners.
1866.	\$15,450,549.58	\$407,165.00	\$15,857,714.38
1867.	20,784,789.69	490,977.35	21,275,767.04
1868.	23,101,509.36	553,020.34	23,654,529.70

COST OF LIVING IN THE UNITED STATES.

RETAIL PRICES OF FOOD.

According to the bureau of labor statistics of the United States department of labor, all food combined showed an increase in price of 89 per cent for the five-year period July 15, 1913, to July 15, 1918. For every article for which prices are secured by the bureau there was an increase of 50 per cent and more in the five years and for four articles the increase exceeded 100 per cent, as follows: Meal, 123 per cent; potatoes, 105 per cent; lard, 104 per cent; flour, 103 per cent. The following table shows the average retail prices of certain articles of food on July 15 of 1917 and 1918 and the per cent of increase (+) in 1918 as compared with 1917. Where the relative price in 1918 is not shown it is because the prices for the articles in question were not secured by the bureau in 1913:

The unit for each article is one pound except as to eggs, where it is one dozen, bread a loaf of 16 ounces and milk one quart.

DUN'S INDEX NUMBER.

According to the index number compiled by Dun's Review the general level of prices as determined by wholesale commodity quotations was nearly 93 per cent higher on Sept. 1, 1918, than at the beginning of the European war. Monthly comparisons of Dun's index number for the first nine months of 1918 follow:

Month.	Bread, stuffs.	Meat.	Dairy and garden.	Other food.	Clothing.	Metals.	Miscellaneous.	Total.
Jan. 1.....	\$54.276	\$19.292	\$27.416	\$18.744	\$40.880	\$29.273	\$32.294	\$222.175
Feb. 1.....	54.001	20.577	28.768	18.848	42.384	29.584	32.858	227.020
March 1.....	55.498	20.917	27.123	19.194	42.213	29.914	33.118	227.977
April 1.....	57.036	22.246	24.155	20.326	43.322	29.508	33.720	230.313
May 1.....	51.328	22.947	23.706	21.414	43.450	29.880	34.420	226.665
June 1.....	48.360	23.262	23.826	21.026	44.707	29.936	34.556	224.843

Aug. 1.....	51.620	23.085	24.681	22.307	44.285	30.345	35.735	232.058
Sept. 1.....	50.314	23.664	25.009	22.491	44.739	30.609	36.056	232.882

Breadstuffs include quotations of wheat, corn, oats, rye and barley, besides beans and peas; meats include live hogs, beef, sheep and various provisions, lard, tallow, etc.; dairy and garden include butter, eggs, vegetables and fruits; other foods include fish, liquors, condiments, sugar, rice, tobacco, etc.; clothing includes the raw material of each industry, and many quotations of woolen, cotton and other textile goods, as well as hides and leather; metals include various quotations of pig iron and partially manufactured and finished products, as well as minor metals, coal and petroleum. The miscellaneous class embraces many grades of hard and soft lumber, lath, brick, lime, glass, turpentine, hemp, linseed oil, paints, fertilizers and drugs.

ANNALIST COMPUTATION.

The New York Annalist's "Curve in the Cost of Living," or index number, which shows the fluctuations in the average wholesale price of twenty-five food commodities selected and arranged to represent a theoretical family's food budget, indicated that prices rose steadily from January to May, 1917, when there was a decline, followed by a gradual rise until Oct. 1, 1918. The index number published Oct. 28, 1918, showed:

Base—averages 1890-99=100 per cent.

Weekly Averages.

Oct. 26, 1918..	281.489	Oct. 28, 1918..	196.512

NATIONAL INDUSTRIAL CONFERENCE BOARD REPORT.

The national industrial conference board, an organization formed in November, 1916, to improve industrial conditions, in October, 1918, announced the results of its study of the changes that had affected the wage earner's household budget since the beginning of the war in 1914. This budget was divided into five heads—food, shelter, clothing, fuel and light and sundries. The board summed up its findings in this way:

"Taking into consideration all of the factors in the problem, the evidence points strongly to the conclusion that for the great majority of American communities the average increase in the cost of living between July, 1914, and June, 1918, lies between 50 per cent and 55 per cent. Clothing showed the most marked advance of any of the major items in the budget—77 per cent—but quantitatively this is less important than the 62 per cent increase in the cost of food, since food represents about 43 per cent of the average expenditure, while clothing represents only 13 per cent."

In its calculations the board considered the family expenditure as distributed on the following basis: Food, 43.1 per cent; rent, 17.7 per cent; clothing, 13.2 per cent; fuel and light, 5.6 per cent; sundries, 20.4. The percentage of increase in cost during the war period to June, 1918, was: Food, 62 per cent; rent, 15 per cent; clothing, 77 per cent; fuel and light, 45 per cent, and sundries, 50 per cent. The percentage distribution of expenditures reflected the expenditures of 11,000 families.

DAYLIGHT SAVING LAW AND NEW TIME ZONES.

An act to save daylight and to provide standard time for the United States.

Be it enacted, etc., That for the purpose of establishing the standard time of the United States, the territory of continental United States shall be divided into five zones in the manner hereinafter provided. The standard time of the first zone shall be based on the mean astronomical time of the seventy-fifth degree of longitude west from Greenwich; that of the second zone on the ninety-fifth degree; that of the third zone on the 105th degree; that of the fourth zone on the 120th degree; and that of the fifth zone, which shall include only Alaska, on the 150th degree. That the limits of each zone shall be defined by an order of the interstate commerce commission, having regard for the convenience of commerce and the existing junction points and division points of common carriers engaged in commerce between the several states and with foreign nations, and such order may be modified from time to time.

standard time of each zone shall be advanced one hour, and at 2 o'clock antemeridian of the last Sunday in October in each year the standard time of each zone shall, by the retarding of one hour, be returned to the mean astronomical time of the degree of longitude governing said zone, so that between the last Sunday in March at 2 o'clock antemeridian and the last Sunday in October at 2 o'clock antemeridian in each year the standard time in each zone shall be one hour in advance of the mean astronomical time of the degree of longitude governing each zone, respectively.

Sec. 4. That the standard time of the first zone shall be known and designated as United States standard eastern time; that of the second zone shall be known and designated as United States standard central time; that of the third zone shall be known and designated as United States standard mountain time; that of the fourth zone shall be known and designated as United States standard Pacific time; and that of the fifth zone shall be known and

STANDARD TIME ZONES AS FIXED BY INTERSTATE COMMERCE COMMISSION IN 1918.

Sec. 2. That within the respective zone created under the authority hereof the standard time of the zone shall govern the movement of all common carriers engaged in commerce between the several states or between a state and any of the territories of the United States, or between a state or the territory of Alaska and any of the insular possessions of the United States or any foreign country. In all statutes, orders, rules, and regulations relating to the time of performance of any act by any officer or department of the United States, whether in the legislative, executive, or judicial branches of the government, or relating to the time within which any rights shall accrue or determine, or within which any act shall or shall not be performed by any person subject to the jurisdiction of the United States, it shall be understood and intended that the time shall be the United States standard time of the zone within which the act is to be performed.

Sec. 3. That at 2 o'clock antemeridian of the last Sunday in March of each year the

designated as United States standard Alaska time.

Sec. 5. That all acts and parts of acts in conflict herewith are hereby repealed. (Approved March 19, 1918.)

NEW TIME ZONES FIXED.

In accordance with the foregoing act of congress the interstate commerce commission issued an order on March 28 temporarily continuing the old time zones. Hearings were given in the course of the summer to those interested, experts were consulted and finally on Oct. 24 a formal order was issued prescribing new time zone limits for the entire United States to go into effect Jan. 1, 1919.

EASTERN-CENTRAL BOUNDARY LINE.

The boundary line between the eastern and central time zones as fixed by the commission runs from east of Port Huron, Mich., along the international boundary line through the St. Clair river, Lake St. Clair, Detroit river and then runs in a southerly direction through Toledo, Fremont, Clyde, Bellevue, Monroeville,

Willard, Shelby Junction, Gallon, Marion, Columbus, Lancaster, Dundas and Gallipolis, Ohio; Huntington, Kenova and Williamson, W. Va.; Duncannon, Va.; Bristol, Va.; Tenn.; Telford, Tenn.; Asheville and Franklin, N. C.; Atlanta, McDonough, Macon, Perry, Americus, Albany and Thomasville, Ga.; the north boundary of Florida to River Junction and the Apalachicola river to the Gulf of Mexico.

The following-named municipalities located upon the boundary line between the eastern and central time zones are considered as within the United States standard eastern zone: Fremont, Clyde, Bellevue, Monroeville, Willard, Shelby, Shelby Junction, Gallon, Lancaster, Dundas, and Gallipolis, Ohio; Duncannon, Va.; Bristol, Va.; Tenn.; Asheville and Franklin, N. C.; points on Southern Railway, McDonough, Ga., to Macon, Ga.; Perry, and Thomasville, Ga.

All other municipalities located upon the boundary line between the eastern and central time zones not specifically named, are considered as within the United States standard central time zone.

CENTRAL-MOUNTAIN BOUNDARY LINE.

Between central and mountain time the line begins at the Canadian boundary, Portal, N. D., running through Minot and Goodall, N. D.; and following the Missouri river to Pierre, S. D., then through Murdo Mackenzie, S. D.; Long Pine, North Platte, McCook and Republican Junction, Neb.; Phillipsburg, Plainville, Ellis, Dodge City and Liberal, Kas.; Waynoka, Clinton and Sayre, Okla.; Sweetwater, Big Springs and San Angelo, Tex., and the 100th meridian to the Rio Grande river.

The following-named municipalities located upon the boundary line between the central and mountain time zones are considered as within the United States standard central time zone; Portal, Flaxton, and Minot, N. D.; Murdo Mackenzie, S. D.; Phillipsburg, Stockton, Plainville, Ellis, and Liberal, Kas.; Waynoka, Ralph, and Sayre, Okla.; Sweetwater, Big Springs, and San Angelo, Tex.

All other municipalities located upon the boundary line between the central and mountain time zones not specifically named are considered as within United States standard mountain time zone.

MOUNTAIN-PACIFIC BOUNDARY LINE.

Between mountain and Pacific time zones the line is fixed following the eastern boundary of the Blackfeet Indian reservation in Montana, and the continental divide, to Helena, Butte, and Dillon, Mont.; Pocatello, Idaho, and the Oregon short line to Ogden and Salt Lake City, Utah; thence the Los Angeles and Salt Lake railroad and the west and south boundaries to the 113th meridian; thence to Seligman and Parker, Ariz., and along the Colorado river to the Mexican boundary.

All municipalities on the boundary between mountain and Pacific time zones will use Mountain standard time.

ALASKA AND HAWAII.

All of Alaska is left within a single time zone, the commission holding it cannot deal with this matter, nor with the omission of the Hawaiian islands from the terms of the daylight saving act.

SENATOR LA FOLLETTE CENSURED.

United States Senator Robert M. LaFollette, whose stand on the war with Germany had caused widespread dissatisfaction not only throughout the country but particularly in his own state, Wisconsin, many of the people of which felt that he misrepresented them and caused the loyalty of the state to be questioned, was censured at an extra session of the assembly in Madison Feb. 25-March 6, 1918. The senate, which was the first to act, passed Feb. 5, by a vote of 26 to 3, the following resolution:

"The people of the state of Wisconsin have stood and always will stand squarely behind

the present war to a successful end. We condemn Senator Robert M. LaFollette and all others who have failed to see the righteousness of our nation's cause and have failed to support our government in matters vital to the winning of the war. And we denounce any attitude or utterance of theirs which has tended to incite sedition among the people of our country and to injure Wisconsin's fair name before the free peoples of the earth."

Through the maneuvers of a number of LaFollette's friends in the lower house a deadlock prevented action until March 6, when the senate resolution was adopted by a vote of 53 to 32.

PRINCIPAL OCCUPATIONS IN THE UNITED STATES.

[From census report for 1910.]

Occupation.	Total.	Men.	Women.	Occupation.	Total.	Men.	Women.

Value stock.....	308,804,431	193,758,037
Total value property.....	3,905,321,075	2,004,316,897

The average value of an Illinois farm, including its equipment, rose from \$7,588 in 1900 to \$15,505 in 1910. The counties showing the highest average value of farm land per acre—\$125 and over—were Cook, Iroquois, Vermillion, Edgar, LaSalle, Livingston, Ford, Champaign, Douglas, Coles, Woodford, McLean, Dewitt, Platt, Macon,

Moultrie, Tazewell, Logan and Sangamon. The next highest—\$100 to \$125 per acre—were DeKalb, Lee, Kendall, Will, Kankakee, Grundy, Bureau, Henry, Rock Island, Mercer, Warren, Knox, Stark, Peoria, McDonough, Marshall, Putnam, Morgan and Christian.

Of the farms in Illinois in 1910, 58.6 per cent were operated by owners and managers and 41.4 by tenants. Of the farms 60.3 per cent were free from mortgages and 39.2 were mortgaged.

Domestic Animals on Illinois Farms.

	Number.	Value.
Cattle.....	2,440,577	\$73,454,745

Supply ship	202,768.60
Hospital ship	208,271.40
Torpedo boat tender	187,775.96
Fuel ship	116,093.21

WHEN AND HOW TO USE THE FLAG.

Prepared by E. B. Wicklander.

The flag should not be raised before sunrise and should be lowered at sunset, but may fly at all times during war if intended for patriotic and not advertising purposes. In stormy weather it is considered unkind to permit the flag to fly except in battle, where it may wave night and day without regard for weather.

The flag in times of peace is not permitted by correct usage to float all night except at the grave of Francis Scott Key, author of "The Star Spangled Banner."

Displaying the Flag—The flag, out of doors, should be flown from a pole whenever possible, or a wire or rope. In the United States army all flags are suspended from poles and in no other way. The blue field is placed farthest from the house displaying it, except when facing a parade, with the flag suspended across the street with the stripes perpendicular, in which case the blue field goes in the upper left hand corner as viewed by the parade.

While raising or lowering the flag, it must not touch the ground; care for it tenderly and respectfully.

Driving nails in the flag to hold it in place is considered wrong. Preferably it should be tied with red, white or blue cord, or tri-colored cord.

Colors on Parade—When the colors are passing on parade or in review, the spectator should, if walking, halt; if sitting, arise, stand at attention and uncover; men to remove their hats and women to bow their heads. All military men are required to stand at salute.

Used in Decoration—When the flag is hung vertically (so it can be viewed from one side only) the blue field should be at the right as one faces it. When hung horizontally the field should be at the left. The flag should never be placed below a person sitting.

Desecration of the Flag—No advertisement or lettering of any sort should ever be placed upon the flag, or any object, especially mer-

chandise for sale, placed upon it; nor should it ever be used as a trade mark. It should not be worn as the whole or part of a costume, and when worn as a badge, it should be small and pinned over the left breast or to the left collar lapel.

When worn as an emblem on the coat or other garment, no other token should be worn above it.

The flag in any form should never appear on towels, handkerchiefs, aprons or other utilitarian clothes of any kind, nor used as a table scarf.

When Portrayed—The flag when portrayed by an illustrative process should always have the staff so placed that it is at the left of the picture, the fabric floating to the right. In crossing the flag with that of another nation, the United States flag should be at the right.

Used as a Banner—When the flag is used as a banner, the blue field should fly to the north in streets running east and west, and to the east in streets running north and south.

Half-Mast or Used on a Bier—Before placing the flag at half-mast on Memorial day or when officially required as a symbol of mourning, it must have been raised to the top of pole or staff and then lowered at or near the center of the staff.

When the flag is placed over a bier or casket, the blue field should be at the head.

On Memorial day, May 30—The national flag should be displayed at half-mast until noon, when hoisted to the top of the staff, where it remains until sunset.

Days When the Flag Should Be Flown—Washington's birthday, Feb. 22; Lincoln's birthday, Feb. 12; Mothers' day, second Sunday in May; Memorial day, May 30; Flag day, June 14; Independence day, July 4; also many local patriotic anniversaries.

When a flag has become old and worn, it should not be allowed to be thrown around and treated with disrespect, but should be burned.

BUCK'S STOVE COMPANY BOYCOTT CASE.

Proceedings were brought in the Supreme court of the District of Columbia in August, 1907, against the officers of the American Federation of Labor to enjoin them from conducting a boycott against the Buck's Stove and Range company of St. Louis, Mo., by advertising that the concern was on the "unfair" and "we don't patronize" lists of the federation's official organ. The injunction was issued by Judge Gould Dec. 23, 1907. On the plea that the injunction was being violated proceedings for contempt of court were brought against Samuel Gompers, president; John Mitchell, vice-president, and Frank Morrison, secretary of the federation. They were declared guilty by Justice Wright of the Supreme court of the District of Columbia Dec. 23, 1908. Mr. Gompers was sentenced to one year's imprisonment, Mr. Mitchell to nine months' and Mr. Morrison to six months' imprisonment. They were admitted to bail and the case was taken to the Court of Appeals of the District of Colum-

bia, which tribunal decided Nov. 2, 1909, that the decree against them was valid.

An appeal was taken to the United States Supreme court, which on May 15, 1911, reversed the judgments of the lower courts and remanded the case. May 5, 1913, the Court of Appeals of the District of Columbia again affirmed the original findings in the contempt case, but reduced Mr. Gompers' sentence to thirty days in jail and held that Mitchell and Morrison should be exempt from prison sentences, but should each pay a fine of \$500. June 19, 1913, Chief Justice White of the United States Supreme court granted an appeal by the defendants that the case be heard again by the highest tribunal.

May 11, 1914, the United States Supreme court set aside the sentences imposed upon Gompers, Mitchell and Morrison on the ground that they were barred by the statute of limitations. Justice Holmes, who read the opinion, held that the contempt proceedings should have been begun within three years from the date of the offense.

THE SAGE FOUNDATION.

March 12, 1907, Mrs. Russell Sage of New York announced that she had set aside the sum of \$10,000,000 to be known as the Sage Foundation and to be devoted to the improvement of the social and living conditions in the United States.

Following is a part of the statement given out by Mrs. Sage as to the object of the gift: "I have set aside \$10,000,000 for the endowment of this foundation. Its object is the improvement of social and living condi-

tions in the United States. The means to that end will include research, publication, education, the establishment and maintenance of charitable and beneficial activities, agencies and institutions and the aid of any such activities, agencies and institutions already established.

The general director of the fund is John M. Glenn. Office, 130 East 22d street, New York, N. Y.

WINNERS OF THE NOBEL PRIZES.

PHYSICS.

- 1901—William Conrad Roentgen, professor of physics at the University of Munich.
 1902—Divided equally between Henrik Anton Lorentz, professor of physics at the University of Leyden, and Peter Zeeman, professor of physics at the University of Amsterdam.
 1903—Half to Antoine Henri Becquerel, professor of physics at the Ecole Polytechnique and at the Musée d'Histoire Naturelle, Paris, France, member Institut Français, and half to Pierre Curie, professor of physics at the University of Paris (Sorbonne) and teacher in physics at the Paris Municipal School of Industrial Physics and Chemistry, and his wife, Marie Skłodowska Curie, preceptress at the Higher Normal School for Young Girls at Sevres.
 1904—Lord Rayleigh, professor of natural philosophy, Royal Institution of Great Britain, London.
 1905—Philippe Lenard, professor of physics at the Physical Institute of Kiel.
 1906—J. J. Thomson, professor of experimental physics at the University of Cambridge.
 1907—Albert A. Michelson, professor of physics at the University of Chicago.
 1908—Prof. Gabriel Lippman of the University of Paris.
 1909—G. Marconi, Italy, and Prof. Ferdinand Braun of Strassburg.
 1910—Johannes Diderik van der Waals, professor of experimental physics in the University of Amsterdam, Holland.
 1911—Prof. Wilhelm Wien, University of Wurzburg.
 1912—Gustaf Dalen, Swedish engineer.
 1913—Prof. H. Kamerlingh Onnes, University of Leyden.
 1914—Prof. Max von Laue, Germany.
 1915—Prof. William H. Bragg and W. L. Bragg, Cambridge, England.
 1916, 1917 and 1918—No award.

MEDICINE.

- 1901—Emil Adolf von Behring, professor of hygiene and medical history at the University of Marburg, Prussia.
 1902—Donald Ross, professor of tropical medicine at the University college of Liverpool.
 1903—Niels Ryberg Finsen, professor of medicine, Copenhagen, Denmark.
 1904—Ivan Petrovic Pawlow, professor of physiology in the Military Academy of Medicine, Petrograd, Russia.
 1905—Robert Koch, member of the Royal Academy of Science, Berlin.
 1906—Profs. Ramon y Cajal and Camillo Golgi of the Pavia university, Italy.
 1907—Charles L. A. Laveran of the Pasteur institute in Paris.
 1908—Dr. Paul Ehrlich of Berlin and Prof. Elie Metchnikoff of the Pasteur institute, Paris.
 1909—Prof. F. T. Kocher, Switzerland.
 1910—Dr. Albrecht Kossel, professor of physiology, Heidelberg university, Germany.
 1911—Allvar Gullstrand, professor of diseases of the eye, Uppsala university, Sweden.
 1912—Dr. Alexis Carrel of the Rockefeller Institute for Medical Research, New York, N. Y.
 1913—Prof. Charles Richet, University of Paris.
 1914—Dr. Robert Barany, Vienna, Austria.
 1915, 1916, 1917 and 1918—No award.

CHEMISTRY.

- 1901—Jakob Hendrik van't Hoff, professor of chemistry in the University of Berlin.
 1902—Emil Fischer, professor of chemistry in the University of Berlin.
 1903—Svante August Arrhenius, professor at the University of Stockholm.
 1904—Sir William Ramsay, professor of chemistry in the University college, London.
 1905—Adolf von Baeyer, professor of chemistry at Munich.
 1906—H. Moissan, professor of chemistry at the Sorbonne, Paris.
 1907—Edvard Buchner, professor of chemistry in the agricultural high school of Berlin.
 1908—Prof. Ernest Rutherford of the University of Manchester, England.
 1909—Prof. W. Ostwald of Leipzig.

- 1910—Otto Wallach, professor of chemistry in the University of Göttingen.
 1911—Mme. Marie S. Curie, professor of sciences, University of Paris.
 1912—Prof. Grignard, Nancy university, and Prof. Paul Sabatier, Toulouse university.
 1913—Prof. Alfred Werner, University of Zurich.
 1914—Prof. T. W. Richards, Harvard university.
 1915—Dr. R. Willstaetter, Berlin, Germany.
 1916, 1917 and 1918—No award.

LITERATURE.

- 1901—Rene Francois Armand Sully-Prudhomme, member of the French Academy.
 1902—Theodor Mommsen, a professor of history at the University of Berlin.
 1903—Bjornstjerne Bjornson, author, Norway.
 1904—Half to Frederic Mistral of France and half to Jose Echegaray of Spain.
 1905—Henryk Sienkiewicz, author of "Quo Vadis?"
 1906—Prof. Giosue Carducci of Bologna, Italy.
 1907—Rudyard Kipling of England.
 1908—Prof. Rudolf Eucken, University of Jena.
 1909—Selma Lagerlof, Sweden.
 1910—Paul Johann Ludwig Heyse, Germany.
 1911—Maurice Maeterlinck, Belgium.
 1912—Gerhart Hauptmann, German author and dramatist.
 1913—Rabindra Nath Tagore, Hindu poet.
 1914—No award reported.
 1915—Romain Rolland, French novelist.
 1916—Verner Heidenstam, Swedish poet.
 1917—Karl Gjellerup and M. Pontoppidan, Danish authors.
 1918—No award.

PEACE.

- 1901—Divided equally between Henri Dunant, founder of the International Red Cross Society of Geneva, and Frederic Passay, founder of the first French peace association, the "Societe Francaise pour l'Arbitrage entre Nations."
 1902—Divided equally between Elie Ducommun, secretary of the international peace bureau at Bern, and Albert Gobat, chief of the interparliamentary peace bureau at Bern.
 1903—William Randal Cremer, M. P., secretary of the International Arbitration League, London.
 1904—The Institute of International Right, a scientific association founded in 1873 in Ghent.
 1905—Bertha von Suttner, for her literary work written in the interest of the world's peace movement.
 1906—Theodore Roosevelt, president of the United States, for the part he took in bringing the Russo-Japanese war to an end. Money set apart by the recipient for various public purposes.
 1907—Divided equally between Ernesto T. Moneta, president of the Lombardy Peace union, and Louis Renault, professor of international law at the University of Paris.
 1908—K. P. Arndtson of Sweden and M. F. Bajer of Denmark.
 1909—Baron d'Estournelles de Constant, Paris, and M. Beaernert, Holland.
 1910—International Permanent Peace bureau, Bern.
 1911—Prof. T. C. M. Asser, Holland, and Alfred Fried, Austria.
 1912—Elihu Root of New York.
 1913—Henri la Fontaine of Belgium.
 1914, 1915 and 1916—No award.
 1917—International Red Cross, Geneva.
 1918—No award.

ORDER OF PRESIDENTIAL SUCCESSION.

In case of the removal, death, resignation or disability of both the president and vice-president, then the secretary of state shall act as president until the disability of the president or vice-president is removed or a president is elected. The rest of the order of succession is: Secretary of the treasury, secretary of war, attorney-general, postmaster-general, secretary of the navy, secretary of the interior, secretary of agriculture and secretary of commerce. The acting president, in case congress is not in session, must call a special session, giving twenty days' notice.

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

Established by act of Congress March 21, 1866.

Names and Location of Branches—Central, Dayton, O.; Northwestern, Milwaukee, Wis.; Southern, Hampton, Va.; Eastern, Togus, Me.; Western, Leavenworth, Kas.; Marion, Marion, Ind.; Pacific, Santa Monica, Cal.; Danville, Danville, Ill.; Mountain, Johnson City, Tenn.; Battle Mountain Sanitarium, Hot Springs, S. D.

Board of Managers—The president of the United States, the chief justice of the Supreme court, the secretary of war, ex officio, Washington, D. C.; president, Gen. George H. Wood, Dayton, O.; first vice-president, Capt. John C. Nelson, Logansport, Ind.; secretary, James S. Catherwood, Hoopston, Ill.; Maj. James W. Wadsworth, Geneseo, N. Y.; Col. H. H. Markham, Pasadena, Cal.; Maj. John W. West, Lewiston, Me.; Col. George Black, Olathe, Kas.

General treasurer—Col. C. W. Wadsworth. Inspector-general and chief surgeon—Col. James E. Miller.

Requirements for Admission.

- Honorable discharge from the United States service.
 - Disability which prevents the applicant from earning a living by labor.
 - Applicants for admission will be required to abide by all the rules and regulations made by the board of managers, perform all the duties required of them and obey all the lawful orders of the officers of the home.
 - A soldier or sailor to be admitted must forward with his application his discharge paper, his pension certificate if he is a pensioner and his discharge from a state home if he has been an inmate of such home. These papers are retained at the branch to which he is admitted to prevent their loss or fraud, but are returned to him when he is discharged. Soldiers or sailors whose pensions exceed \$16 a month are not admitted to the home except for special reasons.
- The National Home for Disabled Volunteer Soldiers is supported by the United States government. The annual appropriation for that purpose is about \$4,000,000.

STATE SOLDIERS' HOMES.

There are a number of state homes for disabled volunteer soldiers who, for various reasons, are unable to obtain admission to the national homes. The federal government contributes toward the support of the state homes the sum of \$100 for each soldier, based upon the average attendance for the year; the remainder of the expenses is paid by the states themselves. Some of these homes are on the cottage plan. Following is a list of the state homes:

California—Yountville. Connecticut—Norton Heights. Colorado—Monte Vista.

Illinois—Quincy. Indiana—Boise. Indiana—Lafayette. Iowa—Marshalltown. Kansas—Fort Dodge. Massachusetts—Chelsea. Michigan—Grand Rapids. Minnesota—Minnehaha. Missouri—St. James. Montana—Columbus Falls. Nebraska—Grand Island and Milford. New Jersey—Kearny and Vineland.

HOME FOR REGULAR ARMY SOLDIERS.

The United States maintains a home for disabled and discharged soldiers of the regular army at Washington, D. C. All soldiers who have served twenty years in the army and all soldiers who have incurred such disability, by wounds, disease or injuries in the line of duty while in the regular army, as units them for further service are entitled to admission to the home. The home is in charge of a board of commissioners, consisting of the governor of the home, the adjutant-general of the army, the judge-advocate, the commissary-general, the quartermaster-general, the chief of engineers and the surgeon-general. The present governor is Lieut.-Gen. S. B. M. Young (retired).

CONFEDERATE SOLDIERS' HOMES.

Confederate veterans of the civil war have a home at Beauvoir, near Biloxi, Miss. The residence there of Jefferson Davis in his last years was secured in 1902 as a refuge for helpless old southern soldiers by the United Sons of Confederate Veterans. It is supported by that society and the United Daughters of the Confederacy. Another home for confederate veterans was opened in Washington, D. C., May 24, 1913, by the women of the Southern Relief association.

RACES OF THE WORLD.

The six great races of mankind according to Whitaker's Almanack are divided as follows:

Race.	Number.
Mongolian	655,000,000
Caucasian	645,000,000
Negro	100,000,000
Semitic	51,000,000
Malayan	52,000,000
Red Indian	23,000,000
Total	1,646,000,000

NATIONAL PROHIBITION AMENDMENT.

The house of representatives in Washington, D. C., by a vote of 282 to 128 adopted, Dec. 17, 1917, the senate joint resolution submitting to the states an amendment providing for the suppression of the liquor traffic one year after the ratification of the amendment by the required thirty-six state legislatures and also providing that the amendment shall be inoperative unless ratified within seven years from the date of submission. The resolution had passed the senate Aug. 1, 1917, by a vote of 65 to 20. It was amended in the house and the senate accepted the resolution as amended Dec. 18 by a rising vote of 47 yeas to 8 nays.

Following is the joint resolution as adopted by the house and senate:

Article — Section 1. After one year from the ratification of this article the manufacture, sale or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

"Sec. 2. The congress and the several states shall have concurrent power to enforce this article by appropriate legislation.

"Sec. 3. This article shall be inoperative unless it shall have been ratified as an amendment to the constitution by the legislatures of the several states, as provided in the constitution, within seven years from the date of the submission hereof to the states by the congress."

Up to Dec. 1, 1918, the following states had ratified the amendment. They are named in the order of ratification, the dates in all cases being in 1918:

Mississippi, Jan. 9.	Delaware, March 18.
Virginia, Jan. 10.	So. Dakota, March 20.
Kentucky, Jan. 14.	Massachusetts, Apr. 2.
South Carolina, Jan. 23.	Arizona, May 24.
North Dakota, Jan. 25.	Georgia, June 26.
Maryland, Feb. 13.	Louisiana, Aug. 8.
Montana, Feb. 19.	Florida, Nov. 27.
Texas, March 4.	

The number necessary to carry the amendment is 36.

The states dry prior to December, 1917, were:

Alabama.	Maine.	Oregon.
Arizona.	Michigan.	South Carolina.
Arkansas.	Mississippi.	South Dakota.
Colorado.	Montana.	Tennessee.
Georgia.	Nebraska.	Utah.
Idaho.	North Carolina.	Virginia.
Iowa.	North Dakota.	Washington.
Kansas.	Oklahoma.	West Virginia.

The Anti-Saloon League of America on Nov. 8, 1918, claimed that as the result of the state elections on Nov. 5 the ratification of the constitutional amendment was assured.

"Ohio, Florida, Nevada, Wyoming and Minnesota," said the league officers, "have voted dry and elected ratification legislatures. These states, added to the fourteen that have ratified the amendment and the nineteen states now dry that are sure to ratify the amendment make thirty-eight, or two more than the required thirty-six states for ratification."

PROHIBITION AFTER JUNE 30, 1919.

On Nov. 21, 1918, President Wilson signed a food production stimulation bill containing a rider making the United States "bone dry" after June 30, 1919. In substance the new law provides that after May 1, 1919, until the conclusion of the present war and thereafter until the termination of demobilization, the date of which shall be determined and proclaimed by the president of the United States, no grain, cereals, fruits or other product shall be used in the manufacture or production of beer, wine or other intoxicating malt or vinous liquor for beverage purposes.

After June 30, 1919, until the conclusion of the present war and thereafter until the termi-

nation of demobilization, the date of which shall be determined and proclaimed by the president of the United States, no beer, wine or other intoxicating malt or vinous liquor shall be sold for beverage purposes except for export.

The provision further directs:

"The commissioner of internal revenue is hereby authorized and directed to prescribe rules and regulations, subject to the approval of the secretary of the treasury, in regard to the manufacture and sale of distilled spirits and removal of distilled spirits held in bond as of June 30, 1919, until this act shall cease to operate, for other than beverage purposes; also in regard to the manufacture, sale and distribution of wine for sacramental, medicinal or other than beverage uses.

"After the approval of this act no distilled, malt, vinous or other intoxicating liquors shall be imported into the United States during the continuance of the present war and period of demobilization, except wines which may be imported until May 1, 1919, provided that this provision against importation shall not apply to shipments en route to the United States at the time of the passage of this act."

FEDERAL FUNDS FOR ROADS.

Following are the apportionments by the secretary of agriculture of the federal funds to be used in the fiscal year ending June 30, 1919, under the federal aid road act of July 11, 1916:

State.	Amount.	State.	Amount.
Alabama	\$313,456.47	Nevada	193,229.82
Arizona	205,540.58	N. Hampshire ..	62,610.11
Arkansas	250,018.47	New Jersey	177,357.22
California ...	456,167.23	New Mexico	238,634.55
Colorado	257,278.92	New York	749,674.20
Connecticut..	92,216.45	N. Carolina	342,556.47
Delaware ...	24,411.99	N. Dakota	229,585.91
Florida	170,723.38	Ohio	558,043.42
Georgia	403,909.45	Oklahoma	346,489.34
Idaho	182,471.55	Oregon	236,332.74
Illinois	658,323.48	Pennsylvania ..	690,145.78
Indiana	406,230.18	Rhode Island ..	34,972.33
Iowa	434,653.61	S. Carolina	215,014.08
Kansas	429,331.88	S. Dakota	243,175.61
Kentucky ...	292,984.62	Tennessee	340,663.51
Louisiana ...	203,755.29	Texas	876,986.70
Maine	144,807.42	Utah	170,763.17
Maryland ...	130,871.43	Vermont	68,128.92
Massachus'ts	221,261.85	Virginia	298,120.77
Michigan ...	435,356.37	Washington	216,530.19
Minnesota ...	425,865.40	W. Virginia	159,713.89
Mississippi..	263,751.60	Wisconsin	382,707.20
Missouri ...	598,603.98	Wyoming	183,805.78
Montana ...	298,520.89		
Nebraska ...	319,445.25	Total	14,560,000.00

Before making the apportionment, the secretary of agriculture, in accordance with the provisions of the act, deducted 3 per cent of the appropriation to meet the cost of administering the act. The remaining amounts were divided among the states as the act prescribes—one-third in the ratio of area, one-third in the ratio of population and one-third in the ratio of mileage of rural delivery routes and star routes. For the fiscal year ending June 30, 1917, the appropriation was \$5,000,000. For succeeding years the total appropriation was as follows:

1918	\$10,000,000	1920	\$20,000,000
1919	15,000,000	1921	25,000,000

These sums do not include the \$1,000,000 which is appropriated each year for ten years for the development of roads and trails within or partly within the national forests. Road construction except for military purposes practically ceased in 1918, to be resumed at the end of the war. The total of all state and state-aid roads built to Jan. 1, 1917, was 69,186. The total mileage of roads in the United States in 1917 was 2,455,761, of which 287,047 were surfaced.

THE MOONEY CASE.

What had become internationally known as "the Mooney case" came to a climax Nov. 28, 1918, when Gov. W. D. Stephens of California at the request of President Wilson saved Thomas J. Mooney from death on the gallows for his alleged participation in the death of ten persons from a bomb explosion in San Francisco while a preparedness parade was in progress. The governor commuted the sentence of death imposed by the court to imprisonment for life.

The death sentence passed upon Mooney was for the murder of Mrs. Myrtle Irene Van Loo of Merced, Cal., one of ten persons killed by the preparedness day bomb. Four others were indicted with him on ten counts of murder, but his case was singled out as an issue by labor organizations of several countries. Strikes were urged in various parts of the country, and others were urged in other countries as labor's protests. Mooney's appeal to wartime workers not to strike stopped agitation for a general strike May 1, 1918.

Four of the five persons indicted were tried for murder. Mooney was sentenced to be hanged May 17, 1917. Warren K. Billings was given a life sentence. Mrs. Rena Herman Mooney, Mooney's wife, and Israel Weinberg, a taxicab driver, were acquitted on one charge and were in November, 1918, at liberty on bail on other charges of murder, while Edward D. Nolan, a machinist, still was awaiting trial.

Mooney's activity in a San Francisco street car strike characterized by violence and his alleged Industrial Workers of the World affiliations drew suspicion toward him and his wife. They were arrested five days after the explosion at Guerneville, Cal.

Mooney's trial opened Jan. 3, 1917, and ended with his conviction Feb. 9.

Frank C. Oxman, a cattleman of Durkee, Ore., the state's chief witness, testified in the Mooney trial that he saw the Mooneys, Billings and Weinberg drive to the spot where the explosion occurred, and saw Billings deposit a suitcase supposed to contain the bomb.

Subsequently Mooney's attorneys charged Oxman testified falsely and that he sought to induce F. E. Rigall of Grayville, Ill., to do likewise. The Illinois State Federation of Labor announced it had similar information. Rigall testified at Oxman's trial for attempted subornation of perjury that Oxman offered to divide with him a portion of a large reward offered for Mooney's conviction. Oxman was acquitted.

"Frameup" Charge Made.

Charges that Mooney was denied a square deal and that he was the victim of a "frame-up" which were made at various times after his conviction, culminated Nov. 22 when a report signed by John B. Densmore, federal director of employment, alleged crookedness in the prosecution of many cases in the San Francisco courts.

Among other charges the report said "practically the whole case against Mooney, Billings and Mrs. Mooney was made to order."

During the two years worldwide appeals were made to labor bodies to act in support of a new trial. Russian radicals paraded in Petrograd and made a demonstration before the embassy. The American Federation of Labor, the London Trade council, and other organizations made public demands for a new trial for Mooney.

Governor's Statement.

In commuting Mooney's sentence Gov. Stephens issued the following statement:

"On July 22, 1916, ten persons—men, women and children—were killed and about fifty others wounded in a bomb explosion during a preparedness parade in the city of San Francisco. The parade was a patriotic manifestation into which the people had entered with much spirit and loyal impulse.

"Manifestly, because of the occasion chosen, hostility to the nation's defense measures must have had a part in actuating the perpetration of so horrible a deed.

"It is not unreasonable to assume that a sympathy or even a definite relationship existed between those murderers and the propaganda and violence then being engaged in throughout the country by agents of the German government.

"The case as presented to the California courts was that of murder, without further evidence of motive than the impossible tenets of anarchists whose sympathies for the German cause in the war are well known. Their wild pacifist theories fitted into the widespread activities of the kaiser's agents in this country.

"A number of persons of pronounced anarchistic tendencies were arrested shortly after the explosion and of these Warren K. Billings was convicted and sentenced to life imprisonment and Thomas J. Mooney found guilty and sentenced to be hanged.

"So long as avenues of appeal to the courts remained open to Mooney and he was availing himself thereof, I deemed it improper for executive authority to interfere.

"Although the constitution of California clothes the governor with power to exercise clemency at any time after conviction, it is important so far as practicable, not to intrude into any criminal case until the judicial branch has finally disposed of it. Only recently has final action been taken by the United States Supreme court, and the case of *The People vs. Thomas J. Mooney* placed squarely before me.

"In considering the Mooney case, I have had before me the urgent appeal of the president of the United States that I grant commutation.

"Originally, early this year, I received a letter from the president asking me if it would not be possible to postpone the execution of Mooney until he could be tried upon one of the other indictments against him.

"Inasmuch as an appeal already had been taken to the Supreme court of California, which appeal itself acted as a stay of the execution, there was at that time no occasion for action on my part. I take it that the president was not correctly informed as to the status of the case.

"I have carefully reviewed all the available evidence bearing on the case. There are certain features connected with it which convince me that the extreme penalty should not be executed. Therefore, and because of an earnest request of President Wilson for commutation, and conscious of the duty I owe as governor of this state to all of its people, I have decided to commute Mooney's sentence to life imprisonment."

Wilson's Letters to Stephens.

President Wilson's letters to Gov. Stephens urging clemency for Mooney were written in March and June, the first reading as follows:

"The White House, Washington, D. C., March 27, 1918.—Gov. William D. Stephens, Sacramento, Cal.:

"With very great respect I take the liberty of saying to you that if you could see your way to commute the sentence of Mooney it would have a most heartfelt effect upon certain international affairs which his execution would greatly complicate.

"WOODROW WILSON."

In June the governor received this additional message, the president again urging commutation of sentence:

"The White House, Washington, D. C., June 4, 1918.—Hon. William D. Stephens, Sacramento, Cal.:

"I beg that you will believe that I am moved only by a sense of public duty and of consciousness of the many and complicated interests involved when I again most respectfully

suggest a commutation of the death sentence imposed upon Mooney. I would not venture again to call your attention to this case did I not know the international significance which attaches to it. WOODROW WILSON."

Takes Full Responsibility.

The governor said there were certain features connected with the case which convinced him that the sentence of death should not be executed. He added that he accepted "full

responsibility for the wisdom and justification of the action."

In reviewing the case Gov. Stephens said his action was taken after a painstaking survey of the evidence produced at Mooney's trial, but because of "certain new developments following the conviction" which could not be considered by the state Supreme court, to which the case had been appealed, he found justification for setting aside the death sentence.

STATES, CAPITALS, GOVERNORS AND LEGISLATURES.

State or territory.	Capital.	Governor.	Term, years.	Salary.	Term expires.	Next legislature.	Limit session.

*Biennial sessions. †Appointed by the president. ‡Quadrennial sessions.

UNITED STATES FOOD EXPORTS.

The following table shows the increase over normal in exports of foodstuffs by the United States since it became the food-reservoir for the world on account of the war:

	3-year prewar average.	1916-17. fiscal year.	1917-18. fiscal year.	July, 1917, to Sept. 30, 1917.	July, 1918, to Sept. 30, 1918.
Beef products, lbs.	186,375,372	405,427,417	565,462,445	93,962,477	171,986,147
Pork products, lbs.	996,230,627	1,498,302,713	1,691,437,435	196,256,750	540,946,324
Dairy products, lbs.	2,637,790	351,958,336	590,798,274	130,071,165	161,245,029
Vegetable oils, lbs.	332,430,537	206,708,490	151,029,893	27,719,553	26,026,701
Grains, bushels	183,777,331	395,140,238	349,123,235	66,383,084	121,668,823
Sugar, lbs.	621,745,507	3,084,390,281	2,149,787,050	1,108,559,519	1,065,398,247

*Wheat harvest 1917-18 was 200,217,333 bushels below the average of the three previous years.

The United States food administration issued the following Sept. 24, 1918:

"Under the agreement entered into by the food administration with the food controllers of the allied nations, our breadstuffs export

program for the coming year will be: Wheat, rye, barley and corn, or flour calculated as grain for breadstuffs, 409,320,000 bushels of which from 100,000,000 to 165,000,000 bushels may be cereals other than wheat."

IRISH HOME RULE AND CONSCRIPTION.

Ireland was the scene of much political turmoil and unrest in 1918. In April the convention which had been in session in Dublin for about eight months concluded its labors and a report, the main features of which are appended, was made. It was thought for a time that a fairly satisfactory solution of the Irish problem had been found and that the dream of home rule would at last be realized. But the conscription question which had been raised earlier in the year, was coupled with the home rule proposition and aroused so much opposition from the nationalists and the people generally that no progress was made toward the establishment of a government in Dublin. The breach, on the contrary, was widened by the violent actions of the Sinn Feiners and the refusal of young Irishmen to volunteer in the army in any large numbers.

On May 17 it was announced in Dublin that a German plot had been discovered in Ireland and that an outbreak of armed violence had been planned. On the following days many Irish leaders, including Prof. Edward de Valera and other Sinn Feiners, were arrested. It did not appear, however, that the plot had gone very far before it was crushed by the authorities. The great war came to a close before the conscription question was finally settled.

OUTLINE OF HOME RULE PLAN.

Sir Horace Plunkett made public April 12 the report of the Irish convention. Paragraph 42, under the title, "Statement of Conclusion," summed up the report as follows:

"Section 1. The Irish parliament to consist of the king, senate and house of commons. Notwithstanding the establishment of an Irish parliament, the supreme power and authority of the parliament of the united kingdom shall remain unaffected and undiminished over all persons, matters and things in Ireland and every part thereof. (Section carried by 51 to 18.)

"Sec. 2. The Irish parliament to have general powers to make laws for peace, order and the good government of Ireland. (Section carried 51 to 19.)

"Sec. 3. The Irish parliament to have no power to make laws on the following: Crown and succession, the making of peace and war, army and navy, treaties and foreign relations, dignities and titles of honor, necessary control of harbors for naval and military purposes, coinage and weights and measures, copyrights and patents.

The imperial and Irish government shall jointly arrange, subject to imperial exigencies, for the unified control of the Irish police and postal services during the war, provided that as soon as possible after the cessation of hostilities, the administration of these two services shall become subject to the Irish parliament. (Section carried 49 to 16.)

"Sec. 4. Restriction of the power of the Irish parliament; prohibition of laws interfering with religious equality; a special provision protecting the position of Freemasons; a safeguard for Trinity college and Queen's university; money bills to be founded only on a viceregal message; privileges and qualifications of the members of the Irish parliament to be limited as in the act of 1914; rights of existing Irish officers to be safeguarded. (Carried 46 to 15.)

"Sec. 5. Constitutional amendments as in the act of 1914. (Carried 46 to 15.)

"Sec. 6. The executive power in Ireland to continue to be invested in the king, exercisable through the lord lieutenant on the advice of an Irish executive committee as in the act of 1914. (Carried 45 to 15.)

"Sec. 7. Dissolution of the Irish parliament, as in the act of 1914. (Carried 45 to 15.)

"Sec. 8. Royal assent to bills, as in the act of 1914. (Carried 45 to 15.)

"Sec. 9. Constitution of the senate as follows: One lord chancellor, four bishops of the Roman Catholic church, two bishops of the Church of Ireland [Episcopal], one represent-

ative of the general assembly, three lord mayors, of Dublin, Belfast and Cork; fifteen peers resident in Ireland; eleven persons nominated by the lord lieutenant, fifteen representatives of commerce and industry, four representatives of labor, one for each province; eight representatives of county councils, two each province. Total, 64. (Carried 48 to 19.)

"Sec. 10. Constitution of the house of commons: The original elected members shall number 160. The University of Dublin, the University of Belfast and the National university shall each have two members, elected by graduates.

"Special representation shall be given to urban and industrial areas by grouping the smaller towns and applying to them a lower electoral quota than the rest of the country.

"The principle of proportional representation shall be observed whenever a constituency returns two or three members.

"Forty per cent of the membership in the house of commons shall be guaranteed to the unionists and, in pursuance of this, twenty members shall be nominated by the lord lieutenant, with a view to due representation of interests not otherwise adequately represented in the provinces of Leinster, Munster and Connaught, and twenty additional members shall be elected by Ulster to represent commercial, industrial and agricultural interests, the nominated members to disappear in whole or in part after fifteen years.

"Extra Ulster representation is not to cease except on the decision of a three-fourths majority of both houses sitting together.

"The house of commons shall continue for five years, unless previously dissolved. (Carried 45 to 20.)

"Sec. 11. Money bills to originate only in the house of commons and not amendable by the senate. (Carried 45 to 22.)

"Sec. 12. Disagreement between the houses to be solved by a joint sitting. (Carried 45 to 22.)

"Sec. 13. Representation in the British parliament to continue. Irish representatives to have the right to deliberate and vote on all matters. Forty-two Irish representatives shall be elected to the British house of commons. Irish representatives in the British house of lords to continue as at present until that chamber is remodeled, when that matter shall be reconsidered. (Carried 44 to 22.)

Sec. 14. Finance: Irish exchequer and consolidated fund to be established, an Irish comptroller and auditor-general to be appointed, as in act of 1914. If necessary, it would be declared that all taxes at present leviable in Ireland should continue to be levied and collected until the Irish parliament otherwise decides. Necessary adjustments of revenue between Ireland and Great Britain during the transition should be made. (Carried 51 to 18.)

"Sec. 15. Control of customs and excise by the Irish parliament to be postponed for further consideration until after the war, provided that that question shall be considered and decided by the united kingdom parliament within seven years after the conclusion of the war. Until the question of the ultimate control of Irish customs and excise shall be decided, the united kingdom's board of customs and excise shall include persons nominated by the Irish treasury.

"A joint exchequer board, consisting of two members nominated by the imperial treasury and two nominated by the Irish treasury, with a chairman appointed by the king, shall be set up to determine the true income of Ireland.

"Until the question of the ultimate control of the Irish customs and excise shall be decided, the revenue due to Ireland, as determined by the joint exchequer board, shall be paid into the Irish exchequer. All branches of taxation other than customs and excise shall be under control of the Irish parliament. (Carried 38 to 30.)

"Sec. 16. The principle of imperial con-

tributions is approved. (Carried unanimously.)

"Sec. 17. Accepts the report of the subcommittee on land purchases. (Carried unanimously.)

"Sec. 18. Deals with the judicial power, similarly to the act of 1914. (Carried 43 to 17.)

"Sec. 19. The lord lieutenant shall not be a political officer. He shall hold office six years. Neither he nor the lords nor justices shall be subjected to any religious disqualifications. His salary shall be sufficient to throw the post open to men of moderate means. (Carried 43 to 17.)

"Sec. 20. A civil service commission, consisting of representatives of the Irish universities, shall formulate a scheme of competitive examinations for admission to the public

service, and nobody shall be admitted to such service unless he holds civil service commission certificates.

"A scheme of appointments and salaries shall be prepared by a special commission and no appointments shall be made until the scheme of this commission has been approved. (Carried 42 to 18.)

"Section 21. The Irish government, if desired, may defer taking over the departments of old age pensions, national insurance, labor exchanges, postal savings banks and friendly societies. (Carried 43 to 18.)

The concluding paragraph, submitting the report to the imperial government, was carried 42 to 35. The whole report was carried 44 to 29.

WILL NOT NEED GERMAN POTASH.

The following statement was issued from the department of the interior in October, 1918:

"The United States does not need German potash."

This statement was made by Secretary Lane. "Germany has thought all along, and still thinks no doubt," continued the secretary, "that she has a whip hand over America because of her supply of this mineral, but America can in two years become entirely independent of Germany in this regard by the development of her own deposits and the use of processes devised by Dr. Cottrell of this department."

When the war started this country, having had nearly a quarter million tons of potash from Germany each year, suddenly found herself cut off from this important fertilizer material. That constituted a call to American science to get busy, and very soon this country was producing potash from the brine lakes of California, Nebraska, and other states; from the kelp, the seaweed of the Pacific coast, and from various minerals. The scarcity of potash boosted the price and these new industries found the production very profitable.

The production is not yet nearly up to the demand, although growing rapidly. However, Secretary Lane is not basing his assumptions upon the potash from these sources alone.

The romance of American science here comes in to round out an industry that may be of the greatest importance. Several years ago Dr. Frederick Cottrell, now the chief metallurgist of the bureau of mines, sought some device that would stop the poisonous fumes from the smelters that were destroying vegetation. This device was not only successful with the smelters, but a cement company in California, in dire distress from the dust fumes that were ruining a profitable fruit growing country, took the chance that something that would stop smelter fumes might arrest the cement dust and put an end to costly litigation with the farmers. The dust was caught and it proved to be potash—so much potash that the cement company with the outbreak of the war made potash its chief product. Another cement company in Maryland that caught the spirit early, in 1917, after fully amortizing its plant, cleared \$200,000 from potash alone, and in 1918 the profits were \$500,000. This, of course, is with potash at the present high selling price.

The whole of Searles Lake, in California, has been leased by the interior department to a number of companies who have undertaken to erect plants for the reduction of potash from its brine. Two plants are already producing.

From alunite and leucite, minerals hitherto regarded as worthless, potash is being obtained in Utah and Wyoming.

WORK OF UNITED STATES CENSUS BUREAU.

The bureau of the census in the department of commerce in Washington, D. C., is charged with the duty of taking periodical censuses of the population, agriculture, manufactures and mines and quarries of the United States, together with such special statistics as are required by congress from time to time. The next general or decennial census will be taken in 1920. A census of electrical industries is taken every fifth year; the last one was taken in 1913, for the statistics of 1917. Other regular censuses include:

Health, debt and taxation; taken every tenth year; latest statistics are for fiscal year ending June 30, 1913.

Manufacturing industries; taken every fifth year; last report related to calendar year 1914.

Agriculture; taken at ten year intervals; last census was taken late in fall of 1915 and related to the crops of that year.

Religious bodies; taken every tenth year; last census was taken in 1916.

Water transportation on coast and inland

waters of the United States; taken every tenth year; last census covered the year 1916.

The annual reports issued by the bureau include mortality and birth statistics; financial statistics of cities with a population of 30,000 or more; statistics relating to cotton production and consumption and statistics showing the amount of tobacco of various kinds on hand on April 1 and Oct. 1 of each year.

Special reports issued include studies of racial classes of population; population of metropolitan districts; Indian population; negro population; supplementary occupation statistics, embracing occupations of adults and children, occupations of women, occupations of children, occupations of the foreign born, and unemployment; fecundity of women; general statistics of cities; statistical atlas; plantation study in the southern states; age of the farmer in relation to tenure and size of farm, stability of farm population; inmates of institutions (prisoners and juvenile delinquents, paupers in almshouses, insane and feeble-minded), the blind and the deaf, and special monographs.

NEW YORK PRIMARY VOTE FOR GOVERNOR.

Total vote cast for the candidates of various parties in the New York state primaries, Sept. 3, 1918, for governor.

Charles S. Whitman, Rep.....	295,471
Merton E. Lewis, Rep.....	118,879

Alfred E. Smith, Dem.....	199,752
William Church Osborn, Dem.....	32,761
Charles W. Erwin, Soc.....	9,687
Charles S. Whitman, Pro.....	5,855
Olin S. Bishop, Pro.....	5,621

CLIMATOLOGY OF THE UNITED STATES.

The following table of average rainfall, highest and lowest temperatures, based upon observations of forty-five or fewer years at selected stations in the several states and territories of the United States, was compiled from the records of the weather bureau for The Almanac and Year-Book by the United States weather bureau, Washington, D. C.:

State, Stations,	Barometer No. above sea of level (ft.)	Temperature.*	Av. precipitation
		yr. Max. Year. Min. Year.	yr. Max. Year. Min. Year.
Alabama—Mobile	108 47 102 1901	-1 1899 62.0	
Montgomery	240 46 107 1881	-5 1899 51.2	
Arizona—Yuma	141 42 120 1910	22 1911 3.1	
Arkansas—Little Rock	398 39 106 1901	-12 1899 49.9	
California—San Fran.	206 47 101 1904	29 1888 22.3	
San Diego	59 46 110 1913	25 1913 10.0	
Colorado—Denver	5,283 46 105 1878	-29 1875 14.0	
Pueblo	4,655 30 104 1902	-27 1899 12.0	
Connecticut—N. Haven	120 45 100 1881	-14 1873 47.2	
Dist. Col.—Washington	111 47 104 1881	-15 1899 43.5	
Florida—Jacksonville.	180 47 104 1879	10 1899 53.2

WIND BAROMETER TABLE FOR THE GREAT LAKES.

[Prepared by United States weather bureau.]

Height of barom. (lake level).	Direction of wind.	Character of weather and wind indicated.
29.40 to 29.60, and steady.....	West.....	Fair, slight changes in temperature, gentle to fresh winds.
29.40 to 29.60, rising.....	West.....	Fair, cooler, fresh west to northwest winds.
29.40 to 29.60, falling.....	South.....	Warmer, increasing southerly winds.
29.60, or above, falling rapidly.....	East to south.....	Warmer, rain or snow within 36 hours, increasing east to southeast winds.
29.60, or above, rising rapidly.....	West to north.....	Cool and clear, quickly followed by warmer, variable winds.
29.60, or above, steady.....	Variable.....	No immediate change, but winds will go to south inside of 36 hours.
29.40, or below, falling slowly.....	South to east.....	Rain or snow, increasing easterly winds.
29.40, or below, falling rapidly.....	South to east.....	Rain or snow, high easterly winds, followed within 48 hours by clearing, cooler, west to northwest winds.
29.40, or below, rising slowly.....	South to west.....	Clearing, colder, fresh to brisk west to northwest winds.
29.20, or below, falling rapidly.....	South to east.....	Severe storm of wind and rain, and wind shifting to northwest within 36 hours.
29.20, or below, falling rapidly.....	East to north.....	Severe northeaster, with heavy rain or snow, and winds backing to northwest.
29.20, or below, rising rapidly.....	Going to west.....	Clearing and cooler, probably cold wave in winter.

THE GENERAL EDUCATION BOARD.

The General Education board was organized in New York Feb. 27, 1902, and incorporated by an act of congress signed Jan. 12, 1903. The purposes of the board are to promote education in the United States, without distinction as to race, sex or creed, and especially to promote, systematize and make effective various forms of educational beneficence. The principal of the funds held by the board on May 1, 1918, was \$41,874,094, of which \$7,240,728 represented income invested. The total of all appropriations made by the board from the date of its organization to May 1, 1918, was \$22,980,223.

The following are officers of the board: Wallace Buttrick, president; Abraham Flexner, secretary; E. C. Sage, assistant secretary; L. G. Myers, treasurer; L. M. Dashiell, assistant-treasurer.

The following are members of the board: Frederick T. Gates, Walter H. Page, J. D. Rockefeller, Jr., Albert Shaw, Wallace Buttrick, Starr J. Murphy, Edwin A. Alderman, Harry Pratt Judson, Andrew Carnegie, Wickliffe Rose, Jerome D. Greene, Anson Phelps Stokes, Abraham Flexner, George E. Vincent, James H. Dillard, Frank E. Spaulding.

Foreign Governments.

Rulers and cabinets of the leading countries, with the latest statistics of their area, population, exports and imports. Revised to Dec. 1, 1918. See account of war given in this volume for details of revolutions in Russia, Germany and Austria-Hungary and the formation of new states like Poland, Czecho-Slovakia, Ukraina, etc.

GREAT BRITAIN.

Government—King, George V.; heir-apparent, Edward Albert, prince of Wales.

Prime Minister—*David Lloyd George.

Minister Without Portfolio—*George N. Barnes.

Lord High Chancellor—Sir Robert B. Finlay.

Minister Without Portfolio—*Austen Chamberlain.

Minister Without Portfolio—*Lieut.-Gen. J. C. Smuts.

Lord President of the Council—*Earl Curzon.

Chancellor of the Exchequer—*Andrew Bonar Law.

Foreign Affairs Secretary—Arthur J. Balfour.

Home Affairs Secretary—Sir George Cave.

Colonial Secretary—Walter Hume Long.

Secretary for India—Edwin S. Montagu.

Secretary for War—Viscount Milner.

Minister of Munitions—Winston S. Churchill.

First Lord of the Admiralty—Sir Eric C. Geddes.

President of the Board of Trade—Sir Albert Stanley.

President of the Local Government Board—W. Hayes Fisher.

Postmaster-General—Albert Hillingworth.

Chief Secretary for Ireland—Edward Shortt.

Secretary for Scotland—R. Munro.

President Board of Agriculture—Rowland Prothero.

First Commissioner of Works—Sir Alfred M. Mond.

Minister of National Service—A. C. Geddes.

Attorney-General—Sir Frederick E. Smith.

Minister of Pensions—John Hodge.

Chancellor of the Duchy of Lancaster—Lord Beaverbrook.

Solicitor-General—Gordon Hewart.

Lord Lieutenant of Ireland—Field Marshal Viscount French.

Lord Advocate—James A. Clyde.

Minister of Labor—George H. Roberts.

Minister of Reconstruction—Dr. C. Addison.

President Board of Education—Herbert A. L. Fisher.

*Members war cabinet or council.

The British parliament, in which the highest legislative authority is vested, consists of the house of lords and the house of commons.

Area and Population—The total area of England, Scotland, Ireland, Wales, the Isle of Man and the Channel Islands is 121,391 square miles; the total for the British empire is 11,498,825 square miles. The total population of the empire in 1911 was 421,178,965. The population of the united kingdom April 3, 1911, when the last census was taken, was: England, 34,045,290; Wales, 2,025,202; Scotland, 4,759,445; Ireland, 4,390,219; Isle of Man, 52,034; Channel Islands, 96,900. Total, 45,369,090.

The cities of England and Wales having more than 100,000 population each were in 1911:

London	4,522,961	Sunderland	151,162
Liverpool	746,566	Oldham	147,495
Manchester	714,427	Blackburn	133,064
Birmingham	525,960	Brighton	131,250
Leeds	445,568	Gateshead	116,928
Sheffield	454,653	Derby	123,433
Bristol	357,059	Southampton	119,039
West Ham	289,102	Plymouth	112,042
Bradford	288,505	Norwich	121,493
Newcastle	266,671	Birkenhead	130,832
Kings-ton-upon-Hull	278,024	Preston	117,113
Nottingham	275,942	Hullfax	101,656
Leicester	227,242	Burnley	106,337
Salford	231,230	Middlesbrough	104,787
Portsmouth	231,165	Stockport	103,693
Stoke-on-Trent	234,553	South Shields	108,649
Cardiff	182,280	Coventry	106,377
Boiton	180,885	Huddersfield	107,825
Croydon	169,559	Swansea	114,673

The figures given in the above table for London

are for the inner or registration district alone, including the outer belt of suburban towns, which are within the metropolitan police district, the population of "Greater London" April 3, 1911, was 7,251,358.

Population of the chief cities in Scotland in 1911:

Glasgow	784,455	Greenock	68,911
Edinburgh	320,315	Perth	36,995
Aberdeen	133,084	Kilmarnock	34,729
Dundee	165,006	Govan	59,725
Paisley	84,477	Gartick	66,848
Leith	84,489	Coatbridge	43,237

The total population of the United Kingdom in 1911 was 4,390,219, against a total of 4,453,775 in 1901.

Population of the chief cities of Ireland in 1911:

Dublin	309,272	Lurgan	12,135
Belfast	385,492	Lisburn	12,172
Cork	76,632	Wexford	11,455
Limerick	38,403	Siligo	11,163
Londonderry	40,799	Kilkenny	13,112
Waterford	27,430	Kingstown	17,227
Galway	15,936	Portadown	11,727
Dundalk	13,128	Ballymena	11,376
Drogheda	12,425	Clonmel	10,277
Newry	12,456		

Exports and Imports—The total imports of the British empire in 1917 were \$8,500,565,000; of the united kingdom, \$5,326,380,000. Total exports of the empire, \$7,064,265,000; of the united kingdom, \$2,974,305,000. The total exports of the united kingdom to the United States in 1917 were \$190,082,456; imports, \$1,994,894,260.

INDIA.

Government—Governor-general, Baron Frederic Chelmsford. Legislative authority vested in a council of sixty-eight members, thirty-six being official and thirty-two nonofficial.

Area and Population—The total area of British India is 1,773,088 square miles. The total population according to the census of March 10, 1911, is 315,132,527, divided among the provinces as follows:

Ajmer-Marwara	501,395	Madras	41,405,404
Assam	34,018,527	Northwest provinces	2,196,933
Bengal	52,668,269	United provinces	47,182,044
Bombay presidency	19,672,642	Punjab	19,974,956
Burma	12,115,217	Baluchistan	414,412
Central provinces	13,916,308	Andamans	26,459
Coorg	174,976		

Population of the large cities in 1911:

Calcutta	1,222,313	Delhi	232,837
Bombay	975,845	Lahore	228,867
Madras	518,660	Cawnpore	178,557
Haidarabad	500,623	Agra	186,449
Lucknow	259,788	Ahmedabad	215,835
Rangoon	293,316	Allahabad	171,697
Benares	203,804	Poona	158,856

Imports and Exports—Imports in 1917, \$662,295,000; exports, \$831,550,000. Imports from the United States, 1918, \$42,381,902; exports, \$105,277,743.

DOMINION OF CANADA.

Government—The Canadian parliament consists of eighty-seven life senators and a house of commons of 221 members, there being one representative for every 25,367 of population, based upon the census of 1901. The governor-general is the duke of Devonshire, appointed in 1916; and the council is made up of the following: Premier, Robert L. Borden; minister of agriculture, A. T. Crerar; minister of overseas service, Sir Edward Kemp; customs, A. L. Sifton; finance, T. White; inland revenue (vacancy); interior, Arthur Meighen; justice, C. J. Doherty; labor, T. W. Crothers; marine, fisheries and naval service, C. S. Balmantyne; militia, Maj.-Gen. Mewburn; postmaster-general, Pierre Blondin; public works, Frank B. Carvell; railways and canals, J. D. Reid; secretary of state for mines, Martin Burrell; trade and commerce, George E. Foster; min-

isters without portfolio, James A. Loughed, Francis Cochrane, G. D. Robertson, A. K. McLeau. The governor-general gets a salary of \$50,000 a year, the premier \$12,000 and the other ministers \$7,000 each.

Area and Population—The total area of Canada is 3,729,666 square miles, of which 3,603,910 is land area.

Table with 4 columns: Province, Sq. miles, Province, Sq. miles. Lists provinces like Alberta, British Columbia, Nova Scotia, Ontario, Prince Edward Island, Quebec, Manitoba and their respective areas.

*Area increased in 1912 to 251,832 square miles. †Increased in 1912 to 407,262 square miles. ‡Decreased in 1912 to 706,834 square miles. §Decreased in 1912 to 1,242,224 square miles.

The census taken June 1, 1911, showed the following population by provinces:

Table with 5 columns: Province, 1911, 1901, Increase, Pr. ct. incr. Lists population for Alberta, British Columbia, Manitoba, Nova Brunswick, Nova Scotia, Ontario, Prince Edw. Isl., Quebec, Saskatchewan, Yukon, and Northwest territories.

Total 7,206,643 5,371,315 1,833,212 34.13

*Decrease. †Population by sex and per square mile in 1911:

Table with 5 columns: Province, Male, Female, Total, Persq. mile. Lists population and density for Alberta, British Columbia, Manitoba, Nova Brunswick, Nova Scotia, Ontario, Prince Edw. Isl., Quebec, Saskatchewan, Yukon, and Northwest territories.

The rural population in 1911 was 3,324,083 and the urban population 3,280,444. In 1901 the rural population was 3,369,018 and the urban population 2,002,297.

The population of the principal cities and towns in 1911 was:

Table with 2 columns: City, Population. Lists major cities like Amherst, Montreal, Barrie, Belleville, Berlin, Brandon, Brantford, Brockville, Calgary, Charlottetown, Chatham, Cobalt, Chicoutimi, Coburg, Collingwood, Cornwall, Dartmouth, Dawson, Dundas, Edmonton, Fernie, Ft. William, Fraserville, Fredericton, and Galt.

Imports and Exports—The total value of the exports for the year ended March 31, 1917, was \$1,375,758,148; exports, not given. Imports from the United States (1918), \$778,509,792; exports to the United States, \$434,254,567.

COMMONWEALTH OF AUSTRALIA.

July 9, 1900, the British parliament passed an act empowering the six provinces of Australia to form a federal union and Jan. 1, 1901, the new commonwealth was proclaimed at Sydney, N. S. W. Its first parliament was opened May 9, 1901, by the prince of Wales (now George V.), heir-apparent to the British throne, acting for his father, King Edward VII. The capital at present is in Melbourne.

Government—The federal parliament is made up of a senate of thirty-six members, six from each original state, and a house of representatives of seventy-five members, apportioned as follows: New South Wales, 27; Victoria, 21; Queensland, 10; South Australia, 7; Western Australia, 5; Tasmania, 5. The king is represented by the governor-general. He and a council of seven ministers exercise the executive power. The governor-general is paid a salary of \$50,000 a year. The governor-general is Ronald C. Munro-Ferguson. The ministers are: W. M. Hughes, prime minister; L. E. Groom, public works and railways; J. A. Jensen, trade and customs; G. F. Pearce, defense; W. Webster, postmaster-general; Hugh Mahon, external affairs; P. McM. Glynn, home affairs; J. A. Jensen, minister of customs; J. Cook, minister of the navy; W. A. Watt, treasurer.

Area and Population—The commonwealth has a total area of 2,974,581 square miles, divided among the states as follows:

New South Wales.....	310,372	North'n Territ'y.....	523,620
Victoria	87,884	West'n Australia.....	975,920
Queensland	670,590	Tasmania	26,216
South Australia.....	380,070		

The total population of the commonwealth as enumerated April 2, 1911, was 4,455,005, divided among the states as follows:

New South Wales.....	1,648,448	Western Australia.....	282,114
Victoria	1,315,551	Tasmania	191,211
Queensland	605,813		
South Australia.....	408,558		
North'n Territ'y	3,310	Total	4,455,005

The population of Melbourne in 1911 was 600,160; Sydney (1911), 536,353; Adelaide (1911), 192,429; Wellington (1911), 70,729; Brisbane (1911), 143,514. **Exports and Imports**—The total exports of the states in the commonwealth in 1917 were \$489,470,750; total imports, \$380,895,100. Australia in 1918 exported merchandise valued at \$49,471,485 to the United States and imported merchandise worth \$66,581,501.

UNION OF SOUTH AFRICA.

Sept. 29, 1909, the British parliament passed an act empowering the four self-governing colonies

of South Africa—Cape of Good Hope, Natal, Transvaal and Orange Free State—to form a federal government to be known as the Union of South Africa. This was proclaimed May 31, 1910, at Pretoria, the seat of government, other services taking place at Cape Town, the seat of the legislature.

The executive government is vested in the king, represented by a governor-general, and an executive council and in ten ministers of state. Legislative power is vested in a parliament consisting of a senate and a house of assembly. The senate contains forty members, eight of whom are nominated by the governor-general in council and thirty-two elected by the four provinces, each of which is entitled to eight senators. The assembly consists of 121 members, chosen in electoral divisions as follows: The Cape of Good Hope, 51; Natal, 17; Transvaal, 36; Orange Free State, 17. Senators are elected for ten years and assemblymen for five. The English and Dutch languages are both official.

Imports and Exports—The total imports of the four states in 1917 were valued at \$182,381,000 and the exports at \$143,471,500. Exports to the United States in 1918, \$33,295,835; imports, \$35,223,720.

Governor-General—Viscount Buxton of Newtimber. **Cabinet**: Premier and minister of native affairs, Gen. Louis Botha; finance, T. Orr; defense, J. O. Smuts; railways, Henry Burton; justice, N. J. de Wet; education and mines, F. S. Malan; J. Interior and public works, Sir T. Watt; agriculture, H. C. Van Heerden; lands, H. Mentz; posts and telegraphs, Sir Melring Beck; without portfolio, J. A. C. Graaf.

Area in square miles and population in 1911:

Province.....	Area.....	Population.....
Cape of Good Hope.....	276,995	2,564,995
Natal	35,290	1,194,048

ALBANIA.

Albania before the great war was an autonomous kingdom created at a conference of ambassadors in London May 30, 1913, as a result of the Balkan wars. Its territory formerly comprised the Turkish provinces of Scutari and Yanina. It has an area of 11,317 square miles and a population of nearly 1,000,000. Until the outbreak of the European war in August, 1914, it was governed by a king (impret) and an international commission. William I., prince of Wied, was the first king, but he was on the throne only half a year, an insurrection compelling him to leave the capital, Durazzo, Sept. 2, 1914. Since then the country has been in a state of disorder. The Austrians captured the greater part of it in the winter of 1915-1916.

AUSTRIA-HUNGARY.

Government—In October and November, 1918, the Austrian empire, as a result of the defeat of its allies in Italy, Serbia and Albania by the allied forces, crumbled and practically ceased to exist. Instead the various states declared their independence and formed separate republics. Emperor Charles I. abdicated Oct. 30, 1918. See account of war in this volume for further details of the fall of the empire.

Area and Population—Area of Austria, 115,903 square miles; of Hungary, 125,395 square miles. The population of Austria in 1910 was 28,324,940. The population of Hungary in 1910 was 20,886,787. Total population for both countries in 1910 was 49,211,727.

Largest cities of Austria in 1910:

Vienna	2,031,498	Brunn	125,737
Trieste	229,475	Czernowitz	87,128
Prague	223,741	Pilsen	80,343
Lemberg	206,113	Linz	67,817
Cracow (1909).....	151,886	Polna	58,081
Gratz	151,781		

Largest cities of Hungary in 1910:			
Budapest	880,371	Poszony	78,223
Szeged	118,328	Temesvar	72,555
Szabadka	94,610	Kecskemet	66,834
Debreczen	92,729	Arad	63,166
Zagrab	79,038	Hodmezovasarhely	62,445

Imports and Exports—The value of the imports into the Austro-Hungarian customs territory in 1914, the latest year for which figures are available, was \$73,580,000; exports, \$419,980,000. Chief imports are cotton, coal, wool, maize, tobacco, coffee and wines; principal exports lumber and wool manufactures, sugar, eggs, barley, lignite, malt, leather, gloves and shoes. No trade with the United States in 1918.

BELGIUM.

Government—King, Albert I. Cabinet: Premier and Minister of War—Ch. de Broqueville. Foreign Affairs—Baron Beyens. Interior—Paul Beryer. Finance—A. Van de Vyvere. Justice—H. Carton de Wiart. Agriculture and Public Works—G. Helleputte. Industry and Labor—M. A. Hubert. Science and Arts—P. Poulet. Colonies—J. Renkin. Railways, Marine, Posts and Telegraphs—P. Segers.

Ministers Without Portfolio—Count Goblet d'Alviella, P. Hymans and E. Vandeveldre.

The legislative power is vested in the king, senate and chamber of representatives. The senate has 120 members and the chamber 186, or one for every 40,000 inhabitants.

Area and Population—Total area, 11,373 square miles. Total population, 1910, 7,423,784; estimated population, 1912, 7,571,387. Population of the largest cities Dec. 31, 1912:

Antwerp	312,884	Liege	170,634
Brussels (capital)	663,647	Ghent	167,477

Imports and Exports—The imports in the first six months of 1914 amounted to \$460,630,000 and the exports to \$370,795,000. The trade with the United States in 1918 was: Imports, \$91,238,638; exports, \$80,053. Chief imports in normal times are cereals, textiles and metal goods; chief exports, cereals, raw textiles, tissues, iron, glass, hides, chemicals and machinery.

BULGARIA.

Government—King Ferdinand was compelled to abdicate as the result of the defeat of his military forces by the allies in Macedonia and Serbia. No settled government had been formed up to Dec. 1, 1918.

Area and Population—Area, 43,310 square miles. Population in 1914, 4,752,997. Population of Sofia, the capital, 102,769.

Imports and Exports—Exports in 1914, \$28,812,300; imports, \$44,586,800. Exports to the United States in 1918, \$3,859; imports, none. The exports are mainly cereals and the imports textiles.

DENMARK.

Government—King, Christian X.; heir-apparent, Prince Christian Frederick. Cabinet: Premier and Minister of Justice—Carl Theodor Zahle.

Finance—Edvard Brandes. Foreign Affairs—Erik Seavenius. Home Affairs—Ove Rode. Agriculture—Kr. Pederson. Instruction—Soren Keiser-Nielsen. Commerce—Christopher Hage. Public Works—Jens H. Jorgensen. Defense—P. Munch.

Legislative authority is vested in the lands-thing and folkething. The former, which is the upper house, has 66 members, twelve of whom are appointed for life, the remainder being elected for terms of eight years. The folkething, or lower house, has 114 members, each elected for three years.

Area and Population—Denmark's area is 15,582 square miles and total population in 1914, 2,940,979. Copenhagen, the capital, has a population of 506,390; with suburbs, 605,772.

Imports and Exports—Total exports in 1914, \$240,957,200; imports, \$220,913,300. The imports from the United States in 1918 were \$4,969,542; exports, \$1,022,397. Leading articles of export are butter, pork, eggs and lard; of import, textiles, cereals, wood, iron manufactures and coal.

FRANCE.

Government—President, Raymond Poincare; term expires 1920.

Premier and Minister of War—Georges Clemenceau.

Foreign Affairs—Stephen Pichon.

Justice—Louis Nail.

Public Instruction—Louis Lafferre.

Colonies—Henry Simon.

Finance—Louis Lucien Klotz.

Marine—Georges Leygues.

Munitions—Louis Loucheur.

Interior—Jules Pams.

Commerce—Etienne Clementel.

Labor—G. R. Collard.

Blockade—M. LeBrun.

Agriculture and Provisions—Victor Bovet.

Public Works—Albert Clavelle.

Legislative authority is vested in the chamber of deputies and the senate. The former has 662 members, each of whom is elected for four years. The senate has 300 members, elected for nine years. The presidential term is seven years.

Area and Population—France has a total area of 207,054 square miles. The area of the French colonies and dependencies throughout the world is 4,367,746 square miles. Total population (1911) of France proper, 39,601,509. Population of the principal cities in 1911:

Paris	2,888,110	Nantes	170,535
Marseilles	550,619	Toulouse	149,576
Lyons	523,796	St. Etienne	148,656
Bordeaux	261,678	Nice	142,940
Lille	217,807	Havre	136,159

Imports and Exports—The total imports in 1916 amounted to \$3,031,880,000; exports, \$974,270,000. Exports to the United States in 1918, \$75,638,078; imports from, \$890,481,513. The chief exports are textiles, wine, raw silk, wool, small wares and leather; imports, wine, raw wool, raw silk, timber and wood, leather, skins and linen.

GERMANY.

Government—In November, 1918, a revolution occurred in Germany as the result of the defeat of her armies by the allies. Emperor William II. was forced to abdicate and his cabinet was dispersed. No stable government had been formed up to Dec. 1, 1918. For further details see account of war in this volume.

Area and Population—The area of the states in the old empire was 208,780 square miles; area of dependencies about 1,027,820 square miles; grand total, 1,236,600 square miles.

The last federal census was taken Dec. 1, 1910.

According to this the population of the empire was 64,925,933. The estimated population of the foreign dependencies was 13,946,200. State population in 1910:

Prussia	40,165,219	Saxe-Meiningen	278,762
Bavaria	6,887,291	Anhalt	331,128
Wurttemberg	2,437,574	Saxe-Coburg	
Baden	2,142,833	Gotha	257,177
Saxony	4,806,661	Saxe-Altenburg	216,128
Hesse	1,282,219	Lippe	150,937
Mecklenburg- Schwerin	639,958	Schwarzburg- Rud	100,702
Oldenburg	483,042	Schwarzburg- Sond	89,917
Brunswick	494,339	Reuss, junior branch	152,752
Saxony	417,149	Schammburg- Lippe	46,652
Mecklenburg- Strelitz	106,442	Waldeck	61,707
Hamburg	1,014,664	Alsace-Lorraine	1,874,014
Reuss, elder branch	72,769		
Lubeck	116,599		
Bremen	295,715		
		Total	64,925,293

German cities having more than 150,000 inhabitants in 1910 included the following:	
Berlin	2,071,257
Hamburg	931,035
Munich	596,467
Leipzig	589,850
Dresden	548,308
Cologne	516,527
Breslau	512,105
Frankfurt am. M.	414,576
Duesseldorf	358,728
Nurnberg	333,142
Charlottenburg	305,378
Hanover	302,375
Essen	294,853
Chemnitz	287,807
Stuttgart	276,829
Magdeburg	276,829
Breinen	247,437
Koenigsberg	245,994

Exports and Imports—Total exports (first six months of 1914), \$1,246,240,000; total imports, \$1,346,570,000. No details of Germany's commerce since the war began have been made public.

During the fiscal year ended June 30, 1918, Germany exported \$64,094 worth of merchandise to the United States; there were no imports from the United States.

Sovereigns of States.*

Anhalt—Duke, Eduard.
Baden—Grand duke, Friedrich II.
Bavaria—King, Ludwig III.
Brunswick—Duke, Ernst Augustus.
Hesse—Grand duke, Ernst Ludwig.
Lippe—Count, Leopold IV.
Mecklenburg-Schwerin—Grand duke, Friedrich Franz V.
Mecklenburg-Strelitz—Grand duke, Adolph Friedrich IV.
Odenburg—Grand duke, Friedrich August.
Prussia—King, Wilhelm II.
Reuss, Elder Branch—Prince, Heinrich XLV.
Reuss, Younger Branch—Prince, Heinrich XXVII.
Saxe-Altenburg—Duke, Ernst II.
Saxe-Coburg and Gotha—Duke, Charles Edward.
Saxe-Meiningen—Duke, Bernhard.
Saxony (grand duchy)—Grand duke, Wilhelm Ernst.
Saxony—King, Friedrich August III.
Schaumburg-Lippe—Prince, Adolf.
Schwarzburg-Rudolstadt—Prince, Gunther.
Waltdeck—Prince, Friedrich.
Wurttemberg—King, Wilhelm II.

*This list is as it stood before the revolution in November, 1918. All the sovereigns were then reported to have been deposed or to have abdicated.

GREECE.

Government—King, Alexander. Cabinet: President of the Council and Minister of War—Eleutherios Venizelos.
Foreign Affairs—M. Politis.
Marine—Admiral Condouritis.
Interior—M. Raktivan.
Communications—M. Papanastasion.
Finance—M. Negropontas.
Justice—M. Tsimokos.
Agriculture—M. Michalacopoulos.
Education—M. Dinguas.

Legislative authority is vested in one chamber, the boule, consisting of 235 members, each of whom is elected for four years.

Area and Population—Total area, 41,933 square miles. Population in 1914, 4,821,300. Athens in 1907 had 167,479 inhabitants; Piræus, 73,579; Patras, 37,724; Saloniki (1913), 180,000.

Exports and Imports—The total exports in 1916 amounted in value to \$29,433,200; imports, \$45,705,000. Exports to the United States in 1918, \$18,481,432; imports from the United States, \$2,573,882. The leading exports are currants, ores, olive oil and figs; imports, foodstuffs, textiles, coal and timber.

ITALY.

Government—King, Victor Emmanuel III.; heir to the crown, his son Humbert, prince of Piedmont, born Sept. 16, 1904.

President of Council and Minister of Interior—Vittorio Orlando.—
Foreign Affairs—Baron Sonnino.
Grace and Justice—Sig. Sacchi.
Treasury—Francesco Nitti.
Finance—Sig. Meda.
War—Gen. Zuppelli.
Public Instruction—Sig. Barenini.
Public Works—Sig. Dari.
Agriculture—Sig. Millani.
Posts and Telegraphs—Sig. Fera.
Colonies—Sig. Colosimo.
Military Aid and Pensions—Sig. Bissolati.
Marine—Vice-Admiral Del Buono.
Industry and Commerce—Sig. Giuffelli.

Legislative authority vests in the king and parliament. The latter consists of a senate of 410 members (in 1916) and a chamber of deputies of 508 members.

Area and Population—The area of Italy is 110,632 square miles. According to the census of Jan. 1, 1915, the total population was 36,120,118.

Population of the principal cities:	
Naples	697,570
Milan	663,059
Rome	590,960
Turin	451,994
Palermo	345,891
Genoa	300,139
Florence	242,147
Catania	217,389
Bologna	189,770
Venice	168,038
Messina	150,000
Livorno	108,585

Exports and Imports—The value of merchandise exported in 1917 was \$466,736,690; imported, \$1,546,300. The total value of exports to the United States in 1918 was \$30,014,349; imports from the United States, \$477,530,702. Chief imports are coal, cotton, grain, silk, wool, timber, machinery, sugar and oil; chief exports, silk, wine, oil, coral, sulphur, hemp and fax.

MONTENEGRO.

King, Nicholas I.* Area, 5,603 square miles; population, 516,000; of the capital, Cetinje, 4,500. Total exports in 1910, \$498,200; imports, \$1,701,300. Montenegro has practically no trade with the United States. Chief exports are sumac, smoked sardines, cattle, sheep, goats, cheese, olive oil, wine and tobacco. Imports include petroleum, salt, maize, cottons, hardware, sugar, coffee and rice.

*Reported deposed Dec. 1, 1918.

NORWAY.

Government—King, Haakon VII.; crown prince, Olaf.
President of Council and Minister of Agriculture—Gunnar Knudsen.
Foreign Affairs—Nils C. Ihlen.
Justice—Otto A. Blehr.
Commerce—C. Fris-Peterson.
Labor—F. A. M. Nalun.
Finance—Anton T. Omholt.
Education and Worship—Jorgen Lovland.
Defense—Gen. Holtfoft.
Social Affairs—Lars K. Abrahamson.

Legislative authority is vested in the storting, consisting of 123 members elected for three years through universal suffrage by men and women. The storting consists of two houses, the odels-thing and the lagthing. The former is made up of three-fourths of the members of the storting and the latter of one-fourth.

Area and Population—The total area of Norway is 124,130 square miles. Total population in December, 1910, 2,391,782. Christiania in 1910 had a population of 241,834 and Bergen 76,867.

Imports and Exports—The value of the imports in 1915 was \$216,992,200; exports, \$165,249,100. Exports to the United States in 1918, \$3,235,020; imports, \$25,211,242. The chief exports are timber and wood manufactures, wood pulp, malty food, paper and minerals; imports, breadstuffs, groceries, yarn, textiles, vessels and machinery.

PORTUGAL.

Government—President, Admiral Canto y Castro.
Cabinet:
Minister of Finance—Xavier Esteves.
Foreign Affairs—Senhor Santo Lima.
Justice—Senhor Castro.
Public Works—Maj. Hierculano Galiardo.
War—Amilcar Motta.

Instruction—Dr. Barbosa de Magalhães.

Labor—Senhor Forbes Bessa.

Colonies—Senhor Vasconcelis.

Legislative authority is vested in a national council of 164 members and an upper house of 71 members. The first elections were held May 23, 1911, and the assembly opened June 19.

Area and Population—Total area, including Azores and Madeira, 35,490 square miles. Area of possessions in Africa and Asia, 801,060 square miles. The population of the home country with the Azores and Madeira in 1911 was 5,957,985; of the colonies in Africa and Asia, 9,139,444. In 1910 Lisbon had a population of 356,009 and Oporto 167,955.

Imports and Exports—Total imports in 1916, \$12,503,000; total exports, \$24,642,500. Imports from the United States in 1918, \$21,681,537; exports to the United States, \$5,030,635. The chief imports are foodstuffs, cotton, sugar, fish, wool, leather, coal and coffee; chief exports, wine, sardines, copper ore, olives and figs.

ROUMANIA.

Government—King, Ferdinand.

Legislative authority is vested in a senate of 120 members elected for eight years and a chamber of deputies of 183 members elected for four years.

Area and Population—The total area is 53,689 square miles. The population in 1895 was 5,556,690; in 1914, 7,508,069. Population of the principal towns (in 1912): Bukharest, 338,109; Jassy, 75,882; Galatz, 71,719; Braila, 64,730.

Exports and Imports—The value of the exports in 1913 was \$134,141,000; of the imports, \$118,002,500. The chief exports are cereals and the leading imports are textiles. Exports to the United States in 1918, none; imports from, \$310,774.

RUSSIA.

Government—Ruled in 1918 by a soviet or council of soldiers, workmen and peasants. See account of war in this volume for latest developments.

Area and Population—Area, 8,764,586 square miles. Total population in 1915, 182,182,600. Population of the principal cities:

Petrograd (1915).....	2,318,645	Kharkov (1913).....	249,698
Moscow (1915).....	1,817,100	Yekaterinoslav (1912).....	220,446
Warsaw (1915).....	789,259	Saratov (1913).....	235,300
Odessa (1912).....	431,039	Vilna (1913).....	203,940
Lodz (1910).....	115,604	Kuzan (1913).....	194,246
Ilija (1913).....	558,000		
Kiev (1913).....	626,313		

Imports and Exports—The total value of the imports in 1916 was \$76,500,000; of the exports, \$201,000,000. The exports to the United States in 1918 amounted in value to \$15,146,926; imports from the United States, \$116,705,346. The chief exports are foodstuffs, timber, oil, furs and flax; imports, raw cotton, wool, metals, leather, hides, skins and machinery.

FINLAND.

The grand duchy of Finland, formerly a province of Russia, is now an independent state but without a settled form of government. See account of war in this volume. The area of Finland is 125,689 square miles and the population Jan. 1, 1914, was 3,231,995.

SERBIA.

Government—King, Peter I. (Karageorgevitch); heir-apparent, Prince Alexander (second son); premier, N. P. Pashitch. Legislative authority is vested in a single chamber, called "skupshchina," of 160 elected members.

Area and Population—Area, 33,891 square miles. Population in 1910, 2,911,701; in 1914, 4,547,990. The capital, Belgrade, had 90,890 inhabitants before the war with Austria. Nish, the war capital, had 24,949 inhabitants in 1911.

Exports and Imports—Total value of exports in 1912, \$18,595,000; imports, \$14,705,000. Exports to

the United States in 1918, none; imports, \$17,497. The exports are mainly agricultural products and animals and the imports cotton and woolen goods and metals.

SPAIN.

Government—King, Alfonso XIII.; heir-apparent,

Prince Alfonso. Cabinet:

Premier—Marquis de Albuemas.

Foreign Affairs—Count Alvar de Romanos.

Interior—Louis Silvela.

Finance—Don Santiago Alba.

War—Gen. Berenguer.

Marine—Jose Chacon.

Public Instruction—Senor Burels.

Justice—Senor Bergada.

Area and Population—Total area, 194,783 square miles. Total population of Spain Jan. 1, 1914, 20,355,986. Population of large cities (1910):

Madrid	599,807	Saragossa	105,788
Barcelona	587,411	Catagena	96,983
Valencia	233,348	Bilbao	92,514
Seville	155,366	Granada	77,425
Malaga	133,045	Valladolid	67,742
Murcia	124,985	Cadiz	67,174

Imports and Exports—The exports of Spain in 1917 amounted to \$260,668,900; imports, \$265,577,000. Total exports to the United States in 1918, \$24,565,565; imports, \$67,183,288. Chief exports are wine, sugar, timber, animals, glassware and pottery; imports, cotton and cotton manufactures, machinery, drugs and chemical products.

SWEDEN.

Government—King, Gustaf V.; crown prince, Gustaf Adolf.

Premier—Prof. Eden.

Foreign Affairs—Dr. Hellner.

Finance—F. V. Thorsson.

Marine—M. Palmstjerna.

War—E. A. Nilsson.

Education—M. Ryden.

Interior—P. A. V. Schotte.

Agriculture—M. Pettersen.

Justice—M. Loevgren.

Ministers Without Portfolios—M. Petren and M. Luden.

Legislative authority is vested in a parliament of two chambers, the first of which has a membership of 150 and the second 230. Members of the upper house are elected by "landthings" or provincial representations and municipal corporations for terms of six years. The second chamber members are elected for three years by universal suffrage.

Area and Population—The total area of Sweden is 172,876 square miles. The population Dec. 31, 1913, was 5,522,405. The population of the principal cities at the same time was:

Stockholm	382,085	Norkoping	46,180
Göthenburg	178,030	Gaefie	35,736
Malmö	98,821	Helsingborg	34,742

Imports and Exports—The total imports in 1917 were valued at \$316,518,000; exports, \$432,326,750. Exports to the United States in 1918, \$10,636,354; imports, \$4,122,550. The leading articles of export are timber and machinery; of import, textile goods and foodstuffs.

SWITZERLAND.

Government—President of federal council (1919)—

Gusta Ador.

Vice-President—Dr. Edouard Muller.

Legislative authority is vested in a state and a national council, the former having 44 and the latter 167 members. The national councilors are elected directly by the people; the state councilors are elected in some cantons by the people and in others by the cantonal legislature. The chief executive authority is vested in the bundesrath, or federal council, one member of which is the chief of one of the federal departments. Its decrees are enacted as a body. Its members are elected president in rotation.

Switzerland owns its main railroads, its telegraph and telephone system and monopolizes the manufacture and sale of alcohol.

Area and Population—Total area, 15,976 square miles. The population, according to the census of July 1, 1915, was 3,880,500. Population of the largest cities (1916):

Zurich	200,200	Bern	96,900
Basel	137,000	St. Gallen.....	71,400
Geneva	131,000	Lausanne	67,500

Exports and Imports—Total exports in 1918, \$489,401,750; imports, \$475,600,000. Exports to the United States in 1918: \$18,862,990; imports, \$21,219,405. The articles chiefly exported are cottons, silks, clocks and watches; imported, foodstuffs, silk, minerals and metals, clothing and animals.

THE NETHERLANDS.

Government—Queen, Wilhelmina; prince consort, Henry of Mecklenburg-Schwerin; heir, Princess Juliana. Cabinet:

Prime Minister and Minister of the Interior—Jonkheer Ruys de Beerenbrouck.

Foreign Affairs—Jonkheer Karnebeck.

Agriculture, Commerce, Industry and Labor—Mr. H. A. Yesselstein.

War and Navy (ad interim)—Jonkheer A. van Gensan.

Navy—Mr. J. J. Rombonne.

Justice—Mr. Heemskerck.

Finance—Mr. de Vries.

Colonies—Mr. Ydenburg.

Labor—Mr. Aallicre.

Legislative authority is vested in the state-general, composed of two chambers, the first having 50 members and the second 100. The latter are elected directly and the former by the provincial states.

Area and Population—The area of Holland, or the Netherlands, is 12,648 square miles. The total population Dec. 31, 1914, was 6,339,705. That of the chief cities Dec. 31, 1914, was:

Amsterdam	609,084	Groningen	82,809
Rotterdam	472,520	Haarlem	71,883
The Hague.....	312,430	Arnhem	66,129
Utrecht	127,086	Leiden	59,560

Imports and Exports—In 1917 Holland imported \$319,274,274 worth of merchandise and exported \$204,824,360. In 1918 the exports to the United States amounted to \$16,396,633; and the imports from the same country to \$11,188,021. Chief imports are iron and steel and their manufactures, textiles, coal, cereals and flour; exports, butter, sugar and cheese.

DUTCH EAST INDIES.

Area, 735,000 square miles; population, 48,000,000; area of Java and Madura, 50,557 square miles; population, 36,015,435. The chief exports are sugar, coffee, tea, rice, indigo, cinchona, tobacco, copra and tin.

TURKEY.

Government—Sultan, Mohammed VI. Cabinet: Grand Vizier and Minister of Interior—Tewfik Pasha.

Justice—Hairi Effendi.

Foreign Affairs—Refat Pasha.

Sheik-ul-Islam—Houloussi Effendi.

Marine—Djemal Pasha.

Finance—Djaved Bey.

Public Instruction, Posts and Telegraphs—Saïd Bey.

President Council of State—Rachid Aki Pasha.

Public Works—Zef Pasha.

War—Gen. Evren Pasha.

Commerce—Shereef Bey.

A constitutional form of government was adopted July 24, 1908, with legislative authority vested in a parliament.

Area and Population—Before the war the area of Turkey in Europe was 8,644, of whole empire, 710,224 square miles. The total population of all parts of the empire is 21,273,000. Constantinople has about 1,203,000 inhabitants.

Exports and Imports—The total exports in 1914 amounted in value to \$107,180,600 and the imports to \$204,048,000. There was no trade with the United States in 1918. The principal articles imported are cloth and clothing, sugar,

coffee, flour, rice and manufactures of iron; exports, grapes, silk, grain, cocoons, wool, cotton, carpets, hides and skins.

ASIA.

AFGHANISTAN.

Ameer, Habibullah Khan; population, about 6,000,000; area, 250,000 square miles. No statistics as to imports and exports of Afghanistan are available. The chief productions are preserved fruits, spices, wool, silk, cattle and tobacco.

BOKHARA.

Ameer, Sayid Mir Alim Khan; heir, Sayid Mir Ibrahim. The area of Bokhara is about 83,000 square miles and the population 1,250,000. The products are corn, tobacco, fruit, silk and hemp. Since 1873 Bokhara has been a dependency of Russia.

CHINA.

Government—President, Hsu Shih-chang. The president and vice-president are each elected for a term of five years. Legislative power is nominally vested in a single house assembly, but it is practically only an advisory body. The president possesses autocratic powers and China is a republic in name only.

Area and Population—Total area of China, with dependencies, 3,913,560 square miles; estimated population, 320,050,000.

Exports and Imports—The total exports in 1916 amounted to \$402,492,500, and the imports to \$430,339,000. During the fiscal year 1918 goods to the value of \$49,507,271 were imported from the United States. The total exports in the same period to the United States amounted to \$140,777,343. The articles imported from America consist mainly of flour, kerosene, sugar, india rubber, shoes, ginseng, quicksilver, white shirting, drills and broadcloth. Among the leading exports are tea, furs, wool, mats, fans, essential oils, straw braid, silks, hair, hides and hemp.

JAPAN.

Government—Emperor, Yoshihito; crown prince, Hirohito. Cabinet:

Premier and Minister of Justice—Takashi Hara.

Foreign Affairs—Kosai Uchida.

Interior—Takejiro Tokonami.

Finance—Baron Korekiyo Takahashi.

War—Griichi Tanaka.

Navy—Vice-Admiral Tomasaburo Kato.

Education—Tokugoru Nakabashi.

Agriculture and Commerce—Tatsuo Yamamoto.

Communications—Utaro Noda.

Legislative authority is vested in the emperor and the imperial diet. This consists of the house of peers and the house of representatives, the former having about 375 and the latter 381 members.

Area and Population—The total area of Japan is 260,738 square miles. The population according to the census of Dec. 31, 1916, was 65,965,292 exclusive of Formosa, the Pescadores and the south half of Sakhalin. The total population, including Korea, Formosa and Sakhalin, was 74,990,190 in 1915. Cities having more than 100,000 inhabitants are:

Tokyo (1916).....	2,244,796	Nagoya (1916) ..	389,272
Osaka (1916).....	1,460,218	Hiroshima	167,130
Kyoto (1916).....	539,153	Nagasaki	161,174
Kobe (1916).....	498,317	Kanazawa	129,804
Yokohama (1916)	428,668	Kure	128,141

Imports and Exports—The total imports in 1917 amounted in value to \$517,896,000; exports, \$801,502,500. In 1918 the imports from the United States were valued at \$267,730,637, and the exports to the same country at \$284,945,439. The chief exports are raw silk, cotton, yarn, copper, coal and tea; imports, sugar, cotton, iron and steel, machinery, petroleum and wool.

Chosen (Korea).

Formerly an empire, but now a Japanese colony. Estimated area, 86,000 square miles. Population in 1916, 17,519,864. Seoul, the capital, has 302,636 inhabitants.

JAVA.

(See The Netherlands.)

KHIVA.

Khan, Seyid Asfandiar Khan; heir-apparent, Nasyr Tycuara; area, 24,000 square miles; population, 646,000. Products are cotton and silk. Khiva is a Russian vassal state.

PERSIA.

Shah or emperor, Sultan Ahmad Shah. Under the constitution granted in 1906 legislative authority was vested in a national council of 156 members and a senate of 50 members. It is, however, practically nonexistent and exercises no power at present. The area of Persia is about 628,000 square miles and the population 9,500,000. Imports in 1916, \$38,675,000; exports, \$31,427,500. Imports from the United States in 1918, \$119,714; exports to, \$888,084. Teheran, the capital, has a population of about 280,000. Chief among the products are silk, fruits, wheat, barley and rice.

SIAM.

King, Chofwa Maha Vajirvudh. Area, 195,000 square miles; population (1910), 8,149,487. Bangkok, the capital, has 628,675 inhabitants. The imports in 1917 were \$33,786,300, and the exports \$46,724,500. Imports from the United States in 1918, \$1,146,484; exports to, \$156,981. Chief among the exports are rice, teak and marine products; imports, cotton goods and opium.

AFRICA.**ABYSSINIA.**

Empress, Waizeru Zauditu. Total area of Abyssinia 432,432 square miles; population, 8,000,000. The exports are coffee, hides and skins, gum, wax, gold and ivory.

ALGERIA.

Algeria is a colony of France. Governor-general, M. Lutaud. Area, 343,500 square miles; population in 1911, 5,563,828. Chief imports are cotton, skins and furs and woodwork; exports, wine, sheep and cereals.

EGYPT.

Sultan, Prince Ahmed Fuad. Total area of Egypt, 350,000 square miles; area of the Anglo-Egyptian Sudan, 984,520 square miles. The population of Egypt proper in 1907 was 11,189,978; of the Anglo-Egyptian Sudan, 3,000,000. Population of Cairo, 654,476; Alexandria, 332,246. Great Britain formally declared Egypt a protectorate of the empire Dec. 17, 1914. The total exports in 1917 were valued at \$205,248,000, and the imports at \$159,194,750. Imports from the United States in 1918, \$3,149,994; exports to, \$20,997,958. The exports consist chiefly of cereals, raw cotton and provisions; imports, wool, coal, textiles and metal manufactures.

BELGIAN KONGO.

Kongo was made a Belgian colony in 1908. The estimated area is 308,654 square miles and the negro population about 15,000,000. Among the leading articles of export are ivory, rubber, cocoa, palm nut, palm oil, copal gum and coffee. Total imports in 1915, \$6,204,000; exports, \$9,620,400. Exports to the United States (1918), \$14,809; imports, \$695,941.

LIBERIA.

President, Daniel E. Howard; vice-president, S. G. Harmon. Legislative power is vested in a senate of nine members and a house of representatives of fourteen members. The total area of the republic is about 40,000 square miles and the population 2,120,000. The exports in 1913 were valued at \$1,112,187 and the imports at \$1,411,237. Imports from the United States in 1918, \$151,270; exports to, \$35,594.

MOROCCO.

Sultan, Mulai Youssef. Morocco is a French protectorate. Area about 219,000 square miles; population, 5,000,000. Total imports in 1914, \$65,195,150; exports, \$9,677,200. Imports from the United States in 1918, \$958,839; exports to, \$178,421.

MADAGASCAR.

Governor-general, M. Schrameck. Madagascar is a French colony governed by a council of ad-

ministration. The area is 228,000 square miles and the population (1911) 3,153,511. The capital is Antananarivo with a population of 63,115. Imports in 1916, \$20,390,000; exports, \$17,003,000. Exports to United States (1918), \$25,298; imports from, \$149,344.

TUNIS.

Bey, Sidi Mohammed Ben Nasr Bey; heir-presumptive, Sidi Mohammed Ben Mamoun Bey. Tunis is under the protectorate of France and that country is represented by a resident-general. Total area, 50,000 square miles; population in 1911, 1,780,527. Imports in 1916, \$21,851,000; exports, \$23,759,000.

SOUTH AMERICAN REPUBLICS.**ARGENTINE REPUBLIC.**

President, Hipolito Irogoyen; capital, Buenos Aires. Area, 1,153,119 square miles. Population (1912), 7,885,237; Buenos Aires, 1,560,163 (Jan. 1, 1914). Total exports in 1917, \$687,712,500; imports, \$475,402,000. Exports to the United States in 1918, \$195,633,348; imports, \$109,444,001. Chief exports, sheep, wool, cattle, hides, frozen meats and wheat; imports, machinery, agricultural implements, railway cars, engines and supplies and manufactures of iron and steel.

BOLIVIA.

President, Gutierrez Guerra; capital, Sucre. Area, 514,155 square miles. Population (1915), 2,889,970. LaPaz, 100,097; Chocachamba, 31,014; Sucre, 29,686. Total exports in 1916, \$46,113,750; imports, \$9,024,750; exports to the United States in 1918, \$122,917; imports, \$3,581,395. Chief exports, silver, tin, copper, coffee, rubber; imports, provisions, clothing, hardware, spirits, silks and woollens.

BRAZIL.

President, Rodrigues Alvez; capital, Rio de Janeiro. Area, 3,218,991 square miles. Population (estimated 1915), 26,542,402; Rio de Janeiro (1911), 1,128,637; Sao Paulo (1911), 450,000; Bahia, 299,000; Pernambuco, 150,000. Exports (1917), \$299,375,000; imports, \$222,550,000. Exports to the United States in 1918, \$113,511,954; imports, \$66,270,046. Chief exports, coffee, sugar, tobacco, cotton and rubber; imports, cotton goods, manufactures of iron and steel, furniture, mineral oils, breadstuffs and provisions.

CHILE.

President, Juan Luis Sanfuentes; capital, Santiago. Area, 292,580 square miles. Population in 1915, 3,641,477; Santiago, 408,247; Valparaiso, 191,078; Concepcion, 72,127. Total exports in 1916, \$192,594,000; imports, \$83,445,000. Exports to the United States in 1918, \$141,075,704; imports, \$63,529,124. Chief exports, nitrate, wool, hides and leather; imports, sugar, coal, cotton goods, cashmeres, oil, galvanized iron.

COLOMBIA.

President, Dr. Marco F. Suarez; capital, Bogota. Area, 440,846 square miles. Population in 1912, 5,472,604; Bogota, 121,257. Total exports (1916), \$31,654,000; total imports, \$28,922,500. Exports to the United States in 1918, \$25,975,988; imports, \$10,922,199. Chief exports, gold, silver and other minerals, coffee, cocoa, cattle, sugar, tobacco and rubber; imports, manufactures of iron and steel, cotton goods.

ECUADOR.

President, Alfredo B. Moreno; capital, Quito. Area, 116,000 square miles. Population, 1,500,000; Quito, 70,000; Guayaquil, 80,000. Total exports in 1916, \$18,075,800; imports, \$9,598,900. Exports to the United States in 1918, \$10,887,968; imports, \$4,830,468. Chief exports, coffee, cocoa, rice, sugar, rubber, cabinet woods, chemicals and minerals; imports, cotton, provisions, manufactures of iron and steel, clothing and mineral oil.

PARAGUAY.

President, Dr. Manuel Franco; capital, Asuncion. Area, 171,770 square miles. Population (estimated 1915), 1,000,000; Asuncion (1912), 80,000. Total exports in 1916, \$8,202,800; imports, \$4,749,-

000. Exports to the United States in 1918, \$69,797; imports, \$672,454. Chief exports, mate (or Paraguan tea), tobacco, hides, timber, oranges; imports, cotton goods, machinery and provisions.

PERU.

President, Don Jose Prado; capital, Lima. Area, 722,461 square miles. Population estimated (1912) at 4,500,000; Lima, 143,500; Callao, 34,346. Total exports in 1916, \$82,705,000; imports, \$43,415,500. Exports to the United States in 1918, \$41,439,213; imports, \$22,011,583. Chief exports, cotton, coffee, sugar, cinchona, india rubber, dyes and medicinal plants; imports, woollens, cotton, machinery and manufactures of iron.

URUGUAY.

President, Dr. Feliciano Viera; capital, Montevideo. Area, 72,153 square miles. Population (1915), 1,346,161; Montevideo (1916), 378,446. Total exports in 1917, \$67,516,000; imports, \$37,212,000. Exports to the United States in 1918, \$23,530,682; imports, \$18,061,880. Chief exports, animal and agricultural products; imports, manufactured articles.

VENEZUELA.

President, Gen. Juan Vicente Gomez; capital, Caracas. Area, 393,976 square miles. Population (1915), 2,816,484; Caracas, 75,000. Total exports in 1916, \$24,968,500; imports, \$17,711,500. Exports to the United States in 1918, \$33,287,738; imports, \$7,823,007. Chief exports, coffee, hides, cabinet woods, rubber and chemicals; imports, machinery, manufactures of iron and steel, provisions, furniture and mineral wools.

MEXICO.

Government—President, Venustiano Carranza. The republic of Mexico is divided into twenty-seven states, three territories and one federal district, each with a local government, but all subject to the federal constitution. Representatives are elected for two years each and are apportioned at the rate of one for each 40,000 inhabitants; the senators, of whom there are fifty-six, are elected by the people in the same manner as representatives. The president holds office four years and may be elected for several consecutive terms.

Area and Population—The total area, including islands, is 785,881 square miles. The population, according to the federal census of 1910, is 15,063,207. The population of leading cities of the world follows: City of Mexico (capital), 470,659; Guadalajara, 118,799; Puebla, 101,214; Monterey, 81,006; San Luis Potosi, 82,946; Pachuca, 38,620; Aguascalientes, 44,800; Zacatecas, 25,205; Durango, 34,085; Toluca, 31,247; Leon, 63,263; Merida, 61,999; Queretaro, 35,011; Morelia, 39,116; Oaxaca, 37,469; Orizaba, 32,894; Chihuahua, 39,061; Vera Cruz, 29,164.

Commerce—The chief exports of Mexico are precious metals, coffee, tobacco, hemp, sisal, sugar, dyewoods and cabinet woods, cattle and hides and skins. In 1914 the total exports amounted to \$92,833,000; total imports for the same year were \$60,831,070. The trade of Mexico is chiefly with the United States, Great Britain, France, Germany and Spain. In 1918 the imports from the United States were \$106,893,653; exports to, \$140,801,097.

CENTRAL AMERICAN STATES.

COSTA RICA.

President, Don Alfredo Granados; capital, San Jose. Area, 23,000 square miles. Population (1914), 420,179; San Jose, 34,794. Total exports (1917), \$11,382,000; imports, \$5,595,000. Exports to the United States in 1918, \$7,615,482; imports, \$1,903,224. Chief exports, coffee and bananas; imports, cotton, machinery, iron and steel manufactures, woollens and worsteds.

GUATEMALA.

President, Manuel E. Cabrera; capital, Guatemala de Nueva. Area, 48,290 square miles. Population (1914), 2,003,579; of the capital, 90,000. Total exports (1916), \$10,637,500; imports, \$6,725,500. Exports to the United States in 1918, \$7,-

\$22,960; imports, \$6,293,760. Chief exports, coffee and bananas; imports, cotton and cereals.

HONDURAS.

President, Dr. Francisco Bertrand; capital, Tegucigalpa. Area, 44,275 square miles. Population (1910), 553,446; Tegucigalpa, 22,137. Total exports (1917), \$5,353,250; imports, \$6,293,000. Exports to the United States in 1918, \$5,437,809; imports, \$4,618,729. Chief exports, bananas, coffee, cattle, coconuts and wood; chief import, cotton.

NICARAGUA.

President, Gen. Emiliano Chamorro; capital, Managua. Area, 49,200 square miles. Population (1914), 703,540; Managua, 24,872; Leon, 62,509. Total exports (1916), \$5,284,750; imports, \$4,777,507. Exports to the United States in 1918, \$4,590,037; imports, \$4,377,688. Chief exports, cattle and coffee; imports, flour, wine, beer, barbed wire, cotton goods, sewing machines, kerosene, calico and tallow.

PANAMA.

President, Belisario Porras. Independence of Panama declared Nov. 3, 1903; constitution adopted Feb. 13, 1904. Legislative power is vested in a national assembly composed of deputies elected by the people. The ratio of representation is one deputy for each 10,000 inhabitants. The term of office is four years. The area of the republic is 32,380 square miles and the population (1912) 336,742; city of Panama (1915), 60,028; Colon, 26,000. The exports to the United States in the fiscal year ended June 30, 1918, amounted to \$7,845,390, and the imports to \$23,638,116. The chief articles of export are bananas, rubber, coffee and pearls.

SALVADOR.

President, Carlos Melendez; capital, San Salvador. Area, 7,225 square miles. Population (1915), 1,267,762; San Salvador, 66,800. Total exports (1915), \$10,588,000; imports, \$4,002,000. Exports to the United States in 1918, \$6,870,432; imports, \$3,479,332. Chief exports, coffee, indigo, sugar, tobacco and balsams; imports, cotton, spirits, flour, iron goods, silk and yarn.

CUBA.

Government—President, Gen. Mario Menocal; vice-president, Enrique Jose Varona.

Under the constitution the legislative power is exercised by two elective bodies—the house of representatives and the senate, conjointly called congress. The senate is composed of four senators from each of the six provinces, elected for eight years by the provincial councilmen, and by a double number of electors, constituting together an electoral board.

The house of representatives is composed of one representative for each 25,000 inhabitants or fraction thereof over 12,500, elected for four years by direct vote. One-half of the members of the house are elected every two years. The salary of members of congress is \$3,600 a year.

Organization of the Republic—The organization of the republic of Cuba, begun in 1900, was practically completed on the 20th of May, 1902, when the military occupation of the island by the United States came to an end and Gen. Tomas Estrada Palma was inaugurated as first president.

Area and Population—The total area of Cuba is 44,164 square miles. The population in 1914 was 2,471,531.

Population of provinces (1914):

Havana	651,266	Matanzas	270,483
Santa Clara.....	567,277	Pinar del Rio..	257,893
Oriente	567,639	Camaguey	154,567

Population of principal cities in 1914:

Havana	350,906	Hialeghun	65,232
Cienfuegos	80,305	Pinar del Rio..	51,915
Camaguey	76,581	Santa Clara.....	54,885
Matanzas	55,331	Guantanamo	51,036
Manzanillo	59,544	Sancti Spiritus...	55,407
Santiago	61,531		

About 70 per cent of the population is white.

Imports and Exports—The total imports in 1917 amounted to \$261,377,000 and the exports to \$357,040,000. The imports from the United States in 1918 were valued at \$235,632,045 and the exports at \$264,024,006. The principal articles of export are snigar, tobacco and cigars, iron and manganese ore, fruit, coffee, cocoa, molasses and sponges; of import, animals, breadstuffs, coal and coke, iron and steel, wood, liquor, cotton, chemicals and vegetables.

HAITI.

President, Sudre Dartiguenave. The area of Haiti is 10,204 square miles and the population

about 2,500,000. Coffee, cocoa and logwood are the leading articles sold. Total exports (1916), \$1,837,744; imports (1916), \$1,925,255. Exports to the United States in 1918, \$4,815,544; imports, \$3,359,922.

DOMINICAN REPUBLIC.

President, Federico H. Carvajal. The republic has an area of 19,325 square miles and a population (1913) of 708,000. Santo Domingo, the capital, has 22,000 inhabitants. In 1916 the exports amounted to \$21,851,250 and the chief articles shipped were coffee, cocoa and mahogany; imports, \$11,664,250. Exports to the United States in 1918, \$8,061,412; imports, \$16,011,019.

NONCONTIGUOUS POSSESSIONS OF THE UNITED STATES.

THE PHILIPPINE ISLANDS.

The Philippine islands were ceded to the United States by Spain Dec. 10, 1898. Maj.-Gen. Merritt was the first military governor. He was succeeded in August, 1899, by Maj.-Gen. E. S. Otis, who in turn was followed in May, 1900, by Maj.-Gen. Arthur MacArthur. The last named remained in office until July 4, 1901, when the military authority was transferred to Gen. A. R. Chaffee. By order of the president Gen. Chaffee was relieved of his duties as military governor July 4, 1902, and the office terminated. The Philippine commission was at the same time made the superior authority.

By act of congress approved Aug. 29, 1916, the legislative authority is vested in the Philippine legislature, composed of two houses, one the senate and the other the house of representatives. The senate consists of twenty-four senators and the house of representatives of ninety members. The legislature created under this law opened its first session on Oct. 16, 1916, and on its being organized the Philippine commission ceased to exist and the members thereof vacated their offices.

Officers and Salaries (1918).

Governor-General—Francis Burton Harrison.
Vice-Governor—Charles E. Yeater.

Director of Education—W. W. Marquardt.
Director of Posts—Robert M. Shearer.
Attorney-General—Quintin Pardes (acting).
Chief Justice Supreme Court—Cayetano S. Arellano.
Resident Commissioners to the United States—Jaime C. de Veyra and Teodoro R. Yonko.
The governor receives \$18,000 a year. The salaries of other leading officials are: Vice-governor, \$10,000; chief justice of the Supreme court, \$8,000; associate justices, \$7,500 each; auditor, \$6,000; deputy auditor, \$3,000; senators, \$2,000; representatives, \$1,500; president of the senate, \$6,000; speaker of the house of representatives, \$6,000; each department secretary, \$6,000; secretary to the governor-general, \$5,000.

Area and Population—The total land and water area of the Philippine archipelago is 832,968 square miles; land area, 115,026; population (estimated 1916), 8,826,552. The population of Manila in 1910 was 234,409. The population of the principal islands in 1903 was: Bobol, 243,148; Cebu, 592,247; Jolo, 44,718; Leyte, 857,641; Luzon, 3,738,507; Mindanao, 50,001; Mindanao, 489,534, of whom 252,940 are uncivilized; Negros, 460,776 (21,217 uncivilized); Panay, 743,646 (14,933 uncivilized); Samar, 222,690.

Products and Climate—The chief products are hemp, sugar, coffee, tobacco leaf, copra, cigars and cocoanut oil. Between 600,000 and 700,000 bales of hemp are exported annually. The mean temperature in Manila ranges from

77 in January to 83 in May. June, July, August and September are the rainy months. March, April and May the hot and dry, and October, November, December, January and February the temperate and dry.

Trade with the United States—The shipments of merchandise from the United States to the Philippines in the fiscal year ended June 30, 1918, amounted in value to \$48,423,400, as compared with \$27,206,612 in 1917. The principal articles sent were: Cotton manufactures, \$17,257,410; iron and steel manufactures, \$9,260,284; mineral oils, \$1,688,086. The imports into the United States amounted in value to \$78,101,412, as compared with \$42,436,247 in 1917. The principal articles imported were: Unmanufactured manila, \$30,375,300; sugar, \$7,913,247; tobacco, \$5,021,597; fruits and nuts, \$9,949,785; vegetable oils, \$18,204,019.

Imports and Exports—The total imports of the Philippine islands, in the calendar year 1917, amounted to \$65,797,031; total exports, \$95,604,307.

ISLAND OF PORTO RICO.

Porto Rico was ceded to the United States by Spain Dec. 10, 1898, and was under military rule until the Foraker law went into effect May 1, 1900. In accordance with the third section of that act, the legislative assembly of Porto Rico having put into operation a system of local taxation to meet the necessities of government, President McKinley on the 25th of July, 1901—the anniversary of the landing of American troops on the island in 1898—proclaimed free trade between the United States and Porto Rico.

Government—Under the new organic act of March 2, 1917, the legislative power in Porto Rico is vested in a legislature consisting of two houses, one the senate and the other the house of representatives. The senate consists of nineteen members elected for terms of four years by the qualified electors of Porto Rico. The house of representatives consists of thirty-nine members elected for a term of four years by the qualified electors of Porto Rico. The members of the senate and house of representatives receive compensation at the rate of \$7 per day for ninety days of each session and \$1 per day for each additional day of such session while in session. Regular sessions of the legislature are held biennially, convening on the second Monday in February. (See also page 49.)

The present officers are:
Governor—Arthur Yager.
Attorney-General—Howard L. Kern.
Treasurer—Jose E. Benedicto.
Commissioner of Interior—Guillermo Esteves.
Commissioner of Education—Paul C. Miller.
Commissioner of Agriculture and Labor—Manuel Camunas.

Commissioner of Health—Alejandro Ruiz Soler.
Auditor—J. W. Bonner.
Executive Secretary—Ramon Siaca Pacheco.
Resident Commissioner to the United States—Felix Cordova Davila.

Area and Population—The area of Porto Rico is 3,435 square miles and the population in 1910 was 1,118,912, of which 65.5 per cent was white, 30 per cent mulatto and 4.5 per cent black. The cities having more than 5,000 inhabitants in 1910 were: San Juan, 48,716; Ponce, 35,005;

Mayaguez, 16,563; Arecibo, 9,612; Aguadilla, 6,125; Yauco, 6,589; Caguas, 10,354; Guayama, 8,321. Commerce—For the year ended June 30, 1918, the total domestic exports from Porto Rico to the United States were \$65,515,650, and imports from the United States amounted to \$58,945,758. The leading articles of export are coffee, oranges, brown sugar and tobacco.

TERRITORY OF ALASKA.

Purchased from Russia in March, 1867. Organized as a noncontiguous possession July 27, 1868.

Made a civil and judicial district June 6, 1900. Organized as territory of Alaska by act of Aug. 24, 1912.

Capital—Juneau.

Governor—J. E. A. Strong.

Secretary—William L. Distin.

Treasurer—W. G. Smith.

Area and Population—Area, 590,584 square miles (land and water); population in 1910, 64,356, of whom 25,331 were Indians.

Legislature—Senate has eight members, or two from each judicial district; house has sixteen members, or four from each judicial district; term of senators, four years; term of representatives, two years; compensation paid by government, \$15 a day to each member during attendance at sessions and mileage at the rate of 15 cents a mile; sessions biennial, beginning on first Monday in March of odd numbered years; limit of regular sessions, sixty days, and of special sessions, fifteen days; delegate to congress elected on Tuesday following first Monday of November every second year, beginning with 1914.

Commerce—The total value of the shipments of domestic merchandise from the mainland of the United States to Alaska in the year ended June 30, 1918, was \$44,280,075. The principal articles were: Breadstuffs, \$1,683,989; manufactures of cotton, \$1,932,962; manufactures of iron and steel, \$17,750,680; meat and dairy products, \$4,052,328; wood and manufactures of, \$2,537,090; oils, \$1,941,193. Total value of shipments of domestic merchandise from Alaska to the mainland, \$71,595,414. The main articles were: Copper ore, \$20,217,635; canned salmon, \$41,392,292; other fish, \$1,465,056; furs, \$1,125,082.

Gold Shipments (1917)—From Alaska to the mainland, \$16,093,353; from the mainland to Alaska, \$1,698,702. The total gold and silver shipments, including foreign, to the United States were \$19,801,974.

TERRITORY OF HAWAII.

Annexed to the United States July 7, 1898.

Created a territory June 14, 1900.

Governor—L. E. Pinkham.

Secretary—Wade W. Thayer.

Population—According to the federal census of 1910 the total population of the territory was 191,909. In 1912 it was estimated at 200,065. The only large city is Honolulu, which in 1910 had a population of 52,183.

Commerce with the United States—The total value of the shipments of domestic merchandise from Hawaii to the United States for the twelve months ended June 30, 1918, was \$79,392,926. Brown sugar was the principal item, amounting to 1,053,701,147 pounds, valued at \$62,076,956. The other articles of importance were: Fruits and nuts, \$8,525,676. The total value of the shipments of domestic merchandise from the United States to Hawaii was \$43,646,515. The principal articles were: Iron, steel and machinery, \$7,741,112; oils, \$4,089,927; breadstuffs, \$3,634,427; lumber and manufactures of wood, \$2,393,375; wines and liquors, \$734,528; meat and dairy products, \$1,618,554; cotton goods, \$2,895,748.

AMERICAN SAMOA.

Acquired by the United States January, 1900.

Area, including Manua and several other small islands, 77 square miles.

Population, about 7,200.

Merchandise shipped from the United States (1918) to Samoa, \$263,142.

Papago harbor acquired by United States in 1872.

Governor—Commander J. M. Poyer, U. S. N. (retired).

GUAM.

Ceded to the United States by Spain Dec. 10, 1898.

Area, 210 square miles.

Population, about 12,250.

Merchandise shipped from United States (1918), \$156,581.

First American Governor—Capt. R. P. Leary, U. S. N.

Governor (1918)—Capt. R. C. Smith, U. S. N.

PANAMA CANAL ZONE.

Acquired by the United States Feb. 25, 1904.

Area, 474 square miles.

Population (June, 1918), 21,767.

Governor—Chester Harding.

VIRGIN ISLANDS.

Acquired by the United States March 3, 1917.

Area, 142 square miles.

Population (1918), 32,000.

Governor—Rear-Admiral James H. Oliver, U. S. N.

RESIGNATION OF SECRETARY MADOO.

William G. McAdoo, secretary of the treasury and director-general of railroads, resigned his offices in November, 1918, soon after the close of the great war. The announcement was made Nov. 22 when the appended correspondence between the secretary and President Wilson was made public.

Secretary McAdoo to the president:

"Dear Mr. President: Now that an armistice has been signed and peace is assured, I feel at liberty to advise you of my desire to return as soon as possible to private life.

"I have been conscious for some time of the necessity for this step, but, of course, I could not consider it while the country was at war.

"For almost six years I have worked incessantly under the pressure of great responsibilities. Their exactions have drawn heavily on my strength.

"The inadequate compensation allowed by law to cabinet officers (as you know I receive no compensation as director-general of railroads) and the very burdensome cost of living in Washington have so depleted my personal resources that I am obliged to reckon with the facts of the situation.

"I do not wish to convey the impression

that there is any actual impairment of my health, because such is not the fact. As a result of long overwork I need a reasonable period of genuine rest to replenish my energy. But more than this, I must, for the sake of my family, get back to private life to retrieve my personal fortune.

"I cannot secure the required rest nor the opportunity to look after my long neglected private affairs unless I am relieved of my present responsibilities.

"I am anxious to have my retirement effected with the least possible inconvenience to yourself and to the public service, but it would, I think, be wise to accept my resignation now, as secretary of the treasury, to become effective upon the appointment and qualification of my successor, so that he may have the opportunity and advantage of participating promptly in the formation of the policies that should govern the future work of the treasury. I would suggest that my resignation as director-general of railroads become effective Jan. 1, 1919, or upon the appointment of my successor.

"I hope you will understand, my dear Mr. President, that I will permit nothing but the most imperious demands to force my with-

drawal from public life. Always I shall cherish as the greatest honor of my career the opportunity you have so generously given me to serve the country under your leadership in these epochal times. W. G. McADOO."

PRESIDENT WILSON TO THE SECRETARY.

To the foregoing communication President Wilson replied in a letter dated Nov. 21, 1918, as follows:

"My Dear Mr. Secretary: I was not unprepared for your letter of the 14th because you had more than once, of course, discussed with me the circumstances which have long made it a serious personal sacrifice for you to remain in office. I knew that only your high and exacting sense of duty had kept you here until the immediate tasks of the war should be over.

"But I am none the less distressed. I shall not allow our intimate personal relations to deprive me of the pleasure of saying that in my judgment the country has never had an abler, a more resourceful and yet prudent, a more uniformly efficient secretary of the treasury, and I say this remembering all the able, devoted, and distinguished men who preceded you.

"I have kept your letter a number of days, in order to suggest, if I could, some other solution of your difficulty than the one you have now felt obliged to resort to. But I have not been able to think of any. I cannot ask you to make further sacrifices, serious as the loss of the government will be in your retirement. I accept your resignation, therefore, to take effect upon the appointment of a successor, because in justice to you I must. It also for the same reason accept your resignation as director-general of railroads, to

take effect, as you suggest, on the 1st of January next, or when your successor is appointed. The whole world admires, I am sure, as I do, the skill and executive capacity with which you handled the great and complex problem of the unified administration of railways under the stress of war uses, and will regret, as I do, to see you leave that post just as the crest of its difficulties is passed.

"For the distinguished, disinterested and altogether admirable service you have rendered the country in both posts, and especially for the way in which you have guided the treasury through all the perplexities and problems of transitional financial conditions and the financing of a war which has been without precedent alike in kind and in scope, I thank you with a sense of gratitude that comes from the very bottom of my heart.

"WOODROW WILSON."

SUCCEEDED BY CARTER GLASS.

Representative Carter Glass of Virginia was nominated to succeed William G. McAdoo as secretary of the treasury Dec. 5, 1918. Mr. Glass was born in Lynchburg, Va., and was educated in public and private schools and in the newspaper business, becoming owner of the Daily Advance and the Daily News in his native city. He was a member of the Virginia state senate in 1899-1903 and of the Virginia constitutional convention in 1901-2. For eight years he was a member of the board of visitors of the University of Virginia and a member of congress from the 57th to the 65th congress. At the time of his nomination as secretary of the treasury he was chairman of the house committee on banking and currency.

PRICE OF 1918 WHEAT FIXED.

President Wilson issued a proclamation Feb. 23, 1918, fixing the basic prices for the 1918 wheat crop at the principal primary markets. After reviewing the food law, empowering the president to act in the premises, the proclamation continued:

"Now, therefore, I, Woodrow Wilson, president of the United States, by virtue of the powers conferred upon me by said act of congress, and especially by section 14 thereof, do hereby find that an emergency exists requiring stimulating of the production of wheat and that it is essential that the producers of wheat produced within the United States shall have the benefits of the guaranty provided for in said section; and, in order to make effective the guaranty by congress for the crop of 1918 and to assure such producers a reasonable profit, I do hereby determine and fix and give public notice of reasonable guaranteed prices for No. 1 northern spring wheat and its equivalent at the respective principal primary markets as follows:

Chicago	\$2.20	Seattle	\$2.05
Omaha	2.15	San Francisco.....	2.10
Kansas City ...	2.15	Los Angeles.....	2.10
St. Louis	2.18	Galveston	2.20
Minneapolis ..	2.17	New Orleans.....	2.20
Duluth, Minn. .	2.17	Salt Lake City....	2.00
New York.....	2.28	Great Falls.....	2.00
Philadelphia...	2.27	Spokane	2.00
Baltimore	2.27	Pocatello, Idaho..	2.00
Newport News..	2.27	Fort Worth.....	2.09
Charleston	2.27	Oklahoma City...	
Savannah	2.27	Okla.	2.05
Portland	2.05	Wichita, Kas.....	2.08

"The guaranteed price for other grades established under the United States grain standards act approved Aug. 11, 1916, will be based on said price for No. 1 northern spring wheat at the respective principal primary markets.

"The United States will assure the producers of wheat produced within the United States a

reasonable profit; the guaranteed prices in the principal primary markets above mentioned being fixed by adopting No. 1 northern spring wheat, or its equivalents at the principal interior markets, as the basis.

"For the purposes of such guaranty only, I hereby fix the guaranteed prices at the respective principal primary markets for the following grades of wheat—to wit: No. 1 northern spring, No. 1 hard winter, No. 1 red winter, No. 1 durum, No. 1 hard white. The guaranteed prices at the respective principal primary markets aforesaid of all other grades of wheat established under the United States grain standards act approved Aug. 11, 1916, shall be based on the above guaranteed prices and bear just relation thereto.

"The sums thus determined and fixed are guaranteed by the government of the United States at the respective principal primary markets of the United States above mentioned, to every producer of wheat of any grade so established under the United States grain standards act, upon the condition that said wheat is harvested in the United States during the year 1918, and offered for sale before the first day of June, 1919, to such agent or employe of the United States, or other person as may be hereafter designated, at any one of the above mentioned cities, which are, for the purposes of this act, hereby declared to be the principal primary markets of the United States, and provided that such producer complies with all regulations which may be hereafter promulgated in regard to said guaranty by the president of the United States.

"In witness whereof I have hereunto set my hand and caused the seal of the United States to be fixed.

"Done in the District of Columbia, this 21st day of February, in the year of our Lord 1918 and of the independence of the United States of America the 42d.

"WOODROW WILSON,
"By the President: Robert Lansing, Secretary of State."

GENERAL EVENTS OF 1918.

FIRE LOSSES AND CASUALTIES.

Alvin Siding, Nova Scotia, March 15—Twenty persons burned to death in lumber camp.

Baltimore, Md., Jan. 25—Shipbuilding plant and woolen mills burned; loss \$700,000.

Brooklyn, N. Y., Jan. 16—Warehouse containing government food supplies burned; loss, \$500,000.

Buffalo, N. Y., Jan. 26—Westinghouse repair plant burned; loss, \$150,000.

Burlington, Vt., April 25—Chocolate plant burned; loss, \$1,000,000.

Camden, N. J., Jan. 24—Two war manufacturing buildings burned; loss, \$500,000.

Canton, Ill., March 5—Part of business section burned; loss, \$200,000.

Canton, O., Jan. 14—Miller Pasteurizing Machinery Company's plant burned; loss, \$200,000.

Chicago, Jan. 3—Swift & Co. warehouse burned; loss, \$150,000.

Jan. 9—Five firemen killed in Chicago avenue theater fire.

Jan. 12—Two South Water street buildings burned; loss, \$275,000.

Jan. 20—Independent Button and Machine company plant burned; loss, \$300,000.

Feb. 15—Pugh warehouse damaged; loss, \$300,000.

March 13—Federal Electric Sign company's plant burned; loss, \$400,000.

April 23—Griswold & Walker warehouse burned; loss, \$400,000.

July 25—Forest park structures burned; loss, \$200,000.

Aug. 16—Building at 120-130 West Austin avenue burned; loss, \$200,000.

Cle Elum, Wash., June 25—Thirty business and residence blocks burned; loss, \$1,500,000.

Columbia, S. C., May 29—Fire in insane asylum causes loss of sixteen lives.

Grand Rapids, Mich., Jan. 13—Hawkins block burned; loss, \$150,000.

Harrisburg, Pa., Jan. 2—Munitions plant burned; loss, \$250,000.

March 27—City Garage burned; loss, \$100,000.

Hershey, Pa., Feb. 24—Chocolate plant burned; loss, \$500,000.

Indianapolis, Ind., Jan. 13—Industrial building burned; loss, \$2,000,000.

Jacksonville, Fla., Feb. 16—L'Engle office and store building burned; loss, \$200,000.

Jefferson City, Mo., Jan. 23—Shoe factory in penitentiary burned; loss, \$250,000.

Jersey City, N. J., March 26—Explosion and fire cause destruction of Jarvis warehouse; loss, \$1,500,000.

Johnstown, Pa., March 17—Business buildings burned; loss, \$500,000.

Kansas City, Mo., April 4—Eighteen business buildings burned; loss, \$2,500,000.

Lima, O., April 25—Lake Erie & Western shops burned; loss, \$500,000.

Little Rock, Ark., Jan. 13—Nine business buildings burned; loss, \$100,000.

Marble City, Okla., Jan. 12—Thirteen boys burned to death in Indian school.

Marquette, Mich., Jan. 29—Pioneer Iron Co.'s chemical plant burned; loss, \$500,000.

Milwaukee, Wis., Oct. 14—Sentinel and other buildings damaged by fire; loss, \$250,000.

Minnesota, Oct. 12—Forest fires in northeastern part of state cause 800 deaths and a property loss of \$25,000,000.

Montreal, Que., Feb. 14—Grey nunnery building burned; fifty-two children lose their lives.

Newark, N. J., Jan. 26—Oil barges and pier burned; loss, \$1,000,000.

Sept. 17—Eleven persons die in factory fire.

Newburgh, N. Y., Feb. 6—Wharf and warehouses burned; loss, \$500,000.

New York, N. Y., Feb. 9—Five lives lost in burning of sailors' boarding house.

Niagara Falls, N. Y., Jan. 3—International hotel burned; loss, \$550,000.

Norfolk, Va., Jan. 1—Two blocks in business district burned; one life lost; twenty persons injured; property loss, \$2,000,000.

Norman, Okla., April 13—Thirty-six boys burned to death in asylum fire.

Noxen, Pa., June 2—J. K. Mosser Tanning Co.'s plant burned; loss, \$3,000,000.

Ottawa, Ill., March 9—Pianophone factory burned; loss, \$100,000.

Parsons, Pa., April 25—Tretaway Bros.' tin factory burned; loss, \$500,000.

Peabody, Mass., Feb. 23—Nine lives lost in burning of residence.

Peshtigo, Wis., Feb. 2—Times and other buildings burned; loss, \$100,000.

Philadelphia, Pa., Jan. 24—Three firemen killed and fifteen injured in school fire; property loss, \$150,000.

Poughkeepsie, N. Y., Feb. 12—Fire in main building of Vassar college causes loss of \$300,000.

Rondout, Ill., Sept. 5—Meeker mill burned; loss, \$500,000.

Saginaw, Mich., Jan. 15—Business houses burned; loss, \$163,000.

St. Louis, Mo., May 5—Packing company warehouse burned; loss, \$2,000,000.

June 2—Government warehouse burned; loss, \$1,000,000.

Werthan Bag company's plant damaged; loss, \$1,000,000.

Toledo, O., Jan. 19—Ohio Dairy company plant burned; loss, \$200,000.

Toronto, Ont., April 16—Harris Abattoir plant burned; loss, \$2,000,000.

Vancouver, B. C., May 15—J. Coughlin & Sons shipyards damaged by fire; loss, \$1,500,000.

Washington, D. C., Jan. 14—Part of Washington barracks burned; loss, \$1,000,000.

Waukegan, Ill., May 3—Government warehouses burned; loss, \$1,000,000.

Wheeling, W. Va., Jan. 14—Stratford Springs hotel burned; loss, \$150,000.

Feb. 4—Street car barn burned; loss, \$200,000.

Winnipeg, Man., Jan. 11—Enderton building burned; loss, \$750,000.

MARINE DISASTERS.

From non-war causes.

Almirante, American steamship, sunk off Jersey coast, Sept. 6—Five lives lost.

Alton, packet, sunk by ice in Ohio river, Jan. 29—Loss, \$100,000; no lives lost.

Ascania, British steamer, wrecked on coast of Newfoundland, June 14—No lives lost.

Aurora, antarctic relief ship, lost at sea some time in fall of 1917—Twenty-two lives lost.

Batiscan, British steamer, lost off Nova Scotia about March 18—Forty-one lives lost.

Bisso, W. A., tug, sunk in collision near New Orleans, La., March 11—Thirteen persons drowned.

Blackford, American steamer, foundered in storm off coast of Lower California, Sept. 17—No lives lost.

Cherokee, U. S. naval tug, lost in storm off Delaware capes, Feb. 26—Twenty-nine lives lost.

Chutai, Chinese gunboat, wrecked in collision off Hankow, April 25.

City of Athens, American steamship, sunk in collision off Delaware coast, May 1—Sixty-six lives lost.

City of Louisville, steamer, sunk by ice gorge at Cincinnati, O., Jan. 30—No lives lost.

Columbia, river steamer, sunk in Illinois river at Wesley City, July 6—Eighty-seven lives lost.

Coo's Bay, American steamer, foundered off coast of Lower California, Sept. 17—No lives lost.

Florizel, Red Cross liner, wrecked near Cape Race, N. F., Feb. 24—Ninety-two lives lost.

Frasch, Herman, American steamer, sunk in collision off Nova Scotia, Oct. 4—Fifty lives lost.

Grey Eagle, packet, sunk by ice in Ohio river, Jan. 29—Loss \$100,000—No lives lost.

Jennings, O. B., American ship, sunk in collision off British coast, March 24—No lives lost.

Kawachi, Japanese battleship, blown up in Tokayama bay, July 12—Five hundred lives lost.

Kiang-Kwan, Chinese steamship, sunk in collision off Hankow, April 25—Five hundred lives lost.

Lake City, American steamer, sunk off Key West, Fla., Oct. 3—Thirty lives lost.

Miguel de Larrinaga, British steamship, sunk in mid-Atlantic, Feb. 6—Ten lives lost.

Onondaga, steamer, strikes reef and sinks off Watch Hill, R. I., June 28.

Peoria, packet, sunk by ice in Ohio river, Jan. 29—Loss, \$100,000; no lives lost.

Poseidon, American steamship, sunk in collision off American coast, July 31—One life lost.

Princess Sophia, Canadian steamship, sunk on coast of Alaska, Oct. 24—Three hundred and forty-three lives lost.

Ravelli, American steamer, burned on Pacific coast, June 14.

San Saba, American steamer, sunk off Barneget, N. J., Oct. 4.

Spread Eagle, packet, sunk by ice in Ohio river, Jan. 29—Loss, \$100,000; no lives lost.

War Knight, British steamer, destroyed in collision off British coast, March 24—Thirty-seven lives lost.

RAILROAD WRECKS.

Aurora, Elgin & Chicago electric road, in Elmhurst, Ill., June 28—Four men killed and five seriously injured in collision with truck.

Burlington road, near Birdsall siding, Neb., Sept. 10—Twelve persons killed in collision.

Central Vermont line, near Burlington, Vt., June 5—Nine lives lost in collision.

Chelsea, Mich., July 20—Fifteen persons killed in collision between interurban car and freight train.

Illinois Central line, near Granger, Ill., Jan. 28—Three persons killed and forty injured in derailment of train.

Illinois Central line, near Aplington, Iowa, May 29—Eight lives lost.

Houston & Texas Central road, six miles south of Bremond, Tex., Jan. 13—Sixteen persons killed and seventeen injured.

Louisville & Nashville road, Dec. 20, 1917—Forty-one persons killed and thirty-nine injured in collision.

Michigan Central line, at Ivanhoe, Ind., June 22—Sixty-eight lives lost in collision.

Milwaukee road, near Shawmut, Mont., March 4—Five men killed in collision.

Nashville, Chattanooga & St. Louis railway, near Nashville, Tenn., July 9—One hundred and fifteen persons killed.

New York Centra' road, near Amsterdam, N. Y., April 8—One killed and twenty injured in collision.

Northwestern road, near Geneva, Ill., Oct. 23—Fifty soldiers injured in derailment of troop train.

North Shore Electric road, near Fort Sheridan, Ill., July 14—Four persons killed and twenty-eight injured in collision between train and truck.

Pennsylvania road, at Bedford, O., Oct. 3—Twenty-two workmen killed by passenger train running into crowd.

St. Louis & San Francisco road, near Marshfield, Mo., Sept. 17—Five soldiers and nine other men killed in collision.

Southern Pacific line, near Lafayette, La., May 29—Forty persons injured.

Southern railway, near Columbia, S. C., Feb. 25—Twelve persons killed and twenty-five hurt in collision.

Sweden, Oct. 2—Ninety lives lost in train wreck near Malmo.

MINE DISASTERS.

Burnett, Wash., Aug. 28—Twenty-seven men killed by explosion in coal mine.

Hanley, England, Jan. 12—One hundred lives lost in mine explosion.

Iron River, Mich., Feb. 21—Fifteen men smothered in Amasa Porter mine.

San Antonio, N. M., Feb. 28—Nine killed by gas in mine.

Royalton, Ill., Sept. 28—Twenty men killed by explosion in coal mine.

Stallarton, Nova Scotia, Jan. 23—Eighty-nine lives lost in coal mine explosion.

Villa, W. Va., May 20—Thirteen miners killed by fire in Mill Creek Cannel Coal Mining company's mine.

- Charleston, S. C.—Joseph M. Foulnot.
- Chicago, Ill.—William B. Carlile.
- Cincinnati, O.—Joel C. Clore.
- Cleveland, O.—William J. Murphy.
- Columbus, O.—Samuel A. Kinnear.
- Dayton, O.—Forrest L. May.
- Denver, Col.—Benjamin F. Stapleton.
- Des Moines, Iowa—G. A. Huffman.
- Detroit, Mich.—William J. Nagel.
- Duluth, Minn.—William E. McEwen.
- Fall River, Mass.—James E. Hoar.
- Fort Wayne, Ind.—Edward C. Miller.
- Galveston, Tex.—E. R. Cheesborough.
- Grand Rapids, Mich.—Charles E. Hogadone.
- Hartford, Conn.—David A. Wilson.
- Indianapolis, Ind.—R. E. Springsteen.
- Jersey City, N. J.—Matt Ely.
- Kansas City, Mo.—Bayless Steele.
- Lincoln, Neb.—Samuel Hudson.
- Los Angeles, Cal.—Harrington Brown.
- Louisville, Ky.—E. T. Schmitt.
- Lowell, Mass.—John F. Meehan.
- Milwaukee, Wis.—Frank B. Schutz.
- Minneapolis, Minn.—Edward A. Purdy.
- Nashville, Tenn.—Eugene S. Shannon.
- Newark, N. J.—(Vacancy).
- New Haven, Conn.—Philip Troup.
- New Orleans, La.—Charles Janvier.
- New York, N. Y.—Edward M. Morgan.
- Omaha, Neb.—Charles E. Fanning.
- Paterson, N. J.—James F. McNair.
- Peoria, Ill.—Claude U. Stone.
- Philadelphia, Pa.—John A. Thornton.
- Pittsburgh, Pa.—A. S. Guffey.
- Portland, Me.—Oscar R. Wish.
- Portland, Ore.—Frank S. Myers.
- Providence, R. I.—Edward F. Carroll.
- Reading, Pa.—Charles N. Seitzinger.
- Richmond, Va.—Hay T. Thornton.
- Rochester, N. Y.—George M. Staud.
- St. Joseph, Mo.—Frank Freytag.
- St. Louis, Mo.—Colin M. Selph.
- St. Paul, Minn.—Otto N. Rath.
- Salt Lake City, Utah—Noble Warrum.
- San Antonio, Tex.—George D. Armistead.
- San Francisco, Cal.—Charles W. Fay.
- Seattle, Wash.—Edgar H. Battle.
- Schenectady, N. Y.—Edward Clute.
- Springfield, Mass.—Thomas J. Costello.
- Syracuse, N. Y.—John J. Kesel.
- Toledo, O.—George F. Parrish.
- Trenton, N. J.—E. F. Hooper.
- Troy, N. Y.—James H. Burns.
- Washington, D. C.—Merritt O. Chance.
- Wilmington, Del.—James J. English.

BROOKLYN RAPID TRANSIT DISASTER.

While a five-car train on the Brighton Beach line of the Brooklyn Rapid Transit company was running at high speed through the Malbone street tunnel in Brooklyn, N. Y., on the evening of Nov. 1, 1918, it jumped the track on a curve and was dashed against the side

wall, with the result that eighty-nine of the 900 passengers lost their lives, and more than 100 were injured. A strike of motormen and motor switchmen was in progress and the train was in charge of a motorman said to be lacking in experience.

POPULAR VOTE OF ILLINOIS (1880-1916).

Year. Office.	Prog.	Rep.	Dem.	Pro.	Peo.	Soc.	Total.
1880—President.....		318,037	277,321	440	26,338		622,306

FEDERAL BOARD OF MEDIATION AND CONCILIATION.

Commissioner of Mediation—William L. Chambers.
 Assistant Commissioner of Mediation—G. W. W. Hangar.
 Board of Mediation and Conciliation—Martin A. Knapp, chairman; William L. Chambers, G. W. W. Hangar, secretary.
 Secretary—William H. Smith.
 Office—Southern building, Washington, D. C.
 The board of mediation and conciliation, created by act of congress approved July 15, 1913, was established to settle by mediation, conciliation and arbitration controversies concerning wages, hours of labor or conditions of employment that may arise between common

carriers engaged in interstate transportation and their employes engaged in train operation or train service. Whenever such a controversy arises, interrupting or threatening to interrupt the operation of trains to the serious detriment of the public interest, upon the request of either party the board of mediation is required to use its best efforts by mediation and conciliation to bring about an agreement. If such efforts are unsuccessful, the board endeavors to induce the parties to submit their controversy to arbitration and, if successful, makes the necessary arrangements for such arbitration. The board is an independent office.

AMERICAN AND EUROPEAN ZOOLOGICAL GARDENS.

VOTE FOR CONGRESSMAN, 4TH DISTRICT.
To fill vacancy.
John W. Rainey, Dem. 13,094
O. W. Christopher, Rep. 4,366
Kasimir P. Gugis, Soc. 2,530

VOTE ON PROPOSITIONS.
Proposed annexation of the village of Elmwood Park to the city of Chicago.
For—Men, 109,591; women, 27,186; total, 136,777.
Against—Men, 49,081; women, 10,996; total, 60,077.
Elmwood Park voted April 16 against annexation, 203 to 131, and the proposition failed.
Proposed annexation of portion of the town of Norwood Park to the city of Chicago.
For—Men, 135,389; women, 44,168; total, 179,557.
Against—Men, 67,114; women, 20,370; total, 87,481.
Not having received a majority of the total number of votes cast the proposition failed.

ILLINOIS PRIMARY ELECTION, SEPT. 11, 1918.

FOR UNITED STATES SENATOR.

OFFICIALS TO BE ELECTED.

- Mayor of Chicago.
City clerk of Chicago.
City treasurer of Chicago.
Aldermen from thirty-five wards.
Judge of Superior court.
Judge of Municipal court (to fill vacancy).
Commissioners of small park districts.

UNITED STATES TARIFF COMMISSION.

Salary of members, \$7,500.

Chairman—Prof. Frank W. Taussig, Dem., Mass.
David J. Lewis, Dem., Md.
William Kent, Ind., Cal.
Thomas W. Page, Dem., Va.
E. P. Costigan, Prog., Col.
W. S. Culberson, Rep., Kas.

It is the duty of the commission to investigate the administration and fiscal and industrial effects of the custom laws; the relations between the rates of duties on raw materials and finished or partly finished products, the effects of ad valorem and specific duties and of compound specific duties, all questions relative to the arrangement of schedules and classification of articles in the customs law, and, in general, to investigate the operation of customs laws and their effect upon the industries and labor of the

country. The commission has power to investigate the tariff relations between the United States and foreign countries, commercial treaties, preferential provisions, economic alliances, the effect of export bounties and preferential transportation rates, the volume of importations compared with domestic production and consumption, and conditions, causes and effects relating to competition of foreign industries with those of the United States, including dumping and cost of production. The commission is required to place its information at the disposal of the president, the committee of ways and means of the house and the finance committee of the senate and to make such investigations and reports as may be called for by the president and these committees.

CHICAGO BUREAU OF PUBLIC EFFICIENCY.

Organized in 1910.

Trustees—Julius Rosenwald, chairman; Alfred L. Baker, treasurer; Onward Bates, George G. Tunell, Walter L. Fisher, A. B. Pond, Victor Elting, George H. Mead.
Director—Harris S. Keeler.

Headquarters—City Club building, 315 Plymouth court.

The purposes of the organization are:

- (1) To scrutinize the systems of accounting in the eight local governments of Chicago.
- (2) To examine the methods of purchasing materials and supplies and letting and executing construction contracts in these bodies.
- (3) To examine the pay rolls of these local governing bodies with a view of determining the efficiency of such expenditures.
- (4) To make constructive suggestions for improvements in the directions indicated under 1.

2 and 3, and to co-operate with public officials in the installation of these improved methods.

(5) To furnish the public with exact information regarding public revenues and expenditures and thereby promote efficiency and economy in the public service.

DISPLAY OF RED FLAG IN CHICAGO BARRED.

By a vote of 62 to 2 the city council of Chicago passed an ordinance Dec. 2, 1918, prohibiting the display of the red flag, the symbol of anarchism, in Chicago. Those who voted against it were Ald. John C. Kennedy and Ald. Charles V. Johnson, both socialists. Violation of the ordinance is punishable by a fine of not exceeding \$200.

ILLINOIS CIVIL ADMINISTRATIVE CODE.

Enacted March 7, 1917.

The act, which is officially known as "The civil administrative code of Illinois," creates the following departments of state government: Finance, agriculture, labor, mines and minerals, public works and buildings, public welfare, public health, trade and commerce, registration and education. Each department shall have at its head an officer who shall be known as a director, who shall execute the powers and discharge the duties vested by law in his department. In addition to the office of director the following offices are created:

Department of Finance.

Assistant director of finance.
Administrative auditor.
Superintendent of budget.
Superintendent of department reports.

Department of Agriculture.

Assistant director of agriculture.
General manager of the state fair.
Superintendent of foods and dairies.
Superintendent of animal industry.
Superintendent of plant industry.
Chief veterinarian.
Chief game and fish warden.
Food standard commission to consist of superintendent of foods and dairies and two food standard officers.

Department of Labor.

Assistant director of labor.
Chief factory inspector.
Superintendent of free employment offices.
Chief inspector of private employment agencies.
Industrial commission to consist of five industrial officers.

Department of Mines and Minerals.

Assistant director of mines and minerals.
Mining board to consist of four mining officers and the director of the department.
Miners' examining board to consist of four miners' examining officers.

Department of Public Works and Buildings.

Assistant director of public works and buildings.
Superintendent of highways.
Chief highway engineer.
Supervising architect.
Supervising engineer.
Superintendent of waterways.
Superintendent of printing.
Superintendent of purchases and supplies.
Superintendent of parks.

Department of Public Welfare.

Assistant director of public welfare.
Alienist.
Criminologist.
Fiscal supervisor.
Superintendent of charities.
Superintendent of prisons.
Superintendent of pardons and paroles.

Department of Public Health.

Assistant director of public health.
Superintendent of lodging house inspection.

Department of Trade and Commerce.

Assistant director of trade and commerce.
Superintendent of insurance.
Fire marshal.
Superintendent of standards.
Chief grain inspector.
Public utilities commission to consist of five public utility commissioners.
Secretary of the public utilities commission.

Department of Registration and Education.

Assistant director of registration and education.
Superintendent of registration.
Normal school board to consist of nine officers, together with the director of the department and the superintendent of public instruction.
Advisory and nonexecutive boards are created as follows:

Department of Agriculture.

A board of fifteen agricultural advisers and a board of nine state fair advisers, not more than three of whom shall be appointed from any one county.

Department of Labor.

A board of five free employment office advisers.
A board of local free employment advisers for each free employment office composed of five persons on each local board.

Department of Public Works.

A board of eight art advisers.
A board of five water resource advisers.
A board of five highway advisers.
A board of five parks and buildings advisers.

Department of Public Welfare.

A board of five public welfare commissioners.

Department of Public Health.

A board of five public health advisers.

Department of Registration and Education.

A board of seven natural resources and conservation advisers.
A board of five state museum advisers.

One food standard officer shall represent the Illinois food manufacturing industries and the other shall be an expert food chemist.

The fifteen agricultural advisers shall be persons engaged in agricultural industries.

Of the industrial officers two shall be representative citizens of the employing class operating under the workmen's compensation act, two shall be representative citizens chosen from the employes operating under the same act and the other shall be a representative citizen not identified with either the employing or employe class.

Of the free employment advisers two shall be representatives of employers, two of organized labor and one citizen who is neither an employer nor an employe. The local employment office advisers shall have the same qualifications as the state free employment advisers.

The director of mines and minerals shall be a person conversant with the theory and practice of coal mining, but not identified with the operators or miners. Two of the mine officers shall be coal operators and two practical coal miners.

Each of the three miners' examining officers shall have had at least five years' practical and continuous experience as a coal miner and shall have been engaged as a miner in this state continuously for twelve months next preceding his appointment.

Of the art commissioners two shall be painters, two sculptors, two architects and two neither painters, sculptors nor architects.

The director of public health shall be a person licensed to practice medicine and surgery in this state, with five years' practical experience in Illinois and at least six years' practical experience in public health work.

The assistant director of public health shall be a person licensed to practice medicine and surgery in Illinois, with five years' experience in such practice in the state and three years' experience in public health work.

No public utility commissioner or employe of the commission shall be connected with any corporation or person subject to regulation by the commission or shall be financially interested in any such corporation.

The chief grain inspector shall be a person who is not interested in any warehouse in the state and who is not a member of any board of trade.

No director nor any other officer of the department of registration and education shall be affiliated with any college or school of medicine, pharmacy, dentistry, nursing, optometry, embalming, barbering, veterinary medicine and surgery, architecture or structural engineering, either as teacher, officer or stockholder, nor shall

he hold a license to practice any of the professions, trades or occupations regulated.

No more than two members of the normal school board shall be residents of any one congressional district.

The board of natural resources and conservation shall be composed of the director of registration and education, who shall be ex-officio chairman thereof, the president of the University of Illinois or his representative, and one expert each in biology, geology, engineering, chemistry and forestry, qualified by ten years' experience in practicing or teaching their several professions.

The board of state museum advisers shall be composed of one expert each in botany, ethnology, zoology, manufacture and museum administration.

Each advisory and nonexecutive board shall have the following powers and duties with respect to its field of work:

1. To consider and study the entire field; to advise the executive officers of the department upon their request; to recommend on its own initiative policies and practices, which the executive officers of the department shall duly consider, and to give advice or make recommendations to the governor and the general assembly.

2. To investigate the work of the department with which it is associated, and for this purpose to have access to all books, papers, documents and records belonging thereto and to require written or oral information from any officer or employe thereof.

3. To adopt rules for its internal control and management.

4. To hold meetings not less frequently than quarterly.

5. To act by a subcommittee or by a majority of the board if the rules so prescribe.

6. To keep minutes of the transactions of each session, which shall be public records and filed with the director of the department.

7. To give notice to the governor and to the director of the department of the time and place of every meeting and to permit them to be present and to be heard upon any matter coming before such board.

No member of any advisory and nonexecutive board shall receive any compensation.

Each officer whose office is created by the act shall be appointed by the governor with the advice and consent of the senate.

Each officer whose office is created by the act, except as otherwise specifically provided, shall hold office for four years from the second Monday in January next after the election of governor and until his successor is appointed and qualified.

Three members of the normal school board first appointed shall hold office until the second Monday in January, 1919; three until the second Monday in January, 1921; and three until the second Monday in January, 1923. Thereafter the terms of all the members shall be six years.

Each officer is required to take the constitutional oath of office and give a bond.

Each department shall maintain a central office in the capitol in Springfield, but the director, with the approval of the governor, may maintain branch offices in other places.

All employes shall render not less than seven and a half hours of labor a day, Saturday afternoons, Sundays and holidays, so declared by the negotiable instrument act, excepted.

Each employe shall be entitled to fourteen days' leave of absence annually with full pay.

Nothing in the act shall be construed to amend, modify or repeal the state civil service law or to extend its application to any position created by the act where the duties to be performed do not now exist or are performed by an officer or employe not in the classified civil service of the state. Every officer and employe in the classified civil service at the time this act takes effect shall be assigned to a position in the proper department created by the act and shall be employes in the classified civil

service of the state with the same standing or grade as they had in the institution from which they were transferred. This section shall not be construed to require the retention of more employes than are necessary.

Each director of a department shall annually on or before Dec. 1, and at such other times as the governor may require, report in writing to the governor on the condition, management and financial transactions of the department. They shall also make the semiannual and biennial reports provided by the constitution.

The directors of departments shall devise working bases for co-operation and co-ordination of work, eliminating duplication and overlapping of functions.

The gross amount of money received by every department belonging to the state shall be paid into the state treasury without delay, not later in any event than ten days after the receipt of the same, without any deduction whatever.

Contracts for construction work exceeding \$1,000 in value shall be let to the lowest responsible bidder. Supplies, except in emergencies or in the case of perishable goods, shall be purchased in large quantities and the contracts therefor shall be let to the lowest responsible bidder. Advertisements for construction work or furnishing supplies shall be published for at least three days, the first and last at least ten days apart, in one or more newspapers of general circulation in each of the seven largest cities in the state and also in one secular English newspaper selected by the department of public works and buildings by competitive bidding and designated as the "official newspaper," such newspaper to continue to be the official newspaper for one year.

All supplies of fuel for the departments shall be let by contract to the lowest responsible bidder and contracts shall be made subject to the approval of the governor. The price paid for fuel shall not exceed \$12 a ton for anthracite coal; \$9 for Pennsylvania bituminous, Pocahontas and West Virginia smokeless and eastern Kentucky and Ohio coals, all of the bituminous type; \$7 for Illinois, Indiana, western Kentucky, Missouri and Iowa coals and other types of bituminous coals.

Rights, powers and duties transferred from the former offices, boards, commissions, etc., to a department created by this act shall be vested in and exercised by that department and every act done in the exercise of such rights, powers and duties shall have the same legal effect as if done by the former officer, board, commission, institution or department.

Offices Abolished.

The following offices, boards, commissions, arms and agencies of the state government heretofore created by law are abolished: Superintendent of printing, board of live stock commissioners and its secretary, state veterinarian, board of veterinary examiners, stallion registration board and its secretary, board of examiners of horseshoers and its secretary, state inspector of apiaries, state game and fish commission with wardens and deputy wardens, advisory board of managers of free employment offices, local boards of managers of free employment offices; general superintendent, assistant superintendent and clerks of free employment offices in cities of more than 1,000,000 inhabitants; chief inspector and assistant inspectors of private employment agencies; chief state factory inspector, assistant chief factory inspector, physician for chief factory inspector and deputy factory inspectors; state board of arbitration and conciliation and its secretary, industrial board and its secretary, state mining board and its chief clerk, state mine inspectors, miners' examining commissioners, mine fire fighting and rescue station commissions, superintendents and assistant superintendents of mine fire fighting and rescue stations, state highway department and commission, chief and assistant state highway engineer, canal commissioners, rivers and lakes commission, Illinois waterway commission.

Illinois park commission, Fort Massac and Lincoln homestead trustees, state boards of examiners of architects and structural engineers and their secretaries, state inspector and assistant inspectors of masonry, public buildings and works; board of administration, state deportation agent and assistant agent, state agent for visitation of children placed in family homes, commissioners, wardens, deputy wardens, chaplains, physicians of the state penitentiaries and state reformatory; board of prison industries, board of classification, board of pardons and its clerk and stenographer, state board of health and its secretary and executive officer, board of pharmacy and its secretary, state board of dental examiners and its secretary, state board of nurse examiners and its secretary, state board of optometry and its secretary, board of barber examiners and its secretary and treasurer, state food commissioner, assistant state food commissioner, state analyst, chief clerk, assistant clerk, stenographers, bacteriologist, analytical chemists and laboratory janitor of the state food commissioner, food standard commission, state public utilities commission and its secretary, chief inspector of grain, deputy grain inspectors, deputy chief inspector of grain of the East St. Louis district, warehouse registrar, assistant warehouse registrars, state weighmasters, registrar of grain inspection department, inspectors of automatic couplers, power brakes or hand holds on railroad locomotives, tenders, cars and similar vehicles; insurance superintendent, state fire marshal, first deputy and second deputy state fire marshal, chief deputy fire marshal, deputy and assistant fire marshals, board of education of Illinois, boards of trustees of normal university and normal schools.

Powers of Finance Department.

The department of finance shall have power—

1. To prescribe the installation of a uniform system of bookkeeping, accounting and reporting for the several departments.
2. To prescribe forms for accounts, financial reports and statements for the several departments.
3. To supervise the accounts of the departments.
4. To examine into accuracy and legality of the financial accounts and the use of public property by the several departments.
5. To keep such summary and controlling accounts as may be necessary to determine the accuracy of the detail accounts from the departments and to prescribe the method of certifying that funds are adequate to meet all obligations.
6. To prescribe uniform rules governing specifications for purchases of supplies, advertisements for proposals, opening of bids and making of awards, to keep a catalogue of prices current and to tabulate and analyze prices paid and quantities purchased.
7. To examine accounts of private institutions receiving appropriations from the general assembly.
8. To report to the attorney-general illegal expenditures or misappropriation of public money or property.
9. To examine and approve or disapprove vouchers, bills and claims of the departments.
10. To prescribe the form of receipt, voucher, bill or claim to be filed with it by the departments.
11. To inquire into and inspect articles and materials furnished or work and labor performed so as to ascertain that all requirements have been complied with.
12. To prepare and report to the governor, when requested, estimates of the income and revenues of the state.
13. To prepare biennially and submit to the governor a state budget not later than the first day of January preceding the convening of the general assembly.
14. To prepare bulletins of the work of the government.

15. To formulate plans for better co-ordination of departments.

The method of preparing the state budget is given in detail. The governor is required to submit the budget to the general assembly not later than four weeks after its organization, together with an estimate of receipts and expenditures.

Powers of Agricultural Department.

The department of agriculture shall have power to exercise the rights, powers and duties vested in—

1. Board of live stock commissioners.
 2. State veterinarian.
 3. Stallion registration board.
 4. State inspector of aparies.
 5. State game and fish commission.
 6. State food commissioner and food standard commission.
 7. State entomologist.
 8. To prevent fraud in manufacture and sale of commercial fertilizers.
 9. To encourage agriculture, horticulture, live stock industry, dairying, cheese making, poultry, bee keeping, forestry, fishing, wool industry and all allied industries.
 10. To promote improved methods of conducting these industries so as to increase production and facilitate distribution.
 11. To collect and distribute statistics relating to crop production and marketing and the marketing of agricultural products.
 12. To encourage tree and shrub planting and the improvement of farm homes.
 13. To manufacture and distribute to live stock producers at cost biological products.
 14. To seek means for the prevention and cure of diseases among domestic animals.
 15. To take measures for the preservation and restoration of fish, game birds and wild birds.
 16. To be custodian of fair grounds and buildings and to maintain them.
 17. To hold a state fair annually.
 18. To adopt rules for the holding of the state fair.
 19. To police and protect the state fair grounds.
 20. To assist farmers' institutes and societies and the holding of fairs, fat stock shows and similar exhibits.
 21. To see that money appropriated for county fairs and farmers' institutes is lawfully applied.
 22. To see that live stock at stockyards, breweries, distilleries and other places is properly cared for.
- #### *Powers of Labor Department.*
- The department of labor shall have power to exercise the rights, powers and duties vested in—
1. Commissioners of labor.
 2. Superintendents and advisory boards of free employment offices.
 3. Chief inspector and inspectors of private employment agencies.
 4. Chief factory inspector and deputy factory inspectors.
 5. State board of arbitration and conciliation.
 6. Industrial board.
 7. To promote the welfare of wage earners.
 8. To improve working conditions.
 9. To advance opportunities for profitable employment.
 10. To collect labor statistics.
 11. To collect and systematize statistical details of the manufacturing industries and commerce of the state.
 12. To acquire and diffuse useful information on subjects connected with labor.
 13. To acquire and diffuse useful information concerning means of promoting the material, social, intellectual and moral prosperity of laboring men and women.
 14. To acquire information and report upon the general condition, so far as production is concerned, of the leading industries of the state.
 15. To acquire and diffuse information as to the conditions of employment.

16. To acquire and diffuse information in relation to the prevention of accidents and occupational diseases.

The department of labor shall exercise the rights, powers and duties vested in the industrial board under the workmen's compensation act. That act shall be administered by the industrial commission created by this act without any control by the director of labor. The same commission shall administer the arbitration and conciliation act.

Powers of Mines and Minerals Department.

The department of mines and minerals shall have power to exercise the rights, powers and duties vested in—

1. State mining board.
2. State mine inspectors.
3. Miners' examining commission.
4. Mine fire fighting and rescue station commission, superintendents and assistant superintendents.
5. To acquire and diffuse information concerning the nature, causes and prevention of mine accidents.
6. To acquire and diffuse information concerning improved methods, conditions and equipment of mines with reference to health, safety and conservation of mineral resources.
7. To inquire into economic conditions affecting mining and related industries.
8. To promote technical efficiency of miners by providing traveling libraries, lectures and correspondence work.

Powers of Public Works and Buildings Department.

The department of public works and buildings shall have power to exercise the rights, powers and duties vested in—

1. State highway department, state highway commission and state highway engineer.
2. Canal commissions.
3. Rivers and lakes commission.
4. Illinois waterway commission.
5. Illinois park commission.
6. Fort Massac trustees.
7. Lincoln homestead trustees.
8. Commissioners of Lincoln monument.
9. Superintendent of printing.
10. To make contracts for and supervise telephone and telegraph service for the several departments.

11. To purchase and supply fuel, light, water and other office and building services for the departments, except where they are now supplied by the secretary of state.

12. To supply all general office equipment and supplies (other than stationery and office supplies issued by the secretary of state) needed by the several departments.

13. To procure and supply all clothing, instruments and apparatus, subsistence and provisions for the charitable, penal and reformatory institutions.

14. To procure and supply all cots, beds, bedding, general room and cell equipment, table, kitchen and laundry equipment, agricultural implements, harness, stable and garage supplies, household supplies, periodicals, machinery and tools, medicines and medical supplies, plumbing, light and engine supplies, wagons and other vehicles and workshop supplies needed by the several departments.

15. To purchase and supply necessary tools, machinery, supplies and materials to be used by the state in or about constructing or maintaining state highways.

16. To prepare general plans and estimates for public buildings.

17. To have general supervision over the erection of public buildings.

18. To make contracts for and supervise the construction and repair of buildings under control of any department.

19. To prepare and suggest comprehensive plans for the development of grounds and buildings under the control of any department.

20. To provide plans for all systems of sewerage, drainage and plumbing for state buildings and grounds.

21. To erect, supervise and maintain public monuments and memorials erected by the state, except where the supervision and maintenance thereof are otherwise provided by law.

22. To lease for not exceeding two years storage accommodations for the departments.

23. To lease for not more than two years unused lands under the control of any department, unless longer leases are expressly authorized by law.

24. To lease for not more than two years office space in buildings for the use of the departments.

25. To have general care and supervision of storerooms and offices leased for the use of the departments.

The advisory and nonexecutive boards in the department of public works shall have the following functions:

The board of art advisers shall advise relative to the artistic character of state buildings, works and monuments.

The board of water resource advisers shall advise relative to the riparian rights of the state and the conservation, use and development of water resources.

The board of highway advisers shall advise relative to the construction, improvement and maintenance of state highways.

The board of parks and buildings advisers shall advise relative to the construction, improvement and maintenance of state parks, buildings and monuments.

Powers of Public Welfare Department.

The department of public welfare shall have power to exercise the rights, powers and duties vested in—

1. Board of administration.
2. State deportation agents.
3. State agent for visitation of children.
4. Commissioners and warden of state penitentiary at Joliet.
5. Commissioners and warden of southern Illinois penitentiary.
6. Board of managers and superintendent of Illinois state reformatory.
7. Board of prison industries.
8. Board of classification.
9. Board of pardons.

In addition to the power vested by this act in advisory and nonexecutive boards, the board of public welfare commissioners shall have the power—

1. To investigate into the condition and management of the whole system of charitable, penal and reformatory institutions of the state.

2. To investigate, when directed by the governor, into any or all phases of the equipment, management or policy of any state charitable, penal or reformatory institution and report to the governor.

3. To inquire into the equipment, management and policies of all institutions and organizations coming under the supervision of the department of public welfare.

4. To collect and publish annually statistics relating to insanity and crime.

Powers of Public Health Department.

The department of public health shall have power—

1. To exercise the rights, powers and duties vested in the state board of health, except those under the act to regulate the practice of medicine and embalming.

2. To have general supervision of the health and lives of the people of the state.

3. To act in an advisory capacity relative to public water supplies, sewerage systems and sewage treatment works.

4. To make sanitary investigations.

5. To investigate nuisances affecting life and health in any locality in the state.

6. To maintain chemical, bacteriological and biological laboratories and make examinations of

milk, water, sewage, wastes and other substances and to make diagnoses of such diseases as may be necessary for the protection of the people.

7. To purchase and distribute free of charge to citizens of the state diphtheria antitoxin, typhoid vaccine, smallpox vaccine and other similar preparations of recognized efficiency in the prevention and treatment of communicable diseases.

8. To collect and preserve such information relative to mortality, morbidity, disease and health as may be useful in the discharge of its duties.

9. To make investigations with respect to causes of disease, especially epidemics, the causes of mortality and the effect of localities upon the public health.

10. To keep informed of the work of local health officers and agencies in the state.

11. To inform the general public in all public health matters.

12. To assist local health authorities in the administration of health laws.

13. To enlist the co-operation of organizations of physicians and other agencies for the promotion of public health.

14. To make sanitary, sewage, health and other inspections for the charitable, penal and reformatory institutions and normal schools.

15. To inspect hospitals, sanitarium and other institutions conducted by county, city, village or township authorities and to report thereon.

16. To print and distribute documents, reports, bulletins and other matter relating to the prevention of diseases and to the health of the state.

Powers of Trade and Commerce Department.

The department of trade and commerce shall have power to exercise the rights, powers and duties vested in—

1. State public utilities commission.
2. Insurance superintendent.
3. Chief grain inspector, warehouse registrar, state weighmasters.

4. Inspectors of automatic couplers, brakes, etc.

5. State fire marshal and inspectors.

6. To administer all laws relating to weights and measures.

7. To administer all laws relating to the safety and purity of illuminating oils and gasoline.

Powers of Registration and Education Department.

The department of registration and education shall have the power to exercise the rights, powers and duties vested in—

1. Board of education of the state of Illinois and boards of trustees of state normal schools.
2. State board of veterinary examiners.

3. Board of examiners of horsehoers.
4. State board of examiners of architects.

5. State board of examiners of structural engineers.

6. State board of health relating to practice of medicine.

7. State board of health relating to embalming.

8. State board of pharmacy.

9. State board of dental examiners.

10. State board of nurse examiners.

11. State board of optometry.

12. State board of barber examiners.

13. To study the natural resources of the state and to prepare plans for their conservation and development.

14. To co-operate with departments having administrative powers relating to the natural resources of the state and with similar departments in other states and with the federal government.

15. To conduct a natural history survey of the state.

16. To publish reports on the zoology and botany of the state.

17. To maintain a state museum and to col-

lect and preserve objects of scientific and artistic value.

18. To supply natural history specimens to state educational institutions and public schools.

19. To investigate the entomology of the state.

20. To investigate all insects injurious to crops, plants, live stock, trees, etc., and to public health.

21. To experiment with methods for the prevention, abatement and control of injurious insects.

22. To instruct the people in the best methods of preventing injury by insects.

23. To publish articles on the injurious and beneficial insects of the state.

24. To study the geological formation of the state with reference to its mineral and other products.

25. To publish maps to illustrate the resources of the state.

26. To publish bulletins on the geological and mineral resources of the state.

27. To co-operate with the United States geological survey on the preparation of a contour topographical survey and map.

28. To collect facts and data concerning the water resources of the state.

29. To determine standards of purity of drinking water for the various sections of the state.

30. To publish reports on the waters of the state so that they may become better known and more available.

31. To make analyses of samples of water from municipal and private sources.

32. To distribute to the various educational institutions of the state specimens, samples and materials collected by it after the same have served the purposes of the department.

The normal school board, of which the director of registration and education shall be chairman and ex officio member and of which the superintendent of public instruction shall be ex officio a member and shall be secretary, shall have power, independently of the officers of the department of registration and education, to make rules for the management of the state normal schools, to visit them, to regulate the courses of study and to employ officers, teaching staffs and assistants and to fix their salaries.

The department of registration and education shall, whenever the several laws regulating professions, trades and occupations which are devolved upon the department for administration so require, exercise in its name, but subject to the provisions of the act, the following powers:

1. Conduct examinations to ascertain the qualifications of applicants to exercise the profession, trade or occupation for which an examination is held, and pass upon the qualifications of applicants for reciprocal licenses, certificates and authorities.

2. Prescribe rules for a fair and wholly impartial method of examination of candidates to exercise the respective professions, trades and occupations.

3. Prescribe rules defining what shall constitute a school, college or university, or department of a university, or other institutions, and to determine their reputability and good standing by reference to a compliance with such rules.

4. Adopt rules establishing a uniform and reasonable standard of maintenance, instruction and training to be observed by all schools for nurses.

5. Establish a standard of preliminary education deemed requisite to admission to a school, college or university and to require satisfactory proof of the enforcement of such standard.

6. Conduct hearings on proceedings to revoke or refuse renewal of licenses, certificates or authorities of persons exercising the respective professions, trades or occupations, and to revoke or to refuse to renew such licenses, certificates or authorities.

7. Formulate rules when required in any act to be administered.

None of the above enumerated functions and duties shall be exercised by the department of

registration and education, except upon the action and report in writing of persons designated by the director of the department to take such action and to make such report for the respective professions, trades and occupations, as follows:

For the veterinary practitioners, three competent veterinary surgeons, not more than two of whom shall be from the same college and neither of whom shall be connected with any veterinary college.

For the horseshoers, three practical horseshoers and two journeymen horseshoers with at least three years' experience in this state.

For the architects, five persons, one of whom shall be member of the faculty of the University of Illinois and the other four of whom shall be architects living in the state and with ten years' experience.

For the structural engineers, five persons, of whom one shall be a professor in the civil engineering department of the University of Illinois and the others of whom shall be structural engineers of recognized standing, with not less than ten years' experience.

For medical practitioners, embalmers and midwives, five reputable physicians licensed to practice medicine and surgery in the state and not connected with any medical college or institution.

For the pharmacists, five registered pharmacists with ten years' practical experience in the dispensing of physicians' prescriptions since registration.

For the dentists, five licensed practitioners of dentistry or dental surgery, with five years' experience and not connected with or interested in any dental school.

For the registered nurses, five registered nurses who have been graduated at least five years

from a school for nurses and during the course of training have served two years in a general hospital and three of whom shall have had at least two years' experience in educational work among nurses.

For the optometrists, five practicing optometrists with at least five years' experience and not connected with any optical school or firm.

For the barbers, three practical barbers with five years' experience in the state.

Unless otherwise provided by law the duties formerly exercised by the state entomologist, state laboratory of natural history, state water survey and the state geological survey, vested by this act in the department of registration and education, shall continue to be exercised at the University of Illinois.

The board of natural resources and conservation, acting through five or more subcommittees, each of whom shall be composed of the director of registration and education, the president of the University of Illinois, or his representative, and the expert adviser specially qualified in each of the fields of investigation, shall—

1. Consider and decide all matters pertaining to natural history, geology, water and water resources, forestry and allied research, investigational and scientific work.

2. Select and appoint, without reference to the state civil service law, members of the scientific staff, prosecuting such research, investigational and scientific work.

3. Co-operate with the University of Illinois in the use of scientific staff and equipment.

4. Co-operate with the various departments in research, investigational and scientific work useful in the prosecution of the work in any department.

All acts and parts of acts in conflict with this act are repealed. (Approved March 7, 1917.)

ILLINOIS HARD ROADS PLAN.

The act passed by the state legislature and approved by Gov. Lowden June 22, 1917, provides that a statewide system of durable hard-surfaced roads be constructed by the state of Illinois, as soon as practicable, upon public highways of the state along described routes, as near as may be, and that the state (acting through its officers) is authorized and empowered to issue and sell, and provide for the retirement of, bonds of the state of Illinois to the amount of \$60,000,000 for the purpose of providing means for the payment of the cost of the construction of the system of roads: Provided, however, that before this law, which authorizes such debt to be contracted and levies the tax for the payment of the principal and interest of the bonds to be issued as an evidence of such debt, shall go into full force and effect it shall, at the general election in November, 1918, be submitted to the people and receive a majority of the votes cast for members of the general assembly at such election.

The issuance, sale and retirement of the bonds and the construction of the roads and all work incidental thereto shall be under the general supervision and control of the department of public works and buildings, subject to the approval of the governor of this state; and that department is authorized to take whatever steps may be necessary to cause the bonds to be issued and sold and to cause the roads to be constructed at the earliest possible time, consistent with good business management, after this act becomes fully operative. The department of public works and buildings shall have power to make and shall make all final decisions affecting the work, and all the rules and regulations it may deem necessary for the proper management and conduct of the work and for carrying out all of the provisions of this act in such manner as shall be to the best interest and advantage of the people of this state. The director of public works and buildings shall make it the special duty of the

superintendent of highways to see that such provisions are so carried out in good faith. The department of public works and buildings is given power to purchase and supply any labor, tools, machinery, supplies and materials needed for the work. All contracts let for the construction of the work shall be let to the lowest responsible bidder, or bidders, and all of the state bonds shall be sold to the highest and best bidder, or bidders, by the department of public works and buildings, on such terms and conditions, and on open competitive bidding after public advertisement in such manner and for such times as may be prescribed by the department, subject to the approval of the department of finance.

For the purpose of carrying out the provisions of this act the sum of \$60,000,000, to be derived from the sale of the bonds, is appropriated to the department of public works and buildings, such money to be payable out of the state bond road fund; for the purpose of raising the sum so appropriated to carry out the provisions of this act, the bonds of the state of Illinois to an amount not exceeding \$60,000,000 shall be issued and sold; the bonds shall bear interest, payable annually, from the date of their issue, at the rate of three and one-half per centum per annum, unless financial conditions make a different rate advisable, in which case the department of public works and buildings may, with the governor's approval, issue part or all of said bonds at any other rate of interest not exceeding four per centum per annum; that the bonds shall be serial bonds and be dated, issued and sold from time to time as the road building work progresses and in such amounts as may be necessary to provide sufficient money to pay for the work and the expenses incidental thereto; each one of the bonds shall be made payable within twenty years from the date of its issue. Each one of the bonds shall be in the denomination of \$500 or some multiple thereof. The bonds shall be deposited, until sold, with the state treas-

urer; and when sold, the proceeds of the bonds shall be paid into the state treasury and be kept in a separate fund which shall be known as the state bond fund.

Each year, after this act becomes fully operative and until all of the bonds shall have been retired, there shall be included in and added to the tax levied for state purposes a direct annual tax for such amount as shall be necessary and sufficient to pay the interest annually, as it shall accrue, on each and every bond issued under the provisions of this act, and also to pay and discharge the principal of such bonds at par value, as such bonds respectively fall due; and the respective amounts of such direct annual tax are appropriated for that specific purpose: Provided, however, that moneys in the "road fund" created under the provisions of the motor vehicle law of this state, approved June 10, 1911, and all acts amendatory thereof, shall first be appropriated and used for the purpose of paying and discharging annually the principal and interest on such bonded indebtedness then due and payable. The required rate of such direct annual tax shall be fixed each year by the officers charged by law with fixing the rate for state tax on the valuation of real and personal property in this state subject to taxation, in accordance with the provisions of the statutes in such cases: Provided, however, that if money from other sources of revenue has been appropriated and set apart for the same purpose for which the direct annual tax is levied and imposed, then the officers shall, in fixing the rate of the direct annual tax, make proper allowance and reduction for any such money so appropriated and set apart from other sources of revenue. The direct annual tax shall be levied and imposed and such direct annual tax shall be assessed, levied and collected in the manner prescribed by law in the case of general state taxes, and shall be paid into the treasury of the state by the officers legally entrusted with the duty of collecting and accounting for such general state taxes: Provided, however, that no such direct annual tax shall be levied for any year in which a sufficient amount of money from other sources of revenue has been appropriated and set apart to pay the interest, as it shall accrue, on the bonds for that year and also to pay and discharge the principal of any of the bonds falling due during such year.

The proposed statewide system of roads shall be constructed in strict accordance with the plans, specifications, estimates of cost and contracts of the department of public works and buildings. The department shall construct upon and along said roads durable hard-surfaced roadways which will remain in good condition, with low reasonable maintenance cost, until after all of the state bonds have matured. The hard-surfaced parts of the roads shall be constructed of sufficient widths to meet the requirements of the reasonably expected traffic thereon, such widths, except in extreme cases, to be not less than ten feet nor more than eighteen feet. Provided, where the contour of the surface permits and is practicable that in making fills, excavations and gradings for and in construction of such hard-surfaced roads, the surface of the earth alongside shall be so left that vehicles may drive over same and such surface shall be of such grade that vehicles can turn on or off such hard-surfaced roads with safety and convenience. The old bridges which form parts of the present roads shall, wherever such bridges are in proper condition, be used in the proposed system.

The department of public works and buildings shall divide the roads into convenient sections for construction purposes, and shall make all reasonable efforts to have the entire statewide system of roads completed within five years after the first construction contracts therefor are awarded. The construction work shall, so far as practically possible, be commenced in the different sections of the state at approximately

the same time and be carried on continuously until all work is completed.

The general location of the routes upon and along which the proposed roads are to be constructed shall be substantially as hereafter described, so as to connect with each other the different communities and the principal cities of the state: Provided, however, that the department shall have the right to make such minor changes in the location of the routes as may become necessary in order to carry out the provisions of this act; and provided, also, that the department shall not improve any road or part thereof which lies within any incorporated city, town or village in which the building of state aid roads may be prohibited by the act of this state entitled, "An act to revise the law in relation to roads and bridges," approved June 27, 1913, and the amendments thereto. Following are the proposed routes:

Route No. 1.—Beginning in a public highway at the southern limits of the city of Chicago and running along such highway in a general southerly direction to Metropolis, affording Chicago, Chicago Heights, Waukegan, Danville, Paris, Marshall, Robinson, Lawrenceville, Mount Carmel, Alton, Grayville, Carmi, Harrisburg, Vienna, Metropolis and the intervening communities reasonable connections with each other.

Route No. 2.—Beginning in a public highway near Beloit, Wis., and running along such highway in a general southerly direction to Cairo, affording Rockford, Oregon, Dixon, Mendota, Peru, LaSalle, El Paso, Bloomington, Clinton, Decatur, Pana, Vandalia, Centralia, Duquoin, Carbondale, Anna, Cairo and the intervening communities reasonable connections with each other.

Route No. 3.—Beginning in a public highway at Morrison and running along such highway in a general southerly direction to Chester, affording Morrison, Prophetstown, Moline, Rock Island, Aledo, Monmouth, Macomb, Rushville, Beardstown, Virginia, Ashland, Alexander (running over Route No. 10 between Alexander and Jacksonville), Jacksonville, White Hall, Carrollton, Jerseyville, Alton, East St. Louis, Waterloo, Chester and the intervening communities reasonable connections with each other.

Route No. 4.—Beginning at the intersection of 48th and Ogden avenues in the town of Cicero, Cook county, and running in a general southwesterly direction to East St. Louis, affording Chicago, Cicero, Berwyn, Riverside, Lyons, Joliet, Dwight, Pontiac, Bloomington, Lincoln, Elkhart, Williamsville, Springfield, Carlinville, Edwardsville, Granite City, East St. Louis and the intervening communities reasonable connections with each other.

Route No. 5.—Beginning in a public highway at the northwesterly limits of the city of Chicago and running along such highway in a general northwesterly direction to East Dubuque, affording Chicago, Elgin, Marcngo, Rockford, Freeport, Galena, East Dubuque and the intervening communities reasonable connections with each other.

Route No. 6.—Beginning in a public highway at the westerly limits of the city of Chicago and running along such highway in a general westerly direction to Fulton, affording Chicago, Wheaton, Geneva, Elburn, De Kalb, Rochelle, Dixon, Sterling, Morrison, Fulton and the intervening communities reasonable connections with each other.

Route No. 7.—Beginning in a public highway at Joliet and running along such highway in a westerly direction to East Moline, affording Joliet, Morris, Ottawa, LaSalle, Peru, DePue, Princeton, Geneseo, East Moline and the intervening communities reasonable connections with each other.

Route No. 8.—Beginning in a public highway at the Indiana state line east of Sheldon and running along such highway in a general westerly direction to the Mississippi river opposite Burlington, Iowa, affording Waukegan, Chenoa, El Paso, Eureka, Peoria, Farmington, Elmwood, Yates City, Galesburg, Monmouth and the inter-

vening communities reasonable connections with each other.

Route No. 9—Beginning in a public highway at the Indiana state line east of Hoopeston and running along such highway in a general westerly direction to Route No. 24, on the east side of the Illinois river between Pekin and East Peoria, thence over Route No. 24 to Peoria, and thence in a westerly direction to Hamilton, affording Hoopeston, Paxton, Bloomington, Carlock, Goodfield, Deer Creek, Morton, Peoria, Canton, Prairie City, Bushnell, Macomb, Carthage, Hamilton and the intervening communities reasonable connections with each other.

Route No. 10—Beginning in a public highway at the Indiana state line east of Danville and running along such highway in a general westerly direction to Jacksonville, affording Danville, Urbana, Champaign, Monticello, Bement, Decatur, Springfield, Jacksonville and the intervening communities reasonable connections with each other.

Route No. 11—Beginning in a public highway at the Indiana state line east of Marshall and running along such highway in a general southwesterly direction to East St. Louis, affording Marshall, Greenup, Effingham, Vandalia, Greenville, Baden Baden, Highland, East St. Louis and the intervening communities reasonable connections with each other.

Route No. 12—Beginning in a public highway at the Indiana state line east of Lawrenceville and running along such highway in a general westerly direction to East St. Louis, affording Lawrenceville, Olney, Flora, Salem, Carlyle, Lebanon, East St. Louis and the intervening communities reasonable connections with each other.

Route No. 13—Beginning in a public highway at Shawneetown and running along such highway in a general westerly direction to Murphysboro, thence in a northwesterly direction to East St. Louis, affording Shawneetown, Harrisburg, Marion, Carbondale, Murphysboro, Pinckneyville, Sparta, Belleville, East St. Louis and the intervening communities reasonable connections with each other.

Route No. 14—Beginning in a public highway at Carmi and running along such highway in a general westerly direction to Duquoin, affording Carmi, McLeansboro, Benton, Christopher, Duquoin and the intervening communities reasonable connections with each other.

Route No. 15—Beginning in a public highway at Albion and running along such highway in a general westerly direction to Belleville, affording Albion, Fairfield, Mount Vernon, Ashley, Nashville, Okawville, Belleville and the intervening communities reasonable connections with each other.

Route No. 16—Beginning in a public highway at Paris and running along such highway in a general southwesterly direction to Route 4 at or near Staunton, affording Paris, Charleston, Mattoon, Shelbyville, Pana, Hillsboro, Litchfield, Mount Olive, Staunton and the intervening communities reasonable connections with each other.

Route No. 17—Beginning in a public highway at the Indiana state line east of Grant Park and running along such highway in a general westerly direction to Lacon, affording Grant Park, Momence, Kankakee, Dwight, Streator, Eagle Church Corners, Garfield, Wenona, Custer, Varma and Lacon and intervening communities reasonable connections with each other.

Route No. 18—Beginning in a public highway at the western limits of the city of Chicago and running along such highway in a southwesterly direction to Princeton, affording Chicago, Aurora, Oswego, Yorkville, Plano, Sandwich, Earlville, Meadota, Princeton and the intervening communities reasonable connections with each other.

Route No. 19—Beginning in a public highway at the westerly limits of the city of Chicago and running along such highway in a general northwesterly direction to Harvard, affording Chicago, Barrington, Woodstock, Harvard and the intervening communities reasonable connections with each other.

Route No. 20—Beginning in a public highway

at the west limits of the city of Waukegan at the end of Belvidere street and running along such highway in a general westerly direction to Woodstock, affording Waukegan, Grays Lake, McHenry and Woodstock and intervening communities reasonable connections with each other.

Route No. 21—Beginning in a public highway at the northerly limits of the city of Chicago and running along such highway in a general northwesterly direction to the Wisconsin state line, affording Chicago, Libertyville, Antioch and the intervening communities reasonable connections with each other.

Route No. 22—Beginning in a public highway at the Indiana state line east of Chicago Heights and running along such highway to Lake Forest, affording Chicago Heights, Joliet, Aurora, Geneva, Elgin, Dundee, Carpenterville, Barrington, Lake Forest and the intervening communities reasonable connections with each other.

Route No. 23—Beginning in a public highway at the Wisconsin state line north of Harvard and running along such highway in a general southerly and southwesterly direction to Streator, affording Harvard, Marengo, Sycamore, DeKalb, Ottawa, Streator and the intervening communities reasonable connections with each other.

Route No. 24—Beginning in a public highway at Peoria and running along such highway in a general southerly and southeasterly direction to Pana, affording Peoria, Pekin, Green Valley, Mason City, Greenview, Athens, Springfield, Pana and the intervening communities reasonable connections with each other.

Route No. 25—Beginning in a public highway at Kankakee and running along such highway in a general southerly direction to Fairfield, affording Kankakee, Gilman, Paxton, Champaign, Tuscola, Mattoon, Effingham, Toltiver, Louisville, Flora, Fairfield and the intervening communities reasonable connections with each other.

Route No. 26—Beginning in a public highway at Freeport and running along such highway in a general southerly direction to Dixon, affording Freeport, Polo, Dixon and the intervening communities reasonable connections with each other.

Route No. 27—Beginning in a public highway at Polo and running along such highway in a general westerly direction to Savanna, affording Polo, Mount Carroll, Savanna and the intervening communities reasonable connections with each other.

Route No. 28—Beginning in a public highway at Galesburg and running along such highway in a general northeasterly direction to Sheffield, affording Galesburg, Kewanee, Sheffield and the intervening communities reasonable connections with each other.

Route No. 29—Beginning in a public highway at Peoria and running in a northerly direction to DePue, affording Peoria, Hillcothe, Henry, DePue and the intervening communities reasonable connections with each other.

Route No. 30—Beginning in a public highway at Peoria and running in a northwesterly direction to Galva, affording Peoria, Princeville, Wyoming, Galva and the intervening communities reasonable connections with each other.

Route No. 31—Beginning in a public highway at Canton and running in a southwesterly direction to Quincy, affording Canton, Lewis-town, Rushville, Mount Sterling, Quincy and the intervening communities reasonable connections with each other.

Route No. 32—Beginning in a public highway at Windsor and running in a northerly direction to Cerro Gordo, affording Windsor, Sullivan, Lovington, Ulrich, Station, Lake City, Cerro Gordo and the intervening communities reasonable connections with each other.

Route No. 33—Beginning in a public highway at Effingham and running to Robinson, affording Effingham, Newton, Robinson and the intervening communities reasonable connections with each other.

Route No. 34—Beginning in a public highway

at Harrisburg and running through Herod and thence along the most practical route to the road leading from Elizabethtown to Golconda, with branches into Elizabethtown and Golconda, giving Elizabethtown and Golconda connection with each other and each of said towns connection with Harrisburg.

Route No. 35—Beginning in a public highway at Route No. 2 north of Cairo and extending in an easterly direction to Mound City, affording Mounds, Mound City and the intervening communities reasonable connections with each other.

Route No. 36—Beginning in a public highway at Carthage and running in a southerly and easterly direction to Jacksonville, affording Carthage, Bowen, Ursa, Quincy, Payson, Barry, Pittsfield, Winchester, Jacksonville and the intervening communities reasonable connections with each other.

Route No. 37—Beginning in a public highway at Mount Vernon and extending in a southerly direction to Marion, affording Mount Vernon, Benton, Marion and the intervening communities reasonable connections with each other.

Route No. 38—Beginning in a public highway at Jerseyville and running along such highway in a westerly direction to a public highway on the east side of the Illinois river opposite the city of Hardin and then beginning at Hardin and running in a northerly direction to Kampsville, affording Jerseyville, Hardin, Kampsville and the intervening communities reasonable connections with each other.

Route No. 39—Beginning in a public highway at Champaign and running in a northwesterly direction to Bloomington, affording Champaign, Mahomet, Mansfield, Farmer City, Leroy, Bloomington and the intervening communities reasonable connections with each other.

Route No. 40—Beginning in a public highway on the north line of the city of Sterling and running in a northwesterly direction to Milledgeville, thence to Chadwick, thence north to connect with Route No. 27, and beginning at a highway on the north line of the city of Mount Carroll and running north to Stockton.

Route No. 41—Beginning in a public highway at Galesburg, and connecting with Route No. 8 therein, and running thence in a southerly direction to Abingdon, thence in a southerly direction to Avon, thence in a southerly direction, connecting with Route No. 9 at or near Prairie City, affording Galesburg, Abingdon, Avon, Prairie City and the intervening communities reasonable connections with each other.

Route No. 42—Beginning in a public highway at the northern limits of the city of Chicago and running along Sheridan road in a general northerly direction to the Wisconsin state line, affording Chicago, Waukegan, Zion City and the intervening communities reasonable connections with each other.

Route No. 43—Beginning in a public highway at Havana and running in an easterly direction to Route No. 24 at Mason City, affording Havana, Mason City and the intervening communities reasonable connections with each other.

Route No. 43a—Beginning in a public highway at Petersburg and running easterly to and connecting with Route No. 24.

Route No. 44—Beginning in a public highway at Joliet and running to Kankakee via Manhattan and Wilton Center so as to afford the intervening communities reasonable connections with each other.

Route No. 45—Beginning in a public highway in Route No. 17 at a point at Garfield and running due south to Dana.

Route No. 46—Beginning in a public highway at the eastern limits of Arlington Heights, thence running in a southeasterly direction to Oak Lawn, affording Arlington Heights, Mount Prospect, Des Plaines, Franklin Park, River Grove, Maywood, Broadview, LaGrange Park, LaGrange, Lyons, Summit, Oak Lawn and the intervening communities reasonable connections with each other.

If any available money from any source re-

mains in the state bond fund after the above described roads are completed and paid for, the department of public works and buildings shall use such money to construct other similar roads so as to extend said system in such a way as to be of the greatest benefit to the people of the state.

Wherever one of the above described roads runs through or into a county over a paved road that has been constructed by such county and the state, jointly, or by such county alone and accepted by the state, then the department shall, if such paved road is of proper durable hard-surfaced type to make it practicable to do so, utilize such paved road in the state-wide system of roads. The actual cost of the paved road shall be determined, and an amount of money equivalent to the share of such cost that was paid by such county shall be set apart and allotted by the department to such county to be used, at the option of such county, either in the payment of any county bonds issued by such county and used to improve its state aid roads, or in the improvement of any one or more of its improved or unimproved state aid roads, by constructing thereon a durable hard-surfaced road, under the direction and to the satisfaction of the department of public works and buildings.

This act shall be submitted to the people of this state at the general election to be held on Tuesday next after the first Monday of November, 1918; the act shall be so submitted on a separate ballot, which shall be in substantially the following form:

Shall an act of the general assembly of Illinois, entitled "An act in relation to the construction by the state of Illinois of a state-wide system of durable hard-surfaced roads upon public highways of the state and the provision of means for the payment of the cost thereof by an issue of bonds of the state of Illinois," which, in substance, provides for construction by the state, acting through its department of public works and buildings, subject to the governor's approval, of a state-wide system of hard roads or routes described; for control and maintenance, and for conditional compensation for roads already paved; gives such department full power to execute act; authorizes state to contract a debt, for such purpose and to issue \$60,000,000 of serial bonds, bearing interest annually at not to exceed 4%; appropriates said sum to said department; levies a tax sufficient to pay said interest annually, as it shall accrue, and to pay off said bonds within twenty years from issuance, but provides that such payments may be made from other sources of revenue and requires moneys in the motor vehicle law "road fund" to be first used for such payments and such direct tax to be omitted in any year in which sufficient money from other sources of revenue has been appropriated to meet such payments for such year; provides for publication and for submission to the people; makes the provisions for payment of such interest and bonds irrevocable; and pledges the faith of the state to the making of such payments; go into full force and effect? The secretary of state is authorized and directed to cause publication of this act to be made once each week, for three months at least before the vote of the people shall be taken upon such act; and such publication shall be made in at least two daily newspapers, one of which shall be published in the city of Springfield and one in the city of Chicago. [The act was submitted at the election of Nov. 5, 1918, and was approved by the voters of the state. It is therefore a law.]

The provisions in this act for the payment of the principal of the bonds at maturity and of the interest thereon annually, as it shall accrue, by a direct annual tax which has been levied for the purpose, or from other sources of revenue appropriated for that purpose, shall be irrevocable until such debt and interest be paid in full, and for the making of such payment the faith of the state of Illinois is hereby pledged.

AMERICAN RED CROSS—CHICAGO CHAPTER.

Statistical resume of chapter activities from the beginning of war to Oct. 31, 1918. By John W. Champion, executive secretary.

Production.

Knitted garments.....	531,669
Surgical dressings.....	9,065,912
Comfort kits: Army.....	19,053
Navy.....	47,614
Christmas packages (this does not include 15,000 shipped in November, 1918).....	40,852
Hospital supplies and garments..	359,193
Refugee supplies.....	322,032
Supplies for Italian relief: Items	54,615

Resume of Production.

Total number of items.....	10,440,940
Cost of materials.....	\$1,266,401.16
Estimated value.....	\$3,977,250.00

Used Clothing for Belgium Relief.

Number of items (estimated)...	456,932
Estimated value.....	\$335,000.00
Grand total of items shipped.....	10,897,872
Total number of carloads.....	126
Men canteened.....	500,000

Civilian Relief.

Number of families taken care of	12,886
Money expended for these families: Financial aid.....	\$442,925.50
Cost of service given.....	\$100,025.56

Medical Service.

Value of service rendered (less than 1% paid).....	\$165,700.00
Number physicians volunteering.	1,760
Number of dentists volunteering.	1,248
Number of ambulance men volunteering.....	22
Doctors (calls).....	41,257
Cases hospitalized.....	1,396

Legal Aid Committee of Chicago Bar Association.

Number of cases handled.....	10,000
------------------------------	--------

Speakers' Bureau.

Speaking assignments.....	699
---------------------------	-----

Branches and Auxiliaries.

Number of active auxiliaries, Oct. 31, 1918.....	570
Number of active branches, Oct. 31, 1918.....	30
Auxiliary and branch workers...	65,500

Bureau of Investigation.

Total number of cases investigated.....	537
---	-----

Military Relief.

Number of cases handled.....	1,980
------------------------------	-------

Department of Instruction.

Total number of classes conducted.....	687
Total number of students instructed.....	14,017

Nursing Service.

Total number of nurses enrolled	1,667
Number of nurses serving in American camps.....	657
Number of nurses serving overseas.....	459

Salvage and Conservation Bureau.

Gross returns from salvage (impossible to estimate amount of material saved by Chicago people as a result of conservation campaign promoted throughout the chapter jurisdiction).....	\$15,083.52
---	-------------

Motor Corps.

Present enrollment, Oct. 31, 1918	156
Total number of calls.....	10,344
Mileage.....	56,900

Department of Relations to Exemption Boards.

Total number of letters distributed.....	13,000
--	--------

Memberships.

Total number of memberships secured by Chicago chapter to June 15, 1918 (since June 15 no effort has been made to secure renewal of annual members).....	544,823
--	---------

War Fund.

Total amount secured or pledged to second war fund.....	\$6,700,000.00
---	----------------

Base Hospital and Ambulance Companies.

Number of base hospitals organized and equipped.....	4
Personnel recruited by the chapter for these hospitals.....	1,346
Number of hospital beds (about)	6,000
Ambulance companies organized	2
Men recruited and trained for same.....	360
Total number of ambulances supplied by or through the Chicago chapter.....	65
Kitchen trailers.....	15

Chapter Bulletin.

Circulation of Chapter Bulletin	10,000
Total disbursements of Chicago chapter for all purposes.....	\$2,549,690.62

Junior Red Cross.

Membership enrollment.....	350,000
----------------------------	---------

LAW AND ORDER LEAGUES AND PROTECTIVE ASSOCIATIONS:

Anti-Cruelty Society and Refuge—President, L. E. Meyers; secretary, H. L. Roberts, 155 West Grand avenue.

Anti-Saloon League of Illinois—1200, 189 West Madison street (Security building); superintendent, F. Scott McBride.

Chicago Law and Order League—President, Arthur Burrage Farwell; secretary, Rev. Herbert B. Gwyn, 1305, 19 South LaSalle street.

Chicago Penny Savings Society—538, 608 South Dearborn street; president, William C. Hollister; secretary, Orris J. Milliken.

Citizens' Association—1417, 11 South LaSalle street; president, Moses E. Greenebaum; secretary, S. M. Singleton.

Citizens' League of Chicago for the Suppression of the Sale of Liquor to Minors and Drunkards—428, 155 North Clark street; president, Richmond Dean; secretary, William C. Hollister; superintendent, Henry King Grose.

Englewood Law and Order League—6504 Harvard avenue; attorney, John H. Lyle.

Garfield Park Protective Association—President, E. Worthing; secretary, William Waters, 4147 West Congress street.

Hyde Park Protective Association—Secretary, Arthur Burrage Farwell, 1305, 19 South LaSalle street.

Illinois Humane Society—1145 South Wabash avenue; president, John L. Shortall; secretary, George A. H. Scott.

CHICAGO STREET GRADES.

The grade of the streets in the central portion of Chicago has been raised three times. In 1855 it was raised from 2½ to 3 feet above the then existing surface, and it was again raised

by about the same amount in 1857 and 1872, making the present level fourteen feet above "city datum," which is the low-water mark of the lake in 1847.

RATES OF FARE FOR TAXICABS.

Fixed by Chicago city ordinances. Sight-seeing cars and autobuses having a capacity of eight persons or more not included.

I. Rates by Distance.

For first half-mile (or fraction thereof)	for one person.....	40 cents
For each succeeding quarter-mile (or fraction thereof).....		10 cents
For each additional person for the whole journey.....		25 cents
For each four minutes of waiting (or fraction thereof).....		10 cents

Waiting time shall include (a) the time during which the taxicab is not in motion, beginning ten minutes after call time at the place to which it has been called; (b) the time consumed by unavoidable delay at street crossings or bridges, and (c) the time consumed while standing at the direction of the passenger.

No charge shall be made (a) for time lost for inefficiency of the taxicab or its operator, or (b) for time consumed by the premature arrival in response to a call.

II. Hour Rates.

For trip of two miles or more.

Car seating two persons, \$2.50; minimum charge for trip, \$1.

Seating three to five persons, \$3.50; minimum charge for trip, \$1.50.

Seating more than five persons, \$4.50; minimum charge for trip, \$2.

Where the trip is for two miles or more and the passenger at the time of hiring any such vehicle expressly elects, as such passenger may

do, to pay therefor by the hour, the operator in charge of such vehicle shall supply the passenger with a card upon which shall appear the name of the owner, the name and license number of the operator and the exact time of the hiring, and the charge for such service, in the absence of such express agreement, shall not exceed the rates prescribed above as the "hour rate."

The rate of fare to be asked or demanded for such vehicles shall be determined in accordance with the time in which the vehicle is in use by the passenger or passengers engaging the service.

In determining the seating capacity of any such vehicle neither the operator's seat nor any portion thereof shall be computed, but the said capacity shall be determined by the number of persons which can be accommodated in the interior or tonneau of such vehicle.

No charge shall be made for the time consumed in responding to a call or in returning to the place from which such vehicle is called.

Baggage—Every passenger upon any public automobile, autocar or other similar vehicle shall be allowed to have conveyed with him upon such vehicle, without extra charge therefor, his ordinary light traveling baggage in an amount not to exceed fifty pounds. A fee of 20 cents may be charged for conveying a trunk.

Lost Baggage—Whenever any package, article of baggage or goods of any kind shall be left in or upon any vehicle licensed under the provisions of this article, the operator of such vehicle shall, upon discovery of such package, baggage or goods, forthwith deliver the same to the vehicle bureau, department of police, in the city hall.

ILLINOIS CENTENNIAL CELEBRATIONS.

In spite of the great war in Europe, which absorbed the greater part of the energy of the citizens of Illinois in 1918, the program arranged by the centennial commission was carried through with remarkable success. In many of the counties local organizations were formed which arranged celebrations at various times and places with appropriate exercises. At the state capital, on April 17 and 18, there was a meeting of the Illinois Historical society in observance of the centennial of the adoption of the enabling act; on Aug. 9-26 the state fair and centennial exposition; Oct. 1-6, state centennial pageant with unveiling of statues of Lincoln and Douglas, and on Dec. 3 the final observance under the auspices of the centennial commission and State Historical society.

The official centennial celebration held in Springfield Oct. 1 to 6 was one of the most impressive of the year. Aside from a historical pageant, in which more than 1,000 persons appeared, the features were the laying of the corner stone of the memorial building and the dedication of statues of Stephen A. Douglas and Abraham Lincoln on Saturday, Oct. 5.

The corner stone was laid at 10:30 in the forenoon, the Douglas statue dedicated at 11 a. m., and the Lincoln statue at 2:30 p. m. The principal address at the Douglas ceremony was made by Josephus Daniels, secretary of the navy, while at the dedication of the Lincoln statue Lord Charnwood of England was the orator. Both the speakers were introduced by Gov. Frank O. Lowden.

The Lincoln statue, which is the work of Andrew O'Connor, an eminent eastern sculptor, looks down Capitol avenue from the east entrance to the statehouse. It stands on a large base approached by granite steps, and as a background there is a huge granite slab, on the back of which is carved Lincoln's farewell address to Springfield as he departed for Washington.

The Douglas statue, made by the Chicago sculptor, Gilbert P. Riswold, stands on a smaller base at the left of the Lincoln statue and just in front of the space formerly occupied by the Menard group. This group has been moved to the southeast corner of the capitol grounds and to the right of the Lincoln statue, thus balancing the arrangement.

The celebration of the adoption of the first constitution of Illinois, held at Springfield on Aug. 26, was also notable. Former President Theodore Roosevelt was the principal speaker. Gov. Frank O. Lowden, Dr. Otto L. Schmidt, Bishop Samuel Fallows and others took part in the exercises, which were held in the state fair grounds. There also, in the coliseum, was presented "The Masque of Illinois," by Wallace Rice of Chicago. Miss Florence Lowden, daughter of the governor, acted the part of "Illinois."

CHICAGO CELEBRATION.

Chicago held its centennial celebration Oct. 8 to 13. A pageant written by Arthur Herzog was given at the Auditorium on the evenings of Oct. 9, 10 and 11, and on the afternoon of Oct. 12. It was produced under the direction of Mr. Herzog, pageant master, and Mrs. Lillian Fitch and Bertha L. Iles, assistants. One scene was produced by the Drama league under the direction of Mrs. A. Starr Best. The musical directors of the pageant were Daniel Protheroe and William

Well. The dances were arranged and directed by Marie Yung.

August M. Eigen was stage director, with Thomas Phillips assistant. The pageant opened with the Indian period and then followed the history of the territory and state, on down to the present, showing the arrival of Marquette and Joliet, the settlement of Kaskaskia, the Fort Dearborn massacre, the admission of the state into the union, the reception of Lafayette, the development of the state prior to the civil war, the civil war, the Chicago fire, the world's fair, and finally the call to arms in the war against Germany and Austria. A striking feature was the roll call of nations, each dressed in a costume of the nation represented, and showing the national flag.

The Illinois Centennial monument was dedicated in Logan square at 3 o'clock Sunday afternoon, with appropriate exercises. W. Tudor ApMadoc presided. The dedication was under the auspices of the Illinois Centennial committee of Chicago. The Rev. John Timothy Stone, D. D., delivered the invocation and Gov. Frank O. Lowden delivered the address. The presentation of the monument was by Charles L. Hutchinson, president of the Art Institute of Chicago, and the acceptance by Jens C. Hansen,

NY Herald Service.

CENTENNIAL MONUMENT, CHICAGO.

member of the West Chicago park commission. The monument was erected with money provided by the Benjamin Franklin Ferguson fund, a bequest providing an income which is to be expended by the trustees of the Art Institute of Chicago in the erection and maintenance of enduring statuary and monuments in Chicago in commemoration of worthy men or women, or important events of American history.

Among other notable centennial celebrations in the course of the year were those at Chester and Fort Gage (Kaskaskia), Starved Rock, Jacksonville, St. Charles, Rockford, Anna, Hoopeston and Carthage on July 4; New Salem, Aug. 16; Vandalia, the second capital of Illinois, Sept. 24-26; Belleville, Sept. 11-13; Alton, Sept. 18; Alton, Sept. 25-27.

The centennial half dollar, coined under an act of congress, was distributed on a pro rata basis by Hugh S. Magill, Jr., director of the centennial celebration, and sold at the uniform price of \$1. The coinage was limited to 100,000 pieces, and the money made was used for the payment of celebration expenses.

The "Centennial Bulletin," published in Springfield, gave full reports of the various events, as well as advance information as to the program of celebrations. From this publication, which will be of value to future historians of Illinois, most of the foregoing facts were taken.

ILLINOIS CENTENNIAL COMMISSION.

The Illinois Centennial commission, under the direction or auspices of which the celebrations

were held, was, in November, 1918, as follows: Chairman—Dr. Otto L. Schmidt, 38 South Dearborn street, Chicago.

Secretary—Mrs. Jessie Palmer Weber, state capitol, Springfield.

Dr. Edward Bowe, Jacksonville; Hon. John J. Brown, Vandalia; Hon. John W. Bunn, Springfield; Hon. William Butterworth, Moline; Hon. Leon A. Colp, Marion; Rev. R. W. Ennis, Mason City; Prof. E. B. Greene, 315 Lincoln hall, Urbana; President Edmund J. James, University of Illinois, Urbana; Hon. George Pasfield, Jr., Springfield; Hon. William N. Pelouze, 12 West Delaware place, Chicago; Hon. A. J. Poorman, Jr., Fairfield; Judge Thomas F. Scully, county building, Chicago; Rev. Frederic Siedenburgh, S. J., 617 Ashland block, Chicago.

Director of the Centennial Celebration—Hugh S. Magill, Jr., state capitol, Springfield.

Assistant Director Centennial Celebration—Horace H. Bancroft, state capitol, Springfield.

Pageant Writer and Lecturer—Wallace Rice, 2701 Best avenue, Chicago.

Manager of Publicity—Halbert O. Crews, state capitol, Springfield.

Editor Centennial Memorial History—Prof. Clarence Walworth Alvord, University of Illinois.

Pageant Master—Frederick Bruegger, 5420 Cornell avenue, Chicago.

SOCIAL SETTLEMENTS IN CHICAGO.

Abraham Lincoln—Oakwood boulevard and Langley avenue; secretary, James P. Hall, Association House—2150 West North avenue; Miss Winifred Salisbury.

Bohemian Settlement House—1831 South Racine avenue; Miss Gertrude Ray.

Chicago Commons—109 North Morgan street and Grand avenue; Graham Taylor.

Chicago Hebrew Institute—West Taylor and Lytle streets; superintendent, Philip L. Seman.

Christopher House—2507 Greenwood avenue; Miss Ora E. Edmonds.

Ell Bates House—621 West Elm street; Mrs. C. Franklin Leavitt.

Emerson—1746 Emerson avenue; Mrs. Rhoda A. Leach.

Fellowship House—831 West 33d place; Mrs. Elliott W. Davis.

Forward Movement—109 North Dearborn street; Glenwood Preble, executive secretary.

Frederick Douglass—3032 Wabash avenue; Mrs. Celia Parker Woolley.

Gads Hill Center—1919 West 20th street; Miss Ruth Austin.

Halsted Street Institutional Church Settlement—1955 South Halsted street; Rev. R. Stephenson.

Henry Booth House—701 West 14th place; Mrs. M. R. Kultechar.

Hull House—800 South Halsted street; Miss Jane Addams.

Institutional Church—3225 Dearborn street; Rev. M. J. Carey.

Little Wanderer Day Nursery and Settlement House—2118 West Chicago avenue; Mrs. Mary A. Cook.

Marcy Center—1335 Newberry avenue; Miss Anna Heistad, R. N.

Maxwell Settlement—1214 South Clinton street, Miss Ernestine Heller.

National Park Seminary and Settlement—239 West 24th street; Mrs. E. Martin.

Neighborhood House—6710 South May street; Mrs. H. M. Van Der Vaart and S. Grace Nicholes.

Northwestern University—Augusta and Noble streets; Miss Harriet E. Vittum.

Olivet Institute—1500 Hudson avenue; Rev. Norman E. Barr.

St. Mary's Settlement and Day Nursery—656 West 44th street; Mrs. May Moore.

Samaritan House—2601 West Superior street; Margaret Lindesmith.

Sinal Social Center—4622 Grand boulevard; S. D. Schwartz.

South Dearborn Neighborhood Center—10441 Hoxie avenue; Ernest J. Morris.

Union Home—2932 Groveland avenue; Mrs. Hilda N. Johnson-Haskins.

University of Chicago—4630 Gross avenue; Miss Mary E. McDowell.

Wendell Phillips—2009 Walnut street; Mrs. Laura E. Miller.

CHICAGO'S FREE PUBLIC BATHS.

Operated by the health department; Dr. John Dill Robertson, commissioner; W. K. Murray, M. D., chief of bureau of hospitals, public baths and lodging houses. Names and locations of baths: Carter H. Harrison—759 Mather street.

Martin B. Madden—3825 Wentworth avenue.

William Mavor—4647 Gross avenue.

Robert A. Waller—19 South Peoria street.

Kosciuszko—1444 Holt street.

DeWitt C. Cregier—1155 Cambridge avenue.

John Wentworth—2839 South Halsted street.

Theodore T. Gurney—1139 West Chicago avenue.

William B. Ogden—3346 Emerald avenue.

Joseph Medill—2138 Grand avenue.

Thomas Gahan—4226 Wallace street.

Pilsen—1849 Throop street.

Fernand Henrotin—2415 North Marshfield avenue.

William Loeffler—1217 South Union street.

Simon Baruch—1911 West 20th street.

Graeme Stewart—1642 West 35th street.

Fourteenth Street Bath—14th street pumping station, 1832 Indiana avenue.

Twenty-Second Street Bath—22d street pumping station, Ashland avenue near 22d street.

Lincoln—1019 North Lincoln street.

Public Bath—Polk and Paulina streets.

Public Bath—Kedzie avenue and 24th street.

The Carter H. Harrison bath, opened in January, 1904, is said to have been the first free public bath in the United States. Similar baths in Vienna charged a fee of 2 cents and those in New York 5 cents. The average cost of each plant has been between \$15,000 and \$20,000, and the average annual cost of maintenance \$1,000.

FREIGHT TUNNELS UNDER CHICAGO.

Underlying nearly all the streets in the central business section of Chicago are sixty miles of tunnels connecting the freight terminals of the railroads with commercial houses. The tunnels are provided with narrow-gauge (2 ft.) electric railroads equipped with electric locomotives and steel cars. These are used chiefly in transporting goods to and from railroad freight yards and in carrying coal to business houses. Excavated and waste material from new buildings is removed through the tunnels and disposed of, permitting the work of construction to go on without interruption. In 1914 the Chicago Utilities company, which now owns the tunnel systems had in operation 117 electric motors and 3,000 coal freight and other cars. In addition it had charge of some 24,000 telephones.

The original franchise for the tunnel system was granted Feb. 20, 1899, to the Illinois Telephone and Telegraph company, which was organized in 1898 by A. G. Wheeler and associates for the purpose of establishing an independent telephone system. By an amendatory ordinance granted July 15, 1903, the company was given the right to construct and operate a subway system for the transportation of mail matter, newspapers, packages and freight generally. The

tunnels are 19 feet below city datum or 33 feet below the surface of the streets, the trunk line tunnels being limited in size to 12 feet 9 inches in width by 14 feet in height, and the smaller ones to 6 feet in width and 7 feet 6 inches in height. Part of the tunnel system was put into operation Aug. 15, 1906, but the whole of it was not in use until Sept. 1, 1907.

The Illinois Telephone and Telegraph company was succeeded in October, 1903, by the Illinois Tunnel company, which was followed in November, 1904, by the Chicago Subway company. The property of the Subway company and underlying concerns was acquired in April, 1912, by the Chicago Utilities company, the authorized capital stock of which is \$53,000,000.

TUNNELS UNDER CHICAGO RIVER.

Washington Street—BUILT 1867-1869; length, 1,805 feet; cost \$517,000; rebuilt 1909-1911.

LaSalle Street—BUILT 1869-1871; length, 1,890 feet; cost \$566,000; rebuilt 1909-1912; length, 2,000 feet; cost \$1,200,000.

Van Buren Street—BUILT 1891-1892; length, 1,514 feet; cost \$1,000,000; rebuilt 1909-1912.

All used for street railway purposes.

FOREST PRESERVE DISTRICT OF COOK COUNTY.

COMMISSIONERS.

The commissioners of Cook county by virtue of their office also serve as commissioners of the Forest Preserve District of Cook County, authorized by an act of the legislature approved June 27, 1913, and adopted by a referendum vote Nov. 3, 1914. The commissioners Aug. 1, 1918, were: Peter Reinberg, Bartley Burg, William Busse, Joseph Carolan, Joseph M. Fitzgerald, Thomas Kasperski, William H. Maclean, George A. Miller, Daniel Moriarty, Albert Nowak, Owen O'Malley, Dudley D. Pierson, Frank Ragen, Daniel Ryan, William D. Scott.

OFFICERS.

President—Peter Reinberg.
Treasurer—Oscar F. Mayer.
Secretary—Peter J. Ellert.
Comptroller—Roy J. Barnett.
Attorney—Adolph D. Weiner.
Real Estate Agent—Henry P. Kransz.
Forester—Ransom E. Kennicott.

FOREST PRESERVE PROPERTY.

The Forest Preserve District of Cook County on Aug. 1, 1918, held title to 12,575 acres in the district. Some details as to the various preserves follow:

Palatine Preserve—1,150 acres of hilly wooded land; 850 acres set aside and fenced for deer; twenty-five acres of artificial lake, which has developed into a home for water fowl.

Elk Grove Preserve—1,600 acres of virgin timber land; has lily ponds and bird refuges. Des Plaines River Valley Preserve—667 acres (Wheeling tract); old grove portage of Indian days and scene of reception given Father Marquette, French explorer, who surprised the Pottawattonie Indians here; the white man's first visit to Cook county, 1673; Northwestern park tract, extending from the town of Des Plaines to Higgins road, containing tracts of natural forests and sites of half a dozen Indian villages.

North Branch Chicago River Valley Preserve—Includes Indian reservation, Forest Glen,

Turnbull, Badek and Glenview tracts; Indian reservation contains all the forest land awarded to Billy Caldwell, the old Indian chief; Turnbull tract contains old Turnbull homestead, established by one of Cook county's pioneers in Indian days; Badek tract, another favorite Indian haunt.

Thatcher Park Preserve—Contains also Steele tract; preserve consists of hundreds of acres of oak and maple forest.

Salt Creek Valley Preserve—On both banks of Salt creek from the Des Plaines river to the west county line; picturesque river valley with splendid timber land.

Beverly Hills Preserve—Promontory of rock on the south side long used as picnic grounds.

Palos Hills Preserve—Contains more than 7,000 acres of hilly forest land extending along the drainage canal and back into the Sag district.

Chicago Heights Preserve—Forest tract with small bodies of water and streams; located at junction of Lincoln and Dixie highways.

Thornton and Glenwood Preserves—Adjoining tracts; fine forest land; said to have been site of a battle between Americans and British in the revolutionary war.

All of the forest preserves may be reached by automobile and many of them by street car or railroad. The accompanying map will show in what direction they lie from the central part of the city. Some of the tracts have been improved with paths and roads and a variety of accommodations for visitors, but the idea followed in all cases has been to retain the natural wild beauty of the scenery and not to introduce artificial features such as are found in city parks.

An idea of the extent to which the preserves are used by the public may be had from the recorded attendances during the months of May, June and July of 1918, which, however, does not include single visitors or family gatherings. These records show the following attendance: May, 24,560 persons; June, 71,831 persons; July, 97,089 persons; total for three months, 193,480 persons.

ILLINOIS WEIGHTS AND MEASURES.

Established by act of June 27, 1913.

FOREST PRESERVES OF COOK COUNTY.

Areas shown in black had been purchased up to Aug. 1, 1918; shaded areas indicate tracts recommended for purchase; dotted areas show new public golf grounds in forest preserves.

CHICAGO'S ROLL OF HONOR.

Following is a list of soldiers, marines and sailors from Chicago and vicinity who were killed or mortally wounded on the battle fields of France or at sea in 1918 while taking part in the world war for freedom. The dates in most cases are those on which the deaths were officially or privately announced. The list extends to Nov. 26, 1918, only.

Ackerman, Isadore, 1139 Winchester avenue; Oct. 12.
 Acontius, Corp. George, 2622 North Hamlin avenue; Nov. 25.
 Adams, Ernest J., Evanston; July 6.
 Adams, Joseph, 1438 Mohawk street; Sept. 1.
 Adamski, William, 1430 Insurance Exchange building; Nov. 24.
 Alborg, Harold H., 1416 Kolin avenue; Aug. 5.
 Allison, Lyman J., 608 East Marquette road; Sept. 5.
 Almanovicz, Kastis, 2127 W. 21st-st.; Aug. 13.
 Anagnostopoulos, George, 452 North Green st.; Nov. 20.
 Anderson, Allyn T., Wilmette; July 9.
 Anderson, Andrew, 3420 Florence street, Steger; Oct. 11.
 Anderson, Ewald L., 3723 Greenview avenue; Sept. 27.
 Anderson, Gustav H., 620 E. 35th-st.; Aug. 22.
 Anderson, Sergt. H. W., 110 West 111th place; July 6.
 Anderson, Sergt. Oskar, 3345 Seminary avenue; July 29.
 Anderson, Victor C., 4951 Potomac avenue.
 Andorf, Dietrich F., Hinsdale; Nov. 23.
 Anrzealczyk, Andrew, 226 W. 21st-pl.; Aug. 21.
 Ash, Alan; July 8.
 Augustiak, Sergt. Walter, 4826 South Lawndale avenue; Sept. 23.
 Backstrom, Sergt. Robert E., 85 West 21st street, Chicago Heights; Nov. 3.
 Baczynske, Andy, 814 Dempster street, Evanston; Nov. 17.
 Bagniewski, Michael J., 1551 North Ashland avenue; Nov. 21.
 Bailey, Sergt. Alfred, 9 E. 12th-st.; Nov. 21.
 Baldwin, George, 39 West 33d street; July 3.
 Baldwin, Capt. William W., 4153 Ellis avenue; Aug. 1.
 Bantowski, Frank, 8830 Brandon-av.; Aug. 21.
 Baranowski, Walter, 1521 Noble-st.; Nov. 26.
 Barber, Capt. Timothy L., 851 Farwell avenue; Nov. 15.
 Barnes, Bruno, 2518 S. Western-av.; July 15.
 Barr, Melvin A., 622 W. 79th-st.; July 4.
 Barton, Lieut. Lester C., New York Life building; Oct. 4.
 Basel, Charles, 5706 Honore street; June 25.
 Basone, Samuel, 919 Cambridge-av.; Nov. 9.
 Batten, Roy C., 1507 Ardmore-av.; Sept. 19.
 Baumgart, William C., 1838 Melrose street; Sept. 27.
 Bayne, Lieut. J. Alexander, 7645 Bosworth avenue; May 8.
 Bazurek, Stanley F., 656 North Spaulding avenue; Sept. 25.
 Bealin, Edward Paul, 1400 Belle Plaine avenue; Nov. 9.
 Beckford, Stephen McKinley, 6147 University avenue; June 16.
 Becking, Alvin T., 3652 North Hermitage avenue; Sept. 17.
 Beebe, La Grande, 435 South Oakley boulevard; Aug. 11.
 Behm, Edward F., 2418 Surrey-ct.; Nov. 7.
 Behrentz, Corp. Helmar J., Jr., 3237 Pierce avenue; Oct. 2.
 Belfry, Sergt. Earl, 4202 Prairie-av.; June 18.
 Bell, Leo, Joliet; July 24.
 Bellows, Lieut. Franklin B., 1204 Ashland avenue, Wilmette; Oct. 6.
 Bemberg, Henry, 2046 Howe street; July 16.
 Benischek, James A., 1912 W. 21st-st.; Oct. 1.
 Benson, Corp. Edward, 6215 Laffin street; Sept. 11.
 Bentowski, David S., 1020 South Ashland avenue; Nov. 14.

Beran, James J., 658 N. Oakley-blvd.; July 4.
 Berg, Corp. Carl G., 5239 W. 22d-pl.; Nov. 18.
 Berg, Jack, 417 East 46th place; Nov. 5.
 Berg, Sergt. Robert A., 1365 E. 63d-st.; Oct. 2.
 Berggren, Carl E., 6555 Langley-av.; Aug. 20.
 Bernhardt, Corp. Joseph, 1824 Cleveland avenue; Nov. 15.
 Berhinsky, Victor, 62 10th street; Sept. 29.
 Bertz, Joseph, 436 East 115th street; Oct. 1.
 Beyer, Arthur A., 1401 Cornelia-st.; Nov. 20.
 Billmeyer, Clarence A., 2201 North Kenneth avenue; Nov. 19.
 Binckley, Herbert L., 4150 West Monroe street; Sept. 11.
 Birland, Walter B., 9220 Pleasant avenue; Nov. 12.
 Bischoff, Sergt. Elmer Joy, 307 North Cuyler avenue; Sept. 5.
 Bixler, Corp. Wallace M., 1500 Main street, Evanston; Sept. 10.
 Blanchard, Lieut. Merrill, Evanston; Nov. 12.
 Blasius, John Jr., 1937 North Keystone avenue; July 24.
 Blaszyk, Sergt. John, 2312 S. Troy-st.; Aug. 27.
 Blaul, Frank, 1936 Wolfram street; Aug. 25.
 Blaszak, Walter, 8347 South Shore drive; Aug. 30.
 Blesenthal, Arthur, 2134 Crescent-pl.; Aug. 15.
 Blum, Lieut. Herbert C., 4436 North Kildare avenue; July 18.
 Blumenthal, Alabel, 6130 Evans-av.; Aug. 10.
 Bockman, Harry S., 2812 E. 76th-st.; Nov. 1.
 Bogard, Corp. Adrian, 132 West 118th street; Nov. 16.
 Bonner, Charles F., Hotel LaSalle; Oct. 14.
 Borst, Albert, 1126 Lyman avenue; Sept. 22.
 Boswell, Harold, 908 Montrose-av.; July 24.
 Boyd, Lieut. Gordon, 6615 Greenview avenue; Nov. 16.
 Boyer, Merrill E., 142 Elgin avenue, Forest Park; Oct. 14.
 Bracken, Harold A., 431 Rush street; July 17.
 Bradshaw, Fred, 458 Fullerton plwy.; Aug. 8.
 Brand, William C., 2129 Armitage-av.; Oct. 14.
 Brandt, Walter B., 4838 W. 23d-st.; Nov. 16.
 Brassel, John R., 6227 Langley-av.; Nov. 9.

 Young Men's Associated Jewish Charities—President, Hugo Pam; secretary, Monte H. Sadler.
 Young Men's Federated Orthodox Jewish Charities—President, Archie H. Cohen; recording secretary, Rudolph A. Morrison.

LOCAL GOVERNMENTS WITHIN CHICAGO.

[From report of Chicago Bureau of Public Efficiency.]

There are twenty-two distinct governing agencies in the territory that Chicago comprises, most of them absolutely independent of one another. They are:

City of Chicago.
 Board of education.
 Library board.
 Municipal tuberculosis sanitarium.
 Cook county.
 Sanitary district of Chicago.
 South park commissioners.
 West Chicago park commissioners.
 Lincoln park commissioners.
 Ridge avenue park commissioners.
 North shore park commissioners.
 Calumet park commissioners.
 Fernwood park commissioners.
 Ridge park commissioners.
 Irving park commissioners.
 Northwest park commissioners.
 Old Portage park commissioners.

Edison park commissioners.
 West Pullman park commissioners.
 Ravenswood Manor-Gardens park commissioners.
 River park commissioners.
 Commissioners of the first park district of the city of Evanston.

The board of education, the library board and the tuberculosis sanitarium, while having their separate tax levies, are subject to a degree of control by the mayor and city council. The other bodies named are independent of one another. The state public utilities commission, though not a taxing body, is, in a sense, another governmental agency in the city.

If account were taken of the eight towns lying wholly within the city of Chicago (Lake View, North Chicago, Jefferson, West Chicago, South Chicago, Hyde Park, Lake and Evanston), which still have legal existence, the number of governing bodies comprised in the city would be thirty, instead of twenty-two.

THE CHICAGO ASSOCIATION OF COMMERCE.

Headquarters 10 South LaSalle street.

President—H. H. Merrick.
 Vice-President—Elmer T. Stevens.
 Vice-President Interstate and Foreign Trade Division—J. Harry Selz.
 Vice-President Civic Industrial Division—Louis T. Jamme.
 Vice-President Local Division—Wyllis W. Baird.
 General Secretary—Joseph H. Dion.
 General Treasurer—Robert J. McKay.

Official Staff.

Business Manager—Robert R. Beach.
 Editor Chicago Commerce—William Hudson Harper.
 Traffic Director—H. C. Barlow.
 Manager Convention Bureau—George M. Spangler, Jr.
 Foreign Trade Commissioner—H. H. Garver.

MANUFACTURES IN ILLINOIS.

[From reports of the bureau of the census.]

CHICAGO METROPOLITAN DISTRICT.

materials were used costing \$1,055,945,118. The value added by manufacture was therefore \$678,791,619.

METROPOLITAN DISTRICT MANUFACTURES.

The Chicago metropolitan district embraces 409,687 acres, of which 120,210 acres represent the area of Chicago, and 288,877 acres the outside territory. The estimated population of Chicago in 1914 was 2,397,600, and that of the outside territory 308,824, the total for the district being 2,706,424. The district comprises, in addition to the city of Chicago, the townships of Berwyn, Bloom, Calumet, Cicero, Evanston, LeYden, Lyons, Maine, New Trier, Niles, Norwood Park, Oak Park, Proviso, Ridgeville, Riverside, Stickney, Thornton and Worth, all in Cook county, Illinois, and Calumet and North townships in Lake county, Indiana. Within these townships, or co-extensive with them, there are seven incorporated places of 10,000 or more inhabitants.

In 1914 the metropolitan district had 10,945 manufacturing establishments, which gave employment to 444,876 persons during the year and paid out \$353,484,061 in salaries and wages. Of

EVANSTON HISTORICAL SOCIETY.

Incorporated November, 1898.

President—J. Seymour Currey.
 Vice-President—Frank R. Grover.
 Treasurer—John F. Hahn.
 Secretary—William C. Levere.

The Evanston Historical society has rooms in the Public Library building there. It has a library of 2,000 volumes, 1,000 pamphlets and a large amount of historical data.

GOVERNMENT OF ILLINOIS.

Legislative power is vested in a general assembly, consisting of a senate and house of representatives, both elected by the people. The state is divided into fifty-one senatorial districts, each of which elects a senator and three representatives. The general assembly makes laws and appropriates money for the government of the state and in general stands in the same relation to the state as congress does to all the states as a whole. The powers and duties of the chief executive officers are as follows:

Governor—The governor is vested with the chief executive power of the state. He is the commander in chief of the military and naval forces and may call out the militia to maintain the peace. He is required to inform the general assembly, by message, of the condition of affairs of the state and to recommend needed legislation. He may, by proclamation, call a special session of the assembly or adjourn it in case of disagreement between the two houses. He has the power to appoint certain officers and during a recess of the senate may fill vacancies or remove certain officers and may call special elections to fill vacancies in certain offices. He may make requisitions upon the governors of other states for the return of fugitives from justice or offer rewards for the arrest of offenders against the laws of the state. He exercises a general supervision over the penitentiaries and may grant reprieves, commutations and pardons and may restore the rights of citizenship to ex-convicts. He may approve acts of the legislature and exercise the veto power.

Lieutenant-Governor—This officer is ex officio president of the senate and has the power to cast the deciding vote in case of a tie. In case of the death, conviction on impeachment, failure to qualify, resignation, absence from the state or other disability on the part of the governor, the lieutenant-governor succeeds to the office to the close of the term.

Secretary of State—The secretary of state is charged with the safekeeping of the original laws and resolutions of the general assembly; with all books, bills and documents deposited with him by either house, and with all bonds, records and papers filed in his office. He keeps a record of the official acts of the governor; furnishes certified copies of the same to the assembly on request and certified copies of any of the records of his office on the payment of the statutory fees. He countersigns and affixes the seal of the state to all proclamations and

commissions issued by the governor; issues licenses for incorporations and certificates of organization to cities and villages and incorporated towns. He has charge of most of the buildings and grounds belonging to the state in Springfield, furnishes supplies for the general assembly and supervises the printing and distribution of all the public documents of the state. He calls the house of representatives to order at the beginning of each general assembly and presides over the same until the election of a speaker. He is the keeper of the great seal of the state and is the custodian and sealer of weights and measures.

Auditor—The auditor is required to keep all the accounts of the state; to audit the accounts of all officers or other persons authorized to receive moneys from the state treasury; to personally sign all warrants drawn on the treasury; to institute suits wherein the state is a plaintiff, and to make a biennial report of the business of his office to the governor. With the governor and treasurer he determines the state tax rate. He exercises a general supervision over state banks, building, loan and homestead associations.

State Treasurer—The state treasurer is custodian of the revenues and public moneys of the state. He must make monthly settlements with the auditor and a biennial report to the governor.

Superintendent of Public Instruction—The superintendent exercises a general supervision over all the public schools of the state. He is the general and legal adviser of the county superintendents and must report biennially to the governor the general condition of all the schools of the state, the amount raised by taxation for school purposes and the manner of its expenditure and the general condition of all the school funds. He may grant state certificates to teachers or cause them to be withheld and must visit charitable institutions which are educational in character.

Attorney-General—It is the duty of the attorney-general to represent the state in the Supreme court in all cases in which the state is interested; to act as counsel for all state officials; to be the legal adviser of the governor and other state officers, in matters relating to their official duties, and, on request, to furnish them as well as either branch of the general assembly, with written opinions upon constitutional or legal questions.

The 10th district also includes the towns of Evanston, Niles, New Trier and Northfield and the county of Lake.

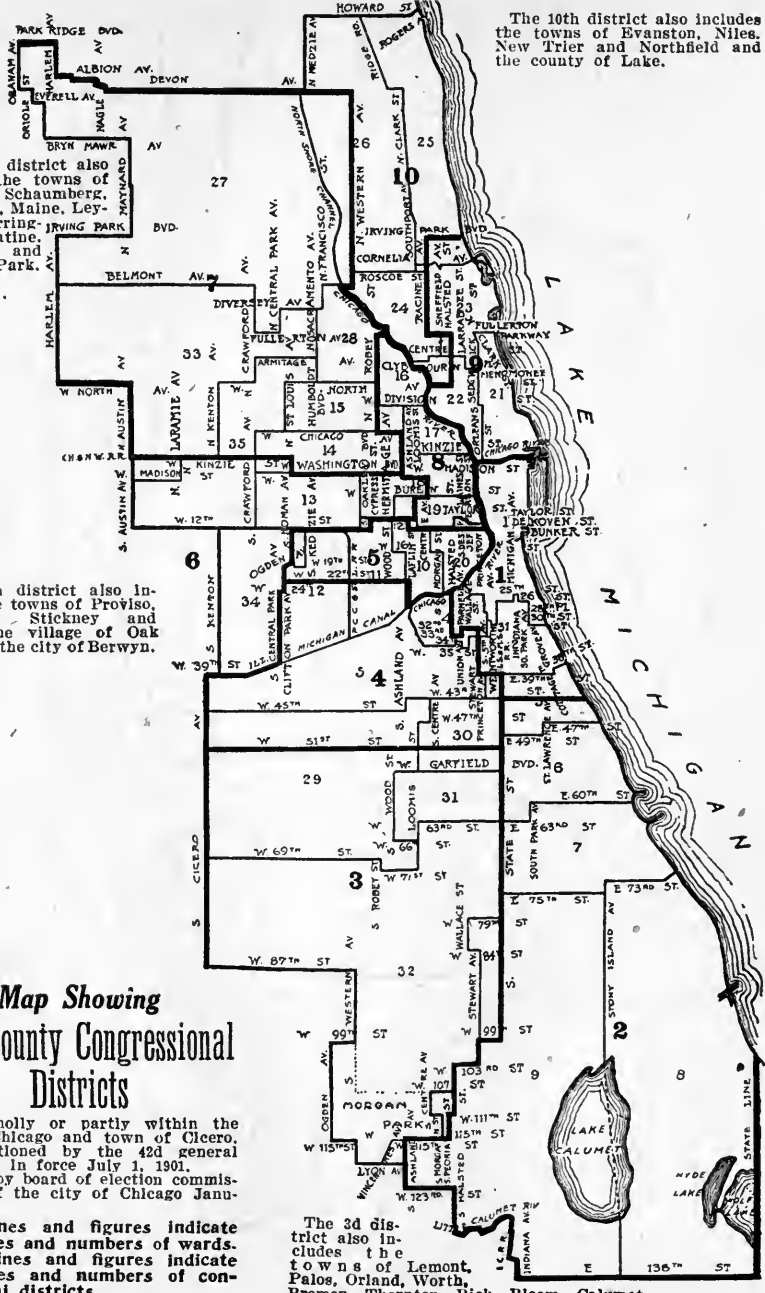

The 7th district also includes the towns of Hanover, Schaumburg, Elk Grove, Maine, Leyden, Barrington, Palatine, Wheeling and Norwood Park.

The 6th district also includes the towns of Proviso, Riverside, Stickney and Lyons, the village of Oak Park and the city of Berwyn.

Map Showing Cook County Congressional Districts

Lying wholly or partly within the city of Chicago and town of Cicero, as apportioned by the 42d general assembly; in force July 1, 1901. Issued by board of election commissioners of the city of Chicago January, 1914. Light lines and figures indicate boundaries and numbers of wards. Heavy lines and figures indicate boundaries and numbers of congressional districts.

The 3d district also includes the towns of Lemont, Palos, Orland, Worth, Bremen, Thornton, Rich, Bloom, Calumet.

The 6th district also includes all that part of the town of Evanston outside of the city of Chicago, and those parts of the towns of Niles and New Trier within the city of Evanston.

The 23d district also includes the village of Oak Park.

The 19th district also includes the city of Berwyn and the town of Riverside.

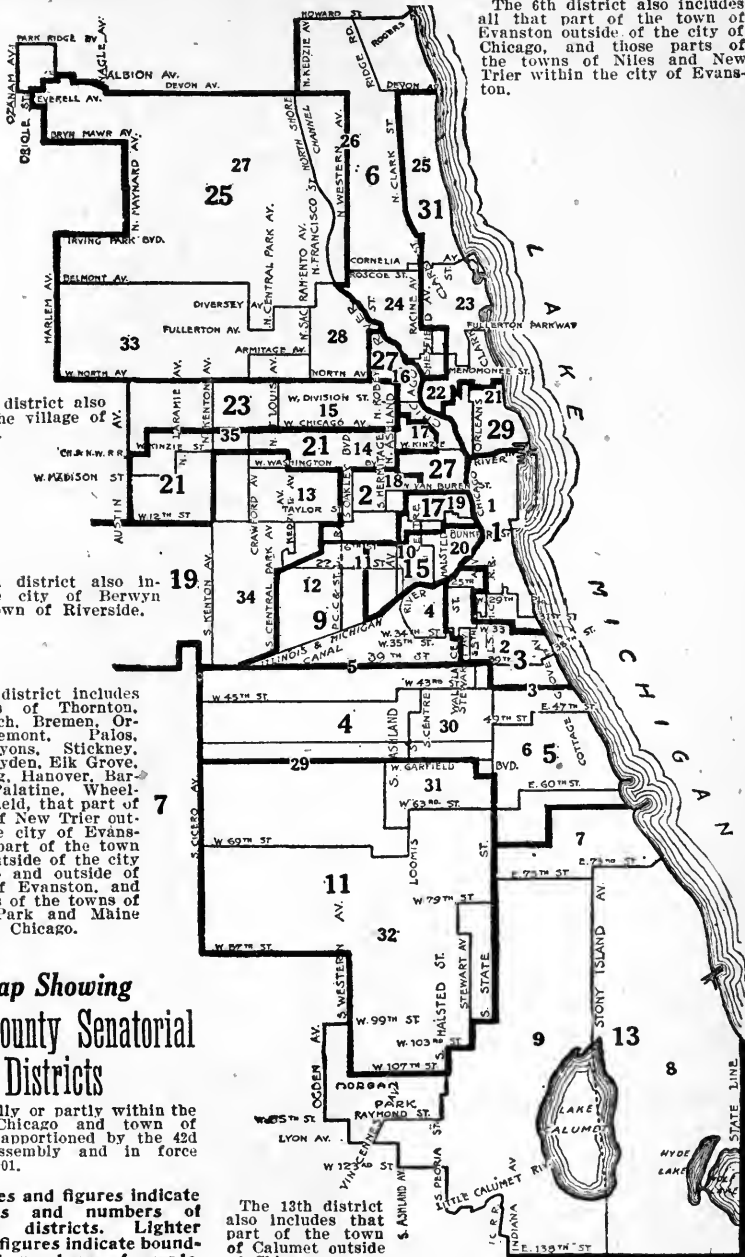

The 7th district includes the towns of Thornton, Bloom, Rich, Bremen, Orland, Lemont, Palos, Worth, Lyons, Stickney, Fross, Leyden, Elk Grove, Schaumburg, Hanover, Barrington, Palatine, Wheeling, Northfield, that part of the town of New Trier outside of the city of Evanston, that part of the town of Niles outside of the city of Evanston, and those parts of the towns of Norwood Park and Maine outside of Chicago.

Map Showing Cook County Senatorial Districts

Lying wholly or partly within the city of Chicago and town of Cicero as apportioned by the 42d general assembly and in force July 1, 1901.

Heavy lines and figures indicate boundaries and numbers of senatorial districts. Lighter lines and figures indicate boundaries and numbers of wards.

The 13th district also includes that part of the town of Calumet outside of Chicago.

ILLINOIS SENATORIAL DISTRICTS.

Established May 10, 1901.

The establishment of new ward lines by the ordinance of Dec. 4, 1911, having made the terms of the state senatorial apportionment act of 1901 inapplicable or misleading so far as concerns Chicago, the districts lying within or partly within the city are herewith described in accordance with their street boundaries.

- Dist.
1. From Lake Michigan west and south along the Chicago river to 22d street, east to Clark, south to 26th, west to Princeton avenue, south to 32d, east to South Park avenue, south to 33d, east to the lake, northward along lake shore to river. (South side.)
 2. From South Racine avenue west on Madison to North Ashland boulevard, north to Washington boulevard, west to Western avenue, south to 12th, west to California avenue, south to 16th, east to Laflin, north to Taylor, east to Loomis, north to Van Buren, east to South Racine avenue, north to Madison. (West side.)
 3. From Clark street west on 22d to river, southwest along river to Halsted, south to 34th, east to Union avenue, south to 35th, east to Parnell avenue, south to 39th, east to State, south to 43d, east to Lake Michigan, northwest along lake shore to 33d, west to South Park avenue, north to 32d, west to Princeton avenue, north to 26th, east to Clark, north to 22d. (South side.)
 4. From State street west on 39th to South Cicero avenue, south to 57th, east to Rock Island tracks, south to 57th place, east to State, north to 39th. (Southwest side.)
 5. From Lake Michigan west on 43d to State, south to 71st, east to Cottage Grove avenue, north to 63d, east to the lake, northwest along lake shore to 43d. (South side.)
 6. From Lake Michigan west on Devon avenue, east to Irving Park boulevard, east to Racine avenue, south to Fullerton avenue, east to Halsted, south to North avenue, west to river, along river northwest to Belmont avenue, east to Western avenue, north to Devon avenue, west to Kedzie, north to Howard; also all that part of the town of Evanston lying outside the city of Chicago, and those parts of the towns of Niles and New Trier lying within the city of Evanston. (North side.)
 7. Towns of Thornton, Bloom, Rich, Bremen, Oriand, Lemont, Palos, Worth, Lyons, Stickney, Proviso, Leyden, Elk Grove, Schaumburg, Hanover, Barrington, Palatine, Wheeling, Northfield; that part of Niles outside the city of Chicago and outside the city of Evanston; that part of New Trier outside the city of Evanston, and those parts of the towns of Norwood Park and Maine outside of Chicago, all in Cook county.
 8. Lake, McHenry and Boone counties.
 9. From Halsted street southwest along river to Hoyne avenue, north to 16th, west to California avenue, south and southwest along C. B. & Q. tracks to Clifton Park avenue, west to Central Park avenue, south to Illinois and Michigan canal, southwest to 39th, east to Parnell avenue, north to 35th, west to Union avenue, north to 34th, west to Halsted, north to river. (Southwest side.)
 10. Ogie and Winnebago counties.
 11. From State street west on 57th place to Rock Island tracks, north to Garfield boulevard (57th street), west to South Cicero avenue, south to 87th, east to Western avenue, south to 107th, east to Halsted, north to 103d, east to Stewart avenue, north to 99th, east to State, north to 57th place. (Southwest side.)
 12. Stephenson, Jo Daviess and Carroll counties.
 13. From Indiana avenue east on 138th to Illinois and Indiana state line, north to Lake Michigan, northwest along lake shore to 63d, west to Cottage Grove avenue, south to 71st, west to State, south to 99th, west to Stewart avenue, south to 103d, west to Halsted, south to 107th; and all that part of the town of Calu-
- met lying outside the city of Chicago. (South side.)
14. Kane and Kendall counties.
 15. From the river west on Maxwell to Johnson, south to 14th, west to Throop, south to 16th, west to Hoyne avenue, south to Illinois and Michigan canal, northeast along canal and river to Maxwell. (West side.)
 16. Marshall, Putnam, Livingston and Woodford counties.
 17. From the river west on Van Buren to Loomis, south to Taylor, west to Laflin, south to 16th, east to Throop, north to 17th, east to Johnson, north to Maxwell, east to river, along river northwest to Van Buren. (West side.)
 18. Peoria county.
 19. From South Cicero avenue east on 39th to Illinois and Michigan canal, northeast along canal to Central Park avenue, north to 24th, east to Clifton Park avenue, north to C. B. & Q. tracks, northeast along tracks to California avenue, north to 12th, east to Western avenue, north to Washington boulevard, west to Homan avenue, north to Kinzie, west to South Cicero avenue, south to 12th, west to Austin avenue; also the city of Berwyn and the town of Riverside. (West side.)
 20. Kankakee, Grundy and Iroquois counties.
 21. From Ashland avenue west on Chicago avenue to Park avenue, south to Lake, west to Austin avenue, south to 12th, east to South Kenton avenue, north to Kinzie, east to Homan, south to Washington boulevard, east to Ashland avenue, north to Kinzie, east to Green, north to Milwaukee avenue, northwest to Cornell, west to Hoyt, north to Augusta, west to Ashland avenue, south to Chicago avenue. (West side.)
 22. Vermilion and Edgar counties.
 23. From Austin avenue east on Lake to Park avenue, north to Chicago avenue, east to Ashland avenue, north to North avenue, west to Harlem avenue; and village of Oak Park. (West side.)
 24. Champaign, Piatt and Moultrie counties.
 25. From Western avenue west on Devon avenue, Fulton and Hamilton to city limits, south on Winter to Everill avenue, east to 73d avenue, south to Bryn Mawr avenue, east to North Maynard avenue, south to Irving Park boulevard, west to Harlem avenue, south to North avenue, east to Robey, north to Fullerton avenue, east to river, northwest along river to Belmont avenue, east to Western avenue, north to Devon avenue. (Northwest side.)
 26. Ford and McLean counties.
 27. From the river west on Fullerton avenue to Robey, south to North avenue, east to Ashland avenue, south to Augusta, east to Hoyt, south to Cornell, east to Milwaukee avenue, southeast to Green, south to Kinzie, west to Ashland avenue, south to Madison, east to South Racine avenue, south to Van Buren, east to river and northwest along river to Fullerton avenue. (West side.)
 28. Logan, DeWitt and Macon counties.
 29. From Lake Michigan west on Schliker to State, south to Goethe, west to Sedgwick, north to Sigel, west to Cleveland avenue, south to Clybourn avenue, northwest to Larrabee, south to Division, west to Halsted, south to river, thence along river southeast and east to Lake Michigan, north along lake shore to Schliker. (North side.)
 30. Tazewell, Mason, Menard, Cass, Brown and Schuyler counties.
 31. From Lake Michigan west on Devon avenue to Clark street, south and southeast to Irving Park boulevard, east to Racine avenue, south to Fullerton avenue, east to Halsted, south to North avenue, west to river, southeast along river to Halsted, north to Division, east to Larrabee, north to Clybourn avenue, southeast to Cleveland avenue, north to Sigel, east to

Sedgwick, south to Goethe, east to State, north to Schiller, east to Lake Michigan, north and northwest along lake shore to Devon avenue. (North side.)
 32. McDonough, Hancock and Warren counties.
 33. Rock Island, Mercer and Henderson counties.
 34. Douglas, Coles and Clark counties.
 35. Whiteside, Lee and Dekalb counties.
 36. Scott, Calhoun, Pike and Adams counties.
 37. Henry, Bureau and Stark counties.

CHRONOLOGY.

First investigation made in 1885.
 Sanitary bill signed May 29, 1889.
 Sanitary district organized Jan. 18, 1890.
 Earth broken ("shovel day") Sept. 3, 1892.
 Lake water turned into canal Jan. 2, 1900.
 Formal opening of canal Jan. 17, 1900.

DIMENSIONS OF CANAL.

Length of main and power channel, 39.16 miles.
 Length of river, lake to Robey street, 6 miles.
 Length of river diversion channel, 13 miles.
 Width main channel, Robey street to Summit:
 Bottom, 160 feet; top, 198.
 Width main channel, Summit to Willow
 Springs; Bottom, 202 feet; top, 225.
 Width main channel, Willow Springs to Lock-
 port (rock section): Bottom, 160 feet; top,
 162.
 Width river diversion channel: Bottom, 200
 feet.
 Minimum depth of water in main channel, 22
 feet.
 Current in earth sections, 1 1/4 miles per hour.
 Current in rock sections, 1.9 miles per hour.
 Present capacity of canal, 300,000 cubic feet
 per minute.
 Total amount of excavation, 44,005,647 cubic
 yards.

The north shore channel, extending from
 Lawrence avenue to Lake Michigan, in the
 village of Wilmette, is about 8 miles long with
 a water depth of 13.6 feet.

The construction of the Calumet-Sag canal
 to take care of the Calumet region sewage
 has begun in the summer of 1911. When
 completed it will be 16 miles long. Its esti-
 mated cost is \$14,000,000.

TERRITORIAL EXTENT.

Embraces all of the City of Chicago and
 various towns and villages lying to the north,
 south and west of the city—Glencoe, Win-
 netka, Kenilworth, Wilmette, Glenview, Evans-
 ton, Morton Grove, Niles Center, Norwood
 Park, River Grove, Melrose Park, Maywood,
 Shermerville, River Forest, Forest Park, Oak
 Park, Riverside, Lyons, Summit, Argo, Ever-
 green Park, Northfield, New Trier, Ridgeville,
 Proviso, Berwyn, Cicero, Worth, Calumet,
 Thornton, Blue Island, Harvey, Riverdale,
 South Holland, Mount Greenwood, West Ham-
 mond and Burnham. The territorial extent
 of the sanitary district is approximately 388
 square miles.

ILLINOIS PRIMARY ELECTION LAW.

Under act of March 9, 1910, as amended by act of June 30, 1913.

Dates of Primaries.

A primary shall be held on the second Tuesday in April in every year in which a president of the United States is to be elected, for the purpose of electing delegates and alternate delegates to national nominating conventions and for the purpose of securing an expression of the sentiment and will of the party voters with respect to candidates for nomination for the office of president of the United States. A primary shall be held on the first Wednesday after the second Tuesday in September in every year in which officers are to be voted for on the first Tuesday after the first Monday in November of such year for the nomination of candidates for such offices as are to be voted for at such November election. Whenever the term "April primaries" is used it shall be construed as referring to both the foregoing primaries.

A primary shall be held on the last Tuesday in February in each year for the nomination of such officers as are to be voted for on the first Tuesday in April of such year.

A primary shall be held on the second Tuesday in March in each year for the nomination of such officers as are to be voted for on the third Tuesday in April of such year.

A primary shall be held on the first Wednesday after the second Tuesday in September, 1914, and every two years thereafter, for the nomination of candidates for senatorial offices and for the election of senatorial committeemen.

A primary for the nomination of all other officers, nominations for which are required to be made under the provisions of the act, shall be held three weeks preceding the date of the general election for such offices, respectively.

The polls shall be open from 6 o'clock a. m. to 5 o'clock p. m.

Any person entitled to vote at such primary shall be entitled to absent himself from his work for two hours between the opening and closing of the polls without incurring loss of wages or salary, providing application shall have been made on the preceding day. The employer may specify the hours.

Petitions.

• Petitions for nomination shall be signed:

For a state office, by not less than 1,000 nor more than 2,000 primary electors of his party.

For state senator or assemblyman, by at least one-half of 1 per cent of the qualified primary electors of his district.

For a congressional office, by at least one-half of 1 per cent of the qualified primary electors of his party in his congressional district.

For a judicial office, by at least one-half of 1 per cent of the qualified electors in the district.

For a county office, by at least one-half of 1 per cent of the qualified primary electors of his party cast at the last preceding general election in his county; if for the nomination for county commissioner of Cook county, then by at least one-half of 1 per cent of the qualified primary electors of his party in his county in the division in which such person is a candidate for nomination.

For a city or village office, to be filled by the electors of the entire village, by at least one-half of 1 per cent of the qualified primary electors of his party in his city or village; if for alderman, by at least one-half of 1 per cent of the voters of his party in his ward.

For a senatorial committeeman, by at least ten of the primary electors of his party of the county where the senatorial district is coextensive with one county or is composed of more than one county; but in case the senatorial district is wholly within the territorial limits of one county, or partly within the territorial limits of one county and partly within the territorial limits of another county, then such petition shall be signed by at least ten of the primary electors of his party of his senatorial district.

For state central committeeman, by at least 100 of the primary electors of his party of his congressional district.

For a candidate for trustee of a sanitary district, by at least one-half of 1 per cent of the primary electors of his party from such sanitary district.

For a candidate for clerk of the Appellate court, by at least one-half of 1 per cent of the primary electors of his party of the district.

For any other office, by at least ten primary electors of his party of the district or division for which nomination is made.

Candidate for President or Senator.

Any candidate for president of the United States or for United States senator may have his name printed upon the primary ballot of his political party by filing in the office of the secretary of state not more than sixty days and not less than thirty days prior to the date of the April primary. In any year, a petition signed by not less than 1,000 nor more than 2,000 primary electors of the party of which he is a candidate. Provided, That the vote for president of the United States shall be for the sole purpose of securing an expression of the sentiment and will of the party voters with respect to candidates for nomination, and the vote of the state at large shall be taken and considered as advisory

to the delegates and alternates at large to the national conventions of the respective political parties; and the vote of the respective congressional districts shall be taken and considered as advisory to the delegates and alternates of the congressional districts to the national conventions of the respective political parties.

Delegates to National Conventions.

Each person seeking to be elected as delegate or alternate delegate to the national nominating convention of his party shall file, along with his nominating petition, a statement in writing signed by him in which he shall state the name of the candidate of his choice for nomination for president of the United States, or, in lieu thereof, may file a statement to the effect that he has no preference. Any candidate for president for whom a preference is stated by any candidate for delegate or alternate delegate to a nominating convention may, at any time after the filing of such petition and before the name of such candidate is certified to the various county clerks for printing, file in the office of the secretary of state an instrument in writing disavowing the candidacy of the person who has so filed a nominating petition, and in case such candidate for president shall disavow the candidacy of the candidate for delegate or alternate delegate, the name of such candidate shall not be certified to the various county clerks for printing upon the official primary ballot.

Conventions.

On the first Monday after the April primary the county central committee of each political party shall meet at the county seat and organize, such meeting to be called the county convention. The county convention of each political party shall choose delegates to the congressional and state conventions of its party. Only precinct committeemen residing within a congressional district shall take part in the selection of delegates to a congressional convention. Each delegate to the county convention shall have one vote and one additional vote for each fifty or major fraction thereof of his party as cast in his precinct at the last general election.

All congressional conventions shall be held on the first Wednesday after the first Monday next succeeding the April primary. The congressional convention of each political party shall have power to select delegates to national nominating convention and to recommend to the state convention of its party the nomination of candidate or candidates from such congressional district for elector or electors of president and vice-president of the United States.

All state conventions shall be held on the first Friday after the first Monday next succeeding the April primary. The state convention of each political party shall have power to make nominations of candidates for the electors of president and vice-president of the United States, and for trustees of the University of Illinois, to adopt any party platform and to select delegates and alternates to the national nominating conventions.

BOULEVARD CONNECTING LINK PROJECT.

Plans for properly connecting the south and north side boulevard systems of Chicago by means of widening Michigan avenue and a new bridge over the river began to be studied seriously in 1906 by committees of various public bodies, such as the city council, real estate boards, park boards and by architects and other private individuals. In 1906, 1907 and 1908 Daniel H. Burnham and Edward H. Bennett, architects, working under the direction of the Commercial club, prepared the famous "Plan of Chicago," of which one feature was the Michigan avenue improvement project. Nov. 1, 1909, the Chicago Plan commission, representing the official administration and the public generally, was created by the city council in response to an official request from Mayor Fred A. Busse, who appointed its members. It held its first meeting Nov. 4 in that year and elected Charles H. Wacker as president. The duty of the commission was to carry out as far as practicable from time to time the ideas formulated in the Commercial club, or as it is often called, the Burnham plan.

Study of the Michigan avenue project was begun at once by the commission and after a long series of meetings and conferences it adopted, July 10, 1911, a plan which was presented two days later to the board of local improvements for its consideration. June 2, 1913, that body submitted to the city council an ordinance for carrying the plan into effect and July 14 the ordinance was passed. Some of the property owners affected began proceedings attacking the validity of the ordinance and in December the state Supreme court made a ruling in which it declared that the ordinance was invalid because of faulty description of land involved in the project. A revised ordinance, correcting the errors pointed out by the court, was introduced in the council and finally passed by that body March 23, 1914, without opposition. At the election of Nov. 3, 1914, the people of Chicago approved a proposition to issue bonds in the sum of \$3,800,000 for paying that part of the cost chargeable to the city for the boulevard link.

The ordinance as passed calls for the improvement of a thoroughfare extending from

Randolph street northward along Michigan avenue, over the river, thence over private property and along Pine street and Lincoln parkway to Chicago avenue. Michigan avenue is to be widened to 127.5 feet and that part of the new thoroughfare north of the river is to be 141 feet wide. The improvement is to consist of a two-level roadway comprising an upper level extending the entire distance between Randolph street and Chicago avenue and supported between Lake street and Grand avenue upon an elevated steel and concrete structure, and a lower level extending from Lake street to Grand avenue. The bridge is to be double decked and of the bascule type, the upper level connecting the parts of the upper level of the thoroughfare and the lower level connecting the portions of the lower level of the thoroughfare north and south of the river. The upper level of the bridge is to be ninety feet wide and the lower level sixty feet. The structure is to have a clear span between the abutments of 220 feet. The upper level is to be used by pleasure vehicles and the lower level is to carry heavy traffic.

The total cost of the entire improvement, including land to be taken, is estimated at about \$7,000,000. The cost of the bridge, elevated structure, walls and excavations, pavements, lighting and bridge machinery alone, without land damages, is estimated at \$2,298,247. The greater part of the cost will be met by assessments on the property benefited.

Appraisal of the land and buildings to be taken in whole or in part for the improvement was completed in September, 1915, and it was announced that fifty-two holders of real estate would receive \$4,942,058 as awards from the city.

Work on the boulevard link was begun on the afternoon of April 13, 1918, when the mayor, William Hale Thompson, pulled a rope which tore down part of the first building to be destroyed. As the year progressed the buildings on the east side of Michigan avenue were cut to correspond to the new building line. Little other work was done on account of government wartime restrictions. At the election on Nov. 5, 1918, the voters approved the issue of \$3,000,000 bonds for the completion of the project.

EQUALIZED ASSESSMENT OF ILLINOIS PROPERTY.

YEAR.	Real estate.	Personal property.	Railroad property.	Total valuation.	Tax rate per \$100.

COOK COUNTY OFFICIALS.

Hours 9 a. m. to 5 p. m.

BOARD OF COMMISSIONERS.

Room 537 county building.

President—Peter Reinberg, D., 523 courthouse.
 Clerk of County Board—Robert M. Switzer, D.,
 600 courthouse.

Commissioners, City Districts—Peter Reinberg,
 D.; Charles N. Goodnow, R.; Robert W.
 McKinlay, D.; Frank J. Wilson, D.; Emmett
 Whealan, D.; Joseph M. Fitzgerald, D.; Bart-
 ley Burg, D.; Albert Nowak, D.; Daniel Ryan,
 D.; John Budinger, D. Country districts—Wil-
 liam Busse, R.; Joseph Carolan, R.; Dudley
 D. Pierson, R.; George A. Miller, R.; William
 H. McLean, R. Room 537 courthouse

Committee Clerk—Peter Ellert, 527 courthouse.

Meetings—The regular meetings of the board of
 commissioners are held on the first Monday of
 December, January, February, March, June and
 September of each year.

Duties—The commissioners are charged with the
 management of the county affairs of Cook
 county, as provided by law, having the same
 powers as the boards of supervisors in other
 counties. They make all appropriations and
 contracts and authorize all expenditures. The
 president appoints, with the approval of the
 board, the superintendent of public service and
 other officers and employees whose election or
 appointment is not otherwise provided for by
 law.

COUNTY CLERK'S OFFICE.

County building, 2d floor, south end.

Clerk—Robert M. Switzer, D.

Chief Deputy—John H. Mack.

Chief Clerk—Timothy J. Crowe.

Chief Tax Extensions—Martin J. O'Brien.

Chief Election Department—Daniel Herlhy.

Duties—The county clerk is also clerk of the
 County court, clerk of the county board and
 ex officio comptroller of county financial affairs.
 As county clerk he issues all marriage licenses,
 hunting, tavern and other licenses, keeps re-
 cords of births and deaths, assists at tax sales
 and makes redemptions from same; receives
 all tax levies and computes county, state and
 all city, village, district and other municipal
 taxes. As clerk of County court he keeps a
 record of insane, pauper, support, feeble
 minded, inheritance tax and other cases. Nearly
 all special assessment cases are recorded in
 this office. As comptroller he disburses all
 salaries and all other county funds and has
 charge of all deeds, mortgages, contracts,
 bonds, notes and similar papers belonging to
 the county, settles all accounts, keeps books
 showing appropriations and expenditures,
 makes out report for fiscal year and submits
 estimates for the expenses of all the depart-
 ments of the county organization.

COMPTROLLER'S OFFICE.

Room 511 county building.

Comptroller—Robert M. Switzer, D.

Deputy Comptroller—William J. Graham.

Chief Clerk—Michael J. O'Connor.

Duties—See county clerk.

CLERK OF COUNTY COURT.

Room 600 county building.

Clerk—Robert M. Switzer, D.

Chief Clerk—Frank L. Pasedeloup.

COUNTY TREASURER'S OFFICE.

County building, 1st and 2d floors, north end.

County Treasurer—Harry Gibbons, D.

Duties—The county treasurer receives and dis-
 burse, pursuant to law, all the revenues and
 other public moneys belonging to the county.
 He or his assistant countersigns county orders
 and renders accounts to the board of com-
 missioners.

SUPERINTENDENT OF PUBLIC SERVICE.

Room 726 county building.

Superintendent—Henry A. Zender.

Duties—Purchases all supplies for the county in-
 stitutions, advertising for bids at specified times

and entering into yearly or quarterly contracts
 and making bids from time to time of the
 articles furnished to determine if they are up
 to contract requirements. Has supervision of
 all maintenance and rehabilitation of county
 buildings. Represents owners on all new con-
 struction work; advertises for bids and handles
 all plans and specifications.

STATE'S ATTORNEY'S OFFICE.

Criminal court building, 2d floor, and 507
county building.

State's Attorney—Maclay Hoyne, D.

First Assistant—Michael F. Sullivan.

Assistant (county attorney)—Charles Center

Case, Jr.

Chief Trial Assistant—Edwin J. Raber.

Grand Jury Assistant—William H. Duval.

Secretary—Edward J. Fleming.

Assistants—Marvin E. Barnhart, John Prystalski,
 Henry A. Berger, Hayden N. Bell, Dwight Mc-
 Kay, James C. O'Brien, Grover C. Niemeyer,
 Daniel G. Ramsay, John W. Beckwith, Ota P.
 Lightfoot, Nicholas Michels, Edward A. Prindi-
 ville, Ernst Buchler, Waiter T. Stanton, Nellie
 Carlin, George C. Bliss, John P. Moran, Justin
 F. McCarthy, Edward E. Wilson, Thomas J.
 Finn, Joseph P. Ryan, John F. O'Connell, John
 E. Foster, John M. Lowery, James R. Consi-
 dine, Augustus Kelly, John Owen, Henry Eck-
 hardt, George Emmicke, Hart E. Baker, Robert
 E. Hogan, Malcolm B. Sterrett, Eugene L.
 McGarry, J. J. Viterna, Robert P. Rollo, James
 E. McShane, Michael L. Rosinia, James C.
 Dooley, Joseph A. Smejkal, W. W. DeArmond,
 Eugene P. Quirke, Joel C. Carlson, Robert W.
 Daniels, Martin Gorski, Nathan A. Lawrence,
 G. A. Kyrilakopoulos, Jacob M. Arvey.

Duties of State's Attorney—To begin and prose-
 cute, in courts of record in his county, all crim-
 inal and civil actions in which the people of
 the state or county may be concerned; to prose-
 cute or defend (as the case may be) all civil
 actions brought by or against his county or
 any county officer in his official capacity, and
 all suits which it may become necessary to
 prosecute or defend to enforce the collection
 of taxes; to give his opinion to county officers
 and justices of the peace upon questions of law
 relating to matters in which the people are
 concerned.

RECORDER'S OFFICE.

County building, 1st floor, south end.

Recorder of Deeds—Joseph F. Haas, R.

Chief Deputy—John F. Devine.

Chief Clerk—Theodore R. Steinert.

Duties—The recorder is the keeper of the records,
 and upon the filing of any instrument in writ-
 ing in his office entitled to be recorded he
 must spread the same on the record books pro-
 vided for that purpose, in the order of the time
 of filing. He is also the official abstract maker
 for Cook county.

REGISTRAR OF TITLES.

County building, 1st floor, south end.

Registrar—Joseph F. Haas, R.

Chief Clerk—Harry E. Hoff.

Examiners—John B. Skinner, J. Scott Matthews,
 Blake C. Smith, Bazel W. Veirs.

Advisory Examiners—Nathaniel C. Sears, Charles
 T. Farson, Charles Werno, Enoch J. Price.

Duties—The registrar of titles under the Torrens
 system of land registration directs the proce-
 dure by which title is confirmed by decree of
 court, which does away with the need of an
 abstract, and the certificate of title which is
 issued is guaranteed by the county.

CIVIL SERVICE COMMISSION.

Room 547 county building.

Commissioners—Harry A. Lipsky, president;
 Ralph L. Peck, secretary; James M. Whelan,
 Assistant Secretary—William F. Foehringer.

Duties—The commissioners examine applicants
 for positions in the county service. Before an
 examination is held fourteen days' notice is
 given by advertisement. The rules are practi-

cally the same as those governing other bodies of the kind.

JURY COMMISSION.

Room 824 county building.

Commissioners—Joseph H. Barnett, president; Bernard J. Mullaney, secretary; Charles W. Seiwert.

Clerk—Martin Peterson.

Duties—The commissioners are required to prepare a list of electors qualified to act as jurors, to select names from such list and place them in a jury box and a grand jury box, and to be present when the names of jurors needed at each term of court are drawn.

BOARD OF ASSESSORS.

County building, 3d floor, north end.

Members of the Board—Michael K. Sheridan, D.; William H. Weber, R.; Adam Wolf, R.; George K. Schmidt, R.; Charles Krutkoff, R.

Chief Clerk—Charles Krutkoff.

Duties—Fix the amount of assessment on all real and personal property according to the rate required by law.

BOARD OF REVIEW.

County building, 3d floor, south end.

Members of Board—Edward Litsinger, R.; P. A. Nash, D.; Charles V. Barrett.

Chief Clerk—Stephen D. Grith.

Duties—The board of review takes the place of the old town board in revising and correcting the findings of the assessors and in hearing and adjusting complaints of property owners. The decisions of the board of review are final.

COUNTY INSTITUTIONS.

In Oak Forest.

Superintendent—Henry L. Bailey, D.

Duties—Has general management of infirmary or poorhouse, poor farm and tuberculosis hospital.

COUNTY ARCHITECT.

11 South LaSalle street.

County Architect—Eric E. Hall.

Duties—The county architect makes designs for new buildings, alterations in old ones, etc., as required by the county board. (Paid in fees.)

SUPERINTENDENT OF SCHOOLS.

Room 566 county building.

Superintendent—Edward J. Tobin, D.

Duties—He is required to visit each school in his district at least once a year, to see that the teachers are qualified for the performance of their duties and to do all in his power to increase the efficiency and elevate the standards of the school.

BUREAU OF SOCIAL SERVICE OF COOK COUNTY.

Room 1130 county building.

Superintendent—Miss Katherine Meade (attendant).

Duties—Obtain support for dependents from relatives legally liable for their care and maintenance; investigate all cases of boys between ages of 17 and 21 years held in Criminal court pending trial and present report to trial judge; investigate insane cases heard in County court; investigate all health cases in Cook county outside of city of Chicago, especially emphasizing tuberculosis.

COUNTY HOSPITAL.

Harrison and Honore streets.

Warden—Michael Zimmer, D.

Duties—Exercises general supervision over the county hospital.

COUNTY AGENT'S OFFICE.

Main office, 213-215 South Peoria street; branch offices, 1736 West North avenue, 837 West 47th street, 8800 Houston avenue, 229 West North avenue, 3466 Archer avenue, 1655 Blue Island avenue, 2701 West 12th street, 221 East 115th street.

County Agent—William H. Ehemann, D.

Duties—The county agent is responsible to the president and board of county commissioners in the carrying out of the plans for the relief of the poor in the county of Cook. He issues monthly rations to poor families found eligible under the law, and provides shoes to needy school children. He furnishes monthly rations

to poor families of veteran soldiers, sailors or marines who have served in the rebellion and Spanish-American war. He undertakes the return of nonresidents and alien paupers to their legal place of residence and the extradition of fathers who have deserted their families when found and warrant is issued for their arrest. He keeps a record of and passes on all medical and institutional cases admitted to the county hospital, the Oak Forest infirmary and the Oak Forest tuberculosis hospital. He furnishes medical services to the needy poor in their homes, through the medium of county physicians. He is the medium whereby blind, deaf and dumb children are sent to the state school at Jacksonville. He investigates all cases recommended for mothers' pensions and supervises the payments of same. He investigates all applications for pensions for the blind and reports on eligibility of applicants to the county board and supervises payment of the pensions. He authorizes the payment of burial expenses of deceased indigent or friendless soldiers, sailors or marines and all contagious cases of the poor. He interests himself in any wrong existing or being perpetrated on families of poor to which his attention is called. He discovers and reports cases of nonsupport by husband or relatives, desertion, contribution to delinquency or dependency of children to the various courts having jurisdiction.

COUNTY SURVEYOR.

Room 726 county building.

County Surveyor—Harry Emerson, R.

Duties—The surveyor is required to make all official surveys in the county. (Paid in fees.)

COUNTY PHYSICIAN.

Office in detention hospital.

County Physician—Dr. Adam Szwajkart.

Duties—The county physician resides at the detention hospital and gives medical attention to the patients in that institution. Reports cases to the County Court for the Insane for trial.

CORONER'S OFFICE.

Room 500 county building.

Coroner—Peter M. Hoffman, R.

Chief Clerk—John J. Dedrick.

Chief Deputy—David R. Jones.

General Clerk—Otto Rexses.

Deputy Coroners—S. L. Davis, Charles Fitzner, C. F. Kennedy, Henry Spears, M. G. Walsh, J. J. Dedrick, Adolph Herrmann, William Ostrom, John Thunni, George Williston, George A. Webster.

Physicians—William H. Burmeister, H. G. W. Reinhardt, E. R. LeCount, Joseph Springer, Edward Hatton.

Chemist—Dr. William D. McNally.

Assistant Chemist—W. L. Bergman.

Reporters—A. J. Flynn, L. H. Morse, E. E. Wenger, W. C. Yunker, C. E. Gilman, David T. Kiehle, Claude Van Fleet, W. P. Scanlon.

SHERIFF'S OFFICE.

County building, 4th floor, center.

Sheriff—Charles W. Peters, R.

Assistant Sheriff—Otto Spankuch.

Jailer—William T. Davies, R.

Duties—The sheriff serves and returns all writs, warrants, processes, orders and decrees legally directed to him. He is the conservator of peace in his county and may arrest offenders on view. He is the keeper of the jail and has the custody of prisoners. It is also his duty to attend the courts of record of the county and obey their orders.

PUBLIC ADMINISTRATOR.

Appointed by governor.

Administrator—Gordon A. Ramsay.

Attorney—Francis H. McKee.

Duties—The public administrator is appointed by the governor to administer the estates of deceased persons under certain contingencies regulated by the statutes of the state of Illinois.

CUSTODIAN COUNTY BUILDING.

Room 1026 county building.

Custodian—John Czekala, D.

COURTS IN COOK COUNTY.

APPELLATE COURT, FIRST DIST., ILLINOIS.

14th floor Boulevard building, Michigan boulevard and Washington street.

Main Court—William E. Dever, presiding justice; William H. McSurely, Jesse Holdom.

First Branch—Charles A. MacDonald, presiding justice; David F. Matchett, Albert C. Barnes.

Second Branch—John M. O'Connor, presiding justice; Charles M. Thomson, Thomas Taylor, Jr. Clerk—James S. McInerney.

Deputy Clerks—Joseph P. Morrison, John J. Dunphy, Michael Normoyle, Robert Mudro, Miss Mary McInerney.

Balliff and Librarian—Andrew Whalen.

Jurisdiction—The Appellate court has jurisdiction of all matters of appeal or writs of error from the Superior, Circuit and County courts, and from the Municipal court of Chicago, except in criminal cases and those affecting a franchise or freehold or the validity of a statute. Decisions are final in cases involving an amount less than \$1,000, except that an appeal may be granted on a certificate of importance, or a review may be allowed on a writ of certiorari from the Supreme court.

Terms of Court—First Tuesdays in March and October of each year.

SUPERIOR COURT.

Courthouse, 4th floor.

Judges.	Terms expire.
Albert C. Barnes, R.	1923
Theodore Brentano, R.	1921
William Fennimore Cooper, D.	1922

Merritt W. Pinckney, R.	Anton T. Zeman, R.

Clerk—August W. Miller, R.; chief clerk, Louis A. Hutt; fourth floor, north end.

Salaries—Same as those of Superior court.

Jurisdiction—Same as that of the Superior court.

Terms of Court—Begin on the third Monday of every month.

COUNTY COURT.

Courthouse, 6th floor.

Judge—Thomas F. Scully, D.; term expires in December, 1922.

Clerk—R. M. Sweitzer, D.; 600 courthouse.

Jurisdiction—The County court has concurrent jurisdiction with the Circuit courts in all cases of appeal from justices of the peace and police magistrates and in all common law matters where the value of property does not exceed \$1,000; concurrent jurisdiction with courts of record in condemnation and special assessment proceedings; exclusive jurisdiction in voluntary assignments, release of insolvent debtors, trials of the right of property, commitment of insane and the support of paupers by their relatives; objections to the sale of real estate for nonpayment of general or special taxes are heard in the County court and all inheritance taxes are levied and collected under its direction; the official bonds of most county and township officers and the yearly reports of clerks, justices of the peace and state's attorneys and other officers of fees collected are subject to the approval of that court; the County court in Cook county has entire management and control of all elections in Chicago.

CRIMINAL COURT.

Criminal court building, West Austin avenue and North Dearborn street.

Judges—Judges of the Superior and Circuit courts alternate in presiding over the Criminal court. Clerk—William R. Parker, R.; office in Criminal court building.

Jurisdiction—The Criminal court of Cook county has original jurisdiction of all criminal offenses except such as is conferred upon justices of the peace, and appellate jurisdiction from justices of the peace.

Terms of Court—Begin on the first Monday of every month.

PROBATE COURT.

Courthouse, 6th floor.

Judge—Henry Horner, D.; term expires in 1922. Assistants—Philip P. Bregstone, Harry G. Keats, I. T. Dankowski, E. G. Purkheiser.

Clerk—John F. Devine, R. Public Administrator—James F. Bishop, D. Public Guardian—Miss Nellie Carlin.

Jurisdiction—The Probate court has original jurisdiction in all matters of probate, the settlement of estates of deceased persons, the appointment of guardians and conservators and settlement of their accounts, and in all matters relating to apprentices, and in cases of sales of real estate of deceased persons for the payment of debts.

Terms of Court—Begin on the first Monday of every month.

JUVENILE COURT OF COOK COUNTY.

Room 1007 County building.

Judge—Merritt W. Pinckney.

Assistant—Mary M. Bartelme.

Chief Probation Officer—Joel D. Hunter.

Jurisdiction—The Juvenile court hears and disposes of cases brought before it under the act to regulate the treatment and control of dependent, neglected and delinquent children, known as the Juvenile court act. It also administers the law providing for the partial support of mothers whose husbands are dead or are incapacitated for work when such mothers have children under 14 years of age. The Juvenile detention home is at 771 Gilpin place.

U. S. CIRCUIT COURT OF APPEALS.

Federal building, 7th floor.

Associate Justice—John H. Clarke.

Judges—Francis E. Baker, Samuel Alschuler,

Julian W. Mack, Evan A. Evans.

Clerk—Edward M. Halloway.

Salary of judges, \$7,000 a year.

Jurisdiction—The Circuit Courts of Appeal have appellate jurisdiction to review final decisions in District courts of Indiana, Illinois and Wisconsin in all cases other than those which may be taken direct to the United States Supreme court.

UNITED STATES DISTRICT COURT.

Federal building, 6th floor.

Judges—Kenesaw M. Landis, George A. Carpenter. Clerk—Thomas C. Mac Millan. Marshal—John J. Bradley.

MUNICIPAL COURTS OF CHICAGO.

City hall, 8th and 9th floors.

Chief Justice—Harry Olson, room 915.

Clerk—James A. Kearns, R.

Bailiff—Dennis J. Egan, D.

Judges.

CHICAGO INTERURBAN TROLLEY LINES.

Following are the principal electric interurban lines with terminals in or near Chicago, with the names of the principal points reached by them:

Chicago & Milwaukee—Terminal in Evanston; makes connection with Northwestern elevated and surface lines to Chicago; runs north to Waukegan, Kenosha, Racine and Milwaukee; branch from Lake Bluff to Libertyville and Rockefeller. Electric lines run from Milwaukee to Burlington, to East Troy, to Waukesha, Pewaukee, Oconomowoc and Watertown and to Sheboygan and Elkhardt lake.

Chicago & Joliet—Terminal at 48th street and Archer avenue; runs southwest to Lockport and Joliet; connects at Joliet with lines for Aurora, Chicago Heights, Morris, Seneca, Ottawa, Starved Rock, Utica, LaSalle, Peru, Spring Valley, Bureau and Princeton. From Ottawa a line runs to Streator.

Aurora, Elgin & Chicago—Terminal at 256 5th avenue; runs in a westerly direction to Wheaton,

where one branch runs northwest to Elgin and one southwest to Aurora; at Eoin Junction on the latter branch a line runs to Batavia. Aurora and Elgin are connected by a line which runs as far south as Yorkville and as far north as Carpenterville. At Elgin connection is made with a line running to Belvidere and Rockford and from the latter place a line runs west to Freeport and another north to Beloit and Janesville. At Aurora a line runs northwest to DeKalb. The Aurora, Elgin & Chicago road is operated on the third rail system.

Chicago & Southern Traction—Terminal at 79th and Halsted streets; runs in a southeasterly direction to Chicago Heights and Nankakee.

Chicago, Lake Shore & South Bend—Terminal at Pullman; runs in an easterly direction to Michigan City and South Bend; connects at South Bend with interurban lines reaching various points in Michigan and Indiana.

"CLOSED" HOURS ON BRIDGES OF CHICAGO.

Following are the hours when the bridges of Chicago are closed to river traffic: Bridges on the main river, on the south branch as far south as 12th street, inclusive, and on the north branch to Kinzie street, inclusive, 6:30 to 9 a. m. and 4:30 to 6:30 p. m.; on the north branch from Kinzie, exclusive, to Hal-

sted street, inclusive, and on the south branch from 12th street, exclusive, to Halsted street, inclusive, 6 to 7 a. m. and 5:30 to 6:30 p. m.; all other bridges from 6 to 7 a. m. and 6 to 7 p. m. Rush street bridge may be opened half an hour earlier in evening to admit passage of passenger boats.

Compensation—Hiff, Richert, Kerner, R. H. McCormick, Lipps, Watson, Moran, Fisher, Toman.

Parks, Playgrounds and Beaches—Long, Jackson, Furman, Govier, Piotrowski, Adamkiewicz, Haderlein, Lyle, A. O. Anderson (members other than aldermen not yet appointed).

Home Defense—Kostner, Hiff, McDonough, Govier, Touhy, Bowler, Steffen, Lyle, T. J. Lynch.

CITY CLERK'S OFFICE.

City hall, first floor, south end.
City Clerk—James T. Igoe, D.
Chief Clerk to City Clerk—Edward J. Padden.
Duties—The city clerk keeps the corporate seal of the city and all city council documents. He attends the meetings of the council and keeps the journal of its proceedings. All city licenses are issued through his office. He is secretary of the board of trustees of the firemen's pension fund. The city clerk also issues hunters' licenses.

CITY TREASURER'S OFFICE.

City hall, second floor.
Hours—9 a. m. to 5 p. m.; open to public, 10 a. m. to 3 p. m.
City Treasurer—Clayton F. Smith, D.
Assistant—Joseph Ruskiewicz.

Chief Clerk—Albert J. Keefe.

Chief Cashier—J. C. Smith.

Duties—The city treasurer is an elective, charter officer of the city of Chicago; he is also school treasurer of the city of Chicago; treasurer of the firemen's pension fund, public school teachers' pension and retirement fund, public school employes' pension fund, public library employes' pension fund, municipal pension fund of Chicago, and house of correction employes' pension fund. The treasurer receives all moneys belonging to the corporation, deposits the funds in bank, keeps separate accounts of each fund or appropriation. He is the custodian of the taxes, license fees and all other moneys and securities belonging to the various funds of which he is the treasurer. All disbursements of funds are made by the treasurer on warrants signed by officials who are designated by statute.

The legislature, by statutory enactments, requires the city treasurer to render reports at stated periods showing the condition of the treasury of the city and the balance of money in the treasury, and to make such additional reports as the city council from time to time shall require. For this reason and for the further purpose of supervising and limiting expenditures to the amounts appropriated by the city council for each object and purpose, the treasurer is by statute required to keep the accounts of all funds or appropriations and of the debts and credits pertaining thereto. The city's books and accounts must be kept open by the treasurer for inspection by the committee on finance and all members of the city council whenever information concerning the city's financial affairs is required.

As school treasurer he is required by the state school law to keep books and accounts concerning the financial affairs of the board of education, including a record of the revenues collected from taxation or received from the state common school fund, etc., and to make reports at stated periods concerning the state of the school treasury and the balance of money in that treasury at the time such reports are made. His books and accounts concerning school matters must be kept open for inspection by the members of the board of education whenever information concerning the financial affairs of the board of education is required. His bond, at the present time, is fixed at \$2,000,000.

CITY COMPTROLLER'S OFFICE.

Room 501 city hall.

Comptroller—Engene R. Pike, R.

Deputy Comptroller—Louis E. Gosselin, D.

Chief Clerk—Charles J. O'Connor.

Duties—The comptroller acts as the head of the department of finance of which the treasurer and collector are also members. He is charged with a general supervision over all the officers of the city who take in or pay out city money. He is the fiscal agent of the city and as such has charge of deeds, mortgages, contracts, etc. He audits and settles claims, keeps a record of persons committed to the house of correction, with fines, etc.; keeps books relating to appropriations, makes the annual estimates, signs warrants upon the city treasury, etc.

PAYMASTER'S BUREAU.

Room 503 city hall.

Paymaster—John L. Healy.

Duties—The city paymaster has immediate charge of paying the salaries of city employes, including school teachers and library employes.

CITY COLLECTOR'S OFFICE.

City hall, first floor, room 107.

City Collector—Charles J. Forsberg, R.
Deputy City Collector and Cashier—George F. Lohman.

Duties—The city collector collects all license fees, fees for inspections and permits, compensation for franchisees and vehicle tax; collects on special assessment warrants; transmits such payments to city treasurer daily, receipts for which are filed with the city comptroller.

CITY LAW DEPARTMENT.

Corporation Counsel.

Corporation counsel's office, fifth floor, city hall; telephone main 447.

Corporation Counsel—Samuel A. Ettelson.

First Assistant Corporation Counsel—Frank S. Righmeier.

Secretary to the Corporation Counsel—Wilbur F. Hartman.

Assistants—Frank D. Ayers, James W. Breen, Henry T. Chace, Jr., John Buges, Morton S. Cressy, George A. Curran, G. A. Dahlberg, George W. Ellis, A. O. Erickson, H. C. Foster, Roy S. Gaskill, Leon Hornstein, George Kandlik, B. F. Kleeman, Charles E. Peace, Daniel A. Roberts, Edward J. Smejkal, Edward H. Wright, Emmanuel Eller.

Law Department, Board of Local Improvements.

Room 206 city hall.

Assistant Corporation Counsel and Attorney Board of Local Improvements—Albert Green, Jr.
Assistant Corporation Counsel and Assistant Attorneys for Board of Local Improvements—Engene H. Dupee, George P. Foster, William T. J. Halley, Otto W. Ulrich, Harry Tiffany.

City Attorney.

Room 602 city hall.

City Attorney—William H. Devenish.

Chief Assistant City Attorney—Joseph J. Sullivan.

Trial Attorneys—Samuel M. Hamilton, Ralph W. Condee.

Assistant Trial Attorneys—Henry J. Gibbs, Jerry M. Brumfield, Robert L. Campbell.

Appellate Court Attorney—Edward Kelley.

Action Over Attorney—James J. O'Toole.

Chief Investigator—William Stocker.

Chief Clerk—Age Zylstra.

Docket Clerk—C. J. Righmeier.

Prosecuting Attorney.

Room 604 city hall.

Prosecuting Attorney—Harry B. Miller, R.

Chief Assistant—Daniel Webster.

Chief Clerk—L. P. Piquett.

Assistants—Edward J. Lyons, Lawrence Jacobs, Rupert F. Bippus, Harry W. Meneley, Charles Roloff, W. E. Moss, Harry W. Starr, Francis Day, Edward H. Luebeck, Alex. Freundlich, William Schulze, Adolph Borgmeyer, Chas. C. Bombaugh.

Duties—The corporation counsel superintends and with the assistance of the prosecuting and city attorneys conducts all the law business of the city; draws the leases, deeds and other papers connected with the finance department and all contracts for any of the other departments of the corporation; drafts such ordinances as may be required of him by the city council or its committees and furnishes written legal opinions upon subjects submitted to him by the mayor or the city council or any department of the city government.

CITY ENGINEER'S OFFICE.

City hall, fourth floor.

City Engineer—John Ericson, C. E.

Assistant City Engineer—H. W. Clausen.

Chief Clerk—W. J. Roach.

Duties—The city engineer has charge of the construction, maintenance and operation of bridges, viaducts and waterworks and performs all such services for the commissioner of public works as require the skill and experience of a civil engineer.

In Charge of Divisions.

Construction—Henry W. Clausen.

Operation—Frank McDonough.

Water Pipe Extension—H. L. Lucas.

Repairs and Shop—Axel Akers.

Designing—George F. Samuel.

Inspection and Testing—L. S. Marsh.

Bridges and Viaducts—Thomas G. Pihlfeldt.

Harbor Master—Jacob F. McComb.

BUREAU OF RIVERS AND HARBOR.*Members of Board Ex Officio.*

Commissioner of public works, chairman; city comptroller, city engineer, harbor master, superintendent bureau of compensation, chairman council committee on harbors, wharves and bridges, chairman council committee on compensation.

Duties—Members of the board serve without compensation other than their salaries as city officials. They have the management and control of all matters pertaining to the municipal pier in harbor district No. 1 and all other harbor utilities and appurtenances when they are ready to use. The board keeps books of accounts of such utilities and makes an annual financial report to the city council. It is required to promote the fullest use and development of the pier and other harbor utilities.

Superintendent of Piers—Hugo Krause, R.

Duties—The superintendent of piers is appointed under the rules of the civil service board. He is under the supervision and control of the harbor board and performs such duties as the board may prescribe. As his title implies, he carries out the rules of the board relating to the operation of the municipal pier or piers.

DEPARTMENT OF PUBLIC SERVICE.

Room 613 city hall.

Commissioner—John P. Garner, R.

Secretary—P. G. Nix.

Bureau Supervisors.

Transportation—H. P. Kelker, Jr.

Telephone—G. W. Cummings.

Gas and Electric—Fred Abele.

Duties—The department requires all public utilities under its control to comply with the provisions of their grants. It investigates such utilities and gathers information concerning them; receives, investigates and adjusts complaints regarding service, rates, products and other matters relating to the health, comfort, safety and convenience of the public, as affected by such utilities; conducts tests of gas and electric meters and makes reports to the city council. The supervisor of transportation handles all matters relating to service and rates of street car lines, surface and elevated, and all transportation complaints. The supervisor of the gas bureau handles the testing of gas meters and matters relating to the gas service, rates and enforcement of laws. The supervisor of the telephone bureau looks after all matters relating to the telephone service and rates. The supervisor of the electric bureau looks after the electric light and power service. The supervisor of the engineering bureau makes certain property valuations and prepares maps, charts, utility statistics and engineering data for the other bureaus.

BOARD OF SUPERVISING ENGINEERS—CHICAGO TRACTION.

105 South LaSalle street.

Secretary—Lucius H. Davidson.

Board No. 1.

Chairman—Blon J. Arnold.

Representing City of Chicago—F. L. R. Francisco.

Representing Chicago City Railway Company and Southern Street Railway Company—Harvey B. Fleming.

Representing Chicago Railways Company—John Z. Murphy.

Engineer for Board—George Weston.

Board No. 2.

Chairman—Blon J. Arnold.

Representing City of Chicago—F. L. R. Francisco.

Representing Calumet & South Chicago Railway Company—Harvey B. Fleming.

BUREAU OF WATER.

City hall, first floor.

Superintendent—William J. McCourt.

Chief Clerk—George J. Feser.

Accountant—James J. Dunn.

Cashier—Otto A. Dreier.

Chief Water Assessor—Thomas H. Byrne.

Field Assessor in Charge—J. J. Ward.

Duties—The superintendent of water has special charge of the assessment and collection of water rates.

BUREAU OF STREETS.

Room 408 city hall.

Superintendent—Felix S. Mitchell.

First Assistant Superintendent—Charles I. Smith.

Second Assistant Superintendent—W. J. Galligan.

Third Assistant Superintendent—Thomas L. Mulroy.

Duties—The superintendent of streets performs such duties as are required of him by the commissioner of public works or the ordinances of the city. He has special charge of the streets, sidewalks and public ways of the city and of the improvement and repair thereof, except where such repair or improvement is to be paid for by special assessment. The first assistant superintendent performs such duties as may be required of him by the commissioner of public works, the superintendent of streets or the city ordinances, and acts as superintendent in the latter's absence. The second assistant superintendent has charge of the cleaning of the streets and alleys of the city, including the removal and disposition of garbage, litter, dirt, ashes, offal and other materials. He also sees that the ordinances relating to garbage, etc., are enforced and that violations thereof are reported for prosecution. The third assistant has charge of the improvement and repairs of the streets and alleys, except where such repairs or improvements are to be paid for by special assessment.

BUREAU OF SEWERS.

Room 409 city hall.

Superintendent—George E. McGrath.

Engineer in Charge of Benches and Grades—William R. Matthews.

Inspector in Charge—Edward J. Hayes.

Principal Clerk—Ed Cullerton, Jr.

Duties—The superintendent has charge of the maintenance of sewers, including cleaning and repairing; issuance of permits for all connections; approves plans for all new sewers and gives final inspection and approval.

BUREAU OF MAPS.

Room 410 city hall.

Superintendent—John D. Riley, D.

Duties—Has special charge of city maps and plats and all matters pertaining to street numbering, and is examiner of subdivisions.

BUREAU OF COMPENSATION.

Room V-15 city hall.

Superintendent—Henry V. McGurren.

Duties—Shall, under the direction of the commissioner of public works, have charge of and receive all applications for permits to use streets and alleys, or public grounds, or any space beneath the same; shall attend to all matters connected with the issuance of such permits; also act in an advisory capacity to the committees on compensation, local industries and streets and alleys of the city council. The superintendent is ex officio member of the Chicago harbor board, which has supervision of the municipal pier and acts as secretary of that body.

BOARD OF LOCAL IMPROVEMENTS.

City hall, second floor, south end.

Members—Michael J. Faherty, president; David W. Clark, vice-president; L. Withall, assistant secretary; William H. Blencoe, Oscar Wolff.

Superintendent of Special Assessments and Secretary—Edward J. Giacklin.

Engineer Board of Local Improvements—Cleoro D. Hill.

Chief Engineer of Streets—Julius G. Gabelman.

Superintendent of Sidewalks—N. E. Murray.

Chief Clerk—T. Sullivan.

Duties—Making local improvements by special assessments in accordance with the local improvement act.

DEPARTMENT OF PUBLIC WORKS.

Room 406 city hall.

Commissioner—Charles R. Francis, R.

Deputy Commissioner—William Burkhardt, R.

Duties—The commissioner of public works is the head of the department of public works, which embraces the bureaus of engineering, streets, sewers, water, maps and plans, compensation, architecture, city hall, rivers and harbors, waste disposal, parks, playgrounds and bathing beaches. He is also chairman of the harbor board, which has jurisdiction over the municipal pier. The commissioner of public works has special charge and superintendence, subject to the ordinances of the city, of all streets, alleys, highways, walks, bridges, viaducts, docks, wharves, public places, public landings, public grounds, markets and market places and public buildings belonging to the city; of all works for the deepening and widening or dredging of the Chicago river and its branches, and of the harbor of said city; of all sewers and works pertaining thereto; and of the waterworks and collection of water rates and fees for the use of water or for permits issued in connection with the waterworks system, and of all sewerage permits and licenses; the awarding and execution of all contracts for any work or public improvement not done by special assessment, and the letting of all contracts for coal for use of any department of the city.

BOARDS OF EXAMINERS.

Suite 1008 city hall.

Board of Examiners of Stationary Engineers.

President—Edward L. Miller.

First Vice-President—Edward F. Moore.

Second Vice-President—James N. Spencer.

Chief License Inspector—Henry G. McMahon.

Duties—The board of examiners of stationary engineers is appointed by the mayor. It consists of three members, all of them practical engineers and competent judges of the construction of steam boilers and engines and experienced in their operation. The board examines applicants for licenses as engineers and boiler or water tenders and issues to such applicants as are found qualified proper certificates; each certificate issued expires by limitation one year from date. An application for an engineer's license must be accompanied by a fee of \$3 and for a boiler tender or water tender's license by a fee of \$1. Applicants are required to pass by a percentage of 70 or more.

Board of Examiners of Plumbers.

Chairman (ex officio)—Dr. John Dill Robertson, commissioner of health.

Master Plumber—Charles J. Herbert.

Journeyman Plumber—William W. Petrie.

Board of Examiners of Mason Contractors.

Chairman—Charles C. Stewart.

Vice-Chairman—William P. Crowe.

Duties—This board examines applicants as to their practical knowledge of masonry construction and if satisfied as to competency issues license. License expires one year from date of issuance. Original license, \$50; renewal, \$25.

DEPARTMENT OF BUILDINGS.

Room 702 city hall.

Commissioner—Charles Bostrom, R.

Deputy Commissioner—Robert Knight.

Secretary—Peter C. Hoey.

Duties—The building commissioner sees to it that new buildings are put up in accordance with the city ordinances, that old existing buildings are brought into compliance with the revised building ordinances, that fire escapes are provided where needed, that unsafe structures are demolished or repaired, that safe exits are provided in halls, theaters and all other places of amusement.

DEPARTMENT OF GAS AND ELECTRICITY.

Room 614 city hall.

Commissioner of Gas and Electricity—William G. Keth, R.

Deputy Commissioner of Gas and Electricity—Henry Nixon.

Chief Operator—Frank W. Swenic.

Superintendent of Construction—Harry Leser.

Chief Clerk—John E. Bradley.

Chief Electrical Inspector—Victor H. Tousley.

Duties—The commissioner of gas and electricity has charge of construction and operation of the city's street lighting circuits, equipment and substations and the police and fire alarm telegraph systems, the inspection of all electrical installation within the city limits, the registration of electricians and the examining of moving picture operators.

DEPARTMENT OF SUPPLIES.

City hall, floor 3½.

Business Agent—James Rea, R.

Duties—The business agent buys all supplies for city departments.

BUREAU OF STATISTICS.

Room 1006 city hall.

City Statistician—John B. Strassburger, R.

Duties—The bureau of statistics being in the department of the mayor, the city statistician does whatever work may be assigned him from the mayor's office, and he supplies data on municipal subjects to the aldermen and heads of departments whenever such are required of him. And he renders like service to the general public upon call, or letter received, from any person residing in Chicago or elsewhere.

MUNICIPAL REFERENCE LIBRARY.

Room 1005 city hall.

Municipal Reference Librarian—Frederick Rex.

Duties—The municipal reference library is the city hall branch of the Chicago public library. Its function is to provide, arrange and render available for the use of the members of the Chicago city council, its various committees and municipal department and bureau heads public reports and other data bearing upon the legislative and administrative projects before them. All laws and ordinances of other cities or states bearing upon the questions before the city council are secured and this material is analyzed, indexed and prepared so that it will be readily at hand. The library keeps on file material of a local character bearing on local questions and collects and compiles statistical information relating to the activities of all branches of the municipal government. All reports printed or published by the different governing bodies in the city of Chicago or any of the departments or bureaus of the municipal government are kept on file. The library possesses one of the most complete collections of the charters and ordinances of domestic and foreign cities extant in the United States. A large number of municipal journals and magazines are received and an index is made of all ordinances pending before the city council of Chicago and other cities. If any information desired is not on file an effort is always made to secure it as promptly as possible.

DEPARTMENT OF HEALTH.

City hall, seventh floor.

Commissioner of Health—John Dill Robertson, M. D.

Assistant Commissioner—G. Koehler, M. D.

Secretary—E. R. Pritchard.

Office Secretary—S. F. Manning.

Chief Bureau of Vital Statistics—M. O. Heckard, M. D.

Chief Bureau of Medical Inspection—Heman Spalding, M. D.

Assistant Chief Bureau of Medical Inspection—

I. D. Rawlings, M. D.

Assistant Chief Bureau of Medical Inspection—

H. O. Jones, M. D.

Chief Bureau of Sanitation—Charles B. Ball.

Assistant Chief Bureau of Sanitation—Thomas J. Claffy.

Chief Bureau of Food Inspection—A. J. Stokes, M. D.

Chief Bureau of Hospitals, Baths and Comfort

Stations—W. K. Murray, M. D.

Director of Laboratory—F. O. Tonney, M. D.

City Physician—Clarence W. Leigh, M. D.

Duties—The commissioner of health and his assistants enforce state laws and city ordinances relating to sanitation and cause all nuisances to be promptly abated. They keep records of deaths and other vital statistics, investigate all cases of contagious diseases and take all necessary steps to prevent their spread, such as providing for vaccination, disinfection, etc. The city physician attends to all cases in the police stations requiring medical attention.

POLICE DEPARTMENT.

Headquarters—Fifth floor city hall, north end.
General Superintendent—John J. Garrity.
Secretary to General Superintendent—William H. Luthardt.

First Deputy Superintendent—Morgan A. Collins (acting).

Second Deputy Superintendent—Charles E. Frazier (tenth floor, north end).

Secretary Police Department—St. Mayer (tenth floor, north end).

Chief Clerk—Phil McKenna (tenth floor, north end).

Drillmaster—John Bauder (third floor).

Chief of Detectives—James L. Mooney.

Custodian-Joseph Capp (third floor, south end).

Captains—Max Nootbaar, Thomas P. Coughlin,

John J. Ryan, Patrick J. Lavin, Thomas H.

Costello, Joseph Smith, Henry E. Gorman,

Thomas F. Cronin, James Madden, John E.

Ptaeck, Thomas F. Meagher, John D. McCarthy,

Stephen B. Wood, Mathew Zimmer, Max L.

Danner, James O'Toole, William W. Cudmore,

James Gleason, J. C. Mullins, Michael J. Gal-

lery, William F. Russell, James P. Allman, W.

A. Westover.

Duties—The police department is charged with preserving order, peace and quiet and enforcing the laws and ordinances throughout the city. Police officers have the power to make arrests and to serve warrants. They are required to assist firemen in saving property, in giving alarms of fire and in keeping the streets in the vicinity of burning buildings clear. They are also required to take notice of all obstructions and defects in the streets, nuisances, etc.

HOUSE OF CORRECTION.

California avenue, near 26th street.

Superintendent—Joseph Siman, R.

Deputy Superintendent—P. J. O'Connell.

House of Correction Inspectors—Ralph Esau, chairman; George T. Moxley, secretary; John J. Sloan.

Duties—The superintendent has charge of the house of correction under the supervision and direction of the board of inspectors, enforces order and discipline, receives prisoners and discharges them on order or on expiration of sentence.

FIRE DEPARTMENT.

Headquarters—Room 105 city hall.

Fire Marshal—Thomas O'Connor.

First Assistant Fire Marshal and Department

Inspector—Edward J. Buckley.

Second Assistant Fire Marshal and Department

Inspector—(Vacancy).

Third Assistant Fire Marshal—A. R. Seyferlich.

Fourth Assistant—J. McAniff.

Fifth Assistant—Patrick J. Egan.

Sixth Assistant—James J. Costin.

Department Attorney—John R. McCabe.

Office Secretary—William Short.

Battalion Chiefs—1st, Daniel J. Carmody; 2d,

Benjamin O'Connor; 3d, Frank Oswald; 4th,

Charles N. Heaney; 5th, Henry Wendt; 6th,

Thomas J. Reynolds; 7th, Michael Kerwin;

8th, John P. Stahl; 9th, Patrick Rogers; 10th,

David J. Mahoney; 11th, John J. Costello;

12th, Joseph L. Kenyon; 13th, Frank Conway;

14th, Michael R. Driscoll; 15th, James Ward;

16th, John F. Smith; 17th, George H. McAllister;

18th, Edward F. McGurn; 19th, James

Crapo; 20th, Thomas P. Kenney; 21st, Anthony

McDonald; 22d, William H. Miller; 23d, Eugene

Sweeney; 24th, John Evans; 25th, Michael Cor-

rigan; 26th, Frank Grady. Auxiliary battalion

chiefs: William Dillon, John Touhey, Charles

Persons, Richard Thomasius, Francis Byrnes, Daniel Moore.

Superintendent Insurance Patrol—E. T. Shepherd, 163 West Monroe street.

Duties—The fire marshal has sole and absolute control over all persons connected with the fire department and has the custody of the equipment and other property of the department. The fire inspector investigates the causes of fires and keeps a record of the same. The secretary keeps all books and papers of the department and delivers to the city council and other departments the written communications of the fire marshal.

BUREAU OF FIRE PREVENTION AND PUBLIC SAFETY.

Headquarters—Room 603 city hall.

Chief of Bureau—John C. McDonnell.

Fire Prevention Engineer in Charge—Charles W. Hejda.

Chief Clerk—T. J. Sullivan.

Duties—The chief of fire prevention and public safety shall have the power and it shall be his duty to enforce the provisions of all ordinances of the city of Chicago which may tend to prevent the starting or spreading of fires or disastrous results in case of fires.

CIVIL SERVICE COMMISSIONERS.

Room 610 city hall.

Commissioners—Percy B. Coffin, president; Joseph P. Geary, D.; Alexander J. Johnson, R.

Secretary and Chief Examiner—Harry E. Wallace.

Counsel—Hervey V. Foster.

Duties—The commissioners classify offices and places in the city service, fix standards of duties, salaries and tests, examine applicants for employment in such offices and places, certify to the heads of departments as required the names of those standing highest on the list of eligibles, investigate charges against employes in the classified service, remove employes for cause and check payments. Two weeks' notice by advertisement of the time and place of holding examinations is given.

ELECTION COMMISSIONERS.

City hall, third floor, south end.

Commissioners—August Lueders, D., chairman;

Bernard Horwich, R., secretary; Frank X.

Rydzewski, D.

Chief Clerk—Dennis J. Egan.

Attorney—Collin C. H. Fyffe.

Duties—The commissioners fix the election precincts, provide ballot boxes, tally sheets, poll-books and all other blanks and stationery necessary in an election, select judges and clerks of election, canvass the returns of votes and, in brief, have charge of everything pertaining to the registration of voters and the holding of all regular, special and primary elections.

DEPARTMENT OF SMOKE INSPECTION.

Room 608 city hall.

Chief Smoke Inspector—William H. Reld.

Supervising Mechanical Engineer—F. A. Chambers.

Chief Clerk—Edward R. Laub.

OIL INSPECTOR'S OFFICE.

Room 1013 city hall.

Oil Inspector—Hugh Norris, R.

MUNICIPAL LODGING HOUSE.

162 North Union avenue.

Superintendent—Harry Neal.

CITY ARCHITECT.

Room 1012 city hall.

City Architect—Charles W. Kallal.

DEPARTMENT OF WEIGHTS AND

MEASURES.

Vault floor, city hall.

Inspector Weights and Measures—Morris Eller, R.

Chief Deputy—William F. Cluett.

DEPARTMENT FOR THE INSPECTION OF STEAM BOILERS, STEAM AND COOLING PLANTS.

Room 111 city hall.

Chief Inspector—George E. Nye.

SALARIES OF CHICAGO CITY OFFICIALS AND EMPLOYES (1918).

The following list includes the more important offices and positions in the exempt and fixed by the appropriation bill for 1918 and classified service except those in the educational department, which will be found elsewhere in this volume. The salaries are those and are yearly if not otherwise specified.

MUNICIPAL PIER AND OUTER HARBOR.

Four outer harbor sites along Chicago's lake front were established by the city council Nov. 20, 1911. The ordinances provided for the following districts:

No. 1—From the mouth of the Chicago river north to Chicago avenue and extending one mile into Lake Michigan.

No. 2—From the mouth of the Chicago river south to Randolph street and extending one mile into the lake.

No. 3—From the south end of Grant park south to 31st street and extending one mile into the lake.

No. 4—All of the Calumet river within the city and all of Lake Calumet.

Feb. 7, 1912, the harbor and subway commission submitted to the council committee on harbors, wharves and bridges preliminary plans and drawings for the initial development of "outer harbor district No. 1." In this report the commission stated that it had proceeded on the theory that joint and parallel action by the federal government would be taken to protect the initial piers recommended by the construction of an adequate outer breakwater. The plan proposed by the commission provided for the construction of five piers extending eastward from the shore line between the mouth of the Chicago river and Chicago avenue, with a uniform length for four piers of 2,500 feet and one pier of 3,000 feet. At the election of April 3, 1912, a proposition to issue \$5,000,000 in bonds for harbor construction was approved by popular vote. It was found, however, that the O'Connor harbor, act

contained a provision prohibiting the city from acquiring title to property along the lake shore line where it has been filled in or where the riparian rights were in dispute. The harbor law was re-enacted in amended form in June, 1913, by the legislature and in August of the same year land along the lake shore between Illinois and Ohio streets was acquired for \$300,000, and arrangements for building the first pier were made at once. Contracts were let and work was actually begun March 16, 1914. The pier was practically completed near the close of 1915, and was used in 1916.

The pier extends 3,000 feet into the lake from the foot of Grand avenue. It rests on a foundation of concrete and piling, the superstructures being of brick and steel. The headhouse, as the building at the shore end of the pier is called, contains the administration offices and the entrances to the two freight and passenger buildings. Each of these is two stories in height, 2,340 feet long and 100 feet in width. The upper story is for passengers and the lower for freight. Between these buildings, which stand parallel to each other, is a roadway eighty feet in width. Between each building and the outer line of the dock is a six-foot dock. The total width of the pier is 292 feet. On the outer end is a recreation building, 665 feet long, containing a dance and concert hall, restaurant and other features of entertainment.

The total cost of the pier was approximately \$3,400,000, not including engineering and inspection. It is municipally owned and operated.

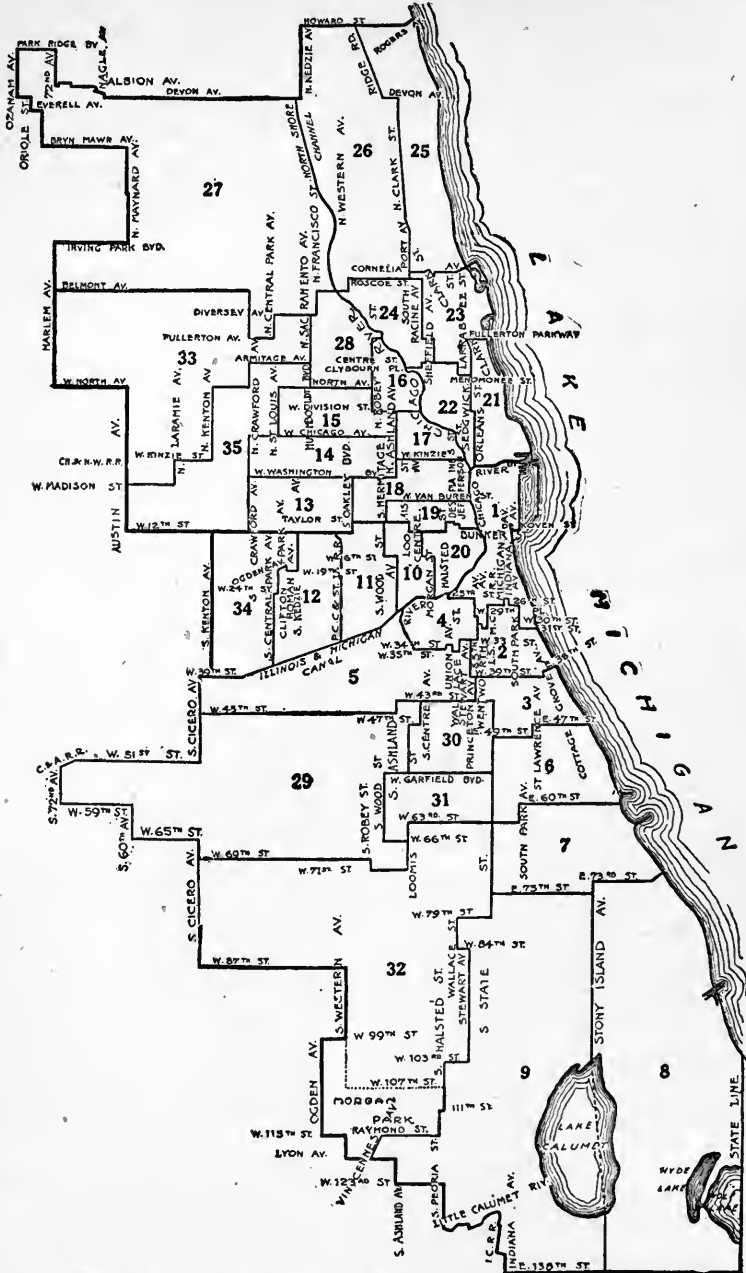

WIDTH OF TIRES REQUIRED IN CHICAGO.

The wide tire ordinance passed by the Chicago city council Feb. 4, 1908, requires that all four wheeled vehicles shall have tires proportionate to the load they carry, as follows:

Tires, inches.	Load.
3,000 pounds or under.....	1½
Between 3,000 and 4,000 pounds.....	2
Between 4,000 and 6,000 pounds.....	2½

Tires, inches.	Load.
Between 6,000 and 8,000 pounds.....	3¼
Between 8,000 and 10,000 pounds.....	3¾
Between 10,000 and 14,000 pounds.....	4¼
Between 14,000 and 18,000 pounds.....	5
Over 18,000 pounds.....	8

The width for two wheeled trucks is double.

MAP OF CHICAGO SHOWING WARD BOUNDARIES.

CHICAGO WARD BOUNDARIES.

As fixed by the redistricting ordinance of Dec. 4, 1911.

Ward.

1. Chicago river west and south of Wallace, south to W. 25th, east to Princeton, south to W. 28th-pl., east to S. RULES OF THE ROAD FOR MOTOR AND OTHER VEHICLES.

[From Chicago police ordinances.]

All vehicles shall keep as close to the right hand curb as prudence and safety shall permit, except when overtaking and passing another vehicle and except when running within car tracks. An overtaken vehicle must at all times be passed on its left side, except that in case of motor vehicles and motorcycles passing street cars or other vehicles when running within the car tracks; in such case such motor vehicle or motorcycle shall not turn to the left into the track reserved for street cars and vehicles moving in the opposite direction, but shall pass to the right of such street car or vehicle so overtaken.

Vehicles upon overtaking any street car which is stopped for the purpose of discharging or taking on passengers must not approach nearer than ten feet of it nor pass it while it is so stopped.

No vehicle, unless in charge of a driver, is permitted to stand more than 30 minutes in any street or alley in the district bounded by Lake street, Wabash avenue, Harrison and Market streets.

Mufflers and horns or bells are required on all automobiles and motorcycles. Light showing license number to be controlled from outside. Headlights must not be so bright as to dazzle or confuse.

No vehicle shall proceed at a speed greater than the law allows and which is safe and proper under the conditions obtaining. The state law prohibits a speed greater than ten miles an hour in business and fifteen miles an hour in residence districts of cities and villages.

No vehicle shall cross any street at a speed exceeding one-half its legal speed.

No vehicle shall emerge from any alley, stable or garage at a pace faster than a walk.

On all thoroughfares the heavy and slow moving vehicles shall, as far as conditions permit, keep to the right, to allow the rapid moving and lighter traffic to proceed independently.

A vehicle meeting another shall turn to the right.

A vehicle turning into another street to the right shall turn the corner as near the right hand curb as possible.

A vehicle turning into another street to the left shall circle around the center of the street intersection.

A vehicle crossing from one side of the street to the other shall keep to the right.

No vehicle shall stop with the left side to the curb.

No vehicle shall stand backed up to the curb except when actually loading or unloading.

No vehicle shall, except in emergencies, stop in any street or highway except near the right hand curb so as not to obstruct a crossing.

No vehicle shall back to make a turn in any street if by so doing it interferes with other vehicles, but shall go around the block or to a street wide enough to turn in without blocking the traffic.

Vehicles will enter north and south alleys and all L-shaped alleys from the north and leave from the south; east and west alleys from the east and leave from the west.

Horse drawn vehicles have the right of way over power driven vehicles, street cars excepted. Motor vehicles are not permitted to stand within fifteen feet of a hydrant.

No private vehicle shall be permitted to stand or use the space in a public stand except to receive or discharge passengers or merchandise.

No driver of a public vehicle shall seek employment by repeatedly driving his vehicle to and fro in a short space before any theater, hotel, railway station, boat landing or other place of public gathering. Any driver may solicit employment by driving through any public street without stops other than those due to obstructions to traffic and at such speed as not to interfere with traffic, and he may pass and re-pass theaters, hotels, etc., but must go at least two blocks before turning back.

Loading Zones.

Loading zones at which vehicles may stop for the purpose of loading or unloading merchandise destined for or received from near by buildings have been established at the following places:

- West curb of North State north of Randolph.
- West curb of North State north of Washington.
- East curb of Dearborn south of Madison.
- East curb of Dearborn south of Washington.
- East curb of Dearborn south of Randolph.
- West curb of Clark north of Madison.
- West curb of Clark north of Monroe.
- East curb of LaSalle south of Madison.
- East curb of LaSalle south of Washington.
- North curb of Randolph east of Dearborn.
- North curb of Washington east of Dearborn.
- North curb of Washington east of Clark.
- North curb of Washington east of LaSalle.
- North curb of Madison east of Dearborn.
- North curb of Madison east of Clark.
- North curb of Madison east of LaSalle.
- South curb of Monroe west of Clark.
- South curb of Monroe west of Dearborn.

The loading zones are the spaces between the curbs and the nearest street car tracks for a distance of not to exceed 100 feet from the corner lot line. Vehicles in passing through loading zones shall do so in single file and keep as close as possible to the curb on the right.

Vehicles Standing on Street.

No vehicle shall be permitted to stand continuously in one place in any public street or alley in the city of Chicago within the district bounded on the north by the north line of Lake street, on the east by the east line of Wabash avenue, on the south by the south line of Harrison street and on the west by the west line of Market street between the hours of 6 a. m. and 7 p. m. for a longer period than 30 minutes, except at public vehicle stands.

No vehicle shall be permitted to stand on any public street or alley in the city of Chicago upon which street cars are operated within the district bounded on the north by the north line of Lake street, on the east by the east line of Wabash avenue, on the south by the south line of Van Buren street and on the west by the west line of Market street during the hours from 7 a. m. to 10 a. m. and from 4 p. m. to 7 p. m. for a longer period at any one time than will be necessary for such vehicle to load or unload its occupants, baggage or merchandise.

Public Vehicle Stands.

1. South side of Randolph from LaSalle to Clark.
3. North side of Washington from Garland court to Michigan avenue.
4. North side of Washington from Clark to LaSalle.
5. South Side of Madison from Wabash to Michigan avenue.
6. South side of Madison from Clark to Dearborn.
7. North side of Madison from Clark to LaSalle.
8. South side of Adams from Michigan avenue to Wabash.
11. South side of Quincy from Dearborn to State (sightseeing cars only).
12. South side of Van Buren from Michigan avenue to Wabash.
14. South side of Congress from State to Wabash.
15. North side of Harrison from Wells to Franklin.
16. North side of 8th street from State to Wabash.
17. South side of 8th street from State to Wabash.
18. North side of Park row from Michigan avenue to Illinois Central.
19. West side of Wabash from Randolph to first alley north.
20. West side of Wabash from Congress to Harrison.
21. West side of Plymouth court from Polk to 300 feet north.

22. West side of Plymouth court from Jackson to 100 feet south.
23. West side of Dearborn from Randolph to Washington.
24. West side of Dearborn from 150 feet north of Van Buren to 50 feet south of Jackson.
25. West side of Clark from Hotel Sherman to Lake.
26. West side of Clark from 50 feet south of Randolph to Washington.
28. East side of Clark from 100 feet south of Madison to Monroe.
29. East side of Clark from Jackson to Adams (sightseeing cars only).
30. East side of LaSalle from Madison to alley north.
31. West side of LaSalle from 50 feet south of Monroe to 50 feet north of Adams.
32. West side of LaSalle from Jackson to Van Buren.
33. East side of Canal from Madison to Washington.
50. North side of 35th street from 100 feet east of Shields to 240 feet east.
51. North side of 35th street from 350 feet east of Shields to 300 feet east.
52. North side of 39th street from Cottage Grove to 50 feet east.
53. North side of Addison from Clark to 50 feet east.
54. North side of Addison from 150 feet east of Clark to 200 feet east.
55. East side of Broadway from Wilson to 200 feet south.
56. East side of Calumet from 51st street to 50th street.
57. West side of Canal from Adams to Monroe.
58. East side of Canal from 119 feet south of Madison to 33d street.
59. East side of Canal from 119 feet north of Adams to 140 feet north.
60. East side of Clarendon from north and south of main entrances to beach to 175 feet south and 100 feet north thereof.
61. East side of Clarendon from Wilson to 150 feet north.
62. East side of Clark from North avenue to 250 feet south.
63. West side of Clark from 20 feet south of Division to 250 feet south.
64. East side of Clark from Broadway to 150 feet north.
65. East side of Cottage Grove from 39th street to alley 130 feet north.
66. East side of Cottage Grove from 100 feet south of 63d to 64th street.
67. West side of Indiana from 39th street to 134 feet south.
68. South side of Madison from Kedzie to 260 feet east.
69. South side of Ohio from Rush to Cass.
70. East side of Robey from North avenue to 85 feet north.
71. East side of Shields from 35th street to 225 feet north.

Parking for Automobiles.

The only free parking place for automobiles in Chicago is in Grant park, across from Van Buren street.

NEW UNION RAILWAY STATION.

Ordinances for a new union passenger station and new freight terminals on the west side were passed by the city council March 23, 1914, after many months of investigation and consideration. Under the ordinances the union passenger station, to be occupied by the Pennsylvania, Burlington, Alton and St. Paul railroads, is to be located on the block bounded by Canal, Adams, Clinton and Jackson streets. Under Canal street there will be a subway connecting a large concourse on the east of that thoroughfare with the station. Sixteen passenger tracks will lead to the south and ten to the north. This part of the passenger terminal will reach practically from Carroll avenue on the north to 12th street on the south. The Pennsylvania freighthouses will be located immediately north of 12th street and extend to Taylor street, while the Burlington freighthouses will be between Harrison and Taylor streets and near Canal street. In exchange for rights in certain streets the railroads agreed to make improvements as follows:

Improvements.	Cost.
Viaduct, Monroe street.....	\$100,000
Viaduct, 12th street.....	270,000
Viaduct, Congress street.....	300,000
Viaducts, 14th and 16th streets.....	400,000
Viaducts, Taylor, Polk, Harrison, Van Buren, Jackson, Adams, Madison, Randolph and Lake streets.....	1,760,000
Elevated roadway, Canal and Kinzie streets	650,000
Revamping of Canal street, Washington to 12th street.....	2,375,000
Total	5,855,000

To fit in with these improvements the city agreed to the following improvements at the costs estimated:

Bridge, Monroe street.....	\$500,000
Double decked bridge, Kinzie street.....	600,000
Land to widen Canal street to 100 feet..	760,753
Total	1,860,753

In addition, the roads agreed to pay \$1,511,000 in cash compensation.

The total cost to the railroads of the improvements under the terminal ordinances was estimated at \$65,000,000, exclusive of money previously paid for land.

Feb. 19, 1915, the city council passed an ordinance providing for the vacation of certain streets and alleys in connection with the Baltimore & Ohio freight terminal ordinance, making it possible for that road to vacate part of its old yards, which are needed for the new union terminal. The city, in payment for the streets and alleys surrendered to the railroad company, received \$111,504.77.

Work on the union terminal was begun Feb. 22, 1915. It consisted of preparing for the new freighthouses of the Pennsylvania company. Later, work was completed on some of the street changes made necessary by the plans. Little or no work was done in 1918 owing to restrictions placed on building by the government on account of the war.

ILLINOIS STATE ASSOCIATIONS.

- Anti-Saloon League—Headquarters, 1200 Security building, 189 West Madison street, Chicago; superintendent, F. Scott McBride.

HOUSE NUMBER SYSTEM IN CHICAGO.

The present house number system in Chicago was established by an ordinance passed June 22, 1908, and effective Sept. 1, 1909. This applied to all streets except those between the river, 12th street and the lake. Sept. 20, 1910, the city council passed an amendment to the ordinance making it applicable to the entire city. The change in the business district went into effect April 1, 1911. The system is laid out on two base lines. State street dividing the east and west streets and Madison street the north and south streets. Numbers are assigned on the basis of 800 to the mile or 100 to the prevailing block of 660 feet or one-eighth of a mile.

STATE'S ATTORNEYS OF COOK COUNTY (1861-1920).

1864-1876—Charles H. Reed, Rep.
 1876-1884—Luther Laflin Mills, Rep.
 1884-1888—Jullus S. Grinnell, Dem.
 1888-1892—Joel M. Longenecker, Rep.
 1892-1896—Jacob J. Kern, Dem.

1896-1904—Charles S. Deneen, Rep.
 1904-1908—John J. Healy, Rep.
 1908-1912—John E. W. Wayman, Rep.
 1912-1920—Maclay Hoyne, Dem.

CHICAGO PARKS AND BOULEVARDS.

LINCOLN PARK SYSTEM.

Commissioners (appointed by governor with consent of senate)—Francis T. Simmons, John H. Hardin, Andrew Lanquist, Albert W. Goodrich, Bertram M. Winston, Samuel M. Felton, William Wrigley, Jr.

Officers—President, Francis T. Simmons; vice-president, John H. Hardin; auditor, Andrew Lanquist; secretary and superintendent, John C. Cannon; attorney, R. K. Baldwin; treasurer, Frederick H. Rawson.

Office—In Lincoln park near Clark and Center streets.

The Lincoln park district consists of the towns of North Chicago and Lake View, with Fullerton avenue as the dividing line, and is bounded on the north by Devon avenue, on the south by the Chicago river, and extends from Lake Michigan on the east to the north branch of the river and North Western avenue on the west.

The area of the Lincoln park district is 12.64 square miles. The total area of the parks and boulevards is 642.63 acres, with 11,755 miles of boulevards.

Lincoln Park—Lincoln park, previously known as Lake park, began its history under its present name by resolution passed by the common council of Chicago under date of June 5, 1865. The park proper is 317 acres in extent and extends from Diversey boulevard to Oak street along the lake front. To this 200.59 acres of land has been added by filling in Lake Michigan north of Diversey boulevard. This extension contains a 57 acre yacht harbor. The park contains a large floral department, also an extensive zoological garden containing about 1,800 animals. Boating and bathing facilities are furnished and the park lagoon—one mile in length—gives an admirable course for racing.

The Academy of Sciences is located in the park at the foot of Center street. This building was erected in 1893 and contains about 250,000 specimens. It is noted for its collection of local natural history specimens and for its complete collection of mollusks. The park has provided facilities for outdoor games during both the winter and summer seasons.

Stanton Park—At Vedder, Vine and Rees streets; area 4.78 acres; equipped with fieldhouse and outdoor gym facilities.

Lake Shore Playground—Area 9.16 acres; is situated between Pearson street and Chicago avenue, extending from the Chicago avenue pumping works to the lake. This park is fitted up as a playground, containing a shelter house, and with outdoor and indoor gymnasium apparatus.

Seward Park—Contains 1.78 acres; is fitted with outdoor and indoor gymnasium and has a fieldhouse which contains reading rooms, assembly hall, clubrooms, a branch of the public library and facilities for gymnastic work and aquatic sports.

Hamlin Park—Wellington avenue and Robey street; area 8.64 acres; is fully equipped with fieldhouse and out-of-door gymnasium facilities.

Welles Park—Western avenue and Montrose boulevard; area 8.17 acres.

Union Square—Goothe street on the north and Astor street on the west; area .46 acre.

Length of North Side Boulevards.

In miles and fractions of miles.	
Dearborn parkway, .120.	North avenue, .275.
Diversey parkway, 2.302.	Lincoln Park West, .448.
Fullerton parkway, .510.	Sheridan road, 5.056.
Garfield avenue, .026.	North State parkway, .226.
Lake Shore drive, 2.262.	
Lincoln parkway, .530.	

SOUTH PARKS.

Commissioners (appointed by Circuit court judges)—Albert Mohr, Charles L. Hutchinson, L. B. Patterson, John Barton Payne, John Baln.

Officers—John Barton Payne, president; Albert Mohr, auditor; William A. Tilden, treasurer; John F. Neil, secretary; Roy O. West, attorney; J. F. Foster, general superintendent; H. C. Carbaugh, superintendent of employment.

Offices—In Washington park, 57th street and Cottage Grove avenue.

The south park district is bounded on the north by the Chicago river and the Illinois and Michigan canal, east by Lake Michigan and the state of Indiana, south by 87th street and 138th street and west by South Cicero avenue and State street.

The area of the south park district is 32.6 square miles, population is in excess of 800,000. The total area of parks is 2,043.98 acres and of parks and boulevards 2,494.59 acres, consisting of twenty-four parks and 32.93 miles of boulevards. The following is a list of the parks and boulevards:

Jackson Park—Area 542.89 acres; bounded on the north by 56th street, east by Lake Michigan, south by 67th street and west by Stony Island avenue; this park is provided with facilities for boating, rowboats and launches, has two golf courses, one of nine holes and the other eighteen holes, with golf shelter, lockers and showers for both men and women; it has baseball and football fields, tennis courts, refectory, beach bathing, music court, the Field Museum of Natural History occupying the World's Fair art building located in the northern part of the park, and in the winter skating is provided. It also has a playground for small children.

Washington Park—Area 371 acres; bounded on the north by 51st street, east by Cottage Grove avenue, south by 60th street, west by South Park avenue; has the same accommodations for the public as Jackson park except the golf facilities and the museum and in addition has roque courts, archery range, accommodations for fly casting, wading pool and sand court for children and a house for the game of curling.

Marquette Park—Area 322.63 acres; bounded on the north by 67th street, east by California avenue, south by 71st street and west by the Grand Trunk Western railroad. The east 80 acres has been improved. It has ball fields and tennis courts and skating in the winter. It also has an eighteen hole golf course.

Grant Park—Area 205.14 acres; bounded on the north by Randolph street, east by Lake Michigan, south by Park row, west by Michigan avenue. This park is under construction. Temporary provision is made for athletic work in the northern part of the park. The Logan monument, the airplane mail landing place and the Art institute are located in this park.

Midway Plaisance—The connecting way between Washington and Jackson parks; bounded on the north by 59th street, east by Stony Island avenue, south by 60th street, west by Cottage Grove avenue. Has tennis courts and in the winter skating and hockey.

McKinley Park—Area 74.83 acres; bounded on the north by 37th street and Archer avenue, east by Robey street, south by 39th street, west by Western Avenue boulevard. Has swimming pool, outdoor gymnasiums for men and women, tennis courts, ball field, children's playground, wading pool and skating in the winter.

Gage Park—Area 20 acres; situated at the intersection of Western avenue and 55th street. Has wading pool, ball field and tennis court.

Sherman Park—Area 60.6 acres; bounded on the north by 53d street, east by South Racine avenue, south by Garfield boulevard, west by Loomis street. Has recreation buildings which include an assembly hall used by the people free of charge for various entertainments, clubrooms for meetings of the various clubs of the community, reading room supplied with periodicals by the park commissioners, gymnasiums for men and for women, shower and plunge baths and locker rooms. There are also outdoor gymnasiums for men and women, playground for children, wading pool and swimming pool with the necessary dressing booths. Provision is made for baseball, football, tennis and boating. There is also a band stand under which concerts are given during the summer

every Sunday evening. Also skating in the winter.

Ogden Park—Area 60.56 acres; bounded on the north by 64th street, east by South Racine avenue, south by 67th street, west by Loomis street. The same facilities for recreation and pleasure are provided as in Sherman park.

Palmer Park—Area 40.48 acres; bounded on the north by 11th street, east by South Park avenue, south by 113th street, west by Indiana avenue. The same facilities for recreation and pleasure are provided as in Sherman park, except boating.

Hamilton Park—Area 29.95 acres; bounded on the north by 72d street, east by C. R. I. & P. railway, south by 74th street, west by C. & W. I. railway. The same facilities for recreation and pleasure are provided as in Sherman park, except swimming pool and boating.

Bessemer Park—Area 22.88 acres; bounded on the north by 89th street, east by Muskegon avenue, south by 91st street, west by South Chicago avenue. The same facilities as Sherman park except boating.

Mark White Square—Area 10 acres; bounded on the north by 29th street, east by Halsted street, south by 30th street, west by Poplar avenue. The same facilities as Sherman park except boating.

Armour Square—Area 10 acres; bounded on the north by 33d street, east by Wells street, south by 34th street, west by Shields avenue. The same facilities as Sherman park except boating.

Cornell Square—Area 10 acres; bounded on the north by 50th street, west by South Lincoln street, south by 51st street, east by Wood street. The same facilities as Sherman park except boating.

Davis Square—Area 10 acres; bounded on the north by 44th street, east by Marshfield avenue, south by 45th street, west by Hermitage avenue. The same facilities as Sherman park except boating.

Russell Square—Area 11.47 acres; bounded on the north by 83d street, east by Bond avenue, south by Baker avenue, west by Houston avenue. The same facilities as Sherman park except boating.

Calumet Park—Area 66.19 acres; bounded on the north by 95th street, east by Lake Michigan, south by 102d street, west by Avenue G and a line about 50 feet east of C. L. S. & E. railway.

Hardin Square—Area 7.41 acres; bounded on the north by 25th street, east by the Rock Island right of way, south by 26th street, west by Wentworth avenue; the same facilities as at Sherman park except boating.

Fuller Park—Area 10 acres; bounded on the north by 45th street, east by Princeton avenue, south by 46th place, west by Stewart avenue. Improved with same facilities as Sherman park.

Grand Crossing Park—Area 19.16 acres; bounded on the north by 76th street, east by Dobson avenue, south by 78th street, west by Ingleside avenue; the same facilities as at Sherman park.

No. 16 Park—Area 18.52 acres; bounded on the north by 103d street, east by Bensley avenue, south by 105th street, west by Oglesby avenue; same facilities as at Sherman park.

No. 17 Park—Area 20 acres; bounded on the north by 130th street, east by Carondelet avenue, south by 132d street, west by Exchange avenue.

No. 18 Park—Area 20.19 acres; bounded on the north by 90th street, east by St. Lawrence avenue, south by 91st street, west by South Park avenue.

Michigan Avenue—80 to 100 feet wide; from Garfield boulevard to Randolph street.

Garfield Boulevard—200 feet wide; from South Elk avenue to Western Avenue boulevard on the line of 55th street.

Western Avenue Boulevard—200 feet wide; a strip of land east of and adjoining the center line of Western Avenue from the Illinois and Michigan canal to 55th street (Garfield boulevard).

Grand Boulevard—188 feet wide; on the line of South Park avenue from 35th to 51st street.

Drexel Boulevard—200 feet wide; first street east of Cottage Grove avenue and extending from Oakwood boulevard to 51st street.

Prairie Avenue—66 feet wide; the street of that name from 16th to 29th street.

South Park Avenue—66 feet wide; being the street of that name between 35th and 39th streets and also between 51st and 60th streets.

Jackson Boulevard—66 feet wide; being the street of that name extending from Michigan avenue to the south branch of the Chicago river.

Oakwood Boulevard—100 feet wide; the first street south of 39th street, between Grand boulevard and Cottage Grove avenue.

Thirty-Third Street—66 feet wide; being the street of that name between Michigan avenue and South Park avenue.

Sixteenth Street—50 feet wide; being the street of that name between Michigan avenue and Prairie avenue.

Twenty-Ninth Street—66 feet wide; being the street of that name between Prairie avenue and South Park avenue.

Fifty-Seventh Street—100 feet wide; being the street of that name between the I. C. railroad right of way and the west line of Jackson park.

Marquette Road—66 feet wide; being the street of that name from Jackson park to California avenue.

Normal Avenue—66 feet wide; from Garfield boulevard to 72d street.

Loomis Street—66 feet wide; being the street of that name from Garfield boulevard to 67th street.

Hyde Park Boulevard—100 feet wide; being that part of 51st street between Drexel avenue and Jackson park.

South Shore Drive—100 feet wide; runs from Jackson park to 71st street and thence to 83d place.

WEST CHICAGO PARKS.

Commissioners (appointed by governor with consent of senate)—John I. Bagdzianas, William Ganschow, William F. Grower, Jens C. Hansen, Richard J. Powers, I. Shapiro, John F. Smulski.

Officers—John F. Smulski, president; Richard J. Powers, auditor; William Ganschow, treasurer; I. Shapiro, secretary; John A. Pelka, clerk of the board; Jens Jensen, consulting landscape architect; Albert C. Schrader, superintendent and engineer; Robert E. Gentzel, attorney; Fred G. Heuchling, superintendent of employment; Edwin S. Prouty, captain of police.

Office—Union park, Lake street and Ashland boulevard.

The west park district comprises all that part of the town of West Chicago lying between the Illinois and Michigan canal and the Chicago river and the following described lines: Beginning at the north branch of the Chicago river at Belmont avenue, thence west to North Kedzie avenue, thence south along Kedzie avenue to North avenue, thence west on North avenue to North Austin avenue, thence south along Austin avenue to West 12th street, thence east along 12th street to South Kenton avenue, thence south along Kenton avenue to West 39th street, thence east along 39th street to the Illinois and Michigan canal.

The area of the west park district is 35.5 square miles. The total area of the parks and boulevards is 1,253.15 acres, consisting of 19 parks and playground areas and 29,527 miles of boulevard; area of parks, 813.27 acres. The following is a list of the parks and boulevards:

Humboldt Park—Area 205.86 acres; bounded on the north by West North avenue, east by California and Sacramento avenues, south by Division and Augusta streets and west by Kedzie avenue; has rose garden with pergola and garden hall and fountains; refectory building, also a pavilion and boat landing; music court, a wading pool and shelter for children; is provided with facilities for boating, has baseball diamonds and tennis courts, and in winter skating is provided.

Garfield Park—Area 187.53 acres; bounded on the

- north by Kinzie and Lake streets, east by Central Park and Homan avenues, south by Madison street and Colorado avenue, west by Hamlin avenue. Has a conservatory (the largest in the country), refectory building, outdoor natatorium, boat landing and pavilion, music court and bandstand, water courts with fountain, basin and extensive flower gardens. Has a golf course, with fieldhouse containing lockers for men and women; also has tennis courts and facilities for fly casting, and in winter skating is provided.
- Douglas Park**—Area 181.99 acres; bounded on the north by West 12th street, east by California avenue, south by West 19th street and west by Albany avenue. Has refectory building and pavilion, music court, flower gardens, outdoor gymnasiums and natatorium, with swimming pools, shower baths and dressing rooms for men and women. Facilities are provided for baseball, boating and lawn tennis, and in winter skating is provided.
- Union Park**—Area 17.37 acres; bounded on the north by Lake street; east by Ogden avenue and Bryan place, south by Warren avenue and west by Ashland boulevard. In this park the offices of the West Chicago park commissioners are located. Facilities are provided for lawn tennis during the summer and skating during the winter. An outdoor natatorium for the summer months, and shower baths are open all year. A children's playground with wading pool, sand court and play apparatus.
- Jefferson Park**—Area 7.02 acres; bounded on the north by Monroe street, east by Throop street, south by Adams street and west by Loomis street.
- Vernon Park**—Area 6.14 acres; bounded on the north by Macalister place, east by South Racine avenue, south by Gilpin place and west by Loomis street.
- Wicker Park**—Area 4.03 acres; bounded on the north and east by Wicker Park avenue, south by Foster street and west by Robey street.
- Holstein Park**—Area 1.94 acres; bounded on the north by Ems streets, south by Hamburg street, and located one block east of Western avenue. A fieldhouse has been provided containing gymnasiums and shower baths for men and women, library and reading room and assembly hall. Has an outdoor gymnasium and playground and a children's playground, and in winter skating is provided.
- Campbell Park**—Area 1.38 acres; a strip of land 100 feet wide lying between Oakley boulevard and Leavitt street and one block north of Polk street.
- Shedd's Park**—Area 1.13 acres; located at 23d street and Millard avenue, opposite Lawndale station of the Chicago, Burlington & Quincy Railroad company. A library and reading room, and assembly hall.
- Bernard A. Eckhart Park**—Area 8.125 acres; bounded on the north by Cornell street, east by Chase street, south by Chicago avenue and west by Noble street. A fieldhouse has been provided containing gymnasium and shower baths for men and women, lunchrooms, library and reading room and assembly hall; also an outdoor swimming pool with shower baths and dressing rooms for men and women. An outdoor gymnasium for men and women, playground with wading pool and sand courts for children and tennis courts and ball grounds have been provided; also skating in the winter.
- Stanford Park**—Area 2.85 acres; bounded on the north by Barber street, east by Jefferson street, south by 14th place and west by South Union avenue. In this park the same facilities for recreation and pleasure are provided as in the small parks and playgrounds mentioned above.
- Dvorak Park**—Area 3.85 acres; bounded on the north by 20th street, east by Fisk street, south by 21st street and west by May street. The same facilities for recreation and pleasure are provided as in Eckhart park.
- Franklin Park**—Area 8.26 acres; bounded by West 14th street, West 15th street, South Tripp avenue and South Kolin avenue. Baseball and skating facilities are provided. An outdoor natatorium for summer months, and shower baths the whole year; an outdoor gymnasium for men and women and a playground with wading pool, sand court and play apparatus.
- Pulaski Park**—Area 3.8 acres; bounded by Noble, Blackhawk, Cleaver and Bradley streets; contains elaborate fieldhouse, swimming pool and other facilities for recreation.
- Harrison Park**—Area 8.24 acres; bounded by West 18th street, West 19th street, South Wood street and South Lincoln street. An outdoor natatorium has been provided, also the necessary facilities for baseball and skating. An outdoor gymnasium for men and women and a playground for the children, with wading pool, sand court and play apparatus and children's gardens.
- Sheridan Park**—Area 3.57 acres; bounded by Polk, May and Aberdeen streets and first east and west 16-foot alley north of Taylor street. An outdoor natatorium has been provided, together with an outdoor gymnasium for men and women, children's playground and a large field for baseball and skating. Shower baths are open the whole year.
- Humboldt Park Natatorium and Playground**—Area 1.057 acres; adjacent to Humboldt park on the south, at the southwest corner of North Sacramento boulevard and Augusta street. Contains an outdoor natatorium and children's playground, with sand court, wading pool and children's playground apparatus.
- Columbus Park**—Area 154 acres; bounded by Adams street, Central avenue, Austin avenue and the right-of-way of the Aurora, Elgin & Chicago Railway company; baseball, golf, tennis and skating provided for.
- New Congress Park Site**—Area, 5.16 acres; lying in the center of South Talman avenue, between the north line of West Harrison street and the south line of West Van Buren street. To be provided with shelter, pool and other playground facilities. Site acquired in June, 1915.
- West Adams Boulevard**—.492 mile long and 66 feet wide; from South Central avenue to South Austin boulevard.
- Ashland Boulevard**—1.26 miles long, 100 feet wide; North, from West Lake street, south to West Madison street; South, from West Madison street, south to West 12th street.
- North and South Austin Boulevard**—3 miles long, 66 feet to 80 feet in width; from West 12th street to West North avenue.
- South California Boulevard**—.692 mile long, from West Twenty-Fourth Street boulevard south to West Thirty-First Street boulevard.
- Central Park Boulevard**—.448 mile long, 80 feet wide; North, from Franklin boulevard to Garfield park (Kinzie street); South, from West Madison street to Colorado avenue, along the east side of Garfield park.
- Douglas Boulevard**—.377 mile long, 250 feet wide; from Independence boulevard east to Douglas park (Albany avenue).
- Franklin Boulevard**—.763 mile long, 250 to 400 feet wide; west from North Sacramento boulevard to North Central Park boulevard, and from North Central Park boulevard to Garfield park (Kinzie street); connecting Humboldt and Garfield parks.
- North Homan Boulevard**—.254 mile long; from West Madison street to West Lake street, along the east side of Garfield park.
- Humboldt Boulevard**—.834 mile long, 100 feet to 400 feet wide; from Palmer square to Humboldt park (North avenue).
- Independence Boulevard**—.819 mile long, from Garfield park (Colorado avenue) south to Douglas boulevard.
- West Jackson Boulevard**—6.195 miles long, from 56 to 80 feet wide; from the Chicago river west to South Central avenue in Austin, passing through Garfield park, a continuation of Jackson boulevard on the south side.
- North Kedzie Boulevard**—.423 mile long; from Logan boulevard to Palmer square.
- Logan Boulevard**—1.356 miles long; from the Di versey avenue bridge to North Kedzie boule-

ward, connecting the west park system with the Lincoln park system on the north.

Marshall Boulevard—505 mile long, 250 feet wide; from Douglas park (19th street) south to West Twenty-Fourth Street boulevard.

Oakley Boulevard—3 miles long; North, from West North Avenue, south to West Madison street; South, from West Madison street to intersection of Oakley, Ogden and Twelfth Street boulevards.

Ogden Boulevard—74 mile long, from 70 to 112 feet wide; from Douglas park (Albany avenue) to Oakley boulevard.

Palmer Square—327 mile long; from North Kedzie boulevard to Humboldt boulevard.

Sacramento Boulevard—2.213 miles long; North, from West Madison street to Humboldt park (Augusta street); South, from West Madison street to Douglas park (12th street).

West Thirty-First Street Boulevard—5 mile long; from South California boulevard east to South Western Avenue boulevard.

West Twelfth Street Boulevard—896 mile long, 70 feet wide; from Oakley boulevard to Ashland boulevard; a continuation of West 12th street.

West Twenty-Fourth Street Boulevard—217 mile long; east from Marshall boulevard to South California boulevard.

West Washington Boulevard—6.319 miles long, 65 to 100 feet wide; from Canal street west to city limits; through Union park and Garfield park, a continuation of Washington street on the south side.

South Western Avenue Boulevard—258 mile long; from West Thirty-First Street boulevard south to the Illinois and Michigan canal, connecting the west park system with the south park system.

SMALL PARKS, PLAYGROUNDS AND BATHING BEACHES.

Bureau of Parks, Public Playgrounds and Bathing Beaches.

Secretary—Walter Wright.

Superintendent of playgrounds—Theo. A. Gross.
Director in charge of beaches and pools—T. R. Daly.

Senior foreman of parks—F. R. Thomason.
Office of the bureau—1004 City hall.

The bureau of parks, public playgrounds and bathing beaches is a bureau of the department of public works. It maintains and has jurisdiction over seventy municipal playgrounds, four bathing beaches, four natatoriums, sixty-five small parks, city forestry or street trees, and Gage farm nursery.

The playgrounds are open all year around from 8 o'clock in the morning until 9 o'clock at night and each is in charge of a director and attendant, and during the spring, summer and fall a young woman assistant director or physical instructor.

A special tax of one-half mill was authorized in 1917 by the state legislature to provide funds for the maintenance of these playgrounds.

The bathing beaches under the jurisdiction of the bureau are the Clarendon beach, the largest municipal bathing beach in the world; the 61st street bathing beach, 76th street bathing beach and Rocky Ledge beach at the foot of 79th street.

The city has obtained the possession of the shore property extending from 75th street to 79th street, and it is intended to establish a large beach and park at this location.

Three of the four natatoriums are open the year around and no charge is made for their use. They are very popular in their respective neighborhoods, as is shown by the large attendance. Instruction is given in swimming during the winter months.

The small parks vary in size from a beauty spot of one-tenth of an acre to a forty acre park and are used to give every possible means of recreation to the people. Play apparatus, tennis courts, wading pools, etc., are established wherever possible.

City forestry is also under the jurisdiction of

the bureau of parks and the work of trimming trees goes on throughout the year. An emergency truck is used to remove the dead and dangerous trees in the parkways throughout the city so as to prevent accidents to pedestrians.

Following is a list of the small parks, playgrounds, bathing beaches and natatoriums under the jurisdiction of the bureau of parks, public playgrounds and bathing beaches, with the area of the parks in acres and size of the playgrounds.

Small Parks.

Adams Park—75th place, 76th street and Dobson avenue; 1½.

Aldine Square—Vincennes avenue, 37th place and alley north of 38th street; 1½.

Arcade Park—111th place, 112th street, Forrestville avenue and Watt avenue; 9-10.

Auburn Park—Bounded by Lagoon avenue, Stewart avenue, Winnecoona avenue and Normal avenue; 6.

Austin Park—Waller avenue, Chicago & Northwestern railway, Austin avenue and Lake street; 4½.

Avers Avenue Parkway—From West Addison street to Avondale avenue.

Arbor Rest—Chestnut street, Rush street and Cass street; ½.

Archer Point—Archer avenue, 20th street and Dearborn street; 15-100.

Amy L. Barnard Park—North side 105th street, between Longwood boulevard and Walden parkway; 1¼.

Bickerdike Square—Ohio street, Bickerdike street, Ashland place and Armour street; 1.

Blackstone Point—Lake Park avenue, Blackstone avenue and 49th street; ½.

Buena Circle—Buena avenue and Kenmore avenue; ½.

Belden Triangle—North Clark street, Sedgwick street and Belden avenue; ½.

Calumet Parkway—Calumet avenue, 63d and 61st streets; 1½.

Chamberlin Triangle—Greenwood avenue, Lake Park avenue and 43d street; 27-100.

Columbus Circle—South Chicago avenue, Exchange avenue and 92d street; ½.

Colorado Point—Colorado avenue, Monroe street and Francisco avenue; ¾.

Crescent Park—Crescent road, Prescott avenue, Orinonde avenue and Grassmere road; 8.

Dickinson Park—North Lavergne avenue, Dickinson avenue and Belle Plaine avenue; 1½.

Dauphin Park—87th street, Illinois Central railroad, 91st street and Dauphin avenue; 5 12-100.

Douglas Monument Park—Woodlawn park, Illinois Central railroad, 35th street and alley west of railway; 3.

DeKalb Square—Lexington street, Hoyne avenue, Flournoy street and DeKalb street; ¾.

East End Park—East End avenue, 51st street, 53d street and Lake Michigan; 10.

Eldred Grove—Norwood Park avenue and Chicago & Northwestern railway from Argyle to Ainslie street; 1.

Ellis Park—36th street, 37th street, Langley avenue and Elmwood court; 4.

Eighty-Seventh Street Parkway—In 87th street, from Chicago, Rock Island & Pacific railway to Eggleston avenue; 5.

Eugenie Triangle—Eugenie street, North Clark street and LaSalle avenue; ½.

Fernwood Park—103d street, 95th street, Stewart avenue and Eggleston avenue; 8.

Gage Farm—Bounded by 22d street on the north and 26th street on the south; the east section line is 1,400 feet west of Oak Park avenue, extending west 4,000 feet (outside city limits); 240.

Graceland Triangle—Malden avenue and Montrose boulevard; ½.

Gross Park—On Otto street, between East Ravenswood and Paulina street; ½.

Green Bay Triangle—North State street, Rush street and Bellevue place; 33-100.

Harding Avenue Parkway—In Harding avenue, between Addison street and Byron avenue; 3.

Holden Park—Lake street; Ferdinand street, Central avenue and Parkside avenue; 4.

- Higgins Road Triangle—Higgins road and Milwaukee avenue.
- Irving Park—Chicago & Northwestern railway, Irving Park boulevard, near North Keeler avenue; 35-100.
- Kedzie Park—Kedzie avenue, between Palmer place and North avenue; 3.
- Kinzie Parkway—Kinzie street, between Laramie avenue and Long avenue; 1½.
- Lawrence Avenue Triangles (4)—On Lawrence avenue between Clark and Broadway; 8-10.
- Linden Park—Avondale avenue, Chicago & Northwestern railway, from School street to Belmont avenue; 9-10.
- Maplewood Triangle—Schubert and Maplewood avenues and Chicago & Northwestern railway; ½.
- Merrick Park—Pine avenue, Long avenue, Ferdinand street and Kinzie street; 6.
- McKenna Triangle—38th street, Archer avenue and Campbell avenue; 3-10.
- Montrose Point—Montrose avenue, Sheridan road and Broadway; ½.
- Mulberry Point—Nickerson avenue, Nina street and Nicollet; ½.
- Myrtle Grove—Neva avenue, Ninnewa avenue and Hood avenue; 1½.
- Normal Park—67th street, 69th street, Lowe avenue and Chicago & Western Indiana railroad; 2½.
- Norwood Circle—Neva avenue, Peterson avenue and Circle avenue; 2½.
- Oakland Park—Lake Park avenue, 39th street and Illinois Central railroad; ¾.
- Ogden Arrow—North Clark street, Wells street and Ogden front; ¾.
- Patterson Park—Leavitt street, Boone street and DeKalb street; ½.
- Pullman Park—11th street, 11th place, Cottage Grove avenue and Forrestville avenue; ¾.
- Ravenswood Parkway—East Ravenswood avenue, between Lawrence and Berceau avenues; 1¾.
- Rice Triangle—Western avenue and Grand avenue; ½.
- Rocky ledge Park—79th street and Lake Michigan; 3¼.
- Roberts Square—Winnemac avenue, North Laramie avenue, Argyle avenue and North Lockwood avenue; 5.
- Rutherford Park—Palmer street, North Newland avenue, North Oak Park avenue and Chicago, Milwaukee & St. Paul railroad; 4 33-100.
- Sacramento Avenue Parking—26th street, Sacramento avenue and House of Correction; ½.
- Salt Creek Park—Salt creek and Chicago, Burlington & Quincy railroad at Brookfield (outside city limits); 32 64-100.
- Schoenhofen Place—Canal street, Canalport avenue and 18th street; 3-10.
- Stony Island Parkway—Stony Island avenue, 69th to 79th street; 8.
- Twenty-Second Street Parkway—In 22d street, from South Crawford avenue to South Kenton avenue; 3½.
- The Midway—Midway, between Waller avenue and Austin avenue; 1½.
- The Lily Gardens—Lowe avenue, Chicago & Western Indiana railroad, 71st street, 73d street; 2%.
- The Railway Gardens—Avondale avenue, Nettleton avenue and Raven street, south of Chicago & Northwestern railway, also on Norwood Park avenue, north of Chicago & Northwestern railway; 2½.
- Washington Square—North Clark street, Walton place, Dearborn street and Delaware place; 3.
- West End Parkway—In West End avenue, from Menard avenue to Austin avenue, North Waller avenue and Parkside avenue; 1¾.
- Winnemac Park—Robey street, Foster avenue, Argyle street and Leavitt street; 40.
- Washington Heights Park—Vincennes road and 104th street; ½.
- Municipal Playgrounds.**
- Names, locations and dimensions (in feet).
- Adams—Seminary avenue, near Center street; 192 by 288.
- Agassiz—Seminary avenue and George street; 265 by 109.
- Auburn Park—Normal avenue and West 81st street; 210 by 210.
- Audubon—Hoyne and Cornelia avenues; 133 by 264.
- Avondale—North Sawyer and Wellington avenues; 250 by 120.
- Belding—Tripp and Cullom avenues; 155 by 195.
- Beutner—33d and LaSalle streets; 258 by 546.
- Bosley—81st and Bonfield streets; 116 by 696.
- Brentano—Fairfield avenue and Schubert street; 139 by 358.
- Budlong—Foster, near Lincoln avenue; 325 by 200.
- Burley—Barry avenue, between Paulina street and Ashland avenue; 252 by 128.
- Burroughs—36th street and Washtenaw avenue; 265 by 159.
- Cameron—Potomac and Monticello avenues; 272 by 208.
- Carter—East 58th street and Michigan avenue; 150 by 256.
- Christopher—22d and Robey streets; 125 by 275.
- Colman—Dearborn street, north of 47th street; 320 by 125.
- Commercial Club—Chicago avenue and Lincoln street; 120 by 123 and 125 by 200.
- Copernicus—60th and Throop streets; 268 by 96 and 96 by 96.
- Corkery—25th street and Kildare avenue; 265 by 164.
- Dante—Forquer and Desplaines streets; 235 by 95.
- Davis—West 39th place and Sacramento avenue; 278 by 265.
- Delano—West Adams street and Springfield avenue; 218 by 260.
- Doollittle—35th street, between Cottage Grove and Rhodes avenues; 231 by 179.
- Drake—27th street and Calumet avenue; 181 by 194.
- Earle—South Paulina and West 61st streets; 290 by 125.
- Emmet—West Madison street and Pine avenue; 316 by 288.
- Field Branch—North shore and Greenview avenue; 275 by 290.
- Fiske—62d street and Ingleside avenue; 264 by 174.
- Franklin—Sigel street, between Wells and Sedgewick streets; 200 by 125.
- Fulton—West 53d and Paulina streets; 296 by 136.
- Gallistel—104th street and Ewing avenue; 300 by 125.
- Gary—Lawndale avenue and 31st street; 602 by 265.
- Gladstone—Robey street and Washburne avenue; 240 by 125.
- Graham—45th street and Union avenue; 90 by 265.
- Hamlin—16th street and Hamlin avenue; 300 by 598.
- Hayes—Leavitt and Fulton streets; 96 by 96 and 96 by 96.
- Henry—North St. Louis and West Cullom avenues; 300 by 125.
- Howe—Long avenue and Superior street; 344 by 125.
- Kohn—East 104th and State streets; 310 by 266.
- Lemoine—Rokeby and Addison streets; 290 by 290.
- Lloyd—Dickens and Lamson avenues; 275 by 267.
- McCormick—28th street and Sawyer avenue; 125 by 275.
- McCook—Champaign avenue, between East 65th and 66th streets; 210 by 125.
- McLaren—Polk and Laffin streets; 185 by 175.
- McPherson—West Wincheater and Lawrence avenues; 280 by 152.
- Mitchell—Oakley boulevard and Ohio street; 140 by 110.
- Morse—North Sawyer avenue and West Ohio street; 280 by 130.
- Moseley—24th street and Wabash avenue; 200 by 200.
- Mozart—West Hamlin and Humboldt avenues; 266 by 125.
- Nettelhorst—Broadway and Aidine avenue; 344 by 100.
- Northwestern—Larrabee and Alaska streets; 70 by 350.
- Oakland—Langley avenue and 40th street; 80 by 198.
- Orleans—Orleans street and Institute place; 125 by 136.
- Otto—Armour street and Grand avenue; 200 by 160.
- Pickard—South Oakley avenue and West 21st place; 275 by 130.

Poe—Langley avenue and East 106th street; 200 by 125.
 Raster—Wood and West 70th streets; 265 by 181.
 Robey—Robey and Birch streets; 265 by 114.
 Ryder—Lowe avenue and West 88th street; 250 by 196 and 96 by 96.
 Ryerson—Lawndale avenue and Ohio street; 290 by 125.
 Sampson—15th and Loomis streets; 125 by 215.
 Scanlan—Perry avenue, between 117th and 118th streets; 295 by 154.

The valuation since 1875 is the equalized valuation fixed by the state board of equalization. From 1867 to 1875 the valuation was made by the city for the city tax. From 1898 to 1908, inclusive, the assessed value was one-fifth of the actual value. In 1909 the rate was fixed at one-third. The total valuation includes capital stock and railroads.

ASSESSMENT OF TAXABLE PROPERTY IN COOK COUNTY.

Includes equalized valuation of railroads and capital stock of corporations.

Year.....	\$437,850,426	1911.....	\$997,787,337
1905.....	441,990,246	1912.....	1,012,882,262
1906.....	461,813,707	1913.....	1,056,910,607
1907.....	514,757,122	1914.....	1,078,824,261
1908.....	514,730,532	1915.....	1,121,649,954
1909.....	987,212,850	1916.....	1,115,035,441
1910.....	915,895,947	1917.....	1,148,893,498

The above figures are one-fifth of the actual valuation down to and including 1908. The rate was changed to one-third in 1909.

CHICAGO TAX RATES (1917).

Town.	State County	City	School	Sanity's	Park	Town	Total
West Chicago	.90	.62	2.01	1.84	.35	.84	6.58
South Chicago	.90	.62	2.01	1.84	.35	.41	6.15
North Chicago	.90	.62	2.01	1.84	.35	.54	12.50
Lake View	.90	.62	2.01	1.84	.35	.59	10.650
Lake	.90	.62	2.01	1.84	.35	.41	6.15
Hyde Park	.90	.62	2.01	1.84	.35	.41	6.15
Jefferson	.90	.62	2.01	1.84	.35	5.74

Totals include .02 for forest preserve, .03 for lake shore protection (North Chicago), .07 for Lincoln park bonds (N. Chicago and Lake View) and 2.30 for local park districts in Jefferson.

Patents, documents and bound newspapers room, first floor, Randolph street entrance; open 9 a. m. to 5:30 p. m.; closed on Sunday.

Civics room, first floor, Randolph street entrance; open 9 a. m. to 10 p. m.; closed on Sunday.

Reading room for current magazines and newspapers, fourth floor, Randolph street entrance; open 9 a. m. to 10 p. m.; Sundays and holidays, 9 a. m. to 6 p. m.

General Information.

The Chicago public library is a free public institution, established under the Illinois library law of 1872. It derives its revenue from an annual library tax of approximately one mill. A board of directors of nine members is appointed by the mayor, three annually for terms of three years. The library occupies the site formerly known as Dearborn park, bounded by Michigan avenue, Washington street, Garland court and Randolph street. The cost of the building was about \$2,000,000, including the furniture, book stacks and machinery. There are forty-two branches, six high school branches, 117 delivery stations and seventy-two deposit stations.

The right of drawing books from the public library belongs to all who reside in the city of Chicago, and also to those who make their homes in the suburbs within the limits of Cook county and are regularly employed in the city. In order to become a book borrower it is necessary only to file an application giving the name and residence of the applicant and bearing the signature of a second person, who must be an actual resident of the city, appearing as such in the latest city directory. This person becomes the guarantor to the library for the proper observance of the library regulations on the part of the applicant. These regulations merely provide that books drawn for home use must be returned within the stated period and must not be defaced or injured.

At the close of May 31, 1918, the public library contained 882,566 volumes. The aggregate circulation for the year ending May 31, 1918, was 6,724,070 volumes, which does not include the use of books kept on the open shelves at the main library or its branches or the periodicals or newspapers used in the reading rooms. This use would bring the total recorded book issue to 7,513,613.

Branches.

Branches marked * are open from 9 a. m. to 10 p. m., those marked † are open from 9 a. m.

to 9 p. m., all others are open from 1 to 9 p. m. Sundays and holidays open from 2 to 6 p. m.

THE NEWBERRY LIBRARY.

North Clark street and Walton place.

President—Edward L. Ryerson.
 Librarian—William N. C. Carlton.
 Secretary—Jesse L. Moss.
 Trustees—Frederick I. Carpenter, Charles H. Hulburt, David B. Jones, Andrew C. McLaughlin, George Manierre, Horace H. Martin, Horace S. Oakley, Edward L. Ryerson, John W. Scott, John A. Spoor, Albert H. Wetten, John P. Wilson, John P. Wilson, Jr.
 Hours—From 9 a. m. to 10 p. m. every day except Sundays and the following holidays: Jan. 1, May 30, July 4, Thanksgiving and Christmas.

The Newberry library, Oct. 1, 1918, contained 379,102 books and pamphlets. These are not circulated, but are for consultation and use within the library building. The library is free to the public.

UNIVERSITY OF CHICAGO LIBRARY.

At the university, 59th street and Ellis avenue.
 This library contained July 1, 1918, about 640,890 volumes and 200,000 pamphlets. It is composed of the general library located in the Harper Memorial library and the departmental libraries located in the various departmental buildings. It is primarily intended for the use of the faculty and students of the university, but residents of Chicago engaged in serious study are permitted to use the reading rooms of the general library and of the School of Education and others may have the privilege of drawing books available for circulation upon the payment of a fee or on recommendation of a dean or head of a department of instruction. Properly accredited scholars visiting Chicago will receive complimentary cards upon application. The reading room is open to all. The director of the library is Ernest D. Burton; the associate director is J. C. M. Hanson.

THE JOHN CRERAR LIBRARY.

110 North Wabash avenue, 6th floor.
 President—Marvin Hughtitt.
 Vice-Presidents—Thomas D. Jones and Robert Forsyth.
 Secretary—Walter B. Smith.
 Treasurer—William J. Louderback.
 Librarian—Clement W. Andrews.
 Board of Directors—Robert T. Lincoln, Frank S. Johnson, Marvin Hughtitt, Thomas D. Jones, John J. Mitchell, Leonard A. Busby, Robert Forsyth, Chauncey Keep, Frederick H. Rawson, Albert A. Sprague II., Walter B. Smith, Chauncey B. Borland and the mayor and the comptroller of the city of Chicago ex officio.
 Hours—The library is open daily, except Sunday, from 9 a. m. to 10 p. m.

The John Crerar library contained in October, 1918, 395,775 volumes and 145,764 pamphlets on the social, physical, natural and medical sciences and their applications. They cannot be taken from the library, but may be freely consulted by all who wish to do so.

CHICAGO HISTORICAL SOCIETY LIBRARY.

North Dearborn and West Ontario streets.
 President—Clarence A. Burley.
 First Vice-President—George Merryweather.
 Second Vice-President—Dr. Otto L. Schmidt.
 Secretary—Seymour Morris.
 Treasurer—Orson Smith.
 Librarian—Caroline M. McIlvaine.
 Executive Committee—William H. Bush, Charles F. Gunther, C. J. Hambleton, Chauncey Keep, Julian S. Mason, Seymour Morris, Henry J. Patten, Edward L. Ryerson.
 The library, museum and portrait gallery are open free to the public from 9 a. m. to 5 p. m. on weekdays. It is a repository of matter re-

lating to the history and archeology of the northwest, particularly of Chicago, comprising some 40,000 volumes and 75,000 pamphlets and a large collection of MSS., maps, views, etc., illustrative of the development of Illinois and the central west.

RYERSON LIBRARY.

Art Institute, Michigan avenue and Adams street.

The Ryerson library of the Art Institute is devoted to works on fine art and travel. It contains about 12,000 volumes and collections of 35,000 photographs and 18,000 lantern slides. The Burnham Library of Architecture, kept in the Ryerson library, contains about 2,000 books on architecture. Open daily from 9 to 5; Mondays, Wednesdays and Fridays until 9:30 p. m.; Sundays 2 to 8 p. m. (Open free Wednesdays, Saturdays, Sundays and three evenings from 6 to 9:30.) The library is primarily for the students of the institute, but is practically a free reference library on fine art. Librarian, Sarah Louise Mitchell.

ELBERT H. GARY LAW LIBRARY.

Northwestern University building, North Dearborn and West Lake streets, Chicago.

The Gary Library of Law was the gift of Elbert H. Gary of New York N. Y., to Northwestern University Law school. It is open, without charge, to nonresident lawyers presenting satisfactory credentials. Resident lawyers who are graduates of Northwestern University Law school are charged a registration fee of \$1 per year for the privilege of using the library; all other resident lawyers are charged a registration fee of \$4 a year. The library in 1918 contained about 46,000 volumes. Librarian, F. B. Crossley.

FIELD MUSEUM OF NATURAL HISTORY LIBRARY.

Jackson park.

The museum library occupies three rooms in the north end of the building and is open to the public every weekday from 9 a. m. to 4:30 p. m. It is a scientific reference library. Visitors can consult books by making application to the office of the library. The magazines in the reading room are accessible to the public. Sept. 30, 1918, the library contained approximately 70,000 books and pamphlets. Librarian, Elsie Lippincott.

LEWIS INSTITUTE LIBRARY.

West Madison and Robey streets.

The Lewis institute library contains about 24,000 volumes and 9,000 pamphlets. The public is invited to use the library for reference, but books are loaned only to instructors and students of the institute. Throughout the school year the library is open from 8 a. m. to 5 p. m. daily except on Saturday, when it closes at 3 p. m.; during the session of the night school the library is also open from 8 a. m. to 9:30 p. m. Librarian, Miss Frances S. Talcott.

ST. IGNATIUS COLLEGE LIBRARY.

1076 West 12th street.

The library of the college of arts of Loyola university contains more than 45,000 volumes for the use of the faculty and students, but may be consulted by others on application to the librarian. Open from 8 a. m. to 4 p. m. Librarian, A. J. Garvy, S. J.

EVANSTON PUBLIC LIBRARY.

Orrington avenue and Church street.

Free to residents of Evanston and open to others on payment of an annual fee of \$2.50, or 25 cents a month. Reference department free to all. Library open from 8:30 a. m. to 9:30 p. m. weekdays. Reading room open from 2 to 6 p. m., Sundays, except during July and August, and holidays, except Jan. 1, July 4, Thanksgiving day and Dec. 25. The Coe music collection, which contains about 1,600 books, 400 pieces of sheet music and 600 pianola rolls, is open to all. The medical science room, containing over 900 medi-

cal books and periodicals, is open to resident physicians and nurses and to others by special arrangement. The total number of volumes June 1, 1918, was 61,618. Librarian, Marcus Skarstedt.

OAK PARK PUBLIC LIBRARY.

Grove avenue and Lake street, Oak Park.

The Oak Park public library contains about 33,000 volumes. It is open every day except Sundays and holidays from 9 a. m. to 8:30 p. m.; south branch, Harrison street, near Gunderson avenue, open afternoons 2 to 6 and evenings 7 to 9. Librarian, Helen A. Bagley.

PULLMAN PUBLIC LIBRARY.

73 to 77 Arcade building, Pullman, Ill.

Contains 10,000 volumes. Library open from 10 a. m. to 5:30 p. m. and in the evenings from 6:45 to 9 o'clock; also Sundays and holidays, 2 to 6 p. m. Librarian, Bertha S. Ludlum; assistants, Caroline H. Mott and Freda Grapes.

HAMMOND LIBRARY.

5757 University avenue.

The Hammond library of the Chicago Theological seminary contains over 33,000 volumes. It is intended for the use of the faculty and students of the Chicago Theological seminary, but may be used by clergymen and others. The library is open on weekdays from Oct. 5 to Aug. 31 from 9 a. m. to 12 m. and from 1 to 5 p. m.; Saturdays, 9 a. m. to 12 m.; closed Sundays. Librarian, Rev. Harry T. Stock.

VIRGINIA LIBRARY.

826 Belden avenue.

The Virginia library of the McCormick Theological seminary contains more than 44,500 volumes and is open every weekday of the year except legal holidays not only to those immediately connected with the seminary but to others as well. The hours are 9 a. m. till 5 p. m. and 7:30 till 9:30 p. m. while the seminary is in session, and the same during the vacations with the exception of the evening hours and Saturday afternoons. Librarian, Rev. John F. Lyons.

GARRETT BIBLICAL INSTITUTE LIBRARY.

Evanston, Ill.

This is a reference library of theology for the use of the faculty and students of the institute and neighboring clergymen, but open to the public October to September from 8 a. m. to 6 p. m. and from 7 to 10 p. m. Oct. 1, 1918, the library contained 53,279 volumes and 20,873 pamphlets. Librarian, Doremus A. Hayes; assistant Librarian in charge, Samuel G. Ayres.

CHICAGO LAW INSTITUTE LIBRARY.

1025 county building.

President—Charles J. O'Connor.

Secretary—Alfred E. Barr.

Treasurer—Frederic S. Hebard.

Librarian—William H. Holden.

The library contains about 65,000 volumes.

CHILDREN'S SCIENCE LIBRARY.

The Chicago Academy of Sciences, Lincoln park, contains more than 500 volumes for children on natural history, including plants, animals, astronomy, geography and industries. The reading room is open from 9 a. m. to 5 p. m. each weekday.

WESTERN SOCIETY OF ENGINEERS.

1735 Monadnock block.

The technical library maintained by this society contains about 10,000 volumes upon the subject of engineering. Members of the society may borrow books from the collection. Nonmembers may receive this privilege upon the deposit of a required amount. The library is open to the public from 9 a. m. to 5 p. m. (except Saturday, when the hours are from 9 a. m. to 4 p. m.). Secretary, Edgar S. Nethercut; Librarian, Virginia Savage.

FIRE UNDERWRITERS' ASSOCIATION LIBRARY.

Room 2132, 175 West Jackson boulevard.

The library of the Fire Underwriters' Association of the Northwest contains 4,500 bound volumes, containing information relative to fire insurance and allied subjects. Library open from 9:30 a. m. to 4:30 p. m., except Saturdays, when it is closed at 1 o'clock.

The library of the Fire Insurance club of Chicago, room 2132 Insurance Exchange building, 175 W. Jackson boulevard, contains 800 volumes on fire insurance. Hours same as above. Librarian, Jeannette C. McFarland.

NORTHWESTERN UNIVERSITY LIBRARIES.

Evanston and Chicago.

The Northwestern university libraries contained 175,431 bound volumes and 141,693 pamphlets July 1, 1918. The Evanston part of the library is open during the college year from 8 a. m. to 9 p. m. daily, except Sunday, and during the summer vacation from 8 a. m. to 12 m. and from 1:30 to 5 p. m. The building is known as the Orrington Lunt library. Other parts of Northwestern university libraries are located in Northwestern University building, North Dearborn and West Lake streets, Chicago, and in the Northwestern Medical school, 25th and South Dearborn streets, Chicago. Librarian (vacancy).

MAYWOOD PUBLIC LIBRARY.

South 5th avenue near St. Charles avenue.

The Maywood public library, the building for which was given by Andrew Carnegie, in October, 1918, contained 8,365 books and pamphlets. Household holders or persons vouched for by house-

holders have the privilege of taking out books. The library, which contains a large reading room, is open from 10 a. m. to 9 p. m., except Sundays and holidays. Librarian, Grace M. Rogers.

MUNICIPAL REFERENCE LIBRARY.

1005 city hall.

The Municipal Reference library contains books, pamphlets and other data relating to municipal government in Chicago and other cities. It provides and renders available for the use of members of the Chicago city council, its various committees and special commissions and municipal department and bureau heads and other city officials and employs public reports, documents, books, pamphlets and other data bearing upon municipal, legislative and administrative projects, plans and proposals, keeps on file all official public reports issued by the various governmental agencies in the city of Chicago and the annual reports, charters and ordinances of other cities. The library is open from 9 a. m. to 5 p. m. and until 12 m. on Saturday. Frederick Rex, municipal reference librarian.

PORTLAND CEMENT ASSOCIATION LIBRARY.

Room 1543 Conway building, 111 West Washington street.

The library of the Portland Cement association is a reference library on the literature of the cement industry. It contains some 2,000 books, 5,000 pamphlets and 4,000 mounted clippings. The library is open from 8:30 a. m. to 5:15 p. m., except on Saturdays, when it closes at 1 o'clock. It is a free public reference library. Librarian, Mary B. Day.

FIELD MUSEUM OF NATURAL HISTORY.

President—Stanley Field.

Vice-Presidents—Martin A. Ryerson, Watson F. Blair.

Director of the Museum and Secretary—Frederick J. V. Skiff.

Treasurer—Solomon A. Smith.

Assistant Secretary and Recorder—D. C. Davies.

The Field Museum of Natural History, established in 1894 at the close of the World's Columbian Exposition of 1893, occupies the temporary building erected for fine arts in Jackson park, the exposition site. The founding of a scientific institution of this character in Chicago was made possible by the gift of \$1,000,000 by Marshall Field, who on his death (Jan. 16, 1906) bequeathed the institution a further \$8,000,000, \$4,000,000 for the erection of a permanent building and \$4,000,000 for endowment. In addition \$1,500,000 has been donated by other individuals and there is an annual income from other sources than endowment of about \$25,000. The citizens of Chicago have confirmed legislative provision for the levy of a tax for the maintenance of the museum when a new building shall have been erected, which it is estimated will eventually produce approximately \$100,000 per annum.

The new building is now near completion, near and south of 12th street extended in an easterly direction. The architecture of this building is ornamental and dignified in character, as befits its location in a public park. The general architecture of the present building in Jackson park has been retained as well as the beautiful effects of the colonnade structure.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian Exposition. Most of this material, however, has since been rearranged, readapted or discarded. Several departments created at the organization have been abandoned, until, after the lapse of twenty years and the expenditure of approximately \$6,500,000, the museum is now divided into five departments—namely,

anthropology, botany, geology and zoology, and the Harris public school extension. Many expeditions for the purpose of obtaining study, exhibition and exchange material and data have been dispatched all over the world. The results of these expeditions, investigations and researches have been published by the museum from time to time, which publications have been distributed to kindred societies and institutions both at home and abroad. An important contribution of \$250,000 by Norman W. Harris was announced in December, 1911, for the extension of the work of the museum into the public schools of Chicago. The plans for carrying out Mr. Harris' wishes were placed in operation in the spring of 1913. The museum has a working library of about 70,000 titles, an extensive exchange system, fully equipped departmental laboratories, a herbarium of more than 500,000 sheets, study collections in mammals and birds reaching many thousand specimens, a large two story taxidermy section, a well equipped printing shop, illustration studios and assaying and lapidary rooms. In North American ethnology, in the world's mineralogy, in economic botany, the museum is particularly prominent; while its series of mounted mammals furnishes examples of advanced museum methods. The present main building covers nine acres and is open to the public on all days except Christmas and Thanksgiving. An admission fee of 25 cents is charged except on Saturdays and Sundays, when admission is free to all. Students, scholars and teachers are admitted free on all days between 9 a. m. and 4 p. m.

The museum is incorporated under state law and the administrative control rests in a board of trustees with president, secretary, etc. The executive of the museum is the director, under whom there are five head curators with divisional assistant curators, preparators, etc. The entire museum records, the accessions system, the historical files, publications and supplies are in charge of a recorder.

MUSIC IN CHICAGO.

CHICAGO SYMPHONY ORCHESTRA.

Founded by Theodore Thomas.

The Theodore Thomas orchestra was organized in Chicago in 1890-1891 by a number of men interested in promoting the highest class of instrumental music. The Orchestral association was incorporated Dec. 16, 1890, and Theodore Thomas, famous for many years as a conductor, was engaged to lead the new organization, which was then named the Chicago orchestra. The preparations were completed in 1891 and the first public rehearsal was given at the Auditorium Friday afternoon, Oct. 16, of that year. Financially the result of the first season was discouraging, the fifty or more gentlemen guaranteeing the expenses being compelled to meet a deficit of about \$53,000. Receipts, however, continued to increase from year to year until the orchestra was finally placed on a permanent basis. This was accomplished when Orchestra hall, erected by subscriptions from more than 8,000 persons, was completed at 220 South Michigan avenue, and the organization was provided with a home of its own. The first concert there was given Wednesday evening, Dec. 14, 1904. Theodore Thomas died Jan. 4, 1905, and the orchestra, which until then had been called the Chicago orchestra, was named the Theodore Thomas orchestra. Feb. 24, 1913, the title was changed to the Chicago Symphony orchestra (founded by Theodore Thomas). Frederick Stock, after the death of Mr. Thomas, was made conductor, a position he held until Oct. 2, 1918, when he withdrew until he could acquire citizenship in the United States. His place was taken by Eric De Lamar. The plan of giving two performances a week—a public rehearsal on Friday afternoon and a concert on Saturday evening—has been followed from the beginning. The season consists of twenty-eight weeks, beginning in October and ending in April.

The first officers of the Orchestral association were: N. K. Fairbank, president; C. Norman Fay, vice-president; P. A. McEwan, treasurer and secretary; Milward Adams, manager.

Officers in 1918.

President—Clyde M. Carr.
 Vice-President—Charles H. Hamill.
 Second Vice-President—Joseph Adams.
 Secretary—Philo A. Otis.
 Treasurer and Business Manager—Frederick J. Wessells.
 Assistant Treasurer—Henry E. Voegell.
 Trustees—Joseph Adams, William L. Brown, Clyde M. Carr, Clarence A. Burley, Edward B. Butler, J. J. Glessner, C. H. Hamill, Charles L. Hutchinson, Chauncey Kepp, Harold F. McCormick, Seymour Morris, Honace S. Oakley, Philo A. Otis, Albert A. Sprague II., Charles H. Swift.
 Office—850 Orchestra building.

CHICAGO OPERA ASSOCIATION.

The Chicago Opera association, known until 1915 as the Chicago Grand Opera company, was established in 1910 by a number of citizens of Chicago and New York, who organized with a capital of \$500,000, of which \$300,000 was subscribed in Chicago and the remainder in the east. The Auditorium was leased, important alterations were made and the first performance by the new company was given there in November, 1910. The officers were:

President—Harold F. McCormick.
 Vice-Presidents—Charles G. Dawes and Otto H. Kahn.
 Treasurer—Charles L. Hutchinson.
 Secretary—Phillip M. Lydig.
 Chairman Executive Committee—Clarence H. Mackay.
 Vice-Chairman Executive Committee—John C. Shaffer.

Directors—The above named officers and Robert Goebel, Frederick G. Haskell, John J. Mitchell, Ira N. Morris, LaVerne W. Noyes, Max Pam, Julius Rosenwald, John G. Shedd, Charles A. Stevens, Harry Payne Whitney, H. Rogers Winthrop.

General Manager—Andreas Dippel.
 General Musical Director—Cleofonte Campanini.
 Business Manager—Bernhard Ulrich.

First Season (1910-1911).

First performance ("Aida") given Nov. 3, 1910.
 First season ended Jan. 18, 1911.
 Receipts \$400,407.50.
 Operas produced for the first time in Chicago: Debussy's "Pelleas et Melisande" (Nov. 5, 1910).
 Charpentier's "Louise" (Nov. 9, 1910).
 Richard Strauss' "Salome" (Nov. 25, 1910).
 Massenet's "Thais" (Dec. 6, 1910).
 Puccini's "The Girl of the Golden West" (Dec. 27, 1910).

Principal singers:

Mary Garden.	Jeanne Korolewicz.
Nellie Melba.	Enrico Caruso.
Georgine Farrar.	Ameco Bassi.
Lillian Greville.	Charles Dalmores.
Carolina White.	Mario Sammarco.
Marguerita Sylva.	Antonio Scotti.
Suzanne Dumesnil.	Mario Guardabassi.
Jane Osborn-Hannah.	John McCormack.
Eleonora de Cisneros.	Hector Dufranne.
Johanna Gadski.	

Second Season (1911-1912).

First performance ("Samson et Dalila") Nov. 22, 1911.
 Second season ended Jan. 27, 1912.
 Receipts, \$471,600.98.
 Operas produced for first time in Chicago: Massenet's "Cendrillon" (Nov. 27, 1911); Wolf-Ferrari's "Il Segreto di Susanna" (Dec. 7).
 Massenet's "Le Jongleur de Notre Dame" (Dec. 7).
 Victor Herbert's "Natoma" (Dec. 15).
 Jean Nougues' "Quo Vadis" (Dec. 20).
 Wolf-Ferrari's "The Jewels of the Madonna" (Jan. 16, 1912).
 *First time in America.

Principal singers:

Mary Garden.	Marie Cavan.
Luisa Tétrazini.	Jenny Dufan.
Ernestine Schumann-Heink.	Alice Zeppilli.
Olive Fremstad.	Rosina Galli.
Maggie Teyte.	Henri Scott.
Jane Osborn-Hannah.	Hector Dufranne.
Jeanne Gerville-Reach.	Mario Sammarco.
Minnie Saltzman-Stevens.	Armand Carabbe.
Carolina White.	Charles Dalmores.
Marta Wittkowsk.	Ameco Bassi.
Eleonora de Cisneros.	Edmund Warnery.
Agnes Berry.	George Hamlin.
Mabel Kiegelman.	Mario Guardabassi.
	Clarence Whitehill.
	John McCormack.

Third Season (1912-1913).

First performance ("Manon Lescaut") Nov. 26, 1912.
 Third season ended Feb. 1, 1913.
 Receipts for ten weeks, \$508,000.
 Operas produced for the first time in Chicago: Erlanger's "Noel" (Jan. 8, 1913).
 Zandonna's "Conchita" (Jan. 30, 1913).
 *First time in the United States.

Principal singers:

Mary Garden.	Ernestine Schumann-Heink.
Luisa Tétrazini.	Minnie Saltzman-Stevens.
Maggie Teyte.	Louise Berat.
Marquitta Tarquini.	Titta Ruffo.
Jenny Dufan.	Mario Sammarco.
Mabel Kiegelman.	Charles Dalmores.
Minnie Egner.	Aristodemo Giorgini.

*Guest artists.

Fifth Season (1915-1916).

Owing to the war in Europe no performances were given by the Chicago Grand Opera company during the season of 1914-1915. The organization went into liquidation and was reorganized, taking the name Chicago Opera association. Cleofonte Campanini made the necessary arrangements for artists and the performance of operas was resumed in November, 1915.

First performance ("La Gioconda") Nov. 15, 1915.

Fifth season ended Jan. 22, 1916. Operas produced for the first time in Chicago: Saint-Saens' "Dejanire" (Dec. 9, 1915). Massenet's "Cleopatre" (Jan. 10, 1916). Bucholter's "A Lover's Knot" (Jan. 16, 1916). Leoncavallo's "Zaza" (Jan. 17, 1916).

Principal singers:

Emmy Destinn.
Louise Edvina.
Marguerite Beriza.
Florence Macbeth.
Nellie Melba.
Marcia Van Dresser.
Julia Claussen.
Ernestine Schumann-Heink.
Eleonora de Cisneros.
Edna Darch.
Carmen Meils.

John McCormack.
Desire Defreze.
Clarence Whitehill.
Francis MacLennan.
William Beck.

Sixth Season (1916-1917).

First performance ("Aida"), Nov. 13, 1916. Sixth season ended Jan. 22, 1917. Operas produced for the first time in Chicago: Zandonai's "Francesca da Rimini" (Jan. 6, 1917).

Massenet's "Griseldis" (Jan. 12, 1917). Gupsbourg's "The Old Eagle" (Jan. 20, 1917).

Principal singers:

Amelita Galli-Curci.
Mary Garden.
Irene Pawloska.
Louise Berat.
Geraldine Farrar.
Julia Claussen.
Marguerite Buckler.
Maria Claessens.

Lucien Muratore.
Hector Dufranne.
Marcel Journet.
Charles Dalmore.
Giulio Crimi.
Giacomo Rimini.
Francesco Daddi.
Juan Nadol.

The conductors were Cleofonte Campanini and Marcel Charlier.

Seventh Season (1917-1918).

First performance ("Isabeau"), Nov. 12, 1917. Season ended Jan. 19, 1918. Operas produced for the first time in Chicago: Mascagni's "Isabeau" (Nov. 12, 1917). Hadley's "Azora" (Dec. 26, 1917). Nevin's "A Daughter of the Forest" (Jan. 5, 1918).

Massenet's "Sapho" (Jan. 10, 1918). Lazzari's "Le Sauteriot" (Jan. 19, 1918). *First performance anywhere.

Principal singers:

Amelita Galli-Curci.	Hector Dufranne.
Rosa Raisa.	Giulio Crimi.
Nellie Melba.	Giacomo Rimini.
Mary Garden.	Georges Baklanoff.
Genevieve Vix.	John McCormack.
Carolina Lazzari.	Gustave Huberdeau.
Margery Maxwell.	Octave Dia.
Francesca Peralta.	Alfred Maguenat.
Evelyn Farnell.	Forrest Lamont.
Lucien Muratore.	James Goddard.

The conductors were Cleofonte Campanini and Marcel Charlier.

President—Mrs. John F. Snuelski.
Vice-Presidents—Miss Helen B. Lawrence and Mrs. A. F. Callahan.
Secretary—Mrs. Charles F. Everett.

WOMAN SUFFRAGE IN ILLINOIS.

Under the state law of 1913 women in Illinois may vote for presidential electors, members of the state board of equalization, clerk of the Appellate court, county collector, county surveyor, members of board of assessors, members of board of review, sanitary district trustees and for all the officers of cities, villages and towns (except police magistrates), municipal judges and upon all questions or propositions submitted for approval at elections.

They may also vote for the following township officers: Supervisor, town clerk, assessor, collector and highway commissioner. Woman voters must be citizens of the United States, 21 years of age or more, resident in the state one year in the county ninety days and in the election district thirty days next preceding the election. Women must register in the same manner as male voters.

POPULATION OF CHICAGO.

LATE CENSUSES AND ESTIMATES.	
Government estimate (1918)	2,596,681
Federal census (1910)	2,185,283
School board estimate (1916)	2,550,000
City directory (1917)	2,652,000

POPULATION BY CENSUS YEARS.

1840	4,479	1880	503,298
1850	28,269	1890	1,099,850
1860	109,206	1900	1,698,575
1870	293,971	1910	2,185,283

Rate of Increase.

Period.	Ratio.	Period.	Ratio.
1840 to 1850	570.3	1880 to 1890	118.6
1850 to 1860	366.6	1890 to 1900	64.4
1860 to 1870	173.6	1900 to 1910	28.7
1870 to 1880	68.3		

The figures of the school census for May 4, 1914, showed a normal ratio of increase for the four years from 1910 to 1914 close to the 28 per cent ratio for the decade from 1900 to 1910.

POPULATION BY WARDS.

Estimated population of wards of Chicago prepared for the committee on judiciary of the city council, Ald. Otto Kerner chairman, by Frederick Rex of the municipal reference library.

CHICAGO SCHOOL CENSUS OF MARCH 27, 1916.

Taken under the supervision of William L. Bodine for the board of education.

TOTAL POPULATION.

Taking the minor population conservative multiple, which proved to be the only one successfully close to the actual federal enumeration of the total population in 1910, Mr. Bodine estimated the total population of all ages in Chicago in 1916 at 2,550,000. This would be an increase of 112,474 as compared with the school census of 1914, which covered all ages and showed a total population of 2,437,526. Mr. Bodine pointed out that the ratio of increase in both the minor and total population had been appreciably retarded in the two years by the decrease in immigration from Europe, by the return of many foreign born parents to take part in the war, by the trend of many families to the suburbs close to Chicago but outside the city limits where they could not be included in the census, and by the growth of apartment houses with limited space.

MINOR POPULATION SINCE 1906.

1906.....	706,550	1912.....	882,516

DEAF, BLIND, CRIPPLED AND ILLITERATE MINORS.

There were in 1916 567 deaf children in the city and 182 minors who were blind, or nearly so. There are 126 more who have visual defects leading to the sightless life.

The city had 645 crippled minors of whom 210 were so incapacitated that they were eligible for transportation service to the crippled children's centers. There were 2,086 so called "subnormal" minors in the entire city, including those feeble-minded, mentally backward or having mental defects. Returns from special divisions in the public schools make a complete count of this class of children possible. Chicago has 221 mutes.

The illiterates over 12 and under 21, mostly between 16 and 21, total 673, who cannot read or write.

NO SCHOOL CENSUS IN 1918.

Owing to litigation over the membership of the board of education no school census was taken in Chicago in 1918.

CHICAGO THEATERS.

Seating capacity given in parentheses.

- Academy (962)—16 South Halsted street.
 Adelpia (1,312)—7070 North Clark street.
 Albany Park (994)—4816 North Kedzie-av.
 Alhambra (1,134)—State-st. and Archer-av.
 Alvin (536)—1612 West Chicago avenue.
 American (1,226)—6-14 North Ashland-av.
 Americus (664)—3437 Ogden avenue.
 Apollo (669)—526-528 East 47th street.
 Apollo (1,013)—1540 North Crawford avenue.
 Archer (900)—2006-10 Archer avenue.
 Argmore (660)—1038-52 Argyle avenue.
 Aristo (603)—2648 Lincoln avenue.
 Armitage (951)—3553 Armitage avenue.
 Ashland (605)—4856 South Ashland avenue.
 Ashland (901)—1613 West Madison street.
 Atlantic (1,609)—3950 West 26th street.
 Atlas (627)—4715 South State street.
 Auditorium (3,623)—Congress and Wabash-av.
 Austin (533)—5619 West Madison street.
 Avon (782)—3325-29 Fullerton avenue.
 Avenue (1,140)—3108 Indiana avenue.
 Banner (796)—1611 North Robey street.
 Beach (996)—1504 East 51st street.
 Bell (570)—1539 Milwaukee avenue.
 Bertha (591)—4717 Lincoln avenue.
 Bijou (858)—300 South Halsted street.
 Biograph (998)—2431 Lincoln avenue.
 Blackstone (1,200)—60-68 East 7th street.
 Boulevard (998)—1606 Garfield boulevard.
 Broadway (690)—5206-8 Broadway.
 Broadway Strand (1,587)—1641 West 12th-st.
 Bryn Mawr (768)—1125 Bryn Mawr avenue.
 Buckingham (965)—3317 North Clark street.
 Bugg, The (992)—3940 North Robey street.
 Bush Temple (845)—110 West Chicago avenue.
 California (683)—3436 West 26th street.
 Calo (880)—5406 North Clark street.
 Calumet (1,013)—9206 South Chicago avenue.
 Casey (944)—1649-53 South State street.
 Casino (1,003)—403 North Clark street.
 Central Music Hall (677)—64 E. Van Buren-st.
 Central Park (2,032)—3531-39 West 12th-st.
 Century (822)—1419 West Madison street.
 Chateau (1,683)—3810-12 Broadway.
 Chicago (1,200)—Wabash-av. and Peck court.
 Chicago Avenue (705)—2136-28 W. Chicago-av.
 Chopin (546)—1541-43 West Division street.
 Cicero (595)—306-08 South Cicero avenue.
 Circle (707)—3239-41 West 12th street.
 Claremont (624)—3226 North Clark street.
 Clark (1,050)—4533 North Clark street.
 Coban's Grand (1,405)—121 North Clark-st.
 Coliseum (15,000)—Wabash-av., near 16th-st.
 College (1,083)—Webster and Sheffield-avs.
 Colonial (1,450)—26 West Randolph street.
 Columbia (1,078)—15-21 North Clark street.
 Columbia (700)—2120 North Clark street.
 Columbus, The (927)—6236 South Ashland-av.
 Coronado (785)—3972 Vincennes avenue.
 Cort (962)—76-82 North Dearborn street.
 Cosmopolitan (854)—7938 South Halsted-st.
 Covent Garden (2,251)—2653-65 N. Clark-st.
 Crawford (908)—19 South Crawford avenue.
 Crescent (792)—2915 Milwaukee avenue.
 Criterion (1,233)—1228 Sedgwick street.
 Crown (1,391)—Ashland-av. and Division-st.
 Crown Hippodrome (707)—4007 West 26th-st.
 Crystal (1,834)—2701-11 West North avenue.
 Dante (500)—815 West Taylor street.
 Dearborn (741)—126 North Dearborn street.
 De Luxe (1,033)—114 Wilson avenue.
 Devon (546)—1616 Devon avenue.
 Douglas (792)—3236 West 22d street.
 Douglas (584)—3123-25 Cottage Grove avenue.
 E. A. R. (892)—6839 Wentworth avenue.
 Easterly (571)—2768 Lincoln avenue.
 Elmo (780)—2404 West Van Buren street.
 Emmett (550)—4338 Wentworth avenue.
 Empire (1,242)—673 West Madison street.
 Empress (900)—6246 Cottage Grove avenue.
 Empress (1,439)—6226 South Halsted street.
 Englewood (1,305)—726 West 63d street.
 Erie (610)—641-643 North Clark street.
 Famous (600)—3644 West Chicago avenue.
 Franklin (725)—320 East 31st street.
 Frolic (899)—947 East 55th street.
 Gaiety (759)—9205 Commercial avenue.
 Garfield (693)—2844 West Madison street.
 Garrick (1,257)—60 West Randolph street.
 Gayety (981)—531 South State street.
 Germania (905)—1546-50 North Clark street.
 Gold (803)—3411 West 12th street.
 Grand (772)—3512-18 Archer avenue.
 Grand (593)—415 East 43d street.
 Grand (853)—3110 South State street.
 Grand (505)—3433 West North avenue.
 Grand Oak (904)—3955 Grand boulevard.
 Grayland (526)—3947 North Crawford avenue.
 Great Northern (1,350)—21 Quincy street.
 Halford (952)—5449 South Halsted street.
 Halsted (707)—320 South Halsted street.
 Hamilton (999)—2186 East 71st street.
 Hamilton (639)—6811 South Halsted street.
 Hamlin (1,204)—3826 West Madison street.
 Harper (1,201)—5234-44 Harper avenue.
 Harvard (726)—6316 Harvard avenue.
 Haymarket (1,800)—732 West Madison street.
 Hippodrome (538)—1619 West 63d street.
 Howard (1,650)—1631 Howard street.
 Hub (769)—1742-46 West Chicago avenue.
 Hyde Park (622)—5314 Lake Park avenue.
 Ideal (698)—1622 Larrabee street.
 Illington (982)—2122-24 West 22d street.
 Illinois (1,287)—75 East Jackson boulevard.
 Imperial (1,266)—2329 West Madison street.
 Independence (574)—3747 West 12th street.
 Indiana (786)—219 East 43d street.
 Iris (895)—5747 West Chicago avenue.
 Irving (1,396)—4005 Irving Park boulevard.
 Jackson Park (1,420)—6711 Stony Island-av.
 Julian (799)—920 Belmont avenue.
 Karlov (893)—4048 Armitage avenue.
 Kedzie (1,461)—W. Madison-st. and Kedzie-av.
 Kedzie Annex (753)—3210-12 West Madison-st.
 Kenmore (498)—1039 Wilson avenue.
 Kenwood (885)—1225 East 47th street.
 Keystone (791)—3912 Sheridan road.
 Kimbark (688)—6240 Kimbark avenue.
 Knickerbocker (994)—6217 Broadway.
 Lake Shore (542)—3175 Broadway.
 Lakeside (998)—4730 Sheridan road.
 Lane Court (999)—322 Center street.
 Langley (889)—702 East 63d street.
 LaSalle (759)—110 West Madison street.
 LaSalle (728)—152 West Division street.
 LeGrand (694)—5241 North Clark street.
 Leida (644)—645-47 West 120th street.
 Lexington (716)—1162 East 63d street.
 Lexington (755)—715 South Crawford avenue.
 Liberty (649)—3707 Fullerton avenue.
 Lincoln (1,500)—3160 Lincoln avenue.
 Linden (798)—743 West 63d street.
 Logan Square (1,318)—2532 Milwaukee-av.
 Lowry (654)—740 Milwaukee avenue.
 Lucile (503)—654-657 North Cicero avenue.
 Lux (754)—106-108 East 35th street.
 Lycium (700)—3851 Cottage Grove avenue.
 Lyda (925)—316 North Cicero avenue.
 Lyric (560)—115th street and Michigan-av.
 Mabel (655)—3956-58 Elston avenue.
 Madison Square (1,367)—4730-40 W. Madison.
 Madrin (797)—1910 West Madison street.
 Majestic (1,980)—18 West Monroe street.
 Marlowe (1,139)—Stewart-av. and West 63d-st.
 Marshall Square (1,426)—2869 West 22d-st.
 Marshfield (924)—3305-11 N. Marshfield-av.
 McVicker's (1,813)—23 West Madison street.
 Metropolitan (1,384)—4644 Grand boulevard.
 Michigan (1,345)—110-112 East Garfield-blvd.
 Midway (900)—Cottage Grove-av. and 63d-st.
 Milford (1,188)—3311 North Crawford avenue.
 Model (800)—821 West 69th street.
 Monarch (726)—461 East 31st street.
 Morse (565)—1330-32 Morse avenue.
 National (1,188)—6235 South Halsted street.
 New Apollo (1,013)—1540 North Crawford-av.
 Newberry (709)—854 North Clark street.
 New Irving (579)—716-718 West 12th street.
 New Strand (773)—2111 West Division street.
 North Avenue (1,195)—316 West North-av.
 Oak (1,007)—2000 North Western avenue.

Oakland Square (1,424)—3947-51 Drexel-blvd.
 Oakley (978)—2320 West Chicago avenue.
 Olympia (582)—4619-21 South Ashland-av.
 Olympic (1,594)—165 North Clark street.
 Orchestra Hall (2,570)—216 S. Michigan-av.
 Orpheum (794)—110 South State street.
 Orpheus (879)—1611-13 West 12th street.
 Owl (944)—4649-53 South State street.
 Palace (1,442)—1135 Blue Island avenue.
 Palace (1,303)—127-135 North Clark street.
 Palace (503)—1826 South Halsted street.
 Panorama (671)—5110 Prairie avenue.
 Pantheon (2,298)—4642 Sheridan road.
 Paramount (988)—2636 Milwaukee avenue.
 Park (568)—5960 West Lake street.
 Parkway (748)—2736-38 North Clark street.
 Parkway (774)—11053 Michigan avenue.
 Parkway (960)—2737 West 22d street.
 Paulina (790)—1335 North Paulina street.
 Peekin (610)—2700 State street.
 Peoria (1,078)—2207 West Van Buren street.
 Pine Grove (653)—717 Sheridan road.
 Plaisance (519)—466 North Parkside avenue.
 Playhouse, The (550)—410 S. Michigan-av.
 Plaza (1,195)—308-312 West North avenue.
 Powers' (1,106)—124 West Randolph street.
 Prairie (902)—5744 Prairie avenue.
 President (719)—55th street, near Calumet-av.
 Princess (958)—319 South Clark street.
 Rainbow (734)—11311 South Michigan-av.
 Regent (732)—6744 Sheridan road.
 Regent (824)—6826 South Halsted street.
 Republic (770)—3918 Lincoln avenue.
 Rex (604)—6848 South Racine avenue.
 Rex (688)—2340-42 West Madison street.
 Rialto (1,548)—336-44 South State street.
 Riviera (2,100)—4752 Broadway.
 Rose (727)—2860 Milwaukee avenue.
 Roseland (996)—11331 South Michigan-av.
 Rosewood (985)—1823 Montrose boulevard.
 St. Alphonsus (1,004)—Southport and Lincoln avenues.

Shindlers (1,053)—1005-7 West Huron street.
 Shakespeare (996)—906 East 43d street.
 Sheridan (567)—935 Irving Park boulevard.
 South Shore (999)—6851 Stony Island avenue.
 Star (1,423)—1455 Milwaukee avenue.
 Star and Garter (1,961)—815-17 W. Madison.
 States (686)—3505-11 South State street.
 Strand (693)—3029-33 Lincoln avenue.
 Strand (1,469)—700 South Wabash avenue.
 Studebaker (1,280)—418 South Michigan-av.
 Temple (543)—3121 Lincoln avenue.
 Terminal (896)—3308 Lawrence avenue.
 Thalia (889)—1807 Allport avenue.
 Theater (897)—3138-42 South Halsted street.
 Tippin (791)—4045 West North avenue.
 Triangle (546)—7219 Wentworth avenue.
 Twentieth Century (932)—4708 Prairie-av.
 Twentieth Century (798)—3530-38 W. 12th-st.
 Vaudeville (570)—501-5 South Kedzie avenue.
 Verdi (958)—2035-41 West 35th street.
 Vernon (742)—436 East 61st street.
 Victoria (1,800)—Belmont and Sheffield-avs.
 Virginia (692)—809 West Madison street.
 Vision (732)—2650 West Division street.
 Vista (975)—822 East 47th street.
 Vitagraph (998)—3133 Lincoln avenue.
 Waverly (556)—527 South Halsted street.
 Weber's (1,309)—1836-40 South Wabash-av.
 West End (1,199)—121 North Cicero avenue.
 White Palace (737)—1609-11 South Kedzie-av.
 Willard (1,195)—340 East 51st street.
 Wilson (1,000)—Wilson avenue and Broadway.
 Windsor (1,256)—1235 North Clark street.
 Windsor Park (556)—2638 East 75th street.
 Woodlawn (1,750)—63d-st. and Woodlawn-av.
 Woods (1,196)—Randolph and Dearborn-sts.
 York (583)—641 South Paulina street.
 Ziegfeld (692)—624 South Michigan avenue.
 In addition to the theaters named above there were on Dec. 1, 1918, a considerable number of minor places of amusement with a seating capacity of less than 500 each.

LOCATION OF RAILWAY PASSENGER STATIONS.

CENTRAL STATION.

Park row and 12th street; south side.
 Cleveland, Cincinnati, Chicago & St. Louis (Big Four).
 Illinois Central.
 Michigan Central.
 Grand Rapids & Indiana.
 CHICAGO & NORTHWESTERN.
 West Madison and Canal streets; west side.
 All divisions.

DEARBORN STATION.

Dearborn and Polk streets; south side.
 Atchison, Topeka & Santa Fe.
 Chesapeake & Ohio.
 Chicago & Eastern Illinois.
 Chicago & Western Indiana.
 Chicago, Indianapolis & Louisville (Monon)
 Erie.
 Grand Trunk.
 Wabash.

GRAND CENTRAL STATION.

Fifth avenue and Harrison street; south side.
 Baltimore & Ohio.

Chicago Great Western.
 Chicago Terminal Transfer.
 Minneapolis, St. Paul & Sault Ste. Marie (Soo line; formerly Wisconsin Central).
 Pere Marquette.

LA SALLE STREET STATION.

Van Buren and LaSalle streets; south side.
 Chicago, Rock Island & Pacific.
 Chicago & Indiana Southern.
 Lackawanna.
 Lake Shore & Michigan Southern.
 New York, Chicago & St. Louis (Nickel Plate).

UNION STATION.

Canal street, between Adams and Madison; west side.
 Chicago & Alton.
 Chicago, Burlington & Quincy.
 Chicago, Milwaukee & St. Paul.
 Pittsburgh, Fort Wayne & Chicago.
 Pittsburgh, Cincinnati, Chicago & St. Louis (Pan Handle).

SOCIETIES OF ARTISTS AND ART CLUBS.

Art Alliance of America—President, G. W. Stevens; secretary, Eames MacVeagh.
 Artists' Guild—602, 408 South Michigan avenue; president, Frank A. Werner; secretary, Elizabeth M. Saunders.
 Arts Club of Chicago—608-610 South Michigan avenue; president, Mrs. John Alden Carpenter; secretary, Eames MacVeagh.
 Chicago Public School Art Society—President, Mrs. John Buckingham; corresponding secretary, Mrs. Alfred M. Walter, 2729 Prairie avenue.
 Chicago Ceramic Art Association—Art institute;

president and director, Mrs. George Emmons; corresponding secretary, Mrs. Eugene Phelps.
 Chicago Outdoor Art League—President, Mrs. John Worthy.
 Chicago Society of Artists (organized 1902)—President, Charles F. Browne; meets in Art institute.
 Commission for Encouragement of Local Art—President, Carter H. Harrison.
 Municipal Art League of Chicago—President, Everett L. Millard; secretary, Mrs. William F. Young.
 Western Society of Sculptors—President, Albin Polasek; secretary, Pompeo Coppini.

CHICAGO WATERWORKS SYSTEM.

The following table shows the growth of Chicago's waterworks system by decades since 1854, when the first large pumping station at Chicago avenue and the lake was built, and by years since 1900:

Year.	*Population using city water.	Gallons pumped per day.	Gallons per capita.	Total Revenue.
1854.	65,000	591,000	9.1	\$58,105.00
1860.	109,000	4,704,000	43.1	131,162.00
1870.	307,000	21,766,000	70.9	539,180.00
1880.	503,000	57,384,000	114.1	865,618.35
1890.	1,107,000	152,372,000	137.6	2,109,508.00
1900.	1,727,566	322,683,000	186.8	3,250,481.85
1901.	1,776,236	342,901,000	193.0	3,370,600.88
1902.	1,824,906	358,179,000	196.3	3,611,558.81
1903.	1,873,576	376,000,000	200.7	3,689,625.80
1904.	1,922,268	399,065,000	207.6	4,281,541.30
1905.	1,970,936	410,930,000	208.5	4,019,205.88
1906.	2,019,606	437,059,000	216.4	4,281,065.50
1907.	2,068,276	455,194,000	220.1	4,450,349.61
1908.	2,116,946	469,282,000	221.7	4,648,299.54
1909.	2,165,616	480,905,000	222.0	5,032,008.48
1910.	2,214,286	518,579,000	232.2	5,448,257.55
1911.	2,262,956	507,324,000	224.2	5,993,771.32
1912.	2,345,315	551,324,000	235.1	6,263,234.75
1913.	2,372,000	577,860,575	243.6	6,560,042.21
1914.	2,398,325	613,323,616	254.2	6,458,514.83
1915.	2,447,504	606,707,671	248.0	6,180,732.92
1916.	2,491,933	619,803,000	249.0	6,597,995.07
1917.	2,571,941	631,433,000	245.0	7,188,293.33

*Estimated from United States government census.

In 1917 the total amount of water pumped was 234,132,030,000 gallons.

The pumping stations, with the year of construction of each, follow:

Chicago avenue...	1854	Jefferson Park....	1897
Twenty-second st...	1875	Rogers Park.....	1899
Harrison street....	1889	Central Park.....	1900
Lake View.....	1892	Springfield av....	1901
Fourteenth street..	1892	Roseland.....	1910
Sixty-eighth st...	1892	Mayfair.....	1916
Washington Hts..	1892	W. H. Thompson..	1917

The total daily capacity of the waterworks in gallons is 923,000,000.

Other statistics: Number of taps, 305,717; hydrants in use, 30,740; meters in use, 22,709; mileage of water pipe, 2,842.

LAKE TUNNELS.

- One 5 foot tunnel from two mile crib to Chicago avenue pumping station; built 1867; cost \$464,866.05.
- One 7 foot tunnel from two mile crib to Chicago avenue pumping station; built 1874; cost \$415,709.36.
- One 7 foot tunnel from two mile crib to Chicago avenue pumping station; built 1887-1895; cost \$342,786.64.
- One 14 foot tunnel lake extension of Chicago avenue and Blue Island avenue system; begun 1911; cost \$7,530.28.
- One 8 foot tunnel from four mile crib to 14th street pumping station; built 1892; cost \$1,104,744.12.
- One 10 foot tunnel from Carter H. Harrison crib to foot of Oak street; built 1898; cost \$677,577.55.
- One 7 foot tunnel from Lake View crib to Lake View pumping station; built 1896; cost \$701,792.45.
- One 7 foot tunnel from Hyde Park crib to 68th street pumping station; built 1898; cost \$771,556.07.
- One 14 foot tunnel from Hyde Park to 73d street and Railroad avenue; built 1912; cost \$1,793,860.10.

LAND TUNNELS.

- One 7 foot tunnel from Chicago avenue pumping station to 22d street pumping station; built 1874; cost \$542,912.63.

- One 7 foot tunnel from Park row shaft to foot of Peck place and thence to Harrison street pumping station; built 1891; cost \$279,848.78.

- One 6 foot connecting tunnel in Jefferson street from Van Buren to Harrison; built 1891; cost \$15,968.17.

- One 10 foot tunnel foot of Oak street to Green street and Grand avenue, and two 8 foot tunnels from that point to Central Park avenue and Springfield avenue pumping stations, respectively; built 1900; cost \$2,121,525.02.

- One 7 foot tunnel connecting above 10 foot tunnel with Chicago avenue pumping station (remodeled); built 1898; cost \$42,436.45.

- One 9 foot tunnel from 104th street and Stewart avenue to 73d and State streets; one 12 foot tunnel in 73d street from State street to Yates avenue, and one 14 foot tunnel from Yates avenue to Railroad avenue; built 1912; cost \$1,647,591.18.

- One 7 foot tunnel in Polk street connecting Peck place shaft and Jefferson street shaft; built 1907; cost \$181,929.54.

- One 8 foot tunnel from Chicago avenue to 22d street and Ashland avenue; built 1911; cost \$833,267.77.

- One 9 foot tunnel 73d and State streets to 75th street and Western avenue; built 1912; cost \$1,642,669.84.

- One 8 foot tunnel connecting two mile crib tunnel with Blue Island avenue tunnel; built 1913; cost \$55,368.22.

- One 8 foot tunnel connecting southwest land and lake tunnel to 68th street pumping station; built 1916; cost \$131,553.24.

- One 12 and 13 foot tunnel, Wilson and Clarendon avenues to Mayfair, 43,500 feet long; construction begun in 1913; estimated cost, \$4,550,870.

WATER RATES IN CHICAGO.

Flat Rates—Annual.

All flat rates are based on frontage and number of stories of buildings. Residences with one family of twelve or less are entitled to a full equipment of bathtubs, water closets,

basins, sinks, laundry tubs and other similar sanitary fixtures without additional charge. Apartment buildings, fully equipped with sanitary fixtures, are charged \$7 in addition to the frontage rates for each apartment exceeding one.

Frontage rates for one-story houses are quoted below. Each additional story increases the rate \$1.50.

Frontage.	Rate.	Frontage.	Rate.
12 feet and less.	\$2.50	40 to 44 feet.	\$11.50
12 to 15 feet....	3.50	44 to 48 feet....	12.50
15 to 18 feet....	4.50	48 to 52 feet....	13.50
18 to 21 feet....	5.50	52 to 56 feet....	14.50
21 to 24 feet....	6.00	56 to 62 feet....	15.50
24 to 27 feet....	7.00	62 to 67 feet....	16.00
27 to 30 feet....	8.00	67 to 72 feet....	17.00
30 to 33 feet....	9.00	72 to 77 feet....	18.00
33 to 36 feet....	9.50	77 to 82 feet....	19.00
36 to 40 feet....	11.00	82 to 87 feet....	20.00

Residences—Frontage rate plus 5 cents per ton of coal consumed for steam heating plant; each 100 square feet of greenhouse space, \$2; hose connection, 30 foot frontage, \$2; 30 to 50 foot frontage, \$3; each additional 25 foot frontage, 50 cents.

Business—Hotels, lodging houses and taverns.

not over twelve rooms, one set of fixtures with frontage rates; each room over 12, \$1. Additional fixtures: Bathtubs, each, \$3; urinals, each, \$1.50; hand basins, each, \$1; water closets, each, \$3; steam heated, same as residences; steam engines, per horse power, \$4. Office buildings, same as hotels. Stores and business premises, frontage rates plus 25 cents per person over ten employed. Additional fixtures: Hand wash basin, \$2.50; closet, \$3.50; other fixtures, similar to hotels. Public fixtures: Bathtub, \$6; hand basin, \$2.50; closet, \$3.50; urinal, \$1.50; laundry tub, \$1.75. Barber shop fixtures, same as public. Bakeries, frontage rates plus 1 cent for each barrel of flour or meal used.

Building—Each 1,000 bricks used, 5 cents; each cord of stone, 6 cents; each cubic yard concrete, 2 cents; each 100 yards plastering, 15 cents. If flat rates amount to more than \$100 a year, metered service is required.

Meter Rates.

Meter rates are 62½ cents per 1,000 cubic feet. Discount of 10 per cent for prompt payment of bills. Special rates are quoted on water drawn through direct connection with city tunnels, from conduits and from Lake Michigan or the Chicago river.

CHICAGO STREET RAILWAY CHRONOLOGY.

Omnibuses—First regular omnibus line started by Frank Parmelee May 8, 1859.

Horse Cars—South side: First line on State street, between Randolph and 12th streets, open April 25, 1859. West side: Madison street line, halted to State, opened May 20, 1859; Randolph street line opened July 15, 1859. North side: Wells street line, river to Chicago avenue, opened late in spring of 1859; Clark street line opened in August, 1859.

Cable Cars—South side: First cable line in Chicago operated on State, to 39th street; began business Jan. 28, 1882; Cottage Grove avenue line built same year. North side: Clark street line opened March 27, 1888; Wells street line opened same year; Lincoln avenue line opened Jan. 22, 1893; Clybourn avenue line opened May 2, 1891. West side: Madison street line opened July 16, 1890; Milwaukee avenue line opened at same time; Blue Island avenue line opened July 28, 1893.

Electric Cars—South side: First electric line in city began operating Oct. 2, 1890, from 95th street and Stony Island avenue to South Chicago; trolley substituted for horse cars on most of the lines (except cable) in 1893 and 1894 in all divisions of the city and in the suburbs; trolley substituted for cable cars on State street July 22, 1906, and on Cottage Grove avenue Oct. 21, 1906. West side: Trolley cars substituted for cable on Blue Island avenue July 22, 1906, and on Madison street and Milwaukee avenue Aug. 19, 1906. North side: All cables changed to trolley lines Oct. 21, 1906.

Elevated Railways—South side: South side elevated railroad began regular operation on line between Congress street and 39th street June 6, 1892, with steam as motive power; extended to Stony Island avenue in May, 1893; extended to Englewood in 1906 and to Kenwood in 1907; trains began running around loop Oct. 19, 1897; motive power changed to electricity July 27, 1898. West side: Lake street line (Chicago & Oak Park) began running Nov. 6, 1893, with steam as motive power; electricity substituted June 14, 1896; Metropolitan road opened May 20, 1895, with electricity as motive power; began running over loop Oct. 10, 1897; extension of Garfield park and Douglas park lines completed in 1902. North side:

Northwestern line opened for business May 31, 1900, with electricity as motive power; Ravenswood branch opened May 10, 1907, through routing of trains between north and south sides and giving of transfers on all elevated roads begun Nov. 3, 1913. Fares raised to 6 cents Nov. 22, 1918.

Merger of Surface Lines—Unified Management—Ordinance passed Nov. 14, 1913, providing for merger and unified management of all surface lines, with through routes, 5 cent fares and transfers to all parts of city; ordinance went into effect Feb. 1, 1914.

STREET RAILWAY FRANCHISE.

Ordinances passed by city council Feb. 4, 1907; vetoed by mayor and passed over veto Feb. 11, 1907; approved by people on referendum vote April 2, 1907.

Systems to be reconstructed and rehabilitated within three years.

City to supervise rehabilitation through board of three engineers.

Life of grant not to extend in any event beyond Feb. 1, 1927.

City to receive 55 per cent and companies 45 per cent of the net profits from the operation of the roads.

Twenty-one through routes specified and provision made for others.

Fares for adults to be 5 cents for continuous trips in one general direction within the present or future city limits.

Transfers to be given at all connecting points on and to all lines except in section on south side between 12th street and the river. (By merger ordinance passed Nov. 14, 1913, transfers are given in all parts of the city.)

Motive power of cars to be electricity applied by the overhead or underground trolley system.

Cars to be of the latest and most approved pattern and to be kept clean and warm and well lighted.

Cars to be operated singly after one year.

Companies to pay \$5,000,000 toward the construction of subways in the downtown section at the city's option.

City given the right to purchase the property of both the present great systems at any time upon giving six months' notice.

PROPERTY BENEFITED BY "L" ROADS.

In a decision announced June 3, 1918, the United States Supreme court held that owners of property adjacent to the elevated railroads in Chicago were not entitled to damages because of the construction of the roads near such property. The decision sustained the

finding of the lower court in a suit brought by the executors of the estate of William A. McCoy, who sought damages of \$82,000 to hotel property at Clark and Van Buren streets, that property is benefited through the concentration of travel from the elevated roads.

Of the 913 persons killed on steam railroads, 491, or 54 per cent, were trespassers; on interurban railroads, 86 killed, 28 trespassers, 32.5 per cent; on street railroads, 136 killed, 8 trespassers, 6 per cent.

On steam railroads 145 persons were killed at highway crossings, as compared with 118 in 1916; of the former number 54 were in automobile accidents, 26 in other vehicles and 65 were pedestrians. On interurban railroads 37 were killed at highway crossings, as compared with 32 in 1916; 24 in automobiles, 3 in other vehicles and 10 pedestrians. On street railroads 85 were killed at street crossings, 14 in automobiles, 6 in other vehicles, and 65 pedestrians.

THE CHICAGO ACADEMY OF SCIENCES.

Founded in 1857.
 Lincoln park at Center street.
 President—John M. Coulter.
 Vice-President—Wallace W. Atwood.
 Second Vice-President—Stuart Weller.
 Secretary—Charles F. Hills.
 Treasurer—Henry S. Henschen.
 Board of Trustees—La Verne Noyes, president; Charles Dickinson, vice-president; Charles F. Gunther, Charles A. Heath, Louis E. Lafin, Henry J. Furber, Ira J. Geer, Frederick L. Wilk, John M. Coulter, Henry S. Henschen, William H. Rehm, Frances Dickinson, Carroll H. Sudler, Eugene H. Garnett, Francis T. Simmons (ex officio).
 Scientific Governors—N. S. Davis, chairman; A. L. Stevenson, Henry J. Cox, Albert Dickinson, L. C. Walker, J. Hohinger, John M. Coulter, Henry Crew, Stuart Weller, La Verne Noyes, Charles F. Hills, Peter A. Mortensen (ex officio).
 The museum is open from 9 a. m. to 5 p. m. on weekdays and from 1 to 5 p. m. on Sundays. There is no charge for admission. The academy is in co-operation with the public and private schools of the city in the promotion of nature study. Free public lecture courses.

*The great fire not included. †The large fire included. ‡Nine months ending Dec. 31, 1875.

FLAG DISPLAY DAYS IN CHICAGO.

In accordance with an order issued by Mayor William Hale Thompson May 8, 1915, the American flag should be hoisted on the buildings under the jurisdiction of the city government on all election days and on the following anniversaries:

- Feb. 12—Lincoln's birthday.
- Feb. 15—Sinking of the Maine.
- Feb. 22—Washington's birthday.
- Apr. 19—Battle of Lexington.
- May 30—Memorial day.
- June 14—Flag day.
- June 17—Battle of Bunker Hill.
- July 4—Independence day.
- Oct. 9—Chicago day.
- Oct. 12—Columbus day.
- Oct. 17—Battle of Saratoga.
- Oct. 19—Surrender of Yorktown.
- Nov. 25—Evacuation of Yorktown.

On all the foregoing dates the flag should be hoisted at full mast, with the exception of Memorial day and the anniversary of the sinking of the Maine, when it should be at half-mast. The hours of displaying the flag are from sunrise to sunset.

By an ordinance passed Feb. 5, 1917, by the Chicago city council, the playing of the "Star Spangled Banner" in public places in any way except as an entire and separate composition and without embellishments of national or other melodies is prohibited. The playing of the air as dance music or for an exit march is also prohibited. Violation of the ordinance by proprietors or performers is punishable by a fine of \$100.

GARNISHMENT LAW OF ILLINOIS.

Section 14 of the act of 1872 as amended in 1897 and 1901 declares: "The wages for services of a wage earner who is the head of a family and residing with the same, to the amount of fifteen (\$15) dollars per week, shall be exempt from garnishment. All above the sum of fifteen (\$15) dollars per week shall be liable to garnishment."

Employers are obliged to pay wages amounting to \$15 or less, notwithstanding the service of a writ of garnishment, providing the person to whom wages are due makes affidavit that he is the head of a family and is living with the same.

CHICAGO POSTOFFICE.

Entrances on Adams, Clark and Dearborn streets; telephone Harrison 4700; private exchange, all departments.

Postmaster—William B. Carlile; room 358, south wing.

Secretary—John T. McGrath, room 358, south wing.

COLLECTIONS AND DELIVERIES.

In the downtown district there are twenty-six collections of mail matter between 7 a. m. and 11 p. m.; in the outlying districts there are from four to twelve collections. Mail is delivered six times a day in the business district and three times in the outlying districts. Special delivery letters are delivered in the central postoffice district between 7 a. m. and 11 p. m. and from stations within their respective districts between 7 a. m. and 6 p. m. Special delivery mail received in special delivery section which can reach the point of delivery up to approximately 11 p. m. daily will be given service throughout the city.

In the district bounded by the Chicago river on the north and west, and on the south by 12th street, hotels, clubs, newspapers and theaters have three night deliveries between 6 and 12 p. m.

POSTAL SAVINGS BANK.

The postal savings bank was opened at the main postoffice, Chicago, Aug. 1, 1911. Any one 10 years old or over may open an account. No account may be opened for less than \$1, nor will fractions of a dollar be accepted for deposit. Depositors are now allowed to deposit a total of \$1,000, any part or all of which may be deposited in any month.

Deposits are evidenced by postal savings certificates issued in denominations of \$1, \$2, \$5, \$10, \$20, \$50 and \$100.

Depositors of the postal savings system by applying therefor thirty days in advance may exchange the whole or a part of their deposits on Jan. 1 or July 1 of each year for United States registered or coupon bonds in denominations of \$20, \$100 and \$500, bearing interest at the rate of 2½ per cent per annum, payable semiannually and redeemable at the pleasure of the United States after one year from the date of issue, both principal and interest payable twenty years from that date in United States gold coin.

Postal savings banks have also been established at the following postal stations: Armour, Auburn Park, Austin, C. Canal, Chicago Avenue, Chicago Lawn, Cragin, D. Dauphin Park, Douglas Park, Eastside, Edgewater, Elsdon, Englewood, 51st Street, Garfield Park, Grand Crossing, Hawthorne, Hegewisch, Humboldt Park, Hyde Park, Irving Park, Jackson Park, Jefferson, Lake View, Lincoln Park, Logan Square, M. McKinley Park, Morgan Park, North Halsted, Norwood Park, Ordan Park, Pilsen, Pullman, Ravenswood, Riverdale, Rogers Park, Sheridan Park, South Chicago, Stockyards, 20th Street, Washington Heights, West Pullman, Wicker Park and at stations No. 10 (Hull House) and No. 195 (Boston Store).

The Chicago office ranks third in the United States with total deposits June 30, 1918, of \$6,882,595, and 25,179 depositors.

 Union Ridge—Higgins avenue, near Norwood Park.
 Waldheim—West ten miles on Harrison street.
 Woodlawn—West 22d street and Harlem avenue.
 Zion Congregation—At Rosehill.

REGISTRATION ACT UNCONSTITUTIONAL.

The central registration act which was passed by the Illinois legislature and which went into effect July 1, 1917, was declared unconstitutional by the State Supreme court Feb. 20, 1918, on the ground that fourteen amendments were omitted from the enrolled

bill. A bureau of central registration was organized in Chicago, and district registrations were held Jan. 29 and Jan. 30. The law declared void was intended as a measure of economy by doing away with the extra general registration days required under the old system.

THE LA VERNE NOYES FOUNDATION.

Property to the value of \$2,500,000 was turned over to the University of Chicago by La Verne W. Noyes of Chicago July 25, 1918, as a fund to be designated as "The La Verne Noyes Foundation" and to be devoted to the following purposes as set forth in a memorandum accompanying the announcement of the gift:

"To pay tuition at not to exceed the ordinary rate in the University of Chicago, whether in its colleges or in its graduate or professional schools, for deserving students without regard to differences in sex, race, religion or political party, who shall be citizens of the United States and who either,

"First, shall themselves have served in the army or navy of the United States in the war for liberty into which our republic entered

Charles C. Healey, April 26, 1915.
 Herman F. Schuettler, Jan. 11, 1917.

The first heads of the Chicago police force were known as head constables. John Shridley served from 1837 to 1839 and Samuel J. Lowe from 1839 to 1842. Then the title was changed to city marshal, those serving under that name being:

Orson Smith, 1842-1844.
 Philip Dean, 1844-1848.
 Ambrose Burnham, 1848-1852.
 James L. Howe, 1852-1854.
 Darius Knight, 1854-1856.
 Cyrus P. Bradley, 1856-1858.
 J. M. Donnelly, 1859.
 Jacob Rehm, 1859.
 Iver Lawson, 1860.

In 1861 the position was given the official title of superintendent of police. Cyrus P. Bradley served from 1861 to 1863; William Tuttle from 1864 to 1866 and Jacob Rehm from 1866 to 1871.

on the sixth day of April, 1917, provided that such service was terminated by an honorable discharge, or,

"Second, shall be descendants by blood of any one in service in the army or navy of the United States, who served in said war, or,

"Third, shall be descendants by blood of any one who served in the army or navy of the United States in said war, provided that such service was terminated by an honorable death or an honorable discharge.

"It is declared to be the purpose of the donor in establishing this foundation at the same time to express his gratitude to those who ventured the supreme sacrifice of life for their country and for the freedom of mankind in this war."

 John Anderson.....July 19, 1918

John Stone was executed publicly on the prairie on the south side. William Jackson and Albert Staub were also executed publicly, but on the west side. After that executions were private and took place in the courthouse until 1878, since which time they have taken place in the county

fall on the north side. Rafferty was hanged in Waukegan for murder in Chicago. All the executions have been on Fridays except those of Sylvestri, Gilardo, Azzaro, Zephyr Davis and Smith, which occurred on Saturdays.

POINTS OF INTEREST IN AND ABOUT CHICAGO.

Cramer library, 106 North Wabash avenue, 6th floor.
Douglas monument, 35th street and Ellis avenue.
Drexel, Grand and 55th Street boulevards.
Field museum in Jackson park.
Fire tablet (1871), 137 DeKoven street.
Fort Dearborn site tablet, River street, opposite Rush street bridge.
Grand Army hall in public library building, Randolph street and Michigan avenue.
Great Lakes fountain, south end of Art institute.
Iniquos theater; fire, scene of, 28-30 West Randolph street; memorial tablet by Lorado Taft

in Iniquos Memorial hospital, 28 North Market street.
Jackson park, site of World's Fair in 1893.
Life saving station at mouth of Chicago river.
Lincoln wigwam tablet, Market and Lake streets.
Logan statue in Grant park (lake front).
Marquette building sculpture panels, Dearborn and Adams streets.
Marquette-Joliet cross, Robey street and drainage canal.
Masonic Temple; view of city from roof.
Massacre monument in 18th street near the lake.
Midway plaisance.
McKinley statue in McKinley park.
Orchestra hall, 216-220 South Michigan avenue.
Postoffice, on square bounded by Adams, Clark and Dearborn streets and Jackson boulevard.
Public library, Michigan avenue and Washington street.
Pullman suburb and manufactory.
Republic statue—Jackson park.
South Water street; commission house district.
State street department stores; shopping district.
Stockyards, Halsted and Root streets.
Tower building, Michigan avenue and Madison street.
University of Chicago quadrangles, Ellis avenue and 58th street.
Washington statue, Grand boulevard and 51st street.
Wendell Phillips high school, Prairie avenue and 39th street.
Wooded island in Jackson park.

West Side.

Ashland, Humboldt, Washington and Garfield boulevards.
Northwestern railway passenger station, Canal and West Madison streets.
Douglas park.
Drainage canal.
Garfield park.
Ghetto district on South Canal, Jefferson and Maxwell streets; fish market on Jefferson street from 12th to Maxwell.
Haymarket square, Randolph and Desplaines streets; scene of anarchist riot.
Hull House, 800 South Halsted street.
Humboldt park.
Humboldt, Leif Ericson, Reuter and Kosciusko monuments in Humboldt park.
Illinois Centennial Monument—Logan square.
Parental school, St. Louis and Berwyn avenues.
Police monument (Haymarket), in Union park.

CHICAGO'S BRIDGE SYSTEM.

The first ferry across the river was established in 1829, where the Lake street bridge now is. In 1833 a floating bridge of logs was in operation just north of the present Randolph street bridge. A foot bridge over the north branch was built in 1832 at Kinzie street. The first drawbridge over the main branch of the river was placed at Dearborn street in 1834. In 1854 a pivot bridge was built at Clark street. These and other bridges of that time were built by the persons most directly benefited by them. It was not until 1857 that a bridge was built entirely at the city's expense. This was the structure over the south branch at Madison street. It cost \$30,000. Until 1872 the swing bridges were turned by hand, but in the year named steam power was installed on the Dearborn street structure

and later most of the other bridges in the downtown section were similarly equipped. In 1895 the Rush, Lake and Van Buren street bridges were operated by electric motors. The last named structure, which was opened for traffic in that year, was the first of the Scherzer rolling type. The Halsted street lift bridge, the first and only one of its kind, was opened in 1894 and was operated by steam. It cost the city \$242,850.

In 1918 Chicago had forty-four bridges with movable spans, and thirty with fixed spans. There were also thirty-nine viaducts and eight foot bridges. Most of the movable bridges are operated by electricity. The bridges and viaducts had a value of more than \$5,000,000.

CHICAGO HIGH SCHOOL COLORS.

Austin—Red and white.
Bowen, James H.—Purple and gold.
Calumet—Maroon and light blue.
Carl Schurz—Purple and gold.
Crane, Richard T.—Crimson and royal blue.

COLDEST DAYS IN CHICAGO.

The cold spell ending Jan. 7, 1912, established a record for duration of below zero weather in Chicago—72 hours. The maximum reached was 16 degrees below zero. The longest previous below zero stretch was 71 hours, Jan. 21, 22 and 23, 1883, when the maximum reached was 17 degrees below zero. Following are the coldest days officially recorded in Chicago:

Dec. 24, 1872	—23	Feb. 9, 1899	—21
Jan. 29, 1873	—16	Jan. 25, 1904	—15
Jan. 9, 1875	—20	Feb. 13, 1905	—18
Jan. 3, 1879	—18	Jan. 7, 1912	—16
Jan. 22, 1883	—17	Jan. 28, 1915	—8
Jan. 5, 1884	—18	Jan. 13, 1916	—6
Feb. 9, 1888	—18	Feb. 2, 1917	—10
Jan. 15, 1893	—16	Jan. 12, 1918	—14
Jan. 25, 1897	—20		

HOTTEST DAYS IN CHICAGO.

July 21, 1901, when the temperature rose to 102.9 degrees above zero, was the hottest day in the history of Chicago so far as the weather bureau records go. The longest continuous hot wave in Chicago was from July 13 to July 31, 1916, when the temperature ranged from 81 to 101.7. The hottest days in each year since 1899 were:

Sept. 5, 1899	98	Aug. 8, 1903	97
Aug. 5, 1900	94	Aug. 24, 1910	93
July 21, 1901	103	July 5, 1911	101.5
June 12, 1902	91	Aug. 31, 1912	95
July 1—Aug. 24, 1903	92	June 20—July 29, 1913	95
July 17, 1904	94	July 23, 1914	99
July 13, 1905	95	Sept. 14, 1915	90
June 28, 1906	93	July 30, 1916	101.7
Aug. 11—Sept. 1, 1907	92	July 30—31, 1917	93
July 11—Aug. 3, 1908	96	Aug. 5, 1918	101.9

SEVERE BLIZZARD IN CHICAGO.

Chicago was visited by one of the severest blizzards in the history of the city Friday and Saturday, Jan. 11 and 12, 1918. The storm, which was general from the Rocky mountains on the west to the Alleghenies on the east, came from the southwest. What made it unusual was the fact that a temperature reaching as low as 14 degrees below zero in Chicago (Jan. 12) and still lower in many places occurred at the same time as a heavy fall of snow and a wind attaining the proportions of a gale. Chicago has often experienced deep snow, cold weather and strong winds, but not often a combination of the three conditions. It produced a genuine blizzard, which blockaded nearly all the railroads and local transportation lines with the exception of the elevated railroads. For two days the city was practically cut off from the outside world, most of the railroad lines not turning a wheel, and telegraph wires being down in all directions.

There had been a heavy fall of snow with a strong wind from the northeast on Sunday, Jan. 6, and the city had just been able to dig itself out from the drifts when the new storm came. This made the situation serious, as the streets were blockaded to such an extent that many of them were impassable, making deliveries of coal, milk and other articles of necessity impossible for the time being. The danger of fire was great and the

fire marshal appealed to the people to open up the streets as much as possible and clear the snow away from the fireplugs. President Lucius Teter of the Association of Commerce issued a similar appeal, and Sunday, Jan. 13, was spent by many citizens in the work of clearing sidewalks and opening paths which would make deliveries possible.

In Chicago seven deaths occurred which were directly due to the blizzard. In some cases persons were found frozen to death in the streets. The cases of frozen ears, noses and feet were innumerable. Many fatalities were reported throughout the storm area, especially in the southwest, where the conditions were even worse than in Chicago. Temperatures ranging from zero to 22 below were reported from the leading cities in the central and mountain states. Among the places where the cold was severest were Cincinnati, O.; Detroit, Mich.; Peoria, Ill.; Springfield, Ill.; Bismarck, N. D.; Charles City, Iowa; Devils Lake, N. D.; Dubuque, Iowa; Keokuk, Iowa; St. Louis, Mo.; Sioux City, Iowa; Moorhead, Minn., and Miles City, Mont.

THE ART INSTITUTE OF CHICAGO.

A museum of fine arts and school of drawing, painting, etc.
Michigan avenue and Adams street.

OFFICERS.

President—Charles L. Hutchinson.
Vice-presidents—Martin A. Ryerson, Frank G. Logan.
Treasurer—Ernest A. Hamill.

Executive Staff.

Director—George W. Eggers.
Secretary—William F. Tuttle.
Curator of Decorative Arts—Bessie Bennett.
Curator of Exhibitions—Charles H. Burkholder.
Curator of Buckingham Collection—Frederic W. Gookin.

Assistant in Charge of Prints—Kathryn W. McGovern.

Librarian—Sarah L. Mitchell.

Museum Instructor—Mrs. Herman J. Hall.
Head of Extension Department—Ross Crane.

Manager Membership Department—Guy U. Young.

Registrar of School—Henry J. Kendall.

Trustees, 1918—Edward E. Ayer, Arthur T. Aldis, Robert Alerton, Adolphus C. Bartlett, A. G. Becker, Edward B. Butler, Clyde M. Carr, Wallace L. DeWolf, Henry H. Getty, John J. Glessner, William O. Goodman, Frank W. Gunsaulus, Charles L. Hutchinson, Frank G. Logan, Cyrus McCormick, John J. Mitchell, Honore Palmer, Abram Poole, Martin A. Ryerson, Edward Shaw, Charles H. Thorne. Ex officio, William Hale Thompson, mayor; Eugene R. Pike, city comptroller; John Barton Payne, president south park commissioners; Albert Mohr, auditor south park commissioners.

The Art Institute of Chicago was incorporated May 24, 1879, for the "founding and maintenance of schools of art and design, the formation and exhibition of collections of objects of art and the cultivation and extension of the arts of design by any appropriate means." The museum building upon the lake front, first occupied in 1893, has never been closed for a day. It is open to the public every weekday from 9 to 5, Sundays from 12:15 to 9 p. m. Admission is free to members and their families at all times, and free to all upon Wednesdays, Saturdays, Sundays and legal holidays. Upon other days the entrance fee is 25 cents.

All friends of art are invited to become members. Annual members pay a fee of \$10 a year. Life members pay \$100 and are thenceforth exempt from dues. Sustaining members pay \$25 or more a year. Governing members are elected by the trustees and pay \$100 upon election and \$25 a year thereafter. Upon the payment of \$400 governing members become governing life members and are thenceforth exempt from dues. All receipts from life memberships are invested and the income only expended. All members are entitled, with their families and visiting friends, to admission to all exhibitions, receptions, public lectures and entertainments given by the Art Institute and to the use of the Ryerson reference library of art. Visitors desiring to see the collections under guidance may make appointments with the museum instructors at the office of the director.

MUSEUM.

The Art museum now ranks among the first three in the country. It contains excellent examples of the old masters and of the modern painters. There is also a large and comprehensive collection of sculptures, including reproductions of the work of the greatest sculptors, ancient and modern. There is an extensive collection of architectural casts. Other fields of art are represented by collections of etchings, engravings, textiles, oriental art, Egyptian and classical antiquities, etc. There is a constant succession of passing exhibitions, thirty-five or more in a year. All students enjoy the full use of the collections and the library. The number of visitors to the museum during the year ended Dec. 31, 1917, was 851,336.

SCHOOL.

The Art school of the Art Institute, believed to be the first in the United States to undergo a complete reorganization to meet the new opportunities which are unfolding as a result of the war, carries on day and evening classes. There is a school for beginners, one for students in the various art professions, including painting, sculpture, designing, illustration, and normal art instruction, and one for advanced and highly trained students in the arts of painting and sculpture. In addition to these there are a Saturday school for young children and classes for city teachers, and evening classes for those engaged in work during the day.

The school is conducted with the most modern methods and has grown to be the most comprehensive and probably the largest fine arts school in the United States. Distinguished teachers from a distance are called in from time to time. Students may enter at any time. The tuition fees are as follows:

Day School—Registration fee, \$5; full time for term of twelve weeks, \$50; four weeks, \$20; four days a week, full term, \$33; four weeks, \$14; three days a week, full term, \$30; four weeks, \$12; two days a week, full term, \$24; four weeks, \$9; one day a week, full term, \$18; four weeks, \$7.

Half-Day Courses—Five half days a week, \$42 a term; four weeks, \$18; four half days a week, \$37 a term; four weeks, \$15; three half days a week, \$32 a term; four weeks, \$13; two half days a week, \$24 a term; four weeks, \$10; one half day a week, \$18 a term; four weeks, \$7.

Evening Rates—Registration fee, \$2; three nights a week, \$12.50 a term or \$5 for four weeks; two nights a week, \$10 a term or \$4 for four weeks; one night a week, \$7.50 a term or \$3 for four weeks.

Saturday Rates for Juvenile Class—Twelve half days for \$6.

Special Classes—

Pottery—Twelve half days.....	\$6.50
Leather—Twelve half days.....	6.50
Bookbinding—Twelve half days.....	6.00
Drawing—Twelve half days.....	6.00
Design—Twelve half days.....	6.00
Normal Classes—Twelve half days.....	6.00

SHERIFFS OF COOK COUNTY (1871-1920).

1871-1874—Timothy M. Bradley, Rep.
1874-1876—Francis Agnew, Peo.
1876-1878—Charles Kern, Dem.
1878-1880—John Hoffman, Rep.
1880-1882—O. L. Mann, Rep.
1882-1886—Seth F. Hanchett, Rep.
1886-1890—Canute R. Matson, Rep.
1890-1894—James H. Gilbert, Rep.
1894-1898—James Pease,† Rep.

1898-1902—Ernest J. Magerstadt, Rep.
1902-1906—Thomas E. Barrett, Dem.
1906-1910—Christopher Strassheim, Rep.
1910-1914—Michael Zimmer, Dem.
1914-1918—John E. Traeger, Dem.
1918-1922—Charles W. Peters, Rep.

†Term changed from two to four years. †Also appointed to serve unexpired term of Thomas E. Barrett, who died in March, 1906.

FOREIGN ORDERS CONFERRED ON CHICAGOANS.

- Urgos, Francesco—Crown (chevalier), Italy.
- Volini, Dr. Camillo—Crown (knight), Italy.
- Ziegfeld, Carl—Officer of French Academy of Public Instruction and Fine Arts, France.
- Ziegfeld, Dr. F.—Legion of Honor (chevalier), France.

ELEVATION OF CHICAGO AND LAKE MICHIGAN.

Mean sea level or mean tide at New York is the standard plane to which all elevations in the United States are referred, and the figures here given are heights above that plane. They are from the official records of the United States lake survey which have been maintained since 1860. The monthly mean surface of Lake Michigan has varied from 583.57 in June, 1886, to 578.98 in December, 1895. The annual mean surface has varied from 582.96 in 1886 to 579.47 in 1896.

The actual fluctuations in water surface from which these means are obtained have a much larger range and the immediate change in a few hours is often as great as two feet. The mean level of Lake Michigan from 1860 to 1914 (the average of all monthly means) was 581.20, and for the period from 1860 to 1875 it was 581.63, indicating that the mean level remains about the same, although the daily, monthly and an-

nual fluctuations may be quite large. The highest known monthly mean was in 1838—584.7—and the lowest was in 1819—578.0—these being somewhat indeterminate. The United States lake survey has adopted as a standard low water for reference of soundings on its charts 578.5, a little higher than the lowest ever known as a monthly mean.

The Chicago city datum is 579.94 and this plane is used in most local works, including the harbor improvements made by the United States. This is about one foot above the lowest monthly mean of recent years and 1.26 feet below the mean level 1860-1914.

For general purposes the level of Lake Michigan should be taken as being somewhere between 581 and 582 feet. The heights of land in Chicago vary from 590 to 652 (Galewood) but the average may be placed at about 600 feet. The downtown section runs from 586 to 593 feet.

STATUE OF THE REPUBLIC IN JACKSON PARK.

On Saturday afternoon, May 11, 1918, there was unveiled in Jackson park, Chicago, a bronze reproduction of the statue of the Republic which, at the time of the World's Fair in 1893, stood at the east end of what was known as the Court of Honor. Former Governor Edward F. Dunne was the orator of the day and Harlow N. Higinbotham, president of the World's Columbian Exposition, made the presentation speech. The unveiling was done by Misses Florence Crane and Priscilla Higinbotham, granddaughters of Mr. Higinbotham. Charles L. Hutchinson accepted the monument on the part of the south park commissioners and Miss Harriet Monroe read several stanzas from her "Ode on the World's Columbian Exposition," written for the dedication ceremonies when the fair was opened.

REPUBLIC STATUE.

The reproduction of the striking monument was made possible by the action taken in 1915 by nine of the original directors of the exposition. They voted to dissolve the corporation and to contribute the remaining assets, amounting to \$47,000, toward a fund for the making of a duplicate in bronze of the statue by Daniel Chester French, the sculptor who designed the original. The fund, which represented unclaimed dividends with interest, was turned over to the Art institute to be administered under the terms of the Ferguson fund, created by the will of Benjamin F. Ferguson for the erection of statues and memorials in suitable localities in Chicago. The cost of the work in position was more than \$50,000.

The statue stands on the site of the administration building, which, at the time of the World's Fair, faced the Court of Honor on the west. The pedestal is a large block of granite carved according to designs by Henry Bacon of New York.

LIST OF MONUMENTS IN CHICAGO AND SUBURBS.

Name, location and date of dedication or completion of each.

Alarm, The—Lincoln park; May 17, 1884.

Altgeld—Lincoln park, Sept. 6, 1915.

Anarchists'—Waldheim cemetery; June 25, 1893.

Andersen, Hans Christian—Lincoln park; Sept. 26, 1896.

Armstrong, George B.—Postoffice, north entrance; May 19, 1881.

Beethoven—Lincoln park; June 19, 1897.

Bohemian Soldiers and Sailors—Bohemian National cemetery; May 29, 1892.

Burns, Robert—Garfield park; Aug. 25, 1906.

Columbia Post No. 706, G. A. R.—Forest Home cemetery; June 8, 1913.

Confederate Soldiers—Oakwoods cemetery; July 23, 1893.

Douglas—Foot of 35th street; corner stone laid Sept. 6, 1866; dedication June 3, 1868.

Drake Fountain—Exchange avenue and 92d street,

South Chicago; dedicated Oct. 11, 1908; presented to city Dec. 26, 1892, and first stood on Washington street in front of courthouse.

Drexel Fountain and Statue—Drexel boulevard and 51st street; completed in June, 1883; no formal dedication.

Ericson, Leif—Humboldt park; Oct. 12, 1901.

Ferguson Fountain of the Great Lakes—On south terrace of Art Institute; Sept. 9, 1913.

Finerty, John F.—Garfield park; Oct. 11, 1914.

Fire (1871) Tablet—137 DeKoven street; 1881.

Fort Dearborn Massacre—Calumet avenue and 18th street; June 22, 1893.

Fort Dearborn Tablet—River street and Michigan avenue; unveiled May 21, 1881.

Franklin—Lincoln park; June 6, 1896.

Garibaldi—Lincoln park; Oct. 12, 1901.

Goethe—Lincoln park; June 13, 1914.

Grand Army 50th Anniversary Bronze Tablet—Garfield park; May 6, 1916.

Grant—Lincoln park; Oct. 7, 1891.

Grant Post No. 23, G. A. R.—Elmwood cemetery; June 28, 1903.

Hamilton—Grant park; Sept. 28, 1918.

Harrison, Carter H.—Union park; June 29, 1907.

Havlicek, Karel—Douglas park; July 30, 1911.

Haymarket—Union park; May 30, 1889.

Humboldt—Humboldt park; Oct. 16, 1892.

Illinois Centennial—Logan square; Oct. 13, 1918.

Indian Trail Tree Tablet—Glencoe; Nov. 7, 1911.

Iroquois Theater Fire Tablet—In hospital, 28 North Market street; Dec. 30, 1911.

Kennison—Lincoln park; Dec. 19, 1903.

Kinzie Tablet—Pine and Kinzie streets; July 11, 1913.

Koslusko—Humboldt park; Sept. 11, 1904.

LaSalle—Lincoln park; Oct. 12, 1889.

Lincoln—Lincoln park; Oct. 22, 1887.

Lincoln Memorial Bronze Bust—In front of Exchange building, Union stockyards; Feb. 12, 1916.

Lincoln Post No. 91, G. A. R.—Oakwoods cemetery; June 14, 1905.

Lincoln Wigwam Tablet—Market and Lake streets; unveiled May 11, 1910.

Linne—Lincoln park; May 23, 1891.

Logan—Grant park; July 22, 1897.

Logan Post No. 540, G. A. R.—Rosehill cemetery; June 1, 1900.

Marquette-Joliet—South Robey street and river; cross dedicated Sept. 23, 1907; tablet, May 6, 1909.

Mizenberg, S.—Waldheim cemetery, Sept. 24, 1916.

Mulligan—Calvary cemetery; May 30, 1885.

McKinley—McKinley park; July 4, 1905.

Press Club—Mount Hope cemetery; Nov. 12, 1893.

Reese, Michael—29th street and Groveland avenue; completed spring of 1893.

Republic, Statue of the—Jackson park; May 11, 1918.

Reuter—Humboldt park; May 14, 1893.

Rosenberg Fountain—Park row and Michigan avenue. Accepted by city Oct. 16, 1893.

Schiller—Lincoln park; May 15, 1886.

Shakespeare—Lincoln park; April 23, 1894.

Signal of Peace, The—Lincoln park; June 9, 1894.

Sweeney Post No. 275, G. A. R.—Evergreen cemetery, Barrington; Sept. 9, 1906.

Thomas Post No. 5, G. A. R.—Rosehill cemetery; Feb. 22, 1895.

Victoria—Garfield park; Oct. 16, 1893.

War of 1812 Tablet—In G. A. R. hall, Public Library building.

Washington—Grand boulevard and 51st street; completed June 6, 1904; no formal unveiling.

Washington Post No. 94, G. A. R.—Elmwood cemetery; Aug. 22, 1909.

Willich Post No. 780, G. A. R.—Town of Maine cemetery; Oct. 13, 1901.

OLD RESIDENTS OF CHICAGO.

Nov. 15, 1918.

In the following list of men and women who have lived in the city or its suburbs for sixty-eight years or more there are doubtless many omissions, though an effort has been made to make it as complete as possible. Additions to, changes of residence and other corrections of this list, which will be continued in future editions of this publication, will be gladly received. Names marked with an * are those of persons born in Chicago or Cook county. Ages when known are given in parentheses:

- 1827—Griffin, Ella, 2451 Seminary avenue.

Welfare Work of the Chicago Telephone Company

In the growth and development of large business enterprises employing thousands of workers, welfare work has become a vital factor in successful organization and administration.

The bulletin issued by the Committee on Industrial Relations of the Chamber of Commerce of the United States, on the subject of employment managers, says:

"Hitherto, executive control has been exercised through three main divisions of management:

1. Finance—Usually in charge of the treasurer.
2. Manufacturing—Sometimes in charge of a general manager.
3. Sales—In charge of a sales manager.

"To these general divisions of every industrial enterprise, is now added a fourth, i. e.,

tion of this company is so large, its welfare work is supervised by a series of committees composed of the active heads of the departments concerned.

The company believes that welfare work, or perhaps "welfare interest," should concern itself with every influence in the business that affects the comfort, the health, the contentment or the growth of the worker. This includes the question of wages, hours of work, the working quarters and their appointments, the training and education of workers, the encouragement of such healthful outside interests as seem to connect naturally with the business, and most important of all, the everyday relations of bosses of all ranks with their subordinates.

The basic principle of those in charge of the Chicago Telephone Company's welfare work

Telephone Operators Enjoying Tennis on Court Near Telephone Office.

personnel, or, as it is called in these courses, employment or service management. Under the head of employment or service departments are gathered all those activities which have to do with human relations—legislation, safety, education, recreation, employment, discipline, the wage system, pensions, sick benefits, etc. Bringing all these matters together under one head and manning each subsection with specialists comes as near to scientific industrialism as is possible."

The Chicago Telephone Company, as a part of the Bell System, has recognized the value and need of the department outlined in this industrial bulletin. It has organized and carried on its welfare work with the object of covering, in the most efficient manner possible, every phase of the subject. As the organiza-

tion is that of establishing a spirit, a tradition throughout the whole working force. They aim to develop a feeling on the part of every department head, big and little, that the well-being and happiness of the workers under him is one of his first responsibilities. They have encouraged each person to feel that he or she is of importance individually, and not a mere impersonal cog in a big unfeeling machine. They want each one to like his job, which may not be wrongly considered as a real justification for all welfare work.

Most of the influences which tend to make the activity of the worker in industry a drudgery are removable. Where they exist they are due principally to the atmosphere in which he works—the lack of any friendly interest in him, the neglect of his personality. If his

CHICAGO TELEPHONE COMPANY—Continued.

chief is interested in him and what he is doing, and shows it in the way he gives him orders, and even in the way he reproves him; if he shows an interest in any private difficulties that may be bothering him, then barring some fundamental trouble, such as insufficient wages, bad workrooms, etc., the chances are ten to one that the worker will be happy in his work. In putting its welfare plan into operation the Chicago Telephone Company had this conception of what it wanted to accomplish. It believed that the more it depended upon its existing organization to carry out the program, the more effective the results would be, and the more it had to specialize and separate the more difficult it would be to attain the desired ends. It is true, however, that there must be a few specialists devoting themselves exclusively to some phases of welfare work. For example,

be of real help to them in handling problems like that of the lineman previously described. When they get together they make a good team—the doctor supplying the information and the sub-head the influence.

It is more or less evident that the head of a small unit is really the best welfare worker. The executive head of a big welfare department such as that maintained by the Chicago Telephone Company is of necessity a man of broad vision, who initiates and establishes many big things for the well-being of employes, but the sum total of the little day by day happenings, the way an order is given or criticism made by the foreman of a crew of linemen, or a chief operator, has a much greater effect on the attitude of a subordinate toward his work.

In other words, the welfare organization of the Chicago Telephone Company must and

Typical Operators' Rest Room in Chicago Telephone Office.

the foreman of a crew of linemen cannot be expected to know that the reason one of his men loses so much time through rheumatism is that he has an abscess at the root of a tooth. The doctor in the Health Department must be depended upon for that information. On the other hand, because the doctor is often a side line in a separate department, he is greatly handicapped in carrying out his part of the work, which is to cure the lineman so that he can work regularly. The doctor is long on information as to what the lineman needs, but short on influence with him.

The company, after careful consideration of the matter, decided that it was best to make the Health Department a separate organization. It was necessary, of course, to impress employes with the value of a Health Department, and gradually make them realize that its function was to conserve their interests. More and more the department sub-heads have come to recognize that this department can

does secure the fullest co-operation of the working forces. General policies are left with the head of the welfare department, but it has not been considered wise to take away what may be termed the human relationship from the foreman or superintendent. Those in charge of the welfare work have found that by putting welfare problems entirely in the hands of specialists they would find themselves in the same category with the busy man who puts all his Christianity up to his pastor or priest so that he can devote his time and attention to other things.

Among the principal welfare efforts of the Chicago Telephone Company the most important is that covered by the Benefit Fund Plan. This plan really has a much longer title and covers the payment of benefits during absences caused by sickness or accident, the payment of death benefits to the dependents of deceased employes, and the payment of pensions to employes retired because of old age or

CHICAGO TELEPHONE COMPANY—Continued.

complete disability. The plan is a uniform one adopted by all of the Bell Telephone Companies. The employes are not required to make any contributions toward the expenses involved.

For the Chicago Telephone Company the operations of the plan are directed by a committee consisting of five members, who are the heads of various departments in which almost all of the workers of the company are employed. The provisions of the plan are fully described in a small booklet printed by the company.

Sickness disability benefits are paid only to employes who have had a record of two years continuous service with the company, and the length of the period for which full time or half time payments are continued depends upon the length of service. Benefits for disability caused by accidents happening in connection

The company physicians also make a physical examination of all applicants for employment in order to eliminate those physically unfit for the work or who suffer from afflictions that would make them a menace to others. However, the final authority for the acceptance or rejection of an applicant is vested in the man who is responsible for the work to be done. The doctor's function is simply to ascertain the facts and make recommendations.

In dealing with the other phase of the work of the Health Department—the giving of medical help and advice to employes—the greatest tact and judgment are required, as those in charge of this work are to a certain extent breaking into the private affairs of the employes. To many it might seem simpler and easier to order the man to the Health Department, and to follow its advice or give up his

Baseball Team Composed of Chicago Telephone Employes Ready for Saturday Afternoon Game.

with the work of the company are paid regardless of the length of service of the employe. To be entitled to an old age pension an employe must have had at least twenty years of continuous service, and the amount of the payments is based on the number of years of service and on the average salary for the last ten years of service.

Closely associated with the Benefit Fund Plan is the Health Department of the Chicago Telephone Company. It is directed by the same committee that administers the Benefit Plan. The function of the Health Department is the conservation of the bodies and physical force of employes, the minimizing of loss of working time through sickness, the saving of lives and working efficiency through the discovery of previously unrecognized sources of trouble and through advice as to possible means of cure or correction.

position, but if such methods were followed the Health Department would not be accepted by the force as a friendly, helpful agency.

The Health Department is always ready to indicate the necessary treatment, but does not, however, undertake to provide that treatment, except in the most simple cases. A man makes his own arrangement with his family physician or any physician that he may select, the company doctor giving him such advice as he requests.

The staff of doctors in the Health Department consists of a chief surgeon and assistant, who care for all the accident cases, and four physicians who care for the sickness cases and examination of applicants. One of the four is a woman, and deals only with woman applicants or employes. In addition, two other woman physicians are assigned exclusively to the examination of applicants for positions as telephone operators. When visits to sick em-

CHICAGO TELEPHONE COMPANY—Continued.

ployes at their homes are necessary they are made by visiting nurses or special workers connected with the department in which the employe works. These visitors call on the company doctor to visit sick employes at home only when, in their judgment, it is necessary.

In a good many cases it is found that employes cannot get well unless they have care and treatment which they are unable to pay for, even with the help of the sick benefits. Many of these cases are cared for through the generosity of outside physicians and surgeons, but in the main the help comes from two funds established, one called the Loan Fund and the other the Relief Fund. Both are administered by committees similar to the ones previously mentioned.

The Loan Fund is an attempt to beat the loan shark game. There were hundreds of cases where employes simply had to borrow money from some one, and personal friends or loan sharks were their only recourse. The Loan Fund was established on April 1, 1912, and the transactions were put on the basis of a loan between friends and not on a business basis, so no interest or other fees were charged. The idea was that repayments would be kept up better if the loan were classed as a debt of honor, and this plan has been more than justified by the results.

Loans of any reasonable amount are made to any employe who shows a real need. While each loan must be approved by the committee, the direction of each case is always entirely in the hands of the head of the borrower's department. The cases of financial entanglement that have been uninked as much by the chief's advice and help as by the money loaned have been so numerous, and the sympathy and understanding engendered have been so great, that these effects are looked upon as the most valuable feature of the plan, and although the evil influence of the loan shark has been greatly reduced by recent legislation and the operation of the Morris Plan Bank, the Chicago Telephone Company still continues its Loan Fund.

Cases are frequently found where the usefulness of valuable employes is seriously affected or destroyed by conditions which can be met only by outright gifts of money. These are mostly serious cases of illness, such as major operations and tuberculosis, which bring the employe face to face with the fact that only a long and expensive course of sanitarium or hospital treatment can save his life. Frequently neither he nor his family can meet the expense. To care for this situation the Relief Fund was established, administered by a committee to whose attention cases are brought by the various department heads, the visiting nurses, or the doctors of the Health Department. Many employes are doing useful work to-day whose lives have been saved by this fund.

Five or six years ago physicians and visiting nurses of the Chicago Telephone Company began calling attention to the fact that many of the company's young girls, particularly, were unnecessarily slow in recovering from serious illnesses or operations because the conditions under which they had to pass through the convalescent period were unfavorable. One of the company's welfare workers requested that she be allowed to rent a house in a suburban town and undertake the care of a few girls during convalescence. This was done, and it was at once so evident that a real need was being met that the next year a larger house was rented, and two years ago the company purchased about forty acres of land in DuPage county and built an attractive and well equipped home which accommodates about thirty girls. Here there was good country food, largely grown on the place, and under a

routine not strict but requiring regular habits a great many emaciated girls have been transformed into healthy and happy ones.

Much has been written about the strain in industry, particularly as it affects woman workers, giving the idea that the more or less continuous use of body and mind is not the normal life of many women. The number of workers in the telephone business, or in almost all other modern industries, who are physically injured by the work they perform is so small as to be negligible. This applies of course to the strain of fatigue, or fatigue effects, and not to accidents, poisonings, etc., that occur in certain hazardous occupations. The Chicago Telephone Company's physicians have studied many cases of nervous breakdown, generally rundown conditions, and other superficially diagnosed conditions usually attributed to overwork, and invariably they come to the conclusion that there is some underlying cause, such as neglected infections, goiter, bad living conditions, home worries, etc. It is safe to say that most of the workers who have broken down would have done so all the earlier had they not been employed, and the hours devoted to their daily work had a better effect on their physical and mental condition than did any other of their waking hours. With some of them sleeping hours could be included.

There are certain features of welfare work of the Chicago Telephone Company which are indicative of the welfare spirit that may be passed over with a mere mention, not because they are unimportant but because they are so generally accepted, and there is so little difference in the practice of most employers. These features include such things as good workrooms, restrooms, lunchrooms, toilet room arrangements, drinking water supply, all things affecting the comfort and health of employes, and schools and courses of training new employes and increasing the value and earning capacity of old ones. In connection with lunchrooms, the Chicago Telephone Company follows a practice that differs from that of most employers, as it furnishes operators a simple lunch for which no charge is made.

The Chicago Telephone Company pays careful attention to Safety First work and with the exception possibly of the work of its linemen, who are few in number, there are not many hazards in the conduct of its business. The company has no special safety organization, but is constantly bringing before its people the need of carefulness, and every foreman and man in authority has drilled into him the realization that he is responsible for the safety of his men, even more than for that of his tools and materials.

Activities which tend to promote acquaintance and friendliness among fellow employes are encouraged by the Chicago Telephone Company. The employes organize company and departmental baseball teams, bowling teams, tennis leagues, musical organizations, garden associations, etc. Many of these organizations are entirely independent of the company support. Others depend wholly or in part on the company for financial support, meetings, places, etc. In some form or other, however, they generally desire official recognition by the company, which is accorded by another committee, in which all the departments concerned are represented. The committee does not encourage any club or association for which there does not seem to be a spontaneous demand among the employes.

The Chicago Telephone Company has found welfare work a paying investment in every sense of the word, and its experience has shown that in order to give efficient service to the public it must have a force of efficient, healthy and contented employes.

Some Interesting Figures

In 1907, when the traction problems were solved by the adoption of the so-called "Settlement Ordinances" (after the entire question had been submitted to a referendum vote of the residents of Chicago), a value was established by the city of Chicago for the properties as they then existed. That valuation, which was more than \$30,000,000 below the value claimed by the companies, arbitrarily disregarded many millions of capital that had actually been invested in their securities.

To this 1907 valuation the city has permitted the companies to add the amounts actually expended on capital account when authorized and certified by the Board of Supervising Engineers. These expenditures, covering track extensions and additions to equipment, brought the total purchase price as of January 31, 1918, to \$155,201,388. This represented the figure at which the city might have taken over the properties if it chose to exercise the right at that date.

The companies pay to the city of Chicago for the privilege of operating their cars in the streets 55 per cent of their net receipts annually. This has amounted in eleven years to over \$24,000,000.

Like other corporations, the Surface Lines have borne their share of taxation, this item aggregating nearly \$12,000,000 in the last eleven years. In addition the companies have been required under the ordinances to contribute in purely public benefits which were no legitimate part of the cost of transportation a further sum approximating \$15,000,000, on account of paving, maintaining paving and cleaning and sprinkling right of way.

The total payments on account of these various forms of public benefits, including taxes, exceed \$45,000,000.

Suggestions for Visitors.

Chicago, aside from its importance as a great business center, has numerous attractions which make it the ideal vacation city, and its location on the shores of Lake Michigan justifies its recognition as the ideal summer resort.

The Surface Lines offer the most convenient transportation in Chicago. An interesting folder with a map of the sight-seeing district can be had on application to room 804, the Borland building, corner Monroe and LaSalle streets.

Here are a few suggestions to the visitor who desires to become acquainted with some of Chicago's attractions and for the general information of those who would like to have a more comprehensive idea of what to see and how to see it.

NEW MUNICIPAL PIER—Here is one of Chicago's newest and greatest wonders—a great recreation center and a steamboat landing extending 3,000 feet into the lake and costing about \$5,000,000. Here one may enjoy the cooling breezes of Lake Michigan while getting an expansive view of the city's sky line. There are many attractions on the pier itself during the season, including observation towers, board walk, children's playground, open air and inclosed restaurants, public dining room for picnickers and immense freight and passenger boat terminals. No one should miss this trip. Take through route No. 1 car in Wabash avenue, State street car in State street, Broadway car in Dearborn or Randolph street, Clark street or through route No. 22 car in Clark street, or Lincoln avenue car in LaSalle street; ride north to Grand avenue and transfer east to the lake. Cars operate on the pier.

CLARENDON BATHING BEACH—This municipal enterprise is one of the newest attractions in Chicago. It is owned and operated by the city and should be visited by every one. Costly buildings beautify the premises. Ten thousand bathers can use the beach at one time, and even if one does not care to "take a dip" a pleasant afternoon can be spent here. Take through route No. 1 car in Wabash avenue or Broadway car in Dearborn or Randolph street, ride north to Sunnyside avenue and walk east to the lake.

CHICAGO'S GREAT ZOO—No collection of animals in the United States is more complete or interesting than the one in Lincoln park. Here are 1,700 specimens which are a continual source of delight to children and grownups alike. One cannot visit the "Zoo" too often. Take through route No. 1 car in Wabash avenue, Clark street or through route No. 22 car in Clark street, Broadway car in Dearborn or Randolph street, or Lincoln avenue car in LaSalle street, ride north to main entrance of Lincoln park at Center street.

CHICAGO'S WONDERFUL PARKS.

DOUGLAS PARK—Has many attractions, such as athletic field, flower gardens, boating facilities and natatorium. Take 12th street car in Dearborn or Adams street, or Ogden avenue car in State or Randolph street, ride west to park at 12th street and California avenue.

GARFIELD PARK—Has many attractions, including flower gardens, boating facilities, public golf course, largest conservatory in the United States, several statues. Take Madison street car in Madison street to park entrance at Central Park avenue.

CHICAGO PARKS—Continued

HUMBOLDT PARK—Offers facilities for boating and other recreation and has some attractive statues. Take Division street car in State or Washington street and ride west to park at terminus of line.

JACKSON PARK—One of Chicago's most beautiful spots, on part of which was located the World's Columbian Exposition in 1893. Here are splendid boating facilities, a bathing beach, two public golf courses, Field museum, flower gardens, government life saving station and LaRabida sanitarium. Take Jackson park car or Stony Island-93d car in Wabash avenue to "Midway" at 59th street.

LINCOLN PARK—One of the city's most interesting attractions. See Zoo with 1,700 animals, Academy of Sciences, bathing beach and golf course near Diversey boulevard, conservatory, flower gardens, boating and other recreation facilities; also the world famous Saint Gaudens statue of Abraham Lincoln. Take through route No. 1 car in Wabash avenue, Clark street or through route No. 22 car in Clark street, Broadway car in Dearborn street or Lincoln avenue car in LaSalle street, ride north to main entrance of park at Center street.

WASHINGTON PARK—Offers facilities for boating and other recreation. Take through route No. 3 car in Wabash avenue and ride south to terminus at park, or take Cottage Grove car in Wabash avenue and ride south to 55th street entrance.

OTHER POINTS OF INTEREST.

ACADEMY OF SCIENCES—A noted museum of natural history having many interesting specimens. Open from 9 a. m. to 5 p. m. daily and 1 p. m. to 5 p. m. Sundays. Free. Take through route No. 1 car in Wabash avenue, or Clark street or through route No. 22 car in Clark street, or Broadway car in Dearborn street, or Lincoln avenue car in LaSalle street, ride north to Lincoln park entrance at Clark and Center streets.

FIELD MUSEUM—One of Chicago's "seven wonders" is this costly collection of natural history material gathered from the remotest corners of the world. Its present home in Jackson park was the Fine Arts building of the World's Columbian Exposition of 1893. A permanent building to house this great institution is being erected on Grant park at a cost of \$4,000,000. The museum is open to visitors 9 a. m. to 4 p. m. daily—free on Saturdays and Sundays. Take Jackson park or Stony Island-93d car in Wabash avenue to 57th street and Stony Island avenue and walk east toward the lake.

CUBS' PARK—Home grounds of Chicago's National league team. Take Clark street or through route No. 22 car in Clark street and ride north to entrance at Addison street.

SOX PARK—Home grounds of Chicago's representative in the American Baseball league may be reached by taking Wentworth avenue or through route No. 2 or No. 22 car in Clark street. Ride south to 35th street and walk one block west to park entrance.

HAYMARKET SQUARE—This largest market for truck garden produce was the site of the anarchist riot in 1886. The activity of this place any weekday morning is worth watching. Take Ogden avenue car in State, Randolph or Lake street, and ride west to Desplaines street. Or take Madison street car west as far as Desplaines street and walk north two blocks to Randolph street. A stroll for several blocks west through the market will be interesting.

CHICAGO DEATH ROLL.

Dec. 1, 1917, to Dec. 1, 1918.

- Abbey, Charles (1865), lawyer, May 21.
 Affeld, Mrs. Helen W. (1846), teacher and artist, July 3.
 Ahrens, John P. (1851), lawyer, Jan. 31.
 Albright, William F., music dealer, April 8.
 Almy, Miles (1831), realty dealer, in Pasadena, Cal., March 25.
 Amberg, William A., stationer, at Mackinac island, Sept. 5.
 Ames, Franklin (1845), department manager, Jan. 20.
 Anderson, David S. (1848), telegraph office manager, June 3.
 Andrews, Wells (1853), physician, July 3.
 Angle, Harrison M. (1867), manufacturer, April 26.
 Arend, William N. (1832), architect, Sept. 23.
 Ashley, James H. (1880), bank cashier, in Hinsdale, Sept. 26.
 Ayres, Mrs. Sarah F. (1827), Feb. 20.
 Baer, Bernard P. (1860), police captain, Jan. 8.
 Baird, Frank T. (1846), musician, in Aurora, Ill., April 13.
 Baird, William H. (1851), real estate dealer, Sept. 7.

North Dearborn street; president, Mrs. Ida L. Fursman; corresponding secretary, Frances E. Harden; recording secretary, Miss Mary Dwyer; financial secretary, Miss Ida Schiffin; treasurer, Miss Mary E. Murray; business representative, Margaret A. Haley.

Chicago Teachers' Relief Society—President, Peter A. Mortensen; secretary, Miss Marion H. Dyer, 2717 Wilcox street.

A Remarkable Record

IN recognition of the results obtained from safety measures in practice on the Chicago Elevated Railroads, the American Museum of Safety in 1916 awarded "Honorable Mention" to the Chicago Elevated Railroads in the Brady Medal contest among electric railroads.

Ten years without one fatal accident

One billion seven hundred millions of passengers—equivalent nearly to the population of the world—have been carried by the Chicago Elevated Railroads during ten years without a single fatal accident while on their trains.

Safety first, last and always is the constant watchword of the Elevated management. Civic pride alone, aside from individual interest, should induce Elevated patrons to co-operate in the elimination and prevention even of minor accidents.

SAFETY

SPEED

SERVICE

COURTESY

WHERE TO GO AND WHAT TO SEE AND HOW TO GET THERE ON THE ELEVATED

NORTHWESTERN UNIVERSITY See the great gymnasium and new dormitory system. Take Evans-ton trains on Northwestern Elevated, get off at Davis Street Station and walk east about one-half mile.

UNIVERSITY OF CHICAGO 53th Street and Ellis Avenue. Take Jackson Park Trains on South Side Elevated, get off at University Station and walk one-fourth mile north.

UNION STOCK YARDS The largest packing center in the United States. Obtain a grand bird's-eye view of the Yards from the elevated trains. Take South Side Elevated Trains to Indiana Avenue Station and transfer to Stock Yards Trains. The large packing houses furnish guides to conduct visitors through the packing plants.

City Parks

GRANT PARK 205 acres. Logan Monument, Art Institute, Spirits of the Great Lakes Fountain. Directions: Take Metropolitan, Chicago & Oak Park or South Side Elevated to Adams and Wabash (Loop) and walk one block east, or Northwestern Elevated to State, Dearborn and Van Buren (Loop) and walk two blocks east. This park is reached by all elevated lines.

JACKSON PARK 543 acres. Site of World's Fair. Field Museum of Natural History, Rose Gardens, the Convent of La Rabida, golf courses and yacht harbor. Jackson Park Station. South Side Elevated Jackson Park Trains.

WASHINGTON PARK 371 acres. Largest athletic field in the world. Twelve baseball diamonds, free exhibition games, beautiful walks and drives. Station, 51st or 55th street, South Side, Jackson Park or Englewood Trains. Walk one and one-half blocks east.

GARFIELD PARK 188 acres. Largest conservatory in the world. Beautiful landscape gardening, Golf, tennis and boating. Station, Garfield Park. Metropolitan Garfield Park Trains or Chicago & Oak Park Trains.

UNION PARK 18 acres. Lawn tennis and wading lagoon. Ashland Station. Chicago & Oak Park Trains.

HUMBOLDT PARK 206 acres. The most perfect rose garden in the United States; famous statues of heroes, statesmen and warriors; fish hatching. Humboldt Station. Metropolitan Humboldt Park Trains.

DOUGLAS PARK Immense floral garden; picturesque water court; park of open spaces. Douglas Park Station. Metropolitan Douglas Park Trains.

LINCOLN PARK 517 acres. Zoo with 1,800 animals; boating; bathing; Academy of Sciences and yacht harbor. Sedgwick Station. Northwestern, Ravenswood or Wilson Local Trains. Direction: Five blocks east.

OGDEN PARK 61 acres. Recreation buildings, assembly hall, clubhouse, outdoor gymnasium, swimming pool and athletic field. Racine Ave. Station. Englewood Trains South Side Elevated.

Public Buildings

FIELD MUSEUM OF NATURAL HISTORY Location, Jackson Park. \$6,000,000 collection divided into four departments: Anthropology, Botany, Geology and Zoology. Main building covers nine acres. Open daily, free Saturdays and Sundays. Jackson Park Station. Jackson Park Branch, South Side Elevated.

ART INSTITUTE Michigan Boulevard and Adams Street. Among the first three or four art institutes in the country. Adams and Wabash (Loop). Metropolitan, South Side and Oak Park Trains; walk one block east. Northwestern Trains to State-Dearborn Station and transfer to Loop Local. Open free Wednesdays, Saturdays and Sundays.

CITY HALL AND COUNTY BLDG. Clark and Lake Streets. Clark and Lake (Loop). All Metropolitan, South Side and Oak Park Trains. All Northwestern Trains to Randolph and Fifth Avenue and transfer to Loop Local. Walk one block south.

POST OFFICE AND FEDERAL BUILDING Clark, Adams and Jackson Blvd. All Metropolitan, Northwestern and Oak Park Trains to State and Dearborn (Loop); walk one block north. South Side Trains to Adams and Wabash (Loop) and walk two blocks west.

MUNICIPAL MUSEUM AND CHICAGO PUBLIC LIBRARY Randolph Street and Michigan Boulevard. Randolph and Wabash Station on the Loop. All "L" Trains. One block east.

BOARD OF TRADE Jackson Boulevard and LaSalle Street. LaSalle and Van Buren Station on the Loop. All "L" Trains. One block north.

Amusement Parks

WHITE CITY PARK 63d Street and South Park Avenue. South Park Station. South Side Jackson Park Trains.

FOREST PARK Harrison Street and Des Plaines Avenue. Des Plaines Avenue Station. Metropolitan Garfield Park Trains.

RAVINIA PARK Ravinia. Northwestern western Evanston Train to Central Street Station. North Shore Line direct to Ravinia Park.

Baseball Parks

WHITE SOX PARK 35th Street and Shields Avenue. 35th Street Station. South Side Trains. Five blocks west.

CUBS PARK Addison and Clark Streets. Addison Station. Northwestern Trains. One block west.

Bathing Beaches

CLARENDON MUNICIPAL BEACH Clarendon and Sunnyside Avenues. Wilson Avenue Station. Northwestern Evanston or Wilson Trains. Four blocks east, one block south. Largest and finest beach in Chicago.

WILSON BEACH Wilson Avenue and Lake. Wilson Avenue Station. Northwestern Evanston or Wilson Trains. Four blocks east.

JACKSON PARK MUNICIPAL BEACH 60th Street and Lake. Jackson Park Station. South Side Jackson Park Trains. Three blocks north and east to Lake.

All Electric All the Way

from Chicago to Milwaukee

QUICK, clean, dependable service and a delightfully enjoyable trip with beautiful scenery and scores of notable points of interest all along the route—that's what it means to travel via this North Shore line. Start from anywhere in Chicago and take any

"Evanston Express" Train on the Elevated

Direct connections at Central Street, Evanston, with the North Shore Line, 36 limited trains daily. Numerous local trains. Comfortable, roomy, easy-riding cars—many of them all steel. Double track nearly all the way between Evanston and Milwaukee.

"The Torrens System is of benefit to the poor man who needs to save money, to the business man whose time is money and to all men who wish to save both time and money."

ROBERT E. L. BROOKS,
Member Cook County Real Estate Board.

TORRENS SYSTEM

OF

REGISTERING LAND TITLES

By JOSEPH F. HAAS,
Registrar of Titles for Cook County.

This system provides for the establishment of the status of the legal title to real estate by a decree of Court and, also, provides for the issuance of a "Certificate of Title" to the property, when so established, by a Public Officer, the Recorder of Deeds (Registrar of Titles), without delay and at small expense to owners.

It simplifies Real Estate transfers and affords absolute security for real estate owners. Lawyers and real estate dealers endorse and recommend its use. Compared with the abstract and guarantee policy systems, its cost is much less and its benefits and protection are much greater.

The initial registration is \$26.00 and up.

The purchaser pays the transfer fee of \$3.00 when the property is sold.

The certificate of title issued by the Recorder of Deeds (Registrar of Titles) under the Land Registration Act is the obligation of Cook County, and also has back of it the Indemnity Fund of \$1.00 per thousand on the value of all registered real estate. The Certificate is based upon the Court Decree. It is not an insurance policy limited in amount or otherwise, but is the guarantee of Cook County. An examination of the Certificate tells instantly who the owner is and what the condition of the title is. Sales can be made when the property is once registered, and a new Certificate issued to the purchaser without delay and at an expense of \$3.00.

Cook County Guarantees

**REAL ESTATE OWNERS
LAWYERS, BROKERS
AND LAYMEN**

**PROMPT AND EFFICIENT SERVICE
BY THE OFFICE OF THE**

RECORDER OF DEEDS

TORRENS LAND CERTIFICATES

Absolutely guarantee title to land when registered. Under this system, transfers and loans can be closed without cost to the seller within forty-eight hours.

THE MUNICIPAL ABSTRACT PLANT

Furnishes merchantable abstracts of title 40% cheaper than prices charged by abstract companies.

PETER REINBERG,
President Cook County Board.

JOSEPH F. HAAS,
Recorder of Deeds.

PRICES FOR MESS PORK AND LARD FOR FORTY YEARS.

The following table shows the lowest and highest cash prices for mess pork and prime steamed lard in the Chicago market for the past forty years and the months in which extreme prices were reached:

MESS PORK.

Year.	Lowest in—	Range.	Highest in—

UNION STOCKYARDS, CHICAGO.

The Union stockyards of Chicago, occupying its present site since 1865, is the largest live stock market in the world. Its yard area of 500 acres contains approximately 13,000 pens, which have a daily capacity for 75,000 cattle, 150,000 sheep, 500,000 hogs and 6,000 horses.

Since the Union stockyards of Chicago were established there have been received and sold on this market a grand total of more than 550,000,000 animals for an aggregate sum of \$10,700,000,000, for every dollar's worth of which sales there was an actual delivery of the property.

For the last ten years an average yearly total of over 16,000,000 animals was sold for the stupendous annual average sum of over \$350,000,000. That means that a general average of considerably more than \$1,000,000 worth of living property was sold and delivered every business day during the last ten years on the Chicago live stock market. These figures do not embrace the enormous daily transactions of "Packing-town," which are second in magnitude only to those of the Union stockyards proper.

More than twenty-six states supply Chicago with live stock and during the last ten years there have been sold and shipped alive more than 46 per cent of the cattle, 22½ per cent of hogs and 26 per cent of sheep, showing the constant healthy competition in buying live stock at Chicago.

The Chicago live stock market supplies the world with meats. Nowhere is there such a demand for live animals. Packers buy thousands of carloads on other markets and ship them to Chicago for slaughter, and speculators buy and ship them to Chicago for sale.

The city of Chicago alone consumes more than 400,000,000 pounds of meats per year, equal to 800,000 head of cattle annually, and her packers send millions of tons of meat annually to the four corners of the earth.

Eastern buyers, exporters, independent local slaughterers and country feeder buyers constantly compete with the larger packers for the daily offerings. The Union stockyards of Chicago receives the greatest number of animals and has the largest number of buyers to purchase and use them.

TABLE OF CONTENTS

OF THE FIRST THIRTY-FOUR VOLUMES (1885 TO 1918 INCLUSIVE) OF THE CHICAGO DAILY NEWS ALMANAC AND YEAR-BOOK.

NOTE—The figures following the year are the page numbers of that volume.

Complete sets of THE DAILY NEWS ALMANAC AND YEAR-BOOK from the year 1885 to 1919 inclusive can be supplied for \$25.00, transportation prepaid. The first five issues for the years 1885, 1886, 1887, 1888 and 1889 are bound in one volume, half morocco, library style. This volume is sold only to purchasers of complete sets. A complete set embraces the library volume and a cloth bound issue for each succeeding year.

Single cloth bound copies can be bought for the years 1890 to 1918, except for 1892, 1893, 1897, 1904, 1905, 1906, 1908, 1910, 1913, 1915 and 1916, at the rate of 50 cents each, transportation prepaid. Single paper covered copies can be supplied for each year from 1886 to 1903, except 1897 and 1899, for 25 cents each at the office of publication, or 35 cents by mail.

Orders should be addressed to THE DAILY NEWS office, 15 North Wells street, Chicago, Ill.

Abbreviations—1915, 165; 1916, 213; 1917, 44.

Abdul Hamid Deposed—1910, 212.

Absent Voting Law—1918, 613.

Abyssinia—In each volume since 1902.

Academy of Arts and Letters, American—1913, 402, and in succeeding volumes.

Academy, French—1902, 132, and in succeeding volumes.

Academy of Sciences—In each volume since 1903.

Acapulco Theater Fire—1910, 152.

Daily News "Want Ads" Pay

With certain few exceptions the "want ad" is without value outside the city in which it is published.

The "want ad" is generally a local appeal to local people.

Therefore the ordinary "want ad" depends for its effectiveness entirely upon the city circulation of the paper in which it is published.

Of the more than a million readers of THE DAILY NEWS (estimating three readers to the copy) over 94 per cent live in Chicago and its immediate suburbs.

Seven out of every nine people in Chicago who read the English language read THE DAILY NEWS.

THE DAILY NEWS has more readers in Chicago than any other newspaper, daily or Sunday.

Here, then, is the explanation of the tremendous producing power of DAILY NEWS "want ads."

To make known your Chicago wants to Chicago people put your advertisement in THE DAILY NEWS "classified" columns—generally recognized as Chicago's "WANT AD" DIRECTORY.

If you want to hire help for home or business; if you want employment; if you want to sell or buy real estate; if you have anything to exchange; if you want to locate a missing person or make an announcement; or if you have any want of any kind—make that want known through the "want ad" columns of

Every advertiser, large or small, national or local, is seeking to accomplish one definite result through his advertising — which is to individualize his name, his store or his product in the public mind, thereby securing an increase of business.

Outdoor advertising reaches the buyer whose address you cannot get.
